51 Local Government Act, 1929—Poor Law Children.—A letter has been received from the Secretary to the Middlesex Education Committee announcing that at a conference held at the Guildhall, Westminster, on Monday, 13th April, at which all the Education Authorities in Middlesex were represented, the following resolution was adopted, viz :—

The Board do not consider that the expenditure of £47 5s. 0d. in respect of Examiners fees for the independent inspection of Albert Street Council School can be regarded as an item on which grant should be paid out of monies provided by Parliament, and they propose, therefore, to exclude the expenditure in the calculation of grant.

LOCAL GOVERNMENT ACT 1929

Poor Law Children.

In connexion with the transfer of poor law functions to the Councils of Counties and County Boroughs under Part I of the Local Government Act, 1929, Section 5 of the Act lays down the principle that assistance which can lawfully be provided under any of the Special Acts, (i.e. The Education Act 1921, The Blind Persons Act 1920, The Public Health Acts, The Maternity and Child Welfare Act 1913, etc.) should be so provided rather than by way of poor law relief.

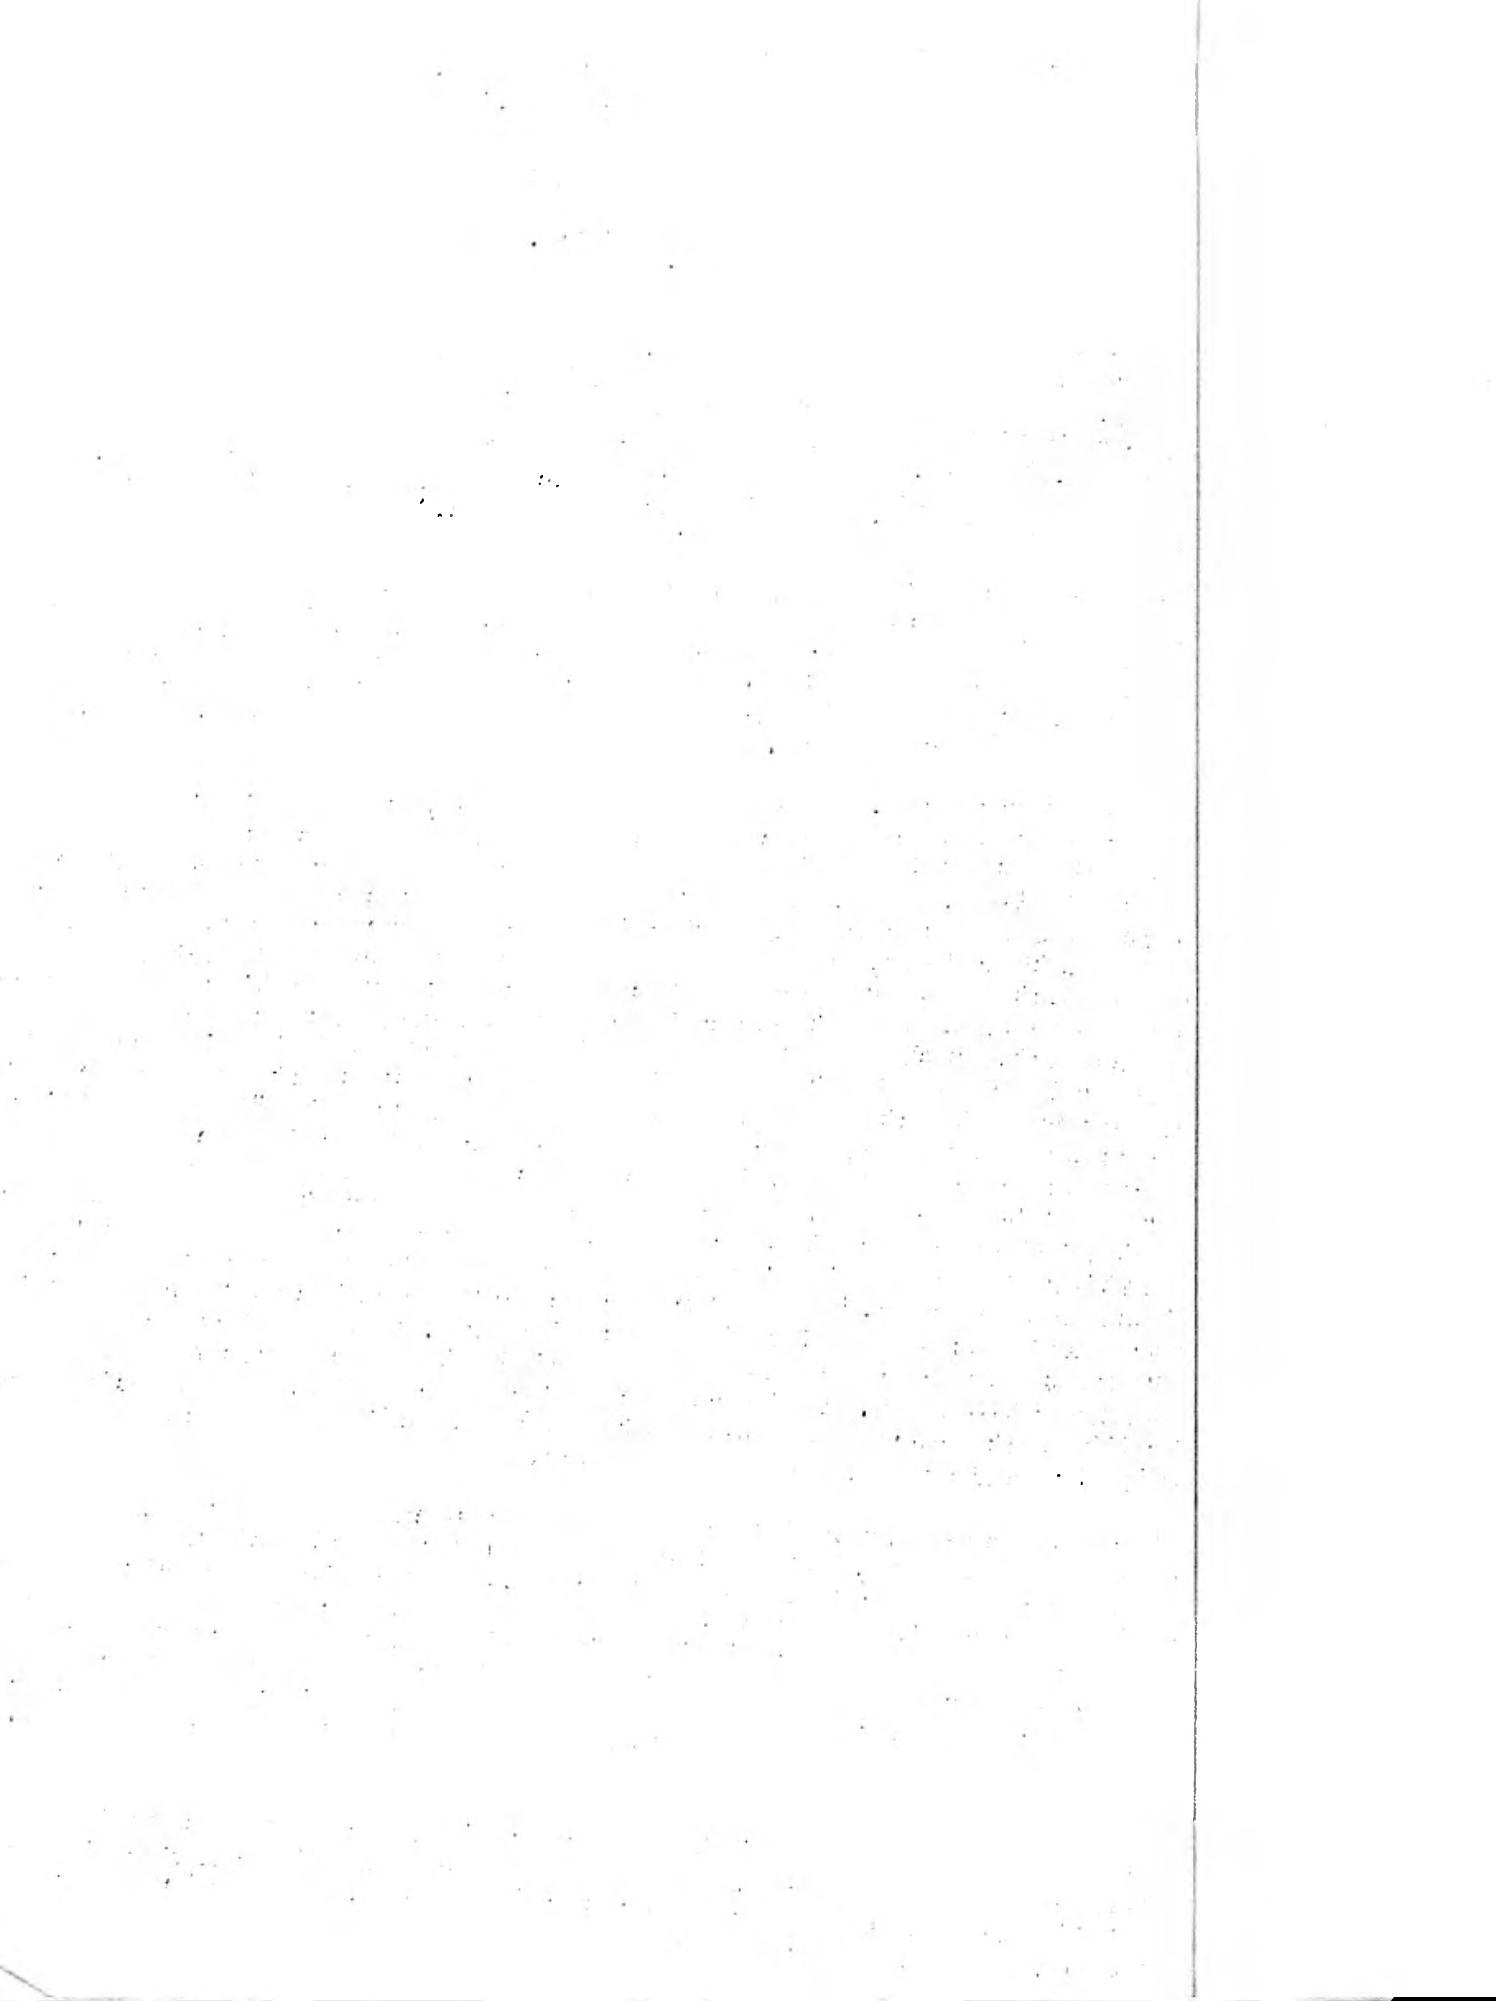

In pursuance of this policy the County Council, in its Scheme under the Local Government Act 1929, has declared its intention as soon as practicable "to take the necessary steps to ensure that any assistance which can be provided either by way of Poor Relief or by virtue of any of the Special Acts shall be provided by virtue of the appropriate Act and not by way of Poor Relief".

In Circular 1311, dated 6th February 1931, the Board of Education called the attention of Local Education Authorities to the desirability of arranging that the maintenance and education at residential Special Schools of blind, deaf, defective and epileptic children, whose fees at such schools would normally under the former practice have been paid by Poor Law Authorities, should be undertaken by virtue of Part V of the Education Act which confers on Local Education Authorities full powers for this purpose. If these children were dealt with under the Education Act, such an arrangement, in addition to being in accord with the general trend of public opinion and consistent with the policy of the Local Government Act, would, as the Board points out, "tend to diminish the cost to the rates, since the expenditure of Local Education Authorities in connexion with Special Schools is recognised for grant at the rate of 50 per cent., while the capitation grant paid by the Board in respect of children sent to residential Special Schools by Poor Law Authorities falls short of the amount of the fee payable out of the rates by these Authorities." In furtherance of the policy of dealing with the children in question under the Education Act, the Board have amended their Grant Regulations with the result that the capitation grant under Grant Regulations No. 19 in respect of children attending Special Schools after the 31st March 1931 does not extend to children whose fees are paid by Councils under poor law powers.

The Middlesex Education Committee, as Local Education Authority for Elementary Education, have already agreed that, subject to similar arrangements being made by the other Local Education Authorities for elementary education in the County, the maintenance and education of poor law children at schools certified for blind, deaf, defective, or epileptic children shall be provided as far as possible by virtue of the Education Act 1921, and not by way of Poor Law Relief, and the Conference recommends all Part III Authorities in Middlesex to adopt a similar policy.

It should be added that the appropriate Education Authority would be entirely responsible for the defective poor law children for whom it accepts liability, i.e. for their certification, the choice of school, supervision whilst at school etc.

This is the memorandum referred to in paragraph 51 of the Education Committee's Report of the 30th

PUBLIC HEALTH COMMITTEE'S REPORT.

28th April, 1931.

Part II.

Present: Councillor Briant (Chairman), and Councillors Pike, Pocock, Pugsley, Pulham, Ryan, H. O. Syrett and Mrs. Timberlake.

LOCAL GOVERNMENT ACT, 1929 - COMPENSATION OF TRANSFERRED
POOR LAW OFFICERS.-

A letter dated 10th April, 1931, was submitted from the Ministry of Health forwarding copy of a letter received from Middlesex County Council relative to the payment of compensation under the above-mentioned Act to Mr. W. G. Lockwood and stating that the Minister, on the information before him, would be disposed to take the view that any claim for compensation made by Mr. Lockwood should be addressed to this Council, but that before communicating his view to the County Council, he would be prepared to consider any observations which this Council might wish to make in the matter.

The Acting Clerk was directed to communicate with the Ministry pointing out that Mr. Lockwood was not at any time in the service of this Council, and that the appointments under Part I of the Children Act, 1908, had been made before notification received from the Middlesex County Council that they were prepared to allow Mr. Lockwood to accept a part time appointment under this Council as Infant Protection Officer, and that in these circumstances the Committee felt that any claim for compensation should be determined by the Minister.

RECOMMENDED that the action taken be approved.

STRAWBERRY VALE BROOK.-

The Committee considered a letter dated 16th April, 1931, referred by the Council for consideration) enclosing a Statutory Notice arising out of a sample of effluent taken from the Low Level Works on the 12th March, 1931.

The Acting Clerk was instructed to point out in reply that very extensive additions and alterations were actually in progress at the Sewage Works, and that, apart from the fact that the Low Level Works were obviously overworked (hence the need for additions) their normal working was also being interfered with by the works in progress.

He was also directed to add that every effort was being made under difficult conditions to maintain a satisfactory effluent and at the Council would be glad to hear that no further action would be taken by the County Council pending completion of the works fore-mentioned.

RECOMMENDED that the action taken be approved.

This is the Report referred to in paragraph 241 of the A. J. BRIANT.

1.- LOCAL GOVERNMENT SUB-COMMITTEE.-

The following report of a meeting of the above Sub-Committee held on the 14th April, 1931, was submitted :-

Present: Councillor Pike (Chairman), Councillors Briant, H. O. Syrett, Sommerfield and Wells, and Councillor Bennett (non-member).

NEW MUNICIPAL BUILDINGS ETC. - GLEBE LAND.-

In accordance with instructions the Surveyor submitted a sketch plan shewing a suggested lay-out of the site, including Municipal Buildings, a Public Library, a Central Fire Station (with accommodation above for single firemen and cottages for married firemen) and a Mortuary, together with a sketch plan shewing a possible disposition of the Departments in the Municipal Buildings.

The above-mentioned sketch plans were considered carefully by the Sub-Committee and it was deemed advisable that provision should also be made in the Scheme for the erection of a Town Hall. The Surveyor was therefore instructed to prepare and submit to the Sub-Committee at their next meeting alternative sketch plans shewing :-

- (1) The Town Hall as a separate building;
- (2) The incorporation of the Town Hall with the Municipal Buildings;
- (3) The incorporation of the Town Hall with the Public Library;

together with a report indicating the advantages and disadvantages of the three Schemes.

It was also decided that the Surveyor should make the necessary arrangements for the Sub-Committee to visit and inspect early in May next a number of recently erected Municipal Buildings and Town Halls for the purpose of gaining information to assist them in their deliberations.

Whilst the Sub-Committee were definitely of the opinion that the time had arrived when the erection of the new Central Fire Station should be proceeded with by the Council it was agreed to defer the further consideration of the matter pending the presentation by the Surveyor of the amended lay-out plans of the site.

ELECTRICITY UNDERTAKING - ASSESSMENT APPEAL.

It was reported that, after prolonged negotiations,
Sir Trustram Eve had advised the Council to agree to the
Undertaking being assessed at £10,500, this figure being
on the basis approved by the other Authorities in the County
owning Electricity Undertakings.

It will be remembered that the original figure inserted
in the List under the Rating & Valuation Act, 1925, was
£15,793, so that a substantial reduction in the assessment has
been effected.

RECOMMENDED -

- (1) that the assessment of £10,500 be accepted
and that the figure be submitted to the
Assessment Committee for approval; and
- (2) that the thanks of the Council be accorded
to the Chairman of the Committee, the Chief
Electrical Engineer and the Acting Clerk of
the Council for their valuable assistance in
connection with the negotiations.

Dear Sir,

MIDDLESEX COUNTY COUNCIL BILL.
West Middlesex Sewerage & Sewage Disposal.

As you are probably aware, the above Bill has now passed through the House of Lords and also through the unopposed Committee of the House of Commons and it is hoped will receive the Royal Assent in two or three weeks time.

The conditions precedent to the grant of the Unemployment Grants Committee are as follows:-

- (a) that a substantial body of labour be employed on the work by the end of October, 1931; and
- (b) that the grant be limited to expenditure on work executed within four years of October 1st, 1931.

It is therefore essential for my Council to commence the construction of the authorised works with the least possible delay.

In the course of my negotiations with the Ministry of Health I understood it to be their considered opinion that this scheme should deal with the whole of the administrative areas of the local authorities or parts of same coming within the same watershed as the constituent authorities within the sewerage district under the Bill.

It is therefore essential that an intimation should be given to my Council with the least possible delay whether your Authority will desire, either at present or in the future, to come within the purview of this scheme, as in the event of their decision being in the affirmative the necessary provision will have to be made in the contracts which it is hoped will be placed within the next two or three months, for the enlargement of the intercepting sewers.

Any further information you may desire to enable your Authority to arrive at a considered opinion on this matter I shall be only too happy to give you.

Yours faithfully,

(Sgd) C.W. RADCLIFFE.

**TOWN PLANNING AND OPEN SPACES COMMITTEE'S
REPORT.**

1st June, 1931.

Present : Councillor Langlands (Chairman), Councillor Jones (Vice-Chairman), Councillors Briant, Pateman, Pike, Pulham, Mrs. Timberlake and Wells and Councillors Pugsley, Ryan, H. O. Syrett and Wilmot (non-members).

252 Minutes.—The Minutes of meetings held on the 20th and 27th April, 1931, were taken as read, confirmed and signed.

253 Requisitions.—

RECOMMENDED that the lists of requisitions (circulated), be approved.

(Annexed)

254 Open Space—Fronting North Circular Road North of Pointall's Allotments.—Arising out of the instructions of the Committee hereon at last meeting, the Surveyor intimated that the cost of setting back the fence between the Arterial Road and the above Open Space would be approximately £25;

RECOMMENDED that the matter be referred to the Finance Committee with a view to their approving a supplemental estimate to cover the expenditure involved.

255 North Middlesex Joint Town Planning Committee.—The Minutes of the last meeting of the above Committee were submitted. Attention was drawn to the fact that the Committee had resolved to make a call upon the constituent Authorities in respect of the financial year ending 31st March, 1932, for the third instalment of the contributions agreed to be made by them.

256 Brookside Walk—Plan.—In accordance with the request of Councillor C. S. Syrett at the last meeting of the Council, the Surveyor submitted a plan shewing the whole of the properties which had been acquired for purposes of the Brookside Walk. Instructions were given for the same to be available for inspection by the Members at the next meeting of the Council.

257 Arden Playing Field.—

(a) Finchley Cricket Club.—A letter, dated 19th May, 1931, was submitted from the Hon. Secretary of the Finchley

TOWN PLANNING & OPEN SPACES (*continued*).

Cricket Club, stating that the Club had been asked by the Finchley Memorial Hospital to arrange their Annual Match in aid of the Hospital Extension Fund; that subject to the consent of the Council, the Club had promised to do this on Saturday, the 4th July, 1931, and proposed to issue tickets of admission at 6d. each.

Instructions were given to the Acting Clerk to inform the Club that no objection would be raised by the Council to the arrangements suggested;

RECOMMENDED that the action taken be approved.

- (b) The Finchleian Club.—A communication, dated 29th May, 1931, was submitted from the Finchleian Club, the present tenants of the football pitch on the Arden Playing Field, enquiring (*inter alia*) whether the Council had alternative football accommodation to offer them for next season;

RECOMMENDED that the Club be offered the use of the 2nd Class Association pitch on the Glebe Land at a rental of £50 for the football season.

258 Land and Cottage opposite Long Lane School.—A letter, dated 14th May, 1931, was submitted from the Clerk of the Middlesex County Council, stating (*inter alia*) that the County Council's Open Spaces Sub-Committee were of opinion that if the proposed playground was to be used solely by the children attending the Long Lane School, the cost of its acquisition should be borne by this Council's Education Committee; that if the County Council contributed towards the cost they would only do so provided the land was dedicated to the use of the public.

The Surveyor also submitted a plan of the whole of the land acquired, shewing by means of a dividing line the land proposed to be used for the purpose of a children's playground as distinct from the land with the cottage standing thereon.

The Committee were of opinion that an additional strip 20 feet in width should be reserved on the open space side of the cottage for purposes ancillary to the use of the cottage, thus accordingly decreasing the area of the open space liable for grant to 825 yards super.

RECOMMENDED—

- (1) that the plan submitted by the Surveyor and as amended by the Committee be approved;
- (2) that the Acting Clerk be instructed to inform the Middlesex County Council that, in the event of their agreeing to make a grant towards the cost of acquisition of the land having an area of 825 yards super, the Council will be prepared to dedicate the land to the use of the public as an open space.

259 Windsor Road Open Space—Proposed Sub-Station.—It was reported that the Electricity Committee were desirous of erecting a sub-station on a portion of the Windsor Road Open Space, and a plan of the site proposed was submitted for the inspection and consideration of the Committee;

RECOMMENDED—

- (1) that, subject to the consent of the Ministry of Health, the Middlesex County Council, and the original freeholders and mortgagees, no objection be raised to the use of the site for the purpose in question;
- (2) that the Acting Clerk make application for the above and any other necessary consents;
- (3) that, as a matter of courtesy, the Acting Clerk be instructed to approach the adjoining owner and obtain any observations he might desire to make with respect to the matter.

260 Town Planning Scheme No. 1.—

- (a) **Lyttelton Playing Fields.**—The Chairman of the Committee reported upon an interview which took place on the 12th May, 1931, with the Secretary of the Ecclesiastical Commissioners in regard to the acquisition of the above fields, and intimated that it was hoped that a three-party conference of representatives of the freeholders, the leaseholders and the Council would be convened at a very early date.

TOWN PLANNING & OPEN SPACES (*continued*).

- (b) Memorandum.—The Acting Clerk submitted a Memorandum received from the Ministry of Health in connection with the above Scheme, together with suggested replies which had been approved by the Chairman of the Council;

RECOMMENDED that such replies be approved and that the Acting Clerk be instructed to transmit same to the Ministry of Health.

261 Town Planning Scheme No. 2.—

- (a) Reservation of Land for Allotment Purposes.—

RECOMMENDED that the Allotments Committee be asked to issue a Certificate under the Allotments Act, 1925, to the effect that in connection with the preparation of the above Scheme, due regard has been had to the question of reservation of land for allotment purposes.

- (b) Footpath—Wickliffe Avenue.—A communication, dated 21st May, 1931, was submitted from Messrs. Kenneth Brown, Baker, Baker, stating that they understand that the Council intend to close the existing footpath to the north of and partly across Mr. Kensit's land, and to substitute therefor a new public footpath along the north side of Wickliffe Avenue and running thence in an approximately straight line across the Council's land to the bridge over the Dollis Brook. It was further stated that if the Minister refused to approve of the substitution of the new path continuing across Broughton Avenue from Wickliffe Avenue, Mr. Kensit would not object to the path crossing the extreme corner of his land abutting on the Windsor Open Space and Wickliffe Avenue.

- (c) Objections dealt with.—A report of the Town Planning Sub-Committee shewing how the objections of the Middlesex County Council and the London and North Eastern Railway Company were dealt with at a meeting with the objectors on the 16th May, 1931, was submitted and considered;

(b) Footpath + Wickliffe Avenue. - The Solicitor to report upon a letter, dated 1st May, 1931, which has been received from Messrs Kenneth Brown, Baker, Baker & Son, --

(c) Objections dealt with. - I beg to report that the Town Planning Sub-Committee interviewed representatives of the Middlesex County Council and the London and North Eastern Railway Company on the 16th May, 1931, with respect to their objections of the 6th February, 1931, and the 11th October, 1930 respectively, when the under-mentioned points were agreed subject to the approval of your Committee :-

(a) Middlesex County Council.

(1) Clauses for the Protection of the County Council In relation to Properties acquired and used by them for statutory purposes.

Sub-Committee agreed to the insertion of the Clauses desired by the County Council for the protection of the County Council in relation to Properties acquired and used by them for statutory purposes.

(2) Two pieces of land on the North West side of the North Circular Road,

Representative informed that the land actually used by the County Council for purposes of a depot would be re-scheduled in due course. He was asked to ascertain at what figure the County Council would be prepared to sell to the Council the residue of the two pieces of land above referred to and also what scheduling the County Council desired if your Committee did not decide to purchase.

(3) Christ's College Playing Fields and School Site. Finchley County School.

The representative intimated that the County Council could not agree to the Clause providing that the Council may at any time acquire by agreement the lands numbered 4 and 5 on the map. It was accordingly suggested to him that the County Council should enter into an agreement to be scheduled to the Scheme, giving this Council first option to purchase the lands should the same at any time be for disposal.

It was agreed that this was a matter for departmental settlement by the County Council.

It was agreed that this matter could stand over for the time being, having regard to the fact that the same would be dealt with in the co-ordination agreement now awaiting approval by the Council.

Clause 41 - Preservation of Trees.

The consideration of this Clause was deferred until the Middlesex County Council and this Council have had an opportunity of inspecting the new Clause prepared by the Minister of Health.

Clause 50 - Appropriation of Lands.

Sub-Committee agreed to the insertion of this Clause.

Clause 57 - Suspension and Application of Acts and Byelaws.

The representative intimated that this Clause was being discussed by the County Council with the Minister of Transport and could for the time being stand over.

(b) London and North Eastern Railway Company.

(1) Totteridge Lane - Land.

It was reported that the objection of the Company as to the land at Totteridge Lane had been dealt with by re-zoning in Map No. 4.

(2) Land part of East Finchley Goods Yard etc.

The objections of the Company were fully discussed, and the Deputy Surveyor intimated that the plan shewing the site of the proposed new road had now been approved by the Railway Company. Having regard to the fact that the Middlesex County Council, the Ministry of Transport and Co-partnership Tenants Ltd., and others were also concerned in the new road, the Sub-Committee were of opinion that a conference should be convened as early as possible to discuss the whole matter.

~~(d) Final Approval of Scheme. The Committee will remember that the above Scheme has to be finally approved by the Council by the 30th June, 1931, and I hope to submit the Scheme and Map No. 4 for approval at your meeting. I may say that the Scheme is in substance very similar to the draft which has already been approved by the Council.~~

This (together with the preceding page) is the report of the Town Planning Sub-Committee referred to in paragraph 261c. of the Town Planning and Open Spaces Committee's Report of the 1st June, 1931.

264 Glebe Land—Use of Huts.—A letter, dated 29th May, 1931, was submitted from the Hon. Secretary of the Finchley Football Club, applying for a further twelve months’ tenancy of the huts on the Glebe Land;

RECOMMENDED that the Club be granted a tenancy of the long hut and the old brick building on the Glebe Land at a rental of £15 for the period ending 30th April, 1932, subject to the Club agreeing to sub-let the long hut to applicants to be approved by the Council.

County Council of Middlesex.

LOCAL GOVERNMENT ACT, 1929.—SECTION 63.

HOSPITAL ACCOMMODATION FOR INFECTIOUS DISEASE.

COPY OF REPORT OF THE PUBLIC HEALTH AND PUBLIC ASSISTANCE COMMITTEE TO THE COUNTY COUNCIL ON THE 30TH APRIL, 1931.

Section 63 of the Local Government Act, 1929, provides that the council of a county shall, as soon as may be after the commencement of the Act, make a survey of the hospital accommodation for the treatment of infectious diseases provided by the council and by the councils of any districts wholly or partly within the county. Upon the completion of the survey it is the duty of the county council to prepare, in consultation with the councils of all such districts, a scheme for the provision of adequate hospital accommodation for the treatment of infectious disease in the county. This scheme has to be submitted to the Minister of Health for his approval, and subsection 3 of Section 63 of the Act sets out three provisions which may be included in the scheme. The subsection is as follows :—

“The scheme may provide—

- “(a) for the arrangements under which and the terms upon which accommodation in any existing hospital belonging to the council of a district shall be made available for the use of the inhabitants of the county other than those resident in the district;
- “(b) for the provision by the county council or by the council of any district of new accommodation for the treatment of infectious disease;
- “(c) for embodying arrangements made between the county council or the council of any district and the council of any adjoining county borough for the reception of persons residing in the county borough into hospitals provided by the county council or district council, and for the reception of persons residing within the county into hospitals provided by the council of the county borough.”

The Act provides that the Minister, after considering any representations submitted by any council affected, may approve the scheme with or without modifications.

If a county council fail to submit a scheme within six months after being required by the Minister so to do, the Minister, after consulting the county and district councils, may himself make a scheme which shall have effect as if originally drawn up by the county council. In the event of a district council failing to provide accommodation in accordance with a scheme approved by the Minister, or otherwise failing to discharge their functions under the scheme, the Minister, after giving the council of the district and the county council an opportunity of being heard, may, if he thinks fit, by order, transfer to the county council the functions of the district council under the scheme, and the order may make suitable provision with regard to the transfer, superannuation and compensation of officers affected.

It will be seen, therefore, that whilst the Local Government Act, 1929, does not suggest the transference to the county council of the existing functions of district councils in respect of the hospital treatment of infectious diseases, it does in fact place a very heavy responsibility upon the county council in that it makes the latter responsible for ensuring that the whole of the county is adequately provided with isolation facilities, and to effect this, if it be considered necessary, authorizes the actual provision of new hospital accommodation by the county council.

Before reviewing the isolation hospitals at present established in Middlesex, it may be of advantage if the general subject of the hospital treatment of infectious disease is briefly considered.

There are two chief objects which the admission to an isolation hospital of an individual suffering from an infectious disease is intended to accomplish—firstly, the removal of a source of infection from the general community with a view to limiting the spread of infection, and secondly, the provision of skilled nursing and treatment for the sufferer himself.

With regard to the first, in the case of certain diseases expert opinion is divided as to the success of isolation as a means of restricting infection, but there can be no doubt as to the value of efficient medical treatment and nursing such as an isolation hospital should provide. This leads to the

question as to which diseases should be eligible for reception in an isolation hospital. Smallpox can be dismissed from consideration, as the County Council is the authority in Middlesex for the provision of hospital accommodation for this disease and has made adequate arrangements by agreement with the London County Council; neither need tuberculosis or venereal diseases be considered, as they are specifically excluded by the terms of Section 63 of the Act. There remain, therefore, the ordinary notifiable diseases usually admitted to isolation hospitals, i.e., scarlet fever and diphtheria, together with enteric fever and erysipelas in the case of some hospitals, and the very important group of infectious diseases, notifiable and non-notifiable, for which isolation hospital accommodation frequently is denied. The latter are measles, whooping-cough, chickenpox, influenza, pneumonia, encephalitis, cerebro-spinal fever, puerperal fever and ophthalmia neonatorum. It is only necessary to reflect for a moment upon the appalling loss of life due to complications of measles and whooping-cough, a loss which could be enormously reduced by efficient medical and nursing care, to realise the great importance of making adequate provision for the institutional treatment of these diseases. Chickenpox has not quite so strong a claim for isolation accommodation, although the fact that errors of diagnosis may lead to unrecognised smallpox being treated at home with unfortunate results cannot be entirely overlooked. Influenza and pneumonia frequently urgently demand skilled hospital treatment, encephalitis and cerebro-spinal meningitis are diseases of so grave a character that the necessity for isolation and treatment is self-evident, whilst the mortality from puerperal fever and the incidence of blindness from ophthalmia neonatorum, unless most promptly and efficiently treated, render these conditions two which have the strongest claims for consideration in connection with the provision of hospital treatment.

The first question which has to be decided is the extent of isolation hospital provision necessary. In the past it has been customary to act upon the assumption that on an average 1 bed per 1,000 population would meet the needs of a community. The actual demand for beds in any area depends upon a number of factors of which social circumstance is one of the most marked; in the more affluent neighbourhoods a greater proportion of patients remain at home under the treatment of their own doctors, whilst in the poorer and more congested districts home circumstances render proper care and treatment unobtainable. Divergent views amongst doctors as to the value of special forms of treatment of scarlet fever carried out at home by district or other nurses also have an influence upon the demands for isolation accommodation.

Notwithstanding these local divergences, however, 1 bed per 1,000 population has proved a useful basis, and if accommodation for diseases which up to the present have rarely been admitted to isolation hospitals be taken into account, this proportion may well prove to be too low. The advantage of co-ordination of accommodation which will be suggested later in this Report, however, should be tried by experience before any marked increase on the old-established basis is actually provided. It may be assumed, therefore, that Middlesex, with its estimated population of 1,462,650 (mid-1929), requires 1,463 beds.

The second question which requires consideration is the number of hospitals in which these beds should be located. The introduction of motor transport has entirely altered the position with regard to the situation of hospitals; whereas before this means of transport was available it was desirable and, in fact, requisite for hospitals to be within a comparatively short distance of the residences of the people using them, this requirement no longer obtains; for example, the whole of the population of Middlesex and London is adequately served for the isolation of smallpox by a hospital situated in the neighbourhood of Dartford. Distance, therefore, no longer being the governing factor, it is possible to take other considerations into account. Of these the most important is size. Every isolation hospital should be sufficiently large to justify the appointment of a resident medical staff. In addition to modern wards for the accommodation of groups of patients, it should provide facilities for the individual isolation of cases of the less common infections, and of mixed infections or cases in which the diagnosis is in doubt. There should be proper provision for operative treatment if this is called for and a well-equipped pathological laboratory is an essential.

Whilst all isolation hospitals might well be planned to receive cases of scarlet fever, diphtheria, enteric fever, influenza and pneumonia, complicated cases of measles, whooping cough and possibly chickenpox, it does not seem necessary or desirable that all should provide for the reception of cases of encephalitis, meningitis, puerperal fever and ophthalmia neonatorum. Provision for one or other of these latter conditions should be restricted to (say) one hospital having a specially trained staff and any special equipment which modern research may indicate as useful in the treatment of the condition in question. Arrangements also would need to be made to ensure that the patients should be under the care of a medical practitioner with special knowledge of the disease, and in most cases this officer would be a part-time visiting specialist.

Apart from the medical benefits to be gained from large isolation hospitals, there is the additional advantage that fewer hospitals are needed. In a county such as Middlesex, where urbanisation is spreading into all parts and where the vast majority of the areas are of a residential character, the presence of numerous isolation hospitals is an obvious disadvantage, and the concentration of isolation facilities at the smallest number of centres practicable is the ideal to be aimed at. This policy applied to the County of Middlesex would necessitate the closure of a number of existing hospitals and the enlargement of others, and the present time may not be thought the most suitable for any extensive scheme of building. It must be remembered, however, that apart from the advantages to

the population as a whole which this policy would confer, the rendering available for building purposes of sites now devoted to isolation hospitals ultimately might result in definite financial advantage to the districts concerned.

In formulating their scheme for the provision of adequate isolation hospital accommodation in the County, it will be necessary for the County Council to apply to each existing isolation hospital the following questions :—

1. Is the hospital sufficiently large to provide the services outlined as requisite ?
2. If not so large, is the site large enough to allow of the necessary development ?
3. Is the position of the site a suitable one for a large isolation hospital having regard to the character of the neighbourhood and possible future developments ?
4. Is the hospital necessary having regard to the proximity of other hospitals ?

Although it may not be feasible at the present juncture to close all hospitals in which the reply to the above questions is in the negative, the County Council should be very cautious in concurring in the expenditure of any additional money by local authorities with a view to the extension of such hospitals, and the powers conferred upon County Councils by subsection (3) (a) of Section 63 of the Local Government Act should render this course unnecessary.

On 30th September, 1930, the Ministry of Health issued a circular, No. 1145, dealing with the question of the survey and scheme required by Section 63 of the Local Government Act. This circular was in the form of a covering letter to the Ministry's Memorandum L.G.A. 40 on the same subject, and your Committee consider it important that the Council should be acquainted with the contents of the Memorandum.

It is suggested that the first step a county council should make in undertaking its survey is to call upon all district councils, joint hospital boards, &c., in the County requiring them to furnish returns in relation to their hospitals, and a suggested questionnaire forms part of the Memorandum. This action has been taken by the County Council, and such returns have been received from the authorities having isolation hospital accommodation in the County. Moreover, all the hospitals have been inspected either by the County Medical Officer or by the Assistant County Medical Officer, and from the information so obtained, together with the particulars submitted by the respective hospital authorities, the following summary of isolation hospital accommodation has been prepared :—

It will be seen that there are 15 isolation hospitals in the County providing a total of 942 beds (based upon the standard of measurement approved by the Ministry of Health, i.e., 144 square feet floor space per bed). The estimated population served by these beds is 1,314,208, but this includes 36,370 residents in Surrey who jointly use the Mogden Hospital, and for whom in future your Committee are of opinion provision should be made by the Surrey County Council. On the other hand, four districts in Middlesex, with a total population of 184,812, utilise beds in other Counties and the tenure of some of these beds is, it is understood, very uncertain. Therefore, the number of persons in Middlesex for whom the County Council has to consider the question of isolation hospital provision, after deducting the Surrey population and adding the Middlesex districts at present accommodated outside the County, is 1,462,650. It will be noted, therefore, that the total number of beds available in Middlesex falls short of the number required on the basis of one bed per 1,000 population by 521, and it must be remembered that Middlesex is a very rapidly growing County, and the estimate of population, which is that supplied by the Registrar-General for mid-1929, probably is very seriously below the actual number, whilst further extensions will be needed to meet future developments in the County.

Your Committee now propose in very brief outline to refer to each individual hospital in the County and suggest the place it might occupy in the scheme to be prepared by the Council. The hospitals are dealt with in a geographical order from north to south.

ENFIELD AND EDMONTON JOINT HOSPITAL.—This is a large permanently built hospital with accommodation for 160 patients. It stands upon a site 27 acres in extent and has a resident Medical Superintendent with a part-time visiting Assistant Medical Officer. It serves the needs of Edmonton and Enfield and should continue to do so. It would appear to be well adapted for extension in order to meet the hospital needs of a much larger area.

SOUTHGATE HOSPITAL.—This is a comparatively small hospital with accommodation for 42 patients. It stands upon a site 9 acres in extent. The buildings are of permanent construction and satisfactory in character with the exception of the staff accommodation, which is insufficient. There is no resident medical staff. Although this hospital is a satisfactory institution, in view of the proximity of the Edmonton and Hornsey hospitals and of the fact that the site of the Southgate Hospital is in the middle of a residential area, your Committee consider that this hospital should be regarded as redundant.

HORNSEY, FINCHLEY AND WOOD GREEN JOINT HOSPITAL.—This is a large hospital with accommodation for 102 patients. The buildings are of permanent construction and the institution is a well-organised modern isolation hospital. Although the actual hospital site is only 9½ acres in extent there is some 20 acres of land adjoining, belonging to Hornsey Borough Council, part of which probably could be acquired for extension if desired. The Medical Superintendent of the institution is the Medical Officer of Health of Finchley, but there is a resident medical officer and consultants visit the hospital as required. Your Committee are of opinion that, in any hospital scheme for Middlesex, this hospital should be retained and provide accommodation for an even larger district than it serves at the present time.

HENDON URBAN DISTRICT HOSPITAL.—This is a modern hospital which has only been used since 1929. It has accommodation for 60 patients and extensions are in course of construction for a further 26 patients, whilst the administrative blocks, &c., have been designed to meet the needs of a hospital of 120 beds. The hospital stands on a site 10 acres in extent, but it is possible that additional adjoining land could be obtained if required for further extensions. The Medical Superintendent is the Medical Officer of Health of Hendon Urban District, but

there is a resident medical officer who at present is also engaged in other activities in the Public Health Department of the District Council. This hospital is one which should be retained in any scheme of re-organisation and should be developed to serve the needs of a considerably larger area than at present is the case.

HENDON RURAL DISTRICT HOSPITAL. This is a small hospital of permanent construction providing accommodation for 17 patients. It stands on a site rather over 3 acres in extent and at the present time the adjoining land is not built upon and it might, therefore, be possible to acquire additional ground, if this were needed. There is no resident medical staff. Although the hospital is quite well designed and is suitable for extension, in view of the proximity of the Hendon Urban District Council Isolation Hospital, your Committee do not consider it necessary that this institution should form a permanent part of the accommodation provided for the isolation of infectious diseases in the County.

HARROW URBAN DISTRICT HOSPITAL.--This is a small hospital of 25 beds. It is in part of permanent construction and in part semi-permanent. Some of the accommodation provided cannot be regarded as satisfactory in view of modern requirements. The whole institution is cramped and there is no room for extension on the small site of 1½ acres upon which the hospital is placed. There is no resident medical staff. This hospital is unsuitable for its purpose and should not be allowed to continue.

WILLESDEN MUNICIPAL HOSPITAL.--This is a large hospital standing on a site 15 acres in extent. The buildings vary greatly in character from corrugated iron woodlined structures to the most modern type of cubicle isolation blocks. It has accommodation for 132 cases and the erection of additional cubicles for 20 more patients is contemplated in the near future. There is a non-resident whole-time Medical Superintendent who is assisted by a resident medical officer, and there are three consultants also on the staff of the hospital. The hospital is a well-organised institution and would appear capable of very considerable extension without undue difficulty. Your Committee are of opinion that this hospital should be retained and it is at this institution, centrally situated in the County, that provision for dealing with such conditions as puerperal fever, ophthalmia, &c., for the whole County, might well be made.

CHISWICK AND EALING JOINT HOSPITAL.--This is a hospital of 96 beds. With one exception all the buildings are of permanent construction, but some of the wards are not well placed nor are they very satisfactory in type; a certain amount of replanning and rebuilding is desirable. The institution stands on a site of 4½ acres and although it is capable of some extension, the amount of such extension would seem to be limited. The Medical Officer of Health of the Borough of Ealing is the Medical Superintendent and the clinical work at the hospital is carried out by two whole-time assistant medical officers employed in the Borough Public Health Department, one of whom is always within call of the hospital.

In view of the proximity of Acton Fever Hospital and the other factors mentioned above, it would not appear to be necessary for this hospital to have a permanent place in the suggested scheme for the County.

ACTON HOSPITAL.--This is a hospital providing accommodation for 88 patients; most of the buildings are of a permanent type and satisfactory in character. The institution occupies a site of 4½ acres but it is understood that the Borough Council recently have acquired adjoining land to the extent of about 3 acres. In view of this, the Acton Hospital would form a very useful nucleus for the development of a large isolation hospital. At the present time there is no resident medical officer, the patients being under the care of the Medical Officer of Health of Acton.

SOUTHALL-NORWOOD HOSPITAL.--This is a small hospital of 44 beds, of which 26 are situated in permanent buildings and 18 in temporary buildings. There is no resident medical officer and the patients in the institution are attended by the local Medical Officer of Health. The institution stands in the midst of a residential district and occupies a site of 3 acres. It is understood that it would be possible to acquire an additional area of 2 acres if thought desirable. As a whole the accommodation is not very satisfactory in character and your Committee do not consider that this is a hospital which should have a permanent place in the County scheme.

TWICKENHAM HOSPITAL.--This hospital provides accommodation for 32 patients and stands on a site of 8½ acres. The buildings are permanent in character and the general lay-out of the hospital is very satisfactory. There is no resident medical officer, but the Medical Officer of Health of the Borough of Twickenham acts as Medical Superintendent. From the point of view of the site and of the buildings already erected thereon, this hospital would form a useful nucleus for a large institution.

MOGDEN JOINT ISOLATION HOSPITAL.--This hospital, of 48 beds, occupies about 4 acres on a site of rather over 9 acres extent, situated in the Urban District of Heston and Isleworth. It is a joint hospital serving the requirements of the Urban District of Heston and Isleworth and the Borough of Richmond. The buildings are of permanent construction but the lay-out is poor and some of the ward blocks require alteration or replacement. In its present form the institution cannot be considered to be satisfactory or adapted to the requirements of modern isolation hospital treat-

ment. Their attends the would be pos somewhat to view of the meet the ne Hospital. A provision for

ment. There is no resident medical officer, but a part-time doctor practising in Kensington attends the hospital as required. In view of the area of the site on which this hospital stands, it would be possible to remodel and extend it so as to provide a large isolation hospital, but the site is somewhat low lying and as already mentioned some of the existing buildings are unsuitable. In view of these considerations, it does not appear that this hospital is so suitable for development to meet the needs of Heston and Isleworth and other surrounding districts, as is the Twickenham Hospital. Accordingly, it would not seem desirable that this hospital should form part of the final provision for infectious diseases included in the scheme for the County.

HAMPTON HOSPITAL.—This is a small hospital of 14 beds, situated on a site 2 acres in extent, which it is understood could be extended up to a total of 7 acres. The institution is of permanent construction and the wards are well designed for the purposes of an isolation hospital. There is no resident medical officer and patients are attended by the Medical Officer of Health of Hampton Urban District. In view of the proximity of the Twickenham Hospital, it does not seem desirable that this institution should be developed or in fact remain permanently as an institution for the treatment of infectious disease.

UXBRIDGE JOINT HOSPITAL.—This is a hospital of 46 beds. It is of permanent construction and stands on a site of $2\frac{1}{2}$ acres. There is, however, an option under which this site could be extended to a possible area of 4 acres. With the exception of one ward block which is in need of modernisation, the institution is of a satisfactory character. There is no resident medical officer and the patients are attended by a part-time medical practitioner living in the neighbourhood. Owing to the limitation in the size of the site it would never be possible to develop this hospital into a large institution, but as there is no other hospital in this part of the County it will probably need to continue to function as an isolation hospital.

STAINES JOINT HOSPITAL.—This is a small hospital of 36 beds situated on a site 4 acres in extent which could be extended to a total of 7 acres. The hospital is of modern and satisfactory construction and would well form the nucleus of a larger institution. There is no resident medical officer; patients are attended by a medical practitioner who resides in the neighbourhood. In view of probable future development in the south-west of the County, your Committee consider that this hospital should continue.

From the foregoing remarks it will be observed that of the 15 isolation hospitals in the County with a total accommodation for 942 persons, it is suggested that 8 be considered as the permanent isolation hospitals required in the County and that the retention of 7 with accommodation for 286 persons is not considered desirable, having regard to the principles outlined earlier in this report. To the present deficit, therefore, of between 500 and 600 beds, must be added 286 beds which ultimately will cease to be available for isolation purposes under the above proposals. This brings the total shortage of beds in the County to a number between 900 and 1,000. In any County scheme, however, your Committee consider it to be of vital importance that arrangements should be included which would render the interchange of patients between the several hospitals and hospital areas not only practicable but easy, and, if the hospitals were under County control, such a procedure would follow as a natural consequence. Even though no suggestion for County control is put forward, your Committee feel strongly that provision for the interchange of patients must be insisted upon. The result of the added elasticity of accommodation gained by this arrangement may well render the provision of 1,000 additional beds unnecessary and probably an extension of 500 beds or less in the first instance is all that is advisable. Although the County Council has power to provide additional new accommodation for the isolation and treatment of infectious diseases, it would not appear to be a wise policy to exercise this power unless, in fact, the County Council were solely responsible for the provision of hospital accommodation. When a decision has been arrived at as to the actual hospitals which it is considered should form the permanent centres for the accommodation of infectious diseases in the County, it will be necessary to divide the County into suitable hospital areas to be served by the respective hospitals.

It is clearly unwise at the present juncture to arrange immediately for the closure of hospitals which ultimately will not be required in view of the arrangements outlined in the scheme, and your Committee consider that when the hospital areas have been agreed upon, all hospitals existing in any area should be dealt with as one unit. Under this plan, if considered likely to be advantageous, it would be possible for the central hospital in any area to arrange that the accommodation in the redundant hospitals should be utilised for the isolation of one or more particular types of case. For instance, the central hospitals might make provision in the wards already erected for accommodation of the usual notifiable diseases, reserving one or other of the redundant hospitals for the reception of complicated cases of measles, convalescent cases of scarlet fever or for some other purpose. The central hospital would proceed gradually with a well-devised scheme for extension and, as its accommodation grew, the redundant hospitals could be closed one by one as occasion offered.

The questions of finance and the management of the hospitals are likely to prove matters of some difficulty, and in the absence of County control it would seem that the only way a solution to these problems can be reached is by conference with the several local authorities concerned. Your Committee have not dealt specifically with the various proposals which have been received from

certain local authorities for extensions and alterations to their existing isolation hospitals, for until the County Council have arrived at a definite decision as to the policy to be contained in their isolation hospital scheme, it is not possible to deal with the requirement of any individual hospital. It is clear, however, that if the suggestions contained in this report, either as submitted or as amended after consultation with the districts, receive the approval of the Ministry of Health, then sanction for the expenditure of money in connection with extensions on approved lines of the 8 hospitals at present proposed to be retained under the scheme, obviously would follow, whilst any suggestion that money should be spent upon the extension or improvement of hospitals, which ultimately would cease to function as such, would need very careful scrutiny.

Your Committee consider that their recommendations and suggestions set out above should be provisionally adopted as the basis of the County Council's scheme under Section 63 of the Act. The Ministry of Health's Memorandum L.G.A. 40, mentioned above, suggests that it will probably be found convenient for the draft scheme to be circulated to the Local Authorities, Joint Hospital Boards and Hospital Committees concerned, and meetings convened between representatives of the County Council and such Authorities at which the provisions of the scheme would be discussed, and, if possible, agreed, subject to the approval of the Minister.

Your Committee propose that this report should now be circulated among the Local Authorities, Joint Hospital Boards and Hospital Committees concerned, with an invitation for observations thereon to be submitted, and that your Committee should be authorized to hold such conferences as they may consider desirable with representatives of these Authorities to discuss the proposals.

Your Committee accordingly recommend :—

That as the basis of the County Council's scheme to be made under Section 63 of the Local Government Act, 1929, for the provision of adequate hospital accommodation for the treatment of infectious disease within the County, the Report of the Public Health and Public Assistance Committee upon the subject now submitted be provisionally adopted, that the Report be circulated among the Local Authorities, Joint Hospital Boards and Hospital Committees concerned with an invitation to submit their observations thereon, and that the Public Health and Public Assistance Committee be authorized to make arrangements for any necessary conferences with such Authorities to be held for the purpose of discussing the proposals contained in the Report.

This is the report referred to
in paragraph 278 of the report
of the Public Health Committee
of the 2nd June, 1931.

RECOMMENDED that authority be given for mains to be laid in Ingram Avenue and Spaniards Close at an estimated cost of £727 and in Kingsley Way at an estimated cost of £550, subject to guarantee, and for a temporary overhead line to be erected at an estimated cost of £200, subject to the necessary wayleave being obtained.

379 Sub-Stations.—It was reported that the sub-station site at Summers Lane had now been fenced in.

380 British Electrical and Allied Industries Research Association.—The Chief Electrical Engineer reported receipt of a communication from the Secretary to the Council of this Association, intimating that the annual subscription had been raised to £31;

RECOMMENDED that the Association be informed by the Acting Clerk that the Council are not prepared to agree to payment of this amount, but that they are willing to continue their membership of the Association at the subscription hitherto paid.

This is the list of requisitions referred to
in paragraph 373 of the Electricity Committee's
report of the 10th June, 1931.

ELECTRICITY (*continued*).

382 Extensions of Plant.—

- (1) Mains.—It was reported that in accordance with instructions mains had been laid since last meeting in Brim Hill (from Greenhalgh Walk), Winnington Road and Lyttelton Road;

RECOMMENDED that authority be given for mains to be extended in Lyttelton Road at an estimated cost of £170 and for mains to be laid in Cornwood Close (Hampstead Garden Suburb) at an estimated cost of £270 and in Brim Hill, from Howards Walk (easterly) at an estimated cost of £146, subject to the usual guarantee.

(2) Sub-Station and Feeder Extensions, 1931.—

- (a) The Chief Electrical Engineer reported that the Frederick's place building had now been completed; that feeders and other apparatus were in process of manufacture and that the equipment would be removed from Holly Park at an early date.
- (b) Windsor Road and East Finchley sub-station sites.—The Chairman of the Committee reported upon the recommendations which the Town Planning and Open Spaces Committee and the Education Committee respectively were making to the Council in regard to this matter.

383 Electricity (Supply) Acts, 1882-1928.—A letter, dated 22nd May, 1931, was submitted from the Electricity Commissioners transmitting a copy of the revised Overhead Line Regulations for securing the safety of the public made by them under the above-mentioned Acts.

It was reported that the matter had been referred to the Chief Electrical Engineer to deal with.

384 London and Home Counties Joint Electricity Authority—**Casual Vacancy**.—A letter, dated 22nd May, 1931, was submitted from the Clerk and Solicitor to the Authority, stating that a majority of the votes having been recorded in favour of the nominee of the Croydon Corporation, he had declared Councillor J. Marshall to have been duly elected a member of the Authority.

ELECTRICITY (*continued*).

385 Electricity Commission.—Print of a Statement by the Minister of Transport at Conferences with Electricity Undertakers, 1931, was submitted and it was reported that a copy thereof had been forwarded to each Member of the Committee.

386 Electrical Engineer's 27th Annual Report—Revenue Accounts and Balance Sheet—Year ended 31st March, 1931.—The above were submitted and instructions were given for same to be printed and circulated to the Members of the Council;

RECOMMENDED—

- (a) that the action taken be approved;
- (b) that the Report be approved and that the Accounts and Balance Sheet be received and adopted;
- (c) that of the balance in hand on Revenue Account—
 - (1) the sum of £10,862 10s. 0d. be transferred to the reserve fund; and
 - (2) the sum of £1,000 be transferred to a special contingency fund to be formed for the purpose of meeting any extraordinary expenditure necessary on repairs and maintenance;
- (d) that as and from the commencement of the September quarter, 1931, the charges for the supply of electrical energy for private lighting and for power, heating and cooking purposes be at the under-mentioned rates :—
 - (1) Private Lighting.—A flat rate of 3d. per unit for all units consumed or the maximum demand rate of 6d. per unit for the first hundred hours' use per quarter of the maximum demand and 1½d. per unit for all subsequent units consumed during that quarter.
 - (2) Power, Heating and Cooking Purposes.—
 - (a) Summer Rate.—For the two summer quarters in each year, from the ordinary readings of the meters for the March quarter to and including the ordinary

To the Chairman and Members of the Electricity Committee.

Gentlemen, Twenty-seventh Annual Report.

1. I have pleasure in presenting you with my Annual Report for the twenty-seventh complete year of your electrical undertaking ending the 31st March 1931.

2. Capital A/c. Extensions.

(a). Loans.

(1). Application was made to the Electricity Commissioners and their sanction was obtained to a loan of £18,000 for mains extensions and consumers' services.

(2). Application was also made to the Electricity Commissioners for sanction to a loan of £29,075 for new sub-station buildings and electrical plant at Frederick's Place, East Finchley and Windsor Road, including the looping and diversion of high tension feeders, together with low tension feeders &c.

(3). The Electricity Commissioners sanctioned the borrowing of £5,741 for the extension of the Summers Lane Sub-station, together with the necessary extension plant and feeder.

(4). No decision was arrived at regarding the Council's application in 1926 for an extension turbine. The protracted negotiations and discussions between the principal officers of the Central Electricity Board, the Joint Electricity Authority and myself were continued and in July a satisfactory arrangement was concluded with the Joint Electricity Authority which came into practical operation on the 1st January. I issued a full report upon the matter at the time and indicated that although Finchley will not benefit by the price spread over seven years, it will, at any rate, be practically no worse off. The general effect of the arrangement will be that for the first three years there will be a benefit and for the last three years there will be a loss.

(b). Feeders, Mains & Consumers' Services. During the year about 4,435 yards of new distributing mains and about 17,099 yards of service cable were laid by direct labour, in addition about 1,083 yards of low tension feeders and pilot cables were laid by contract. 643 services were laid or laid and connected and 14 connected only.

(c). Sub-stations. The extension to the building and equipment of the Summers Lane sub-station was completed and put into operation on the 3rd October.

(d). Generating Station. Certain minor improvements of an unimportant nature were carried out at the Generating Station.

3. Public Lighting.

(a). Of the 116 cases where public lamps were damaged, 34 have been charged to persons responsible. Two cases of wilful interference with public lighting have been reported to the police and in 90 cases the damage was either small or the cause unknown.

(b). As a result of the experiments which had been conducted for some time with a view to the general improvement of the main road lighting in the district, I issued a report to and received instructions from the Highways Committee to carry out street lighting improvements on a considerable scale along the Great North Road, Ballards Lane, Regents Park Road and Hendon Lane. These improvements were completed before the winter and have brought the lighting of these roads from a comparatively low standard to a reasonably high standard.

There are now 1,788 columns lighted by electricity and

4. Repairs & Maintenance.

(a). Plant. Turbines Nos. 2 & 3 were partially dismantled, the blading systems removed, cleaned and certain minor repairs executed. The two 30,000 Lb. boilers were thoroughly cleaned and overhauled and an additional steam scrubber fitted to further obviate the serious scum trouble reported two years ago. No. 6 boiler was also thoroughly cleaned and overhauled. Various other repairs were carried out to the auxiliary plant. One of the large circulating water pipes fractured on the 7th March and was temporarily repaired; more efficient repairs will be executed at a convenient time. The two original feed pumps have now been in use for 28 years and a new feed pump will be necessary at an early date.

(b). Mains. Your distributing system has been properly maintained and is in good condition but as I have stated on several occasions, the frequent excavations made by statutory bodies and others (inseparable from a rapidly developing district such as Finchley) are liable to cause serious damage to the mains, particularly those which have been in the ground for many years. Mechanical damage is rarely detected at the time but is liable to cause serious dislocation to the supply when the main ultimately breaks down. There have been a number of cases of mechanical damage during the year, 14 to the mains and feeders and 13 to cables and apparatus on consumers' premises. On the 13th April the feeder pillar at the junction of Granville Road and the Great North Road was completely smashed by some unknown vehicle at about 12.0'clock noon. All damage detected during the year have been properly reinstated and the cost of repairs charged against the responsible parties, where these were known.

(c). Motors. About 272 meters have been scrapped as obsolete during the present year as compared with 282 during the previous year.

It may be interesting to note that about 14,500 meters are at present in use.

(d). Sub-stations. Several minor improvements have been effected in the various sub-stations and all the necessary repairs have been carried out to maintain the sub-stations in first class condition. The subsidence of the ground at the Holly Park site, which I reported upon last year, has become considerably worse, and the building is distorted in consequence; this building will require thoroughly overhauling at the earliest opportunity during the summer.

5. Interruptions of supply. I regret to report that the supply was totally interrupted (excepting in the Whetstone area) on November 5th and December 15th owing to mechanical damage to important trunk mains and feeders. The supply was also seriously disorganized in certain parts of the district on several occasions, also due to mechanical damage to the mains; fortunately on these latter occasions, the isolating apparatus functioned satisfactorily and the areas affected were automatically localized within reasonable limits. On the occasion of the two main interruptions, the faults were of such magnitude as to exceed the capacity of the already heavily loaded generating plant and, therefore, the protective gear on the generating plant automatically shut the plant down. It cannot be too strongly emphasised that persons excavating in the roadway, particularly with modern mechanical appliances, should exercise every possible care.

6. Charges for Electricity. From the commencement of the September quarter the flat rate for ordinary lighting was reduced from 4d. to $3\frac{3}{4}$ d. per unit with a corresponding reduction on the maximum demand rate.

The charges for power and heating supplies were amended and reduced to a flat rate of $\frac{3}{4}$ d. per unit during the two summer quarters and during the winter quarters the lower priced units were reduced from 1d. to $\frac{3}{4}$ d. per unit. These reductions resulted in a saving to the consumers of about £6,300 during the year.

7. Progress.

(a). During the year 1,756 new consumers were connected, of those 788 were in new premises and 968 changes of tenancy, deducting 1,018 disconnections there is a nett increase of 738 new consumers, this compares with 705 last year.

(b). I append figures indicating the general progress of your undertaking.

operation on the 1st January, I am presenting these accounts in the same form as they have hitherto been presented and it will be observed in Account No. 1 that there is a credit item due from the Joint Authority of £1,357. 1. 3., this sum represents the only difference between your having worked in complete independence and your having worked for three months under an arrangement with the Joint Authority; the nett profit, therefore, (subsequently referred to) of £13,560. 12. 6. would have been £12,203. 11. 3. under independent operation.

10. COMMENTARY.

(a). Prices of general materials have eased to an unimportant extent.

(b). The average price paid for coal, including cartage and handling was 25/9d. per ton as compared with 25/1d. per ton last year, a difference of 8d. per ton, equivalent to an increase of £378.

Fuel Oil has averaged 95/2d. per ton as compared with 96/- per ton last year, a decrease of 10d. per ton, equivalent to a reduction of about £4.

The nett increase in the cost of fuel has increased the cost of production by about £374.

(c). It was not possible to maintain quite the high efficiency of the previous year's working, owing to the overloaded condition of the plant, a good efficiency was nevertheless obtained, resulting in a reduction of the works costs from .679d. per unit sold to .645d. per unit sold, representing a saving of £1,168.

(d). The total costs per unit sold are 1.296d. as compared with 1.455d. representing a saving of about £5,460. It will be remembered that two years ago the total amount paid in local rates under the old assessment was £1,233 whereas under the new assessment £5,888 has actually been paid this year.

(e). The total units sold has increased by 995,409 or approximately 13.8 per cent (416,329 for lighting, 483,223 for power and heating and 93,857 for public lighting).

(f). The total increased revenue for the sale of electricity for all purposes amounts to £3,608.

(g). After crediting the amount received for the hire of meters, works executed and other sundry revenue and writing off the sum of £106. 2. 6., there remains a gross trading profit of £39,129. 6. 4 Interest on loans (£10,556. 10. 11.) and on consumers' deposits (£68. 8. 0.) have required the sum of £10,624. 18. 11., leaving a balance of £28,504. 7. 5.

(h). Capital has been repaid to the amount of £12,907. 3. 7. leaving a sum of £15,597. 3. 10., to which must be added interest on current account (£368. 6. 8.), increasing this balance to £15,965. 10. 6.

After providing £2,404. 18. 0. for income tax "Schedule D" there remains a nett credit balance on the year's trading of £13,560. 12. 6.

(i). The credit balance brought forward from last year's accounts is £20,394. 16. 0., to which must be added the nett profit above mentioned of £13,560. 12. 6., the carry forward is, therefore, increased to £33,955. 8. 6.

(j). The reserve fund amounted to £10,708. 17. 6. During the year a sum of £571. 7. 6. was paid, as a final amount for the replacement turbine, leaving a balance in hand on this account at the end of the financial year of £10,137. 10. 0.

(k). I draw attention to the fact that although my staff have made out nearly 50,000 consumers accounts during the year, no arithmetical errors were made and adjustments to the amount of only £1. 8. 9. have been necessary and I compliment them accordingly. I also desire to compliment the collectors upon the small amount of the bad debts.

undertaking now with those of ten years ago and twenty years ago when general conditions were very different:-

	<u>1910/11.</u>	<u>1920/21.</u>	<u>1930/31.</u>
Maximum Load	859 KW.	1,420 KW.	4,709 KW.
Units Sold.....	1,039,389.	2,190,533.	8,245,431.
Works Costs.....	1.184d.	2.53d.	.645d.
Total Costs.....	1.579d.	3.46d.	1.296d.
Amount paid to Local Rates.....	£112.	£816.	£5,888.
Flat rate charge for lighting.....	4 $\frac{3}{4}$ d.	8d.	3 $\frac{3}{4}$ d.

(b). At the time I issued by last annual report it was not anticipated that it would be necessary for the undertaking to be responsible for generating the whole of the winter load; in fact I stated that without extensions it would be unsafe to do so. Unfortunately, owing to certain technical difficulties which unexpectedly arose in connection with the Central Board's main supply cables, no outside supply was available during the whole period but the linking-up arrangement with Hornsey for reciprocal supply was continued until the 24th March and was, to a limited extent, available in case of emergency. On that date the agreement was cancelled but the cables remain in being in case of extreme need. It will be appreciated that it would have been impossible to have carried the load without the replacement turbine and that the supply was maintained with considerable anxiety to the operating staff.

(c). The results of the past year's working may be considered satisfactory and indicate the possibilities by local generation.

(d). The maximum load of 4,709 kilowatts is about 500 kilowatts higher than the previous year but is rather lower than I estimated it would be.

(e). 11,336 tons of coal were consumed during the year and 91 tons of fuel oil.

(f). The greatest daily output was 56,000 units, and the most efficient day's run was at the rate of 2.13 Lbs. of coal per unit generated.

