TERMS OF REFERENCE.

On the 14th September last, the Council passed the following resolution :—

> "THAT a Special Committee be appointed consisting of the Chairman and Vice-Chairman of the Council, the Chairman of the Education Committee and one representative from each Ward, to advise the Council what economies in expenditure under its control should be put into operation."

We now submit the following report and recommendations :—

INTRODUCTION.

In approaching the difficult task assigned to us we have borne in mind the following general considerations in arriving at recommendations, which will have an effective result on the Council's Budget for the current financial year without unduly retarding the existing services of the Council, or hampering future economic development.

1. Essential and necessary services must be continued.

2. Though it may be possible to effect economies in relation to the services indicated in paragraph 1 it is to be pointed out that merely to reduce figures in an estimate would be futile unless the Committees and Officers concerned limit the issue of official orders for goods and services and restrict the employment of additional labour.

3. Proposed expenditure on new services which can be done without (provided there is no detriment to the ratepayers and the efficiency of the district) should be struck out of the estimates.

4. Additional expenditure on new, or increasing services, which are essential to the efficiency of the district, would still have to be incurred.

5. In a growing district such as this, the erection of new houses, the consequent growth in population and general development will cause unavoidable increases in outlay. In this connection, it is to be borne in mind that there is a tendency for outlay (especially Revenue Outlay), to lag behind growth of Rateable Value. It is clear that the cost of such services as scavenging, road maintenance, street lighting, etc., only gradually becomes a charge, though rates may have been drawn in full from the properties concerned.

6. The main object therefore, would appear to be the establishment of a datum line for expenditure, though regard must be paid to the considerations set out in paragraph 5. Having established a datum, the only variation should be that automatically brought about by increases of Rateable Value.

7. The considerations set out in the foregoing apply to all services administered by the Council in any of its capacities, and whether borne by rates, loans, or self-supporting.

8. Of the rates levied by the Council about one-third is paid away under precepts to the Metropolitan Police and the Middlesex County Council. It must be borne in mind that the Council's share of the annual rate (say 5/4 in the £) is the only part under the Council's effective control. The Council's share is 4/- in the £ only; but as they receive 1/4 in Grants they control outlay equal to 5/4 in the £.

An analysis of the Estimates indicates that of the Council's proportion of 5/4 in the £, a very considerable sum covers fixed charges, *e.g.*, loan charges. The scope for reductions in present rates is not very wide therefore, and it seems that the most fruitful possibilities lie in the direction of stabilisation—that is the prevention of avoidable increases above present requirements.

COMMITTEE ESTIMATES.

With the above considerations before us we have carefully reviewed the estimates of expenditure and income of the several Committees, and after considering such items as appeared to us to call for further investigation we have arrived at the following :—

RECOMMENDATIONS AND OBSERVATIONS.

REVENUE ACCOUNTS.

LIBRARIES COMMITTEE :

(1) **That the following adjustments be made in the Estimates :—**

		£ s. d.	£ s. d.
Deduct.—			
No. 1—Books and Binding		464 0 0	
3—Catalogue (proportion)		40 0 0	
17—Contingencies		470 0 0	
Add.—			
No. 18—Additional Income—Sundry Receipts, *i.e.*, Fees, etc.		100 0 0	
			1074 0 0

(2) The Education Committee submitted the following minute :—

> "That the question of the abolition of School Libraries be referred to the Economy Committee of the Council."

To arrest further expenditure on books during the current financial year for School Libraries, the following are proposed to be deducted from the estimates :—

Education.—Item 5—Books	£192 0 0	

The Education Committee have made further deductions amounting to £100.

BUILDINGS AND TOWN PLANNING COMMITTEE :

(3) **That the following be deducted :—**

No. 22—Ordnance Sheets, Maps, Mounting, Printing, Stationery, etc.	50 0 0	
Carried forward ...	£1124 0 0	

	£ s. d.	£ s. d.
Brought forward ...		1124 0 0

WORKS AND FIRE BRIGADE COMMITTEE:

(4) **That the following items be deducted from the estimates:—**

No. 100—Rates, adjustment	200 0 0	
127—Repairs and replacement of plant ...	350 0 0	
178—New convenience—Cricklewood Lane	600 0 0	
111 to 123—House Refuse Collection—General	1007 0 0	
		2157 0 0

(5) The reduction under item No. 127 is made on the understanding that if certain replacements of plant become essential during the current year the cost will be charged against the Renewals and Repairs Fund established under the Council's Act, 1929.

(6) The amount of £1,007 is made up of £880 already included for Edgware on page 74 of the estimates, and the balance of £127 represents minor deductions in respect of which an allocation to specific items under the general heading has been referred to the Treasurer and Surveyor.

(7) The Committee have considered whether it would be possible to reduce the number of days during the week on which the Slipper baths at Child's Hill and West Hendon are open, but after taking all the factors into account, they recommend

That the existing arrangements be continued and reviewed at the end of the current financial year.

ESTATES, PARKS AND ALLOTMENTS COMMITTEE:

(8) **That in view of the purchase of a Mechanical Lawn Mower the provision for the year under items Nos. 321, 339, 370, 404 and 428 be reduced by £50** ... 50 0 0

PUBLIC HEALTH AND MEDICAL SERVICES COMMITTEE:

(9) **That the following be deducted:—**

No. 552/560—Sanitation and Infectious Disease	30 0 0	
607—Comestibles—Hospital	500 0 0	
608—Rates—Hospital	125 0 0	
615—Special Fees	100 0 0	
635—Orthopædic Treatment	175 0 0	
		930 0 0
The Education Committee have made reductions on the School Medical Services, amounting to ...	£148 0 0	
Carried forward ...		£4261 0 0

	£	s.	d.	£	s.	d.
Brought forward ...				4261	0	0

(10) It was reported that the above Committee had reconsidered the question of grading and salary of the Assistant Medical Officer and Resident Officer, Isolation Hospital, and that they were recommending that the appointment be made on the old scale, viz., £500 + £25 to £600, plus emoluments (computed at £150).

The Committee endorse the recommendation.

HIGHWAYS COMMITTEE:

(11) A very careful scrutiny of the estimates of expenditure on roads has been made, and whilst the Committee do not consider it would be an economy to suspend works, etc., directions have been given that expenditure shall only be incurred on essential works.

(12) **That the following sums be deducted:—**

No. 709—Footpaths (7 years' scheme) ...				1400	0	0
731—Increased Lighting, Finchley Road...				150	0	0
740—Increased Lighting, Edgware Road...				750	0	0
726—Lighting Columns and Fittings ...				250	0	0
727—Lighting Columns and Fittings ...				350	0	0
735—Lighting, Refuges, etc.				50	0	0
						2950 0 0

(13) The worst of the footpaths included in the 7 years' programme of repairs have been completed and having regard to the incidence of the loan charges the Treasurer reports that the reduction of £1,400 can safely be made.

(14) Except to the extent that the scheme for improved lighting in the Edgware Road will be delayed by the above proposals, the lighting of the district will not be curtailed.

FINANCE AND GENERAL PURPOSES COMMITTEE:

(15) **That the following alterations in the estimates be made:—**

Deduct.—						
No. 815—Cash Register				375	0	0
844—Provision for new loans				500	0	0
845—Provision for equivalent to Expired Loan Charges				2308	0	0
Add.—						
No. 876—Bank Interest				1500	0	0
						4683 0 0
						£11,894 0 0

SALARIES:

(16) The Committee have considered alternative suggestions for dealing with staff salaries and make the following suggestions:—

(**A**) Deductions :—

(i) **That no deduction be made from salaries of less than £140 per annum.**

That deductions be made as follows :—

(ii) 2½% per annum from salaries ranging from £140 to £220 per annum.

(iii) 5% per annum from salaries ranging from £240 to £340 per annum.

(iv) 6% per annum from salaries ranging from £360 to £440 per annum.

(v) 7½% per annum from salaries of Officers in Special Grades in excess of £440.

(vi) 10% per annum from salaries of Chief Officers.

4% per annum—Health Visitors, School Nurses and Midwives.

4% per annum—Attendance Officers.

5% per annum—Foremen.

5% per annum—Town Hall Caretaker.

6% per annum—Chief Fire Officer.

