Read letter from Mr White the Returning Officer enclosing his bill for the expenses of the late election amounting to £62. 12. 0

Referred to the Finance Committee

Read letter from Local Government Board stating that until the Bye laws had been confirmed in accordance with the Public Health Act 1875 the temporary adoption of any clauses by the Local Authority was of no legal effect.

Ing Mr. Nuisance at

The Clerk reported that he had served Mr Ing with the necessary notice of Summons.

The Surveyor undertook to see if any steps had been taken by Mr Ing and report

General District Rate

The Clerk reported that Mr. Harris had not yet sent the information required by the Sanitary Committee who were therefore unable to prepare an Estimate

Bye Laws

The Chairman reported that the Sanitary Committee had met that evening and had decided to obtain the

model bye laws recently issued by the Local Government Board as a guide to them in settling the byelaws

After some discussion

It was resolved that the Board adjourn for a fortnight and that the Sanitary Committee should meet next Monday to proceed with the byelaws.

Fallow Corner Sewage

The Committee appointed to report on this brought in the following report which on the

Motion of Mr. A Wright

Seconded by Mr. C Norman

It was ordered should be entered on the Minutes

"Fallow Corner Drainage

" Mr F. Goodyears Complaint

"Your Committee have visited and made enquiries and "have to report that the Proprietors of the Fallow Lodge Estate "when laying out their land for building purposes constructed "roads and laid a sewer therein at a depth below any means "of outfall (at that time) with this sewer were connected the "drains from the houses on the Estate viz Melrose Villas "Mauvers Villas Bellevue Villas and others as were also the "Roadside gullies. The result being that the Sewer gully, drains "& gully became charged and the Sewage flowed over "the Roadway at the lowest point which is at the "connection of the New Road (Granville Road) with Bow "Lane. To prevent which the Barnet Rural Sanitary Authority "four or five years since constructed a temporary a 6 in "pipe drain 866 ft in length to carry the Sewage from "Gully to Mrs Wimbonshis field where it is distributed

"Some time afterwards in consequence of the cutting off "from the old course the drain from two houses belonging "to Mr. A. C. Brown by Mr Mercer this drain was also "connected - the present state of the case being that the "whole of the Sewage from the abovenamed Houses "and the road Surface water has to ascend the 6 in "pipe intended to conduct the surface water into Sewer "and is carried away by the temporary drain "mentioned Consequently after storms or snow this

drain is insufficient for the purpose

And now Committee recommend that as soon as a Scheme of drainage is determined on this place be one of the first considered and in the meantime an examination and reparation of the gully traps be made and that the gullies be cleaned and disinfected after heavy rainfall

The Clerk was directed to acknowledge the letter and obtain the agreement between the Freeholder and the Rural Sanitary authority referred to therein.

Fire Plugs.

Read letter from Manager of the Barnet District Gas and Water Company stating that if notice were given of any plugs or hydrants being out of repair the Company would repair them in accordance with Sec 39 of the Waterworks Clauses act. also asking that one of the Boards officials should accompany the Companys Inspector over the district

The Clerk was directed to reply that the Board must leave the Fire plugs under the charge of the Company who must be solely responsible for their being in proper condition and that they did not consider it desirable to instruct the Surveyor to inspect the same with the Companys Officer.

Diptheria at North End

Read letter from Mr Brooks asking the Board to enquire into a new outbreak of Diptheria at North End

Referred to Mr. Brooking to report

Sinkers Red Decver

Mr Connell referred to this subject and said that Mr Brooking had not carried out the resolution of the Board passed at a Meeting held on the 16th December 1878 to continue the drain

Mr. Brooking stated he had put a flap on the mouth of the drain but as the land was glebe land and no authority had been obtained for entering upon it he had deferred doing so until he had received further orders

On the Motion of Mr A. C. Stephens, seconded by Mr A. Wright

It was resolved that the Clerk be directed to apply to the Ecclesiastical Commissioners for permission to extend the drain made in 1867 for a limited time and in such manner as shall in no way prejudice their rights in respect of their property.

Bye Laws

The Chairman reported that the Sanitary Committee after working for four hours on Monday last had only got as far as No 64 of the model bye laws and proposed to continue their labours on Monday next

Highway Rate

Read Correspondence with the Local Government Board on this subject

It was moved by Mr Reeves seconded by Mr Farmer

That the Highway Rate be now sealed

An amendment thereon was moved by Mr A C Stephens seconded by Mr Dippie

That as it appears from the Correspondence with the Local Government Board that the propriety of making a Highway Rate is in doubt and as the Clerk advises that a Highway Rate may be objected to while a general district

Rate (according to the opinion contained in the letter of the Local Government Board dated 13th Inst, to this Board) cannot, this Board decides to make a general District Rate.

After some discussion a division was taken and the names of the Members present and voting being recorded there were five for and five against the amendment viz! For the amendment Messrs Stephens, Dippie & Bowman. W.B. Passmore and the chairman

Against. Messrs Reeves. Farmer, Field Cornwell and Dr. Wright

The numbers being equal - the chairman stated that he thought it desirable that he should give a casting vote in favor of the amendment which he accordingly did.

The amended Resolution was then put whereupon it was moved by Mr. Reeves seconded by Dr. Wright and resolved

That the debate be adjourned

Bye Laws.

Report of Sanitary Committee

The Chairman brought up the Report of the Sanitary Committee as follows.

30 January 1879

"The Committee have spent many evenings in "carefully considering the question of Bye Laws and Regulations "and deciding on the Bye Laws and Regulations they recommend "the Board to adopt.

"In the first place they recommend that the Bye "Laws relating to (A) New Sheds and Buildings (B) Cleansing "of Footways and Pavements, Removal of House Refuse, Cleansing "of Earthcloset Privies Ashpits and Cesspools (C) Prevention "of Nuisances arising from Snow Filth Dust Ashes and Rubbish Prevention of the keeping of animals on any Premises so as "to be injurious to Health (D) Common Lodging Houses.

"(E) Slaughter Houses, should be printed for general circulation.

"The Committee after much consideration have adopted "the model Bye Laws of the Local Government Board numbered "1, 2, 3, 4 and 6. as the model upon which they have drawn "the Bye Laws for the use of this Board, they have made such "alterations therein as seemed to them to be desirable and necessary "having regard to the exigencies of the case and to the locality "which such Bye Laws are to affect.

"The annexed model Bye Laws marked A.B.C.D and E "as amended the Committee recommend to the Board for adoption "as the Bye Laws of the Board on the above mentioned subjects.

"It has been suggested to the Committee by one of its "members that with regard to some subject which these Bye Laws "regulate such as ventilation of drains or sewers etc it may be "desirable to alter the Bye Laws and that in that case it would "be necessary to apply to the Local Government Board specially for "their sanction to any alteration and he suggested that the "following addition to the Bye Laws be made.

"Your Committee were advised by the Clerk that he "had much doubt whether the Local Government Board would "allow such a provision they therefore thought it better to mention "the matter in their report and leave the same for the consideration "of the Board. Such addition is as follows:-

'In any case if the Board think it expedient they may 'dispense with the observance of any or either of the foregoing 'Bye Laws or any part thereof under such terms and 'conditions as they may think proper and in case of the 'non-observance of any terms and conditions upon 'which the Board may dispense with the observance of 'any of the foregoing Bye Laws, then such proceedings may 'be taken and such liabilities shall be incurred as if 'no such dispensation had been granted.

"With regard to the Regulations as to the Business of the Board "and the duties of the Officers the Committee have prepared "the Regulations hereunto annexed marked F. G. H."

Medical Officer of Health

"The Committee recommend that a medical officer of Health "be appointed for one year only and at a Salary of £60 and that "with a view to the efficient and economical conduct of the

"duties that it should be a condition that he be personally
"competent to carry out all analyses of water and all other
"analyses as may be required under the adulteration of
"Food and Drugs Acts.

"And further the Committee also recommend that
"the Board make the usual application to the Local
"Government Board that the Salary of the Medical Officer
"of Health be partially paid out of monies voted by
"Parliament

"The Committee recommend that the Regulations
"relating to the Medical Officer shall be in the form
"annexed marked F before referred to being in fact
"the adoption of the Regulations of the Local Government
"Board set out in the General Order of that Board dated
"the 11th November 1872.

Inspector of Nuisances

"The Committee recommend that a similar
"application be made to the Local Government Board
"for payment of part of the Salary of this Officer as is before
"suggested with regard to Medical Officer of Health and
"that the appointment be for one year only and the Salary
"fixed at £120

"The Committee recommend that the Regulations as
"to the Inspector of Nuisances be in the form G annexed being
"also the adoption of the Regulations of the Local Government
"Board as set out in their General Order dated the 11th
"November 1872

Surveyor and Engineer

"The Committee have carefully drawn out the duties
"they recommend to be performed by the Engineer and Surveyor
"and the same are contained in the form marked H annexed

"They recommend that the appointment be for one
"year only and that the Salary be fixed at £80

"The Committee do not think it necessary to define
"further by Regulations the duties of Clerk and Treasurer which
"they consider are sufficiently defined by the terms of the
"resolutions appointing such Officers

"Edward Sayer. Chairman
"W. B. Passmore.
"Henry. C. Stephens"

Moved by the Chairman seconded by Mr A.C. Stephens and resolved

That the Report as read be entered on the Minutes

Moved by the Chairman and seconded by Mr Diffie That the Report be adopted.

An amendment thereon was moved by Dr Wright seconded by Mr C. Rowman as follows

That the first paragraph in the Report under the heading of "Public Officer of Health" be amended by leaving out from the words "Salary of £60" to ~~the end of the sentence~~ and to insert in lieu thereof the words "Salary of £100" and by leaving out of the same paragraph from the words "and all other analyses" to the end of the sentence.

After some discussion a division was called for and the names of the Members present as well as of those voting having been recorded there were three for and seven against the amendment viz:

For the Amendment. Dr Wright - Mr C. Rowman and Mr Reeves

Against the amendment - the Chairman Messrs Ash, Farmer Cornwell Stephens Field Passmore

Highway Act 1878

The Highway Committee brought up the following Report –

"Your Committee are advised by the Clerk that as the "Great North Road and the Regents Park Road were disturnpiked "previous to 31st December 1870 the date mentioned in the 13th "section of the act the said Roads are not Main Roads "within the meaning of that section."

"The only section therefore which affects these roads "is the 15th which provides a means of making important "arterial thoroughfares, Main Roads, by application to the "Justices of the County who are empowered to grant an order if "they are satisfied."

"The Committee have also considered the effect of the 21st
"section with regard to Totteridge Bridge"

"It appears that the late Board of Surveyors had
"under their consideration the importance of making this
"Bridge a County Bridge, repairable by the County, but
"it was found that the same was not erected under the
"direction and to the satisfaction of the County Surveyor
"as required by the Act 43 Geo. 3rd Cap 59. Sec 5 and
"therefore the Justices could not at that time entertain
"any proposal to repair the bridge out of the County
"rate."

"The 21st section of the above Act provides however
"means by which the Board can memorialize the County
"Justices for an order to make this Bridge a County Bridge
"repairable by the County"

"The Committee have therefore settled and approved
"the annexed memorial which they suggest should be
"signed by the Clerk and forwarded to the County
"Justices at once."

"Dated this 10th day of February 1879"

"Edward Sayer"
"W. B. Cornwall"
"Charles Rowman"

On the Motion of the Chairman seconded by Mr

General District Rate

The Sanitary Committee reported that they had
taken into consideration the expediency of making a
General District Rate and had come to the conclusion
that if made at the end of March it would be
in quite sufficient time. Therefore they recommended

that it be deferred until the end of March

The Report was adopted

School Attendance Committee.

Read letter from Educational Department dated 6th Inst transmitting copy of a Minute authorizing the Urban Sanitary Authority for the District of Finchley to appoint a School attendance Committee as if they were the Council of a Borough

17th Feb 1879

At a Meeting of the Finchley Local Board held at the Parish Offices Finchley on the 17th day of February 1879 at 6 p.m

Present Edward Sayer Esq; in the Chair,
Messrs Reeves
G.J. Ash
W. Farmer
W.D Dippie
W.B Cornwell
R. Stephens
C Bloxman
O.B. Passmore
Dr Wright

The Minutes of the last Meeting were read and signed by the Chairman

Minutes.