(g). The average price obtained for electricity supplied for all purposes during the year was 2.26d. per unit.

(h). The Middlesex County Council Bill which incorporated a number of useful electricity clauses was opposed before the House of Lords Committee by the Gas Light & Coke Co. with the result that the whole of the electricity portion was struck out of the Bill.

(i). I attended many conferences in connection with bulk supplies, purchase rights, further parliamentary powers and other matters.

(j). The problem of the permanent housing of the Central Board's high tension switchgear and other apparatus has been under discussion; various proposals have been considered but no final decision arrived at.

(k). I am of opinion that two light motor vans of the Trojan or similar type would prove not only serviceable to the department but very remunerative by the saving of labour.

(l). I am of opinion that it is desirable to consider the creation of a special equalisation fund for repairs and maintenance, available to meet extraordinary necessary expenditure upon these items. A sum of say £1,000 might be set aside immediately with an ultimate maximum in view of say £5,000.

(m). I take this opportunity of thanking the whole of my staff for their able and willing assistance and add my appreciation of their services, frequently rendered under trying circumstances; I also thank the chairman of the committee for his interest and assistance, as well as theirs, in maintaining an efficient public service.

I am, Gentlemen,
Yours faithfully,
Edward Calvert,
Chief Electrical Engineer.

MATERNITY & CHILD WELFARE SUB-COMMITTEE - 2ND. JUNE, 1931.

3, The Hawthorns,
Regents Pk.Rd., N.3.

29th. June, 1931.

To the Chairman and Members of
the Maternity & Child Welfare Sub-Committee.

In accordance with your instructions I beg to submit the following report on the matters raised by the Minister of Health in his letter of the 13th February, 1931, a copy of which is attached:-

1. ANTENATAL CLINIC.

At the present time the antenatal clinic is held once a fortnight at Bourchier House, Oak Lane, N.2. The average attendance for 1930 was 16. It is generally recognised that if adequate attention is to be given to each case not more than 12 can be dealt with at one session. If, for any reason, a woman is prevented from attending on any particular occasion it means that she goes a whole month without supervision, which is very undesirable. I believe that if the clinic were held once a week - in the morning and afternoon alternately - more cases would attend and supervision of them would be more efficient.

I therefore suggest that the antenatal clinic be held once a week instead of once a fortnight.

2. ACCOMMODATION FOR MATERNITY CASES.

At present no hospital provision is made by the Council for maternity cases.

Since your last meeting I have had an interview with the County Medical Officer and he informs me that it is now unlikely that a hospital will be built in this area by the County Council. At one time it was thought that such a hospital would be necessary to replace the accommodation at present provided for Middlesex patients by the Hertford County Council at the Wellhouse Hospital, but it is now felt that by improving the facilities for transporting patients the existing institutions will be adequate. The County Council are considering the extension of the Maternity Section of the Redhill Hospital, Edgeware, to 100 beds and the County Medical Officer thinks it would be possible to arrange for, say, 10 beds to be reserved for Finchley cases. At present, women who have made arrangements to be confined in a hospital outside the district have to attend that hospital at regular intervals for antenatal examination over a period of 4 or 5 months, and on almost every occasion a long wait at the hospital is entailed. I understand that if an arrangement were effected with the Redhill Hospital women would be asked to attend the hospital only twice for examination, once on booking and once about two weeks before the time of admission, provided that, in the meantime, they attended the local antenatal clinic. This, in my opinion, is an ideal arrangement. 220 Finchley women were confined in institutions outside the district during 1930 - a large increase on the number for 1929.

Should your Committee consider approaching the County Council in this matter, it will be necessary to do so at an early date.

North Finchley Centre. (Congregational Hall, Avenue Rd. N.12)	3984.
Church End Centre. (Wesleyan Schoolroom, Newcomen Rd. N.3)	3907.

It is suggested by the Minister of Health that a second weekly medical session should be held at Bourchier House, but, as the attendances at the three centres do not differ materially, it would appear that some extension in this direction is required at each of them.

I therefore suggest that an additional medical session be held once a fortnight at each centre.

A summary of information obtained from other districts of a similar character to Finchley is attached to this report and I think it shows that the suggestions which have been made are not extravagant.

A whole-time officer could be usefully employed in public health and school medical work and certain fees paid by the Education Committee for dental anaesthetics could be saved.

I suggest that a whole-time Assistant Medical Officer be appointed and that the extensions of the Maternity & Child Welfare work outlined above take effect as from the 1st January, 1932.

13th. February, 1931.

Sir,

I am directed by the Minister of Health to state that he has had under consideration the report made by Dr. Creaser, one of the Medical Officers of this Department, after her recent visit to Finchley in connection with the Council's Maternity and Child Welfare work. It is noted that the work has been extended in various respects in recent years. The Minister is advised, however, that further development of the ante-natal work is desirable and that the Council should consider, in consultation with the Middlesex County Council, the question of provision of in-patient accommodation for maternity cases in the district. It is suggested that these points should be considered by the Council in connection with the suggestions contained in Circular 1167 of the 11th December last. It is further suggested that a second weekly medical session at Bourchier House Infant Welfare Centre would be desirable and that the educational work at the Centres should be developed and the sales restricted.

I am, Sir,
Your obedient Servant,

HIGHWAYS AND FIRE BRIGADE COMMITTEE'S REPORT.

3rd June, 1931.

PART II.

Present: Councillor Bennett (Chairman), Councillor G.S. Syrett (Vice-Chairman), and Councillors Briant, Grecoett and Pulham, and Councillors Fugsley and Wilmot (non-Members).

1.- DRAINAGE OF LAND - REAR OF DERWENT VILLAS.-

The Surveyor reported upon a communication dated 3rd May, 1931, which he had received from Mr. W. S. Cook relative to the laying of new sewers, and he intimated that the cost of a new surface water sewer was £149;

RECOMMENDED

- (a) that Mr. Cook be informed that the Council will be prepared to construct the sewer in question on the understanding that he will enter into an Agreement in a form to be approved by the Solicitor providing for the repayment of the full cost thereof (including compensation) and for making the same a charge on the land and any properties to be erected thereon;
- (b) that on completion of such Agreement the Acting Clerk be authorised to serve the necessary statutory notices.

2.- SURFACE WATER SEWER BY BOW LANE ALLOTMENTS AND GREAT NORTH ROAD.-

The Surveyor reported as follows :-

" In carrying out this work the Contractors encountered Post Office ducts in the line of the sewer and the work had to be stopped while negotiations were entered into with the Post Office authorities with a view to altering the level of the ducts. The Post Office authorities, however, estimated the cost of altering their ducts at £200, towards which they were not prepared to make a contribution.

I then decided upon an alteration in the line and level of the sewer and the work was completed at a slightly increased cost.

RECOMMENDED

- (a) that the action taken by the Surveyor be approved;
- (b) that authority be given for payment of the sum of £6. 13. 6. referred to.

3.- FIRE BRIGADE - STAFF.-

(1) Arising out of a report by the Chief Officer of the Brigade, it was

(2) Arising out of a report by the Chief Officer of the Brigade, Firemen Blake, Evans and Livermore were interviewed by the Committee, and the Chairman of the Committee will report in regard thereto at the meeting of the Council;

RECOMMENDED

- (a) that the operation of the increment of 1/6d. a week in the wages of Fireman Livermore, due as from the 9th June, 1931, be suspended for a period of four weeks;
- (b) that the Acting Clerk be directed to communicate with Fireman Blake, informing him that in the event of any further complaint being brought to the notice of the Committee there will be no alternative but for the Council to dispense with his services.

It was reported that on the 22nd May, 1931, the Chairman of the Committee had attended a Meeting of the Committee of the Conference of the proposed (No.4) Distribution Area, when he explained that Finchley was not concerned in the subject of the Memorandum before the Meeting and thereupon withdrew; that in the circumstances, the Acting Clerk had addressed a communication to the Clerk and Solicitor to the Joint Authority on the 27th May, 1931, intimating that it would appear that no useful purpose would be served by Finchley co-operating with the Authority on the present proposals as regards the (No. 4) Distribution Area and therefore the Council withdrew their representation on the Conference;

3.- COAL.-

The Chief Electrical Engineer reported that he had made certain arrangements in regard to forward supplies of coal, and that subject to confirmation, he had secured 3,000 tons of Eastwood Washed Slack for delivery up to the end of June, 1932, at 23s.4d. per ton;

"I beg to inform you that my Highways Committee at their last meeting had under consideration your letter of the 20th ultimo, relative to the acceptance of a tender by your Council for woodpaving works along Regents Park Road between Hendon Lane and Long Lane.

PUBLIC HEALTH COMMITTEE'S REPORT.

7th July, 1931.

Present: Councillor Briant (Chairman), Councillor Ryan (Vice-Chairman), Councillors Pike, Pugsley, Pulham and H. O. Syrett, and Councillors Bennett, Pateman, Wells and Wilmot (non-members).

483 Minutes.—The Minutes of the last Meeting of the Committee were taken as read, confirmed and signed.

484 Requisitions.—

RECOMMENDED that the lists of requisitions (circulated), (*Annexed.*) be approved.

485 Medical Officer's Report.—The report (circulated) of the Medical Officer of Health for the five weeks ended 27th June, 1931, was submitted and approved. (*Annexed*)

486 Sanitary Inspector's Report.—This Officer's report was (*Annexed*) submitted. Arising therefrom :—

- (a) Housing Act, 1930—Nos. 1 and 2, Somerset Cottages, Willow Walk, N. 2.—It was reported that the Council at their last meeting had referred to the Committee for consideration a letter, dated 16th June, 1931, from Mr. J. Morrison, enclosing specification of proposed alterations to No. 1, Somerset Cottages, Willow Walk, and making certain comments with regard to No. 2, Somerset Cottages.

The Inspector reported as follows :—

" Your Committee will recollect that Mr. Morrison, the Agent of the leaseholder of the above dwelling-houses promised that an undertaking should be given to convert the above cottages into one dwelling and to submit a specification of the works proposed to be carried out.

A specification of work with respect to No. 1, Somerset Cottages was received on the 17th June, 1931. The work specified is not sufficient to render the house fit for habitation.

PUBLIC HEALTH (*continued*)

No undertaking has been submitted in regard to No. 2, Somerset Cottages.

As the proposal received was not satisfactory, and did not comply with the undertaking given by Mr. Morrison, your Medical Officer of Health and I met the leaseholder, Mr. Spinks, on the site, by appointment, on the 26th June, 1931. The matter was fully discussed, and Mr. Spinks agreed to consider the question of the erection of a new cottage in place of the existing dwellings."

RECOMMENDED that the consideration of the matter be deferred until the next meeting of the Committee and that, in the meantime, the Acting Clerk be directed to communicate with Mr. Morrison and also with Mr. Spinks, drawing attention to the fact that the question has now been in abeyance for some considerable time and that any further proposals they may have to make with respect to the said dwelling-houses must be submitted not later than the 15th August, 1931.

(b) House to House Inspection—Workmen's Dwellings—1 to 39 and 2 to 44, Queen's Road, and 97 to 131, Squires Lane (60 houses).—The Inspector reported as follows:—

"I have to report that the above-named dwelling-houses have been inspected.

As directed by your Committee, the same procedure has been followed in respect of these dwellings as that adopted in regard to privately owned property in the district which is dealt with from time to time under the Housing Regulations made by the Minister of Health.

No case of overcrowding or of sub-letting was recorded.

In only one instance was it necessary to complain of the failure of a tenant to maintain the house and yard in a cleanly state. Appropriate action was taken and the condition of the premises is now much improved.

FIRTH LANE URBAN DISTRICT COUNCIL.

PUBLIC HEALTH COMMITTEE - 7TH JULY, 1931.

SANITARY INSPECTOR'S REPORT.

3, The Hawthorns,
Regents Park Road,
N.3.

3rd. July, 1931.

To the Chairman and Members of the
Public Health Committee.

(1) HOUSING ACT, 1930.

1 & 2, Somerset Cottages, Willow Walk, N.2.

Your Committee will recollect that Mr. Morrison,
the Agent of the leaseholder of the above dwelling-houses
promised that an undertaking should be given to convert
the above cottages into one dwelling and to submit a
specification of the works proposed to be carried out.

A specification of work with respect to No.1, Somerset
Cottages was received on the 17th June, 1931. The work
specified is not sufficient to render the house fit for
habitation.

No undertaking has been submitted in regard to
No.2, Somerset Cottages.

As the proposal received was not satisfactory and did
not comply with the undertaking given by Mr. Morrison,
your Medical Officer of Health and I met the leaseholder,
Mr. Spinks on the site by appointment on the 26th June, 1931.
The matter was fully discussed and Mr. Spinks agreed to
consider the question of the erection of a new cottage in
place of the existing dwellings.

(2) HOUSE TO HOUSE INSPECTION.

Workmen's Dwellings - 1 to 39 and 2 to 44, Queen's Road
& 97 to 131, Squires Lane (60 houses).

I have to report that the above-named dwelling-houses
have been inspected.

As directed by your Committee, the same procedure has
been followed in respect of these dwellings as that adopted
in regard to privately owned property in the district
which is dealt with from time to time under the Housing
Regulations made by the Minister of Health.

No case of overcrowding or of sub-letting was recorded.

In only one instance was it necessary to complain of
the failure of a tenant to maintain the house and yard in
a cleanly state. Appropriate action was taken and the
condition of the premises is now much improved.

(3) DEPOSITING OF REFUSE ON LAND.

(a) Plot of land between Nos. 24 & 32, Windermere Avenue.

A complaint has been received from Mr. Leslie Sturt, a resident in the above road, who states that he writes on behalf of a number of people in the road with respect to an alleged nuisance arising from the depositing of refuse on the above-mentioned plot of land.

A portion of this plot was fenced in some time ago but an opening was left for a roadway to give access to the land at rear. The depositing of refuse is taking place on the unfenced portion of this land and the refuse is alleged to be infested with rats.

I am in communication with Messrs. Rawlins Culver & Co. and I understand that the remainder of the frontage will be fenced in at an early date.

I have also written to the Rats Officer with respect to the refuse being infested with rats.

(b) Land, north side of Ravensdale Avenue, N.12. (Rear of Gas Company's office)

Complaints have been received with respect to the depositing of refuse upon this land and I shall report orally upon the matter at the meeting of your Committee.

- (b) that it be pointed out to the County Council that the hospital accommodation which has been provided in this district has proved adequate during the past few years and that since such accommodation was extended, cases from the districts of Finchley, Hornsey and Wood Green have continuously been in the Hospital and, in the opinion of the Council from the experience thus gained, the provision of one bed per 1,000 of the population in a district such as Finchley is unnecessary;
- (c) that a copy of the report and resolutions be forwarded to the Finchley representatives on the Middlesex County Council.

489 Land—Windsor Road.—A letter, dated 5th June, 1931, was submitted from Mr. A. H. Everett, making application for a fresh tenancy of this land;

RECOMMENDED that Mr. Everett be allowed to remain in occupation of the land as a tenant at will for the time being.

490 Managers of Sewage Disposal Works—Conference—Birmingham, July, 1931.—A letter, dated 25th June, 1931, was submitted from the Ministry of Health, stating that the payment by the Council of the reasonable expenses of the Sewage Works Manager in attending the above-mentioned Conference would be covered by a general sanction which the Minister had given in a letter addressed to the Secretary of the Association.

491 Sewage Works Extension.—A letter, dated 24th June, 1931, was submitted from the Ministry of Health, stating that the Minister saw no objection to the substitution of one electrically driven pump for one of the proposed ejectors at each of the two ejector stations, and to the cost being met out of the loans already sanctioned in respect of the Scheme. It was added that the Minister would be glad to have a statement of the actual cost of the Scheme when the work had been completed.

On the motion of Alderman R. R. Kimmett (Ealing), duly seconded by another Delegate, and supported by Councillor Bond (Willesden), Councillor G. H. Hiscocks, J.P. (Chairman of the Willesden Urban District Council), was elected Chairman of the Conference.

Councillor Hiscocks thanked the Delegates for electing him Chairman, and welcomed them on behalf of the Willesden Council. He referred to the Agenda, and said that the matters before the Conference were :—

- (1) The report of the Public Health and Public Assistance Committee to the Middlesex County Council, provisionally adopted by the County Council and circulated to local authorities; and,
- (2) The draft of a suggested reply.

He then proceeded :—

"I am sure that all the district representatives here present desire that sufficient hospital accommodation for infectious diseases shall be provided in the County, and do not want to do anything to hinder the County Council in the discharge of their duties. At the same time it must be remembered that hitherto local sanitary authorities have been dealing with the provision of hospital accommodation for infectious diseases, and no doubt can render considerable help to the County.

"The Report of the County Council is put forward as the basis of a scheme to be made for the provision of adequate hospital accommodation for the treatment of infectious diseases within the County, but it falls short of certain important matters which the Ministry of Health advises should be included in a draft scheme for discussion by local authorities. For example, it does not state

- (1) The use, if any, which it is proposed to make of accommodation considered "redundant."
- (2) The number of new beds which it is contemplated to provide. This is somewhat vaguely stated in the Report of the County Council, and a definite figure would be helpful.
- (3) Where and by what authorities the new accommodation shall be provided.
- (4) The nature of the arrangements to be made so that existing hospital accommodation may be available for the use of persons resident outside the area for which the hospital accommodation was originally provided.

(5) The terms upon which the arrangements under (4) should be made.

(6) Particulars of any new combinations or changes in the constitution of existing combinations which may be proposed.

"These considerations are all important to us as local sanitary authorities, and they are specifically mentioned by the Ministry of Health in Memorandum L.G.A. 40, as matters which should be included in the draft scheme.

"In the suggested draft reply, which is before the meeting, there are laid down certain general principles in connection with the provision of hospital accommodation for infectious diseases. Personally I consider that these general principles are sound, and I think this Conference should ask the Middlesex County Council to bear them in mind in the formation of a further draft scheme, which should include as far as possible all the points mentioned in the Memorandum of the Ministry of Health on the subject of the provision of hospital accommodation for infectious diseases. If this is done the local sanitary authorities will then have something more tangible for discussion than the present report.

HOSPITAL ACCOMMODATION FOR INFECTIOUS DISEASE.

Report of the Public Health and Public Assistance Committee to the County Council, on the 30th April, 1931.

We have given careful consideration to the above Report.

The Report is not quite clear, but it would appear that it proposes ultimately to make provision for the hospital isolation and treatment of cases of:—

Group 1.—During the three years 1927-29, the number of cases notified in Middlesex of the infectious diseases in Group 1 was 7512 on the average per annum.

It is generally accepted that one bed per 1000 of the population is a reasonably sufficient number to deal with the cases of infectious diseases in this Group.

Group 2.—During the three years 1927-29 the number of deaths registered in Middlesex on account of the diseases in Group 2 was 1864 on the average per annum.

If it is intended to save life and prevent the spread of infection so far as the diseases in Group 2, are concerned, it is not unreasonable to assume that a number of cases equal to 4 or 5 times the number of deaths, *i.e.*, between 7000 and 9000 cases, say 8000 cases, would require to be isolated and treated in Hospital per annum. This would mean the provision of beds for Group 2, cases on the same basis as for Group 1, or one bed per 1000 of the population.

It will, therefore, be seen that the proposals of the County Council are far reaching. The pre-war cost of erection of a Hospital Bed was generally reckoned as round about £500. If it is assumed that the present day cost is £750, it will be observed that the proposals of the County Council will involve an ultimate expenditure of approximately £1,702,500. It will be noted that this figure excludes any provision for chicken pox, which is included in the scheme of the County Council.

Having regard to the enormous ultimate cost suggested, it is desirable to consider whether any relief in the number of beds suggested may be obtained on account of the periodicity of the diseases for which provision is to be made. In considering this matter, Enteric Fever, Erysipelas, Puerperal Fever, Ophthalmia Neonatorum, Encephalitis Lethargica, Acute

Poliomyelitis, Acute Poliomyelitis, have been excluded as causes of the total number of cases.

The matter of accommodation however complicated cases of Pneumonia, is one for such authorities might be called upon for the isolation of cases. Cough, others cases and the experience of doubt lead others to depending on the example involving enormous and to be quite sure permanent building.

Poliomyelitis, Acute Polioencephalitis and Cerebro-spinal Fever have been excluded as they form a relatively small proportion of the total number of cases under consideration.

On examination it is found that generally the maximum prevalence of the principal diseases to be isolated occurs in the winter months, and so no reduction in the number of beds proposed by the County Council can be anticipated on account of the periodicity of the diseases to be isolated.

Generally it is accepted that Hospital accommodation should be available for every area for cases of the diseases in Group 1, namely, Scarlet Fever, Diphtheria, Enteric Fever, Erysipelas, Puerperal Fever, Ophthalmia Neonatorum, Encephalitis Lethargica, Acute Poliomyelitis, Acute Polioencephalitis, and Cerebro-spinal Fever.

The matter of providing additional isolation hospital accommodation however for the diseases in Group 2, *i.e.*, complicated cases of Measles, Whooping Cough, Influenza and Pneumonia, is one for decision by the local sanitary authorities concerned. We are of opinion that it is likely that some such authorities might consider it advisable to make provision for the isolation of cases of Measles, others cases of Whooping Cough, others cases of Influenza, others cases of Pneumonia, and the experience of these individual authorities would no doubt lead others to do likewise, or discard the procedure depending on the experience gained. In matters such as these, involving enormous expenditure, it is important to walk warily and to be quite sure of the resulting benefits before large and permanent buildings are provided.

Having regard, then, to the foregoing considerations we suggest that it is necessary to deal with the question of isolation hospital accommodation on general principles and recommend the adoption of the following :—

- (1) That, in the first place, attention should be directed to the provision of adequate hospital accommodation for Group 1 diseases, namely Scarlet Fever, Diphtheria, Enteric Fever, Erysipelas, Puerperal Fever, Ophthalmia Neonatorum, Encephalitis Lethargica, Acute Poliomyelitis, Acute Polioencephalitis, and Cerebro-spinal Fever.
- (2) That, inasmuch as a number of local authorities already treat in their isolation hospitals complicated cases of Measles, Whooping Cough, and Influenza and cases of Pneumonia, consideration of the provision of any additional hospital accommodation for such diseases be postponed, pending the settlement of hospital accommodation for the Group 1 diseases above.
- (3) That, at the present time, no hospital be definitely considered "redundant" unless and until it is proved so to be, especially in view of the enormous ultimate cost of new and alternative hospital accommodation contemplated in the Report of the County Council.
- (4) That, in arranging hospital areas, due consideration be given to the probable effects of pending amalgamations and re-arrangement of districts.

- (5) That, where practicable and in order to avoid conflict of authority and to overcome the difficulties of finance and management referred to in the Report of the County Council, hospital areas should coincide with sanitary areas, as rearranged under Section 46 of the Local Government Act, 1929, or, where this is inadvisable, with agreed combinations of sanitary areas.
- (6) That, where existing sanitary areas have no or little isolation hospital accommodation, it is generally desirable that the necessary isolation hospital provision for such areas should be made in association with existing isolation hospitals and rarely by the establishment of a new hospital.
- (7) That all isolation hospital authorities within the County should agree to take cases from other hospital authorities under conditions to be agreed upon between the authorities.

The Conference further resolved :—

- (a) "That a copy of the foregoing report and resolutions be forwarded to all the County District Councils in Middlesex affected by the report of the Middlesex County Council, with a recommendation that the report and resolutions be adopted by each County District Council and forwarded to the Middlesex County Council as a reply or further reply to their circular letter of May 9th, 1931.

492 Inter-District Drainage—Agreements.—

- (a) It was reported that the Agreement with the Friern Barnet Urban District Council of 1885 as extended by the Agreement of 1924, which expired on the 24th June, 1930, was extended further for a period of twelve months from that date;

RECOMMENDED that, subject to the approval of the Minister of Health, and of the Friern Barnet Council, such Agreement be extended for a further period of twelve months from the 24th June, 1931.

- (b) Draft Agreement with the Hendon Urban District Council as to the drainage of certain properties in the Districts of Hendon and Finchley was submitted;

RECOMMENDED that such draft as slightly revised, be approved.

493 Bye-Laws—Flues for Gas Fires.—A communication, dated 29th May, 1931, was submitted from the Town Clerk of Twickenham, forwarding copy of the following resolution passed by his Corporation :—

“That the attention of the Ministry of Health be directed to the urgent necessity for authorising local authorities to make bye-laws requiring that, in every room, other than a scullery or other apartment not used for living or sleeping purposes, where a gas stove is fixed, adequate means of ventilation shall be provided to carry away any fumes emitted by such stove.”

He asked that if the Council approved of the foregoing they would communicate on similar lines with the Ministry of Health. He also pointed out that although a number of districts had already made bye-laws upon the recommendation of the Ministry, such bye-laws related only to new buildings, and to geysers, gas fires, etc., and that his Corporation were of opinion that power should also be given to local authorities to make bye-laws dealing with the question of the fixing of gas cookers in every room other than a scullery or other apartment not used for living or sleeping purposes, and that such a byelaw would of course affect existing as well as new buildings;

PUBLIC HEALTH (*continued*).

RECOMMENDED that the Acting Clerk be directed to communicate with the Ministry of Health on the lines indicated in the foregoing resolution.

494 Public Baths—Squires Lane.—

(a) A letter, dated 11th June, 1931, was submitted from the Hon. Secretary of the Finchley Swimming Club, stating that his Committee had instructed him to communicate with the Council expressing the Club's appreciation of the assistance rendered by Mr. Tarbox, the Superintendent, during the past year.

Annexed. (b) Statement was submitted shewing the number of bathers and receipts for the five weeks ended 28th June, 1931.

(c) Pilfering.—The Surveyor reported upon a case of pilfering which had occurred at the baths;

RECOMMENDED that authority be given for Notices to be exhibited to the effect that the Council cannot accept responsibility for any articles that may be left in the dressing boxes or elsewhere on the premises.

495 Damage to Council's Property.—It was reported that the under-mentioned property of the Council had been damaged since last meeting, and that the matter had been dealt with:—

Windows—Broughton Avenue Pumping Station.

496 Sale of Residuals—Disposal of Old Tins.—The Surveyor reported that the Contractors had ceased to collect the old tins from the Refuse Destructor as they had intimated that there was no market therefor. He added, however, that the firm were willing to continue to collect the tins if the Council would pay the cost of cartage;

RECOMMENDED that the Council agree to pay to the Contractors in respect of cartage a sum of 5s. 0d. a ton on a weekly basis, provided the Surveyor is unable to secure more favourable terms.

- (8) Proposed Firemen's Quarters—"Elmacot," Bibsworth Road.—

(a) Repairs and Decorations.—It was reported that a letter, dated 16th June, 1931, had been received from the Ministry of Health, stating that the Minister offered no objection to the cost of any necessary works of alteration, repair or decoration undertaken in order to render the above premises fit for habitation being charged against the loan.

Further, that it must, of course, be understood that this applied to initial works, and that the cost of subsequent decoration should be defrayed from revenue.

It was also reported that the Sub-Committee had made an inspection of the property;

RECOMMENDED that authority be given for works of redecoration and repair, including the provision of a deep sink, and the re-lining of the copper to be carried out at a total cost not exceeding £75.

HIGHWAYS and FIRE BRIGADE (*continued*).

(b) Furniture, etc.—

RECOMMENDED that authority be given for the purchase of the necessary furniture, etc., at a cost not exceeding £50.

- (c) Fittings and Fixtures.—It was reported that the Sub-Committee had considered a letter, dated 8th June, 1931, from Messrs. RECOMMENDED that such offer be accepted.

(d) Wages of Firemen.—

RECOMMENDED—

- (a) that the sum to be deducted from the wages of the two single firemen who will occupy quarters at these premises be reduced from 12/6d. to 10/- a week, and that coal be not provided by the Council;

- (9) New Hydrants.—It was reported that the Chief Officer of the Fire Brigade had intimated that the Barnet District Gas & Water Company were extending their water main in Kenver Avenue, and that to avoid any additional cost in the future, it would be necessary to instal two new hydrants at a cost of approximately £20;

RECOMMENDED that this expenditure be approved.

the Sub-Committee had decided to report to the Town Planning and Open Spaces Committee that there did not appear to be any justification for the construction of the road at the present time;

RECOMMENDED that the action taken be approved.

- (11) Woodside Lane Improvement Works.—It was reported that the Surveyor had intimated that he had been informed by the Ministry of Transport that, unless the Council were in a position to state that this work would not normally be carried out within the next three years, there was little likelihood of a grant being obtained from the Unemployment Grants Committee; further that the Ministry of Transport had intimated to him that a loan would not be sanctioned with respect to a carriage-way surfaced with old macadam. In these circumstances, it was

RECOMMENDED—

- (1) that it be suggested to the Finance Committee :—
 - (a) that the application made to the Unemployment Grants Committee for a grant in aid be withdrawn;

- (12) Hoarding — Ballards Lane.—It was reported that the Surveyor had submitted correspondence which he had had with Messrs. F. G. Cressy hereon;

HIGHWAYS and FIRE BRIGADE (*continued*).

RECOMMENDED that the Surveyor be directed to communicate with Messrs. Cressy informing them that the Council insist on the conditions attached to the licence issued to them being strictly adhered to.

- (13) Private Streets—Bigwood Road.—It was reported that the Surveyor had intimated that the above street would shortly be made up by the Hendon Urban District Council; that a small triangular portion of the street was situate within this District and that he had communicated with the frontager to such portion, suggesting that he should make arrangements with the Contractor for the making up thereof under the supervision of this Council, and thus avoid the service of Statutory notices, and the consequent delay;

RECOMMENDED that the action taken by the Surveyor be approved and that he be directed to report further to the Committee on receipt of the frontager's reply.

- (14) Resurfacing—Hendon Lane.—It was reported that the Surveyor had reported upon a complaint which had been received from Mr. G. H. Taylor arising out of the carrying out of these works.

RECOMMENDED that such request be granted.

- (19) Resurfacing—Church Path—Woodside Park Road to Woodside Lane.—It was reported that arising out of Item 79 of the Requisitions submitted in June last, the above footpath had been inspected by the Sub-Committee.

HIGHWAYS and FIRE BRIGADE (*continued*).

"Whereas the wastage of human life and conserved labour, as represented by property, has become a National question, the Professional Fire Brigades' Association is of the opinion that fire wastage should be countered and combatted from a National and not a parochial standpoint.

"And, whereas many local authorities, limited by their rating resources, are no longer able to maintain their fire brigades in a position adequately and sufficiently to meet and surmount fire hazards.

"This Professional Fire Brigades' Association is convinced that the cost of established Fire Brigades should, at the earliest opportunity, be borne by the taxpayer, and ratepayer, alike, without divorcement from local control and that any Government grant, as in the case of other public services, should be dependent on a Government certificate of efficiency, and sufficiency of the brigade concerned, and that inspecting officers should be drawn from the higher ranks of the established professional fire brigades."

He stated that the above resolution was supported by representatives of local authorities and that he would be glad to know if this Council agreed to all Municipal Fire Brigades being nationalised on the above-mentioned lines.

Accompanying the letter was also copy of a resolution passed at the Governing Council Meeting on the 11th June, 1931;

1. Finchley.
2. Reorganisation of Schools.
E. 295 K/20.

Sir,

With reference to Mr. Cogdale's letter of the 20th ultimo, I am directed to state that the Board have now had an opportunity of considering the Authority's revised proposals for the reorganisation of the Schools in the East Ward, under which it is proposed to establish a single Senior Mixed Department at the Long Lane Council School in lieu of a Senior Boys' Department at that School and a Senior Girls' Department at Great North Road Council School.

The Board are prepared to regard these revised proposals as generally satisfactory, on the understanding that the Managers of the East Finchley Church of England (Holy Trinity) School have agreed to them and further that, in the event of an increase in the number of Senior children in East Finchley in the next two or three years rendering such a course desirable, the Authority will make provision for a second Senior Department at the Great North Road Council School on the lines of the proposals embodied in their Programme and accepted in principle by the Board in the official letter of 18th March last (J. 295 F/10).

I am to add that the Board should be informed in due course of the date on which this re-organisation takes effect.

Further the Board will raise no objection to the arrangements proposed for the payment of the salary of Mr. Cowling, consequent on his transfer to the Finchley East Finchley Long Lane Council School and I am sorry that such payment will rank in full for purposes of grant.

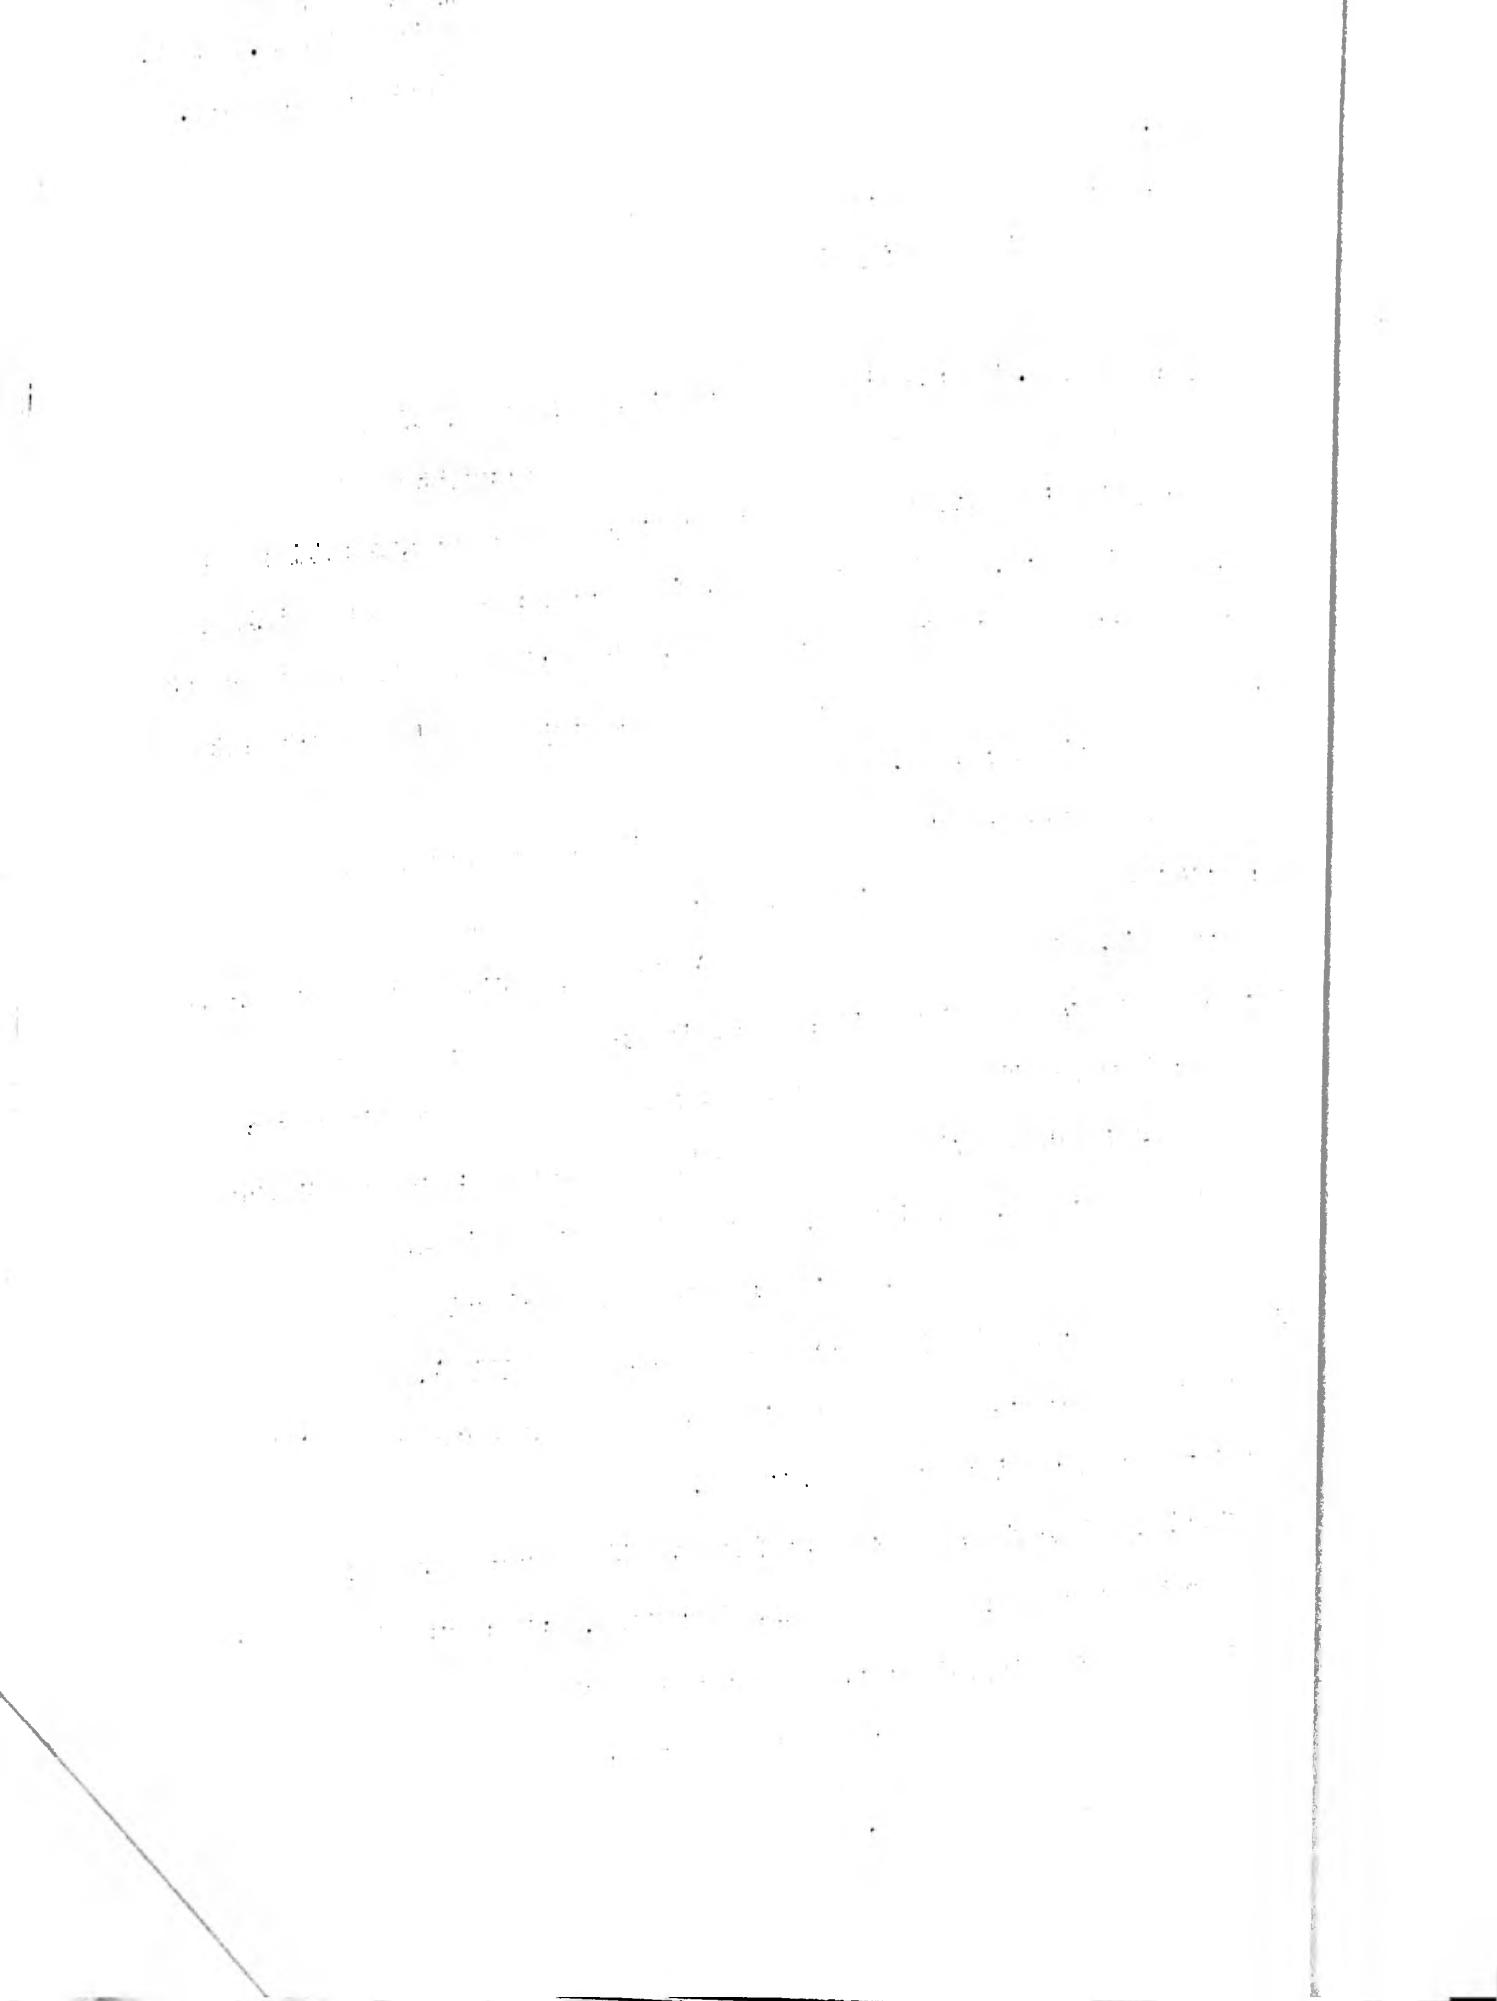

I am, Sir,

Your obedient Servant,

(Signed)

G. G. WILLIAMS.

The Lord Mayor said he understood the delegates had been busy during the interval that had elapsed since the last meeting and he had come there to hear what they had done. The minutes of the last meeting had been printed and circulated. Were they agreed these were a correct record? Delegates signified their approval and the minutes were unanimously confirmed.

County Councillor Ernest A. Cawdron, Chairman of the Trustees, said he had great pleasure in reporting that they had practically fulfilled the object for which they had set out. The last conference had been adjourned in order that the various delegates might go to their respective authorities and ascertain what could be done with regard to providing the funds which the Trustees were asking for to re-build, renovate and modernise the Alexandra Palace and Park. It was quite obvious, by reason of the excellent results attained, that those delegates had fulfilled their promises. The total sum they had received was £101,790. The minimum cost was £192,000, so they had approximately only £9,000 still to come.

Chairman.

(The Government grant is £3 for every £1 spent on unemployed labour.)

There were one or two authorities who had not yet contributed and the Trustees were looking for the support of the City Corporation—(Hear, hear)—and others from whom they expected assistance. He was merely giving them a report, as he had on many occasions given them an outline of the scheme. There may be delegates who wanted to ask questions. If so, he would be glad to answer them.

The Lord Mayor, in calling on Mr. Lansbury, said, jocularly, that the latter was burning with anxiety to tell them what the Government was going to do.

Mr. Lansbury first congratulated the Chairman and the Secretary and everyone who had had any hand in getting together that splendid set of promises. The position of the Government in the matter was exactly the same as it was before. They should now go straight to the Unemployment Grants Committee and put up their case in the manner he had suggested. Personally, he had no doubt they would be received just as decently as he had received them when representing Mr. J. H. Thomas and when they first came along and made application. He hoped that proper specifications and plans would be prepared, and as soon as Parliament reassembled be able to settle down and get the job done. He was speaking in a rather non-committal manner because no committee cared to be pledged beforehand. But they had all their letters and all their various statements that had been made. Subject to the Unemployment Grants Committee going into the whole question, he did not think there was any doubt about what

they would get from the Government. He only hoped that the meeting would finish harmoniously and speedily and so enable those who had the matter in hand to go to the Unemployment Grants Committee immediately. He thanked the Lord Mayor and City Corporation for all the help given, not merely for allowing them to meet in the Guildhall, but when they first came, the Lord Mayor received them very kindly, although he was extremely busy. The mere fact that the delegates came to the City of London Guildhall gave them a standing and a send-off that they could not have obtained anywhere else. He appreciated it very much. He also expressed his sense of personal indebtedness to Mr. Eady, a permanent official of the Government. It had been a revelation to him to see how a Civil Servant could bring such enthusiasm to bear on a work of that kind. In addition, there were the people who did the work connected with the Alexandra Palace. They had given him no rest. It was a triumph of persistency that they were witnessing, and as a result, he hoped the Alexandra Palace would one day pay a handsome dividend, not in money, but in giving the people of the locality what was the best kind of dividend—health-giving amusements and recreation. (Applause.)

Mr. Councillor F. G. Sommerfield (Finchley) announced that his district had contributed £1,500 on condition that the whole of the remaining balance would be forthcoming. They also expressed the pious hope that the Trustees would still press forward the negotiations for better transport facilities.

Mr. Councillor F. H. Stables (Friern Barnet) said they had thoroughly discussed the matter, and it was decided to defer consideration until they had received a deputation from the Trustees. A deputation came along last Friday, and owing to the able manner in which they had put their case, the Committee had recommended a grant of £800.

Mr. Councillor J. Christopher (Finsbury Borough Council) said their Finance Committee had recommended a contribution of

£1,000 in two instalments, subject to the conditions much the same as those expressed by the Finchley representatives.

Mr. Alderman E. H. Tomkins, J.P. (Islington) in announcing a grant of £3,456, said although they lived some distance from the Palace, they were residents of London, and it would be some encouragement for the Trustees to carry on.

Mr. Councillor C. H. Summersby, J.P. (Mayor of Hornsey) said, speaking on behalf of Hornsey, he would like to associate himself with what Mr. Lansbury had said regarding the work done by the Trustees of Alexandra Palace. As they were already aware, Hornsey had promised £8,000; naturally, that was not done without considerable discussion. He realised that it would be unfair to impose any restrictions with regard to the grant which would handicap the Trustees. Therefore, they were relying on the word of the Trustees that the question of reconstruction of the building would be dealt with in such a way that for years to come they would not have to come before them for money again. There were many useless heights at the Palace, and by lowering these it would make the repairs less costly. They had also the assurance that bus routes and arterial roads would be constructed and some made to run past the door.

In reply to the Lord Mayor, Mr. Summersby said he had had that promise from the Chairman of the Trustees.

Mr. County Councillor Ernest A. Cawdron said, with the greatest respect, that statement was not quite right. The Trustees had no power to construct an arterial road, but he could assure the delegates that the Trustees were fully alive to the traffic problem, and only last Friday pressure was brought to bear by the County Council for a scheme to extend the tram lines. He was in favour of another entrance at the north-west side of the Palace to enable motor-cars to use that portion, but so far as arterial roads were concerned he thought the Mayor of Hornsey had rather misinterpreted what had been promised. The Trustees were also doing

their best to arrange for the linking up of the trams between the Hornsey and Wood Green ends at the Palace.

Mr. Councillor Summersby stated he had not meant an arterial road, but a through road from Muswell Hill in continuation of Dukes Avenue.

Mr. Councillor E. Stanley Brown (Chairman of Tottenham Council) said it was with much pleasure that his Council contributed £3,000 towards the scheme. They, in Tottenham, were largely a built-up area, but they looked upon Alexandra Palace and Park as a very valuable open space adjoining their district, and they regretted that it was impossible to make the amount even larger. They had made the donation because they realised the importance of that part of the district, and it was their hope that the work would be speedily got on with and completed.

Mr. Councillor T. Hopper, J.P. (Chairman of Southgate Council), said that since the last meeting Southgate Council had elected a considerable number of new members who knew very little about the scheme, but they had called a special meeting, at which Mr. Cawdron and Alderman Marlow Reed had attended, to give them some enlightenment, and afterwards they had decided to contribute a penny rate, representing £2,500. He wished the Trustees every success in their venture.

Mr. Councillor W. H. Pullinger (Southgate) said it was true they had passed a recommendation at a special meeting by a narrow majority, but that had yet to be confirmed. In a local paper, Councillor Pullinger went on, there was a long letter which was antagonistic to the scheme. It stated that the Middlesex County Council had for years contributed to a sinking fund for the purchase of the Palace, and there was condemnation of the architect's report, which was at variance with the information placed before them by the Trustees, in whom they had every confidence. He hoped it would be brought to the notice of the paper and contradicted.

Mr. Councillor A. J. Blue (Wood Green) stated he had pleasure in announcing that Wood Green had passed a resolution to contribute £3,583, which amounted to a 2d. rate. They were a poor district, but were very glad indeed to contribute, and he congratulated the Trustees on raising such a large sum of money. Wood Green had contributed something like £40,000 to the purchase price, and were still repaying that loan, so that their contribution was a substantial amount.

Mr. County Alderman Marlow Reed, J.P., said they all got criticism, but in public life this was to be expected. They must go straight ahead. There had been misstatements regarding the M.C.C. contributions which were given to the original purchase. It was thirty years since that money was first found, and it must have been paid off by now. If he had taken notice of what critics had said he would by now have been in his grave.

Mr. County Alderman Basil Holmes, on behalf of the M.C.C. and the London and Greater London Playing Fields Association, said it was with the greatest pleasure that they had decided (speaking as Chairman of the Open Spaces Committee of the M.C.C.) to shoulder half the amount required, and had recommended the County Council to make the grant accordingly. That amount was voted without a dissentient, which showed how much the M.C.C. was alive to the value of preserving open spaces within the county. He thought that by the County's taking it upon themselves to give fifty per cent. of the sum required it had set the ball rolling and had been the means of getting other authorities to contribute. At the last meeting he had gone away with an idea of what should be contributed, and he was glad that that idea had been adopted. Now they had found that practically the whole of the amount had been raised. He hoped that the Alexandra Palace and Park would flourish in a way that it had not done in the past. Too much encouragement could not be given to the Trustees. Twenty-one

members, year in and year out, were carrying on the work without fee or reward, except the satisfaction of feeling that they were doing their duty. It was a great trust, and he pleaded for their support in every possible way.

The Lord Mayor said he was sure they would agree that the suggestion he had made at the last meeting, that they should have an adjournment to give them an opportunity of considering the matter, had not been unfruitful. As a result of that adjournment they had met together with the great gratification of learning from the information supplied to them that they had obtained £110,000. He thanked the M.C.C. and Mr. Basil Holmes. He thought they had shown a splendid sportsmanship. It was what they could expect of Britisher. "We are not down and out," the Lord Mayor went on, "whatever may be the depression at the moment. When great Metropolitan areas and the County Council can meet to consider a matter of public benefit you see there represented forces which are equal to the occasion."

The Lord Mayor then read the following resolution, which he hoped would be acceptable to them all:—

"That this Conference is pleased to record a very satisfactory response to the appeal of the Alexandra Palace Trustees, and such as to ensure sufficient funds being available to enable the Trustees to proceed with the details of the scheme immediately, in order to secure the contribution from the Unemployment Grants Committee, and to ensure that the work shall be commenced on or before October 1st next, and that the Trustees be urged to proceed with the scheme forthwith."

Mr. Alderman E. H. Tomkins, J.P. (Islington) seconded and Mr. Alderman Basil Holmes supported. The Resolution was then put and carried unanimously.

Mr. County Councillor Ernest A. Cawdron said he would like, on behalf of the Alexandra Park Trustees, to take the opportunity of thanking most sincerely the delegates who had worked so

hard with the various authorities to provide the funds and enable the Trustees to reach the present satisfactory position. The Trustees all had a lively sense of appreciation, not only of the financial, but of the moral support of the various Aldermen and Councillors. These gentlemen had recognised the difficulties of the Honorary Trustees and their duty to the public, and shown this by their broad-minded and public spirited support.

Mr. Cawdron continued:—"I can assure them it is not misplaced, as the Trustees—as business men—have a keen sense of their duty and are fully alive to their grave responsibilities. We leave this Conference with much encouragement and with a sense of great relief. As to the future, the first hurdle has been well cleared, but many more obstacles remain before reaching the finishing post. No time will be lost in making the distance, and the best and soundest advice available will be taken advantage of and all practical suggestions gladly welcomed from all quarters. Our best thanks and reward will be in the actual consummation of the scheme and the satisfaction felt at the important share in bringing about its accomplishment."

He would ask them to dismiss entirely any idea that the Trustees had not been open and candid in every step they had taken. They had hidden nothing whatever. He had no knowledge whatever of any sinking fund that the M.C.C. had been contributing to, unless it was in respect of the contributions having been made for the original purchases. Nor had he any knowledge of any architect's adverse report, unless it was with regard to putting forward plans for making it an educational centre, for which it was considered unsuitable. He therefore lost no time in refuting the allegations to which Councillor Pullinger had been kind enough to draw attention.

Mr. Alderman B. H. Jenkinson (Vice-Chairman of the Trustees), seconding the vote of thanks, said he appreciated most highly the tremendous work of the delegates of the various authorities. They had met with a rebuff at the commencement, but they

were not the class of men to sit down under it. As Mr. Lansbury said, they gave him no rest. They had reached the present stage owing to the help they had got from Mr. Lansbury and his department. After the first obstacle they had then to make the appeal, and until they had had the last meeting he was not sure that the scheme was going through, but when he left the building after the last meeting he felt pretty certain that the scheme was going forward. This was the result. During the past eighteen months the Trustees had been working hard at the scheme, and many who had important businesses to attend to had given a tremendous amount of time to the details of the Palace work. The Chairman, with all his important work in the City, had given the whole of his available time freely. Having said that, Alderman Jenkinson contended that he had come to the conclusion that their troubles were only just beginning. Trouble would begin when they gave instructions to get on with the job. If one had a clear open space to deal with it was easy; but they had to start on an old and dilapidated building. Their first business was to consult the best experts, and that meant to continue with the County experts. He believed that the County had some of the best officials at the heads of their departments that it was possible to have, and they should therefore do all they could on the advice of these experts so far as the Palace and Park were concerned directly. Arterial roads had nothing to do with them, neither had transport facilities. Heaven knows that they, as Trustees, had tried to improve the transport facilities, and they would continue to do so, but they could not compel people to lay down arterial roads outside the Palace nor compel railway companies to run railways. The electrification of the L.N.E.R. was coming along, and he hoped that would improve things. With all due respect to the Mayor of Hornsey, the resolution passed by the Hornsey Council had no relation whatever to anything outside the Palace grounds. The roads they were concerned with were those inside the Park.

Alderman Jenkinson thanked the Lord Mayor, to whom they owed as much as to anyone else a debt of gratitude for what he had done for them. He included in the vote of thanks their obligation to the delegates.

Mr. Councillor Summersby said he rose in friendly opposition but he had before him a copy of the Minutes relating to the discussion. In these it stated, "That the scheme includes, as a major or substantial point, the provision of improved transport facilities, and in particular of a road or roads passing by the Palace and suitable for bus services."

The Lord Mayor said that was a detail, however, and he was anxious to complete the primary object of the meeting. When they saw the necessity of improvements they should be able to settle the other questions.

The vote of thanks was unanimously carried by the Trustees present.

The Lord Mayor asked if his friend Mr. Lansbury had brought the cheque for £86,000—(Laughter)—but he supposed Mr. Lansbury was taking the usual governmental method of collecting the other money beforehand. He hoped the chairman would make the best use of it. "Joking apart," proceeded the Lord Mayor (addressing the Chairman, County Councillor Cawron) "you have achieved a marvellous work and I am very glad indeed to think that the suggestion to allow time for further consideration of the matter had been so fruitful. I congratulate you all and expect that in October there will be a little ceremony to commemorate this great victory over difficulties." He hoped the Press would take the matter up and add a little kudos to all that had been done.

Mr. County Alderman Marlow Reed, J.P., said the delegates had been thanked by the Trustees, but there were two people there whom they were all ready to thank enthusiastically for the success that they were celebrating. They were the Lord Mayor and Mr. Lansbury. Whilst mentioning Mr. Lansbury, the Trustees would like to recognise the sympathy, prompting and help they had received from Mr. Lansbury's staff (Messrs. Eady, Irons and Barker). Some of those present had to deal with public officials all their life but rarely did they find such enthusiasm and sympathy as that obtained from the officials concerned. lost in himself, the Lord Mayor had been the focus and had given them the necessary prestige to bring about the successful issue of the appeal. The success was not due to one man but to the team work that had been put in. He was certain that all there would have a wonderful feeling of gratitude towards and would support the vote of thanks to the Lord Mayor and Mr. Lansbury.

Mr. F. Messer, J.P., M.P., seconding, regretted that illness prevented his attendance at the last meeting. He thought that they were celebrating a victory of optimism. Mr. Lansbury was the embodiment of optimism and the force of his dynamic inspiration had been contagious. One was not over-proud of being a Member of Parliament but as a humble back-bencher he had an opportunity of seeing what the others in front had to do. The Lord Mayor had rendered a service that could not be repaid by a vote of thanks. As the first citizen of the greatest city in the world the Lord Mayor had shown a spirit that he, as a humble J.P., could appreciate.

Mr. County Alderman Marlow Reed, J.P., in putting the resolution, "with no amendment," said he was the only surviving member of the original Board of Trustees of Alexandra Palace constituted thirty years ago and it was that sentiment that kept him attached to it. He had detested working under such impecuniosity and if it had not been for sentiment he would have left it long ago. Now he felt he had a new lease of life and a new hope.

Mr. Lansbury said he did not deserve any thanks. Mr. Thomas, as the Lord Privy Seal, nearly always turned over deputations to him. When Alderman Marlow Reed had said his long association with Alexandra Palace kept him at it, it was his (the speaker's) recollection also of Alexandra Palace that made him interested in the business and he wanted to see it through. Another reason was that he would have considered it a public tragedy if it or any part of it had been lost. "You were a persistent lot," went on Mr. Lansbury. "Through Mr. Cawdron the business had been hammered into shape. It was hard work very well done. I have only done my duty. The office have put their heart and soul

into it. You owe a great debt to Mr. Eady, and you also owe a great debt to the M.C.C. for getting through legislation that enabled us to get the business into the position it is now. I hope somebody is going to find the other £9,000. Gratitude is only a lively sense of favours to come and I am hoping that the amount expected will come not very far from here." (Laughter.)

Mr. Lansbury said he had always had a happy association with the City Corporation, Socialist as he was. He was glad of the opportunity of doing a little of that splendid work within the greater Metropolitan area. It had been a great pleasure to be associated with the scheme in the heart of the British Dominions. Then there was talk of being down and out. Look round any Bank Holiday. We had an unconquerable spirit and it was that spirit which had produced this money from poor parts of the towns and urban areas. After we are all dead and gone our successors will probably meet in this place and will tell the history of how we overcame the difficulties: that history will be written down that we overcame because the will to overcome was there.

Mr. Eady, called upon for a few words, said Civil Servants rarely got thanks but with a Minister of the Crown like Mr. Lansbury it made the work easy for them.

The Lord Mayor asked if they should finally settle up, or should they adjourn to meet again?

A delegate from the rear asked if there was not due before twelve o'clock a bombshell from the City Corporation? (Laughter.)

The Lord Mayor said in that case he had better get the police in and have a search made. If at any time they needed his assistance and let him know he would be entirely at their disposal.

The Conference then terminated.

HOUSING (SPECIAL) COMMITTEE'S REPORT.

21st July, 1931.

Present : Councillors Briant, Grocott, Mrs. Timberlake and Wells.

618 Chairman.—Councillor A. J. Briant was appointed Chairman of the Committee for the current year.

618a Minutes.—The Minutes of last meeting were taken as read, confirmed and signed.

619 Workmen's Housing Association, Ltd.—Referring to previous Minutes on this matter, the Committee again carefully considered the question of the adoption or otherwise of the scheme submitted by the Workmen's Housing Association, Ltd., and after hearing a report by the Surveyor, it was

RECOMMENDED that the Association be informed that the Council do not desire to take any action in the matter.

620 Provision of Houses—Tenant Purchase Scheme.—In accordance with the instructions of the Council at their Meeting held in March last, the question of the formulation of a Tenant Purchase Scheme was again carefully considered by the Committee. They were of opinion, however, that in view of the fact that facilities were available by which persons could acquire the ownership of houses on payment of a deposit of a sum not exceeding that which would be required under any scheme which might be adopted by the Council, the necessity for the formulation of a scheme was not justified at the present time, and in these circumstances it was

RECOMMENDED that the previous recommendation of the Committee as under-stated be re-affirmed :—

" That the petitioners be informed that having regard to the limited number of housing sites available, and particularly bearing in mind the demand for houses by the working classes at an economic rent¹, it would not be practicable for the Council to proceed with the formulation of a Tenant Purchase Scheme."

HOUSING (SPECIAL) (*continued*).

621 **Housing Acts, 1924/30.**—The Acting Clerk submitted a circular letter, dated 8th May, 1931, which he had received from the Secretary of the Ministry of Health with respect to the above.

622 **Instructions.—**

RECOMMENDED that the instructions given to the Surveyor to the Council, as entered in his Instruction Book, be approved.

A. J. BRIANT,

Chairman.

TOWN PLANNING AND OPEN SPACES COMMITTEE'S REPORT.

6th July, 1931.

Part II.

Present: Councillor Langlands (Chairman), Councillors Friant, Pateman, Pike, Pulham and Wells, and Councillor Pugsley (non-Member).

WINDSOR OPEN SPACE - PROPOSED SUB-STATION. - Communications were submitted from Mr. Charles Handman of 45, Windsor Road, stating that he must object to the proposed erection of a Sub-Station at above on the grounds enumerated below, and suggesting an alternative site therefor :-

- (1) that at present great privacy and quietude is enjoyed, and a motor or machine in any description in close proximity to the house would affect his wife's health;
- (2) that it appeared from his title deeds that he had a right of way over the road in Broughton Avenue which ran along the flank of his house and garden, and on this point he was taking Counsel's opinion;
- (3) that a sewer ran down the centre of Windsor Road and would therefore be under any building erected;
- (4) that the length and height of the building would affect light and air at present enjoyed by him and the amenities would also be diminished; and
- (5) that the contemplated building would seriously affect the capital value of his property.

The question of an alternative site for the proposed Sub-Station was carefully considered by the Committee, and it was eventually decided to defer the further consideration of the matter until the next meeting of the Council, in order that Mr. Handman might have an opportunity of substantiating his claim with respect to the right of way, and also to give the Solicitor an opportunity of ascertaining the extent thereof if found to be existent;

RECOMMENDED that the action taken be approved.

PUBLIC HEALTH COMMITTEE'S REPORT.

7th July, 1931.

Part II.

Present: Councillor Briant (Chairman), Councillor Ryan (Vice-Chairman), Councillors Pike, Pugsley, Fulham and H.O. Syrett, and Councillors Bennett, Pateman, Wells and Wilmot (non-Members).

1.- MIDDLESEX COUNTY COUNCIL ACT, 1931 - WEST MIDDLESEX SEWERAGE AND SEWAGE DISPOSAL. -

The Acting Clerk reported that, following the preliminary discussion in regard to this matter which took place at last meeting, he had communicated as directed with the County Solicitor, and that the reply, dated 19th June, 1931, received from him was laid before the Council at last meeting and referred to the Committee for consideration.

The following report was submitted by the Surveyor:-

"I have to report that the area of the Sewage Farm land is 82.5 acres excluding the Burial Board land.

When the scheme of extension now in hand is completed the works should be capable of satisfactorily dealing with the present flow of sewage.

I am of opinion that the land available is more than sufficient in area for the needs of Finchley when fully developed, though of course, extensions to the works themselves will be required from time to time as the flow of sewage increases.

I have had several interviews with Mr. J.D. Watson the Engineer to the Scheme and have seen the correspondence which has taken place between Mr. Barter and the County Council and I have not yet been able to discover a definite statement that the sole cost to this Council would consist of the sewerage rate, particulars of which were considered by your Committee at their last meeting, neither does the assurance appear definite that the County Council will assume the liability for the unexpired loans as provided for in the Bill with regard to the authorities therein named."

The Acting Clerk was directed to communicate again with the County Solicitor, asking for a definite reply to certain points raised, and a further report will be made in due course.

2.- MIDDLESEX COUNTY COUNCIL'S ACTS - RIVERS POLLUTION - STATUTORY NOTICE - STRAWBERRY VALE BROOK.

A letter, dated 17th June, 1931, was submitted from the Clerk of the Middlesex County Council, stating that this Council's letter of the 1st May, 1931, was considered by his Rivers Committee at their last meeting, when he was directed to intimate

S. - LINSDOWNE ROAD - SEWER.-

A letter, dated 26th June, 1931, was submitted from the Ministry of Health, asking to be furnished with the observations of the Council (or of the appropriate Committee) upon a letter received by them from Mr. F. Simpson, complaining of the smell which arose from the sewerage works now being carried out.

The Surveyor reported that the manhole from which sewer emanation took place had to be kept open to enable the Contractor to proceed with his works, and that, of course, the sewage flow could not be interfered with; that everything possible was done by the use of disinfectants to reduce any unpleasant smell to a minimum, and that the work in this section had now been completed and the manhole closed down.

RECOMMENDED that the Ministry be informed accordingly.

After full consideration the Committee instructed the Acting Clerk to communicate with the Acme Flooring and Paving Co., referring to the Contract provisionally entered into by them, which was subject to the approval of the Middlesex County Council and the Ministry of Transport, and stating that the Council had been directed by the Middlesex County Council to accept another tender on the amended specification and that the Council were therefore unable to proceed further in the matter;

Further, that as the work was very urgent, he had approached the Vice-Chairman, who had authorised him to obtain the names of two sureties from the contractors, and this having been done and references having been found to be satisfactory, the contract had been executed by the contractors and the sureties;

COUNCIL MEETING - 27TH JULY, 1931.