(**B**) Emoluments shall be taken into account in arriving at the percentage rates and deductions to be made under the scales set out above.

(**C**) Annual increments shall be continued in accordance with existing scales as adjusted.

PARAGRAPH (D) AMENDED – SEE RESOLUTION NO. 245 PAGE 540.

(**D**) That the scale of deductions (under (A) (ii) to (vi) shall not operate so as to bring the salary of any officer below any salary ~~of equal amount~~ adjusted on a lower percentage basis.

(**E**) The deductions shall operate for 1 year as from the 1st October, 1931, but shall be subject to review in the event of any alteration in the National situation.

WAGES :

(17) A report was submitted by the Treasurer and Engineer in regard to Workmen's Wages from which it appears that wages were reviewed some 18 months ago, in order to conform to the requirements of the District Auditor. Further adjustments have been made from time to time in accordance with awards of the Public Works Conciliation Board, the Local Joint Industrial Council for Local Authorities (Non-trading services) and the rates applicable to men employed in Building Trade occupations.

The last award received is that of the Public Works Conciliation Board which operates as from the first full pay week in October, and it is understood that building trade rates are at present under review.

Further adjustments are now required which in the aggregate would in a full year effect approximate reductions of £2,000, of which (say) £1,000 is available in the six months ending 31st March, 1932.

The Committee RECOMMEND **the Council to approve of the report, subject to any further variations (up or down) which may be necessary if the awards above referred to are altered.**

They FURTHER RECOMMEND—**That employees whose wages are not so dealt with by the above awards be considered at a later meeting.**

(18) SUMMARY:

COUNCIL ACCOUNT.—	£
General Items (see page 450)	11,894
Salaries and Wages (6 months)	2,250
	£14,144

EDUCATION COMMITTEE:

(19) The Committee have considered the revised estimates of the Education Committee and approve the proposals. Additions to the yearly estimates amounting to £180 have been made whilst the sum of £2,481 has been deducted on various items—giving a net reduction in estimated expenditure of £2,301. This does not take into account the reduction in teachers' salaries or the additional cost thrown on the rate due to the amended form of government grant, but the total effect of the adjustments will be to entail a charge of £53,000 on the rates during the next 6 months as against £44,250 in the 6 months ending 30th September, 1931.

SOURCES OF INCOME:

(20) The Committee have explored the various sources from which the income of the Council (grants excluded) is derived, and make the following proposals:—

That the question of arranging for advertisements to be printed on tickets used in the Parks, Baths, etc., be referred to the Treasurer and Surveyor.

That the scale of charges for hire of rooms, Town Hall, be increased by 25 per cent. (to the nearest six-pence).

That the Education Committee be recommended to increase by 25 per cent. the scale of charges for the hire of accommodation in Schools.

Directions were given the Treasurer regarding negotiations in connection with Bank Terms.

CAPITAL ACCOUNTS.

EDUCATION ACCOUNT:

(21) The Committee considered a report of the Chief Education Officer as to possible future new schools which may be required. The growth in the school population, due to rapid development and other causes, not the least of which is the tendency of migration from private schools to the public elementary schools, is creating difficulties in four parts of the district which will eventually be overcome by building on four sites acquired or being acquired.

It was pointed out that a type of school had been evolved which could be erected within three months, and in case of necessity a further building programme could be proceeded with at short notice.

The Surveyor has been instructed to proceed with plans and specifications so that the least possible delay will occur as and when the erection of schools has received the approval of the Board of Education.

COUNTY ROADS JOINT SUB-COMMITTEE.

24th July, 1931.

Present: Mr. Councillor T. E. Carpenter, B.A., LL.B. (in the Chair), and Mr. Councillor F. C. Rice.

COUNTY ROADS CO-ORDINATION AGREEMENT:

The Council are aware that under the provisions of the Local Government Act of 1929, the County Council became the highway authority for county roads, that is to say, main roads and classified roads, but the Councils of urban districts with a population of over 20,000 were entitled to claim to exercise the functions of maintenance and repair and otherwise dealing with such roads.

The Middlesex County Council in November, 1929, submitted a draft agreement under which it was proposed that the District Councils should give up their right to claim and act as agents for the County Council.

This draft agreement was considered by the Middlesex Borough and District Councils' Association and as a result of representations put forward by that Association to the Middlesex County Council the agreement was amended to preserve the right of District Councils to claim (other than certain special roads—in Hendon the Arterial Roads) but to provide for co-ordination.

The draft co-ordination agreement would entail the relinquishment by the Council for all time of their powers of claiming the functions of maintenance, repair and otherwise dealing with arterial roads. It also, amongst other matters raises questions as to the authority to raise loans, town planning in so far as highways are affected, and highway functions in relation to the roads in any area which may be added to the existing district.

The Joint Sub-Committee appointed by the Highways Committee and the Finance and General Purposes Committee have now received reports from the Council's officers as to the effect of the suggested co-ordination agreement and have completed their consideration of the draft.

The Committee are informed that apart from the question as to which authority—the County Council or the District Council—should raise loans for the purposes of works in connection with County Roads, no difficulties would appear to have arisen under the present procedure, and that the expressed reason for entering into an agreement, viz., "for the purpose of maintaining a uniform standard throughout the County in relation to the maintenance and improvement of County Roads," can be attained under the existing statutory provisions.

The Joint Sub-Committee RESOLVED TO RECOMMEND—**That the Middlesex County Council and the Minister of Health be informed that in the opinion of the Council such co-ordination as is necessary is already adequately provided for by compliance with the existing statutory requirements; that no difficulties have arisen owing to the absence of an agreement and that in the circumstances the Council do not propose to enter into the co-ordination agreement relating to County Roads submitted by the Middlesex County Council.**

RESOLVED TO RECOMMEND—**That the report of the Sub-Committee be approved and adopted.**

24.—BYE-LAWS—REGULATION OF ADVERTISEMENTS:

REPORTED: That Golders, Limited had agreed to pay the costs in connection with the diversion of the above highway under the provisions of the Highways Act, 1835. (B. and T.P., 15/9/31—3).

RESOLVED TO RECOMMEND—**That it is expedient that the public highway known as Clay Lane in the Parish of Hendon in the County of Middlesex running from the Watford Bye-Pass Road in a northerly direction to Edgwarebury Lane the situation of which is shown on the plan now produced to the Council signed by the Clerk to the Council should be stopped up turned or diverted in manner following that is to say:—**

By stopping up diverting or turning a portion of the said highway at and from the point marked "A" upon the said plan such point being 150 yards or thereabouts in a northerly direction from the junction of the said highway with the Watford Bye-Pass Road aforesaid from which said point "A" the said highway runs in a northerly direction for a distance of 333 yards or thereabouts to the point marked "B" on the said plan thence proceeding in an easterly direction

for a distance of 120 yards or thereabouts to the point marked " C " on the said plan the portion of which said highway lying between the said point " A " and the said point " C " being of an average width of 40 feet or thereabouts the whole length of the said highway from the said point " A " to the said point " C " on the said plan being 453 yards or thereabouts which said highway or so much thereof as it is desired to stop up divert or turn (hereinafter referred to as " The Old Highway ") is distinguished on the said plan by the colour brown and by substituting in lieu thereof a good and sufficient highway 60 feet in width coloured red on the said plan (hereinafter referred to as " The New Highway ") from the said point marked " A " on the said plan for a distance of 380 yards or thereabouts in a northerly direction to the said point marked " C " on the said plan.

That application be made to the Justices of the Peace in Quarter Sessions assembled for an Order for stopping up diverting or turning the said highway and that the requirements of the Council's resolution of the 5th day of December, 1910, be dispensed with.

FURTHER RESOLVED TO RECOMMEND—That an intimation be given to Colders, Limited that no works are to be commenced on the existing highway until the Justices' Order has been obtained and the Certificate of two Justices that the new highway has been constructed to their satisfaction lodged with the Clerk of the Peace.

† (A). *North Middlesex Gas Company.*

SUBMITTED: Surveyor's report on an application from the North Middlesex Gas Company for permission to discharge gas liquor into the Council's sewers to the extent of 80 gallons per hour to be distributed over the whole day.

The Surveyor suggests that in the first instance a sample of the liquid be submitted to the Council's analyst for report, and that in the event of the analyst reporting that no detriment to the sewers or works of the Council will arise and that the quality of the effluent will not be affected, an agreement be entered into with the Gas Company in connection with the matter, subject to an agreed annual payment being made to the Council.