On an enquiry by Mr Reeves a discussion took place as to what should be entered on the Minutes

The Clerk stated that with regard to all proceedings of Committees, the practice was to embody all business transacted into a Report from the Committees to the Board which reports were entered in the Minute book of the Board - but that Appendixes to the reports were not entered without a special resolution

Mr Farmer expressed an opinion that each Committee should have a Minute book to record its proceedings

The Clerk advised that in his opinion this was not a desirable course as such Minute books would lead to confusion and trouble and the Chairman would only be advised to refer to the Minute book of the Board as the only record of its proceedings -

Mr Passmore moved and Mr Ash seconded
That the Minutes as read be now signed

This Motion was withdrawn and the following Motion substituted

Moved by Mr. Stephens seconded by Mr. Passmore That the Minutes as read be signed and the question of entering the bye laws and regulations be referred until they had been fully considered by the Board

Mr. Farmer moved an amendment which was seconded by Mr. Reeves as follows

That the Minutes be confirmed subject to the Clerk being directed to enter on the minutes the Regulations passed at the last Meeting

On the Motion being put Mr. Farmer and Mr. Reeves voted in favor of it and against Messrs Ash Dipple Cornwell Stephens Rowman Passmore Dr. Wright and the Chairman

The Chairman thereupon declared the amendment to have been lost.

The original Motion was then put and passed unanimously

Trinity Road

Read letter from Mr G. A. Hill complaining of the bad state of the Road and footpath

The Clerk was directed to reply that the road was a private road but that the Board would take steps to repair the footpath Surveyor directed to attend to it

Red Lion Hill Sewer

Read letters from Mr. Froome and Mr Abraham stating that the Sewer had burst

The Clerk was directed to reply that the matter should be attended to and the Surveyor was instructed to inspect and affect the necessary repairs

Petroleum

Read letter from Mr Lawford asking whether Mr Hall could store Benzoline and paraffin and as to what restrictions had been imposed in the License

The Clerk was directed to reply thereto.

Friern Park Sewage

Mr. Passmore brought up the following Report

To the Finchley Local Board

Gentlemen.

I beg to report that on the 13th Inst. I together with Mr. Lindsay of Friern Park and Mr. Brooking inspected the open ditch situate on the South side of Friern Park which is complained of as being a nuisance by messrs Lindsay, Butler and Jarrett in their letter of the 5th instant.

"The ditch in question is an ancient water-course and the upper part of same has from time to time been piped in by various persons whose properties adjoin it; but the right of draining surface waters therein appears to be of very ancient date and its retention for such purpose is most essential.

"The Sewer in the High Road, from Britannia Road to near the Torrington Arms has its outfall into this ditch; and there also are other old drains converging to the same outfall, the result being that a considerable amount of sewage from Houses in Finchley and from several houses in Friern Barnet discharges therein, and no doubt during certain periods of the year noxious gases are evolved which cause a nuisance to the residents near the outlet.

"To divert all the sewage would involve the construction of works of an extensive character, which it is obvious the Local Board are not yet in a position to enter upon; but I am of opinion (and Mr Lindsay concurs with me) that considerable good may be effected by continuing the 12 inch piping some 70 or 80 yards lower down and thus removing the outlet from its present close contiguity to the Gardens of Friern Park; any foul matter that may accumulate in the ditch being periodically removed.

"I am informed that the owners of the Land upon which the present outlet is situate would not object to this being done, but such land is without your District, and it appears by section 32 of the Public Health Act that no extension of a sewer or work for sewer

"purposes can be executed by you outside your District without giving
"3 months notice and going through other formalities which
"would probably involve still greater loss of time."

"Such delay would possibly cause inconvenience
"and therefore in the event of the Local Board deciding to
"extend the piping as hereinbefore suggested the Rural
"Sanitary Authority might be requested to undertake the
"necessary work upon the Local Board paying the cost
"incurred provided always that in so piping a portion of
"this ditch, the Local Board is not to be involved in any legal
"responsibility with respect to it, and that such piping
"cannot be construed into an acceptance of the Sewer as
"appertaining in any way to the Board. This is a point
"with which I am not able to deal, but if it should offer
"any obstacle to my suggestion, then in that case; all that
"I can recommend is that the ditch should be frequently
"and regularly cleaned out"

"(Signed) "W. B. Passmore"

Mr. Passmore added the following remarks.

That the Board would see that this was a point which needed careful consideration and the legal bearings clearly understood because if an act of this kind should vest the drain in the authority of the Board the Board would be committed to further considerable expense. He therefore recommended that the Clerks opinion be taken upon the point before further proceeding.

The Clerk advised that as it appeared the Sewage causing the Nuisance came from Finchley Parish it would be better to clean out the ditch with the consent of the owners so as to abate the Nuisance but that before doing any permanent works it would be desirable to see what arrangements could be made with Friern Barnet as to those outfalls of Finchley Sewage as flow into Friern Barnet Parish.

The Surveyor was ordered to do what was necessary

Friern Barnet Outfalls

After some discussion on this subject the Surveyor was ordered to report as to what portion of Finchley Drainage can beneficially go into the Friern Barnet System and what suggestions he has to make with regard to the expediency of this Board negotiating with the Friern Barnet Authority with that object

Moss Hall Sewage

The clerk reported that negotiations were still going on with regard to this.

Drainage of New Houses.

On the Motion of Mr. Stephens seconded by Mr Ash it was unanimously resolved.

That it be an instruction to the Surveyor that the Board deem it inexpedient to approve of the drainage of any new street or building involving the pollution of any watercourse until it has been ascertained that no means are available by which the sewage may be wholly or partially purified before it enters the watercourse.

Surveyors Report

Mr Sorrels new Houses East End.

The Surveyor reported that he had two plans for houses to be erected by Mr. Sorrel in Park Road which were quite satisfactory with the exception of the Drainage.

The Plans were approved subject to the owner laying in 6 inch glaze pipes down to the drain.

Mr Spruces Houses

These plans were passed

Mr. Pointings Houses

The Plans of two houses were presented

Highway Committee Report

The Highway Committee brought up the following Report

3rd March 1879

Drift

The Committee find that there are no existing contracts with relation to drift except that Mr. Pouling has been allowed to have Fifty yards of Road drift as arranged at last Meeting of the Board

The Committee find that there is a considerable quantity of road drift laying at the sides of roads which it is most essential to remove inasmuch as it causes considerable inconvenience and is detrimental to the Road surface. They reserve the question of the disposal of the road drift until the next Meeting.

The Committee recommend that additional men be employed to scrape or sweep off the large quantity of mud now on the surface of the Roads. They are of opinion that the present unsatisfactory condition of the Highways in the district arises

principally from the exceptionally severe and protracted winter - the metalling in many places is nearly worn out and the surface disintegrated and upheaved - The Committee note that this does not occur to roads having a sufficient thickness of metalling and further that the granite roads and bye roads with but little traffic thereon are not so much affected - The proper formation of Long Hill should be at once restored with flints or strong gravel and that portion of the main road coated with granite in the Autumn - the Church path in Meat field has been ploughed over - this path should be gravelled - Colney Hatch Lane to the end of Summers Lane should also be repaired - there are also several weak and dangerous places in the bye roads which should at once be mended with gravel - Further that gullys should be placed in the following positions; by Elmoi House and at the end of Mr. Fords fence; that the Bridge over the Brent by Brent Lodge should be immediately restored; and that 500 tons of flint or gravel should be ordered -

The Committee think that the footpaths should be repaired at once and that the repairs to the roads should be executed in sections - they deem it more economical to maintain Highways having such an amount of Traffic thereon as those in this District have, than to allow them to get into what may be described as a nearly worn out condition -

The following plant is required and should be at once ordered viz 24 Brooms, 2 Lines and Pins 12 Shovels, 2 Iron rammers. 25 Road horses

(Signed.) M. Plowman

Fallow Corner Sewage

The Debate was resumed by Mr Passmore

Mr Farmer obtained the leave of the Board to alter his Resolution to the following.

That the owners and occupiers of property draining into the Sewers in the Roads known as Fallow Corner and Granville Roads be informed that the said Roads being private or occupation Roads the separation of the said roads and Sewers and the abatement of any Nuisances created by them must be remedied by and at the expense of the said owners and occupiers.

The Clerk interposed to state his opinion that the amendment was not a legal Motion and that the Board would not be able to carry it out if passed

On the Motion of Mr Ash the debate was adjourned to enable the Clerk to look at the Vestry Books.

Highway Committees Report

The Highway Committee then brought up their Report as follows.

Finchley Local Board
Report of the Highway Committee as to certain

"matters referred to the Highway Committee and also
"matters left outstanding by the late Board of
"Surveyors.

"Dollis Brook Road"

"On or about the 19th December 1877 the late
"Board of Surveyors took into consideration this
"road and the following report from Mr. Puckett
"to whom the subject had been referred was read

Gentlemen — In pursuance of instructions
from the Chairman of your Board I have
inspected the site of the alleged encroachment
on the South side of the Highway at Dollis
Brook near to the Viaduct of the Great Northern
Railway at Finchley, and have to report that
the ground forming part of the estate of the
late Mr. Heal has undoubtedly been for many
years past gradually encroaching upon
the road, the boundary hedge having been
forced into an irregular line by the weight of the
soil behind, as the land at this point rises
rapidly above the level of the roadway; it also
appears that the roadway itself has been forced
out of its former position partly no doubt from
the same cause and partly by the flow of
water loosening the banks of the brook

Referring to the interview I had on the
spot with Mr. Ure and Mr. Guy (Members
of the Board) on Saturday last, I am of
opinion that the representatives of the late
Mr. Heal may fairly be asked to give up a
portion of the land now in their possession,
but inasmuch as the main portion of the
encroachment occurred many years ago I
suggest that the new line of boundary be a
matter of negociation with a view to effect a
compromise so that if possible a minimum width
of thirty feet may be obtained for the roadway
as shown on the accompanying plan by a
blue dotted line, which line it will be observed

commences at a point westward of the former proposed line marked red on plan.

Should this suggestion meet with your approval, I shall be happy to communicate with the late Mr. Heal's Agents on the matter if desired

Walter B. Prickett

"At a meeting of the late Board of Surveyors held that "day Mr. Prickett was authorised to see messrs Gairdner "Agents for Mr Heal to arrange the matter.

"As the as result an arrangement was come to "between Mr. Prickett and messrs Gairdner the substance "of which is contained in the following letters

To messrs Gairdner — "Referring to your note of the 22nd "December I have heard from the Finchley Board of "Surveyors (through their Clerk) that in order to get rid "of all obstacles to a settlement of this matter, they will "agree to remove the earth and put up a fence on the "new line of boundary as adopted, but certainly will "not pay any costs of your clients, Solicitor, or Surveyor.

"Inasmuch as the Board meet again on Monday "Evening next, I shall be glad to hear from you before "then agreeing to these terms"

"Walter B. Prickett"

From messrs Gairdner — "Referring to your letter of the "23rd inst we are prepared with a view to an "amicable settlement of the question, to adopt the "terms therein proposed.

"We beg to draw attention of your Board to "the fact that by cutting away the projecting banks "of earth, as indicated by the proposed new line of "boundary, you will be removing that which now forms "a natural buttress for the higher land in rear.

"It will therefore be necessary either to build "up a retaining wall of sufficient strength to keep "back the weight of earth behind or to cut away the "bank to a slope with a batter of 1½ to 1. In "the latter case your Board would be interfering with "our clients land to a greater extent than their plan "contemplates, but we do not propose to raise an obstacle

"on this ground if the work is properly done, and the
"sloping bank be laid down in grass, and the fence
"(a proper fence for agricultural purposes) be erected
"on the proposed new line of boundary. With a
"view to saving expense our client's Solicitors
"recommend that your letter embodying the terms
"shall be the agreement between the parties, and that
"you and ourselves shall sign a plan in duplicate
"adopting the new boundary upon behalf of our
"respective clients"

"Gairdner & Son"

"The plan annexed is a plan signed by the two
"agents."

"At a meeting of the Surveyors held 11th Feb
"1878 the following resolution was passed.

That this Board instruct Mr W. Puckett
to complete the Agreement come to by his
letter dated 23rd January 1878, and Messrs
Gairdners reply dated 30th January and
to sign the plan as suggested.

"The Committee therefore recommend that
"so soon as the Board is prepared to take up
"the matter an estimate should be obtained of the
"cost of the necessary works"

Encroachment at Bald Faced Stag East End.

"The late Board of Surveyors shortly before the
"appointment of the present Board had notice of
"the erection of a fence running from the Bald
"Faced Stag towards East End Station on the South
"side of the High North Road taking in a
"considerable quantity of the verge at the side
"of the road.

"The Board of Surveyors gave notice to the
"tenant of the Bald Faced Stag who it was
"stated put up this fence requiring him to desist

"The Tenant came on several occasions
"to the Surveyors endeavouring to induce them
"to consent to the erection and ultimately the
"Surveyors appointed a Committee to view & report

"It appears the Committee did view but never reported
"to the Board and the fence has been allowed to remain as
"erected"

"At the time when the East End Chapel was erected
"the Surveyors took Counsels opinion as to whether the
"adjoining Owners were entitled to take in this verge,
"such opinion was in the negative."