PART II

To the Chairman and Members of the
FIRTHLY URBAN DISTRICT COUNCIL.

Since my last report 23 sets of plans have been received, representing:-

HOUSES	76
GARAGES	18
MISCELLANEOUS	5
ALTERATIONS AND ADDITIONS	4
NEW ROAD AND SEWERS	1

7620 B Amended lay-out for new road and sewers and 16 houses.
25.7.31. Between Great North Road and Green Road, N.20.

Mr. F. J. Moody.

The wishes of the Committee with regard to the development of this estate have only partly been met and I think the Council would wish to defer consideration of this plan to the Committee, in which case it should be disapproved at this juncture.

7642 Conversion of houses into shops with flats over.
25.7.31. "Newlyn House", "Russell House" and 12 & 13 Bowles Place, High Road, N.20.

Mr. F. J. Moody.

This plan shews a scheme for converting old premises into flats, with shops on the ground floor. It is proposed to bring out the shop fronts to a line 50' distant from the centre of the tram track and to throw the balance of the forecourt, namely a depth of 15'6" into the highway. I think the proposal will meet with your approval, but probably the County Council should be consulted before your sanction is issued.

7650 Covering over yard and new offices.
2.7.31. Great Northern Motors, Friern Watch Parade, Great North Road.
Mr. G. Sherwood.
This plan, which was disapproved at the last meeting of the Committee, is now in order and MAY BE APPROVED.

7655 Glass lean-to.
13.7.31. Rear of 2, Sherwood Street.
Mr. C. G. Walker.
This plan MAY BE APPROVED.

7656 Summer House.
14.7.31. 20, Dollis Park,
Mr. W. F. Maddock.
This summer house has been erected, and there is a complaint from a neighbour. As the plan is incomplete, I suggest it should be DISAPPROVED so that the Committee may have an opportunity of considering the matter.

668 Electricity Undertaking — Sub-Station Extensions, 1931
—East Finchley and Windsor Road Sites.—A report, dated 27th July, 1931, by the Chief Electrical Engineer, as under-printed, was submitted and considered :—

"The Council has already entered into a Contract for the erection of three sub-station buildings, the one at Frederick's Place has been completed.

The estimate and contract provides for a standard type of building as the Electricity Commissioners will not grant a loan for verandahs.

It has been agreed that a verandah shall be provided along one end and return (in all about 56 feet by 8 feet) at East Finchley. The Contractor has agreed to erect this and an additional five feet on the building for the additional sum of £225.

A verandah has also been proposed at Windsor Road which will be about 108 feet by 8 feet. The Contractor agrees to erect this and an additional five feet on the building for an additional sum of £377.

The above sums include roofing the whole building with sand faced tiles, instead of plain tiles, and also certain features in the front elevation of the East Finchley building.

I have had an interview with the Electricity Commissioners and it will be possible to add a portion of these extra costs to the loan application for sanction, the remainder will presumably require to be debited to revenue account, as was done in the case of Cherry Tree Wood.

It will be a convenience if the Council will agree these figures so that work may be proceeded with as soon as the permissions have been obtained for the sites."

RECOMMENDED—

- (a) that the plans of the proposed Sub-stations be approved;
- (b) that application be made to the Electricity Commissioners for sanction to the borrowing by the Council of the sum of £602, representing the additional cost incurred in connection with the erection of the sub-stations at East Finchley and Windsor Road.

COUNCIL MINUTES (*continued*).

669 **Street Collections.**—It was reported that an application had been received from Miss E. Goslett on behalf of the Royal Society for the Prevention of Cruelty to Animals for permission to make a street collection in this district on Saturday, the 12th September, 1931;

RECOMMENDED that a reply be forwarded to the effect that the Council regret that they cannot see their way to accede to her request.

670 **Hydrants.**—It was reported that the Barnet Water Company were extending their water main in Westbury Grove and also in Cadogan Gardens, and that to avoid additional cost in the future it would be necessary to instal one new hydrant in each of such roads at a total cost of approximately £20;

RECOMMENDED that this expenditure be approved.

671 **Fire Brigade.—**

(1) It was reported that Firemen Kingston and Hobbs, who would in due course occupy quarters at "Elmacot," Bibsworth Road, were sleeping temporarily at the Central Fire Station, and that as proper quarters were not being provided for them a deduction of 7s. 6d. a week only had been made from their wages in lieu of the recognised sum of 12s. 6d.

RECOMMENDED—

- (a) that the action taken be approved;
- (b) that until the Firemen in question occupy quarters at "Elmacot," Bibsworth Road no deduction be made from their wages.

(2) **RECOMMENDED—**

- (a) that the Acting Clerk be directed to give one week's notice to Fireman Green terminating his services as a permanent fireman;
- (b) that the Highways and Fire Brigade Committee be authorised to appoint a successor on the usual terms, subject to report.

COUNCIL MINUTES (*continued*).

672 Instruction.—

RECOMMENDED that the Instruction given to the Acting Clerk, as entered in the Instruction Book, be approved.

673 Resumption of Council.—

RESOLVED that the Council do now resume, and that the recommendations above set forth be adopted, Councillor C. S. Syrett not voting in connection with the instruction referred to in Minute No. 639.

RECOMMENDED that the matter be referred to the Finance Committee, with a view to a supplementary estimate of £200 being made to cover the expenditure in question.

- (6) Inspection and Testing—Fire Hydrants, etc.—The Chief Officer of the Fire Brigade reported as follows:—

"The inspection and testing of fire hydrants at present necessitates the use of a fire engine to cover distances away from the Church End area, and as this entails a heavy petrol consumption, and leaves the Station short of one engine for hours at a time, I suggest that to keep our hydrants periodically tested and in order, and at the same time maintain efficiency at the Central Station, a light run-about motor would be both economical and useful."

As an alternative suggestion, if it is not desirable to purchase a light run-about motor, which could also be used for the testing and painting of fire alarms, repairs, etc., to fire alarm wires, and other work away from the Station, I have a car which I seldom use, and which I should have no objection to being used for this work, if the Council would be prepared to make an allowance or meet expenses when the car is used for Fire Brigade work."

had been returned to the makers' Works for certain repairs. It was further reported that it would probably be necessary for the Chief Electrical Engineer to visit such Works in connection with this matter.

785 Maximum Load.—It was reported that there had been an abnormal increase in the maximum load for this time of the year, presumably owing to the inclement weather.

786 Holly Park Sub-Station.—It was reported that the necessary repairs to this sub-station building had been completed, and that arrangements had been made for the temporary use of a portion of the plant during the evening load.

787 Hendon Lane Area.—The Chief Electrical Engineer reported that several complaints had been received regarding the quality of the supply in this area, and that the difficulties in regard to the matter had been anticipated; that the proposed sub-station at Windsor Road was designed to meet with same and that it was very unfortunate that it had not been possible to proceed with the erection of the sub-station, as without it the supply in that area would not be maintained at full standard during the coming winter.

Arising out of the above report, the Acting Clerk referred to a communication received from Mr. T. G. Tyson, of Finchley Avenue, stating that he had been approached by several residents in that road who had asked him if he would take up the matter with the Council, with a view to seeing if something could be done to get the new sub-station installed with the least possible delay.

788 Chimney Shaft.—The Chief Electrical Engineer reported that while the essential repairs to the lightning conductor were being carried out, as reported at last meeting, it was discovered that the pointing of the brickwork had deteriorated considerably; that it was necessary, therefore, to repoint a considerable portion of the chimney shaft to avoid cracking of the brickwork, and that this had been carried out by the steeplejacks while they had their ladders in position at an approximate cost of £97;

RECOMMENDED that this expenditure be approved.

Authority authorised undertakers inside and outside the County of London so as to bring about if possible an agreement as to the persons elected.

It was pointed out that the grouping arrangements hitherto formulated by the Conference to secure an agreed election could only be put into effect with the acquiescence of the *whole* of the Local Authorities entitled to participate in the election, and enquiry was made as to whether this Council would be prepared to agree to similar arrangements for the general election this year;

FINCHLEY URBAN DISTRICT COUNCIL.

COUNCIL MEETING - 28TH SEPTEMBER, 1931.

PART II.

To the Chairman and Members of the
FINCHLEY URBAN DISTRICT COUNCIL.

1. BUILDING - NO. 17 THE PROMENADE, BALLARDS LANE.

I have to report that Messrs. Garsubil have erected a building at the rear of No. 17 The Promenade, Ballards Lane, without depositing plans or obtaining the approval of the Council.

The building contravenes the byelaws as regards construction and the provision of lateral space.

Messrs. Garsubil state that the work was finished on the 5th October last year. The attention of this department was drawn to the building by the owner wishing to erect a similar one at some other premises.

I think the parties concerned should be called upon to show cause why such building should not be removed, altered or pulled down.

2. FIRE ESCAPE STAIRCASE - NORTH MIDDLESEX GAS COMPANY -
PLAN NO. 7649 (AMENDED) - MINUTE NO. 744.

I am negotiating with the North Middlesex Gas Company with a view to getting the fire escape staircase placed other than on the flank elevation of their new building, and I suggest that the above plan be disapproved.

3. GARAGE AND TWO FLATS OVER - FRIERN LANE - MESSRS MUGENT & SONS.
PLAN NO. 7702 - MINUTE NO. 745.

This plan has been amended so that the required light is obtained without the necessity of acquiring an easement over the adjoining land, and I recommend that it be approved.

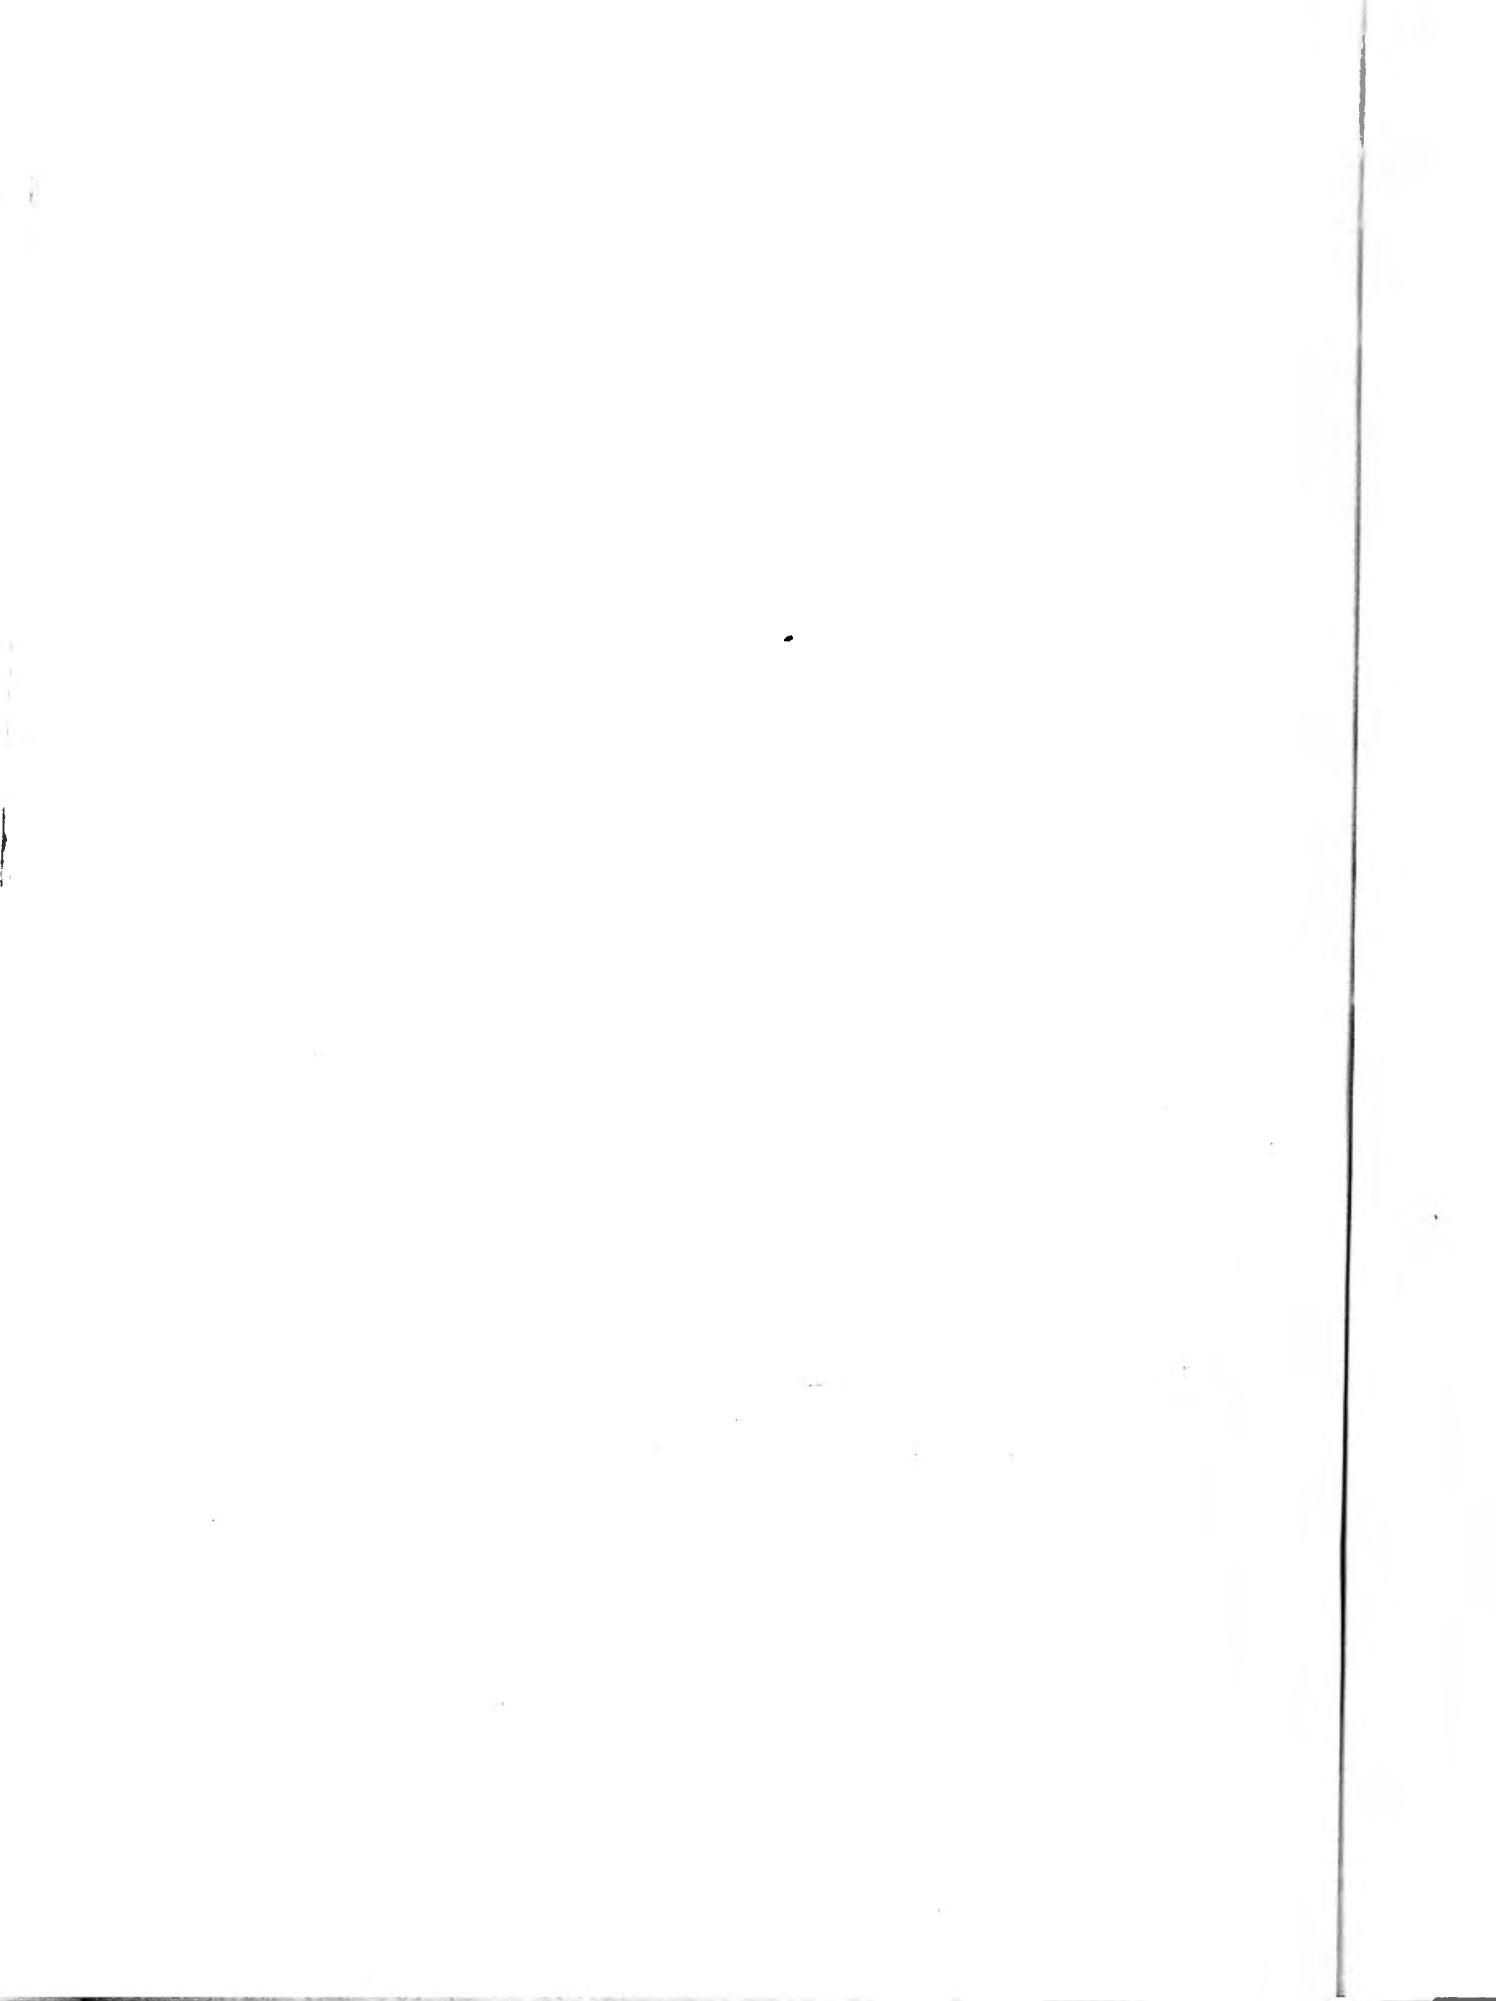

FRANCIS T. HARRISON,
ENGINEER AND SURVEYOR

This is the report of the Surveyor referred to in paragraph 354 of the Council Minutes of the 28th September, 1931.

CUBAN DISTRICT OF FINCHLEY

EMERGENCY COMMITTEE'S REPORT.

13TH AUGUST, 1931.

PART II.

Present :- Councillor Wells (Chairman), Councillors Bennett, Briant, Langlands, Pike, G.S. Syrott and H.O. Syrott, and Councillors Brown, Pugsley, Pulham and Mrs. Timberlake (non-members).

1.- MIDDLESEX COUNTY COUNCIL ACT, 1931 - WEST MIDDLESEX SEWERAGE AND SEWAGE DISPOSAL.-

In accordance with the instructions of the Council at their last meeting, this matter was considered by the Committee. Letters dated 14th and 23rd July, 1931, from the County Solicitor were submitted and the previous correspondence with the County Solicitor was also read. The Chairman of the Public Health Committee reported that it was understood that the grant to be made by the Unemployment Grants Committee to the constituent authorities of the Scheme would be on the basis of 75% of the interest and sinking fund charges for 15 years on the loans raised to meet the capital expenditure under the Scheme. It appeared that Mr. Watson's revised estimate of the capital cost of the whole of the works required to take in the sewage of the Finchley district including the enlargement of the Brent Valley main sewer from Mogden to Hendon, the extension of that sewer to the Finchley boundary and across the Finchley district to the existing sewage works, together with the enlargement of the works at Mogden, Perry Oaks and Isleworth Ait was £286,000. The Surveyor reported favourably as to the adequacy of the existing sewage disposal works and the extensions which could be made to meet future requirements, and as to the user of the land occupied by same if these were discontinued.

After considering the matter in all its aspects and in particular the increased expenditure which would be likely to fall on this District if the Scheme were adopted, it was, in accordance with the authority delegated to this Committee, by the Council

RESOLVED that the Middlesex County Council be informed that the Committee regret that they cannot see their way to advise the Council to come within the purview of the Scheme.

2.- LOCAL GOVERNMENT ACT, 1929 - FIRST GENERAL REVIEW OF DISTRICTS.-

(a) The Chairman of the Council reported that at a Meeting of the Middlesex County Council held on the 30th July, 1931, an amendment moved on behalf of Friern Barnet to the effect that the County Council include no proposal in their report to the Minister of Health under section 46 of the Local Government Act, 1929, apart from any rectification of the boundaries of the District that might in the further stages of the Review of the District be found necessary or desirable, affecting County Districts

the Urban District of Friern Barnet was carried by a large majority, whilst the recommendation of the General Purposes Committee to transfer the portion of the Hampstead Garden Suburb in the Urban District of Hendon and the Nether Court Golf Course and immediately adjacent land to Finchley was carried by a majority of one; further that the question of the transfer from Finchley to the Borough of Hornsey of a portion of land east of the Bishops Avenue and of the transfer to the Urban District of Finchley of a portion of the Borough of Hornsey north of the North Circular Road and west of Colney Hatch Lane had been referred back to the General Purposes Committee of the County Council for further consideration, but that minor adjustments of the boundaries of the districts concerned still remained to be dealt with.

(b) In accordance with the instructions of the Council at their last meeting, the Committee had before them a letter dated 23rd July, 1931, from the Hampstead Garden Suburb Residents' Association, enquiring whether the Council would undertake in conjunction with the Hendon Urban District Council, a plebiscite of the residents of the Suburb on the representations made to the Middlesex County Council in regard to the Suburb by this Council. After discussion, it was, in accordance with the authority delegated to the Committee by the Council

RESOLVED that the Association be informed that whilst the Council are in sympathy with the views expressed and are anxious to help them in their desire to obtain the general opinion of the residents on the question it is very doubtful whether they have any power to expend money in undertaking a plebiscite as suggested; that even if this were possible and it were decided to adopt this course, insuperable difficulties would most certainly arise in connection with the preparation of an agreed statement with the Hendon Urban District Council to put before the Residents. further, that Members of this Council would be pleased to receive a deputation from the Association in order that the matter might be fully discussed, and following upon this, the Chairman and several members of the Council would be prepared to attend, if found necessary, a Public Meeting to be convened by the Association, at which the views of the Council could be explained and any questions answered.

(c) A communication dated 23rd July, 1931, was submitted from the Secretary of the Middlesex Education Committee regarding the question of the administration of Elementary Education in the proposed Urban District of Finchley and Friern Barnet. The letter was referred to the Education Committee for consideration and report.

3.- LOW LEVEL STWER - RECONSTRUCTION.-

Correspondence with Messrs. Tackley, Fall & Read and Messrs. Peacock, Fisher & Co., with respect to alleged damage to the premises Nos. 36 and 38, Dollis Road in consequence of the works being carried out by the Council's Contractors,

(

Messer William Moss & Sons Ltd., in connection with the reconstruction of the low level sewer, was submitted. Instructions were given to the Solicitor to forward a copy of the correspondence to the Contractors, with an intimation that under their contract they would be held responsible in the matter.

4.- STREET WIDENINGS - GREAT NORTH ROAD BY WALFIELD ESTATE.-

In accordance with the instructions of the Council at their last meeting, this matter was considered by the Committee. In submitting the District Valuer's Report, the Solicitor drew attention to the following extract therefrom:-

"I have taken into account the facts that your Council will

- (a) excavate so as to provide a new road opening and form a sloping bank along the entire frontage outside the area of the widening;
- (b) suitably pave the lands to be thrown into the highway;
- (c) provide and erect a chain link fence at the foot of the Banks at a cost of £30.

The front wall of the building "Walfield Bank" is in front of the proposed new line of widening and, in arriving at my estimate, I have taken into account that it will remain undisturbed until June 1935 after which it will be pulled down and part of the site incorporated in the highway.

No effect has been given to the fact that a building line 25 feet at rear of the new line of frontage has been arranged.

I am of opinion that the cost of acquiring the lands referred to above, assuming

- (a) buildings on or occupied together with such lands are non-existent other than boundary walls (not incorporated in buildings) and fences;
- (b) the cost of the works, as defined above were undertaken by the Acquiring Authority at their own expense

is the sum of £720.

If the matter were referred to me I should be prepared to advise that in considering an application for a loan the cost of acquiring the property without the limitations referred to above may be taken at the sum of £900 which, having regard to all the circumstances, may be regarded as a very reasonable amount."

The Surveyor reported that since the receipt of the above report he had been in communication with the District Valuer on the question and that he had been informed that the latter's valuation of £900 was based on the offer made by the Vendor;

RECOMMENDED -

- (1) that the Vendor's offer to sell the necessary land required for widening at the sum of £900 be accepted, subject to contract, and that the matter be referred to the Finance Committee to make the necessary financial arrangements;
- (2) that authority be given for the payment of the Vendor's reasonable Solicitors' and Surveyors' costs in connection with the Conveyance and Contract.

5.- WINDSOR OPEN SPACE - PROPOSED SUB-STATION.-

The Solicitor reported upon a telephone conversation he had had with Mr. Charles Handman with regard to his objection to the site of the proposed Sub-Station on the above Open Space. The Chief Electrical Engineer submitted a plan showing a new site for the Sub-Station, and the Committee gave instructions for this site to be slightly amended in order to prevent interference with the Public Footpath.

RESOLVED that the Acting Clerk be instructed to proceed with the obtaining of the necessary consents in connection with the matter.

6.- NEW SCHOOL - SUMMERS LANE SITE.-

The Chairman of the Committee reported that the tenders in connection with the above were receivable up to the 31st August, 1931.

RESOLVED that, as a matter of urgency, a special meeting of the Committee be convened for Monday, 31st August, 1931, at 8 p.m. for the purpose of opening the tenders.

7.- PROPOSED IMPROVEMENT - LONG LANE - FINCHIEY CHARITY TRUSTEES LAND.-

The Acting Clerk reported as follows :-

"I have been in communication with the Unemployment Grants Committee hereon, and they have informed me that they will be satisfied if the work is actively commenced not later than the 1st September, 1931.

With regard to the housing of men transferred from depressed areas for work on the Scheme, the Unemployment Grants Committees have intimated that they will expect the Council to ensure that suitable accommodation will be provided. They point out that the transferred men, being single men, or married men unaccompanied by their families, will only require ordinary lodging accommodation of a kind which is usually available for men employed on public works and that the Council may rely on the assistance of the Manager of the Local Employment Exchange in finding such lodgings as are necessary.

It will be remembered that it was agreed to employ 25% of unemployed labour from depressed areas on the understanding that no liability would fall upon the Council as regards the housing of the men so recruited.

With reference to the conveyance to the Council of the land required for the improvement, the Clerk to the Finchley Charities has written stating that he has laid the position before the Charity Commissioners and that they will dispense with any advertisements or other formality in connection with the sale and that on production of the conveyance of the land to the Council an endorsement of the Commissioners' consent will be made thereon. He has also stated that so far as his Trustees are concerned there will be no objection to the Council taking possession, subject, of course, to the Council making arrangements with the allotment holders affected. I have pointed out in reply that it was agreed that the Trustees should bear any compensation which might be payable to the allotment holders."

The Chairman of the Committee reported that the Conveyance had been forwarded to the Charity Commissioners for their approval.

RESOLVED that the Surveyor be authorised to arrange for the works to be proceeded with forthwith.

3.- PROPOSED IMPROVEMENT BY "ELMSTEAD" HENDON LANE.-

A communication dated 31st July, 1931, was submitted from the Clerk of the Middlesex County Council forwarding a copy of the following resolutions which were passed at the last meeting of the County Council :-

"That an intimation be given to the Finchley Urban District Council that the County Council approves of the Local Authority carrying out a Scheme for widening Hendon Lane, Finchley, along the frontage of "Elmstead", at a total cost not exceeding £170, subject

- (a) To the Ministry of Transport contributing 60 per cent. of the expenditure involved.
- (b) To the work being carried out to the satisfaction of the County Engineer and Surveyor and in accordance with plans and specifications approved by him.
- (c) To the Accounts of the District Council in connection with the work being audited by the County Engineer and Surveyor.
- (d) To the Finchley District Council meeting a moiety of the difference between the cost of acquisitions based on the District Valuer's estimate and the figure required by the Vendor."

It appeared, however, that the Surveyor's estimate for the total cost of the Scheme was £210.

RESOLVED -

- (1) that the County Council be informed that the terms of their resolution are acceptable to the Council, subject to the County Council agreeing to the amendment of the cost of the works from £170 to £210.
- (2) that the Council agree to pay a moiety of the difference between the cost of acquisition of the land in question based on the District Valuer's estimate and the figure required by the Vendor.

RECOMMENDED -

- (1) that the offer of the Vendor to sell to the Council the land required for widening Hendon Lane by "Elmstead" at the sum of £100 be accepted, subject to contract and to the approval of the Finance Committee as regards the requisite financial arrangements.
- (2) that payment of Legal and Surveyors' reasonable charges in connection with the Conveyance be agreed.
- (3) that the Solicitor proceed with the Conveyance.

9.- TURNER'S GOLF DEVELOPMENT.-

The Acting Clerk reported that the Chief Electrical Engineer had forwarded to him copy of a communication dated 24th July, 1931, which he had received from the Secretary of Hampstead Golf Club Ltd., with reference to the wayleave over the Hampstead Golf Club land desired by the Council for the purpose of laying a main cable to connect with Ingram Avenue. It was stated that the Directors were willing to grant such wayleave subject to payment by the Council of a

C

rental of £10 per annum; to the roots of trees not being interfered with in any way along the suggested route, and to the trench of the cable being kept as close as possible to the boundary;

RECOMMENDED that this be agreed.

10.- OPEN AIR SWIMMING BATH - GLEBE LAND.-

The Acting Clerk reported as follows :-

"A meeting of the sub-Committee appointed to consider minor matters in connection with the above was held on the 4th August, 1931, and at such meeting instructions were given for :-

- (1) The purchase of the under-mentioned equipment at the prices stated:-
 (a) Carley Life Raft ... £34. 10. 0.
 (b) Flagstaff and Pennant £23. 2. 6.
 (c) Water Polo Equipment. £11. 11. 0.
- (2) The Installation of a telephone at the Bath at an annual rental of £9.16.0.
- (3) The provision of a Gate at the Great North Road entrance to the Bath at an estimated cost of £20.

The Surveyor reported on diving stages erected at various baths and after full consideration, the sub-Committee decided to have an exactly similar diving stage to that erected at the Barking Open Air Bath.

The Surveyor was instructed to obtain a firm price for the above from the makers, Messrs. T. M. Gardiner Ltd., of Hoddesdon, and after submitting same to the Vice Chairman of the Council for his approval to give variation orders under Messrs, Wm. Moss & Sons' contract in connection therewith.

The Surveyor was further instructed to obtain prices from Messrs, T. M. Gardiner Ltd. for one 14 ft. water chute for adults, one water chute for children and one one-metre spring board and, subject to the prices being satisfactory, issue orders for same forthwith.

I understand from the Surveyor that the prices obtained are as set out below and the necessary orders have been given, viz :-

1 diving stage (exactly similar to that supplied and erected at Barking)	£216.10. 6.
1 water chute 14 ft. long, 8 ft. high	£32.10. 0.

The Surveyor was also instructed to approach certain firms with regard to the terms upon which they would be prepared to take over the catering arrangements at the Bath, and he will report hereon to your Committee."

The Surveyor reported to the Committee that owing to the very abnormal weather conditions, it might not be possible to open the Bath on the 5th September, 1931, although every effort would, of course, be made. Further, that up to the present, he was not in a position to report upon the question of the catering arrangements.

The Chairman of the Council also reported upon the arrangements he was making with respect to the Opening Ceremony.

RESOLVED -

- (1) that the report of the Sub-Committee be received and adopted;
- (2) that authority be given for payment of reasonable expenses of the performers taking part in the Opening Ceremony and of the catering expenses necessary in connection with the opening.

RESOLVED that no action be taken in regard thereto.

14.- SMALL DWELLINGS ACQUISITION ACTS - MORTGAGE NO. 795 - NO. 81, BRENT WAY.-

A communication dated 12th August, 1931, was submitted from Messrs. Chambers, Garnett & Chambers, stating that they had ascertained that the lease of the above premises was in the name of Mrs. D. Robinson only, and assuming that the Council would raise no objection to the matter proceeding, subject to the husband joining in the mortgage as a covenanting party.

RESOLVED that this be agreed.

RESOLVED that the instruction given to the Surveyor as entered in his Instruction Book be approved.

URBAN DISTRICT OF FINCHLEYGENERAL PURPOSES COMMITTEE'S REPORT15th September 1931.PART II

Present: Councillor Wells (Chairman), Councillor Sommerfield (Vice-Chairman), Councillors Bennett, Briant, Langlands, Pike, G.S. Syrett, H.O. Syrett and Councillors Pateman and Pugsley (non-Members).

1.- LOCAL GOVERNMENT SUB-COMMITTEE.-

The following report of a meeting of the above Sub-Committee held on the 31st August, 1931, was submitted :-

Present: Councillor H.O. Syrett (Chairman), and Councillors Pike, Sommerfield and Wells.

LOCAL GOVERNMENT ACT, 1929 - FIRST GENERAL REVIEW OF DISTRICTS.-

At the request of the Emergency Committee, the Sub-Committee considered a communication, dated 34th August, 1931 from the Clerk of the Middlesex County Council, forwarding for the information of the Council a copy of the under-mentioned resolution adopted by the County Council on the subject of the First General Review of Districts :-

"That, apart from any further rectification of the boundary of the District that may in the further stages of the Review of County Districts be found necessary or desirable, the County Council do include in their Report to the Minister of Health under Section 46 of the Local Government Act, 1929, proposals for the transfer from the Urban District of Hendon to the Urban District of Finchley of :-

(i) That part of the Urban District of Hendon, forming part of the area known as the Hampstead Garden Suburb, and bounded on the north by the Mutton Brook, on the west by the Finchley Road, on the south by North End Road and the County Boundary, and on the east by the Finchley Urban District.

(ii) That part of the Urban District of Hendon bounded on the north by the County Boundary on the west by the western extremities of enclosures 187a, 189, 337 and passing through enclosure 363 on the 35-in. Ordnance Survey Map, Edition 1914, and thence by Frith Lane

from a point by Frieth Manor House, on the south by the Edgware branch of the London & North Eastern Railway, and on the east by the Finchley Urban District."

The letter stated that it would be necessary for the County Council, in reporting to the Minister, to furnish certain information relating to the two districts, and it was accordingly requested that the Council would, if possible in agreement with the Hendon Urban District Council, shew upon a 6" Ordnance Survey Map (*inter alia*) the new line of boundary which it was suggested should now be fixed.

The letter further intimated that the County Council were now proceeding with the question of considering the desirability of adjusting certain district boundaries where, owing to the nature of the development of the district or other reasons, it appeared that the existing boundaries had been rendered inconvenient from a Local Government point of view, and in that connection enquiry was made as to whether the Council had reached any agreement with the Hendon Council in regard to the alteration of the boundary along the Dollis Brook; that no further action could, of course, be taken with regard to the question of any boundary adjustments with Friern Barnet or Hornsey until the County Council had further considered the major issues in respect of the three districts.

After careful consideration, instructions were given to the Acting Clerk to enquire of the Hendon Council if they had any observations to make on the communication, and to state that if so desired, the Sub-Committee would be pleased to discuss the matter unofficially and without prejudice with representatives of that Council;

RECOMMENDED that the action taken be approved.

**HIGHWAYS AND FIRE BRIGADE COMMITTEE'S
REPORT.**

1st October, 1931.

Present : Councillor Bennett (Chairman), and Councillors Grocott, Pulham and Wells ; and Councillors Pateman, Pugsley, Ryan and Wilmot (non-members).

874 National Economy Scheme.—The Committee considered the reference from the Council hereon, and after careful scrutiny of their unspent estimates for the current financial year it was decided to report to the Finance Committee as to the savings which it was hoped it would be possible to effect upon the Highways.

As regards the Fire Brigade, the Chief Officer was directed to confer with the Accountant in regard thereto, and to report at the next ordinary meeting of the Committee, but it was not anticipated that any appreciable saving would be possible.

The Committee were of opinion that every effort should be made to expedite the making up of private streets included in the 23rd and 24th Batches and that the Contractors should be requested to employ local labour. The Acting Clerk was instructed to interview the Ministry of Health thereon.

The view was also expressed that as long a period as possible should be granted by the Council to the frontagers, in cases where it was desired to pay Private Street Works Charges by instalments, and it was decided to suggest to the Finance Committee accordingly ;

RECOMMENDED that the action taken be approved.

875 Requisitions.—

RECOMMENDED that the lists of Requisitions (circulated) be approved, subject as follows :—

Annexed.

(a) Fire Brigade.—To £3,047 18s. 9d. being substituted for £4,047 18s. 9d. in the total.

HIGHWAYS and FIRE BRIGADE (*continued*).

876 Street Accidents.—The Returns received from the Police Authorities for the month of September, 1931, were submitted, from which it appeared that the number of accidents which had occurred within this District, as compared with that for the corresponding period last year was as follows:—

	Fatal.	Non-Fatal.	Total.	req.
1930	...	2	73	75
1931	...	2	76	78

877 Footpath—Holden Road to Woodside Park Station.—The Acting Clerk submitted a letter, dated 26th September, 1931, received from Mr. Gadsdon drawing attention to the condition of the above footpath, and in accordance with previous instructions, the Surveyor submitted an estimate of the cost of carrying out repairs thereto amounting to £29.

After hearing a report by the Acting Clerk, it was

RECOMMENDED that authority be given for the work to be put in hand.

878 Road Fund—Limitation of Expenditure.—The Acting Clerk referred to a circular letter, dated 15th September, 1931, received from the Ministry of Transport stating that in view of the present position of the National Finances, His Majesty's Government had decided that it was essential to reconsider existing commitments in various fields of National Expenditure; and that they had decided that in the case of the Road Fund, the resources of which were already exceeded, very substantial reductions must be effected in the totals, as at present estimated, of the amounts payable during the year 1932-33.

It was further stated that the Minister deemed it essential to give, without delay, notice of the effect of the decision of His Majesty's Government upon the policy of the Ministry, and that it would be of the greatest assistance if authorities could inform him at an early date of any approved schemes which they themselves considered in the altered circumstances should be deferred for a period of at least two years, and would cause the accompanying schedules to be completed and returned to him.

The Surveyor reported that in accordance with instructions the schedules referred to had been completed and forwarded to the Ministry;

RECOMMENDED that the action taken be approved.

The southern end of the row will, however, be 22' in front of existing buildings.
I suggested that if the Council gave their sanction to the new building line, the owner might convey, free of charge, the land required for the widening, in accordance with the quite general practice, but the owner in this case is asking for compensation.

The Committee also considered correspondence received from the Clerk of the South Mimms Rural District Council, indicating that his Council had been asked to confer with the Middlesex County Council with a view to the appointment of an official restricted from private practice; that the two Councils with which it might be possible to make such an arrangement were this Council and Friern Barnet and that he would be glad to know whether it was likely that some such suggestion might be entertained;

i) Juvenile Employment Bureau.

(i) General and Statistical.

In common with most other Bureaux, there has been an increasing number of juveniles in this area seeking assistance in the obtaining of suitable employment. At the present time there is a minimum demand for juvenile labour in such occupations as junior clerks, cashiers, shop assistants, etc.. Vacancies in prospective skilled occupations are few and far between and choice of employment for both boys and girls is very limited in as far as vacancies are concerned.

The table following will show the position for the last four months:-

This gives an aggregate of 64 claims, in respect of which £55.14.6. has been paid out in Unemployment Insurance Benefit, an average of just under 17s.5d. per claim. The weekly amounts paid out have ranged from £5.16.3. paid to 16 juveniles, to £1.5.6. to three claimants. Individual payments have totalled 159 which gives an average of 7s.0d. to each claimant per week.

168 Unemployment Insurance Books have been issued.

(ii) After Care.

Miss Syer, Organizer of After-care work, has, owing to ill health, been unable to carry on for the last few months. Miss Davey, Miss Dawson, Mrs. Elkan, Mrs. Isaacs, Miss Watts and Mr. Kent have continued to help in visiting the homes of the school leavers, and this work has proceeded normally. It is hoped that in the New Year Miss Syer will be able to resume the duties which she has so ably carried out in the past.

The Nineteenth Annual Report on Juvenile Employment, as circulated to members, has been considered, and is herewith presented for adoption.

Unemployed Juveniles - 3
Under the terms of Section 15 (2) of the Unemployment Insurance Act, 1930, it is provided that where a person being an insured contributor who is under eighteen years of age and has been employed for such period as may be proscribed, claims benefit, it shall be the duty of the Minister, if there is an approved course

of instruction at which that person can reasonably be required to attend, to inform him that such a course is available, and that if he fails without good cause to attend the course he will be disqualified for the receipt of benefit in respect of days of non-attendance.

In many areas approved day courses of instruction have been established at which claimants have been required to attend.

Owing to the usually small number of unemployed juveniles in Finchley such classes, however, have not yet been provided in connexion with this Authority.

The National Advisory Council for Juvenile Employment (England and Wales) have recommended the utilisation of Evening Classes which may be approved as Courses of Instruction within the meaning of the Act.

Your Committee have therefore prepared a proposal whereby unemployed juvenile claimants shall attend Courses of Instruction at either of the Evening Classes established by the Middlesex Education Committee for Finchley.

This proposal is being submitted to the Middlesex Education Committee and the Ministry of Labour. After approval its effect will be that all juveniles in Finchley claiming Unemployment Insurance Benefit shall be required to attend courses of instruction on three evenings per week. Failure to attend, unless a satisfactory reason is forthcoming, will disqualify the claimant from receiving benefit for days of non-attendance.

RECOMMENDED:

that this action be approved.

d) Domestic Service - Insurability.

In May last the Juvenile Employment Committee, at the request of the Birkenhead Education Authority, considered the following recommendation and agreed to give it support. The recommendation was however rejected by the Council at its meeting held on the 22nd June.

The Juvenile Employment Committee have given further consideration to the question and desire to re-submit their recommendation and to request the Council's support thereto:-

RECOMMENDATION:

"That representations be made to the Ministry of Labour
"that the time is now opportune for the inclusion of
"Domestic Service within the scope of the Unemployment
"Insurance Acts; that the Minister be requested to
"consider the advisability of instituting legislation to
"this effect, and that copies of this resolution be sent
"to all Education Authorities administering Section 107
"of the Education Act 1921.

MIDDLESEX EDUCATION COMMITTEE

10, Great George Street,
Westminster, S. W. 1.

22nd September 1931.

H. Wood Carter, Esq.,
Council Offices,
Church End,
Finchley, N. 3.

Dear Sir,

In connection with the proposal of your Authority to build a new school at Summers Lane, you will remember that the question of possible vacancies at Holly Park School was mentioned. Apart from the question of distance, there are not sufficient vacancies materially to affect the need of the accommodation it is proposed to provide.

In considering the matter generally, and especially in the light of the present economic conditions, you will remember that a tentative suggestion was made that the Finchley County School, which is in close proximity to Summers Lane, might be placed at the disposal of your Authority, while that portion of the Great North Road School not now occupied might be available for secondary school purposes.

This arrangement might appear to provide the accommodation required by the two authorities, and, at the same time, save the Finchley Urban District Council the capital cost of a new school and the Middlesex County Council the expenditure on the proposed alterations at the County School.

I brought the matter before the Higher Education Sub-Committee at their meeting on Tuesday, September 15th, when they desired me to inform you that they considered that the usefulness of the suggestions might further be explored in discussion between the two Authorities.

Accordingly, I shall be glad to hear whether your Authority wish to consider the suggestion in further detail.

Yours faithfully,

(Signed)

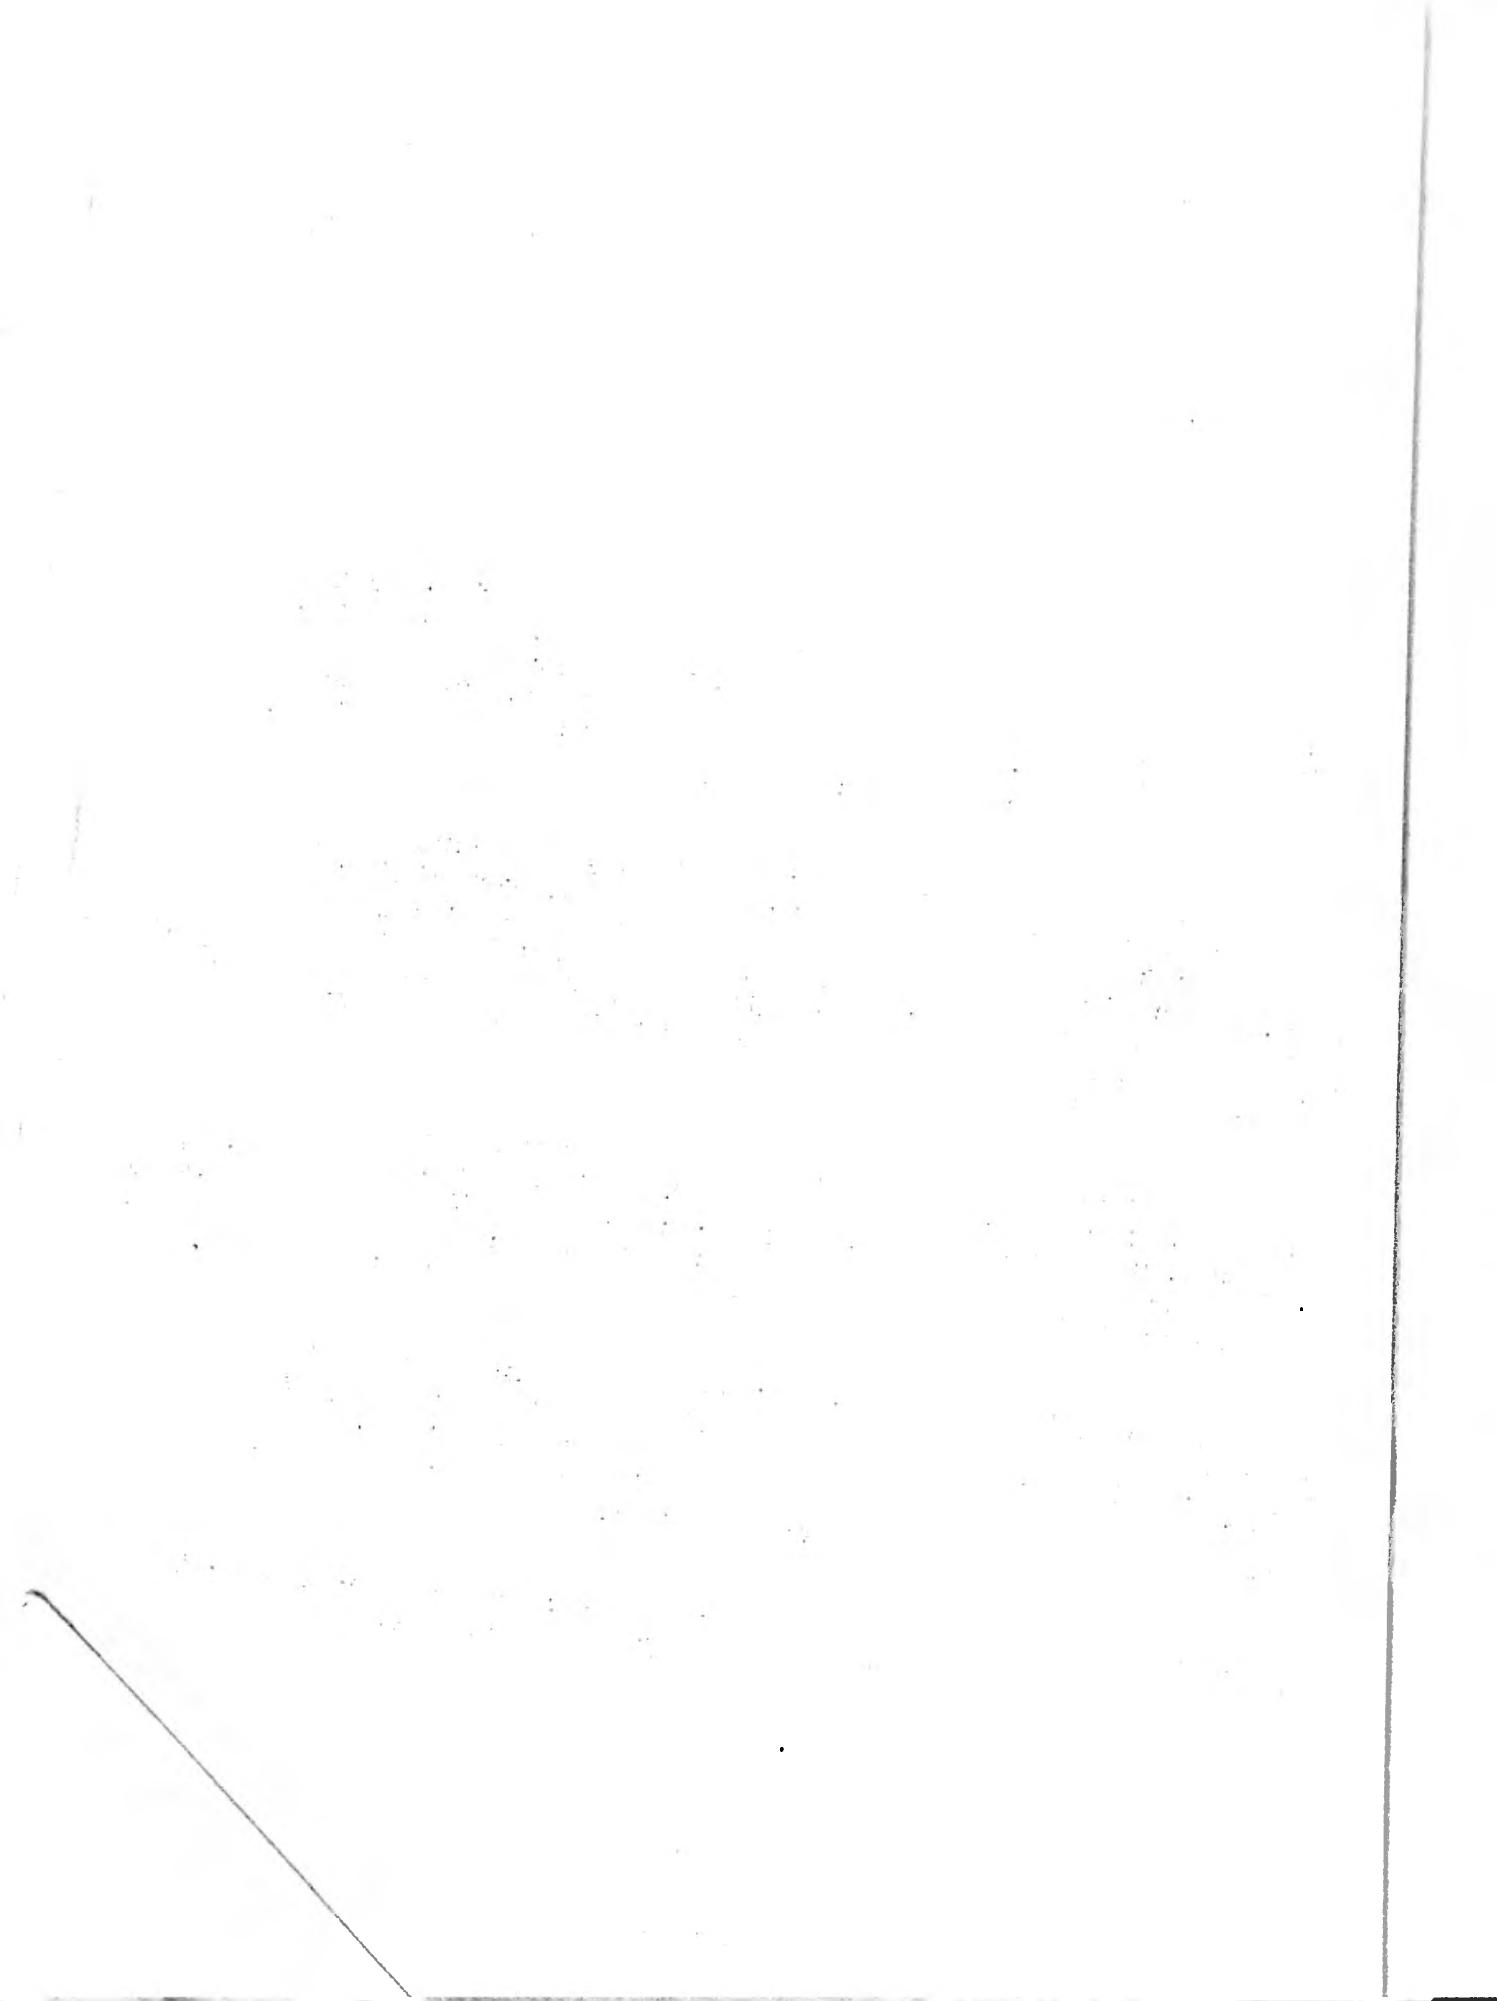

H. M. WALTON,

Secretary.

RECOMMENDED that the notice given, under Minute No. 56 (May, 1931), by the Finchley Authority to the Middlesex Authority to terminate their tenancy of that portion of the school site at Summers Lane which is subject to three months' notice be rescinded, and that the terms of the existing agreement continue until the expiration of the present lease (September, 1932) and any renewal thereof, provided the Middlesex Authority will agree to a month's notice being given if this portion of the ground should be required before the date mentioned.

They pointed out that it would appear from the Agreement that three calendar months' notice to expire on one of the usual quarter days was necessary and that as this was the case, they presumed that strictly speaking the notice to quit should have been given on the 25th September, 1931; that it was only on the 29th September, that their Client ascertained that something more than the usual quarter's notice was necessary and that in these circumstances if the Council would meet him and accept the notice expiring at Christmas it would be much appreciated;

Chairman.

FINANCE COMMITTEE'S REPORT (SPECIAL MEETING).

16th October, 1931.

Present : Councillor Sommerfield (Chairman), Councillor Langlands (Vice-Chairman), Councillors Briant, Pateman, Pike, H. O. Syrett, and Wilmot, and Councillors Bennett, Pugsley, Pulham, Mrs. Timberlake, and Wells (non-Members).

1022 National Economy Scheme.—Referring to Minute No. 811, the Committee carefully considered the references from the various spending Committees of the Council, from which it appeared that it was hoped to be able to effect the under-mentioned savings, consequent largely upon postponement of works, during the current financial year :—

£
Highways Works and Fire Brigade 4,901
Town Planning and Open Spaces 578
Public Health 1,669
General Purposes (Library Service) 1,000
Education (£4,412)—adjusted in consequence of alteration in Grant 1,703

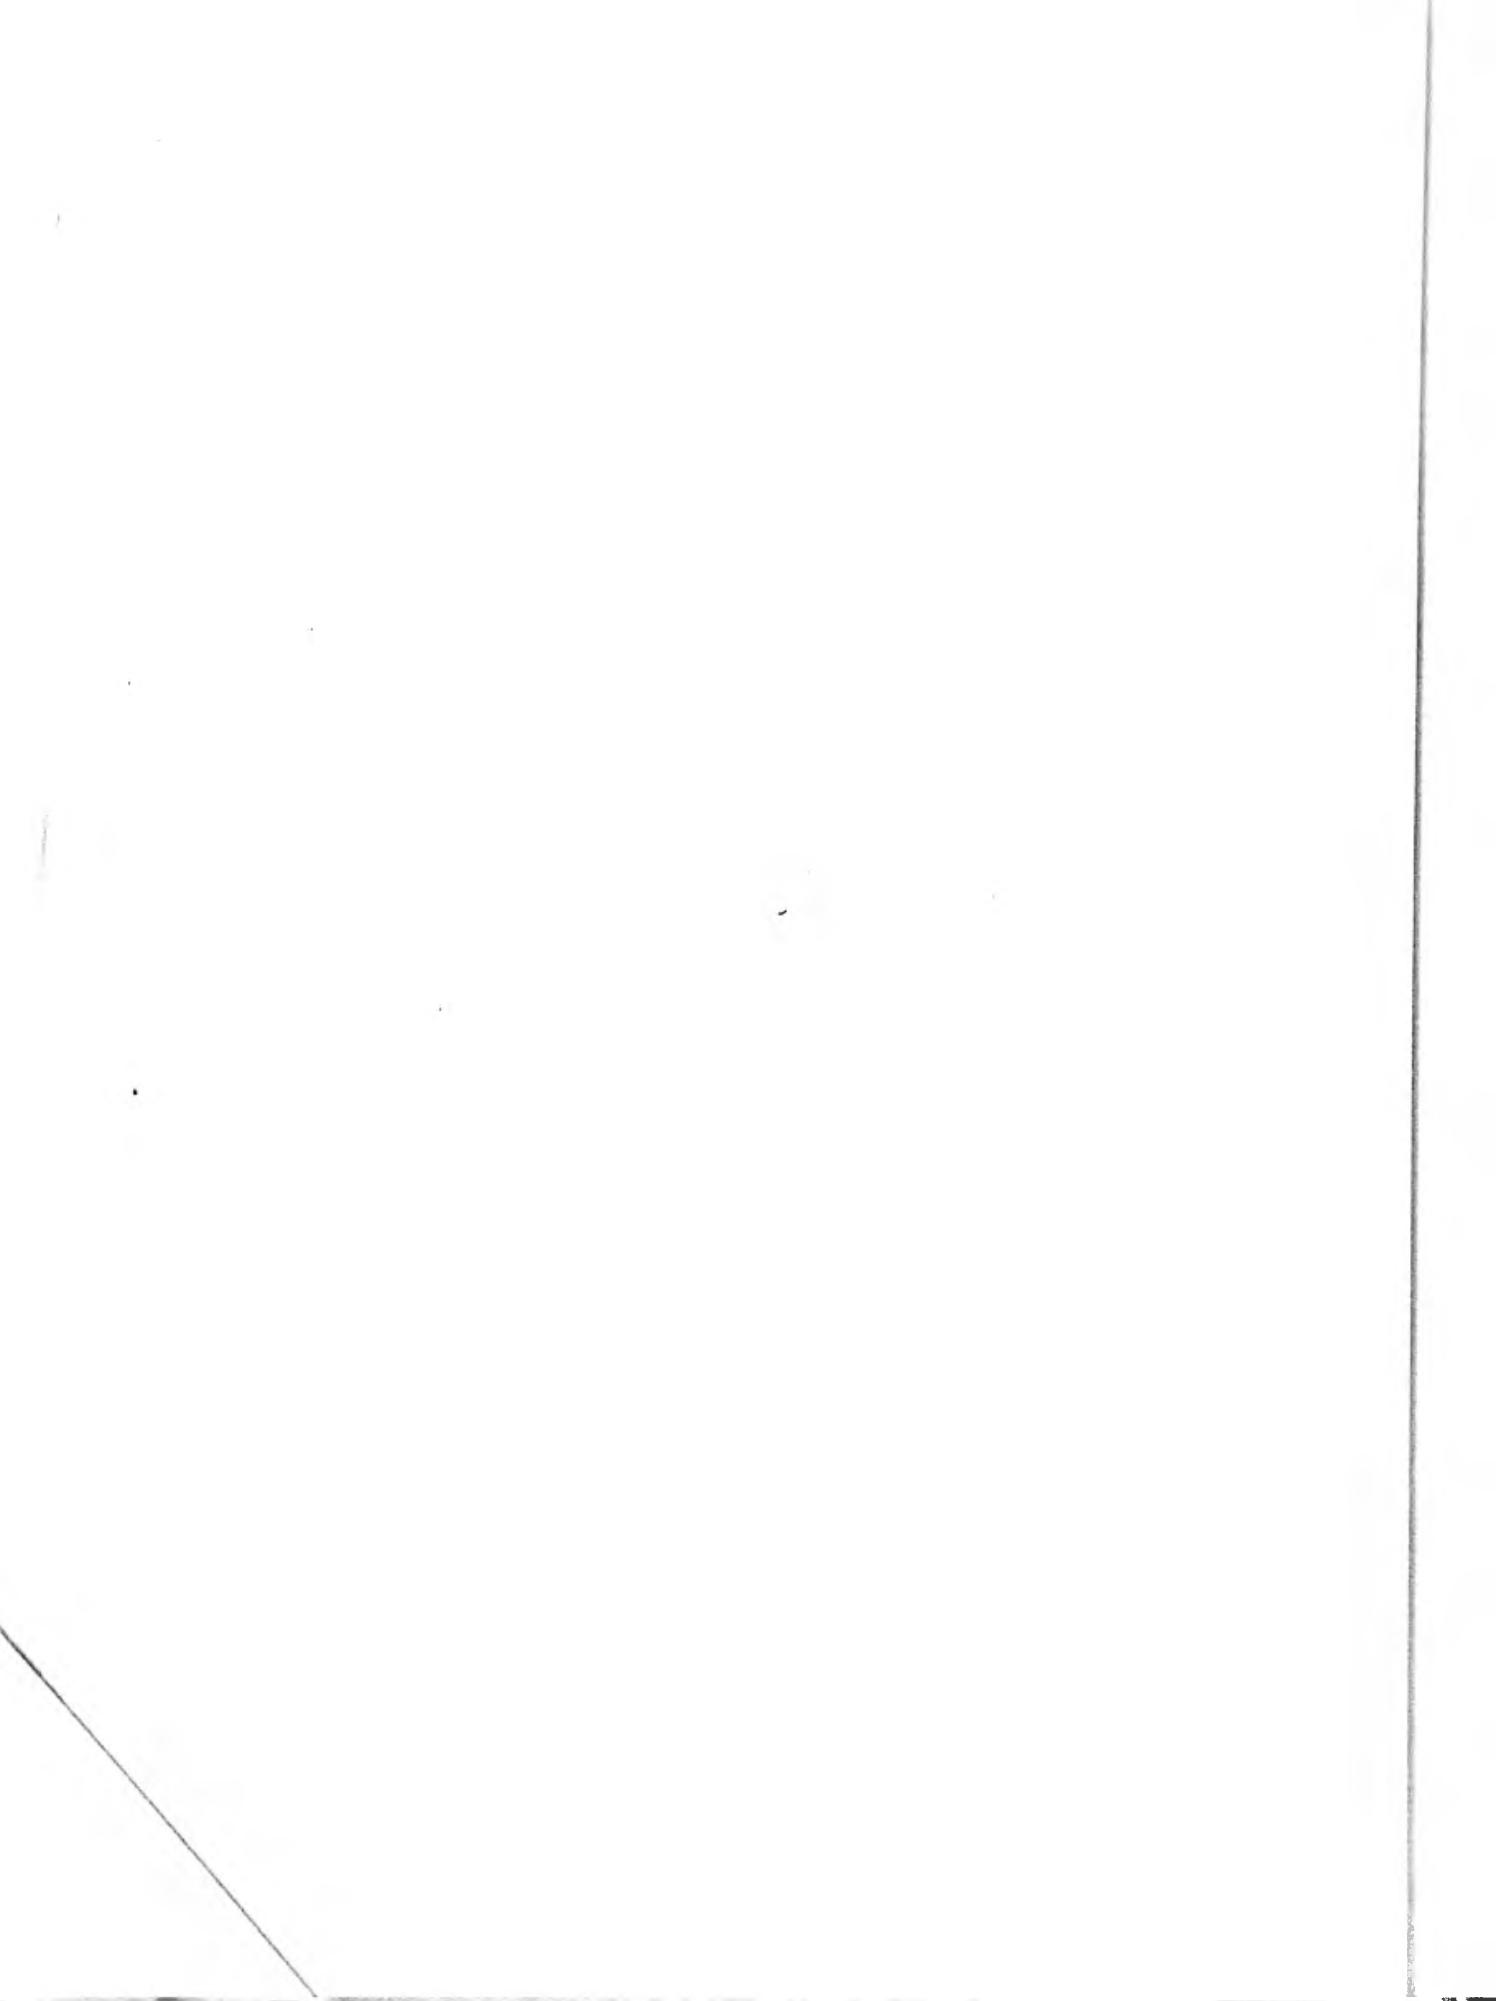

It was reported that the Electricity Committee had also considered the resolution of the Council and with a view to assisting in the present financial situation, it had been agreed, subject to the approval of the Electricity Commissioners, to transfer to the General Funds of the Council a sum of £1,000 from the balance in hand on revenue account on the 31st March last, such sum to be applied in aid of the local rate.

The Chairman of the Committee indicated the commitments of the Council to date with respect to supplemental expenditure, the extra burden now to be met from revenue on account of education, and unrealised revenue originally estimated for the current year;

RECOMMENDED—

- (1) that the Council accept the interim financial statement circulated and instruct the Committees concerned definitely to effect the saving of the respective amounts mentioned;
- (2) that the Chairman of the Committee present a Statement to the Council amplifying the position.