RESOLVED TO RECOMMEND—**That the report of the Surveyor be approved and that in the event of the Analyst's report being satisfactory the Council enter into an agreement with the North Middlesex Gas Company providing for an annual payment, and for at least twelve tests per annum to be taken at the cost of the Gas Company, and that the Seal of the Council be affixed to such agreement.**

[*Having considered the matter in its financial bearing, the Finance and General Purposes Committee concur in the proposal, and Recommend that the Surveyor negotiate with the Company with a view to agreeing an annual payment to cover the Council's expenses in dealing with the gas liquor to be discharged, and report further thereon.*]

† (B). *Supply of Electricity.*

SUBMITTED: Surveyor's report on a letter from the Hendon Electric Supply Company in connection with the supply of electricity to the Silk Valley Low Level Pumping Station. An agreement has already been entered into with the Company for a supply of electricity from the Company's high tension mains and also for a second connection on the low tension mains. In the event of the high tension system failing, however, the low tension system would be inadequate to operate the whole of the pumping station in times of storm. The Company, therefore, suggest that a duplicate high tension supply should be given from a cable in Watford Way and that the Council should make a contribution of £100 towards the cost of the connection.

The Committee are informed that it would appear that the Council are sufficiently protected by the arrangements made under the existing agreement and also the supply which will shortly be available from the refuse disposal plant.

The length of the sewer from the Brent Outfall Works to the junction of Deansbrook Road with Edgware Road is now complete, with the exception of several connections between the old and new systems and the construction of the duct over the Silk Stream. Given favourable weather conditions it is anticipated that this work will be completed in the near future. Preparations have been made for an early commencement of Section 5 which extends from Deansbrook Road to Newlands Corner. **Noted.**

† (B). *Allotment Compensation.*

SUBMITTED: Surveyor s report on a claim from Mr. R. Scurton, amounting to £3 9s. 6d., arising out of the construction of the sewer through his allotment at the rear of the North Metropolitan Tramways Depôt in Edgware Road. SUBMITTED: Surveyor's report stating that the work is proceeding on the section of the above sewer from Station Road to Colindeep Lane and at the rear of Selborne Gardens and Rushworth Avenue.

No further progress has been made with the section between Hale Lane and Bunns Lane as the negotiations between the Air Ministry and the London Midland and Scottish Railway Co. have not yet been completed. **Noted.**

* 9.—EXTENSION OF SEWERAGE SYSTEM:

SUBMITTED: Surveyor's report to the effect that in consequence of building development now in progress certain extensions are necessary to the Council's sewerage system in Selvage Lane, Marsh Lane and Hankins Lane.

The Surveyor suggests that it would appear to be desirable that a general scheme for the extension of sewers and surface water drains in these roads, and in others which may come into development during the next few years, should be prepared and an application made to the Minister of Health for sanction to raise a loan to cover the cost of carrying out the work; the work to be carried out as and when required.

RESOLVED TO RECOMMEND—**That the report of the Surveyor be approved.**

[Having considered the matter in its financial bearing, the Finance and General Purposes Committee concur in the principle of the proposed scheme.]

10.—EXTENSION OF SEWER—GREEN LANE, EDGWARE:

SUBMITTED: Surveyor's report on a letter from the Hendon Rural District Council regarding the payment of retention money under the contract with Messrs. C. & W. French regarding the construction of the above sewer extension.

The Rural Council desire the approval of this Council to the payment being made by them on behalf of this Council.

RESOLVED—**That the matter be referred for the consideration of the Finance and General Purposes Committee.**

RESOLVED TO RECOMMEND—**That, subject to the consent of the Grand Union Canal Company being obtained, the application of the Hendon Electric Supply Company be granted subject to an agreement being entered into and to the payment of an annual sum of £5.**

[Having considered the matter in its financial bearing, the Finance and General Purposes Committee concur in the proposal.]

SUBMITTED: Surveyor's report on a letter from the London County Council stating that complaints had been received from tenants of houses in The Meads regarding the nuisance caused by rats, which, it is stated, infest the Goldbeaters Brook. A considerable length of this stream runs through land occupied as allotments vested in the Council and in respect of this portion of the stream the duty of keeping it free from rats falls upon the Council. The Committee, therefore,

RESOLVED TO RECOMMEND—**That the Surveyor be instructed to communicate with the Middlesex County Council with a view to an inspection being made and any necessary action being taken thereon.**

13.—PUBLIC CONVENIENCES:

Watling Estate.

SUBMITTED: Letter from the Ministry of Health arising out of the application submitted by the Council for a loan sanction in connection with the construction of the above convenience, suggesting that the Council should reconsider the matter in view of the general need for economy in the light of the Minister's circular of the 11th September.

The Emergency Committee recommended that the proposals be abandoned for the time being, but the Council referred the matter back for further consideration and report.

RESOLVED—**That the letter from the Ministry of Health be referred for the consideration of the Emergency Committee.**

* 14.—EDGWARE HIGH ROAD—PUBLIC CONVENIENCES:

SUBMITTED: Letter from the Committee of the Little Stanmore Ratepayers' Association calling attention to the lack of public conveniences in Edgware High Road and stating that owing to the great expansion of the district immediate consideration of the provision of public conveniences in this area was justified. The Association therefore ask the Council to bring the matter before the Middlesex County Council.

RESOLVED TO RECOMMEND—**That the Little Stanmore Ratepayers' Association be asked to communicate with the Middlesex County Council on the matter.**

* 15.—TOWN HALL EXTENSION:

REPORTED: That the Sub-Committee (Messrs. Councillors Reynolds, Carpenter, Naar and Potter) interviewed, on 12th October, representatives of the Finchley Urban District Council (Messrs. The Medical Officer submitted Official Representation under Section 19 and pursuant to Section 51 of the Housing Act, 1930, declaring the premises, in his opinion, to be unfit for human habitation, and not capable at a reasonable expense of being rendered so fit.

(Mrs. Simpson, the tenant of No. 245, Cricklewood Lane, was also interviewed by the Committee).

It will be remembered that Mr. White attended the meeting of the Committee on the 29th June, 1931, with regard to similar notices in respect of 241 and 243, Cricklewood Lane, when he stated that the cost of the work required to be done to render the premises fit for human habitation was prohibitive and that the owners would offer no objection to the making of a demolition order.

Mr. White expressed the same view in connection with Nos. 239 and 245, Cricklewood Lane.

The Committee are satisfied that the dwelling-houses Nos. 239, 241, 243 and 245, Cricklewood Lane, Child's Hill, being occupied or of a type suitable for occupation by persons of the working classes are unfit for human habitation and are not capable at a reasonable expense of being rendered so fit.

The Committee have not accepted any undertaking from the owners with respect to the carrying out of the works, or the future user of the houses.

RESOLVED TO RECOMMEND—

(i) **That the Council, in pursuance of Sub-Section 3 of Section 19 of the Housing Act, 1930, order as follows:—**

1. The said dwelling-houses to be vacated within 30 days from the date on which this Order becomes operative.

(ii) That the Common Seal of the Council be affixed to the Orders and that a copy of such Orders be served upon every person upon whom a notice under Sub-Section (1) of Section 19 of the Housing Act, 1930, in relation to the said respective properties, has been served.

The Ministry of Transport suggest that the existing "stop" lines in Finchley Road, at its junction with Golders Green Road should be extended across the tramway track to the centre of the road.

Watford Way Crossing—Mill Hill Park.

† (B).

SUBMITTED: Surveyor's report on a letter from the City Engineer of the Manchester Corporation regarding the suggested installation of automatic traffic control signals operated by pedestrians, at the above crossing in accordance with the Committee's resolution. (Hi., 14/9/31—7 (A)).

Traffic at Golders Green.

(C).

CONSIDERED: The following report of the Sub-Committee appointed to consider the question of traffic at Golders Green:—

2nd November, 1931.

Present: Mr. Councillor C. C. Cartwright, J.P. (Chairman), and Messrs. Councillors H. G. Potter, J.P., F.S.I., and W. H. N. Shakespeare, M.C., A.F.C.

The report of the Sub-Committee was dealt with as follows:—

Traffic at Golders Green.