Re Ecclesiastical Commissioners Land East End

"The Ecclesiastical Commissioners entered into an
"arrangement with the Surveyors with respect to their land
"abutting on the Great North Road to the following effect
"that they were to be at liberty to fence it in part of the verge
"fronting their land provided they left a 60 feet roadway
"and entered into an Agreement not to build within 20
"feet of the side of the road.

"This arrangement is in process of being carried
"into effect.

Footbridge over the Brent

"The late Surveyors before they went out of
"office had under their consideration the necessity
"of reinstating this bridge which was washed away
"some months ago. It appears that at present
"the footpath is partially stopped up by reason of this
"bridge being in want of repair. The Committee
"propose to continue their correspondence with Hendon
"with the object of arranging for the repair of this bridge"

Footbridge over Dollis

"This bridge also requires repair. A letter
"has been received from the Edgeware Highway Board
"consenting to share in the expense of this repair and
"asking the Finchley Local Board to obtain estimates.

"The Committee proposed to instruct Mr.
"Brooking to obtain estimates for both these bridges

Encroachment at High Road Mr Patersons Executors

"a Correspondence took place between the late Surveyors
"and the Solr. for Mr Patersons Executors respecting the action of
"the latter in putting out a fence in front of their property
"in the High North Road at North End. The Solicitor
"asked for time to obtain instructions.

"This matter should receive the attention of the
"present Board"

Read letter from Local Government Board -
The like from Finchley Local Board - The like from
Edmonton - The last stating that the Edmonton
Board could not attend the meeting but would
be happy to receive a Deputation from the Friern Barnet
Authority"

Spoke. Who

Mr. A. C. Stephens, Mr. H. B. Pasmore, Mr. Farmer } Desired that Friern Barnet should mature their scheme

Mr. Miles stated that it had been suggested that a sewer might be made 4 miles long carrying the sewage of Finchley and Friern Barnet to 90 acres of Land unused by the Edmonton Authority but comprised in their sewage Farm

Mr. Ny. Chas. Stephens referred to 279 Sec - Would Local Government Board assist the Authorities, - Mr. Littler remarked that his view was that they could and that he considered Sir J. Bazulgettes scheme for Edmonton Finchley and Friern Barnet to form a united District a good one

If Edmonton could see that a High Level Sewer was required then it could be made for all the Districts Undoubtedly the Local Government Board would assist the 3 Authorities. - Sir J. Bazulgettes might be consulted and if he stated in his opinion such a District would be a desirable drainage District.

Mr. Littler thought that the Local Government Board would confirm an arrangement

The following Resolutions were passed. nem-con-(The Finchley Committee did not vote)

1 That the Edmonton Board be asked if they would be willing to receive the Sewage of Friern Barnet or on what grounds they decline and if they consented then arrange for a Deputation

2 or Would the Local Board of Edmonton be disposed to form a United District under the 279 Sec of the Public Health act.

The Minutes of the last Meeting were read and signed by the Chairman

Lodge Lane Sewer

Read letter from Mr. Todd enclosing cheque for £30 his agreed contribution

Resolved that the Surveyor be instructed to bring in plans and estimates for the Sewer at the next Meeting of the Board.

Blind posts (Mr. Hill's)

Read letter from Mr. Thos. Hill Saddler addressed from 9 Market Place Headon asking for leave to sink two sockets near the edge of the path opposite his shop

Clerk directed to reply that the Board could not grant the permission but required that the blinds should be supported by arms of adequate strength and sufficient height from the ground

Road Drift

Applications were received for drift from Messrs Thomas A. C. Stephens, Wells, Sorrell and John Cook

The Surveyor was directed to sell the drift at 5/6d per yard at his discretion

Mr. Gill of Long Lane also forwarded an application for several yards of rough drift and paving near his

house.

The Surveyor was directed to sell same at 1/- per yard to Mr Gill

Read letter from Messrs Haines & Son asking for drift and offering to sell a quantity of stone chippings on site of Baptist Chapel

Messrs Farmer and Cornwell were deputed to see the quantity of stone chippings and to authorize the Surveyor to purchase the same if they considered it desirable

Gravel for Paths

Read letter from Mr Gilmour offering gravel suitable for repairing and making good foot paths at 3/6 per yard for 100 or 1000 yards at 25 hundredweight each and to deliver the same upon the roads at 1/- per yard per mile additional

Referred to Highway Committee

Fallow Corner & Granville Road Sewage

Read letters from Messrs Green Davies Chadwick Parker and Haydon, the last asking what the Board required to be done with respect to the Nuisances complained of on account of which notices had been served.

The consideration of this matter was adjourned until the next Meeting of the Board

Long Lane Sewage

Read letter from Mrs Fanny Greenfield asking what the Board required to be done to the drains in Long Lane.

Also adjourned till next Meeting

Highway Committee Report

The Highway Committee then brought up their Report as follows.

Thurlby Local Board

24 April 1879

Report of the Highway Committee

Mr. Herveys proposed boundary wall in Ballards Lane.

Your Committee measured the extreme width of Roadway and Paths between the opposite defined boundaries of properties of Mr Herveys and the Railway Hotel, and found the same to be 48 feet. The extreme width from the wood fence by the pond to the opposite side measured 49 feet.

Your committee on sighting the line of wood fence of Mr Herveys found the same to be irregular and tending inwards. On ranging a right line along the fence it was found to be next the pond 12 inches from the line.

Your Committee therefore recommend that no objection be made to the construction of the wall as proposed which will give a continuous width of 48 feet and make both sides of the highway straight and parallel.

Bridge at Dollis

Your Committee having carefully examined the Bridge, found the same to be very dilapidated and dangerous, more particularly on the Hendon side.

In the present state of the Bridge your Committee could not estimate correctly the cost of restoration, but, believe that Ten pounds will sufficiently cover all expences, including the guard fences at the end of the bridge on the Hendon side, which for safety are absolutely necessary.

Your Committee recommend the above be communicated to the Hendon Authorities, with a request for an early decision, as serious accidents may occur.

Bridge at back of Brent Lodge

Your Committee consider this Bridge beyond reparation. The cost of constructing a new Bridge will depend upon the nature of the structure intended.

With respect to both these Bridges the Committee annex Estimates prepared by the Surveyor and recommend that a letter be sent to the Hendon Authorities by the Clerk forwarding their Estimate with explanatory remarks and if necessary there can be a conference with the Hendon Authorities thereon.

Road materials

With reference to the letters received from

Ransome and Willmott offering further Road Materials the Committee think that as the last Highway Rate was more than exhausted it will be better not to order any more road materials at present.

Ecclesiastical Commissioners boundary

The Committee think that the Resolution annexed which has been settled between the Clerk and the Commissioners Solicitors should be adopted and entered on the Minutes of the Board.

Water and Gas Mains

The Committee think that wherever possible the water and Gas mains should be on opposite sides of the Road as near as possible 4 feet from the water table, but of course the Surveyor will have to advise the Board in exceptional cases

Footpaths and Church paths (repair of)

The Committee annex Report of the Surveyor as to tar paving for paths which they recommend for the careful consideration of the Board. The question whether tar paving should be adopted they consider should be dealt with by the Board.

As to the Church paths, the Committee find that the Feoffees have for some years declined to repair the Church Paths and that such paths have from time to time been repaired by the late Board of Surveyors.

It is the opinion of some that the Feoffees should repair these paths, inasmuch as one of the Trusts of the Finchley Charities is "To repair the foul and feeble Highways".

Others consider that these trusts were created in ancient times and that it is more consistent with propriety that the Highway Authorities for the time being should attend to the Church Paths.

The Committee think that to put an end to these differences and disputes and to settle

the question, the Clerk should be directed to obtain from the Feoffees a definite answer to this question viz: Will the Feoffees either repair the Church paths themselves or will they set aside such a capital sum as may be agreed on between them and the Board or fenced in some satisfactory manner in the way pointed out by the 62nd sec. of the Highway Act 1835.

As to the footpaths generally the Committee recommend that all the footpaths which have already been gravelled by the Parish including the path passing over the meat field should at once be repaired

Encroachment at "Bald faced Stag"

The Committee have arranged to visit this enclosure with the object of seeing what should be done

Enclosure High north Road (late Mr. A Paterson's property)

The Committee will also visit this enclosure and report.

Dollis Brook Road.

The Committee have considered the plan and the Correspondence referred to in their former report and are of opinion that during the present summer steps should be taken to carry out the arrangement entered into with Mr Neal's Executors. The Committee recommend that the Surveyor be instructed to prepare an Estimate.

Mr. Whiteley's enclosure Manor Road.

The Committee are advised that it would not be prudent for the Board to litigate the question as to whether Mr. Whiteley or his Superior Landlord are entitled to enclose the verge at the Manor Road as already fenced in; but they are also advised that the right to user of the pond which has also been enclosed belongs to the Ratepayers.

It would seem that the proper mode of raising the point would be by some Ratepayer who has been accustomed to use the pond for horses, dogs, or other animals drinking, bringing the question before the Courts, as a Ratepayer.

They have not at present considered whether

the Local Board should themselves take the matter up.

It is possible that if the Clerk wrote to the Freeholder he could at any rate get access to the pond

Great Northern Railway Company

The Great Northern Railway Company have taken in a portion of the verge of High Roth Road and the Committee find the late Board of Surveyors had great difficulty in obtaining any reply to their letters to the Company on the subject. It is thought that the Company will not give up this verge without considerable pressure. The Committee have determined to visit the locality and consider the question again.

Surveyors Report annexed as to Footbridges

I beg to report that the existing foot bridge across the Dollis Brook near to Brent Lodge is but a very rough and temporary structure (being in fact scarcely safe) It was I am informed placed there temporarily by the late Board of Surveyors shortly after the pre-existing footbridge had been washed away. I estimate that a suitable wooden foot-bridge could be constructed for about £12. The gravel footway for about 50 yards on the Finchley side requires renewal the place being now quite a quagmire.

The footbridge near the ford at foot of Dollis Lane is old, very dilapidated, and certainly not safe; the abutments on the Hendon side being entirely gone.

Looking at the amount of user of this bridge I am of opinion that the best thing would

be to construct a new bridge at a cost of say £17 or £18.

Repairing old timber bridges is risky work it very often happening that the removal of broken or defective timbers causes other parts of the structure to be loosened so that greater expense is incurred than was contemplated.

I however think this bridge could be repaired fit for traffic for say £6 to £8.

(These Estimates include 2 coats painting

E. W. Brooking Surveyor.

Surveyors Report annexed as to Tar paving & Asphalte.

I beg to report that I have made enquiries relative to the above matters and annex correspondence and prices as to same.

Asphalte is doubtless a very suitable material for footpaths through not always pleasing to the eye.

It however must be laid on a substratum of concrete and thus the cost is considerably increased.

Having regard to the extent of the the footpaths, the semi-rural character of your District and the pressing requirements in other directions I am of opinion that the cost is prohibitive of its use to any considerable extent within your District.

With regard to Tar-paving, you will find a deal of information from the correspondence annexed to this Report. There is however a deal of tar-paving not deserving the name, some of such being soft and sticky in warm weather though fairly good to walk on in cold weather, whilst another common fault is that it becomes rough and disintegrated.

When it is properly mixed and laid it is a really good paving, very durable, not slippery, pleasant to walk on and very economical.

You will observe its cost at Ipswich to be 1/- per yard sup^{t}. but the gravel admixture appears to be cheaper there than at Finchley, the price of Tar being about the same.

Mr. Lamb, of Kibchin, who lays the tarpaving on the Great Northern Railway offered (about 2 years since) to lay it at Barnet for 1/9 per yard sup^{r}. but doubtless if a quantity was done it could be laid for less: the price I estimate being 1/6 per yard sup^{r}.

Tar paving like Asphalte requires an edging of stone or other hard material; so that where the footways are wide and it is not intended to cover the whole width an inner edging would be necessary, though this need not be costly such as the outer or road side kerbing must necessarily be.

Granite kerb 12" x 6" laid on edge would cost about 4/6 per lineal yard, whilst the inner edging could well be made by a course of blue paving bricks set on edge, and this would not exceed 1/3 per lineal yard. The cost of these kerbings is in excess of and must be added to the tar-paving,

I have no doubt but that good tar-paving would prove satisfactory to the Board and to those who had to use it and having regard to its economy over other pavings and its durability I can recommend its use and should the Board decide to give it a trial I would suggest that a sample be laid in a spot where it would have a good trial (open to the sun and subject to a considerable traffic) and if proved to be satisfactory and more is required contract for the same at per yard super having clauses as to proper maintenance for at least 12 months, and a per centage of the payment deferred for that period

E. H. Brooking April 24th/79

On the motion of Mr. Farmer seconded by Mr. C Plowman

The Report was ordered to be received and entered on the Minutes.