H. G. SOMMERFIELD,
Chairman.

HOUSING (SPECIAL) COMMITTEE'S REPORT.

20th October, 1931.

Present : Councillor Briant (Chairman), and Councillors Pateman, Sommerfield, Mrs. Timberlake and Wells.

1023 Minutes.—The Minutes of last Meeting were taken as read, confirmed and signed.

1024 Housing Scheme No. 6.—The Clerk reported that as a result of an enquiry which he had made of the Ministry of Health, a communication had been received from the Ministry to the effect that in considering any proposals for the erection of houses with the rate and Exchequer assistance provided by the Act of 1924, or that of 1930, the Council would no doubt have careful regard both to their resources and to the extent to which a need existed amongst the working-class families of the district which could not be met except by such provision, and would be careful to limit to the minimum necessary the cost of any houses that might be required.

In accordance with the instructions of the Committee at last meeting, the Surveyor submitted detailed plans and estimates of the cost of erection of houses and flats respectively on the sites indicated below :—

(a) Site No. 1—Junction Summers Lane and Woodhouse Road.—

30 flats (24—2 bedroom, non-parlour type).

HOUSING (SPECIAL) (continued).

It was reported that all five sites were the property of the Council, and that their respective values had been assumed as follows :—

Site No.	1—	£1,500	an acre.
" "	3—	£510	" "
" "	5—	£1,800	" "
" "	6—	£740	" "
" "	7—	£1,600	" "

It was further reported that Site No. 7 formed part of the Sewage Works land, and that it would probably be necessary to obtain an equivalent area elsewhere in exchange.

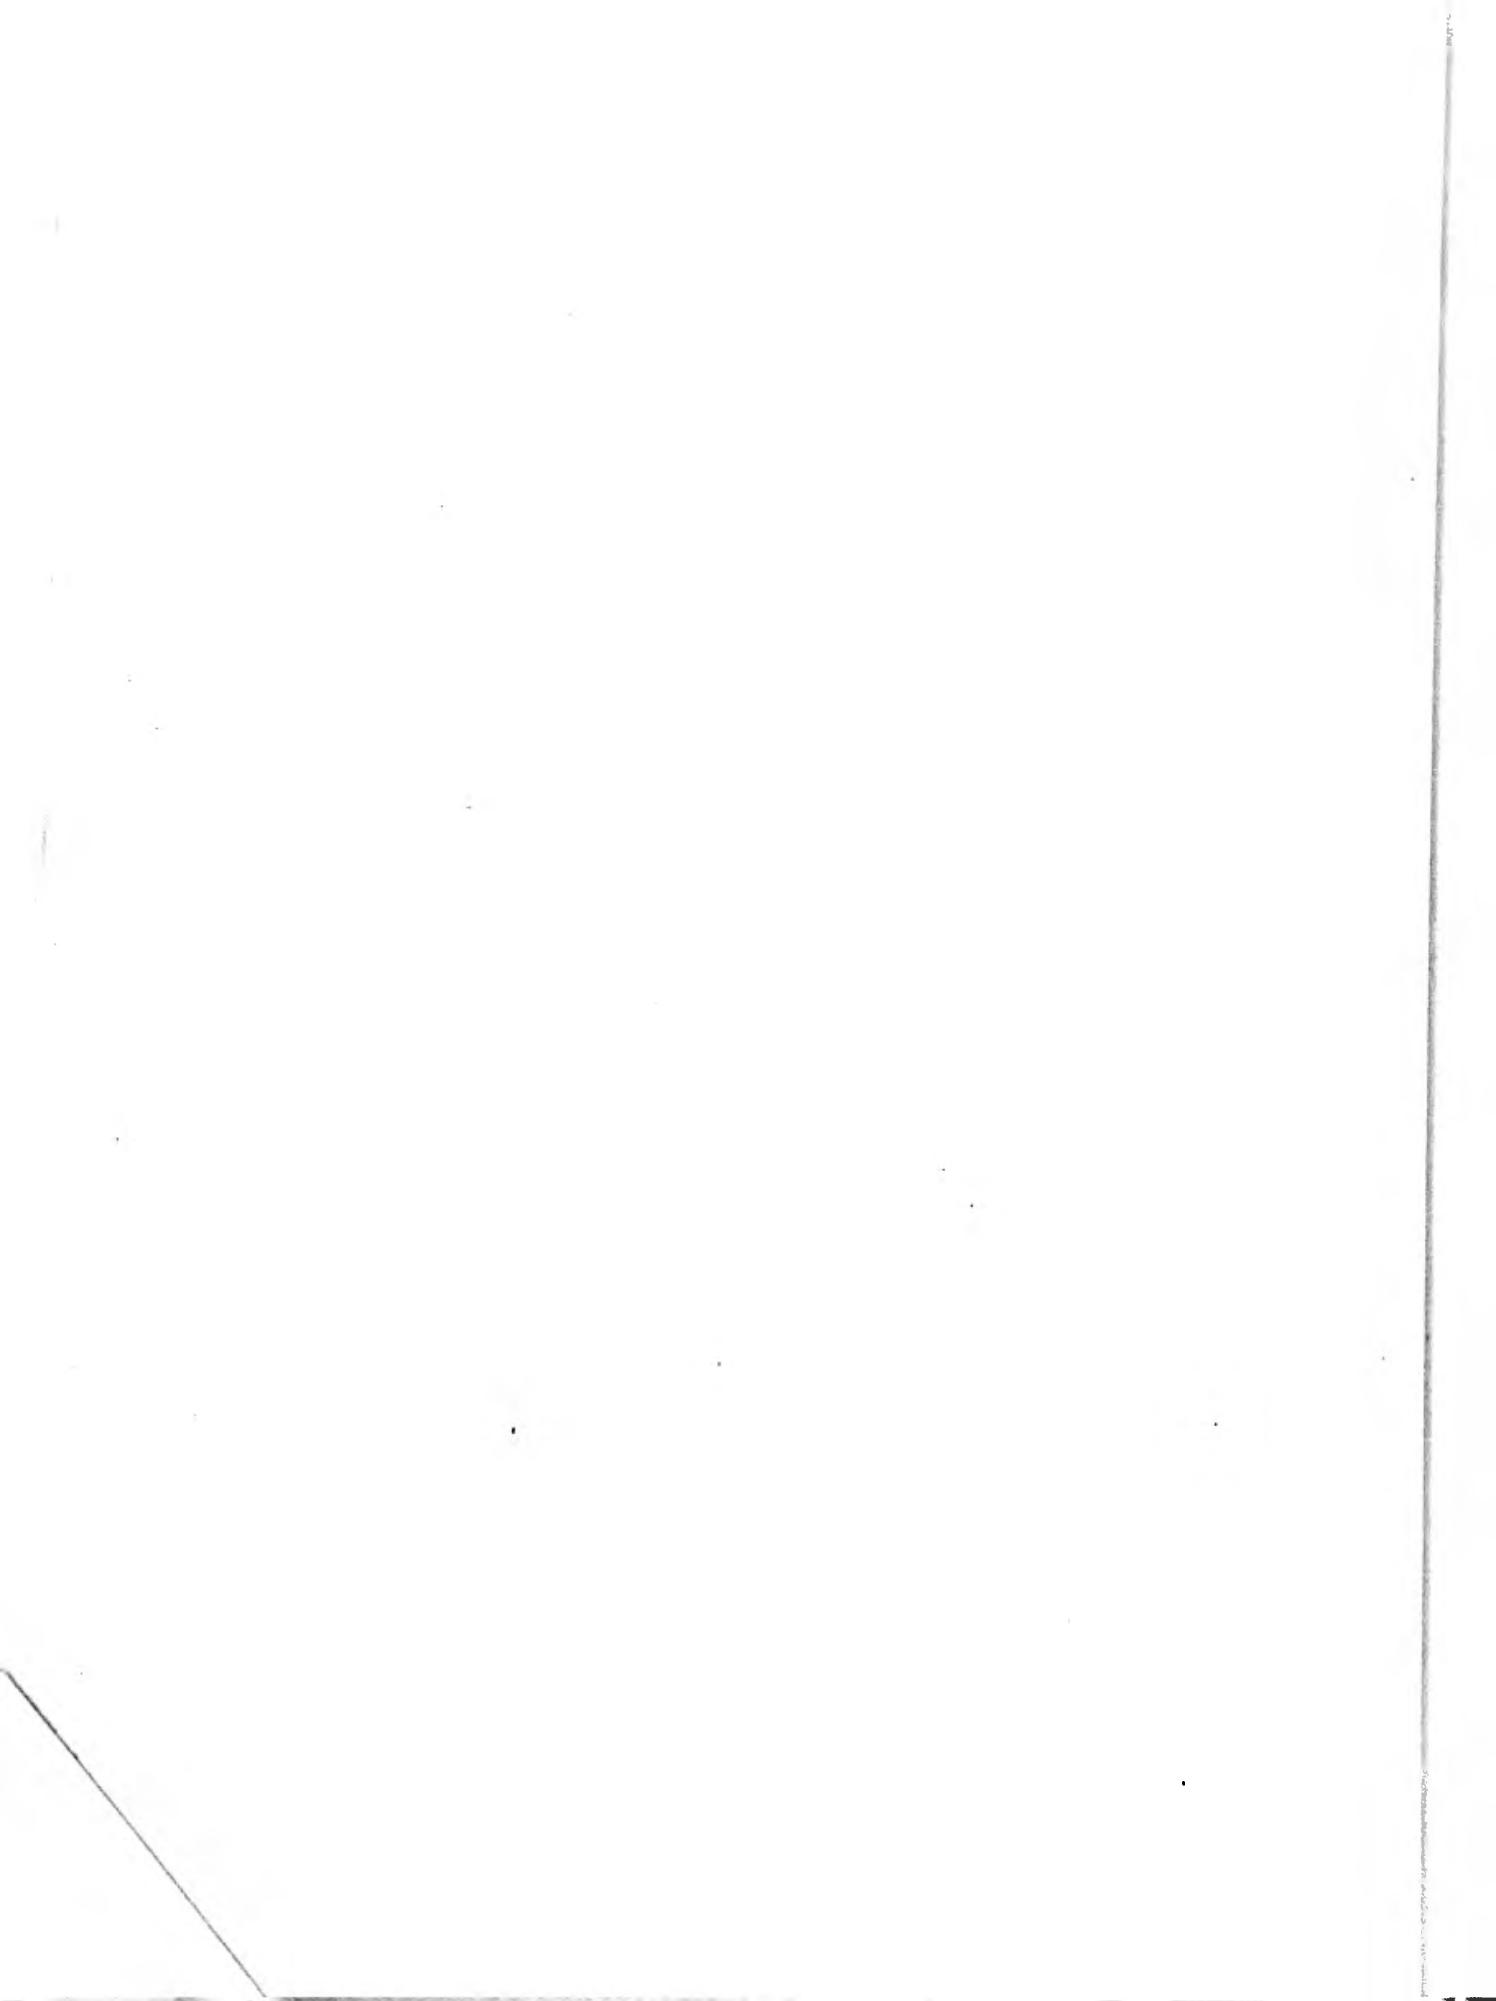

Instructions were given to the Surveyor to submit at the meeting of the Council a tabulated statement, giving the total capital cost per house, the corresponding total annual cost, and the suggested rent per week to meet that cost ;

RECOMMENDED—

- (1) that the further consideration of Site No. 6 be deferred and that the Surveyor be authorised to report further thereon at the meeting of the Council ;
- (2) that the plans and estimates submitted with respect to Sites Nos. 1, 3, 5 and 7 be approved ;
- (3) that tenders be invited in due course for the carrying out of the Scheme ;
- (4) that the Clerk be instructed to make applications to the Ministry of Health for sanction to the necessary loan and for consent to any necessary appropriations of land ;
- (5) that authority be given to appoint (at the appropriate time) a clerk of works.

Chairman.

23rd November, 1931.

The Council fixed the period of the new Lease to
(2) ALLOTMENTS - CHERRY TREE HILL.

553(a)

Arising out of the expiry of the Lease of the above allotments to the Cherry Tree Hill Allotment Holders' Association Ltd. on the 29th September, 1931 a letter has been received from the Chairman of the Association asking the Council to grant the Association a year's extension of the old Lease as their Secretary had been under the impression that the Lease expired in October, 1932. He states that the allotment holders, acting on that information, have done a lot of work on the allotments, and bought manure, etc., and he asks that the Council will grant the extension desired to enable them to consider the new draft Lease.

The position with regard to these allotments is as follows:-

The Council originally held on lease from the Ecclesiastical Commissioners an area of $9\frac{1}{2}$ acres, which land was sub-let to the Cherry Tree Hill Allotment Holders' Association Ltd. for a period expiring on the 29th September, 1931.

Several areas were given up from time to time under notice from the Commissioners, and in connection with Town Planning Scheme No. 1 the Council scheduled 2a. 1r. 33p. as permanent allotments.

The Commissioners agreed not to raise objection to the land being so scheduled, subject to the Council agreeing to purchase.

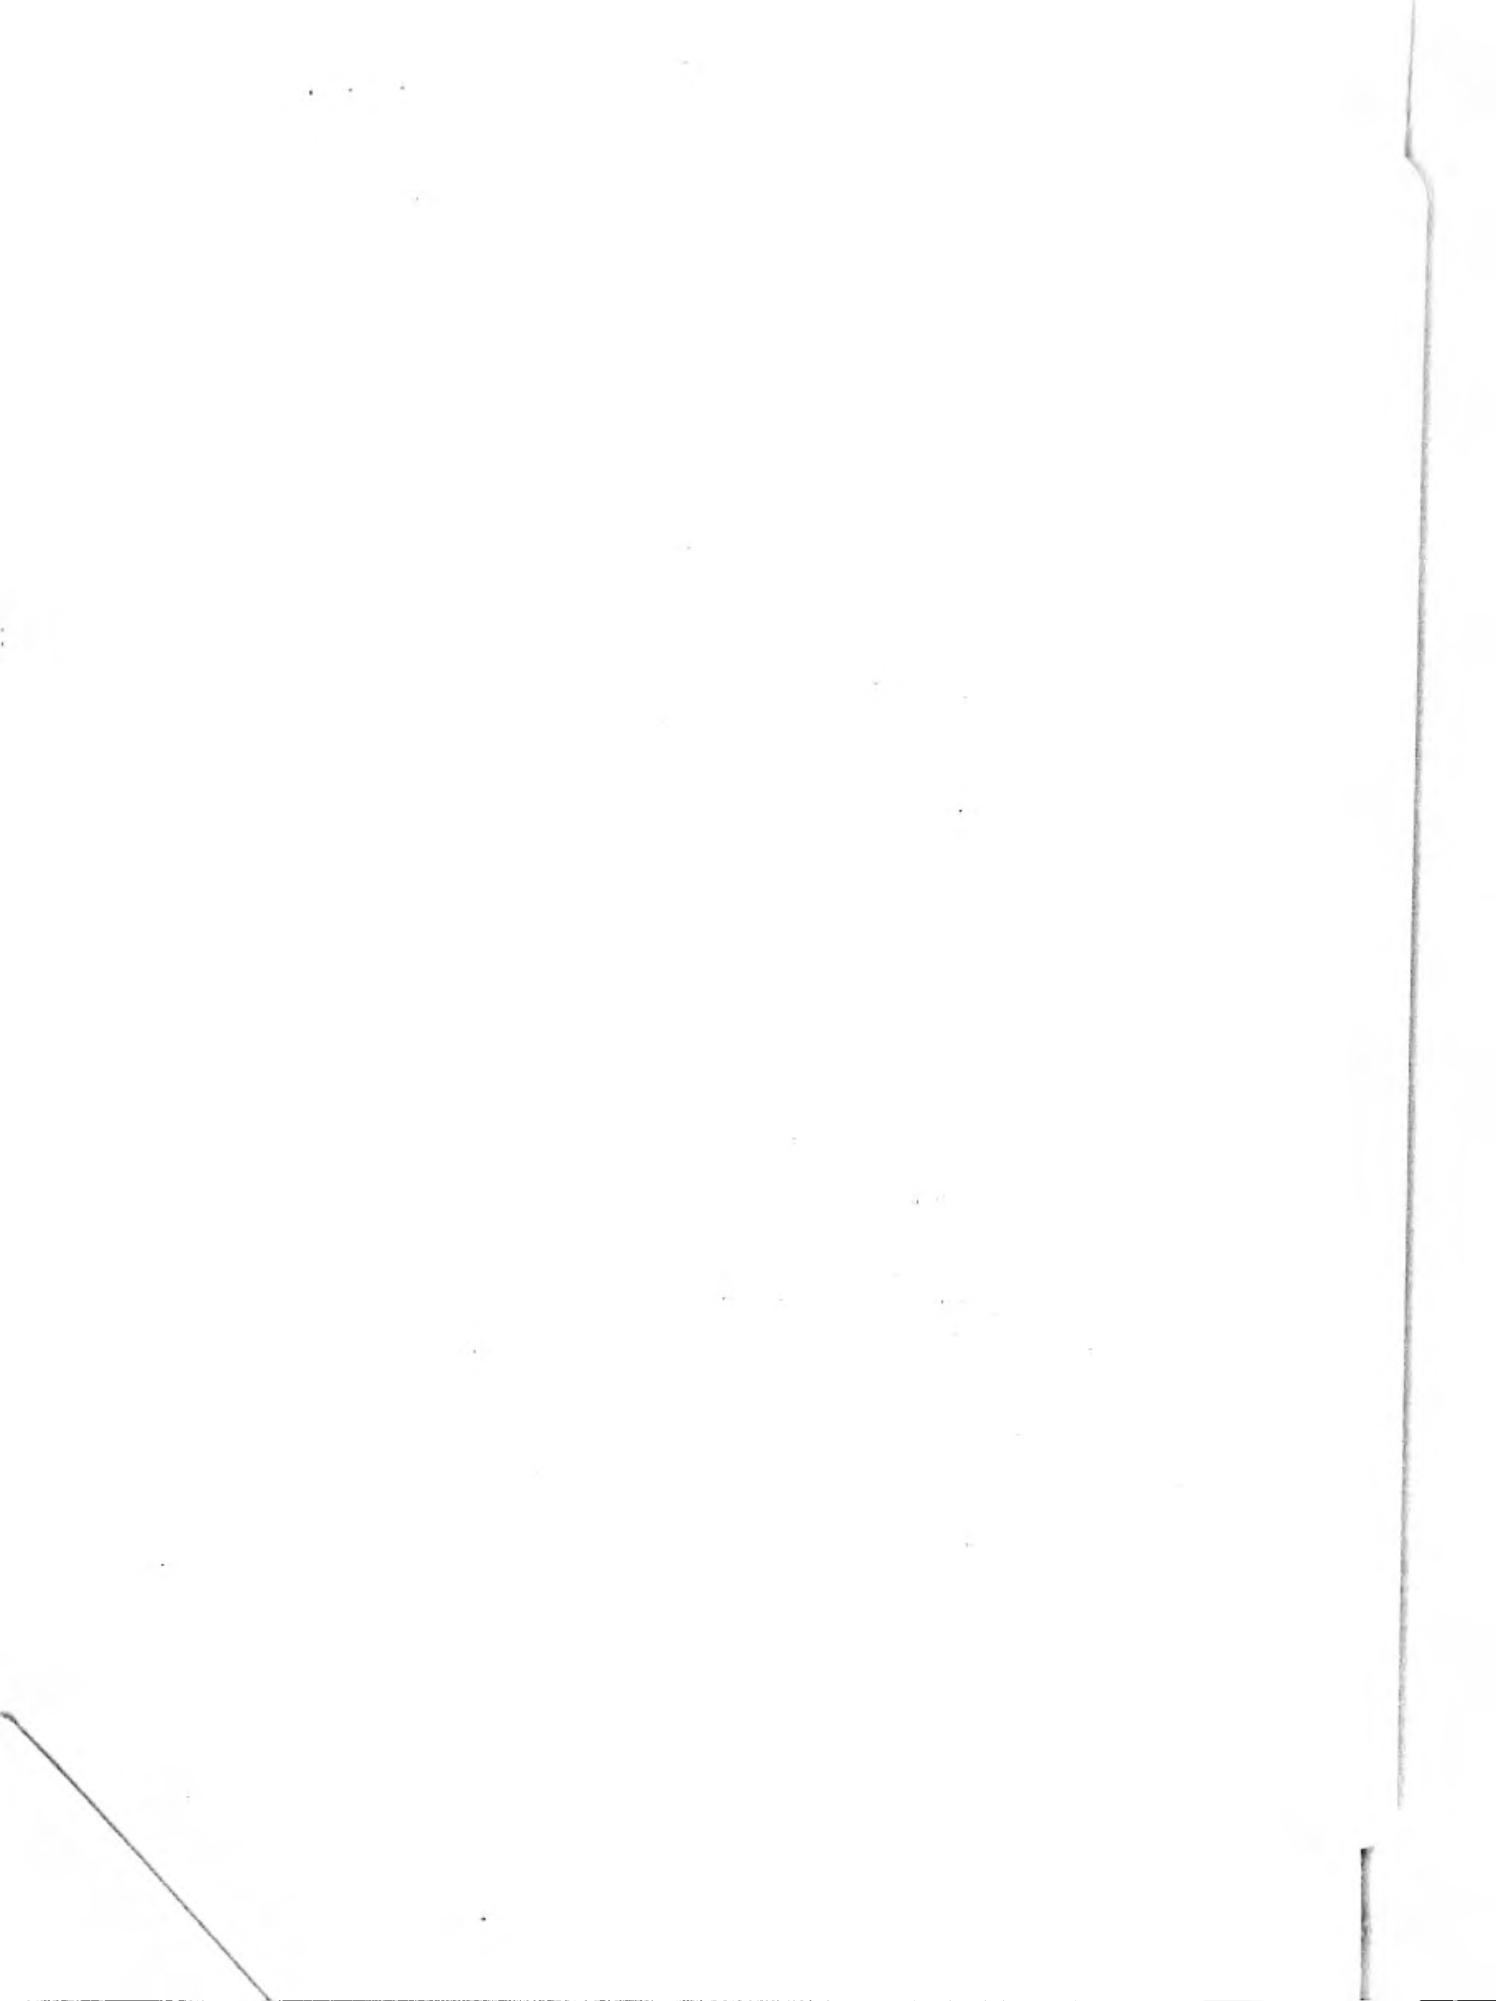

In July, 1928 the Council resolved

(a) to purchase the land at the sum of £723;

(b) to offer to lease the land to the Allotments Association at a rent of £31. 3. 4. per annum, exclusive of all rates and taxes; (such sum was calculated to cover loan repayment and establishment charges).

(c) in the event of such offer not being accepted to let the land direct to the allottees at a rent of 1s.10d. a pole per annum, plus a sum to cover rates and taxes.

The Association were immediately informed of the Council's offer, and on the 30th September, 1928 the Secretary wrote stating "... my Committee have agreed as and when this comes into force to accept your proposal."

The Council fixed the period of the new Lease to the Association at 10 years from the 29th September, 1931 and on the 3rd September the draft lease was forwarded to the Secretary of the Association at No. 40, Duncombe Road N. 19.

Nothing further was heard until some time later a letter was received from the Secretary, from a new address, stating that he had heard that a new lease was being granted, and asking for particulars thereof. A copy of the original draft was immediately forwarded to him.

Enquiries have been made of the Post Office Authorities, but no trace of the original letter and draft lease has been found.

The Accountant states that the rent payable by the Association under the old lease was £24.11. 6. in respect of an area of 4a. 3r. 33p. but the land, other than the 2a. 1r. 33p. purchased by the Council, reverts to the Ecclesiastical Commissioners, the freeholders, as from the 29th September, 1931.

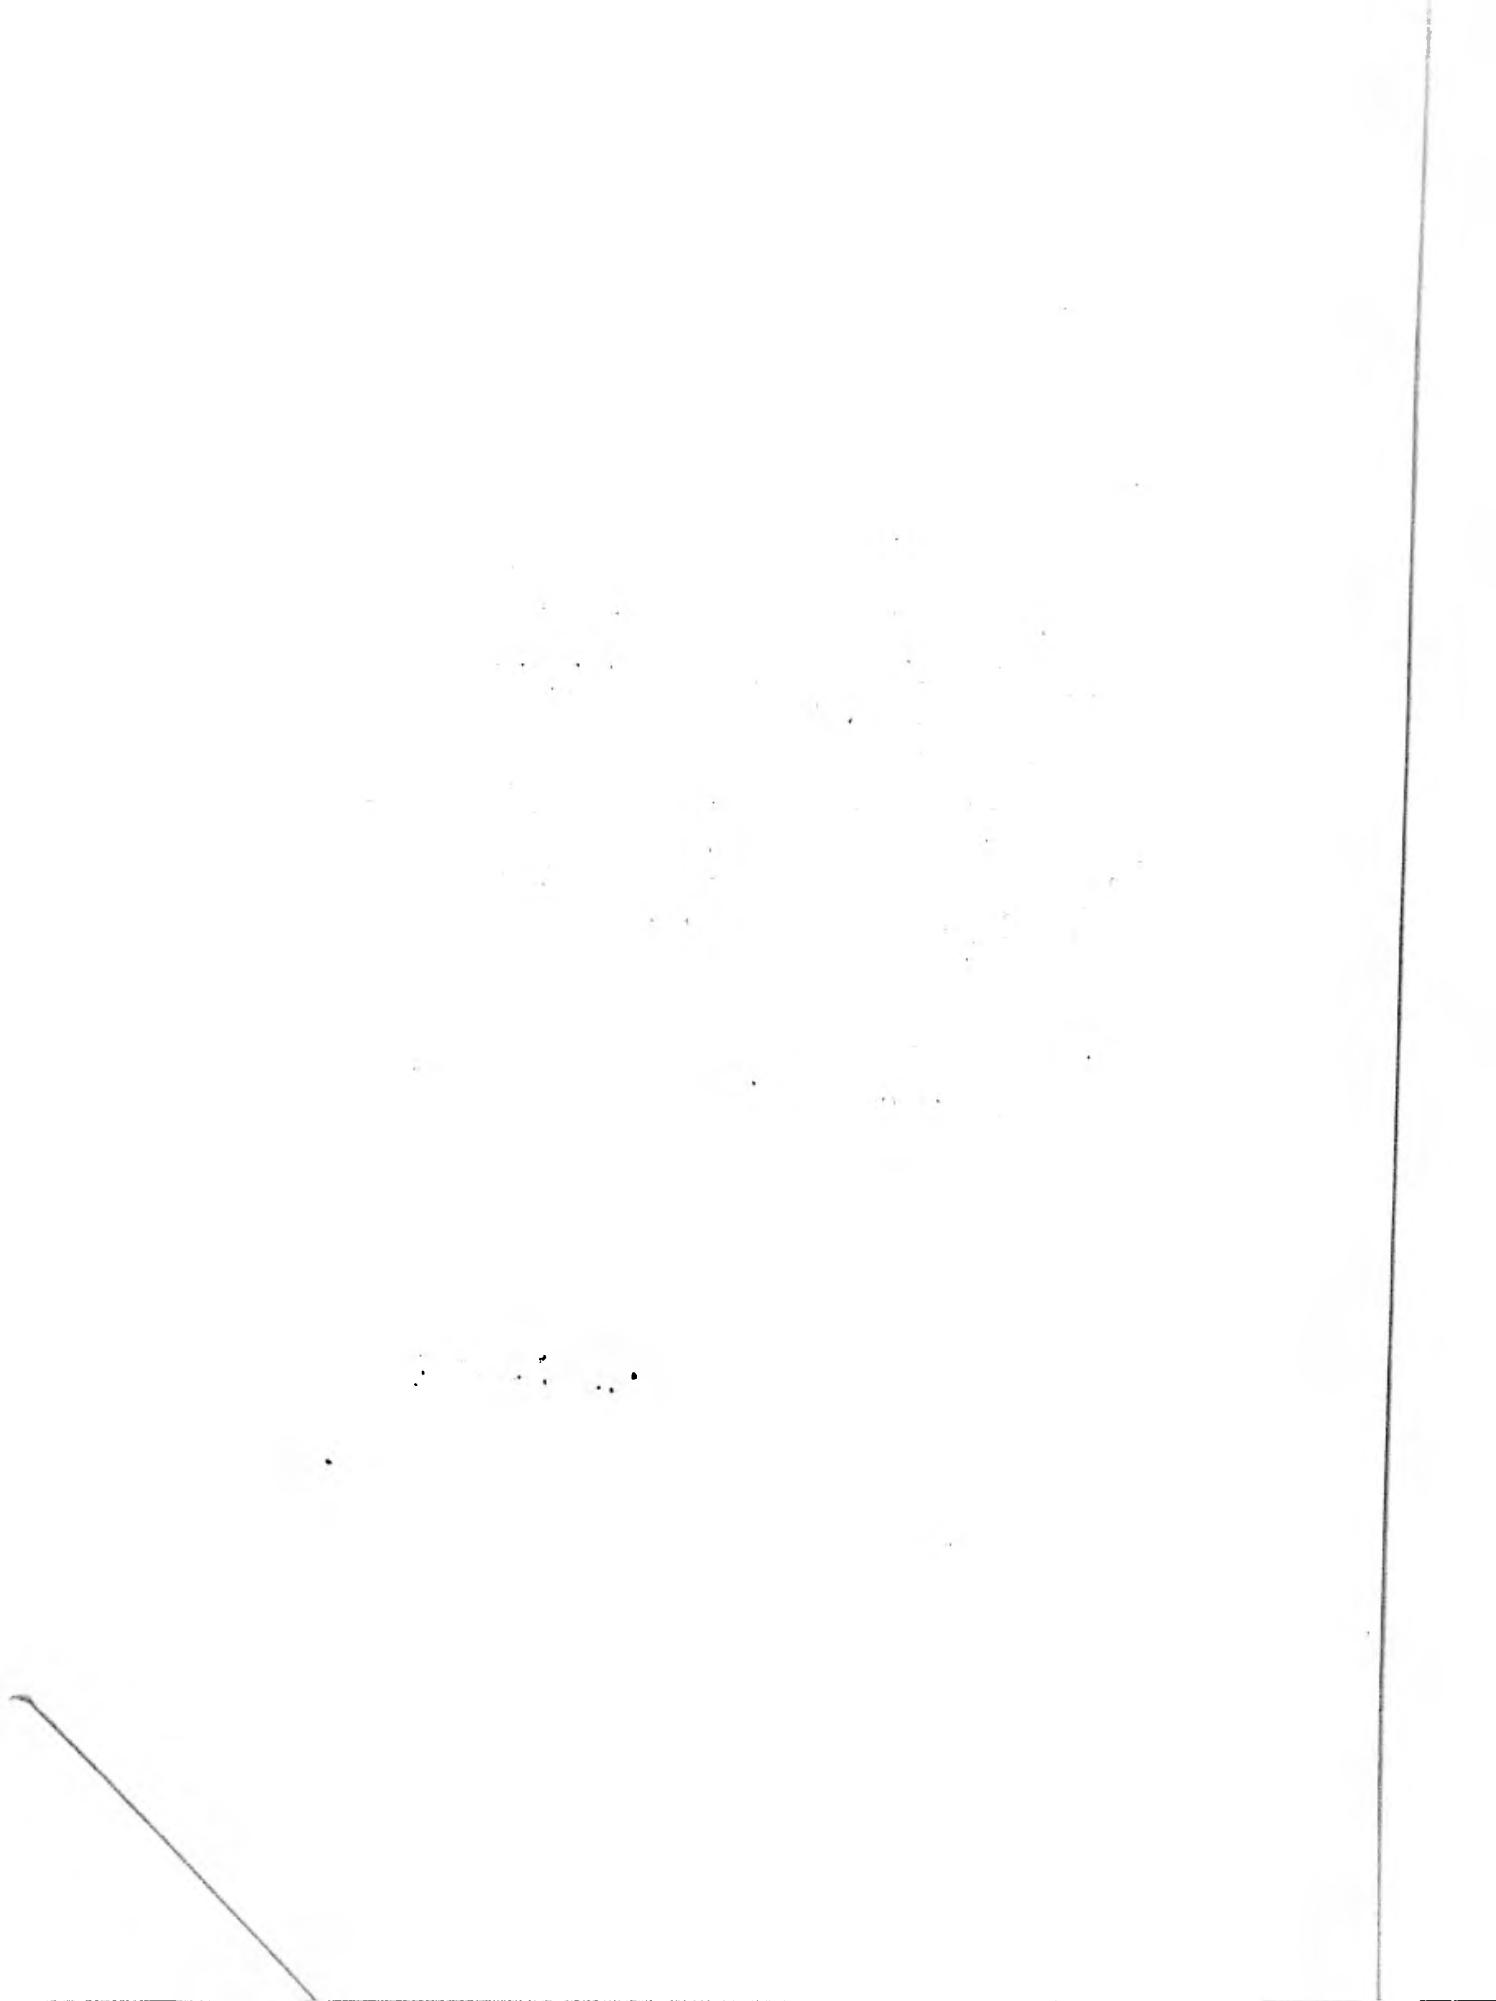

The Chairman of the Association has been informed that the land which reverted to the Commissioners on the 29th September, 1931 must be vacated by the Allotment holders immediately, as the Council's lease thereof from the Commissioners expired on that date.

H. WOOD BARTER,

Clerk of the Council.

I have to report that in the course of routine inspection the above-named premises were visited by Inspector Glover on the morning of the 3rd November, 1931. In the cold store at the back of the shop Mr. Glover found a boar's liver affected with flukes.

I visited the said premises at 1.55 p.m. on the same day and I examined the said liver and found it to be diseased (affected with flukes) and unfit for the food of man.

I therefore seized the said liver and submitted the same to Mr. Goodyear, J.P. who condemned the liver and ordered me to destroy it.

FINCHLEY URBAN DISTRICT COUNCIL.

PUBLIC HEALTH COMMITTEE - 3RD NOVEMBER, 1931.

JOINT REPORT OF THE ENGINEER AND SURVEYOR AND
THE CHIEF SANITARY INSPECTOR WITH RESPECT
TO THE POWERS EXERCISED BY THE COUNCIL IN
REGARD TO THE PAVING OF YARDS ETC.

To the Chairman and Members of the
PUBLIC HEALTH COMMITTEE.

In accordance with the instructions of your Committee,
we beg to report as follows:-

BYELAWS WITH RESPECT TO THE PAVING OF YARDS.

In 1903 your Council adopted byelaws with respect to
the paving of yards in connection with both existing and new
dwelling-houses. These byelaws were repealed consequent upon
the adoption by the Council of Section 25 of the Act of 1907,
so that there are no byelaws now in force requiring the provision
of paved yards.

SECTION 25 OF THE PUBLIC HEALTH ACTS AMENDMENT ACT 1907 - AMENDED
BY SECTION 20 OF THE PUBLIC HEALTH ACT 1925, provides for the
paving of courts, yards and passages in connection with and
exclusively belonging to dwelling-houses, including those used in
common by the occupiers of two or more dwelling-houses.

SECTION 20 OF THE FINCHLEY U. D. C. ACT 1908, provides for the
paving and draining of any existing court yard or passage used
in common by two or more occupiers.

Although the paving of yards in connection with new
buildings cannot be enforced under the Building Byelaws, yet, in
practise, a paved area is usually provided when a new house is
erected.

The yards in connection with occupied dwelling-houses
are dealt with under the Acts cited above by your Sanitary Inspector
in the manner provided.

This is the joint report
referred to in paragraph
1073 of the Public Health
Committee's Report of the
3rd November, 1931.

The existing agreement with the Hendon Authority was made prior to the introduction of the formula mentioned above. The object of the present request is to make the basis of payment uniform in all agreements respecting border children. At the present time payments are made to, and from, the under-mentioned Authorities :—

EDUCATION (*continued*).

1. Finchley and Hendon.
2. Finchley and Middlesex.
3. Finchley and Hertfordshire.
4. Finchley and London County Council.

With the exception of Hendon payments are made under the formula of the Education (Institution Children) Act, 1923;

RECOMMENDED that, in lieu of the existing agreement, a new agreement be entered into between the Finchley Education Authority and the Hendon Education Authority in respect of border children, to operate as from 1st April, 1932, whereby payments thereunder shall be in conformity with the formula approved by the Board of Education issued under the Education (Institution Children) Act, 1923.

1119 Repairs and Requisitions.—

RECOMMENDED that the repairs and requisitions, as set out in the Education Minute Book, be approved.

1120 St. John's School—Wear and Tear Repairs.—As a matter of urgency, during the Autumn holiday, the Managers of the St. John's School had two class rooms re-floored and two other class rooms partially re-floored, at a total cost of £57 12s. 10d. ;

RECOMMENDED that the Education Authority contribute five-sixths (namely £48 0s. 8d.) towards this expenditure.

EDUCATION (*continued*).

(b) that, subject to terms satisfactory to the Education Committee being forthcoming, the under-mentioned firms continue to supply the cleaning materials during the year 1932/1933, viz. :—

Messrs. Keenes Stores, East Finchley.—To supply: The Manor, Alder, North Road, St. Mary's, Holy Trinity and Roman Catholic Schools.

Messrs. Baker Bros., North Finchley.—To supply: The Northside, St. John's and Christ Church Schools.

1122 Swimming Instructress.—

RECOMMENDED that Miss A. M. Thetford be appointed swimming instructress for the girls from the elementary schools for the year 1932, at a salary of £75 for the season; approximately April—October.

1123 Payment of December Salaries.—The schools break-up for the Christmas holiday on 23rd December;

RECOMMENDED that authority be given for arrangements to be made for the December salaries to be paid before the commencement of the Christmas vacation 1931.

1124 Exchange of Teachers.—The Council will remember that Miss C. P. H. Routh, assistant mistress Christ Church School, was, in May last, granted leave of absence for one year to enable her to "exchange" with a teacher from Canada, under the League of Empire Exchange of Teachers' Scheme.

A letter, dated 17th October, has been received from the Board of Education stating that English teachers abroad, in addition to the ten per cent. reduction, have now to face the financial problems arising out of the decreased value of the pound. In these circumstances the Board will recognise for grant, at the rate of 50 per cent., the salary without reduction in these cases where the Education Authority desire to grant this concession.

A letter on this matter has been received also from the Interchange Officer of the Ontario Department of Education;

EDUCATION (*continued*).

RECOMMENDED that, during her year's leave of absence in Canada, the salary of Miss C. P. H. Routh be paid without the 10 per cent. reduction referred to in the Council's resolution of 28th September, 1931, No. 757.

1125 Re-Naming of Council Schools.—A letter of thanks and appreciation has been received from Mrs. E. Alder in respect of the re-naming of the Long Lane School to the Alder School, in memory of the late Mr. J. F. Alder.

1126 Estimate of Expenditure, 1932/1933.—In compliance with the request of the Board of Education contained in Circular 1413, a forecast of the estimated expenditure for the financial year 1932/1933 has been forwarded to the Board.

1127 Proposed New School—Summers Lane—Proposed Exchange of Schools—Finchley County School and Great North Road School (part of).—It was reported to the Committee that the Council, at their meeting on 30th October, 1931, postponed consideration of this matter for six months.

The Education Committee regret to learn of this decision and desire that the following facts be set out :—

It will be remembered :—

- (1) that since the issue of the Hadow Report the Board of Education have pressed the Authority from time to time to proceed with the re-organisation of the schools under their control;
- (2) in pursuance of that request the Education Committee submitted re-organisation proposals whereby the schools at East Finchley and Church End were re-organised as from the 1st August, 1931, and the schools at North Finchley were to be re-organised as from the 1st August, 1932, with additional accommodation necessary for this purpose;
- (3) the proposals submitted received the sanction of the Council on 27th October, 1930, and 18th May, 1931, and, in conformity therewith, the Education Committee submitted plans for a new school on the Summers Lane site.

EDUCATION (*continued*).

Sanction to advertise for tenders was given by the Council at their meeting in July last, with the request that the opinion of the Secretary to the Middlesex Education Committee should be obtained as to the need for such a school in conjunction with surrounding school facilities;

- (4) in replying to the request the Secretary to the Middlesex Education Committee made a tentative suggestion for an exchange of schools; such exchange would defer the necessity, so far as Finchley is concerned, of building the new school and, so far as the Middlesex Authority is concerned, of additions to the County School for secondary school purposes.

The Education Committee, whilst naturally having a preference for the building of a new school on the Woodhouse Estate, realise that, under present conditions, sanction for the expenditure probably would not be obtained, and feel that the suggested exchange will enable them to complete their re-organisation proposals by the date originally arranged and agreed to by the Authority;

- (5) the tentative suggestion referred to would also have the advantage of relieving the existing pressure upon the Manor School;

They therefore **RECOMMEND**—

- (a) that, under Standing Order No. 11 (paragraph 5, page 7) and having regard to new facts to be brought forward, the resolution of the Council of 30th October, 1931, relating to paragraph 952 of the report of the Education Committee of 12th October, 1931, be rescinded;
- (b) that, subject to the consent of the Board of Education, an agreement be entered into between the Middlesex County Council and the Finchley Urban District Council providing :—
 - (i) that the Middlesex Education Authority grant to the Finchley Urban District Council the right to use the premises of the Finchley County School as an elementary school as

EDUCATION (*continued*).

from the 1st August, 1932, for a period of five years in the first instance, at a rent of £100 per annum.

(ii) the Finchley Urban District Council grant to the Middlesex Education Committee the right to use part of the Great North Road Elementary School as a secondary school as from the 1st August 1932, for a period of five years in the first instance, at a rent of £100 per annum.

(iii) Repairs and Decorations.—

During the period when the one authority is using the premises of the other authority, all repairs and decorations (except those involving structural alterations for which see under) to be carried out by the owner Council.

With regard to any structural alterations, those to be carried out by the tenant authority with the approval of the owner authority.

(iv) Rate and Taxes (premises to be reassessed).—

The Finchley Urban District Council to be responsible for the rates and taxes on the present Finchley County School, whilst being used for elementary school purposes by the Finchley Urban District Council.

The Middlesex County Council to be responsible for that portion of the rates and taxes on the Great North Road School used for secondary school purposes by the Middlesex County Council.

(v) Maintenance.—

In respect of fuel, light and cleaning the Finchley Urban District Council to be responsible for the present County School buildings.

EDUCATION (*continued*).

With regard to the Great North Road building, the Middlesex County Council to refund to the Finchley Urban District Council $\frac{3}{5}$ ths of the total expenditure upon these items for the whole of the school premises at Great North Road.

(vi) Playing Fields.—

The County School Premises.—To be used by elementary school pupils except that the secondary pupils should have access to the tennis courts.

At Great North Road School.—Both secondary and elementary pupils (whether from the North Road Elementary School or from other elementary schools) to have the use of this playing field when it has sufficiently "rested" after reconditioning.

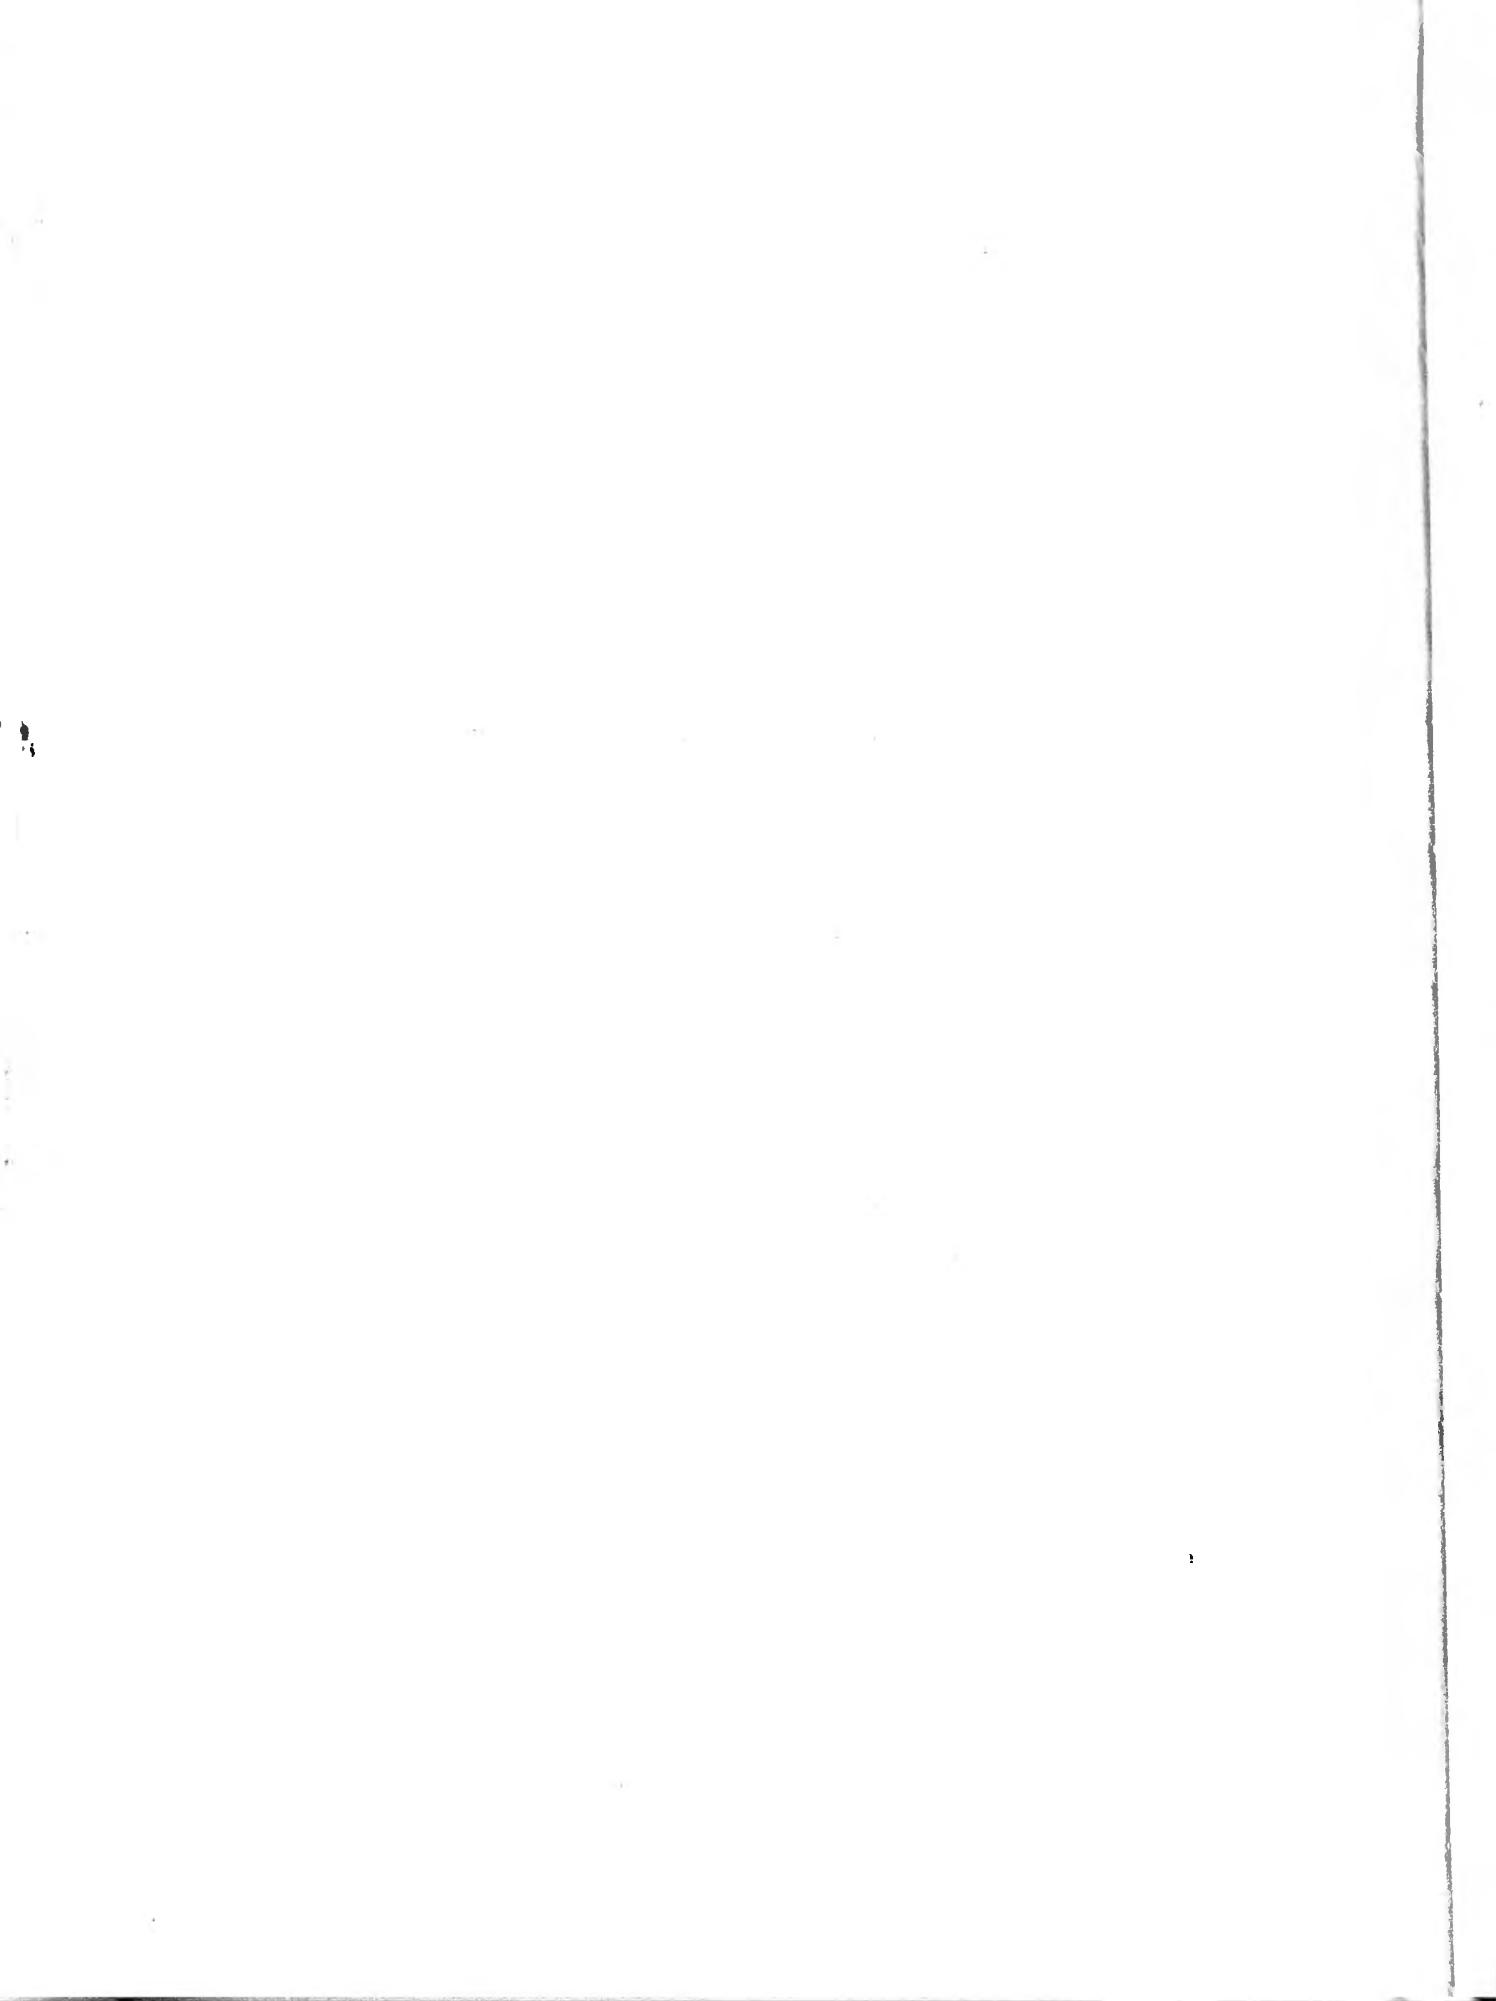

(vii) Evening Classes.—

In the event of evening classes continuing to be held at the present Finchley County School premises the basis of charge to be the same as for the use of any other school belonging to the Finchley Urban District Council when used for evening classes.

- (c) that on the completion of such agreement the Education Committee be authorised to take the steps necessary to give effect to the terms thereof;
- (d) that, in the event of the consent of the Board of Education to the proposals referred to in the foregoing recommendation being forthcoming, the erection of the proposed new school on the Summers Lane site be not proceeded with.

1186 Minutes.—The Minutes of last Meeting were taken as read, confirmed and signed.

1187 Rest and Reading Room—Avenue House.—In consequence of the opening of the Rest and Reading Room on the 1st January, 1932, the Committee carefully considered the question of making arrangements (a) for the supply of papers, periodicals, etc., and chairs therefor, and (b) for the engagement of a suitable attendant to take charge.

As regards (a), the Committee had before them a selected list of newspapers and periodicals, the cost of supply of which it was estimated would be £18 for the period 1st January, 1932, to 31st March, 1932, or £72 per annum;

- (3) that authority also be given for the purchase of one newspaper stand and twelve Lloyd Loom chairs at a cost of £11 and £18 respectively.

As regards (b) above, the Committee inspected certain rooms in the House which they were of opinion were suitable for occupa-tion by the person or persons to be appointed, and after discussion it was decided to recommend as follows :—

LIBRARIES (*continued*)

- (1) that the Surveyor be instructed to submit at the meeting of the Council an estimate of the cost of putting such rooms into a satisfactory state of repair;
- (2) that advertisements be inserted in the local press inviting applications for the temporary appointment of a married couple as Joint Caretakers of Avenue House and Attendants of the Reading Room thereat, at a combined wage of £2 per week, plus quarters, fuel, light and water, and that the duties attaching to the appointment be in accordance with the list to be prepared by the Clerk;
- (3) that authority be given to the General Purposes Committee to make the appointment at their next meeting;
- (4) that the hours of opening of the Rest and Reading Room be from 9 a.m. to 1 p.m.; 2 p.m. to 6 p.m., and 6.30 p.m. to 9 p.m.

of the covenant in the conveyance, he gathered that it would prevent such an exclusive letting as appeared to have been suggested; further, that even if a release from the covenant could be obtained, it was difficult to see how the suggestion could be carried into effect since any letting would apparently have to be effected under section 177 of the Public Health Act, 1875, and that the Minister would feel some difficulty in consenting to a letting of public property at a purely nominal rental;

RECOMMENDED—

Present: Councillor Bennett (Chairman), Councillors Brown, Grocott, Fulham and Wells, and Councillors Pateman, Wilmett and Mrs. Timberlake (non-members).

EXPENDITURE TO CENTRAL DEPOT - SQUIRES LANE.

It was reported that some time ago the Unemployment Grants Committee had drawn attention to the fact that certain of the conditions of grant with respect to the recruitment of the labour required for the work in connection with the above had not been complied with by the Council: that various interviews had taken place and correspondence had passed between the Unemployment Grants Committee and the Council, and that a letter had now been received stating that the Committee had given full and careful consideration to the circumstances in which the Council failed to ensure compliance with such conditions, and that the grant indicated for the Scheme might only be allowed to have effect to the limited extent of applying to 75 per cent of the approved expenditure out of loan which would normally have been eligible for grant aid;

RECOMMENDED that the matter be referred to the Surveyor for report.

GENERAL PURPOSES COMMITTEE'S REPORT.

10th November, 1931.

Part II.

Present: Councillor Wells (Chairman), Councillor Sommerfield (Vice-Chairman), Councillor Pike, C. S. Syrett and H.O. Syrett and Councillor Pugsley (non-member).

LOCAL GOVERNMENT SUB-COMMITTEE.

The following report of a meeting of the above Sub-Committee held on the 5th November, 1931, was submitted and considered :-

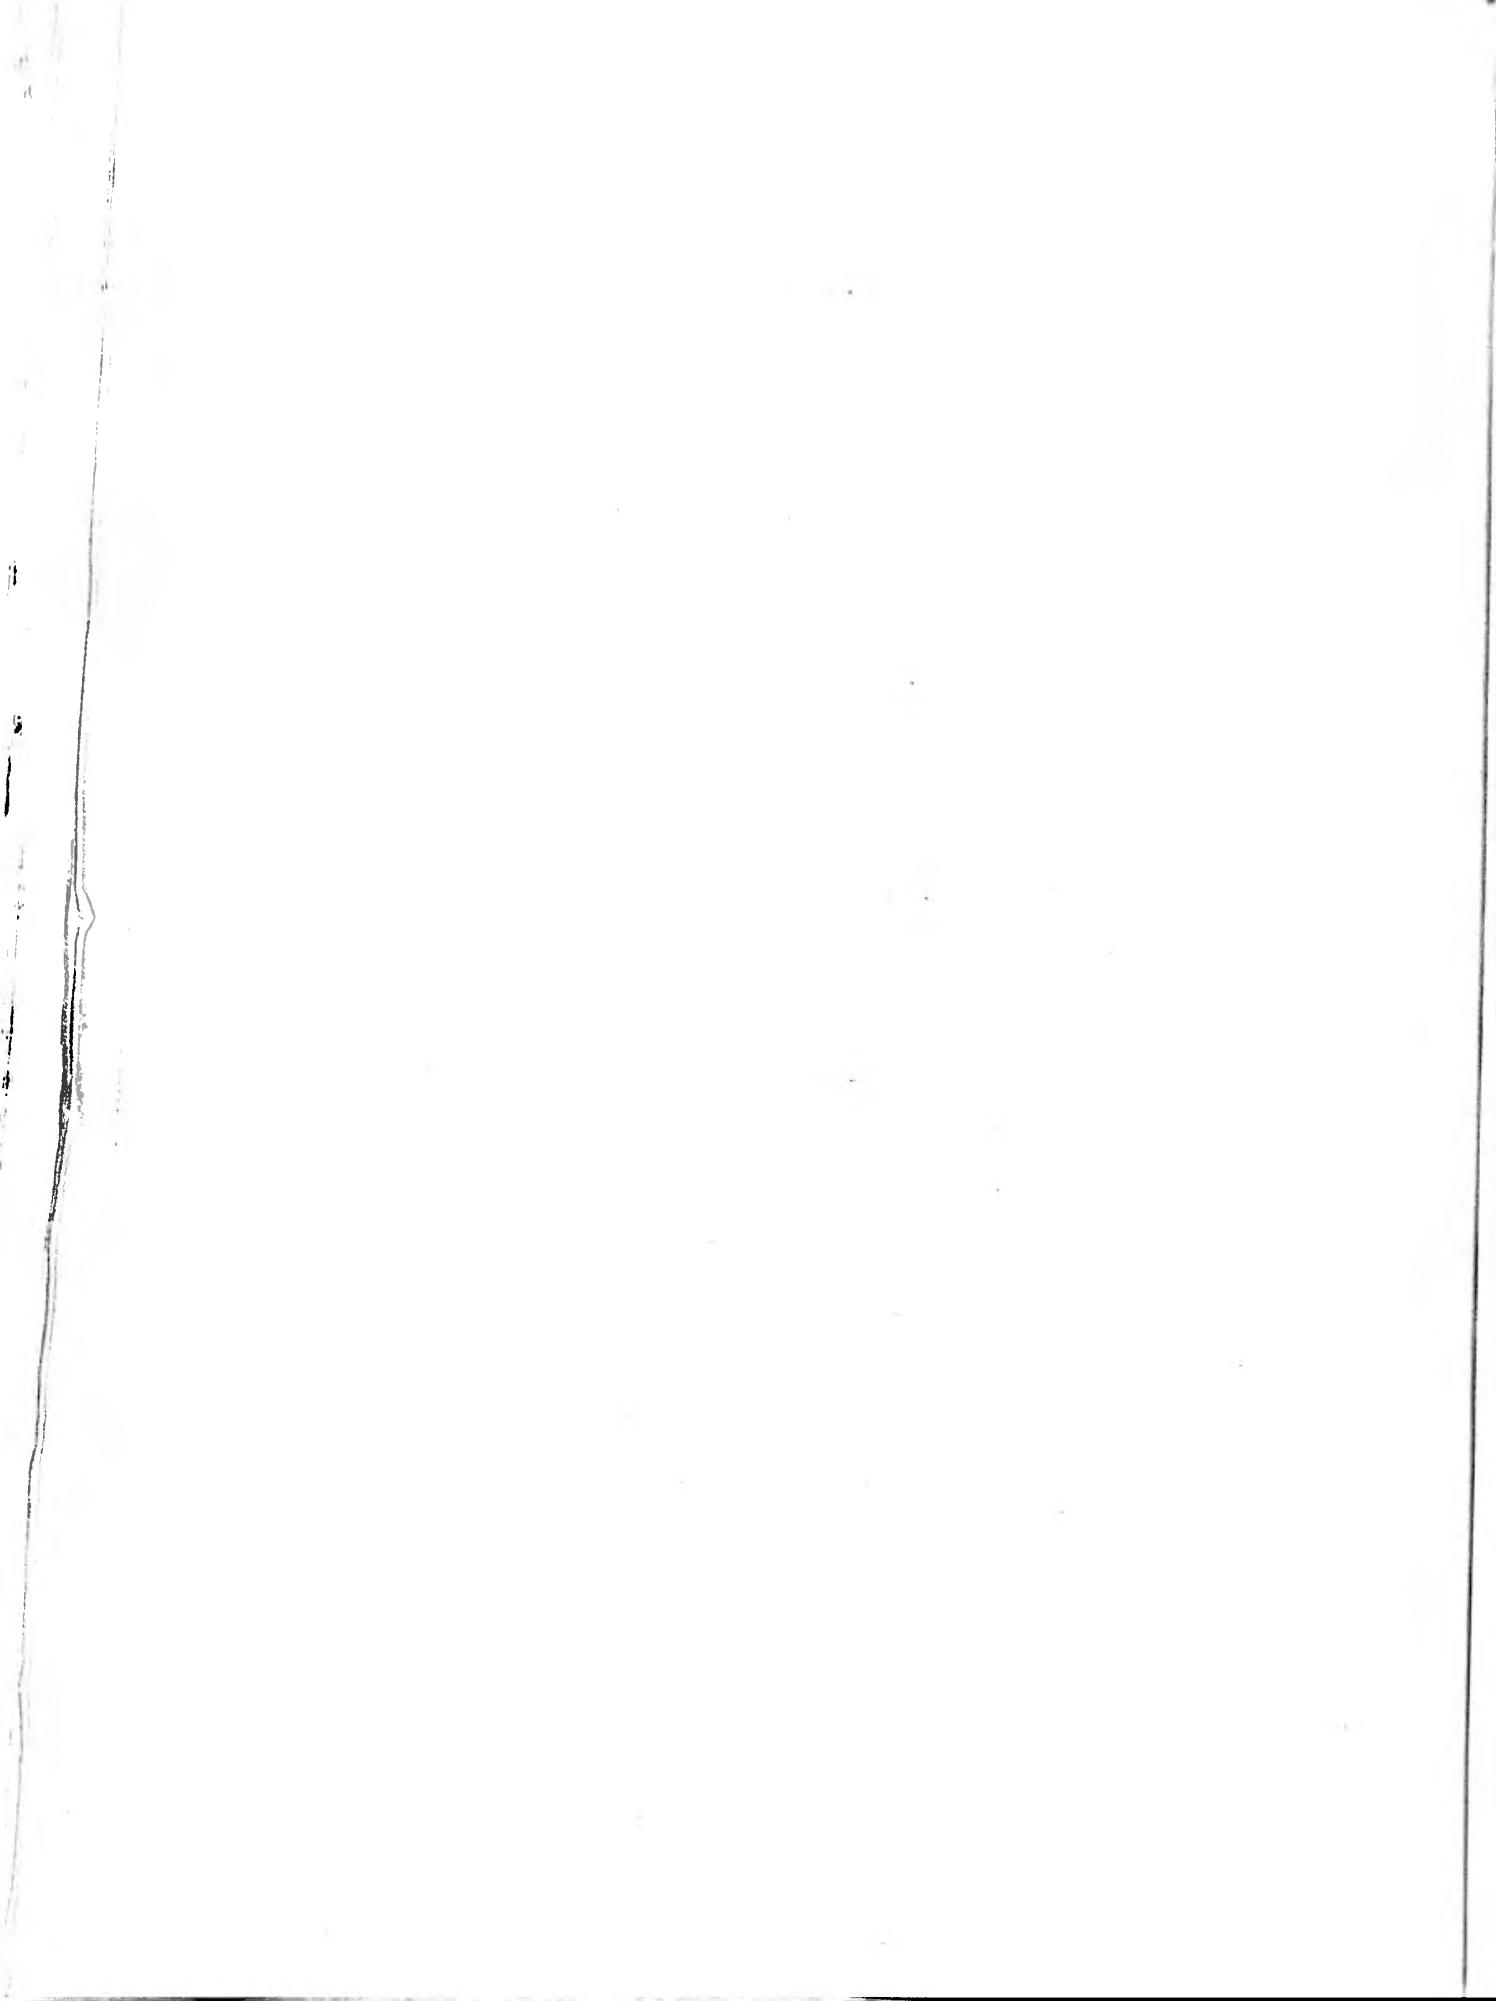

" Present: Councillor H.O. Syrett (Chairman), Councillors Briant, Pike, Sommerfield and Wells.