† (1).

CONSIDERED: The matters mentioned in the letter from Mr. Councillor Brook Flowers which were referred for the consideration of the Sub-Committee at the last meeting of the Highways Committee. (Hi., 5/11/31—18).

The Sub-Committee are informed that, in connection with applications for licences for motor-coach services which pass through Golders Green, the Traffic Commissioner will not permit such coaches to pick up or set down passengers in Finchley Road, Golders Green Road and North End Road.

The Sub-Committee have also considered as to the effect of the conditions imposed by the Traffic Commissioner in relation to the Council's area as a whole.

RESOLVED TO RECOMMEND—**That in connection with applications for licences for road service vehicles operating within or passing through the Council's area, the Minister of Transport be asked to represent to the Traffic Commissioner the advisability of obtaining the views of this Council before granting licences or attaching to such licences conditions as to the points at which road service vehicles are to set down or pick up passengers within the Council's area or prescribing the routes to be followed.**

Parking Place—North End Road.

† (2).

CONSIDERED: The points raised by Mr. Sidney Laughton in his letter addressed to the Traffic Commissioner, a copy of which he had transmitted for the information of the

Council, regarding the danger and congestion caused as a result of taxicabs being allowed to stand at the corner of West Heath Drive and North End Road, Golders Green. The Sub-Committee

RESOLVED TO RECOMMEND—**That the attention of the Commissioner of Police of the Metropolis be called to the matter.**

† (**D**). *Broadfields Avenue.*

SUBMITTED: Surveyor's report on a letter from Mr. S. A. Milner complaining of the volume of heavy traffic to which the above road is subjected.

It appears that heavy traffic coming from the north down the Watford Bye-Pass Road utilize Broadfields Avenue, Hale Lane and Station Road in order to reach Edgware Road. At the present time, however, Broadfields Avenue has not been dedicated as a public highway and the Council therefore have no jurisdiction over the user of the road.

RESOLVED TO RECOMMEND—**That Mr. Milner be informed accordingly.**

* 4.—GOLDERS GREEN INTERCHANGE STATION:

The new proposals provide for a "one-way" system of traffic in place of the existing arrangements, and it is considered that the proposals will to a large extent remove the difficulties at present experienced in the control of traffic at this point.

RESOLVED TO RECOMMEND—**That the new scheme now submitted be approved in principle, but that the Council reserve its rights with regard to the details and operation of the scheme and the financial obligations which may be involved.**

[AMENDED BY COUNCIL – MINS. P. 621.]

* 5.—PRIVATE STREET IMPROVEMENTS:

† (**A**). *Application for Sanction to a Loan of* £29,333.

SUBMITTED: Letter from the Minister of Health arising out of the application submitted by the Council for a loan sanction in connection with private street improvement works to be carried out in the ten roads referred to in the Committee's recommendation of the 27th April last. (Item 5 (B)).

The Minister of Health enquires whether the works should be proceeded with at the present time in view of the recent developments in the national economic situation, and states that unless there are special reasons why the streets in question should be made up at once it would seem undesirable to incur the expenditure under existing conditions, and that the Council's application will be treated as withdrawn unless a further communication is received.

RESOLVED TO RECOMMEND—

(i) **That the views of the frontagers be obtained as to whether they desire the roads to be made up at the present time, and that they be informed as to the approximate cost per foot for carrying out the work and also as to the Council's terms for repayment.**

(ii) **That the Minister of Health be asked to defer consideration of the application for loan sanction pending consideration by the Council of the views of the frontagers.**

* 6.—DEDICATION OF PRIVATE STREETS:

Fairfield Avenue.

† (B). *Forum Side, Edgware—Accommodation Road.*

SUBMITTED: Surveyor's report relating to the dedication of the above accommodation road which has been made up to an agreed specification in accordance with the terms of an agreement entered into between Mr. C. Wright and the Hendon Rural District Council. The agreement provides that after the road has been made up and lighted it should be taken over as a public highway. The road has now been completed and the provision of public lighting is in hand. The Committee, therefore,

RESOLVED TO RECOMMEND—**That on completion of the installation of the public lighting the accommodation road in question be dedicated as a public highway and the necessary notices posted.**

* 7.—SCAVENGING OF HIGHWAYS:

SUBMITTED: Surveyor's report on letters from (a) Mr. M. J. Gates, and (b) Mr. Preston, regarding the scavenging of Manor Gardens and Purcells Avenue.

The roads in question and also Broadfields Avenue and Hillside Drive have been made up, but have not yet been taken over by the Council as public highways.

RESOLVED TO RECOMMEND—**That the Council undertake the scavenging of the roads in question pending formal dedication.**

* 8.—HOOP LANE:

Paving of Footways.

SUBMITTED: Surveyor's report on a letter from the London Cremation Company asking the Council to carry out the kerbing, channelling and paving of the footway on the side of Hoop Lane upon which their premises front. The proposals would involve considerable expenditure for which no provision has been made in the estimates.

RESOLVED TO RECOMMEND—**That consideration of the matter be deferred.**

* 9. THE RIDGEWAY, MILL HILL:

Crossings.

SUBMITTED: Report of the Surveyor on a letter from Mr. F. Parvin asking the Council to lower the kerb outside the entrances to the garages of the new houses which he is erecting along The Ridgeway.

Having regard to the fact that Mr. Parvin has agreed to dedicate to the public a strip of land along the whole of the frontage which is being developed without cost to the Council, the Committee

RESOLVED TO RECOMMEND—**That the Council agree to the proposal and that the Surveyor be authorised to carry out the necessary work.**

* 10.—BRIDGE LANE:

Grass Margins.

SUBMITTED: Surveyor's report on a letter from Mr. S. Mellings asking that the turf margins in Bridge Lane should be replaced with tiles or asphalt.

RESOLVED TO RECOMMEND—**That no action be taken in the matter.**

* 11.—SELVAGE LANE:

Footpath.

SUBMITTED: Surveyor's report on a letter from Mr. A. Smith regarding the condition of the footpath along the frontage of the new houses recently erected in Selvage Lane.

Having regard to future development along this road it is considered inadvisable to lay down a permanent footpath at the present time. In order to improve the existing conditions, however, the Committee are informed that a temporary footpath should be provided and the Surveyor estimates the cost of constructing a gravel footpath with kerb where necessary, at approximately £80.

RESOLVED TO RECOMMEND—**That the Surveyor be authorised to construct a gravel footpath along the frontage of the houses in question on the lines indicated in his report, and that the expenditure involved be approved by the Council.**

[*Having considered the matter in its financial bearing, the Finance and General Purposes Committee concur in the proposal and Recommend that the Middlesex County Council be informed of the proposal to carry out the work.*]

* 12.—ROAD TRAFFIC ACT, 1930:

CONSIDERED: The report of the Surveyor, which had been circulated to the Members of the Committee, regarding the application of the powers conferred on Local Authorities by Part III. of the above Act (referred to in Circular No. 356 (Roads) issued by the Minister of Transport) to specific purposes.

† (**A**). *Erection of Warning Signs, Light Signals, etc.*

With regard to the powers conferred on the Council in connection with the erection of traffic signs and light signals on highways under their jurisdiction, the Committee RECOMMEND—

(*a*) **That application be made to the Ministry of Transport for sanction to the installation of light signals for the control of traffic at the following points:—**

(i) Junction of Church Road, Parson Street, Finchley Lane and Brent Street.

(ii) Junction of Watford Way and Station Road.

(iii) Junction of Station Road and Edgware Road.

(iv) Junction of Barnet Bye-Pass Road and Holders Hill Road.

(v) Junction of Cricklewood Lane and Hendon Way.

(*b*) **That the order of priority regarding the installation of such signals be left to the Surveyor.**

[*The Finance and General Purposes Committee concur in principle with the proposals, but have deferred detailed consideration pending the submission of estimates.*]

† (**B**). *Provision of Footpaths and Margins.*

Under Section 58 of the Act it is the duty of the Highway Authority to provide where they deem it necessary or desirable for the accommodation of foot passengers, proper and sufficient footpaths by the side of roads under their control. In this connection the Surveyor reports that in the Council's area there are a number of roads where the accommodation for foot passengers is inadequate having regard to the growing volume of motor traffic using the roads.