On the Motion of Mr. Farmer seconded by Mr C Rowman

Resolved That the Report be adopted excepting such part thereof as related to the repair of the Church paths.

Resolved That whereas the Ecclesiastical Commissioners are the owners of Freehold property in the field numbered 738 on the Tithe Map abutting on the Great North Road - And whereas it was agreed between the Commissioners and the late Board of Surveyors for Finchley Parish that on condition that no building should be erected within eighty feet from a line drawn forty feet from and parallel to the hedge on the other side of the said Great North Road the Surveyors would offer no objection to the Commissioners enclosing so much of the Sward outside the Eastern hedge of the field numbered 738 as would leave for the said road a clear width of sixty feet from a line drawn forty feet from and parallel to the hedge on the opposite side of the said Road.

That the above arrangement be adopted and confirmed.

Bye Laws for Streets Nuisances &c.
Report of Sanitary Committee.

The Sanitary Committee brought up their Report as follows.

"The committee have gone through the alterations made by the Local Government Board and the proposed bye laws and Report as follows."

Folio 1. "Interpretation of Terms"

"The Committee think that the amendments of Local Government Board should be agreed to.

Folio II. "It is suggested that it is only desirable to except buildings which are excempted by statute

"If it is decided to put in clause for excempted buildings it is proposed that Paragraphs A.B.C.D.E.F.G and H. should stand but I. J. & K. are objectionable

Folio IV Sec VII P.A. "Agreed to suggestion as to width of carriage way 26 feet, footway 14. The whole width dedicated to the Public to be 40 feet. of which 26 is carriage way and 14 footway.

Folio IV late Clause VII "Return manuscript Clauses VII

"This Clause has been in use in most Bye Laws for many years and has been found to answer well further it is impossible to lay down a hard and fast line as to the drainage of all new streets.

"It must be governed by local circumstances in a District like Keighley.

Folio 5. "It is proposed to add to Sec X a discretionary power where no danger of the existance or spread of the following Unless the Sanitary Authority shall otherwise allow in any case in which it shall appear to them that no

"danger would exist of the spread of fire if they should dispense with
"the necessity for compliance with the foregoing requirements."

Folio 5 - Clause 12 Line 5 "add "or" a properly constructed Corbel

Folio 13. Clause 24 Line 4 "Strike out "any other Building" and insert "the Public Highway"

Folio 21. Sec 64 par 3. "This alteration appears necessary as it would
"be most unsightly and unnecessary to run a 9 inch vertical
"pipe up from the drain simply when the inlet is 4 inch"

Folio 24. Sec 70. "agreed to.

Folio 26. Sec 77. "If Local Government Board alteration allowed
"closets would have to be emptied every fortnight.

Folio 26. Sec 82. "Say 12 cubic feet for ashpit

Folio 27 Sec 85 "Agreed to.

Folio 29 "Because they are not Bye Laws and therefore
"can only be looked upon as suggested forms of Notice. The
"cases for which such notices are required are very rare and
"the local circumstances usually differ in each consequently
"there is no need to print several thousand copies of a form
"that will be hardly if ever used.

"The Committee suggest that this Clause
"should be altered as the same now appears in red.

Folio 30 Sec 90. "The Ordnance datum should be adopted.

Folio 32. Sec 94. "It is desirable to adhere to 28 days as it is
"not too much time. Cases of doubt may arise as to
"the Bye Laws having been complied with and it is very
"undesirable to limit the time for access seeing that the
"Board meets fortnightly

Bye Laws as to nuisances

Folio I. "amendment agreed to

Folio II. "Section 60 of II and III Vic: Cap. XLVIII provides that
"the object of Clause VII should be carried out by the Police.
"Towns Police Clauses Act 1847. Sec 28.

Fo 2 & 3 Cl. 8 & 9. "agreed to

Folio 3 Sec 13 "amendment agreed to

"It will be observed the Local Government Board
"defers the consideration of the Bye Laws as to cleansing of
"footways, removal of House Refuse and cleansing of Privies &c
"for the present. The very Bye Laws are apparently approved
"except that a question is asked as to why the forms are struck

"out which should be replied to.

Public Health Water Act 1878

"The Committee think it desirable to obtain "the special powers given by sec 6 of the above act, "but are advised that it is not quite clear whether the "powers referred to in that section can be obtained by an "order under sec 11, they have therefore requested the Clerk "to advise them on the subject after writing to the Local "Government Board

"Dated this 13th June 1879"

(Signed) "A B Passmore"

"Charles Blowman"

"A B Cornwall"

On the Motion of Mr Passmore seconded by Mr Dippie The Report was ordered to be received and entered on the Minutes

On the Motion of Mr Passmore seconded by Mr Dippie Resolved That the Report be adopted and that the Clerk be directed to write to the Local Government Board on the subject of the Public Health Water Act as suggested in the Report

Sewage Committee

The Sewage Committee then brought up their Report as follows

"Your Committee beg to Report that they "have duly considered the report of the Surveyor "respecting Ducksetters Lane and being of opinion that "it was desirable to afford as effectual relief as possible "by some arrangement whereby the sewage might be "put on the land requested the Clerk and Surveyor to "see Mr Peake the Trustee and Solicitor to the owners "of the adjacent lands known as the Sheephouse Farm "in order to ascertain whether he would consent to the "sewage being taken on to such lands and there utilized

"If this could be effected a great relief would "be afforded to that part of Church End adjacent to "the existing outfall for some time to come.

"With respect to the sewage from houses in Long Lane
"which discharges into Squires Lane your Committee
"considered that the most efficacious remedy available
"would be to convey such sewage on to the adjacent land
"now in the occupation of Mr. Whiteley and be there
"utilized by irrigation.

"The Freeholders of this land are also
"represented by Mr. Peake and therefore we directed the Clerk
"and Surveyor to ascertain his views thereon whilst
"conferring with him respecting Ducksetters Lane.

"Those Officers report that in accordance with
"the instructions given to them by the Sanitary Committee
"they obtained an interview with Mr. Peake and
"submitted to him the desirability of abating the
"nuisance now existing at Ducksetters Lane and Long
"Lane caused by the sewage of Church End (many of
"the houses being on his property) by diverting the sewage
"from the ditches and conveying it on to the adjacent
"lands and there utilizing it by irrigation.

"Mr. Peake stated that he was fully sensible of
"the importance of abating the nuisances complained of
"and was willing to assist and co-operate with the
"Board for such purpose.

"A meeting between the Officers, Mr. Peake
"and the Lessees was therefore arranged and was duly
"held when the plan proposed by the Surveyor was
"explained to them

"Since that interview the following letters
"have been received (1) From Mr. Peake acceding on behalf
"of the Freeholders to the suggestion to utilize the sewage at
"both outfalls on the adjoining land. (2) Letter from Mr
"Barham of Sheephouse Farm the Lessee declining the
"proposal (3) Letter from Mr. Whiteley the Lessee of the
"land adjoining Long Lane outfall.

"With respect to the Ducksetters Lane outfall
"your Committee think under the circumstances it will be better
"to carry out the original plan of piping the ditch for a distance
"of 150 feet which will have the effect of taking the sewage a
"considerable distance from the houses at Church End and

"that the Surveyor had better be instructed to keep the ditch
"clear so as to prevent annoyance

"With respect to the Long Lane outfall and
"Mr. Whiteley's proposal your Committee recommend that
"the Surveyor be instructed to see Mr. Whiteley again on
"the subject of his letter and endeavour to carry out the
"original proposal.

"With respect to Fallow corner your Committee
"have decided that this subject is a matter of policy that
"the Board should decide.

"With respect to Mr. Richardson's letter the
"Committee have instructed the Clerk to prepare a special
"letter in reply to be laid before the Board at its next meeting

Finchley and Friern Barnet Sewage

"The Committee have had under their
"consideration the following resolution passed by the
"Finchley and Friern Barnet Committees at a meeting
"at the Orange Tree Colney Hatch 4th June 1879

1 "That this meeting of the Friern Barnet
"Committee and of the Sewage Committee of the
"Finchley Local Board request the Finchley Local
"Board to consider whether it would be disposed to join
"with Friern Barnet Parish in requesting the Local
"Government Board to hold a Local Enquiry with the
"object of ascertaining whether it would be desirable to
"form Friern Barnet, Finchley, and part of Edmonton
"into a United Drainage District under the 279 sec of
"the Public Health Act 1875. Sub sec 2.

2 "That with the view of carrying into effect
"the above resolution it is desirable that Mr Brooking
"should be instructed to prepare a report with a plan
"shewing the Engineering details necessary to be laid
"before the Local Government Board for the purposes of
"such Local Enquiry and that in the event of such
"proposal not being approved by the Local Government
"Board that the costs of such plan and Report (not to
"exceed 50 guineas) be paid in moieties by the Parishes
"of Finchley and Friern Barnet.

"The Committee have been informed that

"the Local Government Board have now declined to sanction the "scheme proposed by Thomas Barnett - They recommend that "the Board should agree to the proposals embodied in the "above Resolutions"

"Dated this 13th June 1879"

"(Signed)" "H. B. Passmore"
"Chairman"
"Charles Plowman"
"H. B. Cornwall"

On the Motion of Mr. Passmore seconded by Mr. Plowman

Referred to Surveyor

Highway Committee

The Highway Committee then brought up their Report as follows

"Finchley Local Board"

"Highway Committee Report"

"Bald Faced Stag Encroachment"

"The Committee find by a visit to the spot that "the Owner or Occupier of the Inn known as the Bald Faced "Stag has enclosed a long strip of the verge of the Great North "Road by a wooden fence which was erected nearly a "year ago without the consent of the then Highway Authority "the Board of Surveyors.

"The length of the enclosure is about 446 feet

"At the upper end the fence is 31 feet 6 inches "from the centre of the road, at the lower end 37 feet the "fence on the opposite side being 35 feet 6. and 29 feet "respectively"

"The centre of the road is found by taking a "middle line equally distant from the margin of the "pathway on each side."

"The Committee find from a perusal of the "Opinions of Mr. Justice Lush, Mr Bridge, and Mr Meadows "White Q.C. the last of which has been recently taken "by the Board of Surveyors that this verge is improperly "and unlawfully enclosed and that it is a part of the "Public Highway and belongs to the road and that the "Parish have a right to use same either for the purposes "of placing drift or road materials thereon as heretofore "or for the purpose of making same into a footway at the "present or at some future date in case it might be desirable "to widen the road."

"It appears that the lands on either side were "allotted under the Finchley enclosure award."

"The Committee find that this question was "considered by the late Board of Surveyors on the occasion "of the Trustees of the Congregational Church taking "possession with the assent of their Vendors the Ecclesiastical "Commissioners of a portion of this waste"

"On this occasion the Surveyors summoned.

"the Trustees and communicated with the Ecclesiastical
"Commissioners and the result was that the
"Commissioners and Trustees after consulting eminent
"Counsel acceded to the demands of the Board of
"Surveyors and took down the wall they had partially
"erected and put back same in accordance with the
"requirements of the Surveyors"

"Further the Committee find that the
"Board of Surveyors negociated with the Commissioners
"with regard to the land adjoining the Congregational
"Church with a view of arranging a line of frontage
"which would be convenient hereafter"

"An agreement was entered into that
"on condition that the Commissioners gave an
"undertaking not to build within 20 feet of a
"certain line the Surveyors would not interfere to
"prevent the Commissioners taking in a small
"strip of this verge for the purpose of continuing the
"line then adopted"

"Having regard to this being the
"main approach to the Parish of Finchley the
"Committee think it is of much importance it
"should be preserved as a wide road and that it
"will tend to the inconvenience of the public and
"also injure the character of the Parish if shops,
"public houses etc are allowed to build close up to
"this road."

"As the road may be seriously
"interfered with if such encroachments are allowed
"to take place as have heretofore been practised."

"It is possible that in a not far
"distant future a Tramway Company may obtain
"powers over this road, and if so it would be
"very important that the Parish should have power
"to make the road as wide as possible"

"The Committee therefore suggest that
"the Clerk should be instructed to communicate with
"the persons who have committed this trespass with a
"view of removing the fence altogether."

"The Committee find similar enclosure has
"been made very recently opposite the Bucketers Inn
"North End by the erection of a temporary fence"

"The Committee recommend that the Surveyor
"should be instructed to report on the encroachments
"made in the High North Road during the last 7 years
"and that the Surveyor also be instructed to prepare
"a plan shewing the verge along the great North Road
"with the area and the width of the Road"

Great Northern Railway Company East End.