1.- LOCAL GOVERNMENT ACT, 1929 - FIRST GENERAL REVIEW OF DISTRICTS. -

(a) The Sub-Committee received a Deputation from the Hampstead Garden Suburb Residents' Association in regard to this matter. At the onset it was made clear by the Deputation that they had no mandate from the Association and that the main object of their attendance before the Sub-Committee was in order to glean information generally on the subject and if possible some details of a financial character.

It was urged on behalf of the Deputation that it would be eminently desirable for the suggested plebiscite to be taken in order that the views of the residents on the Suburb might be obtained, but it was pointed out to them that it was doubtful whether the Council had any authority to expend money in connection therewith. A general discussion then took place and the Chairman of the Sub-Committee replied to various points which were raised by the Deputation.

As an alternative to the taking of a plebiscite, it was suggested to the Deputation that their Association should endeavour to arrange a meeting with representatives of the Hendon Council, in order that they might go fully into the whole matter; that they should similarly have a meeting with the Sub-Committee, and that the information thus obtained would enable them to formulate their case. It was also intimated to the Deputation that the Sub-Committee would be prepared to meet representatives of the

-2-

Hendon Council and of the Association to gothor, if such course were acceptable to both parties but at the same time the Sub-Committee were of the opinion that separate meetings would be preferable as in that event the matter could be gone into in greater detail than would be the case if a joint meeting were held.

Enquiry was made by the Deputation as to whether the Sub-Committee would be in a position to furnish information on such services as drainage, gas and water, and they were assured that if they indicated in writing the information which they desired every endeavour would be made to furnish them with same. The Deputation expressed their thanks for the way in which they had been received by the Sub-Committee and then retired.

(b) The Clerk referred to the recommendation which the County General Purposes Committee were making to the Middlesex County Council in connection with the amalgamation of Finchley and Friern Barnet which recommendation was he stated not reached at the last meeting of the County Council. The Sub-Committee were of opinion that the circumstances did not warrant this Council taking any further action at the moment either as regards the suggested amalgamation of Finchley and Friern Barnet or as to the proposals concerning Hendon.

2.- OFFICE ACCOMMODATION.-

This matter was considered further and the Chairman of the Sub-Committee reported upon a suggestion which had been made with regard to the erection of a temporary structure for the housing of the Surveyor's Department on the vacant plot of land fronting Hendon Lane adjoining the Council Offices. After discussion, it was

RECOMMENDED that the Clerk and the Surveyor prepare and submit to the Sub-Committee a joint report on the whole matter with information as to the cost which would be involved.

Council Offices,

Finchley, N. 3.

30th November, 1931.

COUNTY ROADS - DRAFT AGREEMENT WITH THE
MIDDLESEX COUNTY COUNCIL.

The first two pages of the draft Agreement contain recitals of the position arising out of the Local Government Act, 1929, and as there are no agency County Roads in Finchley, all references thereto in either the recitals or the clauses of the Agreement can be struck out.

The words "claimed roads" used in the Agreement include those Roads known before 1930 as "main, classified and light railway roads".

It will be noted that the arterial roads within the Urban District of Finchley come within the term "retained County Roads", which definition is also to include those roads which the District Council, under the terms of this Agreement, agree not to claim. At the moment, however, arterial roads are the only existing roads in Finchley covered by this term.

Clause (1). The District Council under this Clause relinquish all rights of claiming to exercise the functions of maintenance and repair of the retained County Roads (other than the claimed County Roads).

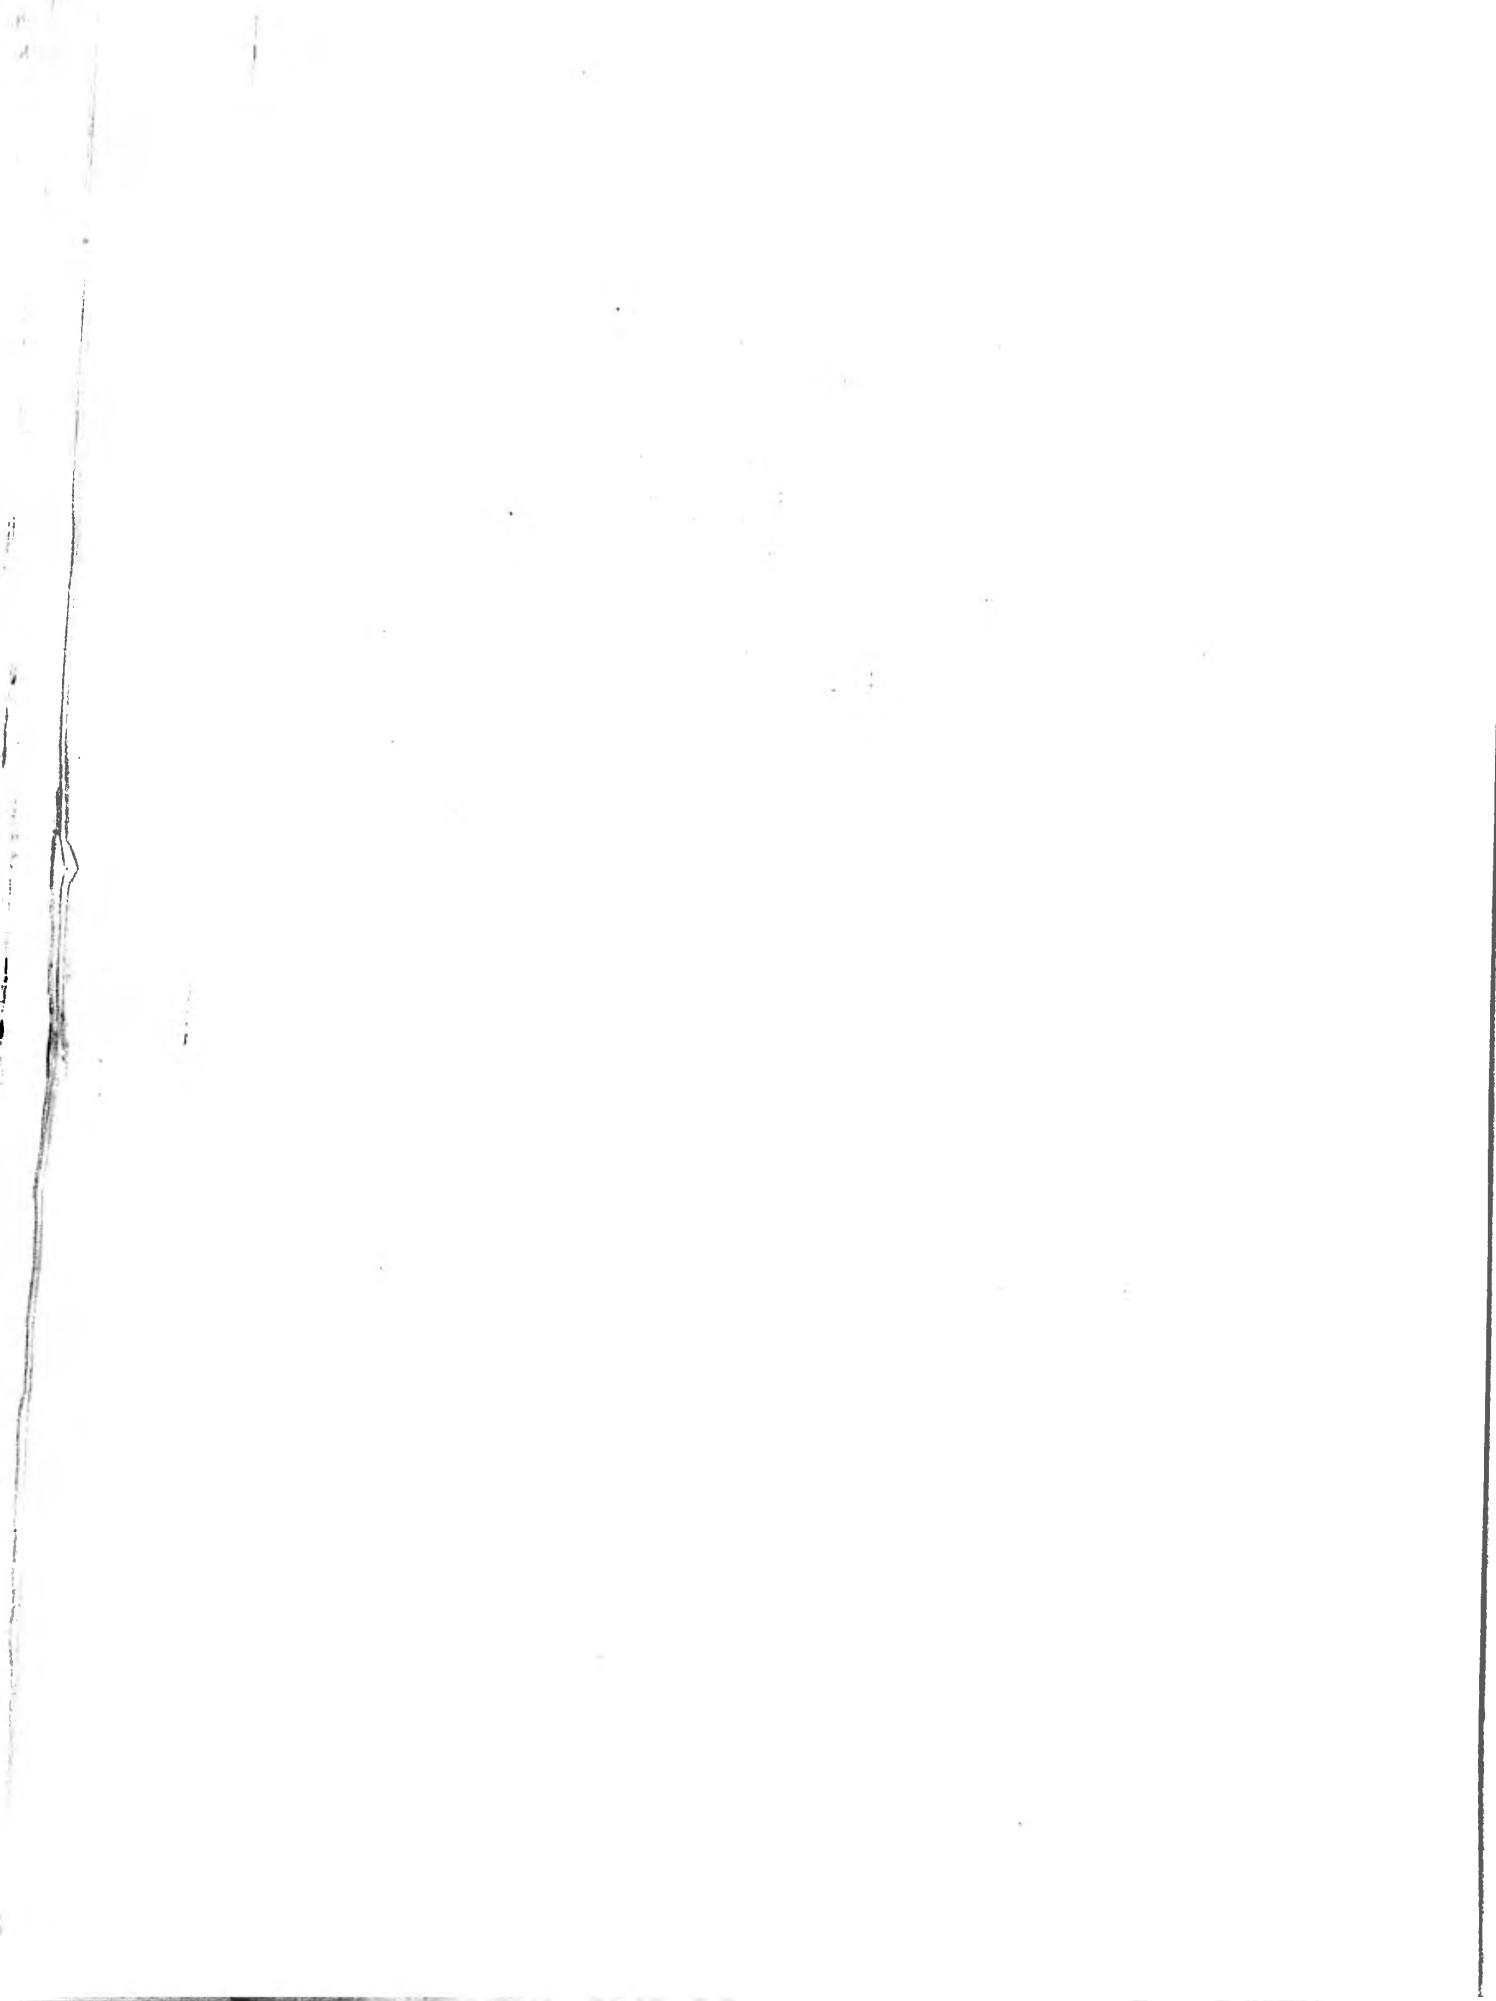

Clause (2). provides that the District Council shall only exercise their statutory rights and powers in relation to the claimed County Roads, subject to the provisions of the Agreement.

Clause (3). The County Council under this Clause assume direct responsibility for the maintenance, repair and improvement of the retained County Roads.

Clause (4), deals with the meaning of the expression "works of maintenance and repair" in relation to the claimed County Roads. It should be noted that these words include the reasonable cost of scavenging and snowclearing which the District Council will probably have to bear themselves if they decide to rely upon the provisions of the Act and not upon the Agreement.

Clause (5), provides that estimates for the works of maintenance and repair, improvements and widenings (including the cost thereof) of the claimed County Roads for the ensuing financial year, shall be lodged with the County Council not later than 30th November in each year.

Clause (6), deals with the approval of such estimates by the County Council who may omit from, or add to any of the works included therein, and are in such cases to notify the District Council not later than the 31st March in each year as regards the alteration of estimates for the works of maintenance and repair.

No definite date is fixed, however, for the communication of the approval of the County Council of the estimates for widening and improvements, and the decision of the County Council on these estimates is to be accepted, except where the County Council agree to contribute a part only of the cost of any widening or improvement included in such estimate exceeding £1,000 in which case the matter is to go to arbitration as provided.

The final approval of the County Council to estimates for works in connection with the maintenance and repair, and of their decisions in regard to widening and improvement estimates, are to be notified to the District Council as soon as may be.

Supplemental estimates are only to be submitted in cases of urgency, or other exceptional circumstances, and the decision of the County Council thereon is to be notified to the District Council within six weeks in the case of works of maintenance and repair, and with all due speed in the case of widening and improvement.

All works approved under this Clause are to be known as "approved works".

Clause (7). Before contracts in connection with the approved works are entered into by the District Council, the tenders are to be submitted to the County Surveyor for his approval, together with the necessary information, and for the purposes of reduction of cost, the County Council may require the District Council to take the materials, plant and services required through any central supply depot of the County Council, or from any of the County Council's Contractors.

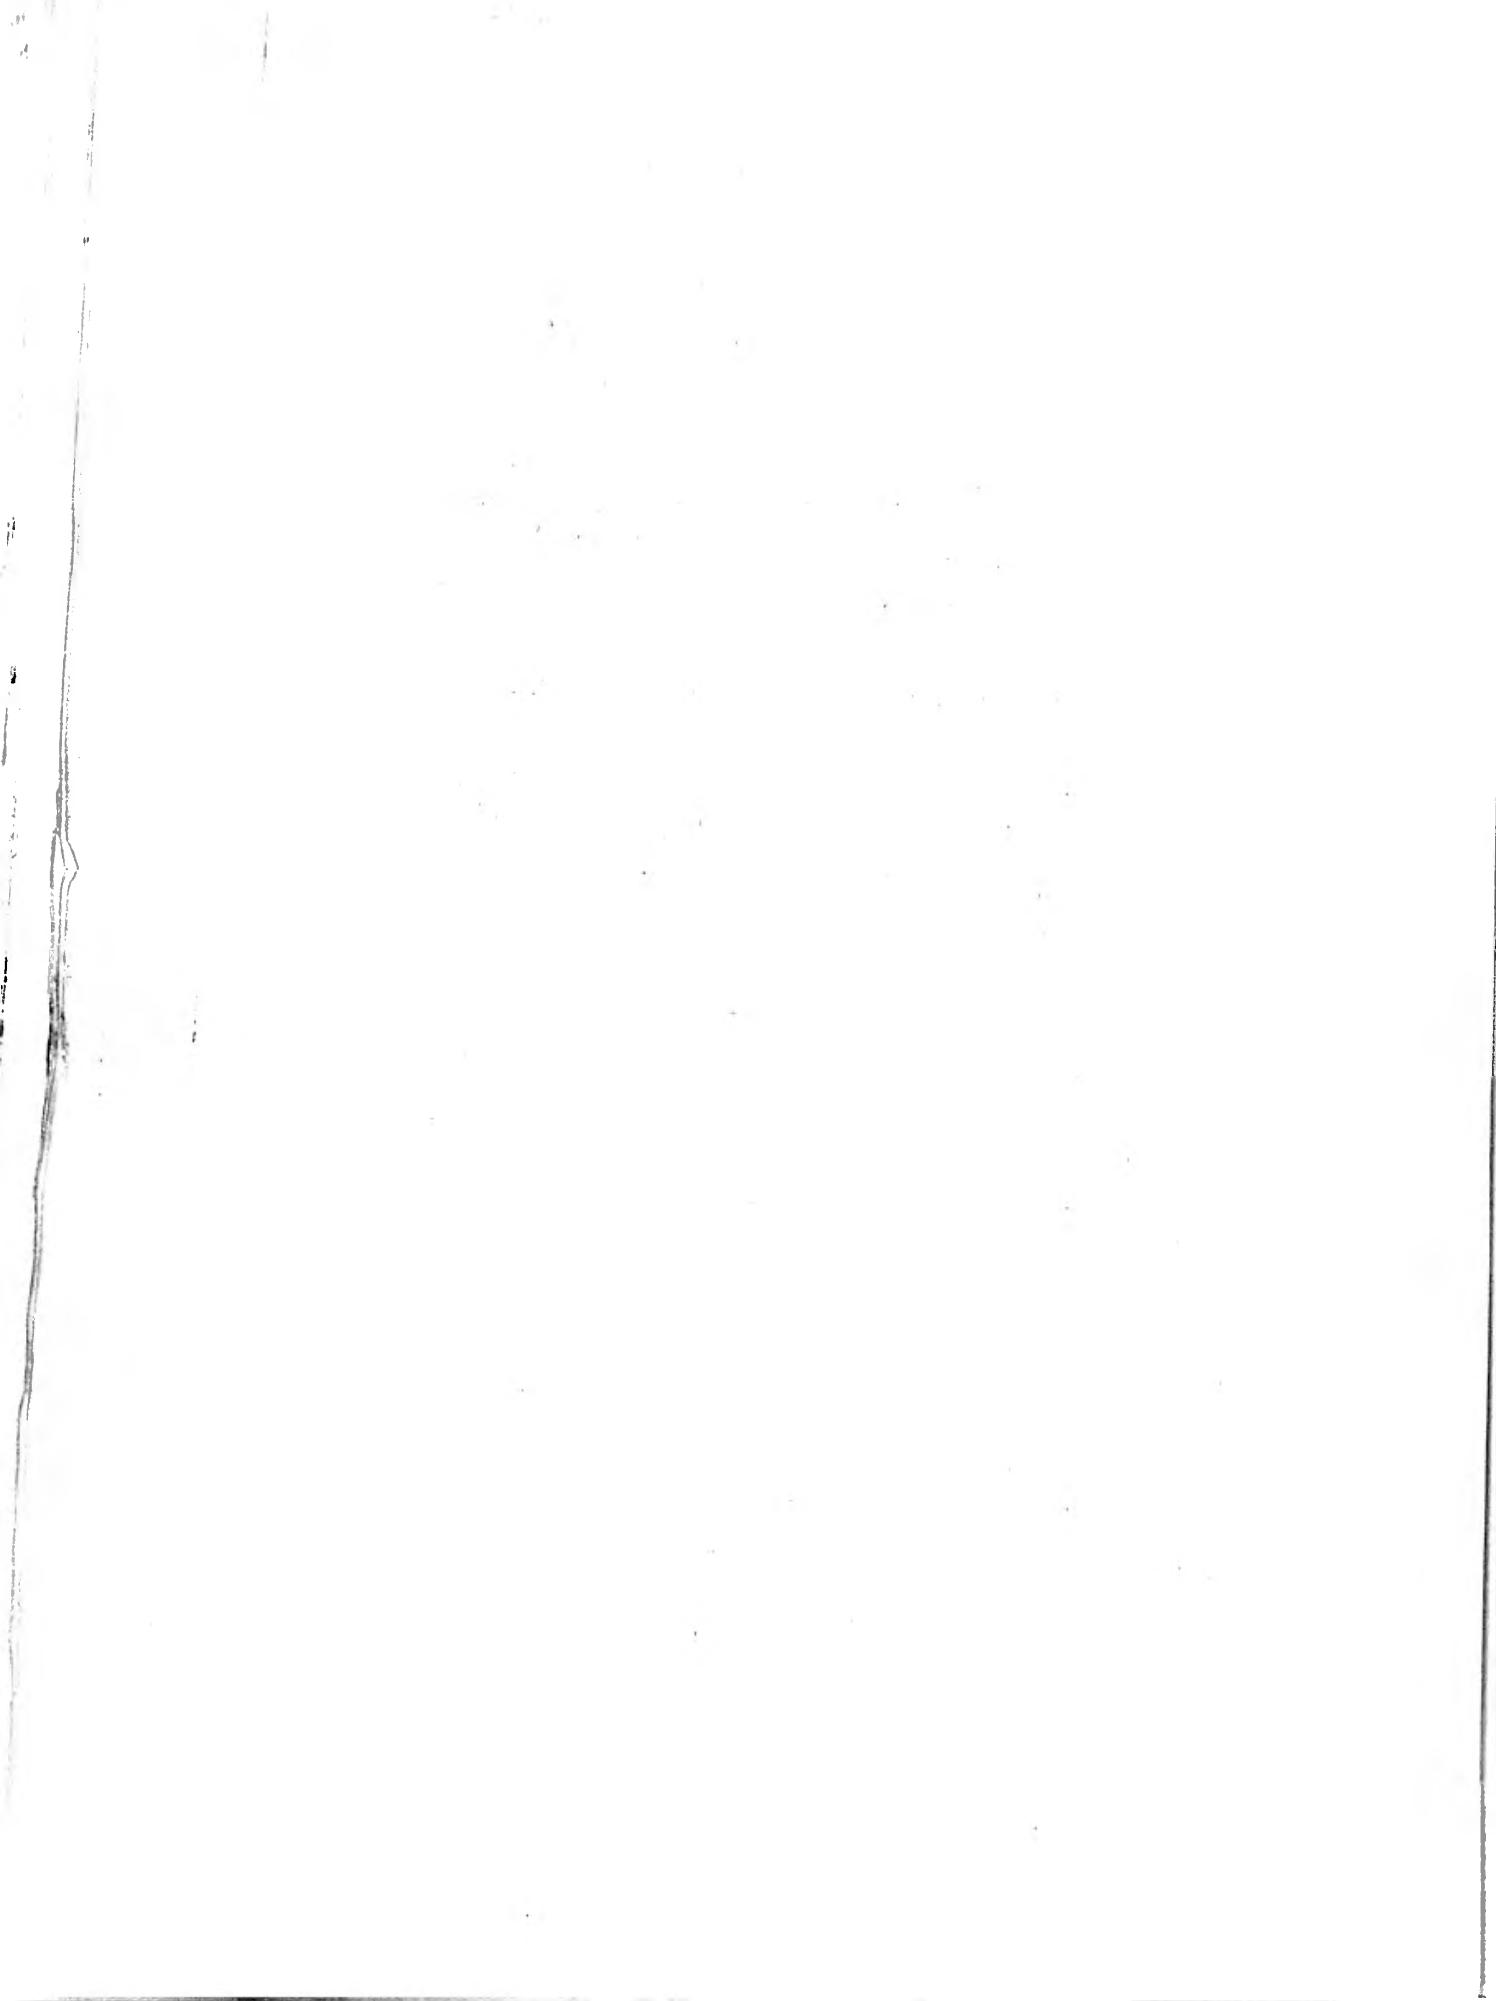

Clause (8). deals with the payment of expenditure on approved works, and in the case of approved works exceeding £5,000 on Class 1 Roads and £4,000 on Class 2 Roads only, the County Council will advance to the District Council from time to time the expenditure incurred as submitted and certified by the Surveyor of the District Council, but such amount is not to exceed in the aggregate 95% of the total.

Final payments are not to be made until the necessary certificate is signed by the District Council's Treasurer and Surveyor and verified by the County Surveyor, who is at the same time, to ensure that the works have been executed to his satisfaction. Any dispute on the certificate of the County Surveyor is to be settled by arbitration.

Clause (9), permits the District Council to carry out works not included in the estimates and not exceeding 2½% of the approved estimate, without prior approval of the County Council.

Clause (10). Detailed accounts in the form required by the County Council are to be kept by the District Council, who are also to submit statements in the prescribed form.

Clause (11). Entitled the District Council to charge a sum equivalent to 5% of the amount certified by the County Surveyor as the total cost of the approved works to cover all establishment charges incurred by the District Council, including premiums for insurances, and to charge further a sum of 6% on the total wages of the workmen engaged on the approved works to cover superannuation charges.

Clause (12). The District Council are to indemnify the County Council for (a) any accident, damage, injury etc. sustained by any person, and (b) any neglect, omission or wrongful act of the District Council or their employees or Contractors in connection with any works carried out under the terms of the Agreement or in the exercise of their functions in relation to the claimed County Roads.

Clause (13). Provides that the County Council shall repay to the District Council the sums required to meet the loan charges incurred before the 1st April, 1930 for the purposes of the Agency County Roads and which become due for payment on or after that date, but no reference is made to any loans incurred in respect of the retained County Roads.

Clause (14). The County Council are to raise all loans required for any expenditure in connection with the whole of the County Roads, and where the District Council agree or are required to make any contribution towards the cost of any works in respect of which a loan is required, then the District Council are to repay at the proper time the instalments of principal and interest required thereon in respect of the District Council's contribution.

Clause (15). Provides for the notification to the County Surveyor of the deposit of all plans for the erection or re-construction of any buildings on lands abutting or adjoining on any County Roads where building lines have not been previously prescribed, not later in any case than 5 days after such deposit, and the District Council are at the expense of the County Council to take or co-operate with the County Council in taking any action necessary to obtain a road improvement if deemed desirable by the County Council.

Clause (16). The District Council are not to exercise in respect of the claimed county roads any powers in connection with the enlargement or improvement of or in regard to any building improvement or frontage line or any powers which would cause interference with or obstruction to the traffic without the approval of the County Council - any disputes to go to arbitration and similar restrictions are placed on the District Council's statutory powers with regard to the retained county roads.

Clause (17). The Sections referred to herein are as follows:-

Public Health Acts Amendment Act, 1890.

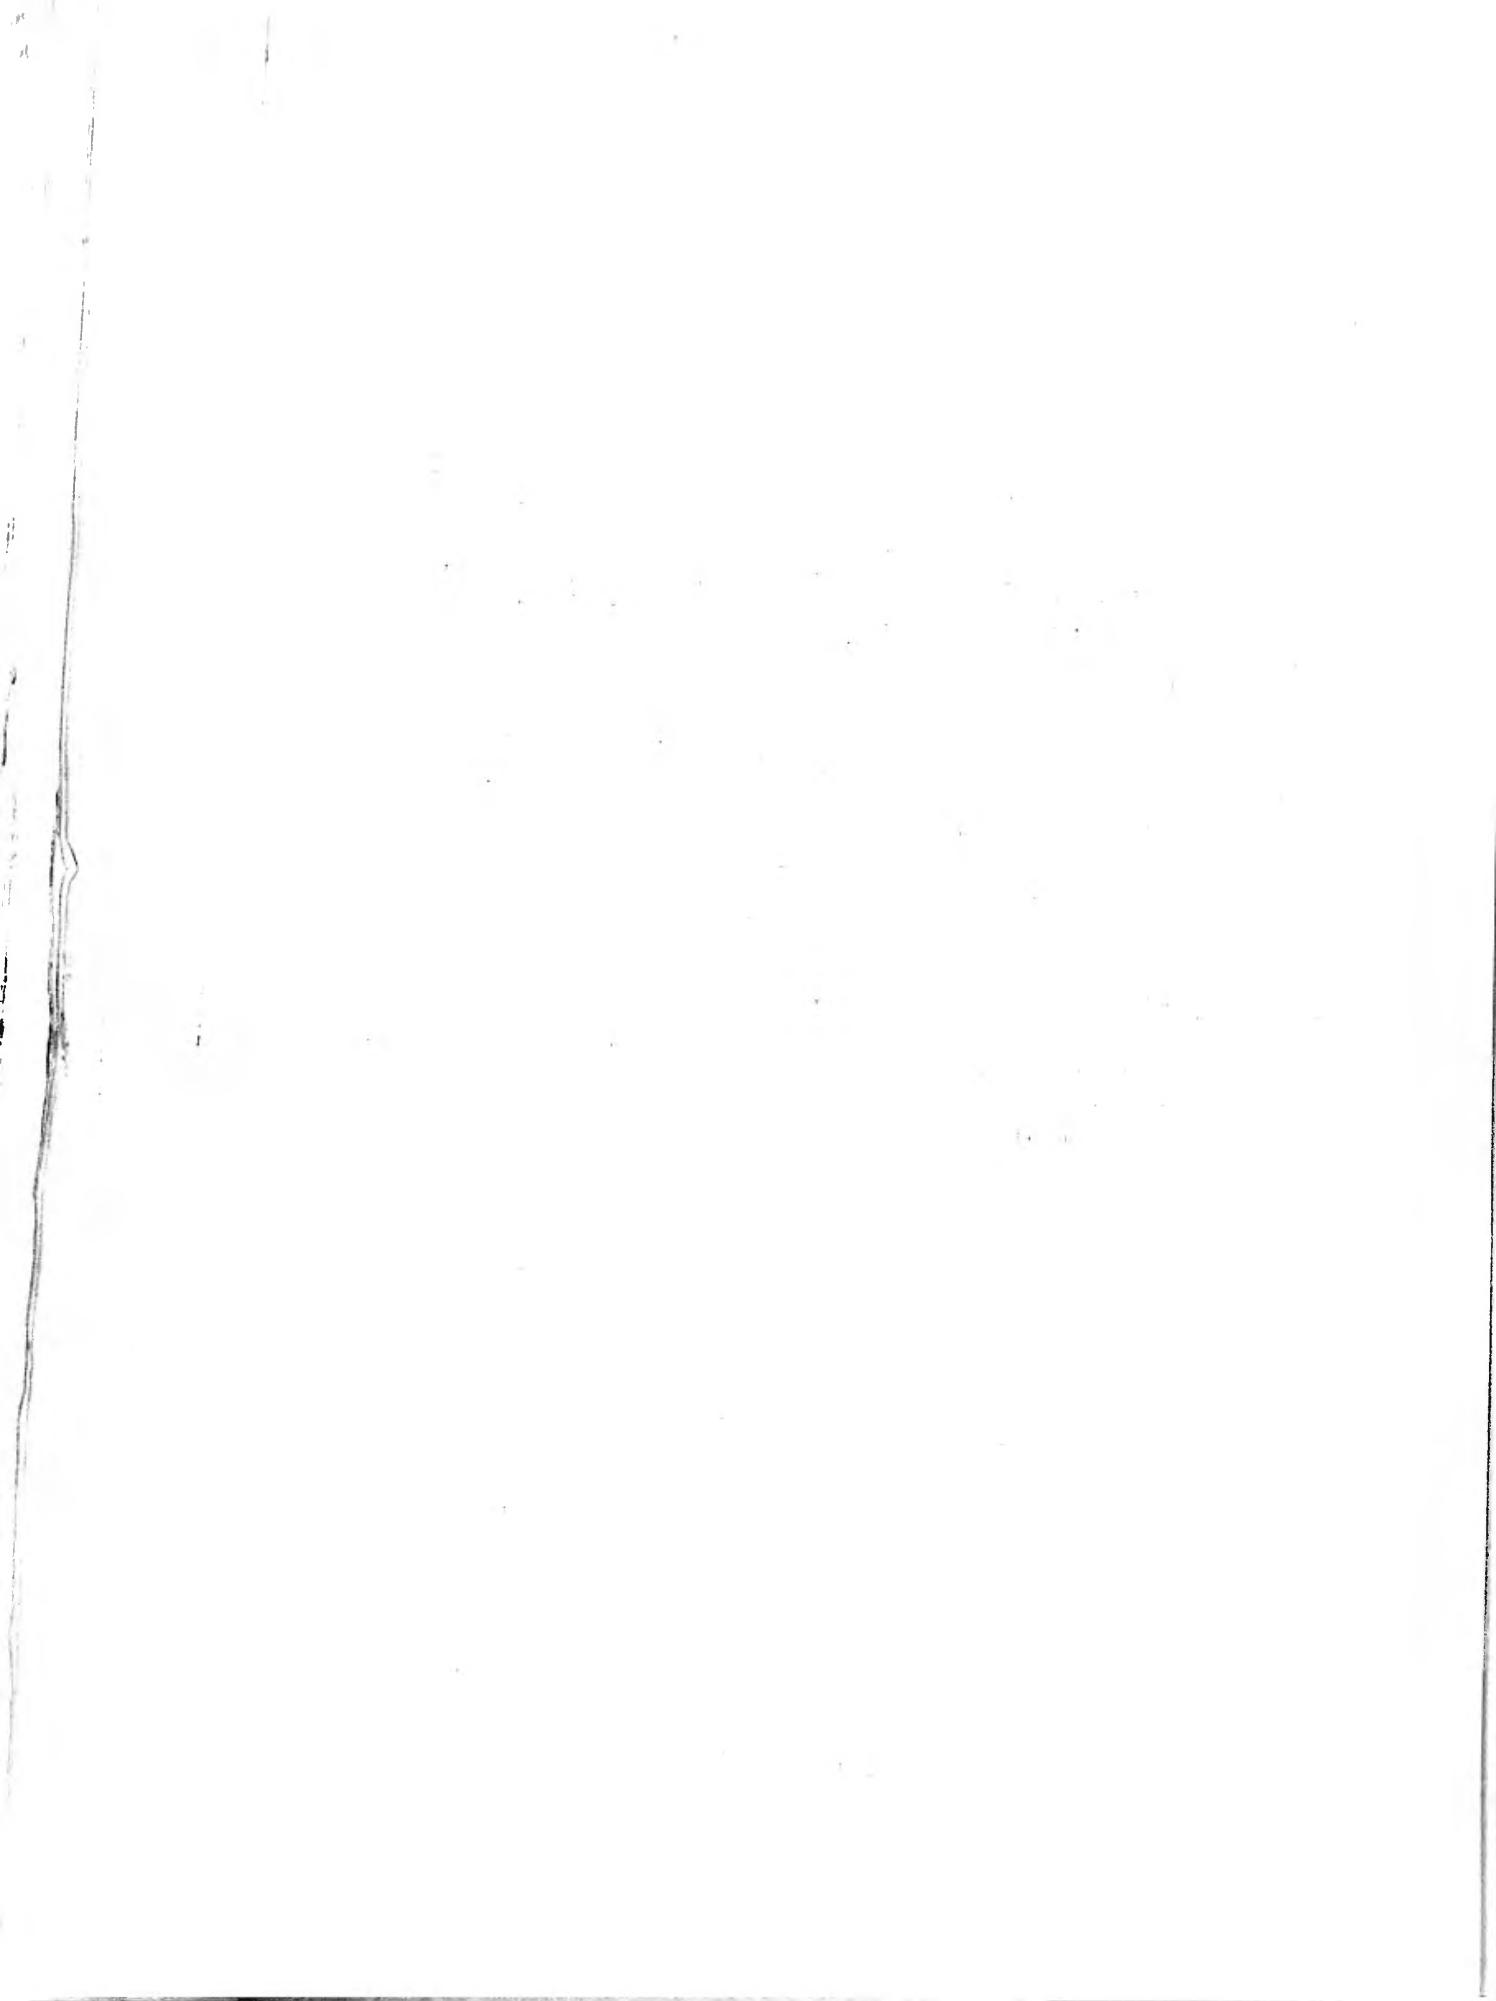

Section 39 - Power to erect refuges etc. in the street for the protection of passengers and traffic.

Section 40 - Power to provide cabmen's shelters in the street.

This clause provides that all works done by the District Council in exercise of any of the above powers in respect of the claimed county roads shall be first approved by the County Surveyor, and unless otherwise agreed, no part of the expenditure involved shall be charged against the County Council.

Clause (18). provides that the District Council, where they are able by reason of any Town Planning Scheme or otherwise to obtain land required for widening or construction, either free of cost or on specially favourable terms, are, if so required by the County Council, to convey or procure the conveyance of such land to the County Council in the case of the retained county roads, or obtain its dedication in the case of a claimed county road, the County Council to bear all legal or other charges incurred therein.

Clause (19). Provides that the County Council shall be made the authority responsible for enforcing the observance of any of the provisions of any Town Planning Scheme, or for the execution of any works thereunder or under the Town Planning Act, 1925, so far as such provisions or works relate to the construction, width or improvement of retained county roads or to any roads which when widened or constructed are likely to become retained county roads or to the building lines for any of these roads, and all provisions in such schemes with regard to the construction, width or improvement of such roads or proposed roads and building lines are to be such as the County Council may require, the cost of carrying out such of these provisions to be borne by the County Council. The Clause further provides for default in the carrying out of such powers by the County Council, and for the insertion of additional proposals by the District Council as regards the roads referred to in this clause under any scheme in excess of those which the County Council require, the additional cost being borne by the District Council.

Clause (20). Makes provision for the carrying out by the District Council of any of the works for which the County Council are under the previous clause made responsible, on terms as may be agreed, and for joint action in connection with Town Planning between the two Councils.

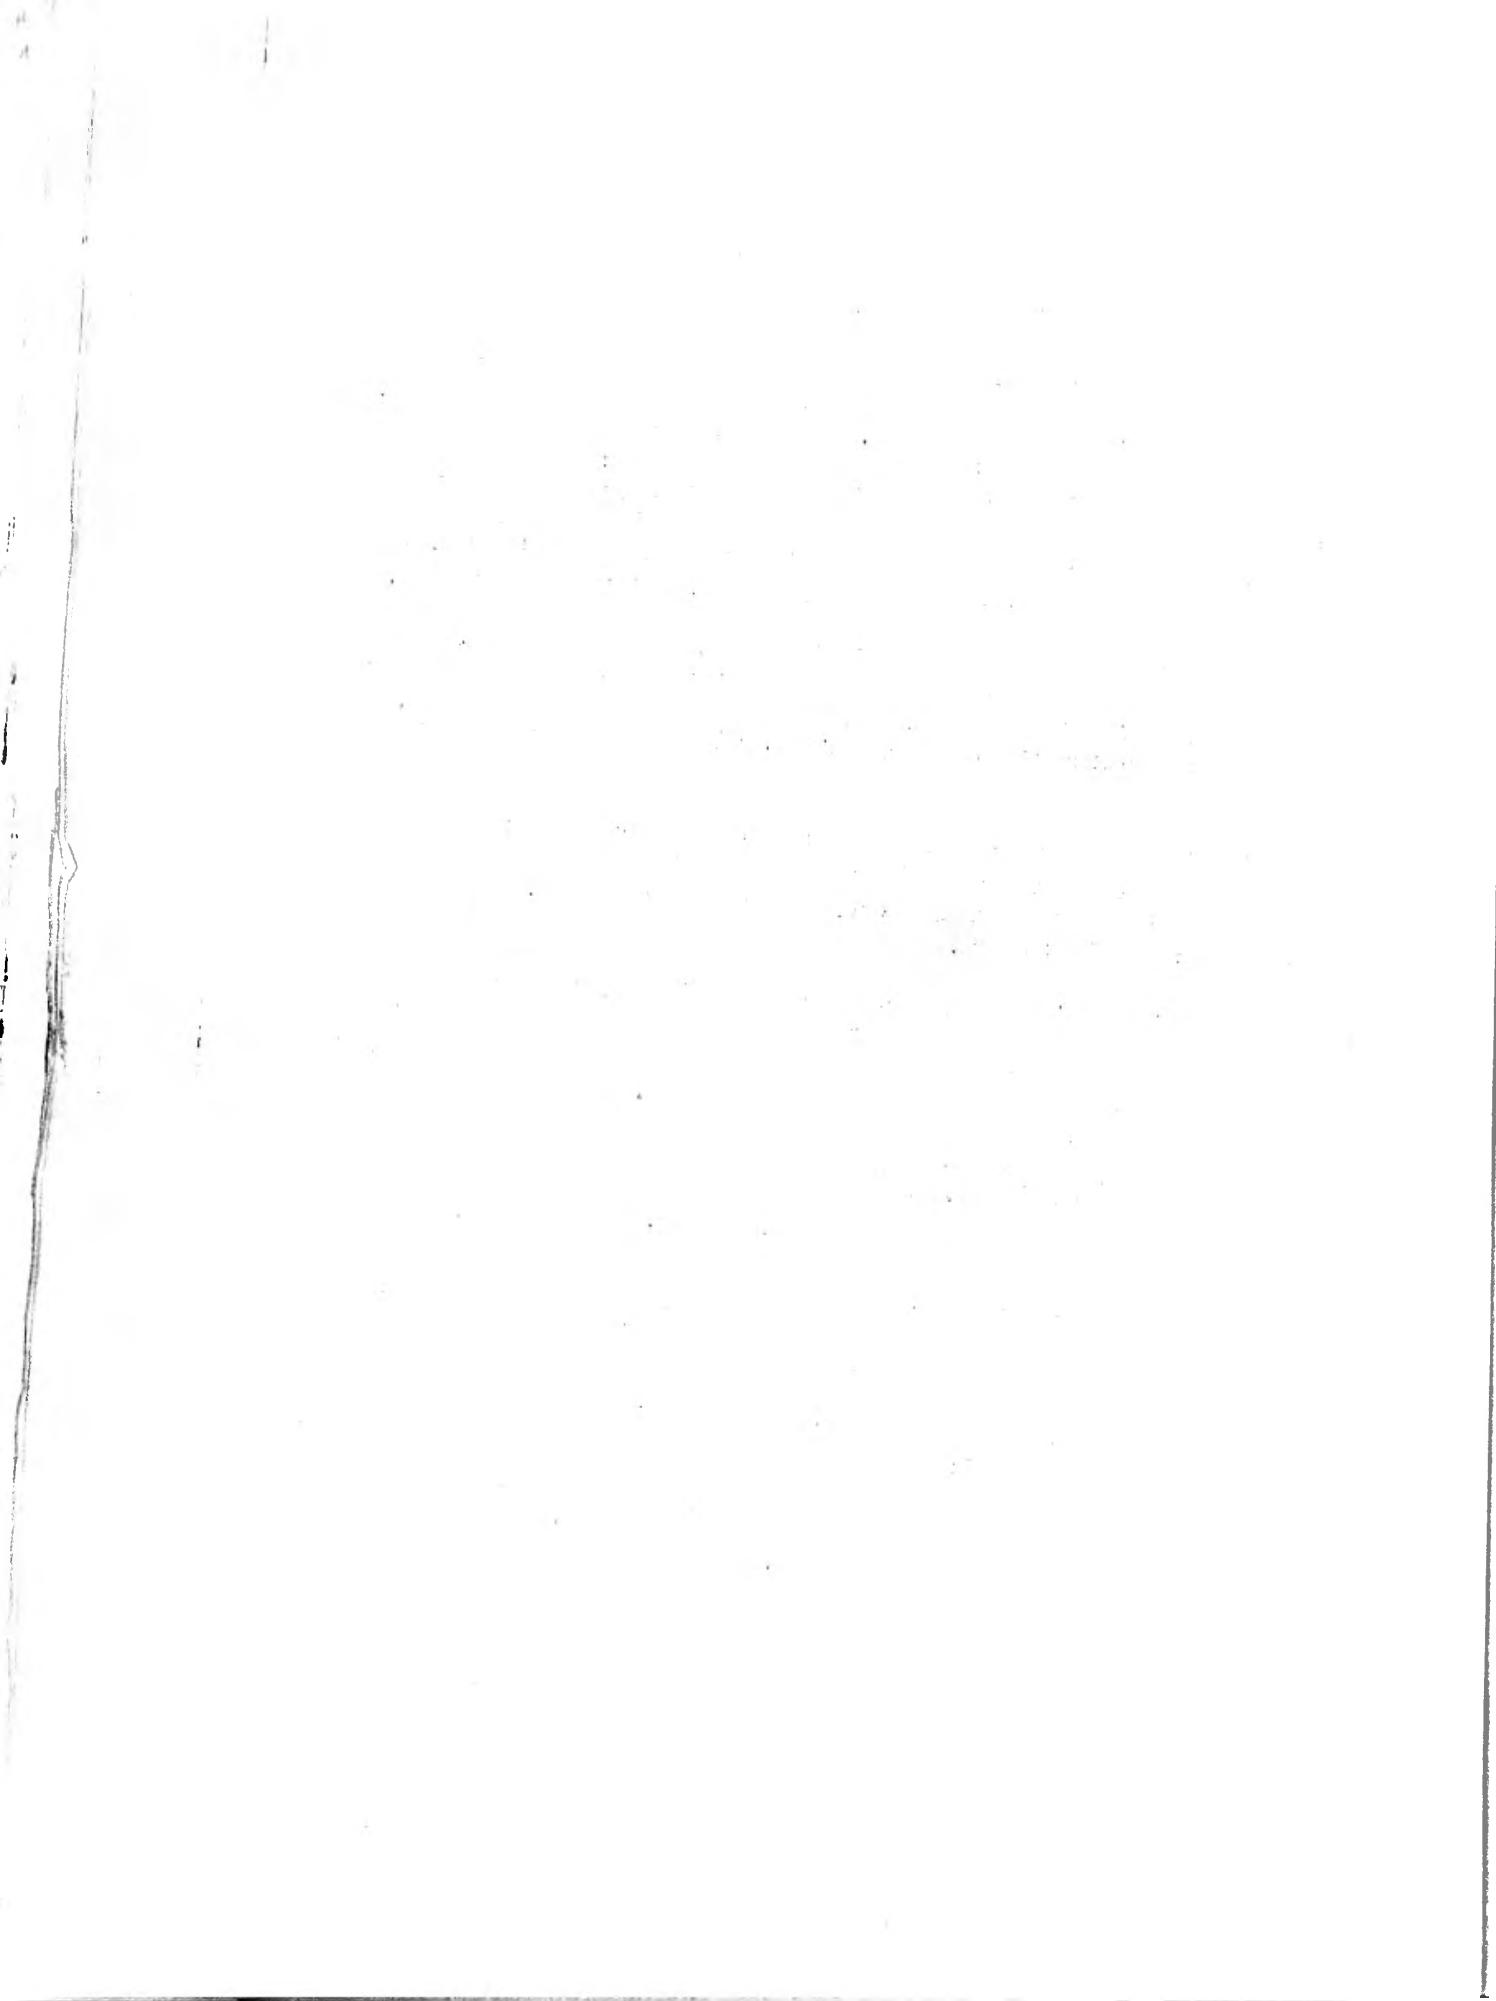

Clause (21). The District Council are not to consent to the erection or re-erection of any building or structure in advance of any building lines that may exist on any county road without the consent of the County Council.

Clause (22). The District Council are under this clause to execute a formal Deed of Relinquishment vesting their functions and powers as to maintenance and repair in respect of the retained county roads in the County Council if so required.

Clause (23). Deals with the position in regard to county roads where a portion of a district is added to another district under the provisions of the Local Government Act, 1929. Where, before the date on which an Order under the enactment in question came into operation, any county roads in the added area which are classified roads are vested in the County Council, the District Council are to forego all rights of claiming, but as regards county roads which being classified are not vested in the County Council, then the District Council are to be entitled to claim them under Section 32. Where it is proposed to unite the district of the District Council with that of any other district, or to incorporate it in that of some other County District, the District Council are to support the County Council, to ensure that the clauses of this agreement in relation to non-claiming of County roads are carried into effect.

Clause (24). Provides that with the exceptions below, the District Council are to be entitled to exercise their rights of claiming with regard to any new county roads.

- (a) Roads which have been constructed by or on behalf of the County Council;

(b) Roads of an arterial nature which have been widened by the County Council under any special statutory power; and

(c) New roads of an arterial nature for which the County Council would become or may be the responsible authority under a Town Planning Scheme.

As regards these roads, the District Council agree not to claim same except with the consent of the County Council.

Clause (25). Deals with the term of the agreement - viz. the agreement is to remain in operation for so long as the County Council shall by statute be wholly or partly responsible for the cost of repairing and maintaining any of the county roads in the area of the District Council. Provision is also made for the alteration as regards claimed county roads of matters of detail under this agreement, but such alteration is not to affect the main principles of the agreement, in particular as to claiming or non-claiming.

Clause (26). Deals with the preservation of the statutory rights of each of the parties to the Agreement.

HIGHWAYS and FIRE BRIGADE (*continued*).

- (b) Spaniards Close, Hampstead Garden Suburb.—A plan was submitted showing the proposed re-numbering of the premises in the above street;

RECOMMENDED—

(a) that such plan be approved; and

(b) that, in accordance with the provisions of the Towns Improvement Clauses Act, 1847, notices be served upon the occupiers of the premises affected, requiring them respectively to adopt the numbering shown on the plan.

1235 Private Street Works—Allandale Avenue.—The Clerk reported that in accordance with instructions he had communicated with one of the frontage owners in the above street, informing him of the present position with regard to the making up of private streets, and that in reply he had intimated his intention of taking up the matter with the Ministry of Health; that the Ministry had subsequently forwarded a copy of the communication addressed to them and had pointed out that if the Council were satisfied that the state of the road really warranted immediate work upon it in spite of the present need for public economy, the Minister would be prepared to entertain an application for sanction to a loan for the making up of the road, especially as it appeared that the majority of the frontagers were in favour of this being done;

RECOMMENDED—

(a) that the Ministry of Health be informed that the Council are not prepared to take steps with a view to the making up of the street in question, as they are not satisfied, in view of the present need for economy, that the state of the road warrants immediate work upon it;

(b) that the Minister be asked to receive a deputation from the Council for the purpose of discussing generally the question of the making up of private streets.

1236 Radio Relay Service.—A letter, dated 23rd November, 1931, was submitted from the Secretary, the Wireless Services,

HIGHWAYS and FIRE BRIGADE (*continued*).

Ltd., asking that in view of the increasing popularity of radio relay all over the country, the Council would re-consider the application for permission to instal a service in this district;

TOWN PLANNING & OPEN SPACES (*continued*).

"It is not feasible to include within the scope of the bye-laws 'all areas scheduled for residential purposes' under the Council's Town Planning Schemes, because large parts of these areas are outside the purview of Section 11 of the Petroleum Act. Those parts which, in our view, can be dealt with under the Act, have been coloured on the map submitted with our original report.

It will be possible for the County Council to deal with any filling stations situated in the areas to which they decide to apply the bye-laws. The schedule attached to our original report is not conclusive, and it will be open to the County Council to deal at any time with such further stations as they may think fit."

1255 Open Spaces—Acquisition.—A letter, dated 3rd November, 1931, was submitted from the Clerk of the Middlesex County Council, stating that in regard to the purchase of land for open space purposes, the County Council had decided that for the time being no higher contribution than 25% be made, and further, that contributions be restricted to cases of an urgent nature.

In those circumstances it was suggested that the Council should, before committing themselves to a purchase in any particular case, ascertain from the County Council whether they would be prepared to make a grant.

1256 Greater London Regional Planning Committee—Financial Support.—A communication dated 30th November, 1931, was submitted from the Secretary of the Greater London Regional Planning Committee hereon;

TOWN PLANNING & OPEN SPACES (*continued*).

"A person over the age of fourteen years shall not use any apparatus which by a notice affixed near thereto shall be set apart for the exclusive use of persons whose age does not exceed fourteen years."

4th December, 1931.

To the Chairman and Members of the
Public Health Committee.

(1) HOUSES WITHOUT PROPER DUSTBINS (Sec.22 of the P.U.D.C.
Act, 1900).

39, Castle Road, N.12.
180, Squires Lane, N.2.
4, Brownlow Road, N.3.
Clarendon, Ballards Lane (ground floor flat).

The above houses are not provided with proper dustbins and I suggest that notices be served upon the owners requiring them to provide at each house a strong galvanised iron dustbin with a suitable cover.

(2) EXAMINATION OF DRAINS (Sec.61 of the P.H.A.1875 and
Acts amending the same).

"Kimboltons" and "Lamorna", Regents Park Road,
Finchley, N.3.

I have to report that a portion of the drains on or belonging to "Kimboltons", Regents Park Road, has been opened up for the purpose of removing a blockage in the main drain and to release an accumulation of water in the cellar. As the result of an examination, the drain where exposed was found to be in a defective condition and, further, it was found that the adjoining house, "Lamorna", Regents Park Road, was connected with the said drain.

I have reason to suspect that the drains on, or belonging to the two above-mentioned houses are a nuisance or injurious to health and I suggest that authority be given to me to enter the said premises, open up the ground and examine the said drains.

Kenneth Brown, Baker, Baker relative to payment of the amount due to the Council from Mr. Casserley in respect of works carried out under the above Act. They stated that it was hoped to provide the money out of the rents of the properties, but that the suggested payment over a period of one year by quarterly instalments would make this impossible as the surplus rents after discharging rates, taxes, etc., amounted to very little. They added that if the Council would accept payment by 12 quarterly instalments they could agree thereto.

After full consideration, it was

RECOMMENDED that Messrs. Kenneth Brown, Baker, Baker be informed that on receiving an assurance that Mr. Casserley is the proprietor of the freehold of the property, the Council will be prepared to accept payment by 12 quarterly instalments with interest at 5 per cent. calculated from the date of the completion of the works, subject to their client entering into an undertaking in a form to be approved by the Committee.

After hearing a report by the Surveyor, it was

RECOMMENDED that the Barnet Council be informed that, subject to the consent of the Minister of Health being obtained, this Council will be prepared to agree to the substitution in the said agreement of the plan above-mentioned for that at present attached to the document—the arrangement to have effect as from a date to be agreed.

They also considered a letter, dated 2nd November, 1931, received from the Clerk of the Willesden Council, indicating the action which that Council had taken upon the above communication, and also a letter, dated 3rd December, 1931, from the Clerk and Accountant to the Hornsey, Finchley and Wood Green Joint Hospital Committee.

After full consideration, it was

RECOMMENDED that the County Council be informed that, neglecting all questions of detail, this Council are in favour of the general principle of the creation of hospital areas with a view in the future to a gradual reduction in the number of isolation hospitals in the County, but that they await the details of any scheme before expressing an opinion thereon.

ASSOCIATION OF EDUCATION COMMITTEES.

Mulgrave House,
450 Glossop Road,
Sheffield.

9th December, 1931.

To all Committees in Membership
of the Association.

Dear Sir,

Salaries of Teachers.

It is due to the Committees in Membership of the Association that they should be supplied with a resume of the proceedings leading up to the present position with regard to Teachers' Salaries and a clear statement of what the position now is.

The period of operation of Lord Burnham's Award made in 1925 expires on March 31st, 1932. In the absence of a notice given by either Panel of the Standing Joint Committee to terminate the period of the Award, the operation of the Award would have continued until March 31st, 1933.

In order that your representatives on the Standing Joint Committee might be informed of the wishes of the Committees which they represent, a plebiscite was taken on the 16th February, 1931, to settle the question as to whether it was the wish of the Association of Education Committees that notice should be given to terminate the period of the Award as on the evening of March 31st, 1932.

The result of that plebiscite was a clear and unmistakable instruction that so far as the Association of Education Committees is concerned, notice should be given to terminate the period of the Award as on the date mentioned.

In conjunction therefore with the other constituent members of the Authorities' Panel of the Standing Joint Committee, notice was accordingly given and the period of the operation of Lord Burnham's Award comes to an end on the 31st March, 1932.

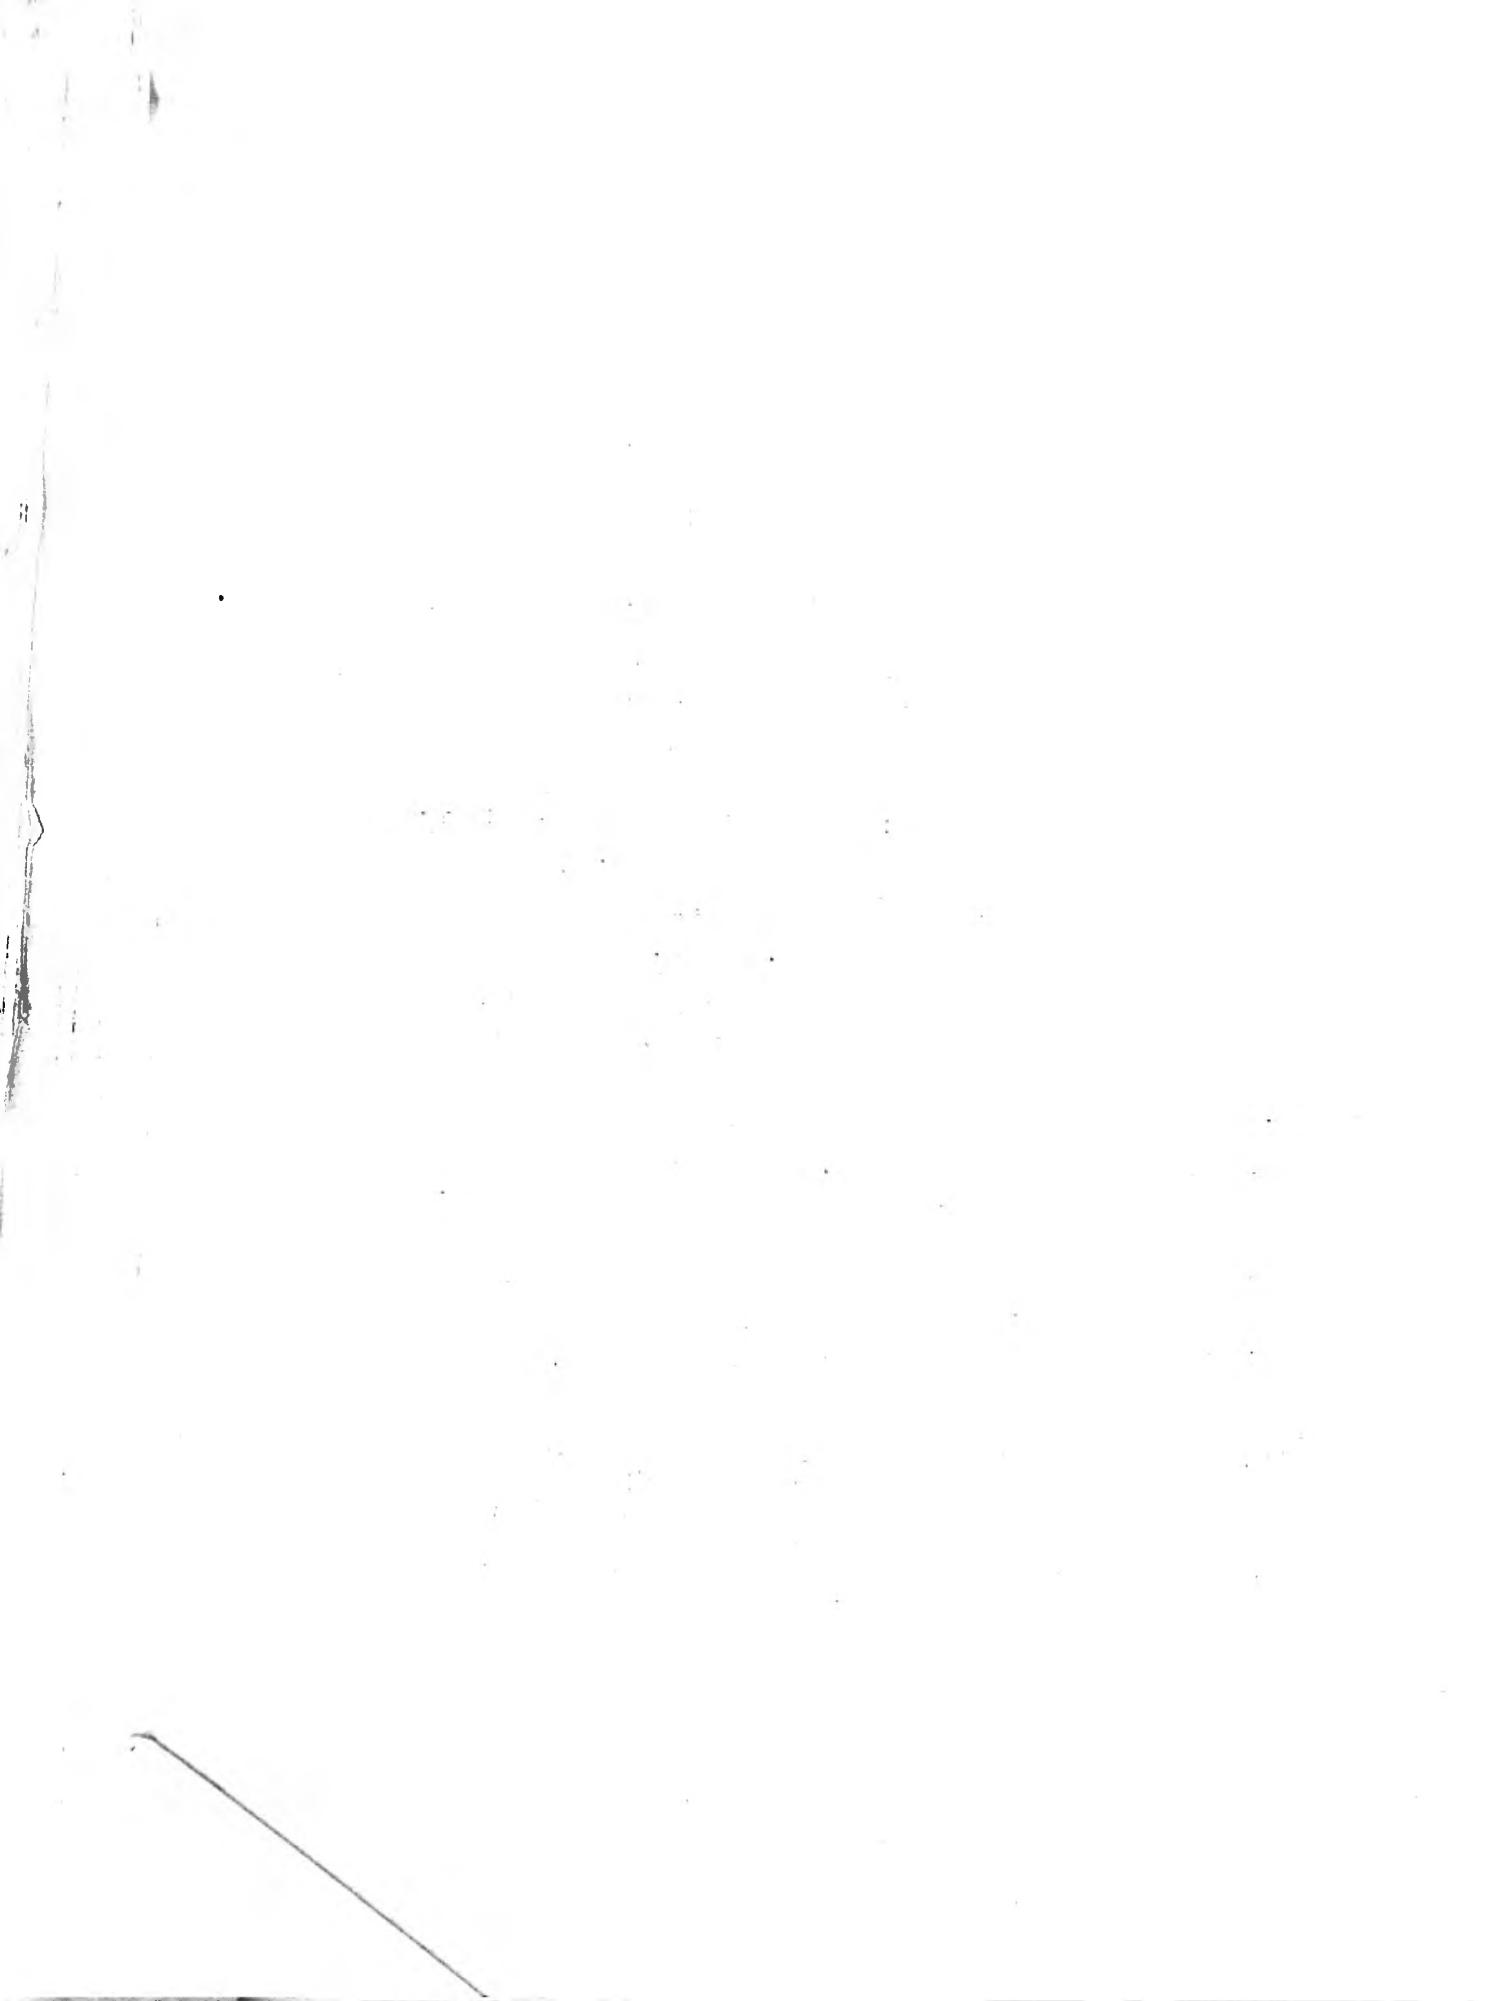

The Authorities' Panels after careful consideration submitted to the Teachers' Panels of the Standing Joint Committee the following Resolution:-

"That having regard to the present financial conditions in the country and the necessity for economy in all departments of national expenditure the Teachers' Panels be invited to confer with the Local Education Authorities' Panels with a view to effecting a reasonable reduction in the aggregate amount of the Teachers' Salaries Bill."