In some cases, in order to provide adequate footpaths, it would be necessary to acquire private property, but the Surveyor is of opinion that along certain lengths of the roads mentioned in his report the work could be undertaken without incurring heavy capital expenditure.

The Committee have also considered the report of the Surveyor regarding the provision of an adequate footpath in Edgware Road. In order to provide a continuous footpath it would be necessary to acquire private property, and in this connection the Committee

RESOLVED TO RECOMMEND—**That the Surveyor be instructed to submit a report giving particulars as to the dates when the leases of certain properties in this road will expire, in order that the Committee may give further consideration to the question of the provision of adequate footpaths.**

† (C). *Weighing of Motor Vehicles.*

With regard to the powers conferred on Highway Authorities in connection with the provision and maintenance of weighbridges, the Committee are of opinion that the matter is one which could be dealt with more conveniently by County Authorities, and

RESOLVED TO RECOMMEND—**That the attention of the Middlesex County Council be directed to the provisions of the Act regarding the provision and maintenance of weighbridges and to the desirability of action being taken with a view to avoiding the use of highways by vehicles of excessive weight.**

The foregoing would appear to be the only matters arising out of the report in respect of which action is desirable by the Council at the present time, but the Committee have duly noted the other items contained in the Surveyor's report, and appropriate action will be taken by the Committee when necessary.

* 13.—COLINDEEP LANE IMPROVEMENT:

SUBMITTED: Report of the Surveyor in accordance with the resolution passed by the Council at its last meeting. (Hi., 5/10/31—16).

The Surveyor estimates the cost of carrying out temporary repair works sufficient to deal with the heavy traffic using the road, at approximately £6,000, but in view of the comprehensive scheme which has been approved by the Council, and is at present awaiting the approval of the Ministry of Transport, the Committee are of opinion that the heavy expenditure would not be justified.

RESOLVED TO RECOMMEND—**That further consideration of the matter be adjourned pending the decision of the Minister of Transport on the widening and reconstruction scheme which has already been submitted for his approval.**

* 14.—USE OF BRITISH MATERIALS:

(A). *Generally.*

SUBMITTED: Circular No. 369 (Roads) issued by the Ministry of Transport stating that the Minister has decided to extend the conditions as to the use of British Materials contained in Circular No. 314 (Roads) dated the 20th February, 1930, to all grants from the Road Fund, whether the works are expedited for the relief of unemployment or not. **Noted.**

(B). *County Roads.*

SUBMITTED: Surveyor's report on a letter from the County Engineer regarding the question of kerbing in connection with works on County Roads.

The County Engineer asks that in all future contracts relating to works on County Roads, kerbing should be dealt with as a provisional item, and that, if possible, British kerb should be procured at the prices mentioned in his letter, but stating that where it is not possible to obtain British kerb, Norwegian kerb may be used. **Noted.**

† (C). *Kerb—Street Works.*

RESOLVED TO RECOMMEND—**That in all future contracts relating to street works, kerb be included as a provisional item.**

* 15.—COUNTY ROADS—ESTIMATES FOR THE YEAR 1932/33 :

SUBMITTED : Letter from the Middlesex County Council stating that in view of the peculiar circumstances obtaining in the current year, it would be appreciated if the Council would submit their estimates of expenditure on County Roads for the year 1932/33 on or before the 7th November, instead of the 15th December as provided by Section 33 of the Local Government Act, 1929.

The Committee also considered the reportof the Surveyor on the matter. and it was

RESOLVED TO RECOMMEND—**That the Surveyor be instructed to submit the estimates to the next meeting of the Committee, and that they be transmitted to the Middlesex County Council immediately after approval by the Highways Committee without awaiting confirmation by the Council.**

* 16.—NORTH CIRCULAR ROAD :

Proposed Sign.

SUBMITTED : Surveyor's report on an application from the Franco-British Electrical Company for permission to erect a reflex sign on the piece of waste ground at the junction of North Circular Road and Claremont Road, subject to payment to the Council of an annual rental.

The land in question forms part of the public highways. The Committee, therefore,

* 8.—EXTENSION OF SEWERAGE SYSTEM:

Mill Hill District.

In accordance with the recommendation passed at the last meeting of the Council (W. and F.B., 12/10/31—9) the Surveyor submitted plans and estimates for the provision of soil and surface water sewers in public highways in the Mill Hill District at present in course of development. The roads included in the estimate are:—Hankins Lane, Selvage Lane, part of Marsh Lane, Nan Clark's Lane and the footpath adjacent thereto.

The Surveyor's estimate of the cost is £6,660 but it is pointed out that it will not be necessary to carry out the whole of the works at the present time.

It is desirable, however, to obtain the sanction of the Minister of Health to the raising of the necessary loan, in order that the sewers can be constructed as development proceeds in the roads concerned.

The Committee are informed that houses are in course of erection and nearing completion along the frontage at the junction of Marsh Lane and Hankins Lane and that it is necessary that the soil and surface water sewers to deal with the development at this point should be constructed as soon as possible.

The Surveyor estimates the cost of this portion of the work at £2,200.

RESOLVED TO RECOMMEND—

* 9.—SEWAGE DISPOSAL WORKS:

SUBMITTED: Surveyor's report stating that at the present time sludge pumping on the south side of the Brent is performed by a steam pump and a very old boiler, which has for some time been in an unsatisfactory condition, and that it is now desirable that new arrangements should be made to deal with the sludge pumping.

A generating plant has been provided at the Destructor Works of sufficient capacity to supply electricity to the sludge pumping station on the south side of the Brent and also to deal with the dry weather flow at the new Silk Valley Pumping Station, and the cables connecting the destructor and the new pumping station are at present being laid.

It is now necessary to extend the cable from the Silk Valley Pumping Station to a point adjacent to the sludge well on the south side of the Brent and to instal electrical pumping plant to take the place of the steam pump and boiler before referred to. The Surveyor estimates the cost of the works included in the proposals at £1,100, made up as follows:—

	£
Pump and Motor, Switch gear and meters	350
Pumping Chamber	250
Power Cable	500
	£1,100

The Committee are informed that the works will to some extent be common to both the pumping station and the destructor plant and that the cost involved could be allocated between the two plants at a later date. The Committee are also informed that the cost of running the existing pumping station on the south side of the Brent amounts to £350 per annum, whereas the cost of running the plant proposed to be installed would not exceed £180 per annum, of which sum a proportion would be credited to the Destructor Account in respect of the electricity which would be supplied to operate the motor.

The Surveyor suggests that the order for the necessary pump, motor and fittings should be placed with Gwynnes Pumps, Limited, as an extra to their existing contract and that the constructional work involved should be carried out by Mr. H. Pickrill, as an extra to his contract for constructing the new pumping station.

RESOLVED TO RECOMMEND—

(*a*) **That the report of the Surveyor be approved.**

(*b*) **That an order be placed with Gwynnes Pumps, Limited, for the supply and erection of the necessary pump, motor, and fittings, and that the work be carried out as an extra to the existing contract.**

(*c*) **That the constructional work involved in the proposals now submitted be carried out by Mr. H. Pickrill as an extra to his contract for the construction of the new pumping station.**

(*d*) **That in view of the future arrangements for sewage disposal consequent on the operation of the West Middlesex Sewage Disposal Scheme (work on which, the Committee are informed, is at present in hand) the proposals indicated above be communicated for the information of the Middlesex County Council.**

[*Having considered the matter in its financial bearing, the Finance and General Purposes Committee concur in the proposal.*]

* 10.—MOTOR CAR:

CONSIDERED: Report of the Surveyor to the effect that the Morris Cowley motor car purchased by the Council in 1927, for the general use of his department, now requires extensive overhauling. RESOLVED TO RECOMMEND—**That the Surveyor be authorised to obtain quotations for a Morris Cowley motor car in accordance with the Council's existing practice for quotations of this nature.**

11.—NIGHT WATCHMAN:

Over a thousand of these groups listened to the talks last winter and a number have been formed in libraries, particularly in the north of England.

It is suggested that the formation of a group or groups in the Council's library would be an appropriate development of its education work. A group may number up to 20 persons and it is usual for them to assemble under a leader a few minutes prior to the commencement of the talk and to enter into discussion afterwards.