"There seems to be considerable conflicting
"testimony as to whether the Great Northern Railway
"Company who have recently put up a fence outside
"their hedge have or have not followed an ancient
"line of fencing"

"The Committee think it would be
"advantageous to the roadway that this fence should
"be set back"

"It appears that the late Board of Surveyors
"were of the same opinion and with that object
"communicated with the Secretary of the Company

"The Committee think that the Clerk
"should be instructed to ask the Company to set back
"the fence so as to get a straight line from the post at
"the foot of the embankment of the bridge to the post
"at the corner of the Wheelwrights' Shop"

Wm. Paterson's Executors Enclosure

"This is a similar enclosure of land"

"The Committee think the Clerk should be
"instructed to write to the owners and require the removal
"of the fence"

Gravel for Paths.

"The Committee think that the best course
"is to obtain from the Surveyor a report as to the quantity
"of Gravel required for footpaths and where same
"should be laid and when"

re Fire Plugs

"The Committee think the Clerk should be
"instructed to send the statement received from the Fire

"Brigade to the Water Company requesting them to have
"required amendments effected

Mr. Lesters fence

"The Committee understand from the
"Surveyor that this fence is in process of removal
"so they leave this matter for the present
"Dated this 11th July 1879"
"(Signed)" "Wm. Farmer"
"R. B. Cornwell"
"Mark Plowman"

On the Motion of Mr. Ash seconded by Mr. Passmore
The Report was ordered to be received
and entered on the Minutes

Moved by Mr. Ash seconded by Mr. Passmore
That the Report be adopted

An amendment thereon was moved by Mr. C.
Plowman seconded by the Chairman
That the Surveyor be not instructed to report
on any fence put up with the sanction of
the late Board of Surveyors.

After some discussion a division was taken and the names of the Members present as well as of those voting having been taken there were two for and six against the amendment as follows:

For the amendment Mr C Plowman and the Chairman
Against. Messrs Passmore Ash Dippie Reeves
Cornwell and Dr. Wright
The original Motion was then put
and carried

Finance

This officer attended and presented a written
Report on several matters in particular as to the ponds in
Mr. Cottons farm at East End, as to the pigs at Manor

Farm; and as to the convent.

Inspector of Nuisances.

The Inspector stated he had written to M. Beasley Lord Overstones Steward as to the ponds on Mr. Cottons farm. that he had received a reply requesting Mr Cott from Mr Beasley that he had written requesting Mr. Cotton to do what he could - The Inspector stated he had since seen Mr Cotton who had promised to do what have the pond cleaned out and divert the drain so as to allow the sewage to go on the land lower down

Convent

He reported he had inspected the convent and considered various alterations were needed to the drainage - traps would not do; he considered there should be an intercepting Chamber between the interior of the house and the outside drains. He was directed to write to the Architect.

Mr Whiteleys pigs.

Inspector reported he had written to Mr Whiteley requesting him in future ~~either~~ not to keep so many pigs or to allow such a collection of manure, also not to use the buildings abutting on the Highway for keeping pigs

College Sewage

Dr Wright stated that the land formerly used for irrigation was no longer available. It was decided to take no action at present.

William Dispeck

Chairman

6th August 1879

At a Meeting of the Finchley Local Board held at the Parish Offices Finchley on Wednesday the 6th August 1879

Present W. J. Dippie Esq. in the Chair
Messrs W. Farmer
W. B. Cornwell
Dr. Wright

The Minutes of the last Meeting were read and signed by the Chairman

Read letter from Local Government Board enclosing Letter received by them from Mr Smith of Strawberry as to Mr Brooking's appointment - a proposed reply by the Clerk was approved of and directed to be sent.

Read letter from Mr Beasley Lord Overstones Steward stating that Lord Overstone was not owner of the Balaclava Stag but only of the strip of land running from it to the Railway Station - that in 1877 Mr. Phillips took the piece of land on lease from Lord Overstone and that he had refused permission to enclose the frontage. Mr. Beasley asked that the Surveyor should meet him on the spot and point out what the Board required

The matter was referred to the Surveyor

Read letter from Dr. Jule stating that he had no special Report to present to this Meeting.

Church Paths

Read letter from Mr. Geo. Pleckneit acknowledging receipt of the Clerks letter with regard to this subject and that same should be laid before the Trustees at their next Meeting.

Encroachments

The Highway Committee brought up a Report rendered them by the Surveyor as follows.

"Finchley Local Board"

"Report of Surveyor on Encroachments along the High"
"North Road made within the last 7 years.

"In accordance with your instructions I beg herewith
"to report that I have in conjunction with the Highway Committee
"surveyed the various encloseures along the High North Road
"that have been made within the last 7 years.

"Commencing from the Northern boundary of the

By Woodside Lane

"District the first met with is fronting Mr. Weatherhills
"premises"

"This is an enclosure of 187 feet in length
"the fence at the North End projects 11 ft 6 inch from
"the centre of the hedge leaving 14 feet 6 inches to
"the edge of the footpath the south end projecting 8 feet
"from the centre of the hedge also leaving 14 feet 6 inch

"The enclosure is a four rail Yorkshire fence

"The road here exceeds 60 feet in width

(2) "The next enclosure is fronting the house
"occupied by Mr. Wm. Farmer. This enclosure is
"formed by a split oak fence 28 feet 6 inches in
"length and 8 feet from the root of the hedge at
"the south end and is in a line with other ancient
"enclosures at the North End

(3) "An enclosure in front of the house occupied
"by Mrs. Vere, this is a 9 inch brick wall at the ends at
"the sides iron railing and encloses the front garden
"of the house and at the north End projects 10 feet 6 inch
"at the south end 10 feet 4 beyond the line of the
"adjacent buildings. The length of this enclosure
"is 36 feet the footway is 9 feet in width, carriage way
"32 feet total width between the bank and the opposite
"side of the palings 63 feet 4 inches."

Belle Shop

"This enclosure projects considerably beyond
"the adjacent buildings and renders it extremely
"inconvenient and unsightly."

(4) "Mr. Edwin Foss's enclosure fronting land
"belonging to this Gentleman consists of a 3 rail
"Yorkshire fence 168 feet in length having an
"average projection of 8 feet from the centre of the hedge
"leaving 10 ft 4 footway.

"This fence is in a line with other ancient
"enclosures on the South"

(6) "The late Mr. Paterson's Trustees is an enclosure
"made by posts and chains 164 feet in length projecting
"17 ft 6 inch at each end from the centre of the hedge
"leaving 10 feet 6 inches footpath and 52 feet to the root of
"the hedge on the opposite side of the road."

(6) "Mr Edwin Fox's second enclosure consists of a 3 rail "Yorkshire fence 121 feet in length. The width of the enclosure "path and road being the same as in Mr Paterson's"

(7) Mr S. Wimbush's enclosure. "This consists in "part of brick and iron railing 6 feet high and open "palisading 184 feet in length the projection's average width "is 15 feet from the root of the hedge the whole width of the "road between the fence and the hedge on the opposite side "of the road is 56 feet"

(8) "Enclosure fronting the property of Mr Lemmitt. "This consists of a 6 feet wooden palisaded "fence 386 feet in length with an average projection of 18 feet "from the centre of the old hedge and leaving a width of "roadway 57 feet from the fence to the centre of the hedge on "the opposite side of the road"

"This enclosure is in a line with other ancient "enclosures on the north and south of same and encloses "an old public sewer"

(9) 'Bald Faced Stag'.

"With respect to the encroachment south of the "Bald Faced Stag this consists of wooden posts and rails which "I understand was put up under some misconception by the "former tenant and which I understand is probably soon "to be taken down."

(10) "Tho' my attention has not been drawn to it "I understand the Owner of Friern Watch has within the "period enclosed a piece of the verge on the East side adjacent "to his property and I also understand that Mr Bromley "of East End entered into a give and take arrangement "with the late Board of Surveyors whereby a new line was "agreed on involving an enclosure of a piece of the verge at "the corner of Forks Green Road."

"Dated this 8th October 1879"

On the Motion of Mr H C Stephens seconded by Mr Dipple It was Resolved That the report of the Clerk be entered on the Minutes and that cheques be drawn and signed to discharge the accounts now presented and that a precept be signed and sent to the overseers for fifty pounds to meet the expences of the School Attendance Committee for the half year ending 25th March 1880

Report of Clerk above referred to

"By the 33rd Section of the Elementary Education Act 1876 "which transferred the power of electing a School Attendance Committee "in a Local Board District from the Poor Law Guardians to the Local "Board it was provided that the expenses of a School Attendance "Committee appointed by the Local Board should be paid out of the

"Poor Rate and the accounts of such expenses audited as the "accounts of other expenses of the Sanitary Authority"

"This Section also provides that this School Attendance "Committee is to be in the District the Local Authority for the "purposes of the act and all the provisions of such Act shall "apply as if the Local Board were the Council of a Borough"

"It would appear as a natural inference from this "that the Local Board need not enquire into the accounts of "the School Attendance Committee and are not responsible for "them further than to see that the payments made are in "accordance with the act and such as the Auditor would "consider proper"

"As block to the School Attendance Committee I have "however thought it better to prepare the accounts in the same "form as laid down by the Local Government Board by their "order dated 14th April 1877 which sets out the form to be "adopted by a School Attendance Committee appointed by "Guardians which Committee of course as well as the "Guardians are more closely looked after and regulated by "the Local Government Board than is the case with regard "to the accounts of a Town Council and the accounts thereof "which are presented today by the School Attendance "Committee are made out in that form and in my "opinion they are proper accounts and the items are items "properly coming within the category of necessary payments "made by the School Attendance Committee and as such "should be allowed by the Local Board and cheques drawn "in accordance therewith."

"As however the amount standing to the credit of the "Local Board in respect of monies received from the Overseers "under Sec XXXIII of the Education act 1876 amounts only to the "sum of £50, I suggest that the cheque for the Clerks Salary also "for one of the bills say Messrs Hazell Watson and Viney £3. 19.6 "should be held until the further £50 which has been deposited of the "Overseers shall be paid into the Bank."

"The precept for £50 is now presented for signature."

"I produce the original minutes of the School Attendance "Committee containing the Resolution passed by that Committee "on the 19th November last requisitioning the Local Board to issue

"a precept for this £50"

"Dated this 24th day of November 1879"

Surveyors Report

Park Hall Estate

The Plans Sections and detail drawings for the construction of six new Streets and the drainage thereof and of the houses intended to be erected thereon at East End and proposed to be called "Durham Road" "Lincoln Road" "Leicester Road" "Huntingdon Road" "Bedford Road" and "Hertford Road" as submitted by the British Land Company were again considered and the said names were approved, but the width of the Streets are to be 36 feet and the footways to be 7 feet each as provided by Bye Law No 7. The proposed surface level of Huntingdon Road to be amended as directed by the Surveyor and all footpaths to have 4 inches of gravel in lieu of 3 inches as proposed and the kerbing to be dressed granite

With respect to the drainage, the Surveyor is to require a separate system for surface water and sewage and a consequent reduction in the sizes of some of the sewers from the sizes marked on the drawings, those in Forks Green Road and in the Great North Road which (discharge to the South) are to be 12" in lieu of 15".

The surface water drains are to discharge into the nearest watercourse or road water drain and not into the Sewers.

Other details of construction are to be to the

Surveyors approval and he is to inform the Land Company that there is no public Sewer at the north end of the Estate into which they can drain and that subject to the foregoing conditions and remarks the Board will pass the Plans.

Highway Committee Report

The Highway Committee were brought up their Report as follows.

"Highway Committee "12 January 1880

Mr Porters "boundary

"Mr Farmer not being prepared with the draft report "the Committee adjourned the matter and proposed to meet an "hour before the next Ordinary meeting of the Board

"They suggest that Mr Farmer should forward to the "Clerk his draft in time to let the members of the Committee have "a copy for their private consideration two or three days before hand.

Red Lion Hill Sewer

"The Committee think Mr Brookings report should be "referred to the Sanitary Committee.

Church Paths

"The following are the paths which have by custom come "to be treated as Church Paths and which paths have from time to time "been repaired in times past by the Trustees of the Finchley Church "Estates or by the Parish viz: (1) The path leading along the Brent "Valley from woodside Lane to Nether Street by the late Mr Jaques "Cottage (2) The path from the lower part of Nether Street Hill "to the Parish Church (3) The path from Regents Park Road "commencing at the avenue to East End which divides itself.