The Teachers' Panels of the Standing Joint Committees refused to be parties to this resolution and refused to enter into such conference.

That was the position at the time of the Annual General Meeting of the Association of Education Committees in June last.

At that meeting Sir George Lunn, the leader of the Authorities' Panels, stated the case and after making it clear that new scales of salaries should be drawn and if at all possible reached by agreement with the Teachers, gave certain undertakings in the following terms:-

"I want to give you an undertaking on behalf of the Burnham
Committee to such Authorities as are in affiliation with
our Association - I cannot give this undertaking to anybody
else - to our own people here. It is an undertaking that
if we secure Scales by agreement such Scales will be submitted
Authorities affiliated to all the Local Education
Scales without your consent. Secondly, that if we fail to
secure agreed Scales by negotiation, then any Scales formulated
by any other method shall also be submitted to the affiliated
Local Education Authorities for approval or otherwise. However
the Scales come they will be your Scales before they are put
into operation."

Sir George Lunn asked further for the confidence of the
Association in its representatives on the Burnham Committees, and
this vote of confidence was accorded by an overwhelming majority.

The decision of His Majesty's Government that the Salaries
of all teachers shall be subject to such a deduction as to effect a
reduction of 10% of the aggregate salaries bill has for the time being
destroyed any prospect of the preparation of new scales to come into
operation on the 1st April, 1932.

The Standing Joint Committee met on the 20th November and
after the most careful consideration they issued the following
statement:-

"The Burnham Committees on the Salaries of Teachers in
Elementary, Secondary and Technical Schools, met on November
20th and decided not to submit for the consideration of the
Board of Education any scheme of salary adjustments as
suggested in paragraph 15 of Circular 1413. It was resolved
that the provisions of Lord Burnham's Awards of 1925, as set
out in the 1927 Burnham Reports, should continue in operation
for a further period of one year ending on 31st March, 1933.
Notice to terminate the Awards in March 1932, was given some
time ago. In accordance with the Order in Council of October
1st, the Scales are subject to a deduction of 10 per cent.
It was understood that the continuance of the Scales is subject
to the Grant Regulations of the Board of Education not being
further altered to the financial disadvantage of the Local
Education Authorities."

To this statement, the representatives of the Association
of Education Committees are parties. The decision to continue the
status quo for a further year which carries with it a decision to
defer the formulation of new scales leaves the undertakings of Sir
George Lunn exactly where they were.

When new scales are formulated, all the undertakings to
which reference has been made, will be scrupulously observed.

It is not therefore considered to be necessary to call a
special General Meeting of the Association to confirm the action of
its representatives on the Standing Joint Committee nor even to ask
for confirmation by any other means. Relying on the vote of
confidence given to the representatives of the Association in June
last, the facts are merely set out for the information of the
Authorities in membership of the Association.

Yours faithfully,

PERCIVAL SHARP,

Arising out of paragraph 1299 (Salaries of Teachers), it was

RESOLVED that the following words be added at the end of Recommendation (b) :—

COUNTY MAIN ROADS - AGREEMENT WITH
MIDDLESEX COUNTY COUNCIL.

22nd December, 1931.

Following upon the instructions of the Legal and Parliamentary Committee representatives of the Committee attended a conference with representatives of the County Council with regard to the suggested amendments by that Committee to the above draft agreement in order to ascertain which of these amendments would be acceptable to the County Council.

The draft agreement, as the Council are aware, is an agreement under the Local Government Act, 1929 whereby the County Council secure to themselves absolute control of the retained County roads (arterial roads) within Finchley, and in consideration of the District Council relinquishing any rights they may have in regard thereto the County Council offer the terms mentioned in the agreement with regard to the maintenance, repair and improvement of the claimed county roads (i.e. main, classified and light railway roads, a list whereof is annexed.)

The District Council are however to exercise their powers with regard to the claimed county roads subject to the provisions of the agreement.

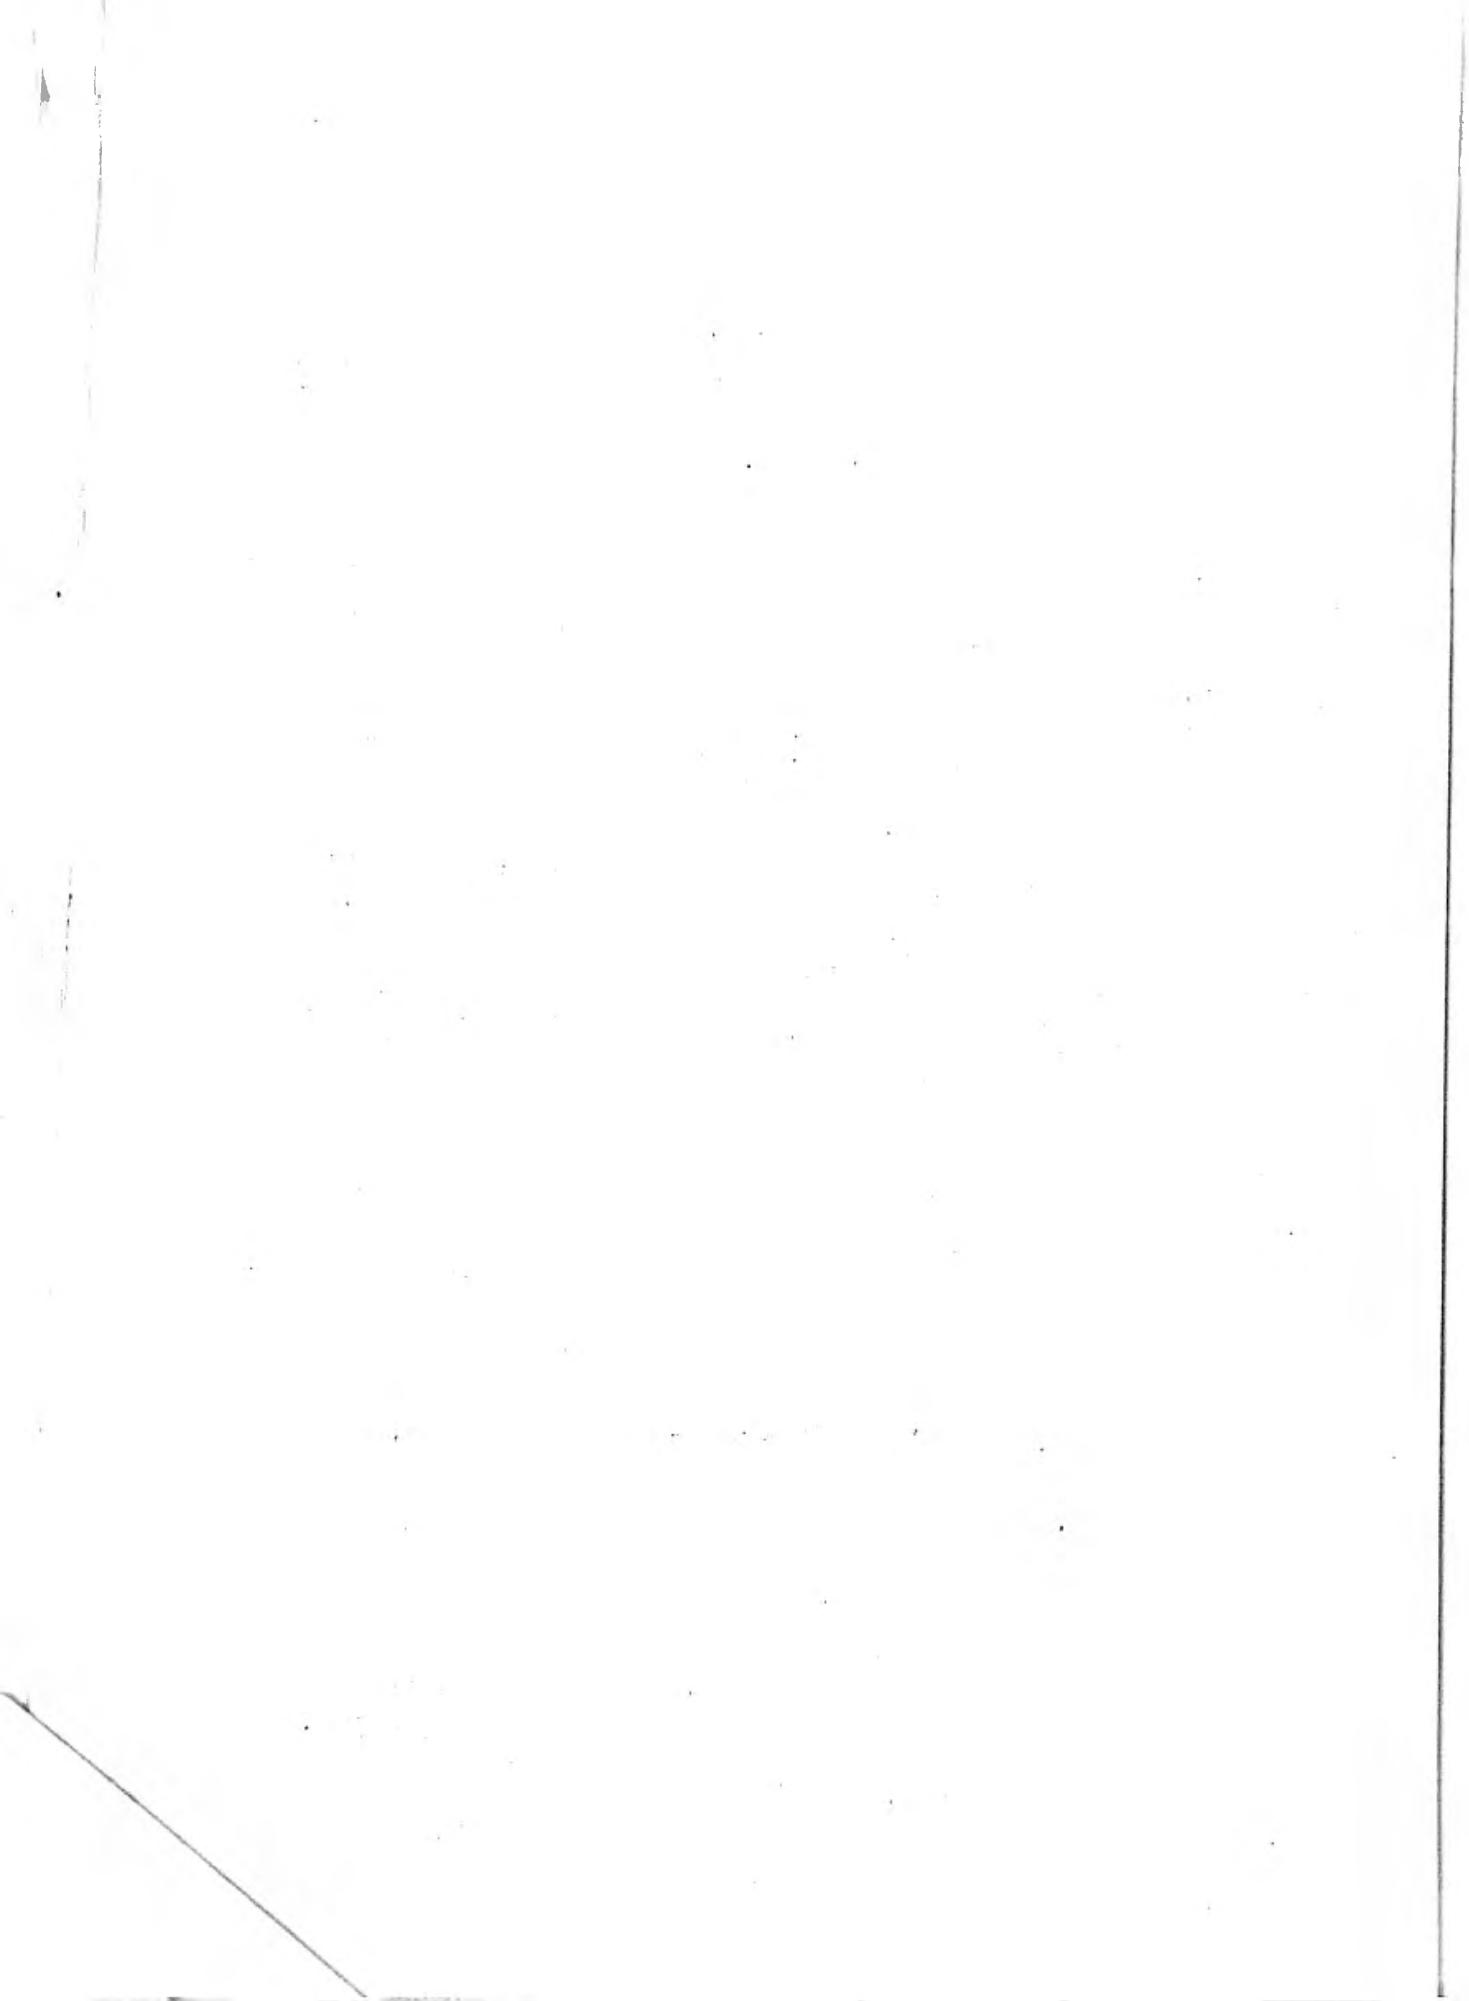

The main consideration offered by the County Council is that they will bear the whole cost of the maintenance, repair and improvement of the claimed county roads approved by them, subject to the provision as to the 5% final payment, whereas under the Act they are to bear the cost of maintenance and repair approved by them but are only required to contribute towards the cost of improvements.

The amendments to the draft agreement suggested by the Legal and Parliamentary Committee which have been approved by the County Council's representatives are as follows :-

Clause (3). The insertion of words to indicate the extent of the County Council's liabilities with regard to the maintenance, repair and improvement of the retained county roads (arterial roads).

Clause (6). The insertion of the words "included in such omission and addition" to make it quite clear that the District Council shall have a right of appeal with regard to the alterations by the County Council to the estimates for works on the claimed county roads.

The County Council's representatives were further prepared to agree to the request of the Committee that a definite date should be inserted within which the County Council are to notify the District Council with regard to their final approval of the works in connection with the maintenance, repair and improvement of these roads, the definite date to be settled later.

Clause (7). The County Council's representatives were prepared to agree that the approval of the County Engineer and Surveyor should not be unreasonably withheld to tenders for the supply of materials and other works required in connection with approved works, but they insisted that the latter part of the clause whereby the District Council are to take the materials, etc., through a Central Supply Depot of the County Council or their Contractors for the purpose of reduction of cost should remain, but they were prepared to agree to a proviso protecting the use by the District Council of its own equipment on the approved works.

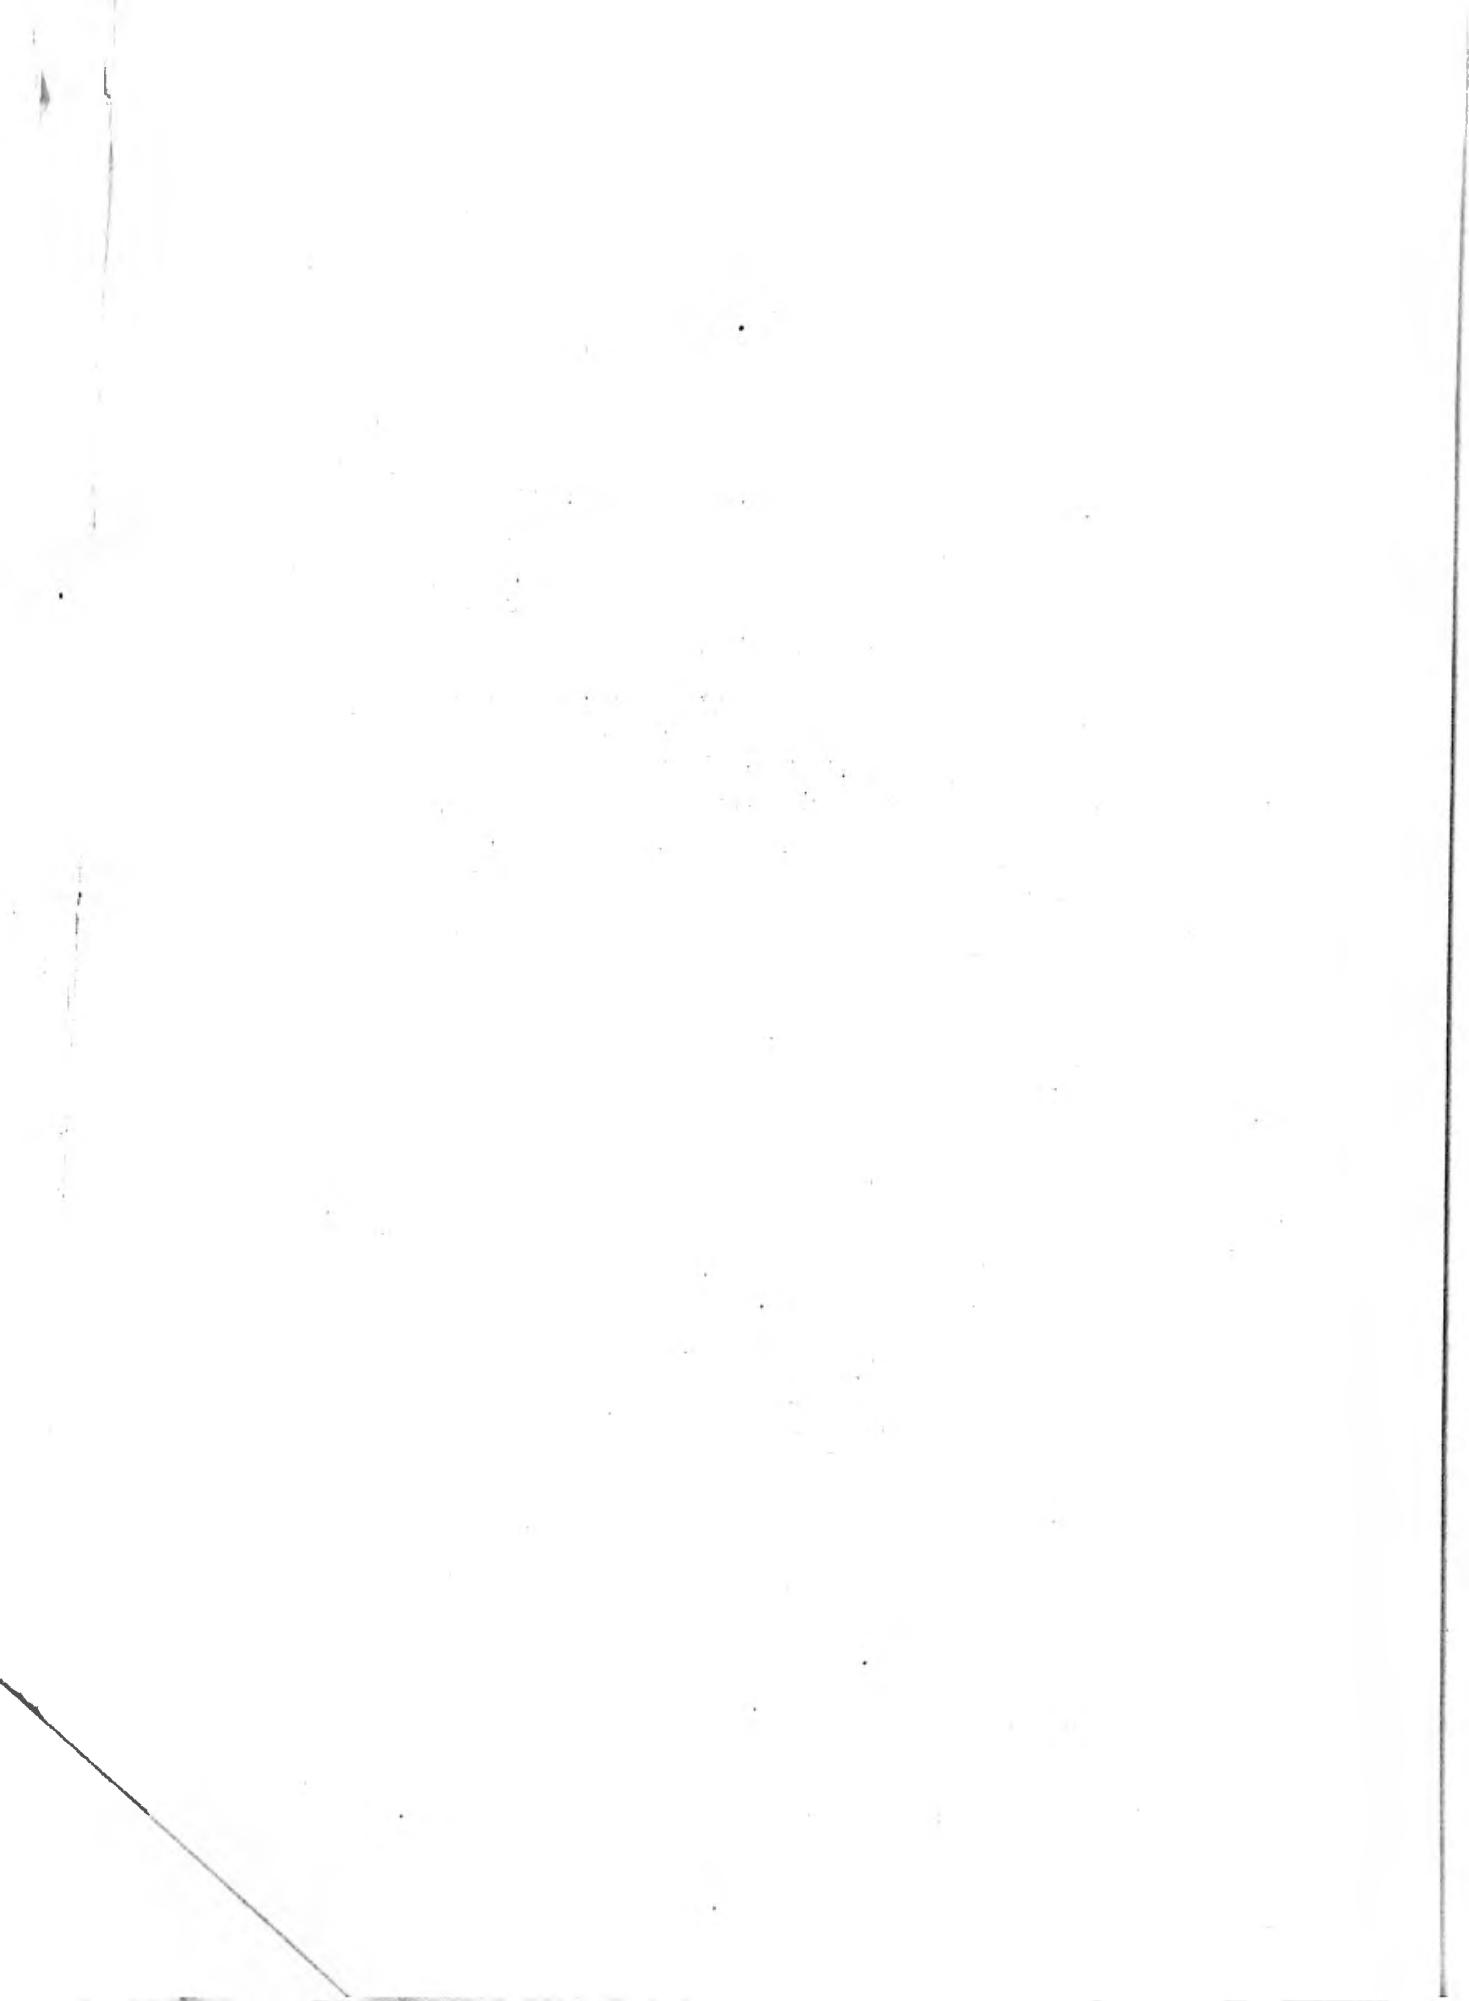

Clause (12). Indemnity clause. The County Council's representatives were prepared to accept the deletion of the words "or otherwise arising out of this agreement" but stated that the other amendments made to the clause by the Committee would have to be further considered by the County Council.

Clause (15). The County Council's representatives were prepared to agree to the Committee's amendments to this clause protecting the position where arrangements had been come to with owners and developers in regard to building lines before the date of the agreement and also a further amendment dealing with the time within which the County Council shall furnish the District Council with copies of plans in all cases of widenings and improvement of county roads (other than claimed county roads).

Clause (17). The County Council's representatives were prepared to accept the amendment to this clause with the proviso that the works were to be done with the consent of the County Engineer and Surveyor, which consent would not be unreasonably withheld. The powers conferred on the District Council under the Sections mentioned in this Clause refer (inter alia) to the construction of shelters, and underground conveniences on county roads.

Clause (18). The County Council's representatives were prepared to agree to the Committee's amendment that land required for widening should be conveyed to this Council and not dedicated, and also the amendment dealing with the legal costs involved thereby in connection with the claimed county roads, but they could not agree to the insertion of the provision that they should bear all compensation therein as the improvement might not be of any County value as opposed to local value.

Clause (19). The Committee had amended this clause to deal with Town Planning Schemes not lodged with the Ministry of Health by the date of the agreement, thus omitting any reference to Schemes 1 and 2.

The County Council's representatives were prepared to agree this clause in principle but the wording of it was to receive further consideration as also the general position arising out of the stage reached by the above two Schemes.

Clause (23). The County Council's representatives accepted the Committee's amendments in deleting this clause.

The Clause provided that the District Council would execute any formal deed of relinquishment to secure the re-vesting of the retained county roads in the County Council.

The following amendments made by the Committee were definitely refused by the County Council's representatives:-

Clause (3). The insertion of words to provide that the County Council should light and be responsible for the lighting of the retained county roads.

Clause (4). The insertion of the word "nameplates" in the definition of the expression "maintenance and repair" of claimed county roads as the naming of a road is not one of the functions vested in the County Council.

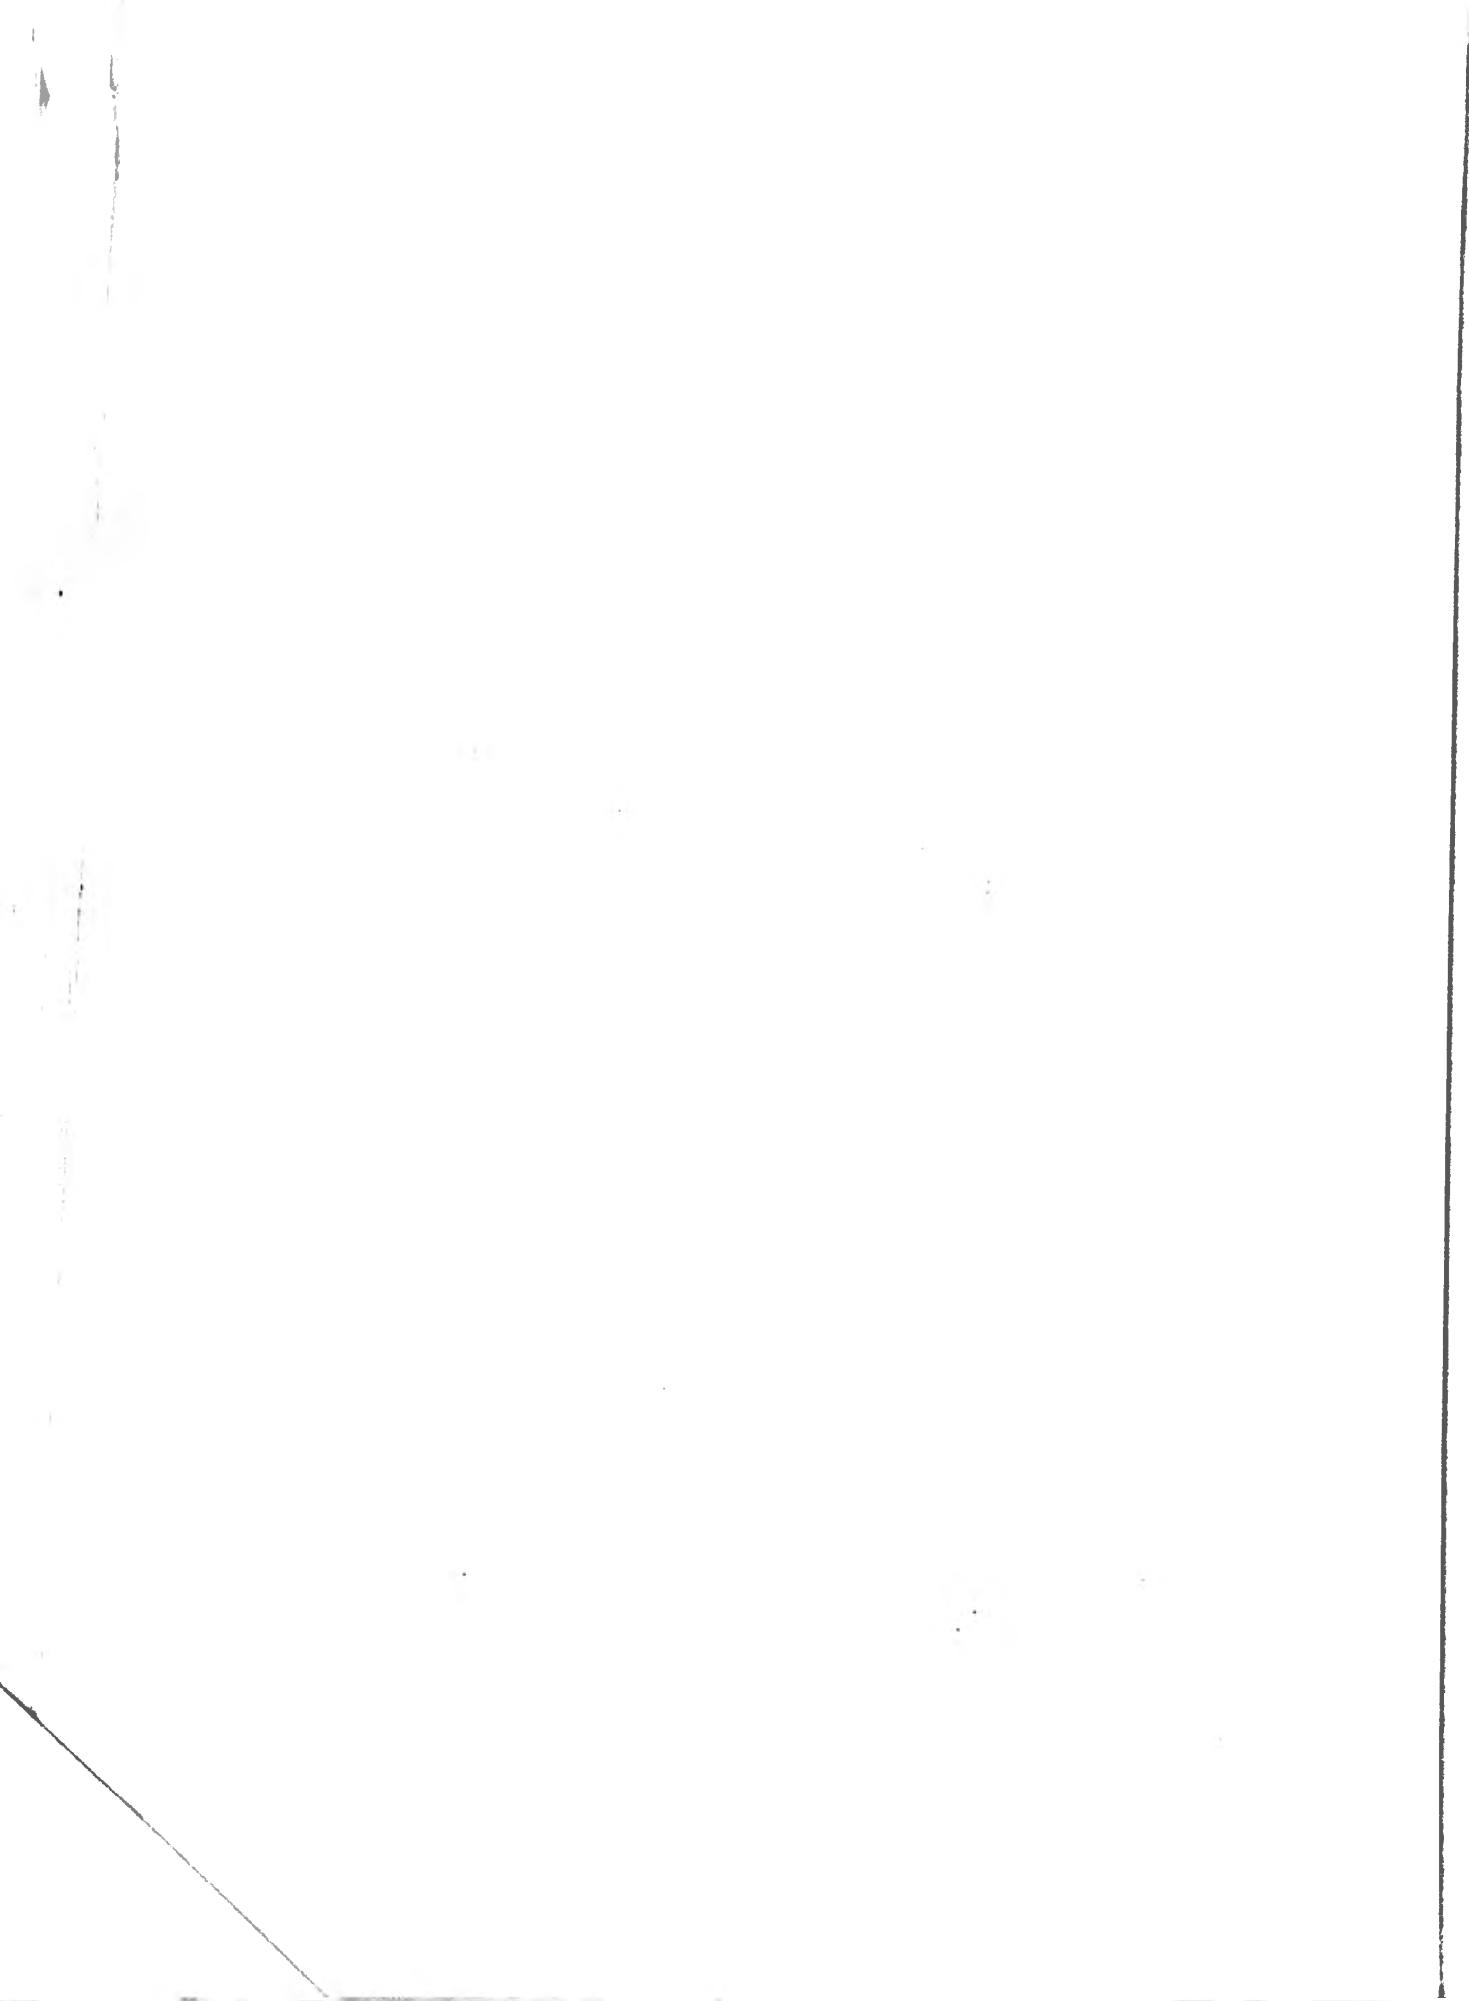

Clause (8). The insertion of a provision by the Committee that the County Council will in any event bear the cost of the 5% final payment in respect of approved works whether the County Surveyor certifies that same have been executed to his satisfaction or not.

Clause (14). An amendment that where the District Council make or are required to make a contribution towards any loan in respect of the cost of any works on any county roads and the County Council raise the loan therefor, the District Council shall first approve the rate of interest before they are required to make any repayment.

Clause (16). The County Council's representatives could not agree to the deletion of this clause by the Committee and they insisted on its retention in so far as it related to retained county roads.

The following suggested amendments were left for further consideration by the County Council and if necessary a further Conference with the County Council's representatives:-

Clause (4). The insertion of the word "sandbins" in the definition of the expression "works of maintenance and repair" as regards claimed county roads.

Clause (6). The fixing of a definite date within which the County Council are to notify the District Council with regard to their final approval of the works in connection with the maintenance, repair and improvement of the claimed county roads.

Clause (12). Indemnity clause. The deletion by the Committee of the words "or in the exercise of the District Council's functions in relation to the claimed county roads" and the other minor amendments to the clause.

Clause (13). The amendment to Clause (13) to provide that the County Council shall repay to the District Council as and when they fall due the sums required to meet the loan charges incurred after the 1st April, 1930, on loans raised after that date for works on the claimed county roads commenced before that date and which become due for payment by the District Council on or after that date.

Clause (16). The retention of this clause in so far as it affected claimed county roads and in any case a provision was to be added to protect District Council's zoning powers under the Town Planning Schemes.

Clause (24). The deletion by the Committee of references to certain roads which might become county roads and which the District Council are to agree not to claim except with the consent of the County Council.

Clause (25). The question of the term of the agreement and a suggested amendment by the Committee that the District Council should have the right at any time to an alteration of the provisions in regard to detail (but not to matters of principle) without going to arbitration.

SUB-COMMITTEE'S REPORT RE GOLF COURSE -
NETHER COURT, FRITH GRANGE AND LAND ADJOINING.

22nd December, 1931.

Present - Councillors Bennett, Pike and Wells.

(1) CHAIRMAN.

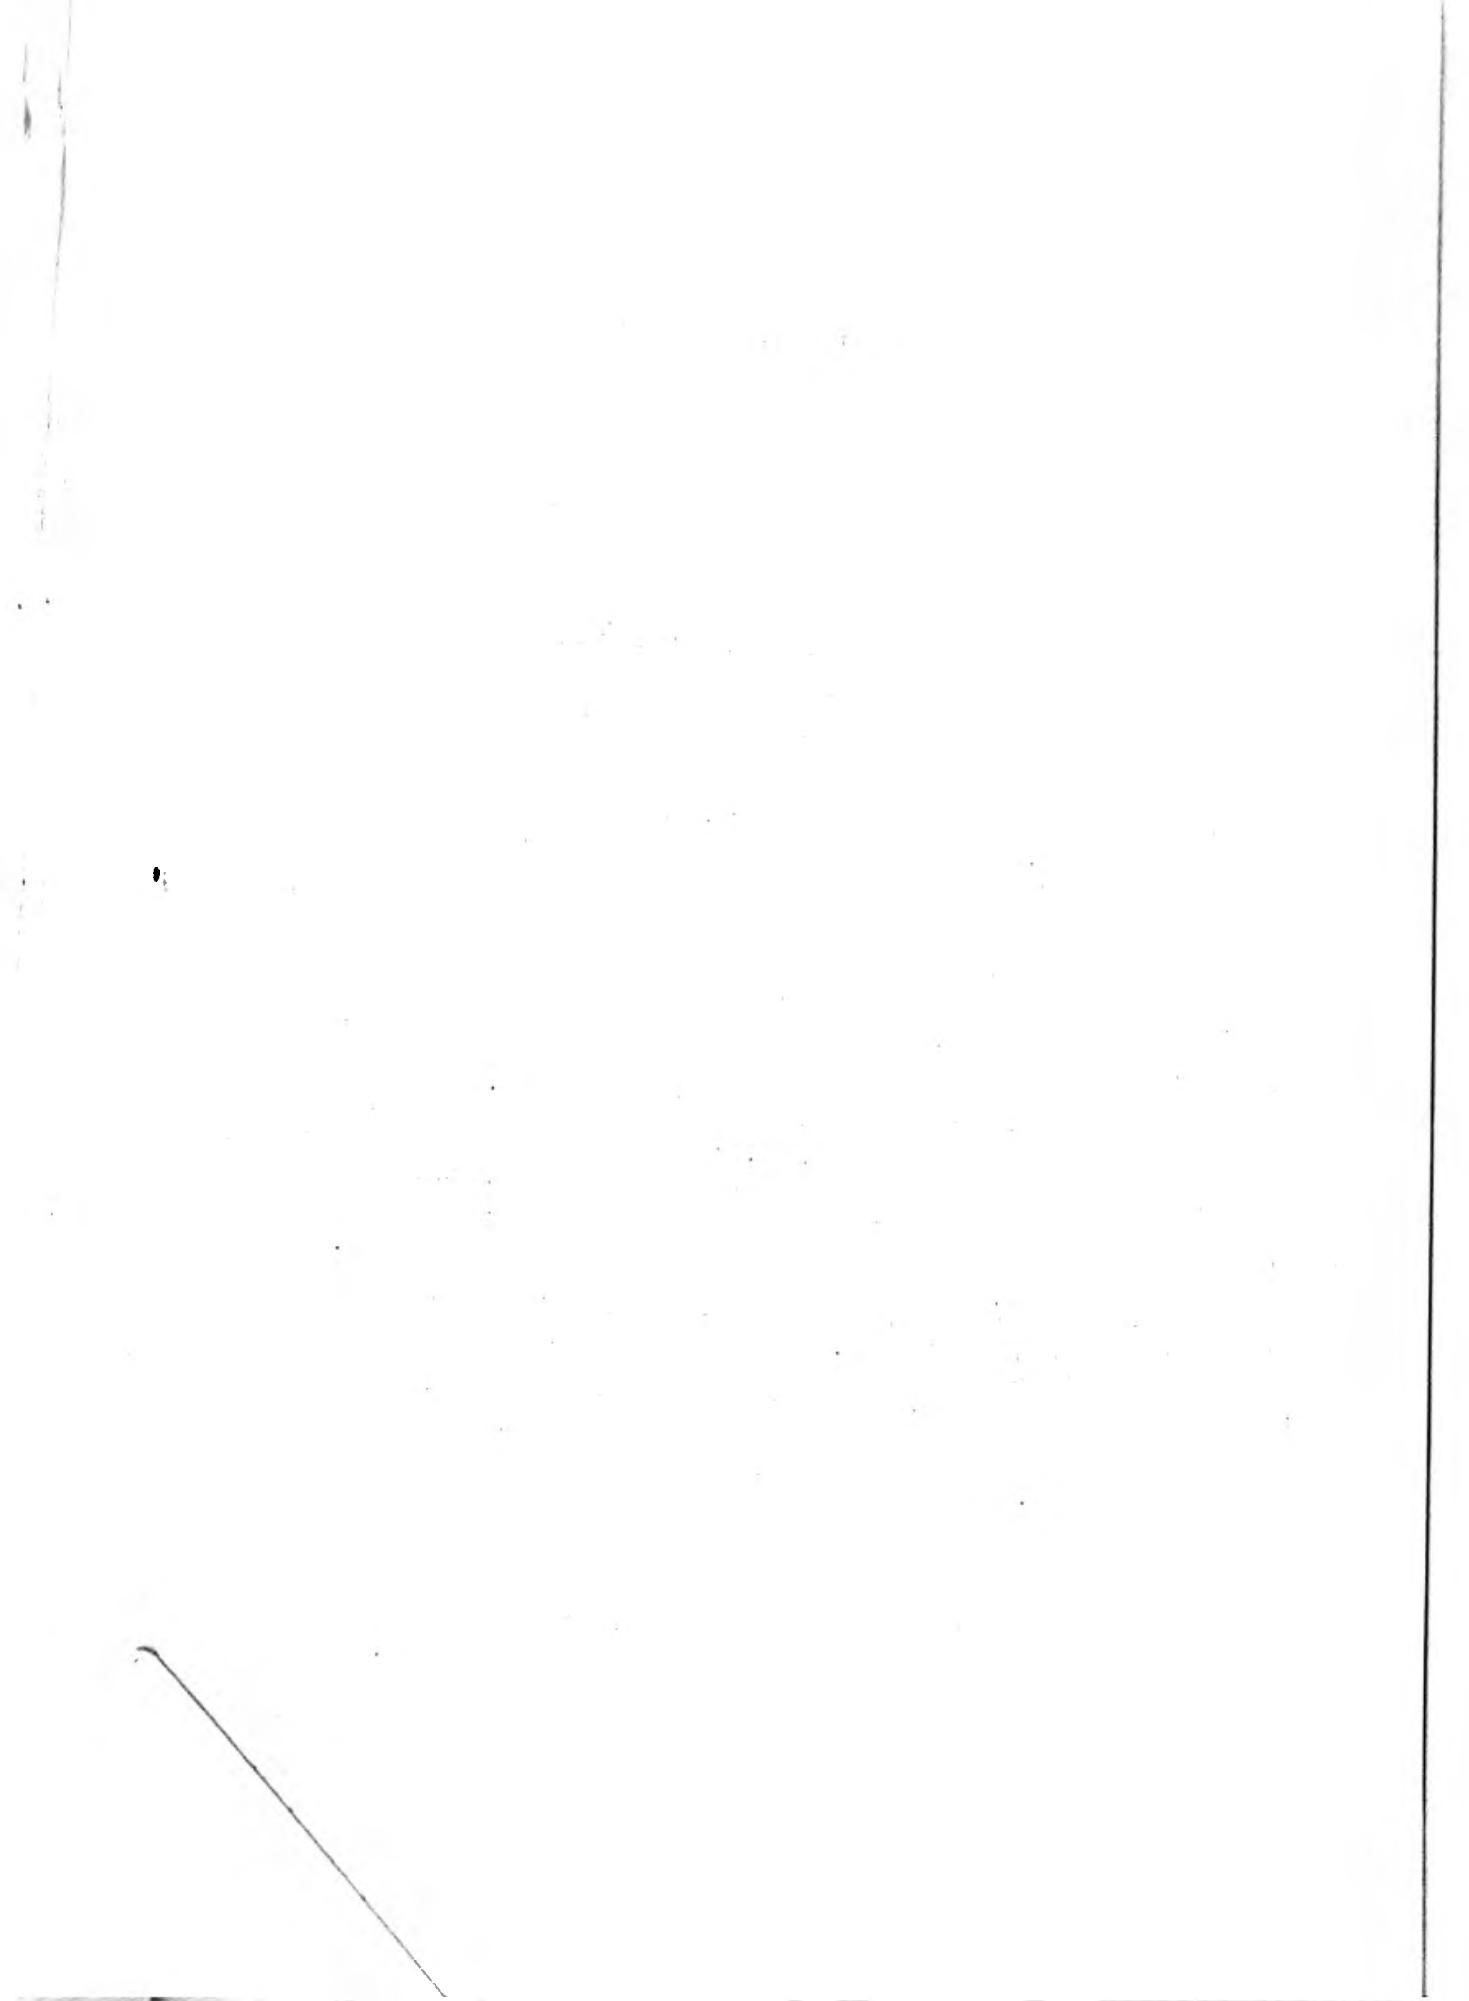

Councillor Wells was appointed Chairman of the Sub-Committee.

(2) GOLF COURSE - NETHER COURT ESTATES - ARREARS OF RENT.

We have considered the reference from the General Purposes Committee hereon, and beg to report as follows:-

Under the terms of the Lease, dated 19th July, 1930 to the Finchley Golf, Sports & Social Club Ltd., the Club are liable to pay to the Council by way of rent a yearly sum equal to the annual repayment of principal and interest for the purchase of the land and the Mansion House known as Nether Court, which the Council shall pay on the loans raised by way of mortgage to cover the total cost of purchasing the property. This amounts to a sum of £2,362.18.10. per annum, the loans raised by the Council totalling a sum of £41,866.16. 3. The total payments made by the Club to date amount to £2,464. 1. 3., and on the 31st December, 1931 there will be due and payable to the Council a sum of £2,705. 0. 5., as shown on the annexed statement prepared by the Accountant. It will, therefore, be observed that the Club are considerably in arrear with their payments.

On the 7th October, 1931, a communication was received from the Secretary of the Club, intimating that, owing to the difficult position of the Club, it would not be possible to meet the December instalment of rent on the due date, and that it would be observed that from the published accounts to 31st March, 1931 the Club had incurred a loss of £1,795. 1. 0; that it was estimated that even after giving effect to staff economies during the present season the loss would be increased to £3,200, which figure was arrived at after charging £4,146 rent to these accounts. It was further pointed out that this state of affairs was mainly caused by the natural slow development of the Club, and the exceedingly wet summer of last season; that the Directors now realised that they had overlooked the fact that at least three years' rent was necessary to allow the Club to reach a satisfactory basis; that the membership of the Club was considered good, and stood at 565 subscribing members; and that every effort would be made to balance the Revenue and Expenditure Account for the season 1932/3, even to the extent of increasing the members' subscriptions, which under reasonable conditions should be realised.

The Club asked therefore that the Council would allow a postponement of the December/31 instalment of rent, the Directors undertaking to do their utmost to pay £1,500 on the 30th June, 1932 (leaving the Dec/31 and June/32 instalments outstanding) and the regular half-yearly instalments thereafter together with such sums on account of the outstanding amount as might be possible from time to time until the full sum had been liquidated.

As a result of interviews which have taken place with representatives of the Club, an appeal was issued by the Club in October last with a view to raising a sum of £4,000. It is understood that a sum of £1,650 has been guaranteed to date, contingent upon the balance required being raised by the 31st March, 1932.

The General Purposes Committee have been informed that the Club's credit resources will last until about the end of January, 1932 and that the amount which they would require thereafter until the end of March would be approximately £500.

In view of the present economic conditions in the country and the need for enforced economy, it is not unlikely that the membership of the Club may be affected. Moreover, the General Purposes Committee have been informed that the Club is indebted to the Bank for a considerable sum. The Council's position, therefore, appears to be precarious, and the Sub-Committee are definitely of the opinion that the Council should give the matter immediate consideration.

The question of funding the debt over a number of years has received careful consideration by the General Purposes Committee, and arising thereout the Sub-Committee have waited upon a representative of the Ministry of Health, and the Chairman will report orally thereon.

VYVYAN WELLS,

Chairman.

This (with the preceding page and the page annexed) is the report of the Sub-Committee referred to in paragraph 1388 of the Council Minutes of the 30th December, 1931.

FINCHLEY URBAN DISTRICT COUNCIL

PUBLIC HEALTH COMMITTEE - 8TH. JANUARY, 1932.

SANITARY INSPECTOR'S REPORT.

3, The Hawthorns,
Regents Park Road,
N.3.

1st. January, 1932.

To the Chairman and Members of the
Public Health Committee.

(1) ELIMINATION OF DRAINS (Sec. 41 of the P.H.A. 1875 and
Acts amending the same).

(a) "Kimboltens" and "Lamorna", Regents Park
Road, Finchley, N.3.

In accordance with the instructions of your
Committee at their last meeting I have caused the
ground to be opened and examined the drains on or
belonging to the above-named premises. As a result
the said drains were found to be in bad condition
and to require alteration and amendment.

I suggest that notices be served upon the
respective owners of the premises requiring them
to execute the following necessary works, namely:-

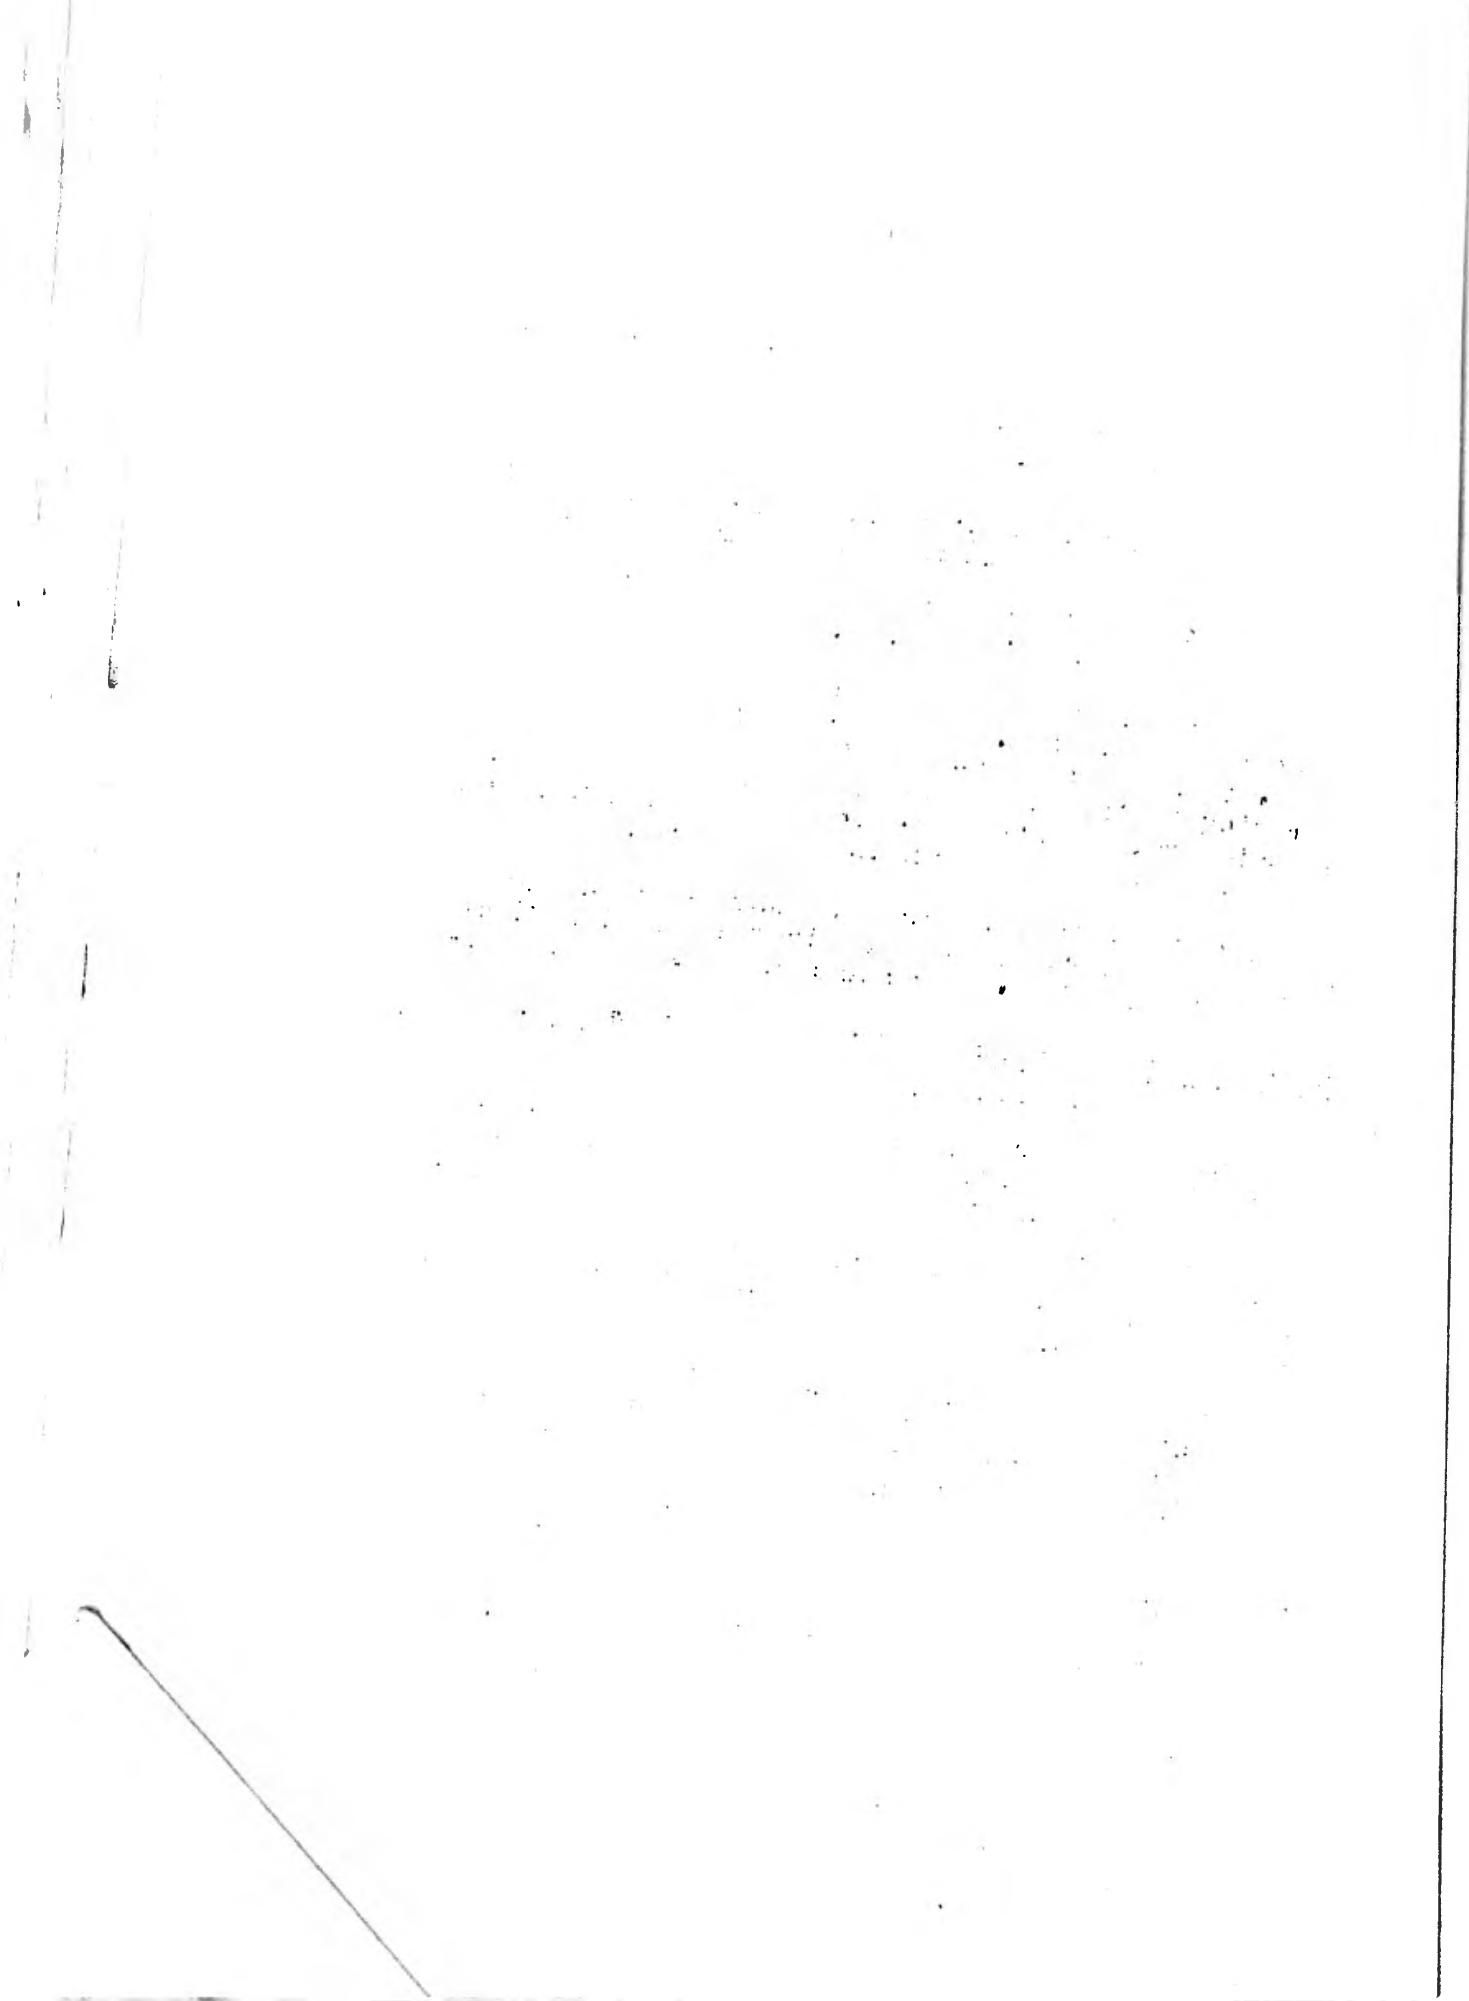

Single private drains on or belonging to Kimboltens
and Lamorna.

Take up and relay the existing defective soil
and surface water single private drains with salt
glazed stoneware, or heavy cast iron coated pipes
on a solid bed of good cement concrete not less
than six inches thick, such drains to be laid with
suitable and regular gradient throughout and to be
made watertight.

In line of the soil single private drain near
the front boundary of the premises provide and fix
an intercepting trap of an approved type with a
fresh air inlet shaft and mica flap valve attached
to same. Provide in connection with the said
single private drain proper means of access for
cleansing and inspecting purposes.

Branch drains on or belonging to Kimboltens.

Take up and relay the existing defective soil
and surface water branch drains with salt glazed
stoneware, or heavy cast iron coated pipes on a
solid bed of good cement concrete not less than
six inches thick, such drains to be laid with
suitable and regular gradient throughout and to
be made watertight.

Drainage drains on or belonging to houses.

Properly repair and make watertight the existing defective soil drains, or relay the said drains with salt glazed stoneware or heavy cast iron coated pipes laid on a solid bed of good cement concrete not less than six inches thick, the said drains to be made perfectly watertight.

Provide a new cast iron cover to manhole.

Properly unstop, repair and put into proper working order the surface water drains.

(b) 6, Torrington Park, N.12.

The drains on or belonging to the above house have been found to be in a very defective condition and the owners are now proceeding with the work of constructing a new system of drainage.

(2) TESTING OF DRAINS - "HOLMEWOOD", "HAWTHORNDEN" & WOODSIDE HALL, WOODSIDE PARK ROAD, N.12.

An application has been received from Miss E.M. Patch for the drains at the above premises to be tested and for the tests to be repeated in August and December each year.

I shall be glad to receive the instructions of your Committee with respect to this application.

The tenants are still in occupation of these houses.

(4) BYELAWS - HOUSES LET IN LODGINGS - REGISTRATION.

(a) I suggest that notices be served upon the occupiers of the undermentioned premises requiring them to furnish to the Council, for the purpose of registration, the particulars set forth in Clause 7 of the Byelaws with respect to houses intended or used for occupation by the working classes and let in lodgings or occupied by members of more than one family.

5, Woodside Park Road, N.12.
17, Elm Park Road, N.3.

(b) The occupiers of the undermentioned premises have furnished particulars as required by the Council for the purpose of registration in accordance with the provisions of clause 7 of the above byelaws and the said particulars have been entered in the register.

25, Gruncisen Road, N.3.
8 & 10, Hutton Grove, N.12.
10, North Terrace, Swan Lane, N.20.
5, Melita Villas, Ballards Lane, N.3.

(c) 76 & 78, Woodside Park Road, N.12.

Your Council's notices requiring the owner to execute certain works at the above-named premises have not been fully complied with. The period of 28 days specified in the notices expired on the 25th November, 1931.

An informal notice was served upon the owner on the 7th May, 1931.

Certain repairs are in progress but only one workman is employed thereon.

(8) PETROLEUM (CONSOLIDATION) ACT, 1928.

(a) Messrs. Chapman & Sons, Ltd., Woodside Works,
Woodside Grove, N.12.

An application has been received from Messrs. Chapman & Sons, Ltd. for a licence to keep 20 gallons of petroleum spirit and/or Petroleum Mixture. The petroleum mixture is required for cellulose spraying. It is proposed to keep the petroleum spirit and/or mixture in metal vessels placed in a brick apartment, fitted with an iron door, situated at the west end of the factory.

If this licence is granted the following conditions should be imposed, namely:-

- (1) that the storage apartment be properly ventilated and made fit for use to the satisfaction of your petroleum inspector,
- (2) that the conditions annexed to your Council's licence be strictly observed.

(b) 152, High Road, N.2.

I have to report that on the 21st December, 1931, I visited 152, High Road, N.2. and examined the six manholes above the underground storage tanks used for the storage of petroleum spirit. These manholes give access to the fill and dip pipes connected with the storage tanks. In five of the said manholes I found accumulations of water coloured by what appeared to me to be petroleum spirit. I took a sample of the "spirit" from each manhole.

The presence of petroleum spirit in the said manholes appears to constitute an infringement of the conditions of your Council's licence.

The Licencee, Mr. Bertram Bell, was warned in June, 1931, by the Clerk of the Council on the instructions of your Committee in respect of a similar offence.