The formation of a group would involve an expenditure of approximately 25/- for wiring in connection with a wireless receiving set and 10/- for the necessary Licence. Messrs. C. E. Keates are willing to lend the Council a receiving set for use in connection with such listening groups. It will also be necessary to purchase such of the books recommended for reading as are not already in stock.

2.—BASIC PRICES:

The 9th Supplementary List of Basic Prices was submitted and **approved.**

* 3.—SECOND VALUATION LIST:

CONSIDERED: Reference from the Emergency Committee with regard to the postponement of the date of operation of the second valuation list, together with a report of the Chief Rating and Valuation Officer to the effect that the whole matter is now under consideration by the Central Valuation Committee, but in the meantime the Valuation Committee of the Middlesex County Council had put certain detailed recommendations forward to the Central Authority.

It is suggested that it would be improper to indefinitely defer the preparation of the second list owing to the consequent loss in Rates by reason of the failure to make an up-to-date valuation of the various hereditaments.

The views advanced by the Middlesex County Council are as follows:—

(1) That the state of the property market and particularly annual rental values may fluctuate materially.

(2) That the Government intend to continue the provisions of the Rent Restrictions Act after the end of this year, thus continuing the difficulty of arriving at a true standard or level of rental value.

(3) That a postponement will enable all authorities to continue their work of removing existing anomalies (by making proposals for the amendment of the valuation lists) and gradually but steadily progressing towards the achievement of uniformity.

(4) It will be possible to bring new lists into operation in London and in the remainder of the county on the same date and this it is generally conceded would be very desirable and tend to equality of rate burden where charges are common to London and other areas, as for example, the Metropolitan Police Rate, and where statutory undertakings extend through London and adjoining areas.

(5) It would afford an opportunity of making the scales of deduction from Gross to Rateable Value inside and outside London uniform.

RESOLVED TO RECOMMEND—**That the Council support the recommendations of the Middlesex County Council to postpone the date of operation of the Second Valuation List from 1934 to 1936.**

† (**A**). *Policy.*

CONSIDERED: Reference from the Finance and General Purposes Committee (19/10/31—(C) 4), as to the advisability of requesting the various Committees of the Council to notify the possible future requirements for sites for the various services of the Council at an early date.

RECOMMEND—**That the various Committees be requested to report full particulars as to the minimum requirements for sites and other capital works which may be necessary within the next three years.**

The Surveyor's report to that Committee stated that the cost of the provision and erection of fencing similar to that used along the Flower Lane boundary would be approximately £275.

COLNE VALLEY WATER COMPANY—CHARGES:

SUBMITTED: Report of the Treasurer conveying the effect of the letter hereunder from Mr. A. W. White of Messrs. Cash, Stone & Co. (the financial advisers to the Colne Valley Water Co.) to Mr. W. B. Keen, Accountant to the Hertfordshire County Council, who acted as correspondent for the Accountants of the Local Authorities concerned:—

48, Copthall Avenue,
London, E.C. 2.

W. B. Keen, Esq.

18th November, 1931.

Dear Mr. Keen,

COLNE VALLEY WATER COMPANY.

Since the meeting I had with you and the Accountants to the various Local Authorities, I have reported to the Board of the above Company on the tentative agreement reached between us, namely that as from the 1st January next, the charges for water to domestic consumers should be reduced to 10% above the pre-war charges, with the continuance of the abolition of the charge for the first water closet, the charges to metered consumers to be reduced to 20% above the pre-war scale. I also reported to the Board on the views of the Local Authorities as to the abolition of the remaining extra charges for water closets and baths.

I am now instructed to inform you that the Board are prepared to follow my recommendation to reduce the charges as set out above, and also that on the next occasion when any reduction in charges is possible it will be given effect to by way of abolition of the charges for water closets and for baths.

I am, however, requested by the Board to draw your attention and the attention of your colleagues particularly to the fact that as domestic charges will be reduced to 10% above the pre-war charges, and the Company has in addition given up the charge for the first water closet which is equivalent to 10% of the pre-war charges,

that the reduction now agreed brings the Company's scale of charges to the pre-war level. You will recall that in the negotiations I had with you I emphasised the view of the Company that they preferred to get rid of the increased percentage before dealing with extra charges. Furthermore, the Company had felt no credit had been given to them for the abolition of the charge for the first water closet. I know, of course, this is not so in the minds of either yourself or the other Accountants, and have so informed the Company, and I am therefore requested to ask that the Accountants of the various Authorities should be so good as to indicate to their respective Authorities that the reduction now agreed does bring the Company's charges back to the equivalent of the pre-war charges. I feel sure they would be prepared to meet the Company in this way.

In conclusion may I add that in accordance with the request of the Accountants the Company is delaying the announcement of the reduction in charges until you and your colleagues have had an opportunity of reporting to your Councils. I should, however, be very glad if you would let me know at the earliest possible moment when your Authorities have indicated their approval of our provisional agreement so that the public announcement can be made by the Company in good time.

Yours truly,

(Signed) A. W. WHITE.

Moved by Mr. Councillor Ford, duly seconded, and

322.—RESOLVED—**That the report be approved and the thanks of the Council accorded to the officers concerned for the satisfactory manner in which the negotiations in the matter have been carried out.**

5.—CORRESPONDENCE :

(*a*) CHOICE OF EMPLOYMENT—ECONOMIES IN EXPENDITURE :

Letter submitted from the Ministry of Labour stating that, in view of the present financial position, the Minister of Labour has been giving careful consideration to all items of administrative expenditure in order to effect all possible economies. Whilst the Minister does not propose to reduce the rate of grant for the Choice of Employment Service or to depart from the existing basis of payment in respect of the administration of the Unemployment Insurance Act, 1923, Section 6, he looks for reduction in expenditure under the headings of Staff Salaries, Printing, Travelling, etc., during the remainder of the present Financial Year and in estimated expenditure for 1932/33.

Agreed to RECOMMEND—

THAT the Minister of Labour be informed that the salaries of the Staff engaged upon these duties have been reduced on a percentage basis for one year from the 1st October, 1931, and that the rapid growth of the area in addition to a substantial extension of scope during the past few years preclude any possibility of effecting further economies during the present financial year, and furthermore that this extension will have a cumulative effect on expenditure during the next few years.

(*b*) CHOICE OF EMPLOYMENT :

Letter submitted from the Hendon Rotary Club stating that the members of the Club are desirous of assisting the Sub-Committee in regard to advisory work in connection with Vocational Guidance relating to Primary and Secondary School Leavers, and offering to undertake the following :—

(1) Any Parent or School Leaver desirous of detailed information regarding any particular vocation, such as conditions of work, salary, opportunities for advancement, etc., can be interviewed by a Rotarian of that specific vocation who will be prepared to give the fullest information.

(2) To make arrangements for groups of School Leavers to visit Factories, Stores, Offices, etc., with a view to helping boys and girls to decide which vocation they would like to follow.

(3) To arrange for Speakers to address groups of Parents and Leavers on vocational subjects.

Agreed to RECOMMEND—

THAT the appreciation of the Sub-Committee be conveyed to the Hendon Rotary Club for their kind offer, that a list of Members available in this connection be obtained and that steps be taken to put these arrangements into operation.

(*c*) MEMBERSHIP :

Letters submitted from Mr. G. C. Goodburn stating that he is retiring from active service with Messrs. Standard Telephones & Cables, Ltd., at the end of the present year which will necessitate his resignation from the Sub-Committee, and recommending Mr. R. A. Miles who will succeed him in the position of Personnel Manager.

Agreed to RECOMMEND—

THAT the resignation of Mr. G. C. Goodburn be accepted with regret and that Mr. R. A. Miles be appointed to serve on the Sub-Committee to fill the vacancy.

(*d*) AMENDMENT OF CONSTITUTION :

SUBMITTED : Letter from the Ministry of Labour stating that whilst the Minister approves of the appointment of one additional employers' representative and one additional teachers' representative (Secondary Education) he normally regards it as desirable that there should be equal representation of employers and workpeople on Juvenile Employment Committees, and asking the Sub-Committee to consider the question of appointing additional direct representatives of employees so as to preserve this balance on the Sub-Committee.

The Juvenile Employment Officer pointed out that the representation of employers and workpeople is not equal and to obtain equality of representation it would be necessary to appoint three additional employees' representatives bringing the total membership of the Sub-Committee to 23.