"mile two arms and enters East End District at two different
"points (to Red Lion Hill) and to Market Place Path from
"Main Road to Long Lane past the almshouses. Path
"from Red Lion Hill to Trinity Church - Path from Market
"Place to East End Road and Trinity Church - Path from
"the Vicarage to the East End Station

"In some cases the condition of these paths is bad
"and it is essential they should be repaired

"The Committee is advised by the Clerk that as the
"Trustees have determined no longer to spend any part of
"their funds on the Highways the only course to adopt is
"to repair them as ordinary Highways and pay the cost
"out of the rates, they therefore recommend that the
"Surveyor be instructed to effect the repairs required to
"the Church Paths

Picked Flints

"With regard to the letter from Mr. Coles offering
"Picked Flints the Committee under the advice of the
"Surveyor recommend that he be authorised to order a
"quantity of these picked flints up to 200 tons at 4 shillings
"& pence per ton on rail as per letter.

Sign Post Totteridge Lane

"The Committee has considered the application
"contained in Mr. Buntings letter for the removal of the sign
"post at the corner of Totteridge Lane."

"They find in the letter that Mr. Bunting states
"the finger post is on the Freeholders frontage and the
"letter further adds that he has made complaints to Mr Etts
"that the Authorities have to some extent encroached on
"the property of Mr. Baxendales.

"The Committee are of opinion that the Parish is
"entitled as part of the Highway to the ground on which
"this post is erected therefore Mr. Buntings observations
"have rendered it somewhat difficult for the Board to make
"any concessions as to the post as it might be considered
"hereafter as an acknowledgement that the Parish were
"not entitled to this part of the Highway

"They think therefore that before the question is
"dealt with on its merits that Mr Bunting should withdraw

"his claim" as to the site of his letter is intended to make one and "then that this Committee would then be able to consider the subject "and see whether anything could be done with this post consistent "with the interests of the Inhabitants

Voted For the resolution The Chairman and Messrs Cornwell Dippie Ash Field Reeves Rowman and Dr Wright

Against Mr Farmer

Highway Committee Report

Mr Porters boundary &c

Mr C. Rowman brought up this Report as follows

" " Finchley Local Board 2nd Feb 1880

" Report on Mr Porters proposed boundary

" Your Committee have carefully considered the question

"as to what they can recommend the Board to claim and "with every desire to keep Ballards Lane and Long Lane "as wide as possible, they feel compelled to state that in "their opinion Mr. Foster is entitled to fix his boundary 4 "feet from the centre or Root of the Hedge on both footpaths

"Ballards Lane varies in width and no express "width can be ~~obtained~~ claimed - Long Lane is set out "in the Award as 30 feet wide, and after the new line "proposed by Mr. Foster is made the Lane at this point will be "left 31 feet wide

"Your Committee have had regard to Mr. Farmers "letter to the Clerk in the words and figures following

"I send you on other side the basis of my Report
"Read the Award - Acreage and Conditions
"Long Lane an ancient Road, afterwards set out
"30 feet wide by the Inclosure Act 1811
"Consolidated Inclosure Act - Sect. 8-26.
"Finchley Inclosure Act - Sect. 1-29.
"Highway Act 1835 - Sect. 63-69.

"but having consulted the Authorities he refers to, the Clerk "informs your Committee that he cannot find sufficient "ground to dispute the propriety of the above observations

Finchley Cage.

"Your Committee think that the Cage should be pulled "down, one position of the site thrown into the Path and the "remainder included in the Churchyard. The best "plan would be for the Surveyor to dispose of the Cage as it "stands the Buyer to pull it down and clear it away at "his own expense within a period to be fixed and then "that your Committee should settle the rear line of pathway "and the exact division of the site. It scarcely seems worth "while to require any nominal Rent from the Churchwardens

Mr. Coopers Ditch and boundary Long Lane.

"Some of your Committee have not seen this rear "boundary and therefore the Committee postpone their report.

Messrs Baxendales proposals as to enclosure in High Road, Hackbridge

"The Committee have not received information "as to whether Messrs Baxendales further plan has been

"sent in"

("Signed") "Charles Flowman"

Mr. Farmer then brought up his report as follows.

"Finchley Local Board

"Report on the application of Mr. Porter for permission to erect "a fence on a part of the public highway known as Long Lane "Ballards Lane Finchley

"It appears from records in possession of the Board that "Long Lane and Ballards Lane are very ancient but narrow "highways which have been widened by acts of Parliament as "follows. - Long Lane by the 51 George the 3rd. Cap 23 - 1811 called "the Finchley Inclosure act and Ballards Lane by the 7th of George "the 4th Cap. 90. - 1826.

"It also appears that the side on the left hand of Long Lane from "Ballards Lane is the ancient part of the Lane for on that side "is the footway and between the said footway and the metalled road "a wide green sward exists without any appearance of metal on "the same or used as a roadway and the end of that side next "Ballards Lane is rounded off and there can be no doubt that "when the Lane was set out and widened by the Commissioners "that the right hand corner was likewise rounded off not only "to match the opposite side but as Ballards Lane was at that "time very narrow it very much facilitated the entrance to and "exit from that Lane.

"The entire width of Long Lane from hedge to hedge "for 500 feet in length average 41 feet. The width on the left side "on the left side from centre of hedge to the edge of the green is 19 ft

"The width on the right side from centre of hedge to across "the road to the edge of the green sward average 24 ft, the "average width of the road is 18 ft

"The Consolidated Act of 1801 enacts that Public Carriage "Roads shall be set out 30 feet wide at the least and the "Commissioners under the Finchley Inclosure Act of 1811 set out "the road of Long Lane 30 ft wide.

"It will be seen by reference to the Finchley Inclosure "Award that the land now in the possession of Mr. Porter "and others was awarded to the Rectory of Finchley in lieu "of Tithes and common rights. By Section 29 of the Finchley "Inclosure Act awards made for public gravel pits for the

"benefit of the Poor and to the Rectory shall be fenced
"ditched &c by the Commissioners out of the funds rais
"for inclosing the common. As far as I have as yet
"ascertained the quantity awarded is contained within
"the curtilage of the existing hedges therefore no claim
"would hold good to enclose beyond those lines, the ditch
"being the property of the public.

"Apart from the preceding remarks respecting the
"ownership of the ditches it appears clear that the Board
"cannot permit any erection beyond the line of the centre
"of the hedge for by sec 69 Highway Act 1835 called the
"principle act it is enacted that no building, hedge ditch
"or other fence shall be made on any carriage way or bathway
"within the distance of 15 ft from the centre thereof and
"sect 63 defines the centre of the road to be the centre of the
"part metalled and maintained with stones or other
"materials by the Surveyor of Highways, and further the
"amended act 1864 sect 51 forbids the erection of any
"fence or the laying of any rubbish on the soil or sides of
"any carriageway within 15 ft notwithstanding the whole
"of the 15 ft has not been maintained with stones or other
"materials.

"I feel therefore compelled to express my strong
"conviction that the present hedge is the legal boundary
"of that property and that it would be unwise for the Board
"to sanction any encroachment outside that line.

"I conclude by recommending the Board to inform
"Mr. Porter that the existing hedge forms the legal
"boundary and that the Board declines to permit any
"erection external to the existing hedge

(signed) "Wm. Farmer"

2nd February 1880.

Both Reports were ordered to be received and entered on the Minutes

It was moved by Mr. Farmer seconded by Mr. Cornwell

That Mr. Porter be allowed to take in four feet in Ballards Lane and place the ditch on condition that he

to Porter

does not enclose any portion of Long Lane but that his boundary in Long Lane be the centre of the hedge and that the Clerk point out the advisability of keeping a wide road - and that the ditch to be piped be so piped to the satisfaction of this Board

On the Motion being put

Voted for - The Chairman Messrs Ash Dippie Farmer Field Reeves Cornwell and Dr Wright

against - Mr C. Plowman

Dollis Bridge

That the Board agree that in the event of the proposed Bridge at Dollis being erected and subject to this Board being satisfied with the plans and estimates that Finchley will pay a moiety of the total cost after deducting from such total cost whatever subscriptions may be received from the adjoining owners or may be received from the County authorities Each Parish to construct its own approaches

An amendment was thereupon moved by Mr. Cassmore seconded by Mr. Charles Plowman

That this Board agree to pay half the expense of obtaining plans and estimates for the proposed Bridge at Dollis to be submitted by the two Surveyors and they think that when such plans are ready steps should be taken to obtain aid from the County Authorities and from adjoining owners whose estates would benefit by the erection of the Bridge.

After some discussion a division was taken and the names of the Members present and voting being recorded there were five for and two against the amendment as follows

For the amendment Messrs Cassmore Chas. Plowman Cornwell Fiset. Dippie

and the Chairman
Against Messrs Reeves and Dr Wright
The Chairman thereupon declared the
amendment to have been carried

On the Motion of Mr Dippie seconded by Mr Charles Bowman it was unanimously

Resolved That the Clerk prepare a General District Rate of eight pence in the Pound on houses and one fourth on lands for the half year ending 29th September next to be made and sealed at a Meeting of the Board to be held on Wednesday the 31st day of March at the Local Board Offices Enfield and that the Estimate for the said Rate be left open free to the inspection of Ratepayers and persons interested at the said offices and that the proper public notice of the intention to make such Rate and of the time when it is to be made and of the place where the said Estimate is deposited for inspection be given the previous week seven clear days previous to the day fixed for the making thereof

Highway Committee

The Clerk stated that the Report of the Highway Committee was not ready.

Sanitary Committee

The Sanitary Committee then brought up their Report as follows

5th March 1880

Report of Sanitary Committee

"General District Rate"

"Your Committee have in the annexed Estimate stated the "sum which will be required for Sanitary purposes for the ½ year "ending 29th Sept next.

Medical Officers Quarterly Report.

"The Committee at the time of meeting had not received the "yearly Report of the Medical Officer of Health but they considered "the quarterly report and paid due attention to the suggestions it "contained.

"The Medical Officer states that he knows no means of "comparing the rate of mortality in Finchley for the past quarter "with that of the same quarter of any previous years as in the "Registrar Generals Returns Finchley is combined with Friern "Barnet.

"The Committee suggest that the Medical Officer should in "his next Report compare the death rate of Finchley with that of "Finchley & Friern Barnet combined.

"With regard to the recommendation of numbering "every building and every road or street the Committee think that "this subject should not be entered upon just at present but that "in future arrangements should be made which would provide for "some convenient method of numbering the houses according to the "streets in which they were situate and as the matter does not press "at the present time they think this should be postponed as there is "a good deal of more important work before the Board.

"They also make the same suggestion with regard to "the recommendation made that there should be an examination "of every house in the District (irrespective of any complaint) "and a proper register made showing the drainage arrangements "water supply etc.

"The Committee cannot at present recommend the "Board to have a Census taken especially as the decennial "Census will be taken in 1881

"With respect to Dr Yorke's reference to the Schools of the "District the report does not state to what Schools he refers. The "Committee request that he should furnish them with a detailed "report of any Sanitary deficiency in the state of the Schools to "which he makes reference that the Committee may be able to "consider them."

"The remark as to the miserable allowance of only "80 feet for a child" the Committee considers should not "have been made.

Offices

"The Committee suggest that as a site near Church "End Station is desirable the Clerk should be instructed "to enquire whether the Board can purchase a piece of "land from the Great Northern Railway Company situate "opposite Station Road, this would form a convenient "place for the erection of Offices for the Board and which "could be utilized for the object in view whenever it was "thought desirable

Red Lion Hill Sewer

"The Committee recommend that for a length of about "400 feet from the outfall end 18 inch pipes should be put "in with the object of getting rid of the existing nuisance "and to prevent a recurrence of the bursting of the sewer "which has periodically happened, this work will cost "about £100 has been included in the estimate

"They believe that it is likely this work will remedy the "complaint without incurring the more serious expence of "about £200 in carrying out the whole of the work required "in the Surveyors report

Swan Lane Outfall

"Having considered the position of this Sewer and "tank and the arrangements made between the previous "authority with Messrs Baxendale for the disposal of the "sewage and also having regard to the various additions which "have been made to the sewage from time to time the Committee "think that it is the duty of the Parish to deal with this sewage "and that a 12 inch pipe should be carried from the present "tank as far as the Railway culvert

"The Surveyor reports that the expence will be about £30 "which has been included in the Estimates"

(Signed) "Alf Wright"

Medical Officers Report

The Medical Officer brought up his Report as follows.