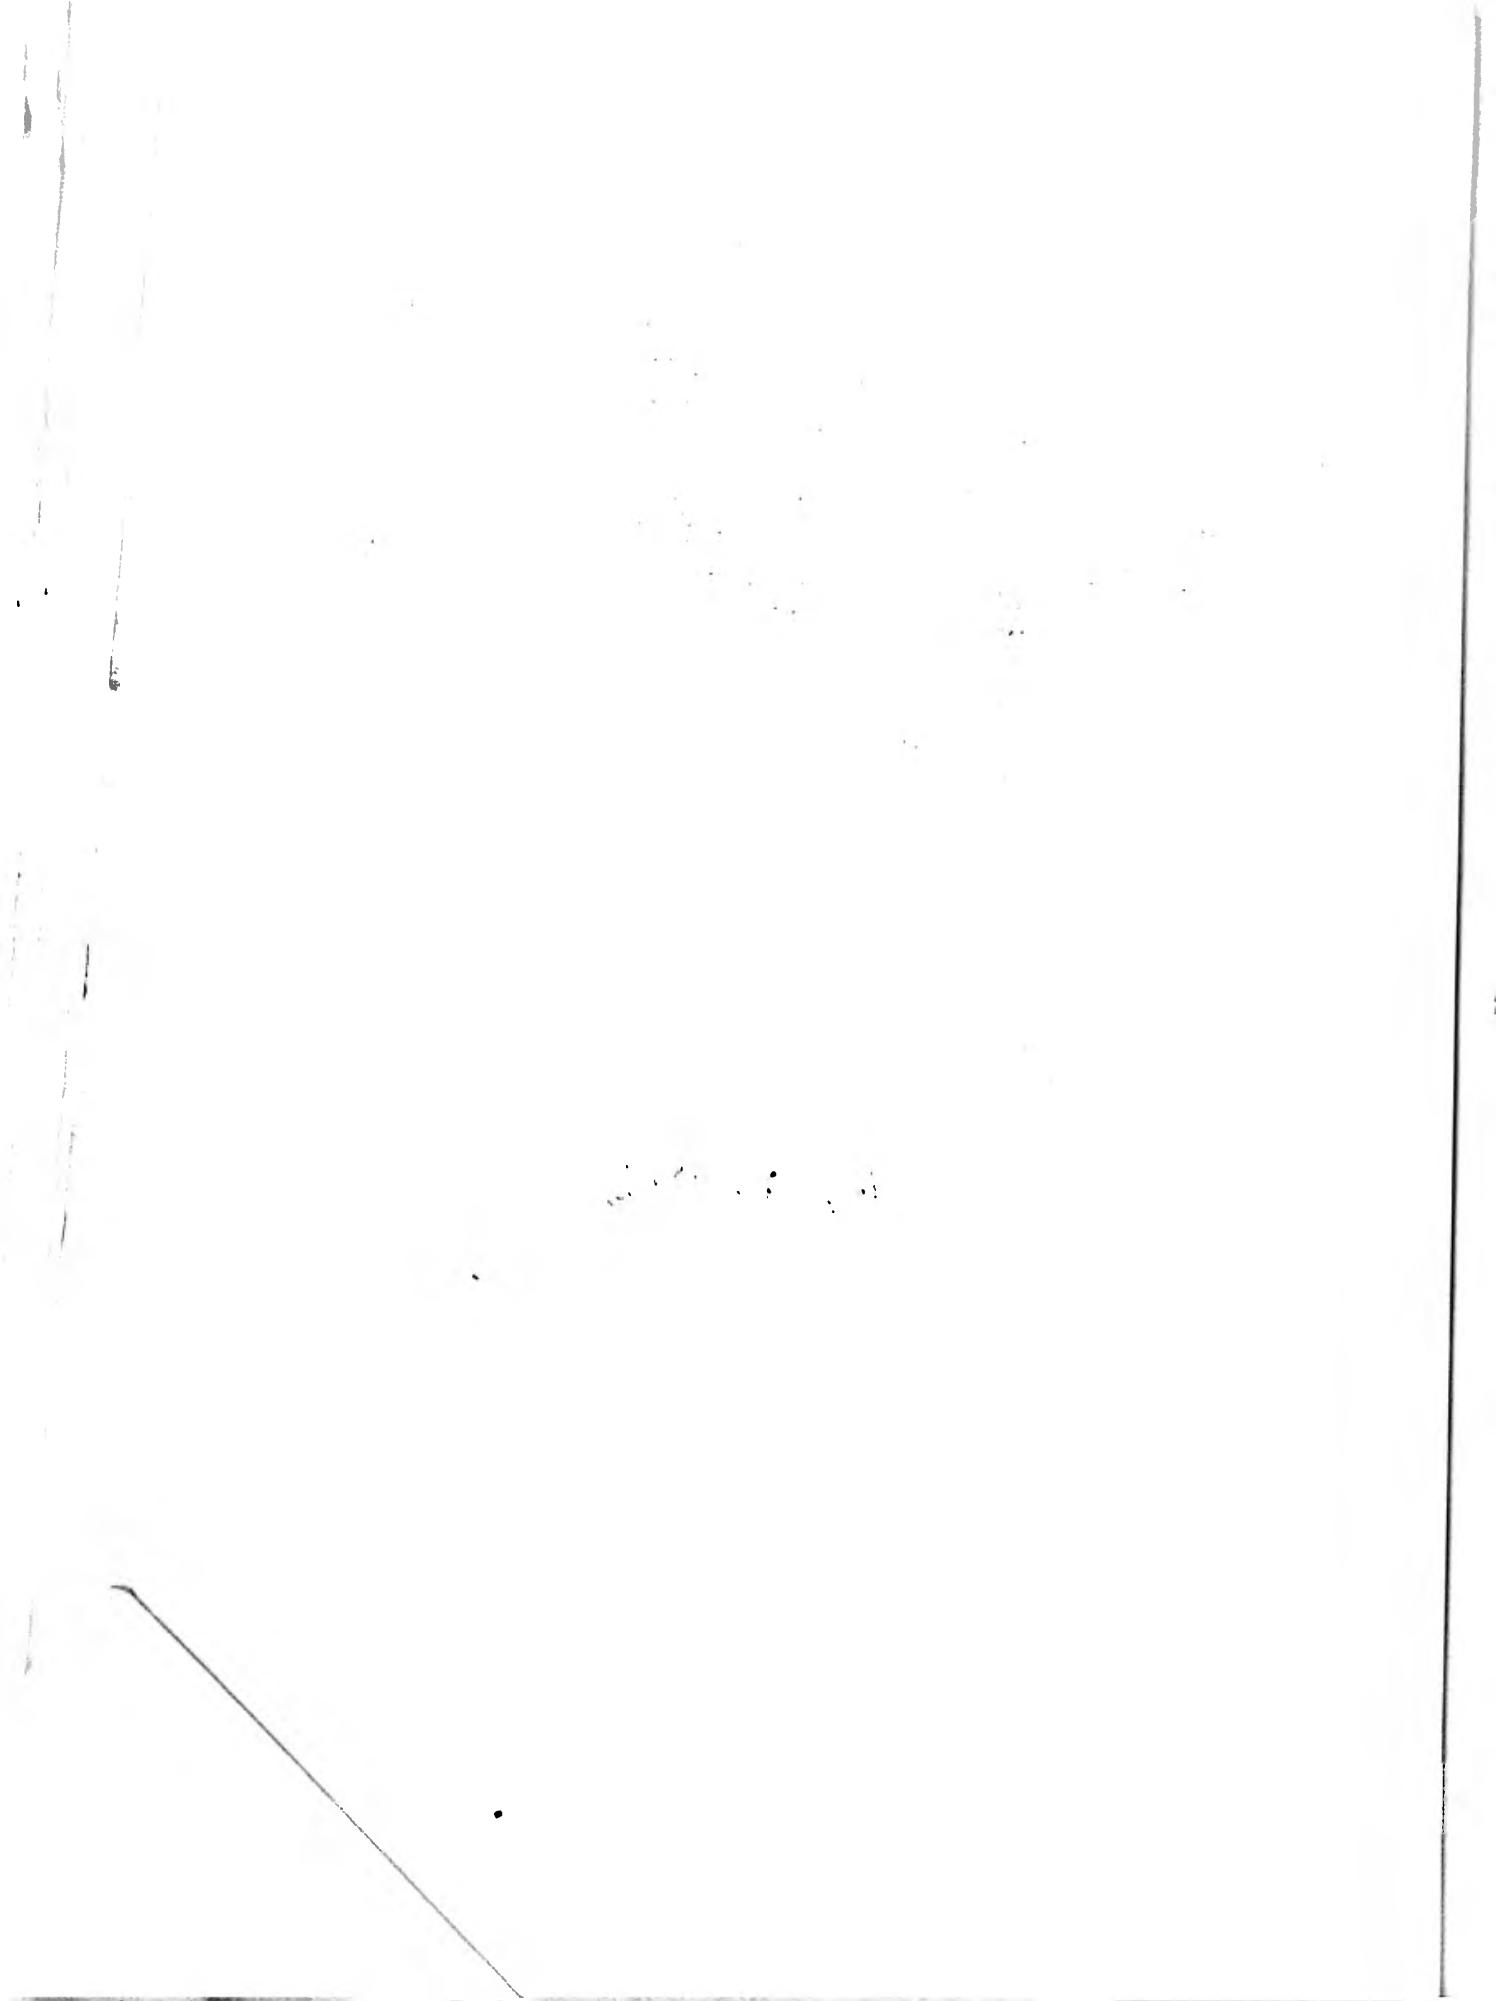

E.J. FRANKLIN.

Chief Sanitary Inspector.

This (with the four preceding pages and the addendum annexed) is the report of the Sanitary Inspector referred to in paragraph 1408 of the Public Health Committee's Report of the 5th January, 1932.

A. J. R.W.

Chairman of the Council.

1. Petrol Station.

An application has been received from Messrs. J. Mellay and C. C. Brown for a license to keep at the above-named premises 200 gallons of petroleum spirit in bulk and 20 gallons in two gallon cans.

The said premises were recently in the occupation of the North Finchley Motor Company who were licensed for the keeping of 200 gallons of petroleum spirit in bulk and 60 gallons in two gallon cans.

The crossing for vehicular traffic over the footpath in Churchfield Avenue has not been constructed by the North Finchley Motor Company as shown on the plan submitted when the petroleum filling station at the rear of the premises was laid out.

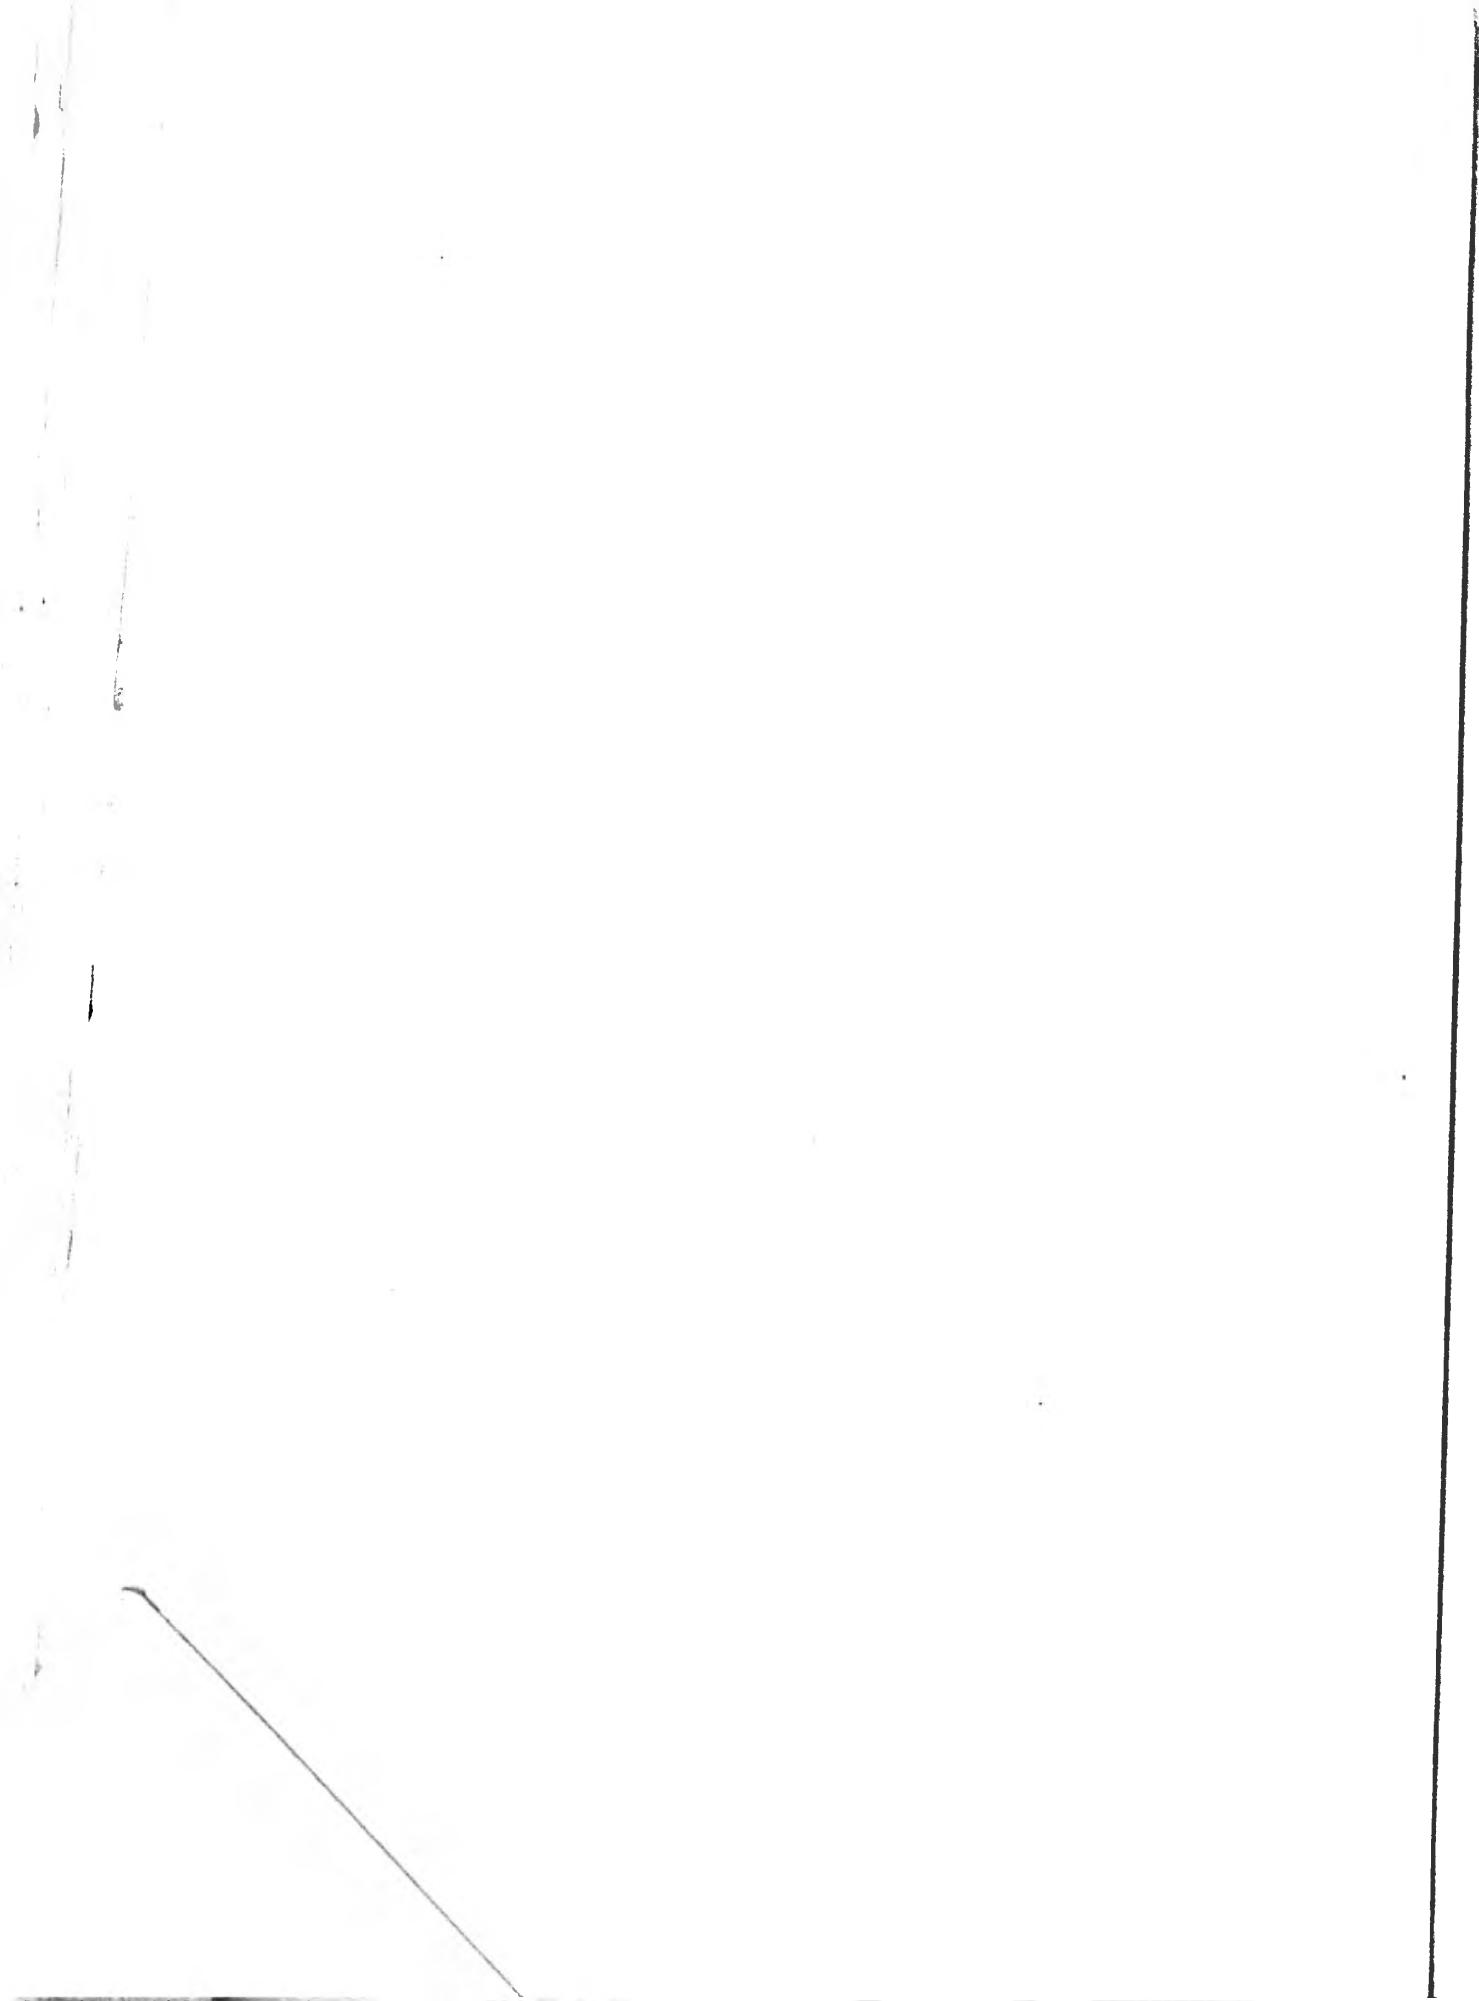

If this application is granted it should be subject to the conditions annexed to your Council's licence being strictly observed.

2. Milk Supplier.

An application to be registered as retail purveyors of milk within the district of Finchley has been received from Messrs. George Michael Verrett and Frank Verrett of 18, Grove Parade, East Finchley, N.2.

RECOMMENDED that the St. Pancras Council be informed that this Council will be prepared to accept a lease of the land for a term of 7 years from the date of the expiration of the former lease, at a rental of £130 per annum.

A list of such works which were included in the scheme was submitted and approved by the Committee.

1412 Joint Isolation Hospital.—It was reported that the Town Clerk of Hornsey had forwarded the following extract from a report of his Health Committee, which had been adopted by the Town Council :—

"A letter has been received from the Finchley Urban District Council suggesting that the apportionment of the expenditure of the Joint Hospital Committee between the three constituent authorities in accordance with the Agreement of the 20th July, 1922, is inequitable and that the terms of the Agreement should be revised.

The Council will remember that the receipt of a similar communication from the Wood Green Urban District Council was reported by this Committee in July last.

The Council have already expressed their willingness to discuss this matter with the other two Councils concerned.

The Committee recommend that the position should be examined on completion of the scheme to be prepared by the County Authority under Section 63 of the Local Government Act, 1929.

It is anticipated that the County scheme will provide for the extended use of the Joint Hospital and this would have an important bearing on the question of apportionment of expenditure."

RECOMMENDED—

- (a) that a further communication be addressed to the Hornsey Council intimating that it is still the opinion of this Council that the whole matter should be reviewed without delay, and enquiring whether they are prepared to agree thereto;
- (b) that the Wood Green Council be informed of the action taken.

Pear Sir,

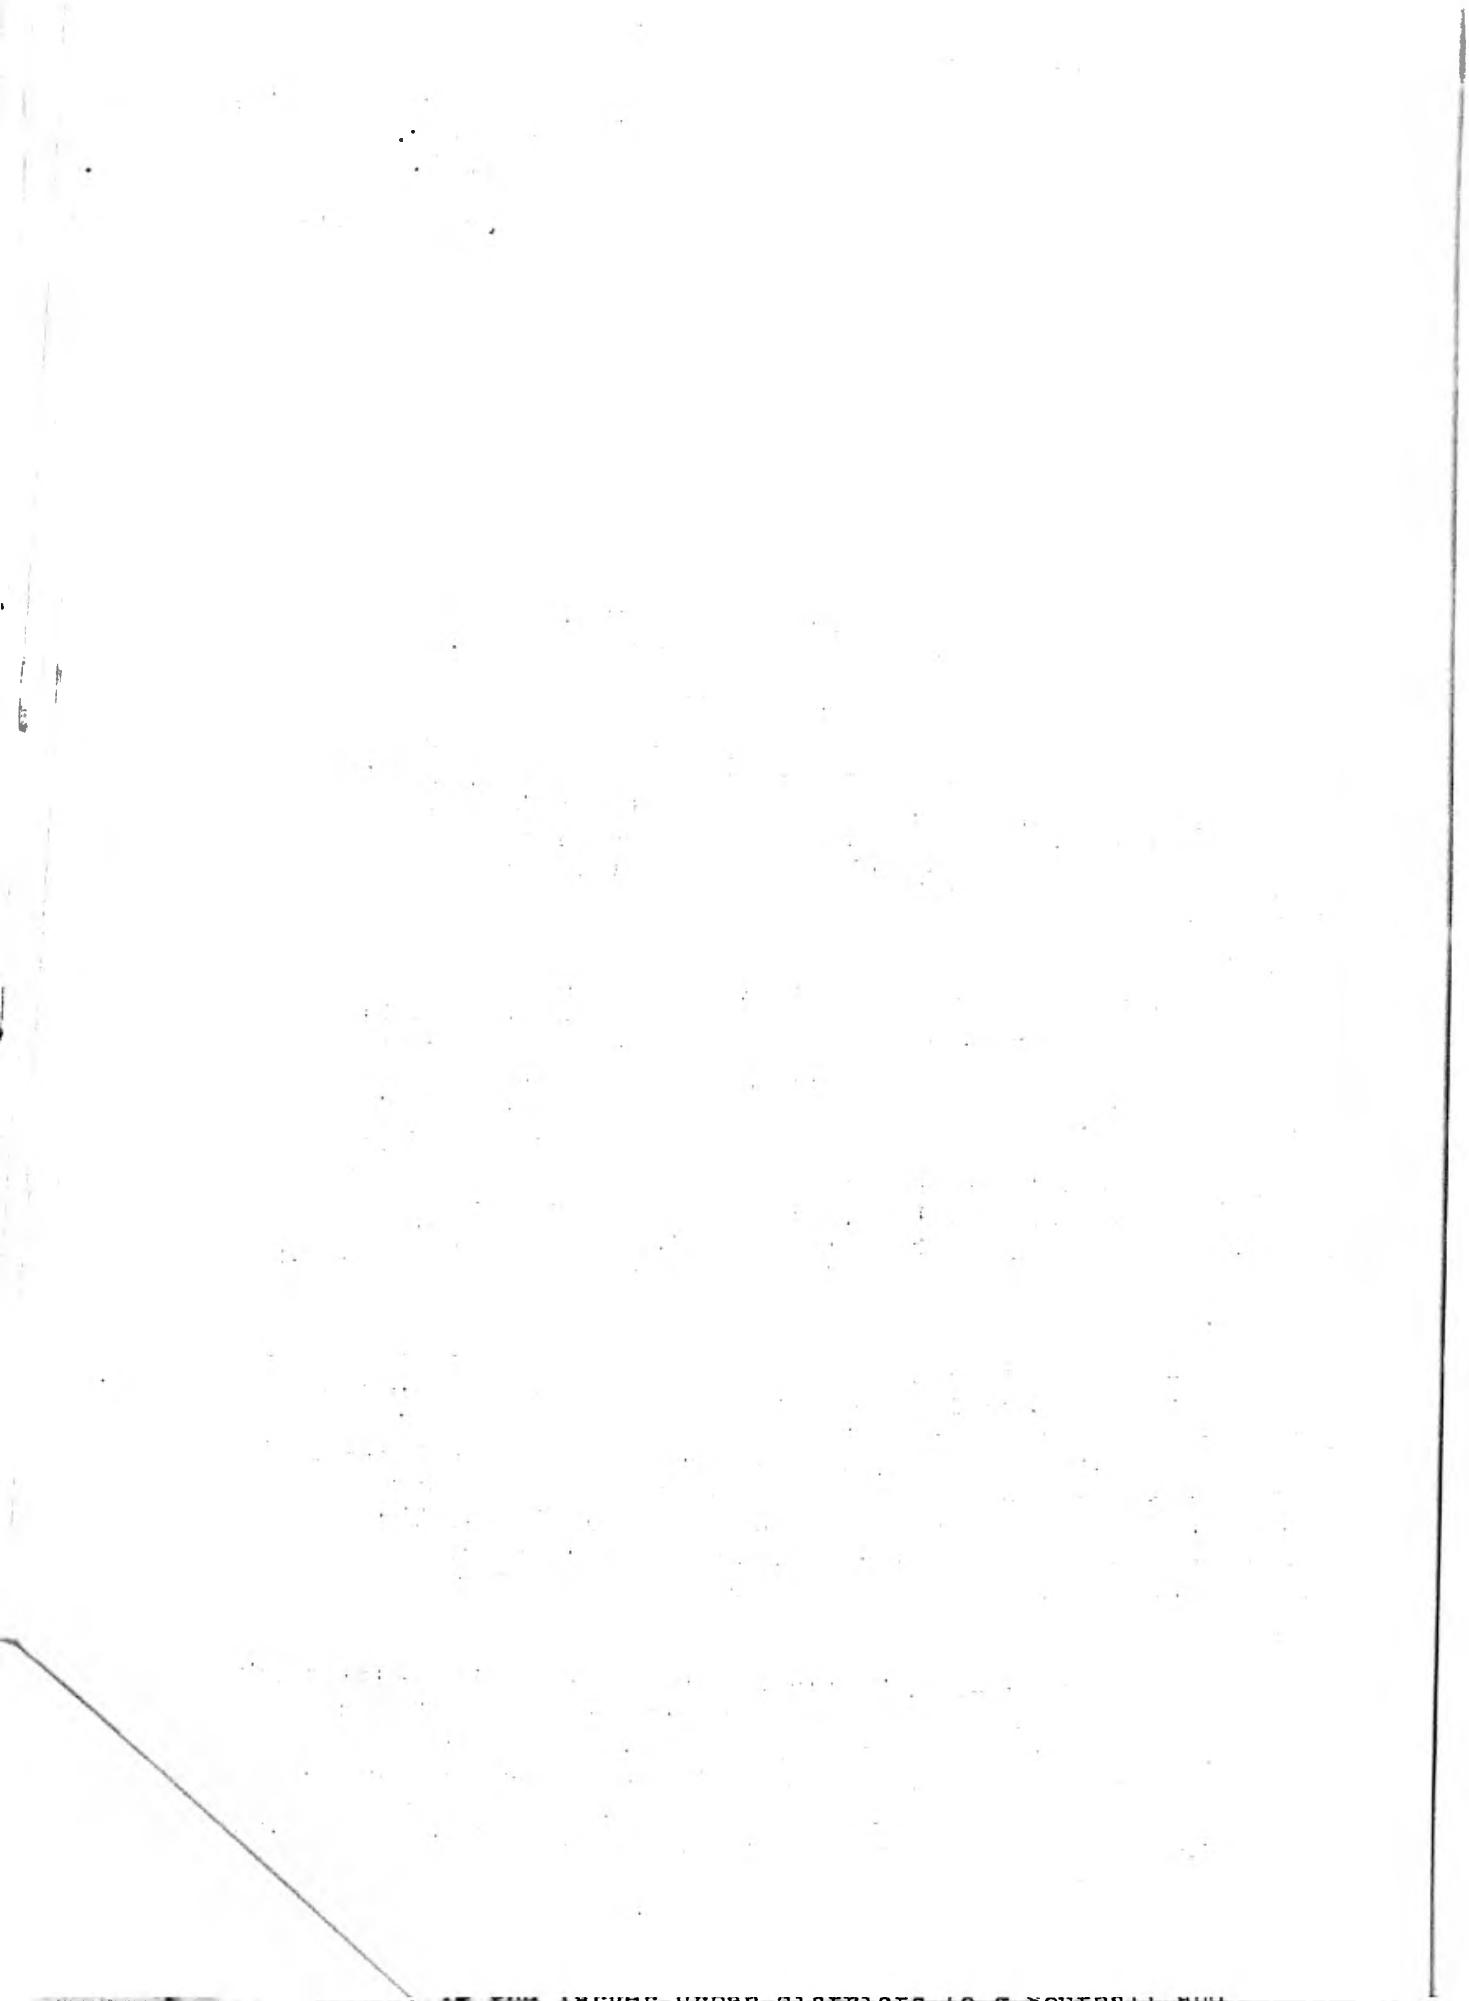

LOCAL GOVERNMENT ACT, 1929.
General Review of Administrative Areas.

I am desired by the Education Committee to express their approciation of the opportunity afforded by your Council to rcpresentatives of this Committee to confer with representatives of your Council regarding the question of the administration of elementary education in the proposed Urban District of Finchley and Friern Barnet.

The position as it was left at the conclusion of the conference on July 14th was that your represcntatives desired to receive further information from the County Education Committee, more particularly with refernce to the powers which would be entrusted to the locality in regard to the management of Schools in the event of your Council deciding to relinquish its powers under Section 5 of the Education Act 1921, and to the financial arrangements which, in the same event, the County Council would be prepared to make with the Finchley Urban District Council.

Your representatives put forward a suggestion that the Urban District Council should remain the Local Education Authority for elementary education for the whole of the united district, and that, by an agreement under Section 7 of the Education Act 1921, the County Education Committee should have powers of management in regard to public elementary schools in the added area. Such an arrangement does not appear to be possible under this Section of the Act.

On the other hand, if your Council agreed to relinquish its elementary education powers in favour of the County Council, this Section, together with other powers in the Act, would enable the County Council to transfer back to a Local Committee its powers of management of public elementary schools within the proposed united Urban District. Such delegation of powers would be consistent with the existing policy of the County Council.

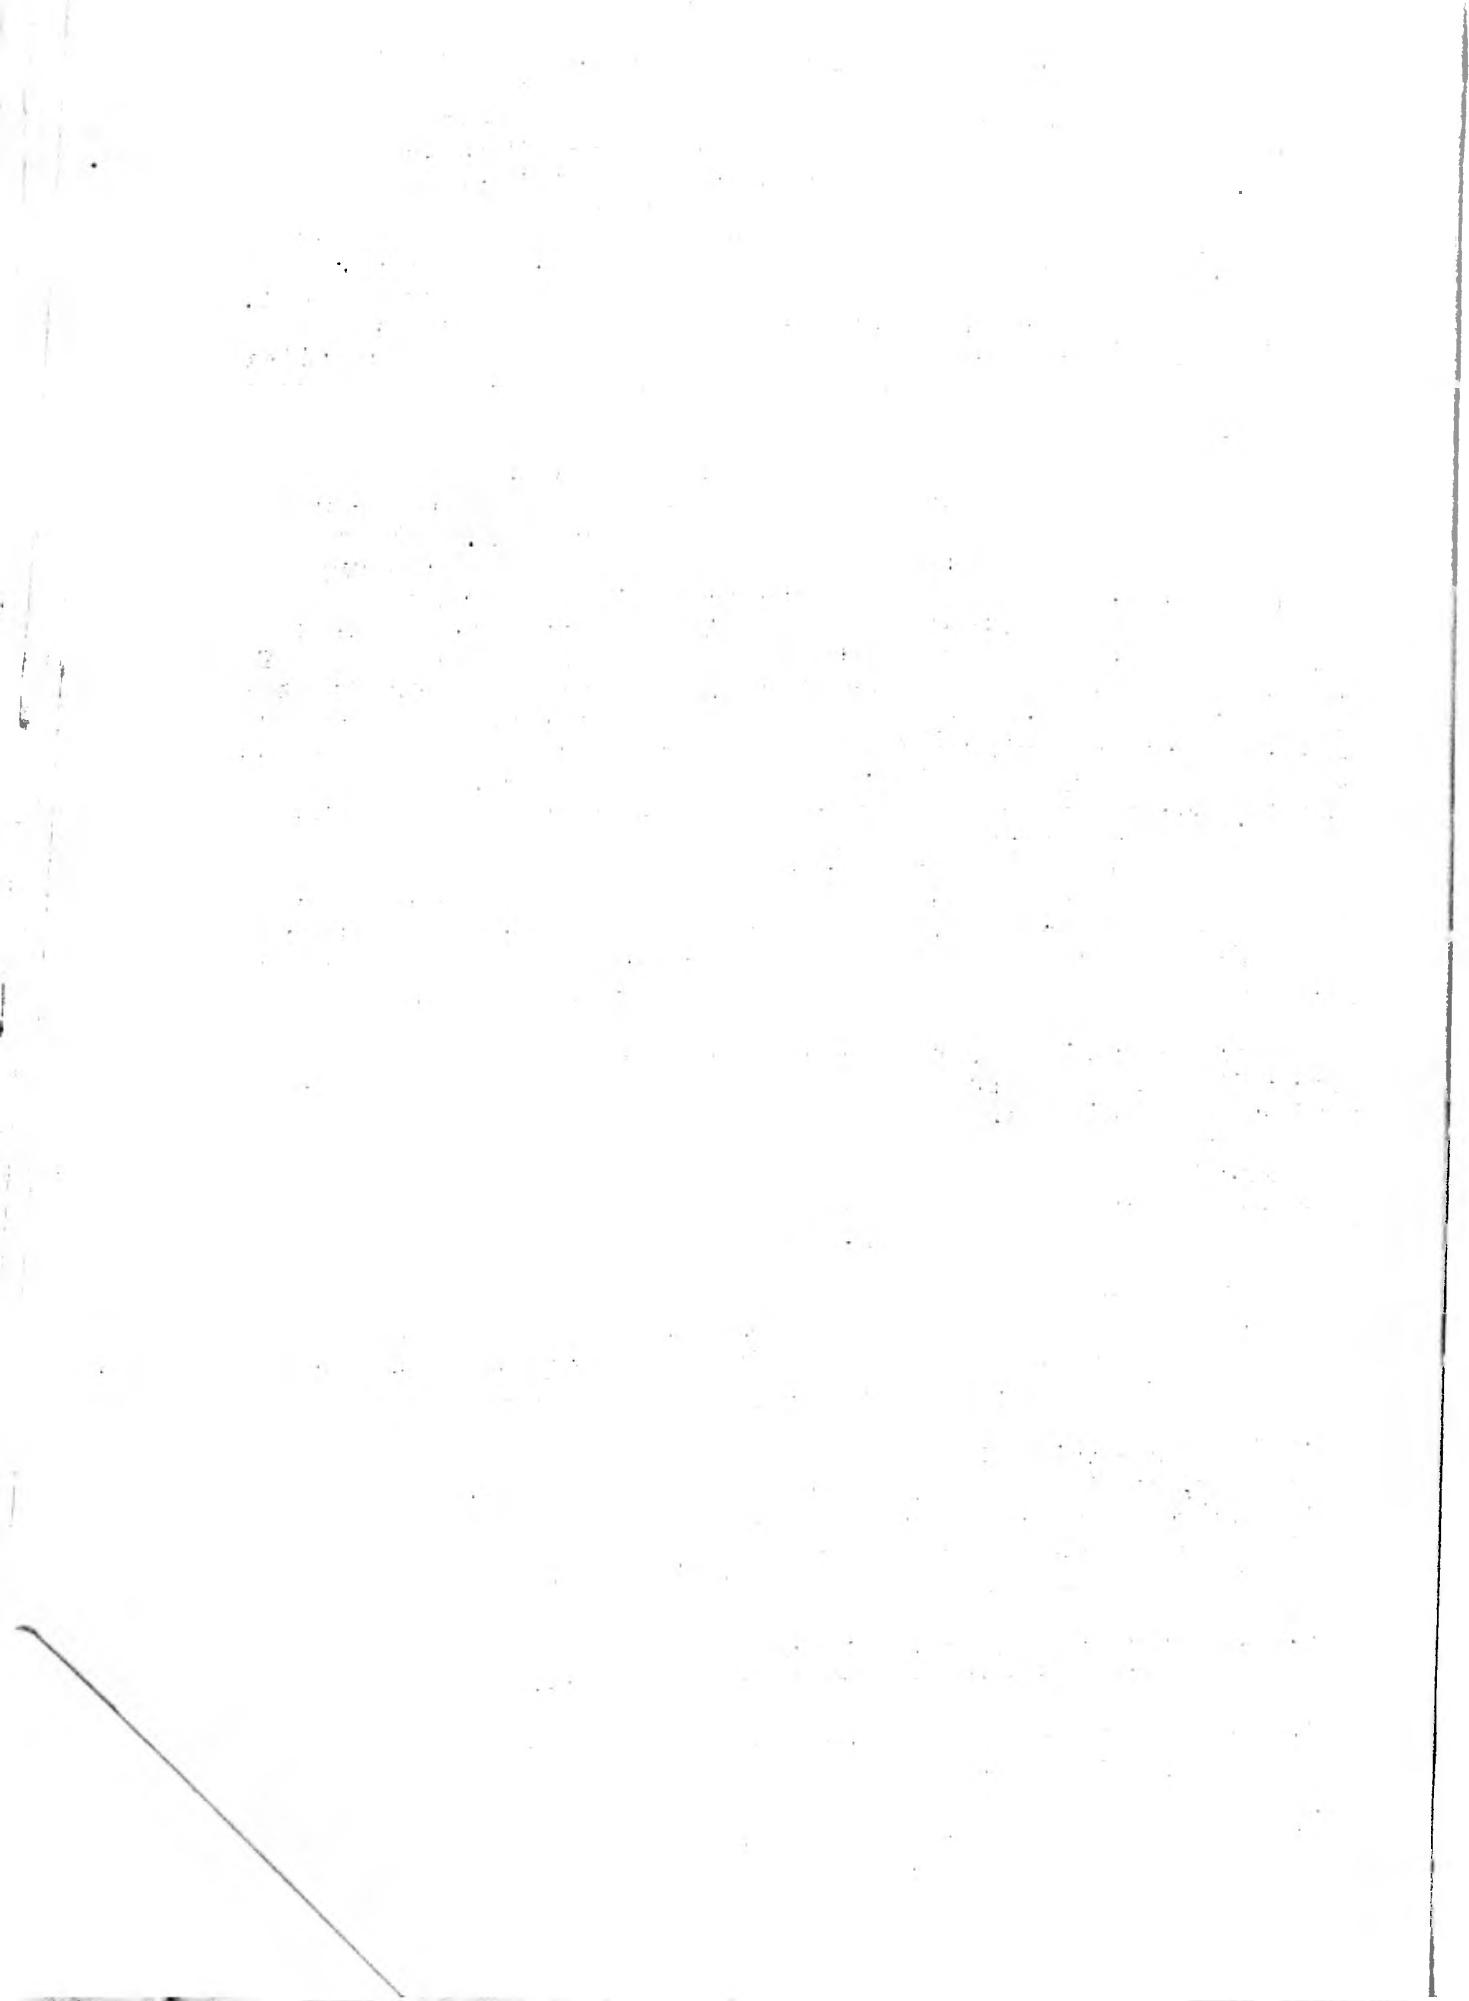

In some Urban Districts (e.g. Southgate, where the County Council is the education authority for both higher and elementary education) the Education Committee have constituted Local Education Committees to which are entrusted the management of all types of schools provided by the County Council in the district. The Harrow and District Local Education Committee has similar powers in an area which includes the Urban Districts of Harrow-on-the-Hill, Wealdstone and Wembley, and part of the Rural District of Hendon. These Local Committees consist of representatives appointed by the Councils of the Urban and other Districts concerned together with representatives appointed by the County Council. The constitution of the Local Education Committee for the Urban District of Finchley and Friern Barnet could be a matter of agreement between the Urban District Council and the County Council.

Similarly the extent of the powers of management to be delegated to the Finchley Local Education Committee could be a matter of agreement between the two Councils. These powers would naturally include the management of secondary and technical as well as of public elementary schools and there would be a distinct advantage in an arrangement which placed the management of all types of schools in the hands of the same Committee. The Education Committee's schemes for the constitution of local Higher Education Committees and for the regulation and administration of secondary schools under which considerable powers have been delegated to the existing Finchley Local Higher Education Committee represent what is presumably an acceptable arrangement in regard to the management of secondary and technical schools whilst the scheme under which the management of public elementary schools in their respective areas is assigned to the Local Education Committees in Harrow, Southgate and Southall might be a basis for an arrangement in regard to elementary education.

I enclose copies of the Schemes relating to Local Higher Education Committees and the Management of Secondary and Technical Schools.

Amongst the powers and duties in regard to elementary education assigned to the Harrow and other Local Education Committees are the following:-

1. The control, subject to the regulations of the Board of Education and to the general policy of the County Education Committee, of the educational work of the Committee's elementary schools in the area.
2. The appointment of Assistant Teachers in Council Schools, subject to formal confirmation of such appointments by the County Education Committee in order that these teachers may legally be the employees of the Middlesex Education Committee.
3. The care and upkeep of school buildings.
Appointment of caretaking and cleaning staff.
4. Responsibility for carrying out the duties imposed by the Education Act in regard to school attendance, etc.
5. Advising the Education Committee in regard to the provision of new schools in the area.
6. Assisting the Education Committee in regard to the appointment of Head Teachers of Council Schools in the area.

The representatives of your Council called attention to the difference in the current elementary education rates levied in the Urban District of Finchley and in the Middlesex Elementary Education area and asked whether the County Council would be prepared to agree to differential rating as between the two areas. It was pointed out by representatives of the County Council that, if Finchley remained an autonomous Education Authority, various financial adjustments as between Finchley and the other Local Authorities concerned, which would be consequent upon the administrative changes now proposed, would probably require an increase in the rate levied in the district.

It is impossible at this stage for the County Accountant to make an estimate of the financial effect of these adjustments in terms of local rating. I am, however, authorised to say that the representatives of my Committee who had the pleasure of conferring with members of your Council are prepared to ask the Middlesex Education Committee seriously to consider a recommendation to the County Council providing for a differential rate for a term of years, should such an arrangement be justified in the light of the results of an investigation into this matter.

I shall be pleased to receive the observations of your Council upon this letter in due course.

Yours faithfully,

(Signed)

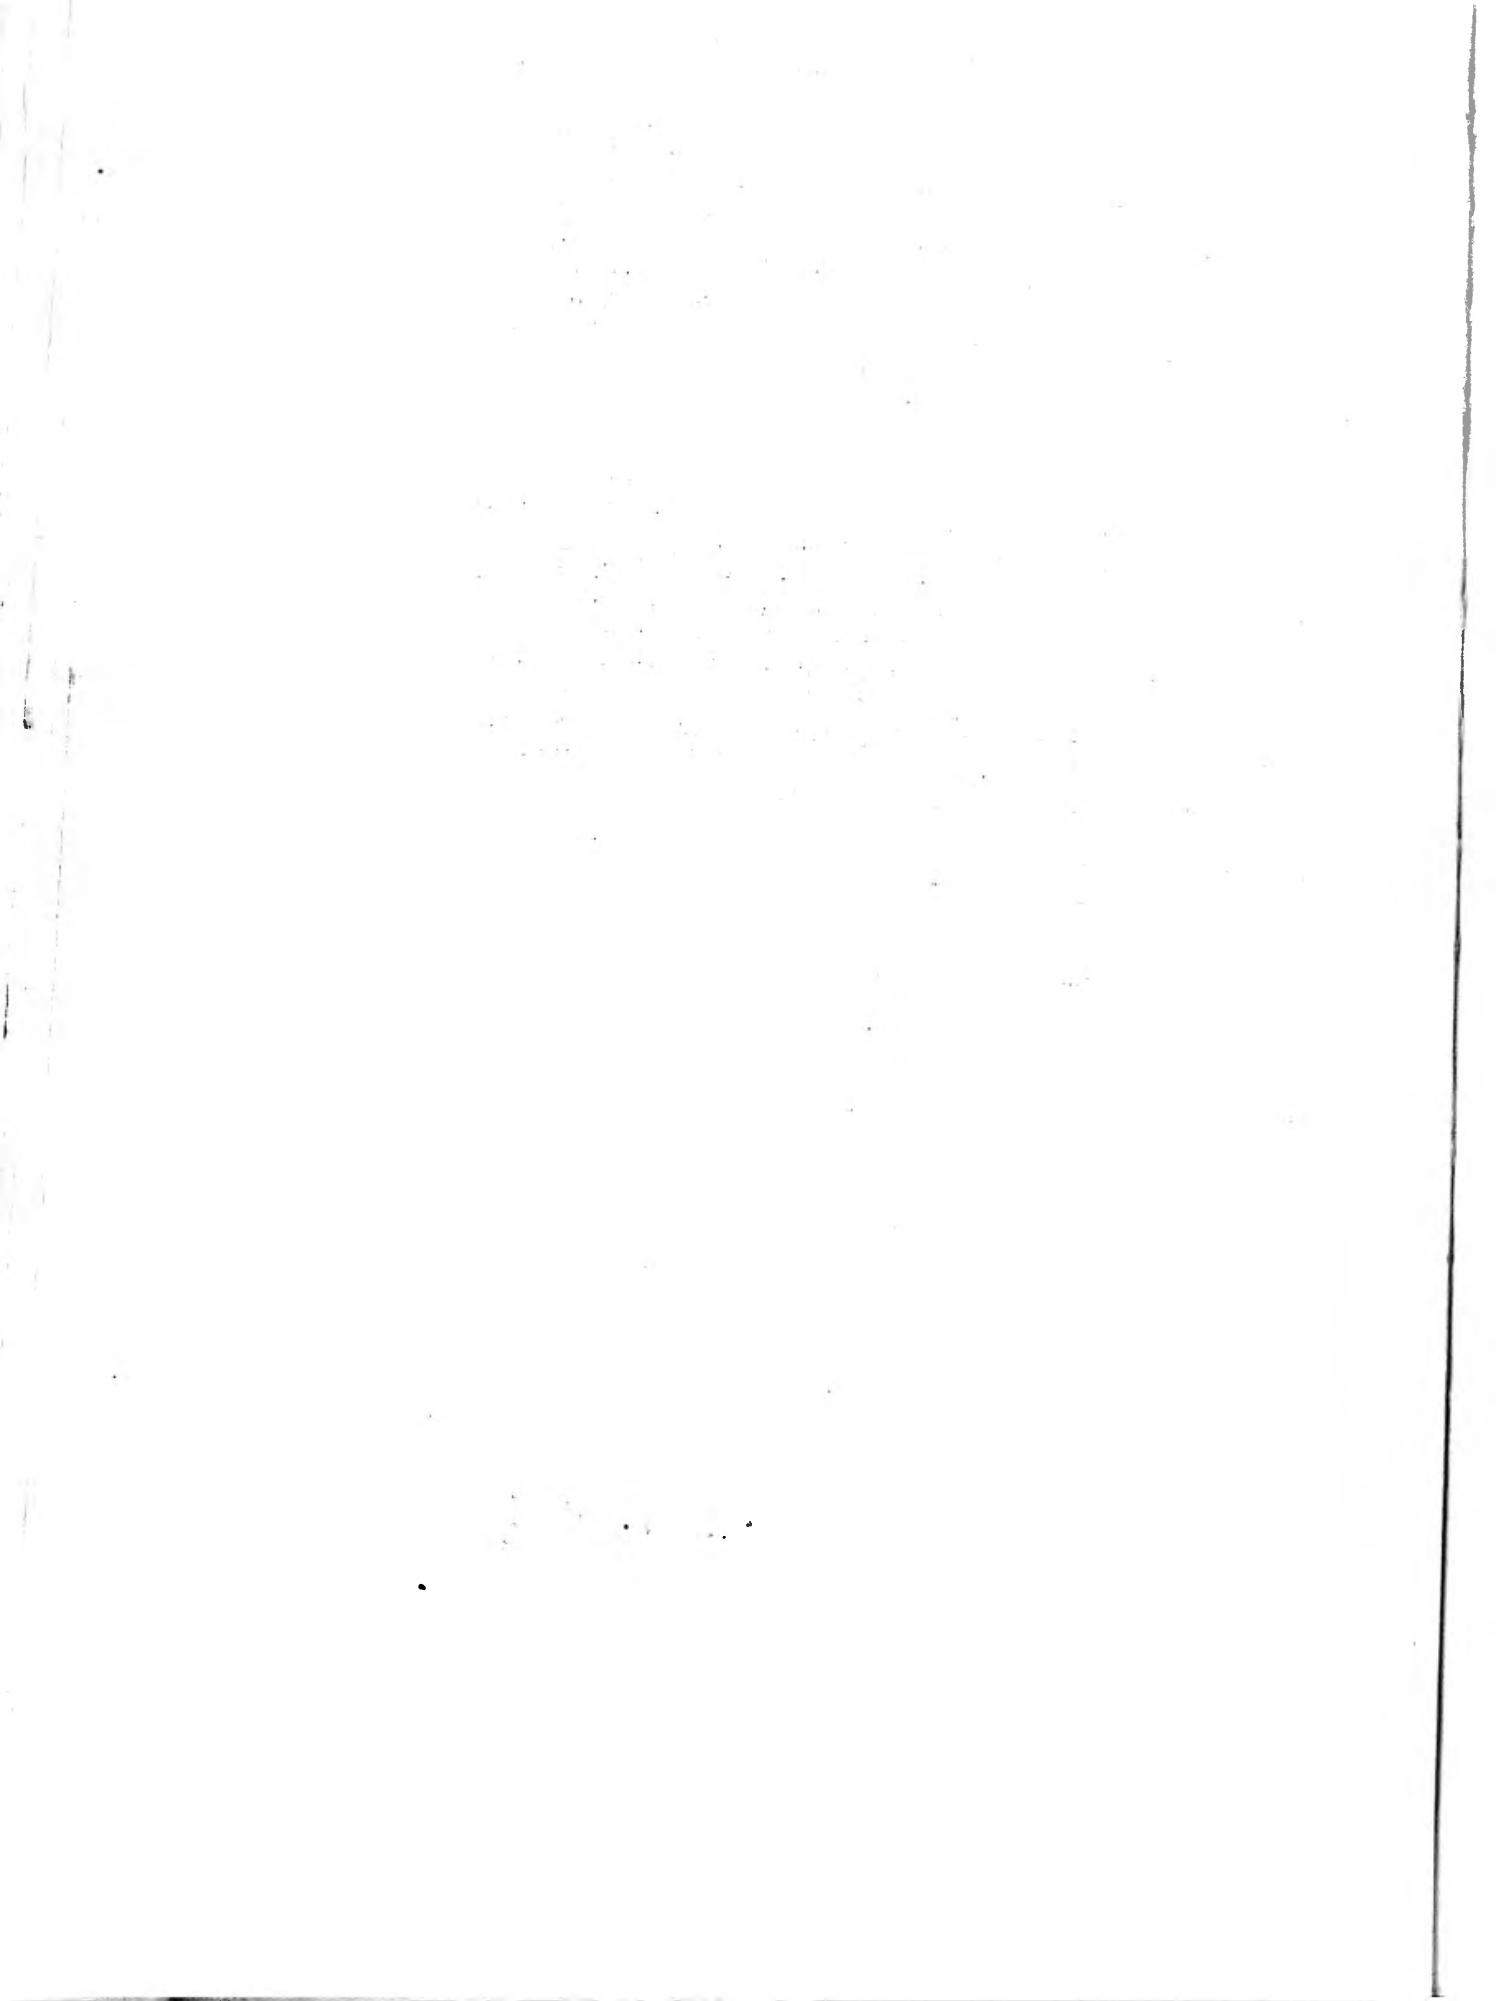

H. M. WALTON,

Secretary.

"The East Finchley Wesleyan Sunday School Council, at the Annual Meeting on November 17th, viewed with deep concern the attitude of the Finchley Urban District Council in permitting the opening of the Public Open Air Swimming Baths on Sundays. It regrets the tendency of endeavouring to interest young people in any Sunday sport, which by the nature of the case interferes with the effectiveness of the moral, civic and spiritual education, for which Sunday Schools stand.

If it is considered to be in the public interest that Baths should be open on Sundays, we respectfully suggest that those persons really interested in bathing could probably avail themselves of the opportunity, if the baths were opened until, say, 10 or 10.30 a.m. only."

An amendment was proposed by Councillor C. S. Syrett, seconded by Councillor Mrs. Timberlake, that "2 p.m. to 5.30 p.m." mentioned in the seventh line of recommendation (1) be deleted. URBAN DISTRICT OF FINCHLEY

TOWN PLANNING AND OPEN SPACES COMMITTEE'S REPORT.

4th January, 1932.

Part II.

Present: Councillor Langlands (Chairman), Councillor Jones (Vice-Chairman), Councillors Briant, Pike, Fulham, Mrs. Timberlake and Wells, and Councillor C.S. Syrett (non-member).

1.- TOWN PLANNING SUB-COMMITTEE.-

The Reports of the above Sub-Committee of the 19th December, 1931, and 2nd January, 1932, were submitted and considered;

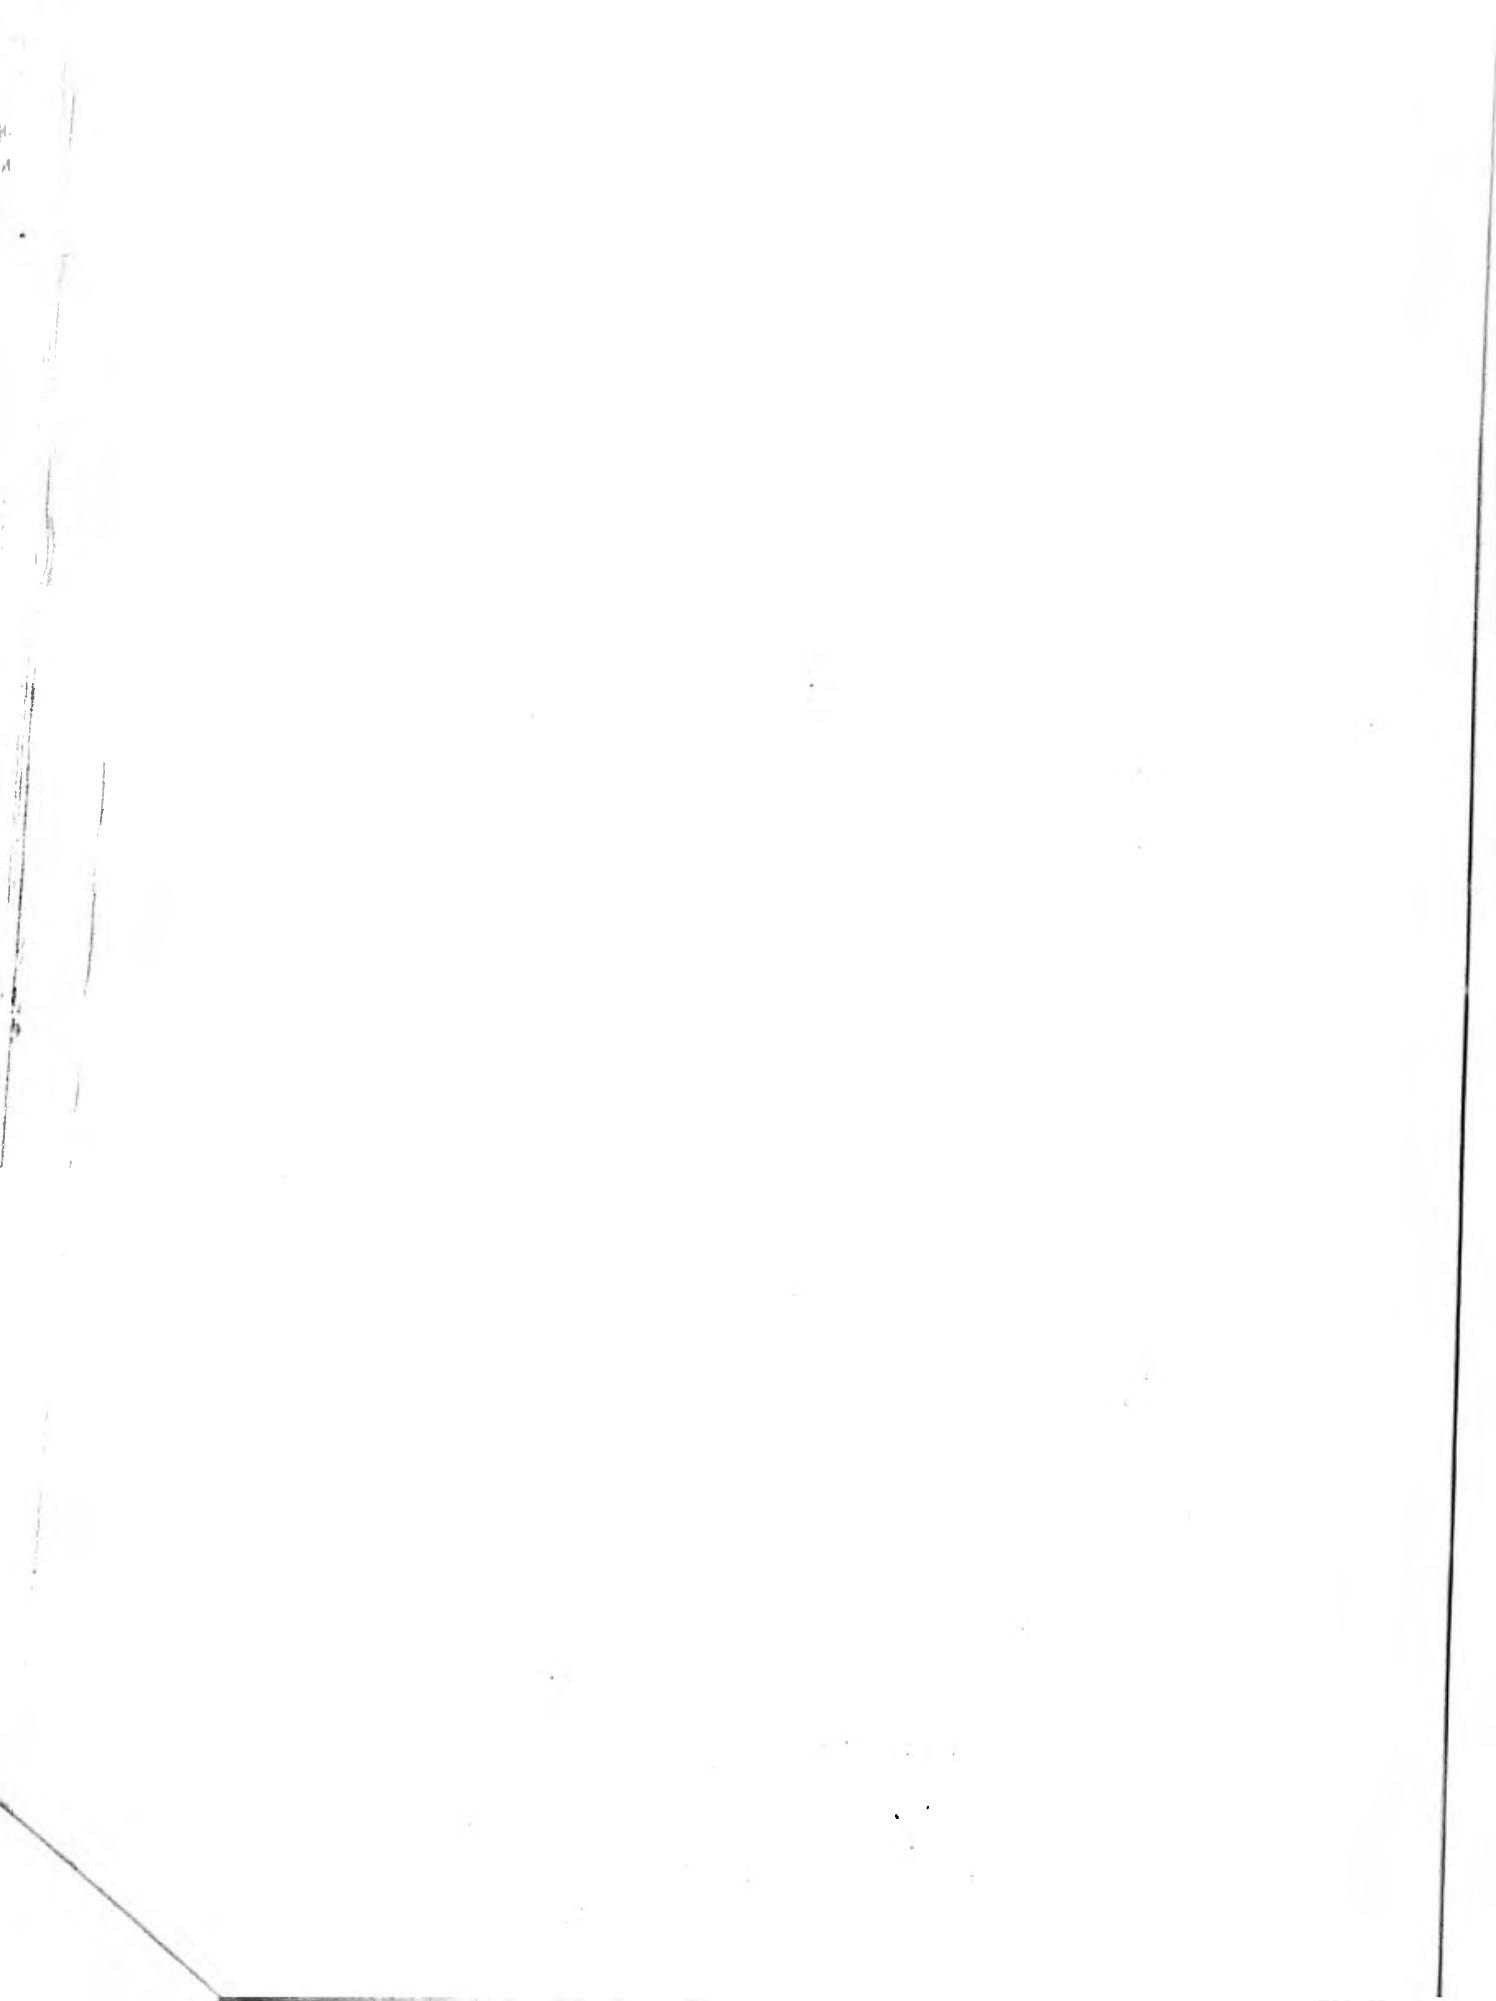

RECOMMENDED that such reports (circulated) be received, adopted, and entered on the Minutes of the Council.

Arising out of the question of the acquisition of the Lyttelton Playing Fields and other open spaces on the Garden Suburb, this matter was carefully considered by the Committee.

The Chairman, in giving a short resume' of the history of the Fields, stated that despite the present need for economy, the offer contained in Messrs. Chalton Hubbard & Co's letter of the 4th December, 1931, to sell to the Council the Lyttelton Playing Fields, Green Walk, Big Wood and Little Wood at the sum of £23,000 was one which the Sub-Committee strongly advised the Committee to recommend the Council to accept. He further stated that the result of the Council's negotiations with Co-partnership Tenants Ltd., was awaited by the Ministry of Health before Town Planning Scheme No. 1 could be finally approved, and he emphasised the fact that it was eminently desirable that the parties concerned should now come to terms, failing which it was probable that the Minister would require them to proceed to arbitration.