Agreed to RECOMMEND—

(*a*) **THAT Mr. E. L. Sutton, Gas Light and Coke Company, and Mr. J. C. Barr, B.A., be appointed to serve on the Sub-Committee.**

(*b*) **That a letter be forwarded to the Hendon and District Trades' Council asking them to nominate three of their Members to serve on the Sub-Committee and that at least one of the nominations be a woman representative acquainted with the conditions relating to the employment of girls and interested in their welfare.**

* 2.—ROADS ABOVE BYE-LAW WIDTH—INDEMNIFICATION OF LOCAL AUTHORITIES:

CONSIDERED: Reference from the North Middlesex Joint Town Planning Committee on the above subject, together with report of Surveyor thereon.

From the resolutions of the County Council it is gathered that it is their intention to indemnify Urban District Councils against all claims arising from the inclusion in their town planning schemes of proposals with regard to existing classified roads, and such unclassified and new roads that are likely to have a future classification value on the understanding that the District Councils will undertake not to "claim" roads in the last two categories when they are classified.

The consultants employed by the Joint Committee consider that the limitation of the indemnity to provisions in respect of existing classified roads and unclassified roads and new roads likely to have a future classification value, is reasonable; but with regard to the condition that Local Authorities should not "claim" roads when subsequently classified, no opinion is expressed.

RESOLVED TO RECOMMEND—**That the North Middlesex Joint Town Planning Committee be informed that the Council regard as unreasonable the imposition of any condition limiting the statutory right of Local Authorities under the Local Government Act, 1929, to claim to maintain roads after classification.**

The main object of the bill is to give effect to the Board's resolution of December, 1930, to promote legislation in the 1931/32 Session of Parliament to amend the law relating to communication pipes and other apparatus for the supply of water.

This matter had been under consideration by the Council and other Local Authorities for a considerable time and various representations were made, when in 1930/31 the Property Owners' Protection Association promoted a bill which provided that on and after the 1st January, 1932, the Metropolitan Water Board should maintain in repair and reinstate communication pipes and other apparatus. The bill was, however, withdrawn on the Board passing the resolution referred to above.

The bill provides that as from the 1st April, 1933, all existing communication pipes shall be transferred to the Board, and their rights and obligations with reference to the maintenance, repair, renewal and removal of pipes laid down by them shall extend and apply to all such communication pipes. The Board also seek the exclusive right to provide communication pipes for supplies required after the appointed day, and also where, under their Act of 1907, they require separate pipes to be substituted for single pipes supplying two or more buildings, but the cost of such pipes shall be borne by the consumers. Consequential provisions relating to communication pipes are included in the Bill.

Other provisions relate to tested and stamped fittings only to be used in connection with a supply of water, and power to alter for certain purposes the Board's superannuation scheme by resolution and with the assent of the contributors. **Noted.**

* 7.—COLINDEEP LANE:

† **(A).** *Widening and Improvement.*

SUBMITTED: Letter from The Rt. Hon. Sir. Philip Cunliffe-Lister, G.B.E., M.C., M.P., forwarding copy of a letter which had been received by him from the Minister of Transport in reply to the representations he had made to the Minister in support of the Council's application for grant towards the carrying out of the above scheme.

The Minister is unable to depart from his previous decision not to make a grant towards the expenditure which would be incurred, but suggests that the Council should secure the execution of such repairs as will for the time being, at any rate, put the road into a reasonably passable condition, and also points out that as Colindeep Lane is a Class II. road, approved expenditure of the nature indicated would rank for a grant of 50 per cent. under the classification scheme.

The Committee are of opinion that the Council should again press the Minister of Transport to make a grant towards the cost of the scheme, and

RESOLVED TO RECOMMEND—**That further information be submitted to the Minister of Transport and that he be urged to re-consider his decision in the light thereof.**

The statistics of book issues indicates that there is no decrease in the use made of the Library. **Noted.**

3.—GREATER LONDON REGIONAL PLANNING COMMITTEE:

SUBMITTED: Letter from the Secretary relative to the continuance of the above Committee for the year 1931/32 with which the Council were not in agreement and accordingly withdrew their membership. The Committee state they had hoped that the Town and Country Planning Bill, which they consider would have facilitated the continuance of the regional work in an effective manner, would have passed into law by the end of the present financial year when they contemplated issuing a final report and handing over their functions to a more permanent body.

The Bill in question not having become law the Committee outlined the action they propose to take to continue their work for a further period.

With a view to affording them further financial help the Committee stated that it would be of great assistance if the Authorities who withdrew their membership last year would contribute 1/5th of the sum they would have paid had they continued such membership, the sum asked for from the Hendon Council being £10 6s. 8d.

The Committee have no recommendation to make on the matter.

* 4.—NORTH MIDDLESEX JOINT TOWN PLANNING COMMITTEE:

Contributions.

REPORTED: Letter from the Ministry of Health accompanied by a copy of a communication from the North Middlesex Joint Town Planning Committee in reply to the resolution passed by the Council on the 26th October last, relating to the payment of the Council's contribution to the Joint Committee in respect of the year 1931/32. (Agenda, page 546).

The Joint Committee in their letter to the Ministry, pointed out that in September, 1928, the constituent authorities agreed to contribute towards the Committee's expenses for a period of three years from the 1st April, 1929, and stated that though the instalments were paid annually they were not necessarily in respect of the expenses to be incurred in the year of payment. Further that although there was a balance in hand it was considered in making the call for the third instalment that this would be needed to enable the work of the Committee, which it is felt is by no means concluded, to be carried on efficiently and to the advantage of the local town planning authorities at the conclusion of the present financial year.

RESOLVED TO RECOMMEND—**That the Council's contribution for the year 1931/2, viz.:—£69 3s. 1d. be now paid, but that the Committee be asked to furnish a definite statement as to the disposal of the funds in hand at the end of the present financial year.**

* 6.—LAND JUNCTION OF HAMILTON AND WOODVILLE ROADS, GOLDERS GREEN:

SUBMITTED: Report of Surveyor with regard to the erection of the two lock-up shops in the position indicated above, which has been approved by the Council.

It had been reported to the County Highways Committee that portable weighing instruments are now being manufactured and are undergoing tests and that in the event of these tests proving the instruments to give sufficient accuracy to enable convictions to be obtained the heavy expenditure upon weighbridges might be obviated. The Committee had therefore deferred consideration of the matter until further information is available regarding the portable weighing instruments. **Noted.**

A scheme for carrying out resurfacing and improvement works has been approved by the Ministry of Transport and the Middlesex County Council, but the work has been deferred in accordance with Ministry of Transport Circular No. 364. (Hi., 5/1/31—13).

It is desirable that the position of the Council should be safeguarded in view of the fact that it might be necessary to determine the tenancy at short notice in the event of road widening works being proceeded with, and the Committee, therefore

RESOLVED TO RECOMMEND—**That the applicant be requested to submit plans shewing his proposals, and that the Clerk be instructed to submit a report to the next meeting dealing with the legal aspect of the matter.**

* 7.—ELMER GARDENS, EDGWARE:

RESOLVED—**That the Surveyor's report be approved.**

* 15.—SEWAGE OUTFALL WORKS—COTTAGE:

SUBMITTED: Surveyor's estimate of the cost of re-conditioning the above cottage, in accordance with the resolution passed by the Committee on the 9th November last. * 16.—SEWAGE DISPOSAL WORKS, SOUTH OF THE BRENT:

Alterations and Extensions.

On the 22nd June last (W. & F.B., ~~£~~8/6/31—15) the Council approved a scheme for carrying out extensions to the sewage outfall works south of the Brent amounting to £10,300, and application was accordingly made to the Minister of Health for sanction to the raising of the necessary loan.

Arising out of the report of the Emergency Committee the Council decided to postpone the carrying out of the scheme and the application for loan sanction was withdrawn. At the same time the Surveyor was, however, instructed to prepare a modified scheme.

This has now been submitted at an estimated cost of £9,300.

RESOLVED TO RECOMMEND—

* 17.—PUMPING STATION—LOW LEVEL SEWERS:

Supply of Electricity.