15th March 1880

5 Cottages of the Misses Smith High Road North Finchley

At the request of the Sanitary Inspector I have examined these premises and analysed the water of the well constituting the only water supply There are several cesspools and the analysis of the water shews that there is a leakage from one or more of them into this well - The sewage matter is however so purified in its passage through the soil that very little organic matter gets into the water at the present moment and it might be drunk with impunity In fact I did drink some and found the taste sweet and pleasant but by heavy rains or from other causes grosser matters might pass in and evil result I therefore condemn the proximity of the well and cesspools as dangerous and one or other ~~ought~~ must be done away with

On the Motion of the Chairman

The Report was ordered to be received and entered on the Minutes and the same was referred back to the Medical Officer

On the Motion of Mr C. Plowman seconded by Dr. Wright

The Report was ordered to be

received and entered on the Minutes
On the Motion of Mr Bowman seconded
by Dr Wright

Resolved that the Report be adopted
and cheques drawn in accordance
therewith and that the proper accounts
be debited and credited with the same

General District Rate

On the Motion of Mr Pippin seconded by Mr
Chas Bowman It was

Resolved That there be and there
is hereby made levied and assessed
upon and for the District of Finchley
a General District Rate of eight
pence in the pound on houses
and two pence in the pound on
lands for the six months ending
29th September 1880 for the general
purposes of the District which said
Rate is to be paid by one payment
on the 1st day of April 1880 the
same to be paid to the Collector at
his dwelling house at Whetstone
in the said District - That the
said Rate be signed and the seal
of the Board now affixed thereto
and that the same be duly
published by the Clerk as required
by the acts regulating the same

The Seal of the Board was then affixed
to the Rate in the presence of the Chairman

Board Offices -

The Committee appointed to examine
Mr Letts's house and the adjoining houses
with the view of providing new Offices
or otherwise brought up their Report
as follows

"Report of the Committee appointed
"to examine Mr Letts house and the
"adjoining one"

"Your Committee beg to Report that they
"have visited the house No 2 Queens Grace
"Church End adjoining Mr Letts and find
"that there is a large cellar well adapted for
"holding tools papers &c the ground floor consists
"of a large room without any fire place -
"25 feet long and 14 feet wide with a shop
"front and is capable of being made into 2
"or more offices - There is also a small room
"adjoining with a fire place and a Kitchen &
"scullery. On the first floor the front room
"is 18 feet wide x 14 feet 6" long, the back room
"12 feet 6" x 10 feet 8"

"The Committee suggest that if the partition
"were taken down it would make a good Board
"room 25 ft in length - There is also a small
"room on the same floor which would be
"suitable either for the clerk or the Surveyors office
"On the second floor there are 2 good rooms
"available for the housekeeper - There is also a
"good yard well adapted for storing the tools
"&c and in which a shed could also be erected
"and having a cart road to the back entrance
"the rent is £55 per annum".

"The Committee recommend that the
"house should be taken on an agreement for
"3 years as they do not think it probable
"that land could be obtained and proper
"offices built for the Board under that time"

"The Committee did not visit Mr Letts
"house as only a portion of it could be obtained
"and they consider it indispensable for the
"convenience of the ratepayers that the Public
"office should be on the ground floor.

Local Boards Accounts Order 1880

Read Letter from Local Government Board dated 22nd March 1880 enclosing form of new orders as to Local Board accounts.

The Clerk read his interim Report thereon as follows.

"Finchley Local Board"
"Report of Clerk"
"as to new form of accounts"

"Shortly after 25th March the Clerk "received a circular letter from the Local "Government Board dated 22nd March containing "directions issued under the 245th sec of the "Public Health act 1875 and sec 3 of the "District auditors act 1879 prescribing regulations "as to the accounts of Local Boards and their "Officers."

"In the main the Clerk has already "adopted the system appointed in this circular "so that the accounts in the future will not "very much differ from what they have been in "the past."

"The following alterations are compulsory "(1) The balance sheet is to be made up yearly "(2) The minute book is to be a journal and "to have cash columns in each margin in "which is to be recorded a statement of all "payments by the Treasurer and all pecuniary "transactions of the Board with a reference "to the folio of the Ledger in which the items "are entered (3) Highways repairs expenditure "account is to be entered weekly under the four "following headings"

"Manual labour"
"Team labour"
"Materials"
"Tradesmens bills and miscellaneous"

"The payments being shown separately in "the headings of main and other roads as "provided in the columns provided for that "purpose."

"This the Clerk presumes will be kept "by the Surveyor as also the order cheque book

"provided in Art 3"

"The Clerk proposes to furnish the Surveyor with "a new set of books in compliance with the "requirements of the new order"

"The Clerk will enter the ledger account as "from 25th March 1880 in a new ledger in the "form provided"

"With regard to the Collectors account the "form A. is the rate collection account showing "the balancing up of the general district rate "book"

"The Clerk will have this account kept "at the end of the rate book which he considers "is the most convenient way of dealing with "this account"

"A new form of financial statement "is to be laid before the Auditor as provided "by the Order and also the statement of the "District Auditor in reference to the books and "accounts"

"The Auditor will attend once a year as "heretofore and will sign the statement as to the "books and accounts for each year."

"With regard to the Medical Officer the order "contains in Art 2 a statement of the duties "of the Medical Officer of Health."

"These duties assimilate the duties of every "Medical Officer of Health any portion of whose "salary is not paid out of money voted by Parliament "to those already provided with regard to Medical "Officers whose salary is paid out of money voted "by Parliament and therefore the directions given "by this order are those by which the Medical "Officer of Finchley was already bound"

"The Medical Officer already keeps the books "specified in Art 14 and his Report will be in compliance "with Art 15"

(Signed) "Henry Devas"

Correspondence

Finchley Sewerage

Read letter from the Clerk to the St. Pancras Burials Board of which the following is a true copy.

"The Burial Board for the Parish of St. Pancras"

Offices St. Pancras Vestry Hall

Camden Town N.W.

19th April 1880

Sir,

"In reply to your communication of the 20th "ultimo I am directed by the Burial Board of St. Pancras "to state that they presume the "Finchley Local Board" "can scarcely be ignorant of the fact that the "Shaverry Hall Estate was purchased by the St. "Pancras and Islington Burial Boards for the "purposes of an additional Cemetery to those already "existing and that with the approval and under "the authority of the Government the same with the "exception of a small portion on which houses are "erected in the vicinity of the Barnet High Road has "been divided and is now being laid out for the "purposes of Burial"

"Under these circumstances I am directed "to state that none of the land can be spared for the "purposes to which you refer, the Board however

"cannot but express their surprise that if, based on an "official inquiry, the site of Shaftesbury Vale had been "fixed upon a site for a Sewage Farm for the deposit "of the Sewage of Finchley so far back as 1874 the Local "Authorities did not secure it by purchase before it was sold "to the Burial Boards of St. Pancras & Islington for the "purposes of Interment.

I have the honor to remain, Sir,
Your Ob't Ser't Charles Greene

Henry Stevens Esq Clerk to the Burial Board St. Pancras
Clerk Finchley Local Board

The Clerk was directed to write asking if the Burials Board would consent to a short lease of about 5 acres of the ground at the foot of the Slate

Rural Sanitary Authority Accts

Read letter from Mr. Stanley Harris the Clerk to the Rural Authority enclosing cheque for £25:9:10 balance due to this Board on settling the apportionment with the Rural Sanitary Authority also enclosing a second cheque for £2:12:6 for the moiety payable by the Authority as a moiety of the expences of Mr Brookings Report re Finchley and Friern Barnet Sewage.

Finchley & Friern Barnet Sewage.

Read letter from Local Government Board enclosing copy of a letter received by them from the Barnet Rural Sanitary Authority as follows.

"My Lords & Gent.

"a Meeting of the Friern Barnet "Parochial Committee has been held since my Letter "of the 19th January last and I am directed by this "authority to inform your Board that they are tentatively

"dealing with Sewage locally created, and that
"steps have been taken already to deal with Sewage
"where just grounds of complaint have been
"made, but that as a very large proportion of
"the sewage of the adjoining Parish of Finchley
"comes into the Parish of Fryern Barnet it is
"clear to this Authority that no efficient
"Scheme for the effectual removal of all such
"combined sewage can be carried into effect except
"by the joint action of the two parishes, and
"that the Parish of Fryern Barnet is willing to
"join the Parish of Finchley in any approved
"joint scheme for that purpose"

This amendment was not seconded

The question as amended was then put and Resolved accordingly - Mr Farmer only voting against

Rate defaulters.

The Clerk brought up the following Report on the collection of default Rates:-

"Finchley Local Board"

"Clerks Report on collection of default Rates"

"Mr John Griffiths of 10 Jackson Road "Holloway has for 8 or 9 years acted as Bailiff "or default Rate Collector for all Rates"

"The Collector states when he receives a "list of defaulters he takes them to Highgate and "applies for summonses; Mr Shaw then makes "out the summonses and Mr Griffiths calls for "them, Mr Griffiths then brings them to Mr Hawkins "who receives them and then Mr Griffiths serves them"

"On the day of hearing 3 or 4 days after "the delivery Mr Griffiths attends at Highgate & "deposes to their delivery, Mr Hawkins also attends "and deposes to the amounts being due and "produces the Rate books then the Magistrates "issue Warrants which are served by Mr "Griffiths and he then proceeds to get in the "monies"

"Mr Griffiths executes the warrants accordingly

"to his own discretion unless he is instructed by the "Officers in any particular case not to proceed to extremities"

"The Local Board has only once obtained warrants "viz: Last September on about 24 Highway and 32 "General District cases the total persons summoned "being 56."

"The result is that on the 26th of last month after "a great deal of pressing the Collector Mr Hawkins received "a cheque for £25 on account. On going through "the account with the list forwarded Mr Griffiths, Mr "Hawkins finds the following persons have not yet "been made to pay."

	April Highway Rate at 8.	Feby 3rd 1879 Highway at 6d	General Dist: at 8	17th April 79

The Highway Committee then brought up
their Report as follows. 24 May 1880.

Re Manor Park Estate

Proposed diversion of Footpath

The Committee have examined the amended
plans and proposals of Mr White and they
consider that as Mr White proposes to give
a 10 feet path in lieu of the present narrow
footpath and that the road he proposes to
make will open out opposite Trinity Church
they consider this is a diversion they can
recommend the Board to agree to.

Messrs Baxendales proposed
alterations at the corner of
Tolleridge Lane

Read letter from Mr Tubbs as follows

29 & 30 Noble St London

Ay Stevens Esq. May 28th 1880

Dear Sir - I am in receipt of your favor of 25th Inst. Some few months since I had a letter from your Surveyor practically to the same effect as yours of 25th to which I replied that I had no intention of interfering of the public right of footway between Nether St & Frith Lane - I repeat it now that I have no intention of interfering with it the gate at end of Lane is mine & has existed for generations as access to my property & I do not intend altering it either for better or worse

Trusting this will satisfy your Board

I remain, Dear Sir, Yours truly

A Tubbs.

Totteridge Bridge

Read letter from Mr Austin dated 24 May 1880 and addressed to the Surveyor stating that there might be some difficulty in the Totteridge Vestry taking immediate action in this matter as the Parish was under the authority of the St Albans Highway Board and therefore had no direct authority over its roads but that a resolution had been passed by the Magistrates in Quarter Sessions for the dissolution of such Board and that such Resolution would probably be confirmed in July next and that the application should be read to the Vestry so soon as the Parish had the power over the roads on the confirmation of the above resolution

Sewerage of District

Mr Brooking handed in his Report on sites suggested as temporary areas for the purification of sewage within the District as follows.

"Copy Mr. Brookings Report on sites suggested "as temporary areas for the purification of sewage "within the District together with the necessary "works for passing the sewage on to the said areas"

"The existing sewage outfalls dealt with in "this Report are four in number and situate at "Ducksetters Lane, Dollis Lane, Strawberry Vale, and "near the "White Lion" East End.

"I understand the Board propose now to "effect such arrangements and execute such temporary "works as will ameliorate the existing state of things "and suffice for a few years."

"It must not be taken that I consider any "of the areas are suitable places for the permanent "disposal of the sewage of the District thereon:-

Ducksetters Lane

"This outfall is an 18" pipe sewer discharging "into a watercourse of Mr Lawfords brickfield and "from thence flowing into Mutton Brook (part of the "volume passing thro' watercress beds) near the brook."

"This sewer is also an outlet for the road and "storm waters, several watercourses, notably that "east of the "Hawthorns" having been piped in it "connected with the outfall sewer and consequently "the volume discharged therefrom is both of varying "quantity and quality."

"If this 18" pipe be disconnected from the brick "culvert into which it now discharges and be "connected with a storm water separation chamber "constructed near by, the ordinary flow of sewage "proper, could be taken on to the proposed area near "Mutton Brook either by 9" pipes, 12" butt joint open "glazed-ware channels laid in the ground or by a "simple drain cut along the land: the first mentioned "course is perhaps the best, tho' its cost will be the

"greatest, the second has the advantage of a clear channel
"with the opportunity of irrigating all the land along its
"course whilst the last mentioned may probably prove
"to be simply the removal of the sewage from one ditch
"to another without abating the nuisance for notwithstanding
"every care such is the peculiar nature of sewage that
"it creates a fungoid growth along the course of
"open ditches that often is a nuisance."

