Waterways of England

Upon the recommendation of the General Purposes Committee, it was resolved:-

That this Council having in view the cheaper transit facilities due to canal development in Germany, France, and Belgium, the countries chiefly competing with our manufacturers in our own and foreign markets, the congested conditions of transit of heavy and bulky goods in this country and the consequent hindrance to trade, urges the Government to take immediate action upon the report and recommendations of the Royal Commission on Canals, appointed upon their advice, by introducing a Bill to give immediate effect to Paragraph 943, sub-sections 1 and 2, of the Report, which recommends the appointment of a Waterways Board, and the acquisition by the State of the four trunk or main canal routes (referred to as "the Cross", Rep. par. 485) The Waterways Board acting as the controlling authority to be toll-takers only, not carriers (Rep. par 815)

That a copy of the foregoing Resolution be forwarded to the Prime Minister, and to the Member of Parliament for the Division with a request to support any proceedings which may be taken in the House to give effect to the above Resolution, and that the Secretary of the Waterways Association be advised