SUBMITTED: Surveyor's report, in accordance with the resolution passed by the Council on the 26th October last (W. & F.B., 12/10/31—6 (B)), as to establishing a generating station to supply electricity to the new low level pumping station in substitution for the supply of electricity from the Hendon Electric Supply Company.

The Council have entered into an agreement with the Hendon Electric Supply Company for the supply of electricity for a period of five years from July, 1931.

Under the West Middlesex Sewage Disposal Scheme the Middlesex County Council will become responsible for dealing with the crude sewage and six times its volume in storm water. The pumping station will then only be required to deal with such quantities as may come down to the pumping station in excess of this quantity. It is anticipated that the Middlesex County Council will be in a position to deal with the sewage from Hendon in approximately five years from the present time. Having regard, therefore, to the circumstances indicated above, the Surveyor does not think it advisable to instal special generating plant which may only be required for a few years.

RESOLVED TO RECOMMEND—**That the report of the Surveyor be approved.**

Lawes with whom the agreement should be entered into.

The Solicitors to the Railway Company state that a strip of land approximately 3 feet 6 inches in width along the side of the railway must be assured to the Council by a 999 years lease at an annual rental of 1/- and the powers of entry for the purposes of repairing the Company's works which are usually reserved to the Company will be reserved by the proposed lease. The freehold of the remainder of the land will be conveyed. **Noted.**

† (B). *Land Adjacent to British Museum Repository.*

5.—OPEN SPACE, EDGWAREBURY LANE:

* 6.—PURCELLS AVENUE, EDGWARE:

SUBMITTED: Report of Surveyor that Purcells Avenue is severed approximately halfway through its length by a strip of land owned by the London Electric Railway Company, and reserved for the extension of the railway.

The land in question has been leased to A. W. Curton, Ltd., the developers of the adjoining estate who maintained a temporary roadway through the land for the convenience of residents in the vicinity. The Railway Company have, however, terminated the agreement and given notice of their intention to fence off the land leaving only the existing public footpath, thus making Purcells Avenue (now a through road) into two short cul-de-sacs which it is considered will occasion considerable inconvenience to the residents.

The Surveyor stated that he had been in negotiation with the Railway Company with a view to avoiding the severance of Purcells Avenue when the railway is extended, but this appears to be inevitable. As as alternative an endeavour had been made to secure that the roadway should remain open until such time as the railway is extended. The Railway Company would probably be prepared to enter into an agreement with the Council by which the

ultimate severance of Purcells Avenue would be agreed but that the roadway should be left open for traffic and maintained by the Council until such time as the railway is extended, the right being reserved to the Council to oppose the bill in connection with the extension of the railway on any grounds other than the severance of the road.

RESOLVED TO RECOMMEND—**That the Surveyor continue negotiations with the Railway Company on the lines indicated.**

* 11.—FOULING OF FOOTPATHS BY DOGS:

REPORTED: Correspondence from the Middlesex County Council on the above subject.

In December, 1928, the County Council submitted a draft bye-law to the Secretary of State in the terms set out hereunder, but subsequently decided not to formally adopt the bye-law in view of the fact that the services of the Police could not be utilised in the enforcement thereof and the Home Office approval would have been made subject to the carrying out of the bye-law by the officers of the County Council which was considered to be impracticable:—

(i) No person being in charge of a dog in any street or public place and having the dog on a lead shall allow or permit the dog to deposit its excrement upon the public footway.

(ii) Any person offending against this bye-law shall be liable for every offence to a penalty not exceeding forty shillings.

(iii) Extent of bye-law.—The above bye-law shall extend and apply to all parts of the Administrative County of Middlesex except such parts as are within any Municipal Borough.

It appears that the County Council have now received a communication from the Wembley Urban District Council stating that provided the County Council will make the bye-law and delegate its powers of enforcement to the District Council they would be prepared to take steps to ensure its enforcement in their district.

The County Council intimate, however, that they have no statutory power of delegation and they suggest that each Local Authority should appoint one of their officers as Common Informer to enforce such bye-laws and that in order to overcome any possible difficulty the Local Authority should give the Officer concerned an indemnity in respect of the payment of costs.

RESOLVED TO RECOMMEND—**That the County Council be informed that the Council are of opinion that the bye-law should be made, and that they will be prepared to consider the question of its enforcement in the District after confirmation by the Secretary of State.**

† (C). *Street Trading Bye-Law No. 21—Scale of Charges.*

The above Byelaw, which prescribes the charges which the Council are authorised to make under Section 147 of the Hendon Urban District Council Act, 1929, for the removal of refuse or other services, ceases to be in force after the 1st April next, unless a bye-law confirming and continuing its provisions has been duly made. In this connection a communication has been received from the Secretary of State, Home Office, stating that the Secretary of State has had under review the scale of charges and that after consideration of the views of the Federation of Costermongers and Street Trader's Union, and other interests, he has come to the conclusion that the maximum scale of charges which he is prepared to approve in any new bye-law is as follows—the bye-law to remain operative for 3 years to the 31st March, 1935 :—

1/- in respect of each stall for which a licence is held for one or two days only in each week.

2/- in respect of each stall for which a licence is held for three or four days only in each week.

2/6 in respect of each stall for which a licence is held for five or more days in each week.

So far as Hendon is concerned the revised charges would not appear at the present time to be very material. The Committee, therefore,

RESOLVED TO RECOMMEND—

(i) **That a new Bye-law No. 21 incorporating the revised scale of charges be submitted for the confirmation of the Secretary of State, Home Office.**

(ii) **That the Clerk of the Council be authorised to take all necessary steps for the confirmation of such bye-law.**

Report of Sub-Committee.
29th February, 1932.

Present : Messrs. Councillors T. E. Carpenter, B.A., LL.B., and C. C. Cartwright, J.P.

The report of the Sub-Committee was dealt with as follows :—

POLLING DISTRICTS :

In considering the reference from the Finance and General Purposes Committee as to the desirability of making application for the constitution of an additional polling district for the Mill Hill Ward, the Sub-Committee have had before them details as to the numbers of Parliamentary and Local Government Electors, together with information as to the existing polling districts and polling places.

The Ward is at present divided into two districts as follows :—

Polling District and Letter.	Polling Place (at or near).	Electorate—1931 Register. Parliamentary.	Local Government.
Mill Hill East—S. ...	St. Paul's C. of E. School, The Ridgeway	1321	979
Mill Hill West—T. ...	Hartley Hall, Flower Lane	8763	6851
		10084	7830

The existing arrangements in the East Polling District are satisfactory, but some difficulty has been experienced, owing to the very large electorate, in providing under satisfactory conditions the required number of polling stations in the Hartley Hall for the West Polling District. The difficulties will be accentuated upon the completion of the new Register of Electors.

The Sub-Committee have accordingly

RESOLVED TO RECOMMEND—**That application be made for the division of the existing Mill Hill West Polling District by the constitution of an additional Polling District to be be known as Mill Hill South, to comprise the following area :—**

So much of the Mill Hill Ward of the Urban District of Hendon as constituted by Order of the County Council, dated the 31st January, 1930, as lies South of an imaginary line commencing at a point in the middle of the Edgware Branch of the London & North Eastern Railway at Deans Lane thence proceeding in an Easterly direction along the middle of the said line to a point opposite the Western Boundary of the Lyndhurst Open Space thence turning in a Southerly direction and following the Western boundary of the said open space to Deansbrook Road and thence proceeding in a straight line to the Boundary of the Burnt Oak Ward at the junction of Lyndhurst Avenue and Abbots Road.

The Polling District thus proposed to be constituted would be :—

Polling District.	Polling Place (at or near).	Electorate—1931 Register. Parliamentary.	Local Government.
Mill Hill South ...	Council School, The Meads	2218	1902

Details of Rates Levied to 30th September, 1932.

Purposes for which the General Rate for Six Months to 30th September, 1932, was made; estimated sum required for each purpose; and approximate pence in the £ now levied.

The following statement shows how the rate demanded is made up. It sets out the rate in the pound which would be required to meet the nett expenses of each of the principal services, after allowing for specific Government Grants towards the expenses of the services marked * but without allocation to particular services of the Government Grants under the Local Government Act, 1929.

The Government Grants under the Act of 1929, being in aid of local government expenses generally, cannot be allocated to any particular service. They reduce, by the amount shown, the total rate in the pound which would otherwise be demanded.