"The distance from the existing outfall into
"the land indicated to me as being the site proposed
"for sewage disposal viz:- the lower parts of fields 676
"and 677 is 570 yards and the necessary works for
"separating the storm water and sewage and passing
"the latter on to the land are as follows:- 1st the
"disconnecting of the 18" sewer from the culvert and
"connecting same with storm water chamber 2nd the
"constructing of brick in cement storm chamber with
"way 50 feet of 18" pipe storm water outlet - 3rd the
"construction of the sewage outlet - N.B. approximate
"Estimates for this and other works at each outfall are
"given at the end of the Report."

Dollis Lane

"As in the preceding case both road and surface
"waters and sewage discharge together, this some years
"since a separation chamber was constructed which
"will serve the purpose for a time the sewage being taken
"off for some distance down the hill in a 12" pipe laid
"under the bed of the ditch the effluent storm water
"passing off above, but both joining again at the
"lower end of the said 12" pipe. I am informed that
"the Owners and Occupiers of that part of the field No
"330 as is on the South West side of the railway
"embankment are willing to have the sewage on
"their land and to enable this to be carried into
"effect it will be necessary to construct a small
"separation chamber at a convenient point down
"Dollis Lane, convey the sewage proper on to the land by
"a 6" pipe (which I think will suffice for the purpose) &
"allow the storm water to continue its course down the ditch."

Strawberry Vale

"This is an outfall of considerable magnitude
"as drainage area comprising the greater part of
"East End and as building is rapidly increasing
"within such area the volume of sewage discharging
"at this point must necessarily increase."

"Here also the road surface water and sewage
"mingle rendering a separation chamber necessary
"and in addition to this about 150 yards of 9"
"pipe sewer is required to bring the sewage from
"the bed of the deep ditch to the surface of the
"field No 499 and about 12 feet of 9" iron
"piping to cross the ditch on to field No 501.

White Lion East End

"This outfall which also comprises storm
"water and sewage does not at present drain a
"very large area but the recent opening up of the
"Park Hall Estate for building purposes will cause
"a large increase of sewage to be discharged there.

"I am given to understand that the Lessee
"of the field No 492 and others contiguous thereto
"is willing to receive the sewage thereon and the
"necessary works to effect this object are the
"construction of a storm water separation chamber
"1760 lineal yards of 9" pipe sewer with iron
"piping to cross the ditch a screen chamber at
"the outlet end the requisite open trenching for
"distribution of sewage over the surface."

Generally

"The works hereinbefore described for each
"outfall if the distribution of the sewage be
"carefully attended to will without doubt be a great
"improvement and may serve the required purpose
"for some time, but the irrigation by sewage of a
"limited area of clay soil cropped with permanent
"grasses and without surface preparation or under
"drainage cannot possibly last very long without
"causing a nuisance. I do not consider any
"portion of these works can be utilized in a

"comprehensive system of sewerage for the district I am
"unable to report on the probable length of tenure or the
"terms which will be required for the used of the
"lands herein referred to, but from the correspondence
"placed in my hands by the Clerk the various Owners
"and Occupiers clearly look upon the whole matter
"as purely tentative & thus it becomes a question
"of consideration whether or not it is expedient
"to incur the outlay consequent upon the execution
"of these works and the used of the lands for purposes
"which, inter alia, looking at the rapid development
"of your District cannot in my opinion be carried on but
"for a very limited period."

"The existing outfall at Ducksetters Lane being
"close to the Regents Park Road and to dwellings and
"the course that must be taken for the projected sewage
"outlet also running close to such road renders it
"desirable to have a close channel for the sewage (say at
"least 100 yards) and it is for you to determine whether
"or not the remaining part of the conduit shall be
"of glazed stone ware channels or a simple gripe cut
"along the surface of the land, and therefore in the
"estimates I have made a separate item of the cost
"of these glazed channels."

Ditches cleaning of

The Clerk then brought up his Report as follows

"Those lands vested by virtue of the Inclosure
"Award are so vested with the burden on the
"Owners and Occupiers of the respective allotments
"of making keeping open and cleansing the
"ditches adjoining such allotments by and at
"the expence of the Allottees"

"In my opinion however there is no
"occasion to distinguish between the ditches
"adjoining such allotments and other ditches
"inasmuch as the remedy in respect of each class
"of ditches is precisely the same."

"I am not sure whether it is desired
"that I should report on the course it is desirable
"to adopt in the future but if so I would say.
"(1st.) "The practise heretofore has been to encourage
"adjoining owners to clear out the ditches and
"in many cases verbally to request them to do
"so when the ditches become foul, but I do
"not think for some years past any written notices have been served
"on Owners with that object."

"With regard to a considerable No of
"such ditches the Land Owners scour and
"clean them from time to time without request
"or pressure."

"With regard to many ditches however the
"Local Authority has by reason of the default of
"the adjoining Owners been obliged to carry
"out these works"

"Probably the fact of the land being
"held for short terms, and the ditches being
"in many cases made the depository of other
"liquids and substances than clear water

"would affect the question very materially - if the "Board should decide to indict any Occupiers making "default, but perhaps the Board will instruct the "Surveyor to bring before them some special examples "which they can consider in order to settle the "practice to be followed by him in the future."

"I think in respect of any ditches situate "at the side of a narrow Road or within the limits "it is desirable to adopt as the minimum width "of a main Road that it may be desirable to "instruct the Surveyor to assume the control of "such ditches as much as he possibly can in "order to rebut any claim of Ownership which "may be brought forward by any Occupier or Owner "in a case of encroachment."

"With respect to ditches fouled by sewage I "think the Board should clean them and with "regard to all other ditches it may be well to instruct "the Surveyor to endeavour to induce the adjoining "Owners to clean them out as heretofore"

"Dated this 5th July 1880

(Signed) "Henry Stevens"

On the Motion of the Chairman

The Report was ordered to be received and entered on the Minutes

On the Motion of the Chairman seconded by Mr Field - Resolved that the following recommendation of the Clerk be carried out viz! That the Surveyor cause such ditches as are fouled by Sewage and which the occupiers decline or omit to clean out, to be so cleansed at the expense of the Board and

That the Surveyor be instructed to use his best endeavours to induce the adjoining owners to clean out all other ditches.

Sewerage

Report of Clerk on the Meeting with the St Pancras and Islington Burials Board and the Finchley Local Board

The Chairman with Mr Plowman, the Clerk and Surveyor attended the meeting of the Board Room of the St Pancras Burials Board on Tuesday 6th July and a long discussion took place and the Chairman and Surveyor laid before the respective Boards the proposals of the Finchley Local Board for leasing a few acres of land the lower part of the cemetery for the purpose of the disposal of the sewage now flowing through the Cemetery.

These proposals were met with in

a friendly spirit by the respective Boards and after the outfall had been viewed and a considerable discussion taken place as to what land would be convenient for the purpose the respective Boards requested the Finchley Local Board to forward to them a plan shewing the proposed line of sewer and the land which it was desired to acquire for the purposes of irrigation

On 9th July I received from Mr Brooking a carefully drawn plan shewing the land which it was necessary to acquire and the line of sewer and I sent same to Mr Charles Green Clerk of the Saint Pancras Burials Board who duly acknowledged the same.

Drinking Fountains

The Chairman stated that a Resident had kindly offered to erect one or more drinking fountains if the Board were to afford facilities.

It was unanimously Resolved that the Chairman be requested to convey the best thanks of the Board for the liberal offer and that a Committee be appointed to confer with him to consist of the Chairman Mr C. Rowman and Dr Wright

Resolved That the Medical officer be requested to analyse the water of the two springs in Nether Street and Regents Park Road and that the Clerk write to the Company and ascertain the cost of supplying water.

Highway Committee Report

The following Report was now brought up by the Highway Committee

16 Augt 1880

re Bow Lane

The following Resolution of the Board the Committee has duly considered viz
"That the Surveyor be directed to include "in his Report to the Highway Committee "the state of Bow Lane with a view to "repairing same where necessary
The Committee is informed by the Surveyor that to make this Lane safe it is necessary to place 25 yards of gravel thereon with the requisite labor and that to put it into proper order 80 yards of gravel are required together with the labor, the Committee therefore recommends that this Road be put into repair and that the 80 yards of gravel be at once obtained for that purpose in the ordinary way

General repair and maintenance of Highways

The Committee are advised that to put the following roads into good order the materials hereunder stated should be procured

	3 tons of granite
High Rock Road between East End Station and Park Road Hotel in addition to the 500 tons provided for in last estimate	2500

	Tons Granite
Regents Park Road from the Station at Church End to Park Road Hotel	1000
Regents Park Road from the Station at Church End to the Southern boundary of the District	500
Total Tons	1500

The cost of these 1500 tons on the Roads will be £2750 - 500 Tons costs £343.15.0

The Surveyor also reports that the following quantities of gravel are required to be placed on the roads as hereunder stated

Manor Road	Gravel or Flints	Tons	100
East End Road	"	"	150
Jodds Green Road	"	"	100
Market Place and Park Road &c.	"	"	100
Chapel Street	"	"	60
Hampstead Lane	"	"	100
Long Lane	"	"	200
Colney Walch Lane	"	"	100
Summers Lane	"	"	150
Friern Barnet Lane	"	"	50
Kendon Lane	"	"	100
Dollis Brook Lane	"	"	100
Nether Street	"	"	100
Lodge Lane	"	"	150
Squires Lane	"	"	50
Short Lane	"	"	50
Barr Lane	"	"	80
Total			1740

The 1740 tons of Gravel at 6/6 per ton on the roads will cost £565.10.0

The Committee think it may be desirable to put all the roads into good order now because the District is not saddled at present with heavy Sanitary expences and as it is assumed that a moiety of the above cost will be repaid out of the County rate they are therefore of opinion that the Surveyors

recommendation should be adopted
The following will be the estimate for expences
to be incurred for the ensuing half year for
Highway purposes

2500 tons of Granite for the High
North Rd between East End and the
Park Road Hotel in addition to the
500 tons already provided for in
last Rate

1000 tons of Granite for the Regents
Park Road from the Station at
Church End to the Park Rd Hotel

500 tons of Granite for the Regents
Park Road from the Station at
Church End to the Southern boundary
of the district

Total Granite 4000 tons will cost	£250: 0: 0
1740 tons of Gravel as per Surveyors Report will cost	565: 10: 0
Cartage of drift	80: 0: 0
Labor 12 men 26 weeks say	320: 0: 0
Foreman 26 weeks	45: 10: 0
Tradesmens Bills	100: 0: 0
Election expences	60: 0: 0
Rent of Moss Hall Sewage land	15: 15: 0
	3936: 15: 0
Less Estimated amount to be received from County Rate including half year to 29th September 1880	1825: 0: 0
	£2111: 15: 0

The Rate required for Highway purposes
on the above estimate would therefore
be 1/- in the £

Drinking Fountains

The Chairman brought up the plan of the drinking fountain proposed to be erected at East End near the old Congregational Chapel. He stated that the donors agreed to pay the whole of the expenses of putting up the fountain & the drinking fountain Association had agreed to pay the expense of the future maintenance and repair of the structure and of supplying the same with water provided the Company would supply it at 9d per 1000 Gallons. It was stated that a gully was required.

The following letter was then read from the Drinking Fountain Association

"Metropolitan Drinking Fountain & Cattle Trough Association"
"Victoria House, CXI, Victoria Street"
"Westminster S.W. Oct 5. 1880"

"E. Sayer Esq."

Dear Sir "Ilkley"

"As promised I enclose having shown my "elevation, plan, and section of brickwork and cistern, "I should propose to use Ellmingham's white glazed "faced bricks for the front – best stocks for sides and back "Doultons white Terra cotta coping – galvanized iron "cistern with cover – wooden door, and wooden palings "to protect space at back; – polished red granite fountain "of 44 design and fine axed grey granite trough "of 1st design (all enclosed) We would provide "and complete the whole as then described at the "spot shown me in the High Road Ilkley for one "hundred pounds (£100) provided the water can be "procured as you were told at the corner of chapel "Street, and the Sunk well put in the gully-drain.

"When erected the Association will undertake "the future maintenance repair of the structure without "cost to any one concerned and will also supply the "water, it being understood that the Burnt Waterbury "will not have it at a price not exceeding 9d a "thousand gallons"

"Yours faithfully"