It was reported that the conditions attaching to Messrs. Chalton Hubbard & Co's offer were as follows :-

- (a) that the proposals be subject to the approval and concurrence of Co-partnership Tenants Ltd., and to their making satisfactory arrangements with the Ecclesiastical Commissioners;
- (b) that the Vendors be allowed slightly to vary the western end of the Playing Fields as indicated on the plan submitted;
- (c) that the Council erect an unclimbable iron fence along the small piece of the Mutton Brook, adjoining the Pumping Station which land would be included with that to be conveyed;

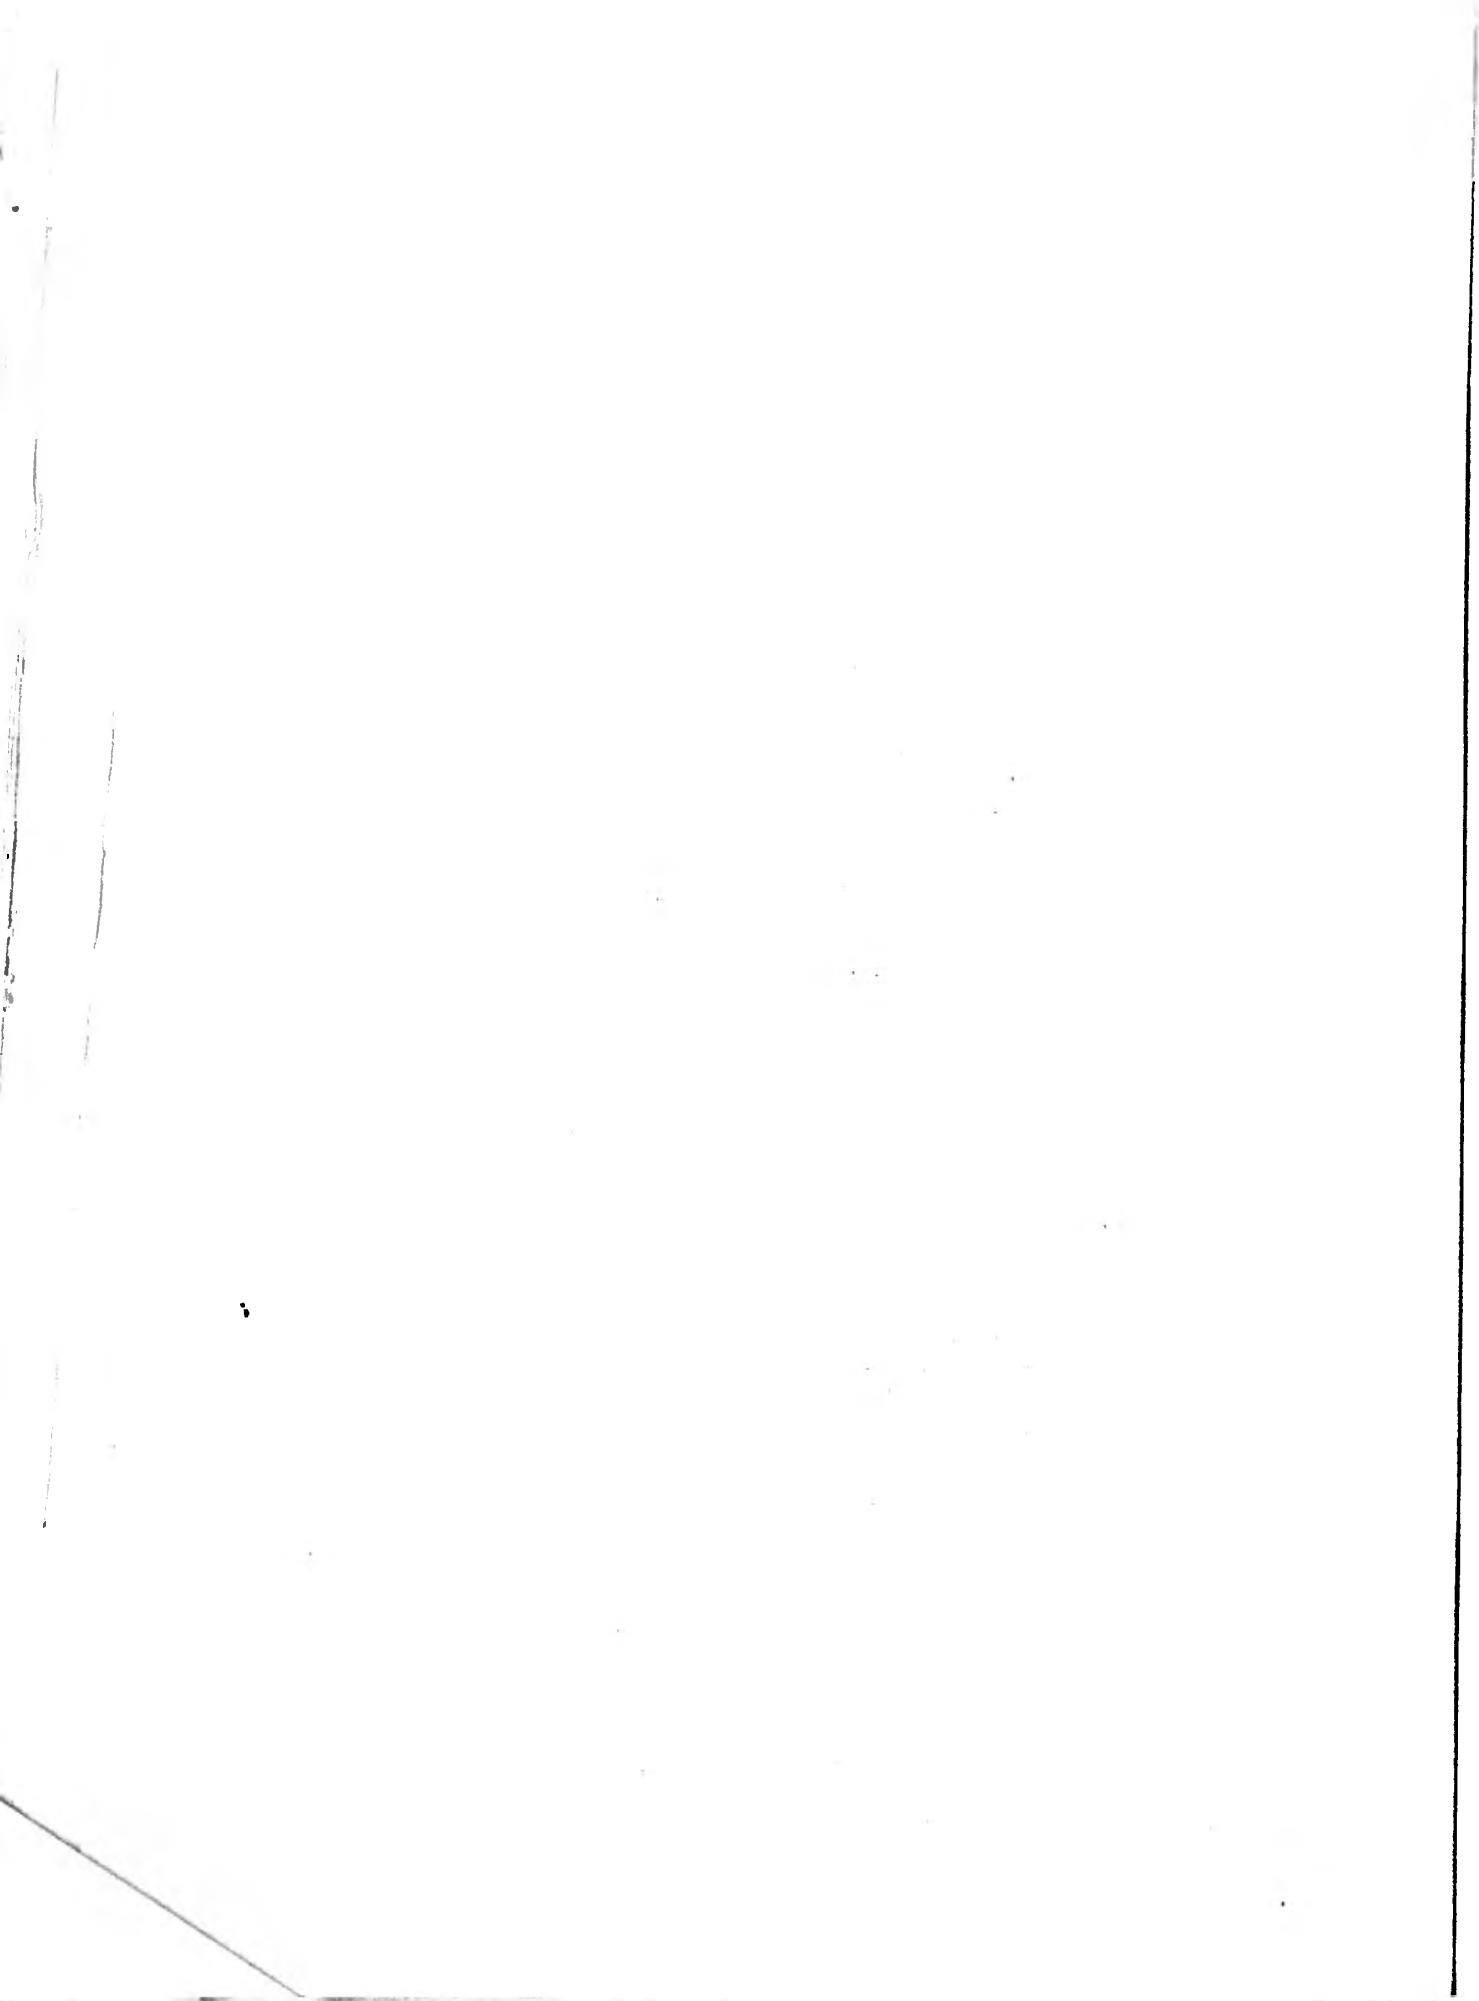

- (d) that the Council covenant to use as open spaces the lands to be conveyed and to maintain the same in perpetuity;
- (e) that the Council pay all legal and surveyors' charges in connection with the conveyance and the negotiations in connection therewith;
- (f) that the Contract be entered into before the 31st March, 1932, and that it contain a provision that if the sanction of the Minister of Health be not obtained by the 30th September, 1932, the Vendors are at liberty to rescind the Contract;
- (g) that the purchase be completed by the 31st December, 1932; if not then completed, the purchase money to bear interest at the rate of £5% per annum;
- (h) that the Vendors retain possession until completion of the lands to be conveyed and also the profits and receipts therefrom;
- (i) that the Council make no claim whatsoever against the Vendors for betterment under the Town Planning Scheme; and
- (j) that the Contract contain such provisions as the Vendors and also the Ecclesiastical Commissioners might require.

It was further reported that there were at present short term lettings to sports clubs in connection with the Lyttelton Playing Fields which resulted in an income of approximately £130 per annum; that the revenue from the allotments situate on part of the Fields within the scheduled area was £13 per annum, and that in addition there was the income from the tennis courts and putting greens known as the North Way Gardens or Green Walk, which on an average for the past three years amounted to £224 per annum after deducting expenditure.

It appeared that the respective areas of the open spaces, and, on the assumption that the purchase would mature, the proportionate approximate cost to the Council, both capital and annual, would be as indicated below:-

	Area in acres.	Capital cost. -----	Annual cost spread over a period of 60 years. £
Big Wood	17½ ac.)		
Little Wood and site of Pumping Station	3½ ")	21 9,514	523

	£	£
Lyttelton Playing Fields	23	10,419
North Way Gardens or Green Walk	<u>9</u>	<u>4,077</u>
	<u>53</u>	<u>£24,010 incl £1,319</u>
		uding £1,010 for stamp duty, legal & survey- ors' charges and loan costs.

It was stated that the Sub-Committee had considered the question as to what expenditure would be necessary to make the fields revenue producing, and in so doing, had had before them alternative schemes involving expenditures of £5,000 and £1,000 respectively. They had however come to the conclusion that having regard to the difficulty which might be experienced in obtaining the sanction to loan, it was desirable that such expenditure should be limited to a minimum, and in consequence recommended that, for the time being, no expenditure apart from the £1,000 which was in respect of drainage and fencing should be included in the application to the Ministry of Health. The Sub-Committee were of opinion that if those works were carried out, the anticipated income to be derived from the fields could be estimated as under :-

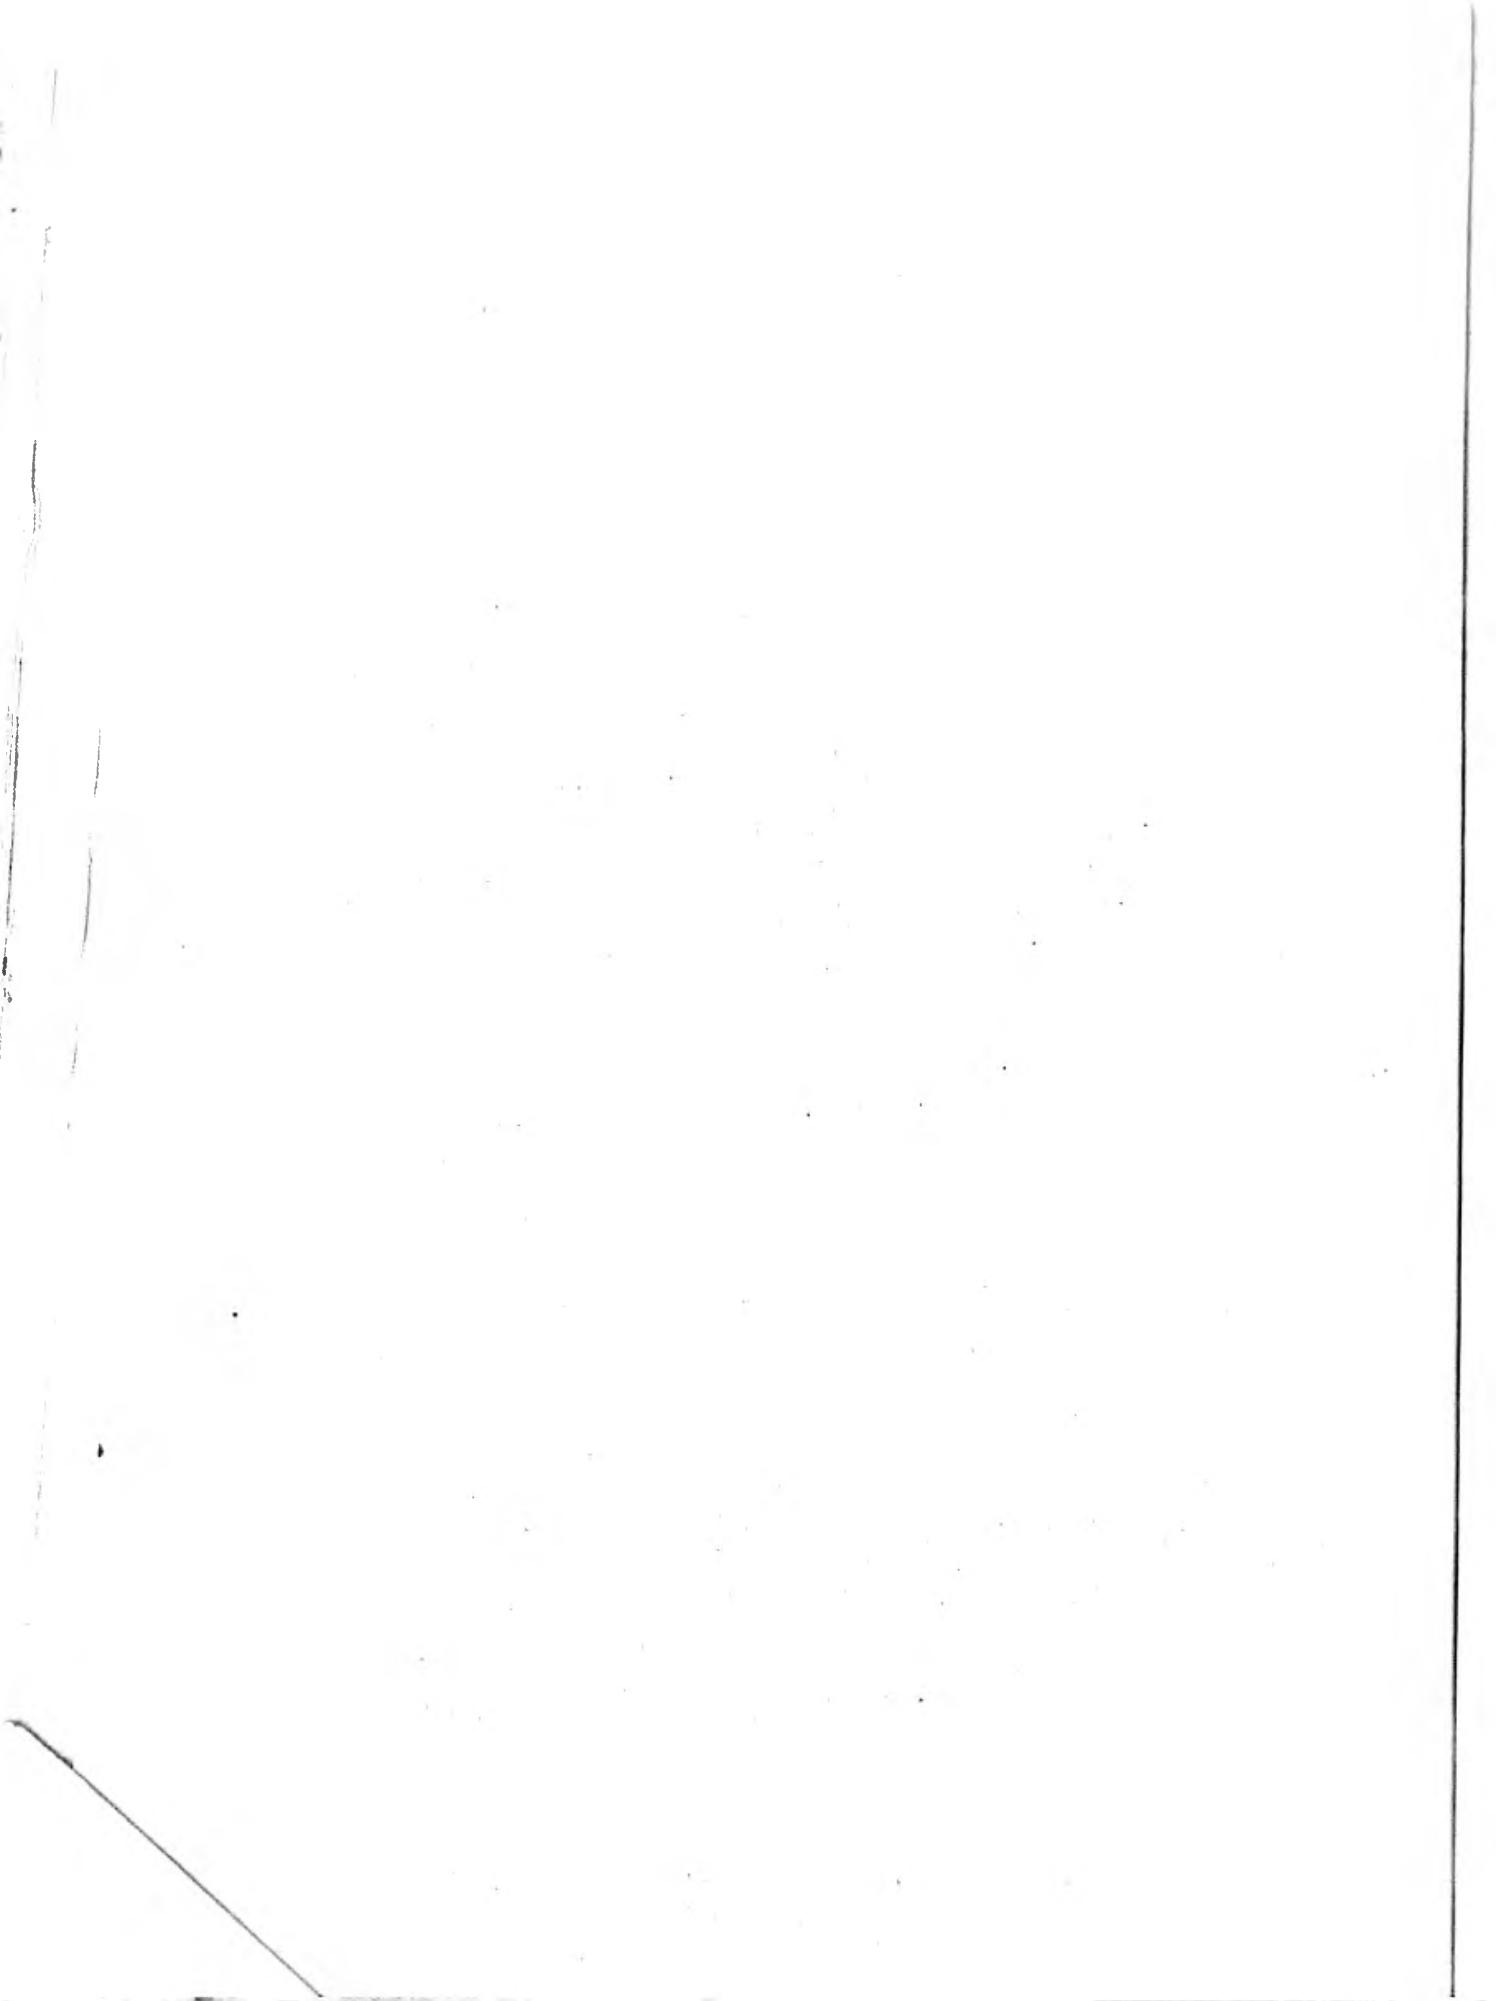

Lyttelton Playing Fields	£300
North Way Garders or Green Walk	£350
	<u>£650</u>
	<u> </u>

As regards the item of £1,000 for drainage and fencing, assuming that the Council obtained a separate sanction for this sum repayable within a period not exceeding 20 years, the annual charges thereon after adding a sum of £10 for loan costs would amount to £82.

It would thus readily be observed that the total annual cost to the Council on loans amounting to £25,020 (i.e. £24,010 and £1,010) would be £1,401 which against the estimated income of £650 would leave £751 for which provision would have to be made, although it was hoped that it would be possible to obtain grants from the Middlesex County Council and from the National Playing Fields Association. In the case of the former, however, there would probably be a stipulation that the County Council should be paid a proportion of the net revenue;

RECOMMENDED -

- (1) that the Lyttelton Playing Fields, Green Walk, Big Wood and Little Wood be acquired by the Council under Section 69 of the Public

Health Act, 1925, for the sum of £23,000,
subject to contract and

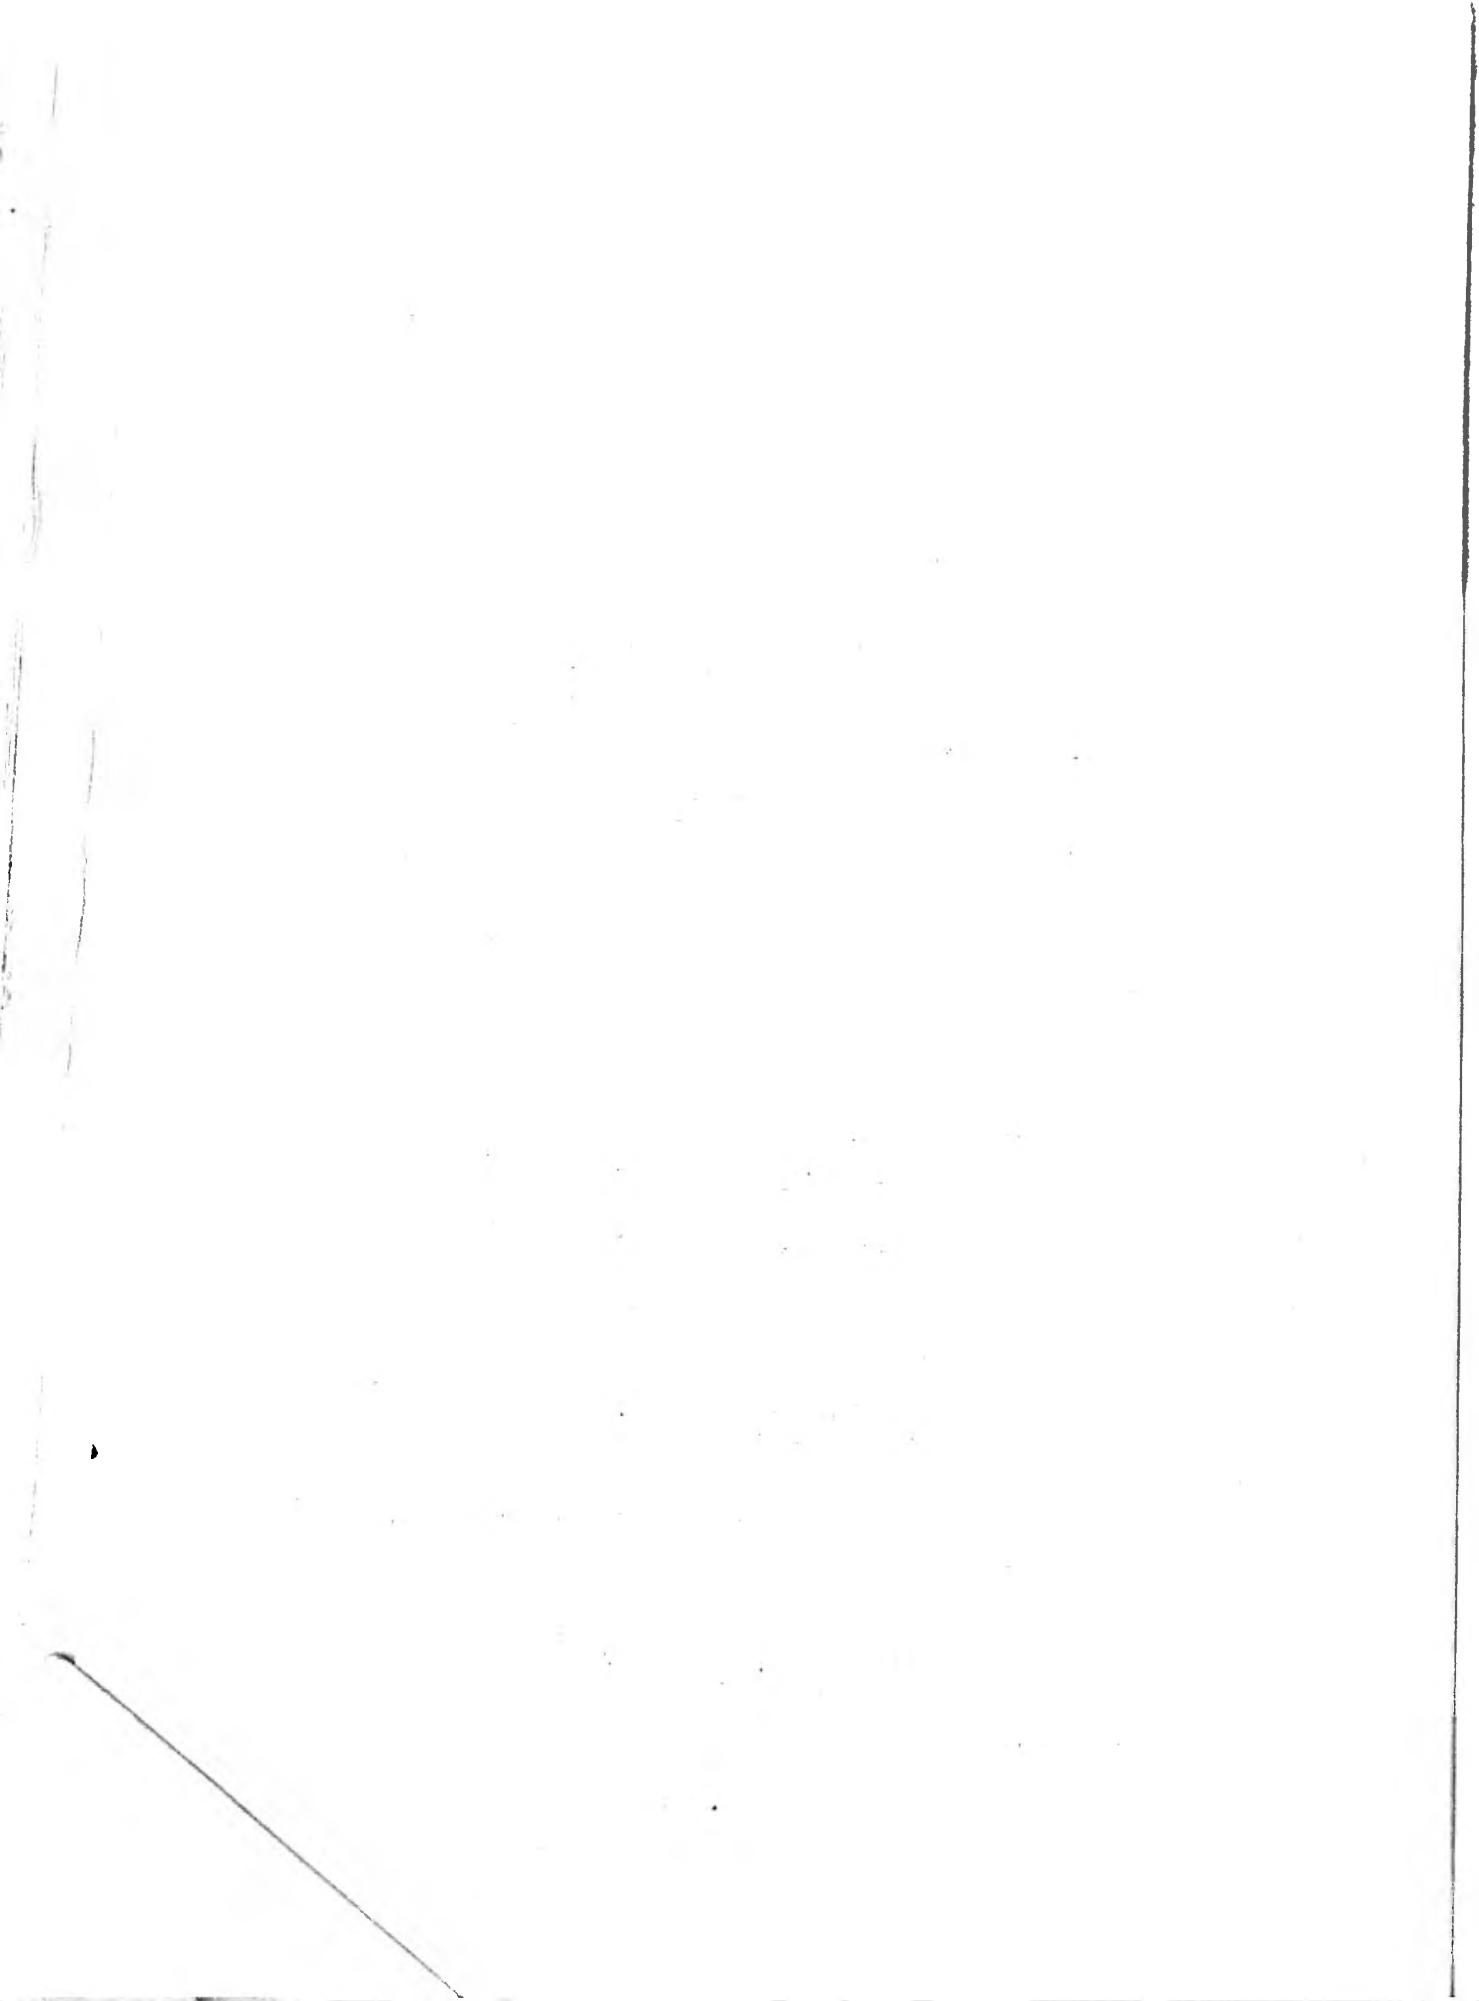

- (a) to the sanction of the Minister of Health
being received to the necessary loan;
and
- (b) to no claim whatsoever being made by the
Vendors under the Town Planning Scheme
or the Town Planning Acts;
- (2) that the Council agree to pay all reasonable
legal and surveyors' charges in connection
with the matter;
- (3) that, in the event of the purchase maturing,
the Council agree to an expenditure of
£1,000 in respect of drainage and fencing;
- (4) that the Clerk be directed to make application
to the Middlesex County Council and to the
National Playing Fields Association for
grants in aid of the cost of acquisition;
- (5) that the action of the Committee in directing
the Clerk to ask the District Valuer for
his proportionate valuations of the open
spaces be approved;
- (6) that the question of making the necessary
financial arrangements be referred to
the Finance Committee.

2.- CHERRY TREE WOOD - ENTRANCE,-

The Chairman of the Council reported that in accordance with the request of the Committee, he had had an interview with Mr. Brickwell of the London & North Eastern Railway Co., relative to the unsightly entrance to Cherry Tree Wood, and that Mr. Brickwell had informed him that if so desired he would be prepared to recommend his Directors to lease to the Council at a rental of £10 per annum the land upon which the hoardings at present stand. It was further understood that the rental derived by the Company in respect of such hoardings was £22 per annum;

RECOMMENDED that the Clerk be directed to communicate with Mr. Brickwell enquiring upon what terms the Company would be prepared to sell the land to the Council or, if disposal were not acceptable to them, whether they would lease the land to the Council at a rental of £10 per annum.

This (with the three preceding pages) is the report of the Town Planning and Open Spaces Committee referred to in paragraph 1540 of the Council Minutes of the 25th January, 1932.

TOWN PLANNING SCHEME NO. 1.

A communication dated 15th December, 1931, was submitted from the Ministry of Health dealing with a number of points in connection with the above Scheme and forwarding copy of a letter which had been addressed by the Ministry to the Middlesex County Council relative to the latter body's objections thereto.

TOWN PLANNING SCHEME NO. 2.-

(a) Clause for protection of Railway Companies.- A communication dated 23rd October, 1931 was submitted from the London & North Eastern Railway Company, enclosing a suggested new clause for insertion in Scheme 2 in lieu of that at present inserted;

RECOMMENDED that, subject to the consent of the Ministry of Health, the same be approved.

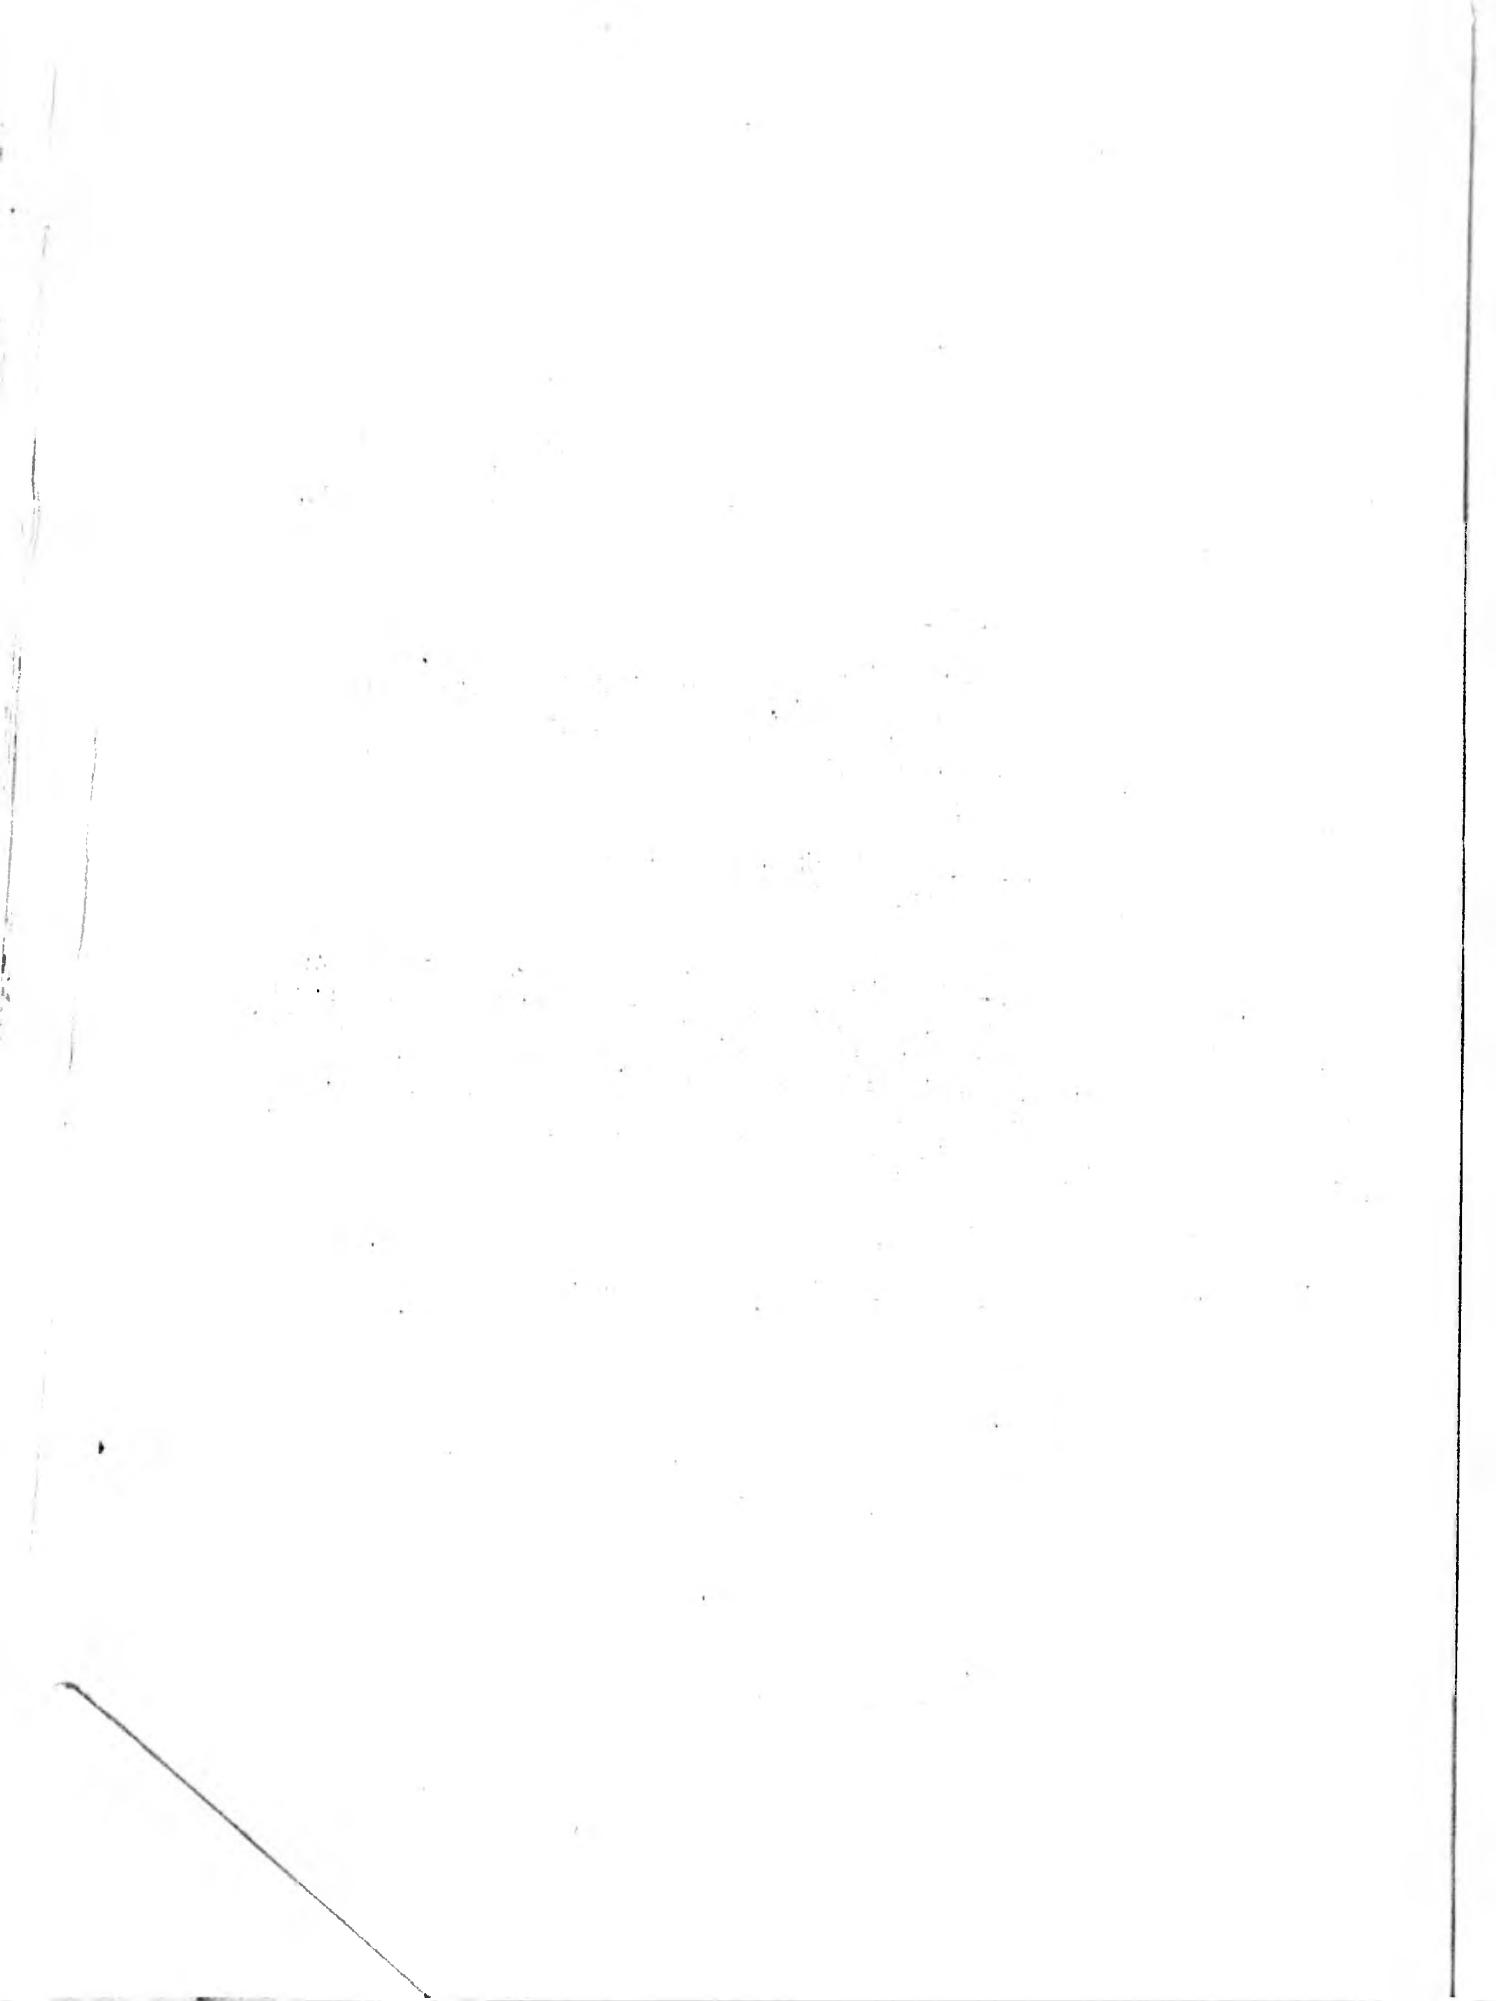

(b) Memorandum.- The Clerk submitted a communication dated 10th December, 1931, received from the Ministry of Health, enclosing for the Council's observations a memorandum containing suggestions for the modification of the proposals which appeared to the Minister to be desirable in connection with the above Scheme, and stating that Officers of the Department had reserved the 2nd, and 3rd February, 1932, for the purpose of discussing with representatives of the Council any points in such memorandum; further that the Minister desired to be informed not less than ten days beforehand which date would be preferable to the Council and to be furnished with a written reply to the memorandum if possible at the same time;

RECOMMENDED -

(1) that the Ministry be informed that Tuesday, the 2nd February, 1932, would be the more convenient date to the representatives of this Council for the proposed conference;

(2) that the memorandum be left in the hands of the Sub-Committee for completion by the date indicated.

(c) Holloway County School Playing Fields.- The Clerk reported that he had, as instructed, communicated with the Ministry of Health with respect to the reservation of the

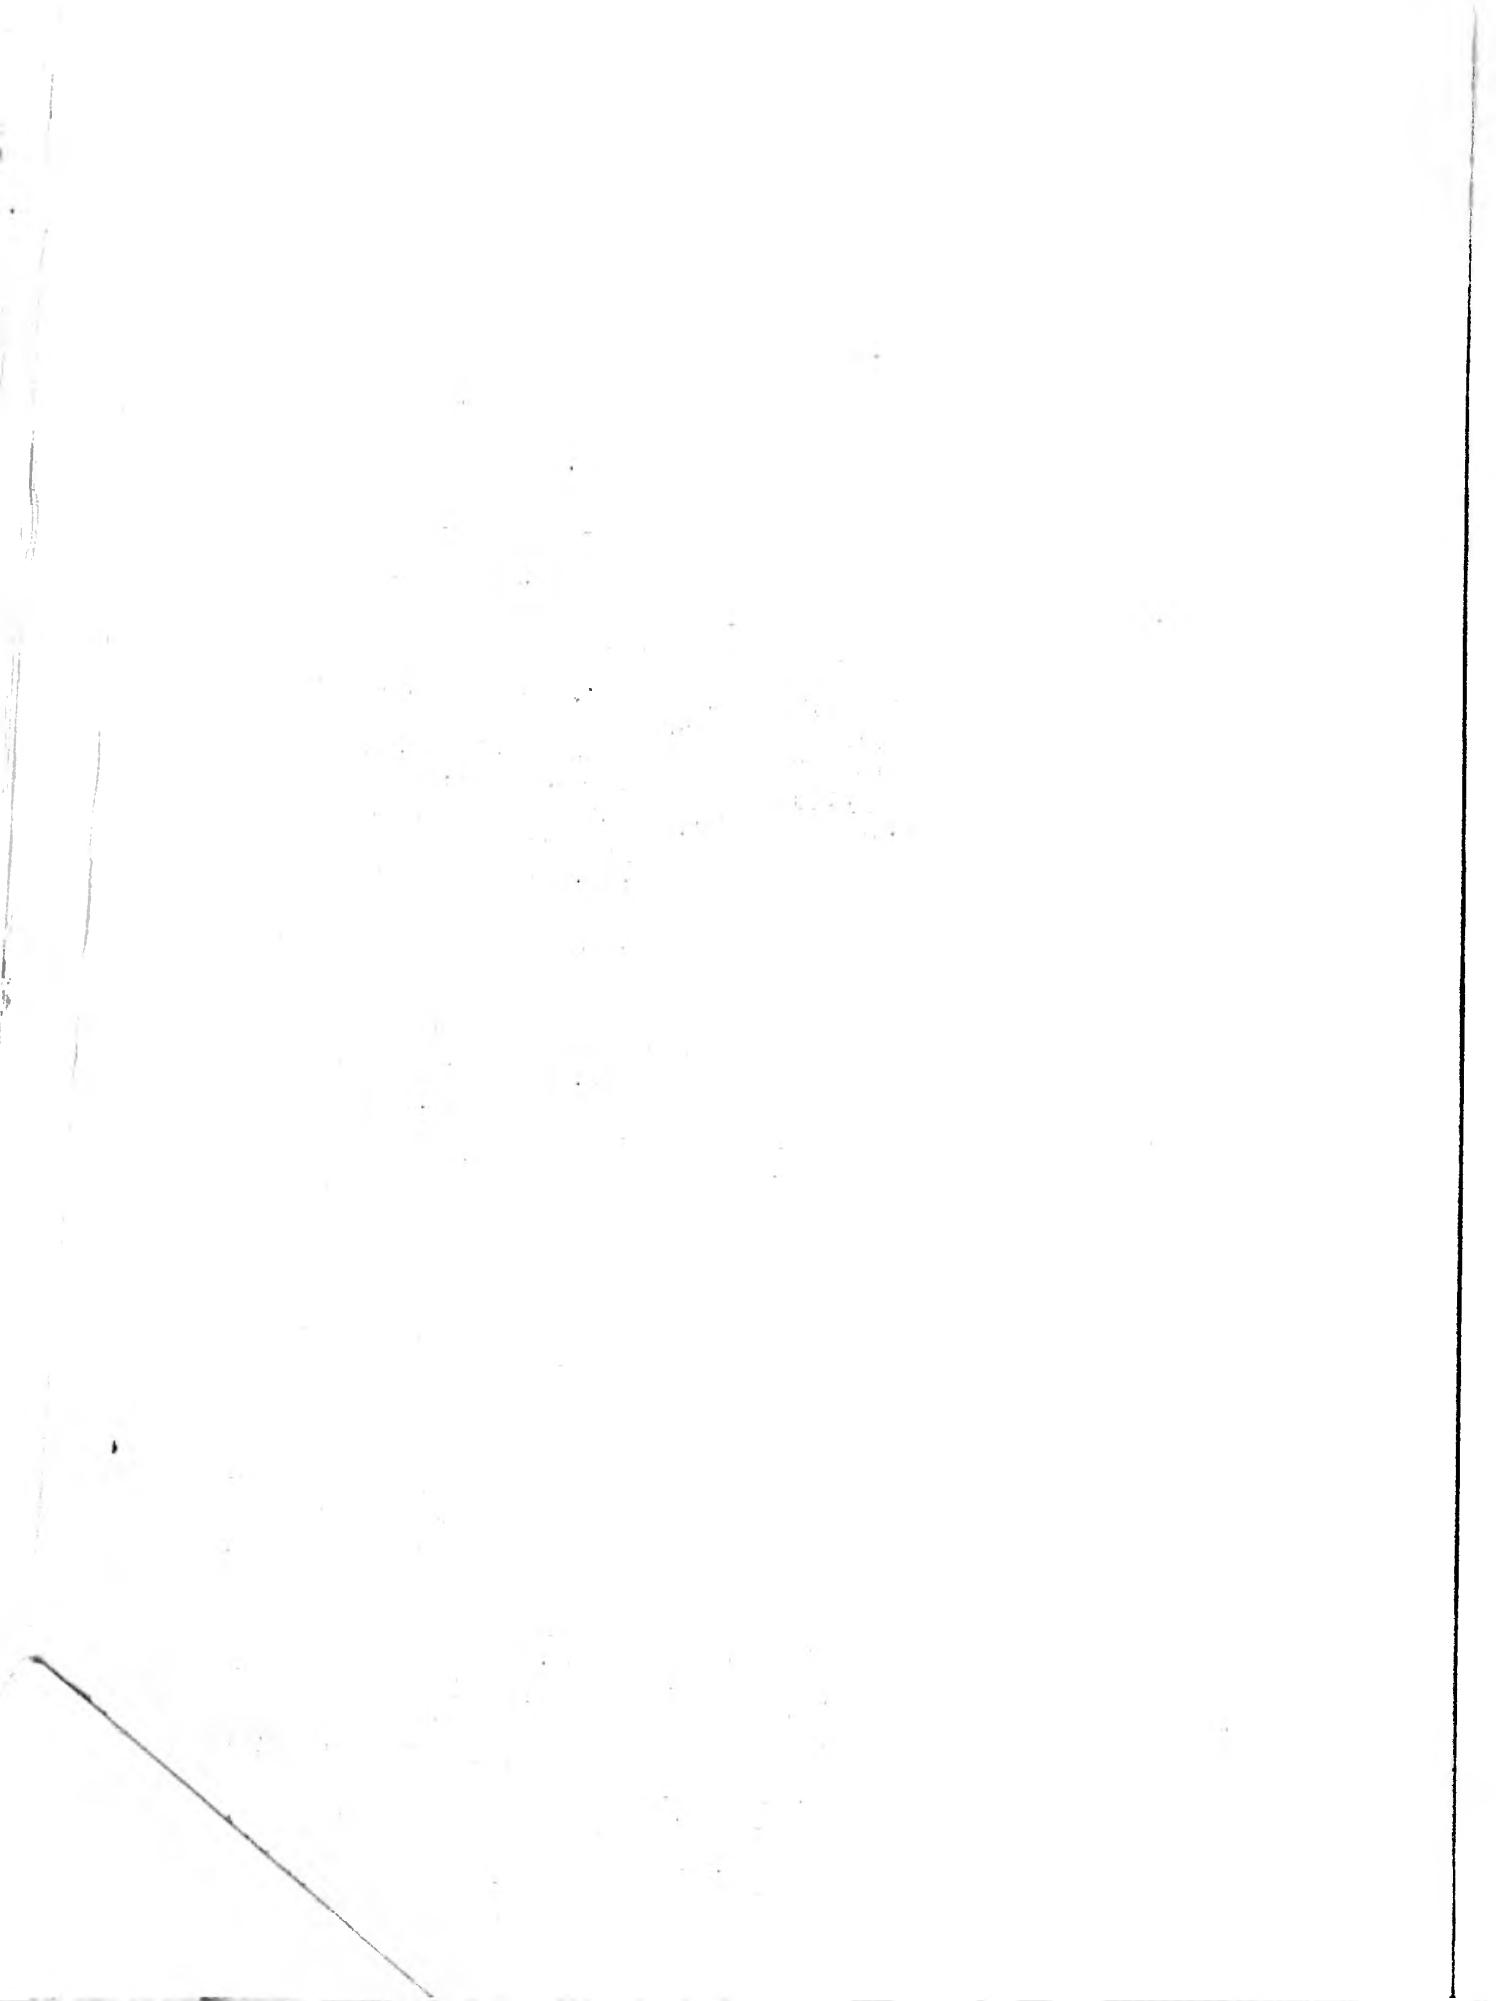

above playing fields as an open space, and submitted a letter dated 9th December, 1931, which had been received from the Ministry in reply;

RECOMMENDED that the Clerk be directed to communicate with the Ministry asking that the Council may be allowed to indicate the fields on Map No. 4 by a special notation.

TOWN PLANNING SCHEMES NOS. 4 & 5.-

In accordance with the request of the Committee, the Sub-Committee interviewed three objectors to the above Scheme and dealt with their objections as under :-

Name of Objector.	Property.	Nature of Objection.	How Dealt With.
Rev. C.H.Parsons on behalf of Finchley Catholic Grammar School	School premises Woodside Lane.	Objection to scheduling of land for dwelling houses only.	Rev.Parsons informed that the school authorities would be permitted under the Scheme to erect buildings for scholastic purposes subject to the consent of the Council being first obtained.
Mr. H. N. Bates on behalf of Messrs. Speciallcoid Ltd.	Land in Stanhope Road.	Objection regarding use of this land for industrial purposes.	Mr.Bates informed that in the opinion of the Sub-Committee an extension of the Company's works in the direction of Stanhope Road would not be desirable in the interest of adjacent property. Mr. Bates intimated that his Company would bear the Sub-Committee's views in mind if and when it is intended further to develop.
Mr.W.Thomas on behalf of Mrs.L.Dale.	No.17, Friern Park.	Objection to inclusion of property in area scheduled for residential purposes - General Business purposes.	Mr.Thomas informed that his client would be permitted under the Scheme to erect buildings to be used for general business purposes, subject to the consent of the Council being first obtained.

RECOMMENDED that the action taken be approved.

ROADS ABOVE BYELAW WIDTH,-

In accordance with the instructions of the Committee, the Sub-Committee carefully considered the report of Messrs. Adams Thomson & Fry hereon;

RECOMMENDED that the North Middlesex Joint Town Planning Committee be informed that the Council accept such report, and that the policy outlined in the resolution of the County Council relating to the Staines Rural Joint Town Planning Scheme together with the amendment suggested by Consultants meets the case so far as this district is concerned.

LYTTELTON PLAYING FIELDS,-

The question of the acquisition of the above fields was considered by the Committee in conjunction with the communication dated 4th December, 1931, received from Messrs. Chalton Hubbard & Co. In this connection the Clerk reported that he had, as instructed, interviewed representatives of the Ministry of Health and of the Middlesex County Council as regards loan sanction and contribution respectively, and had in both cases been informed that applications would receive consideration; further that the annual repayments on a loan of £23,000, spread over a period of 60 years, would amount to £1,264.

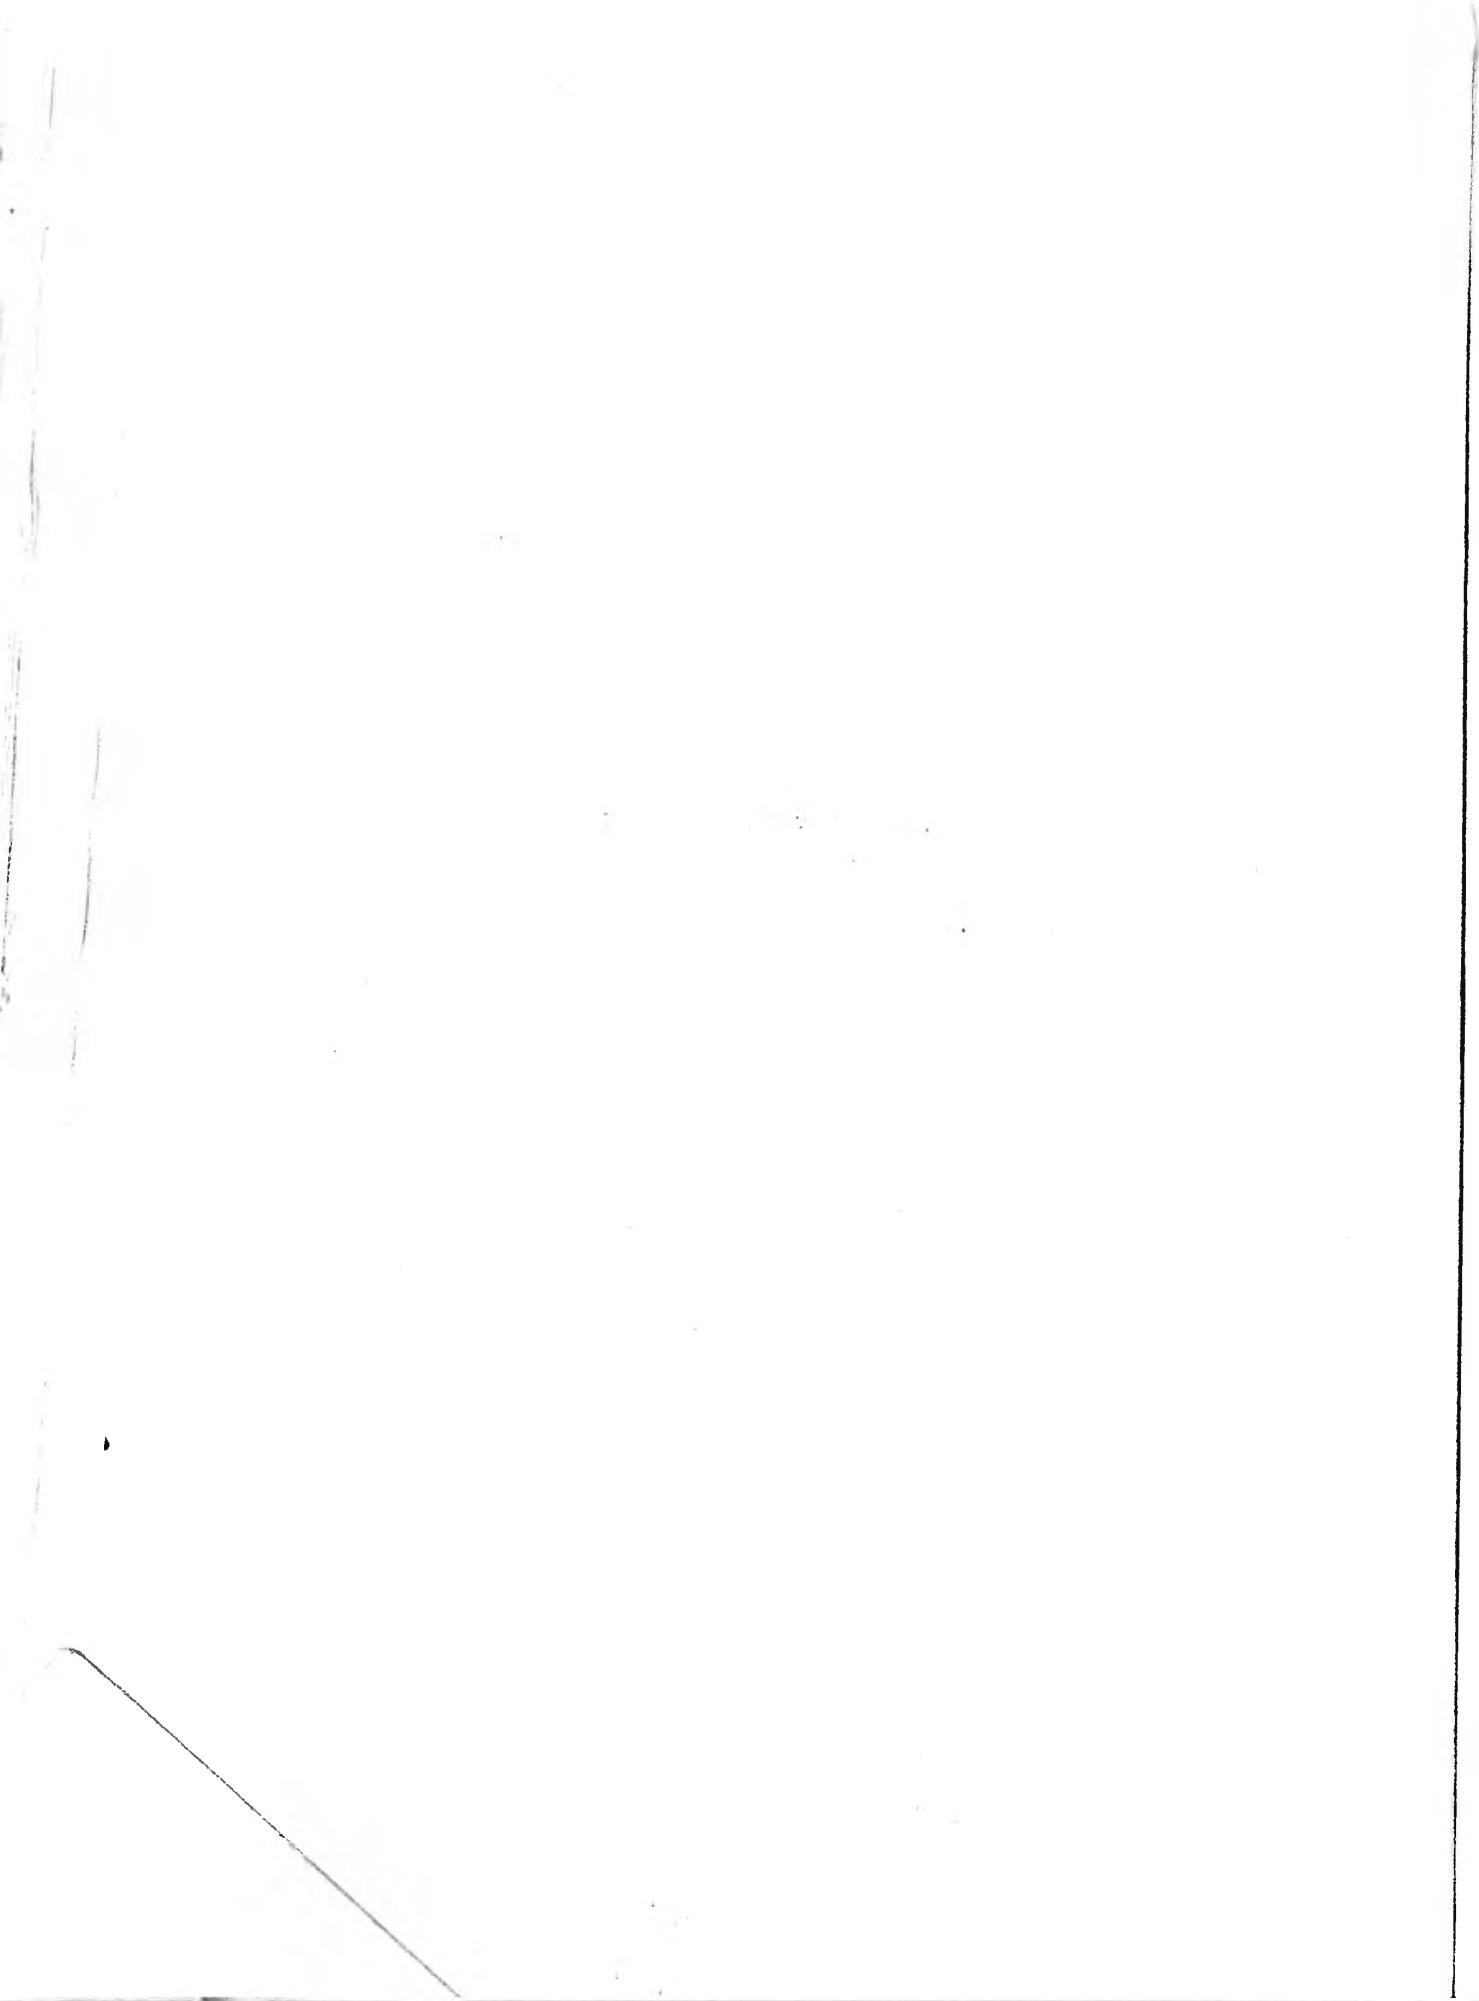

Instructions were given to the Surveyor to prepare and submit for consideration by the Sub-Committee at the meeting to be held on the 2nd January, 1932, a comprehensive scheme for the layout of the fields together with a statement showing the anticipated annual income to be derived therefrom as against the annual loan repayments plus any expenditure which might be found to be necessary;

RECOMMENDED that the action taken be approved.

ARDEN ESTATE,-

The Solicitor reported that he had inserted a proviso in the agreement with Mr. Arden that the County Council should not make any claim against the Council for betterment in respect of the lands to be conveyed by Mr. Arden in connection with the construction of the North Circular Road; that Mr. Arden's Solicitors had insisted upon such proviso being immediately withdrawn and that on the instructions of the Chairman of the Council this had been done, it being understood from the County Solicitor that the question of betterment had been dealt with at the time the compensation payable to Mr. Arden was assessed;

RECOMMENDED that the action taken be approved.

Northway Gardens	£350
Total	£650

The Committee will of course bear in mind that there is a possibility of a contribution from the Middlesex County Council and also from the National Playing Fields Association, but with regard to the former, there would be a stipulation concerning an allowance of a proportion of the revenue."

The Committee were of opinion that for the time being it would not be advisable to include in the application to the Ministry of Health for loan sanction any expenditure apart from the cost of purchase, drainage, fencing, and legal and Surveyor's charges etc;

RECOMMENDED that the Committee proceed accordingly.

Reorganisation - Regrading of schools for the purpose of salary of Head Teacher.

In consequence of the reorganisation of certain schools after the summer holiday, 1931, the Education Committee have considered the regrading of those schools where circumstances warrant it.

The Finchley Schools were last regraded from 1st April 1929, and they are due to be regraded from 1st April, 1932. Regrading is governed by the average attendance during the preceding three years. In cases of reorganisation, new schools, etc., regrading may be effected from the date thereof. The paragraph of the Burnham Award relating to this reads thus:-

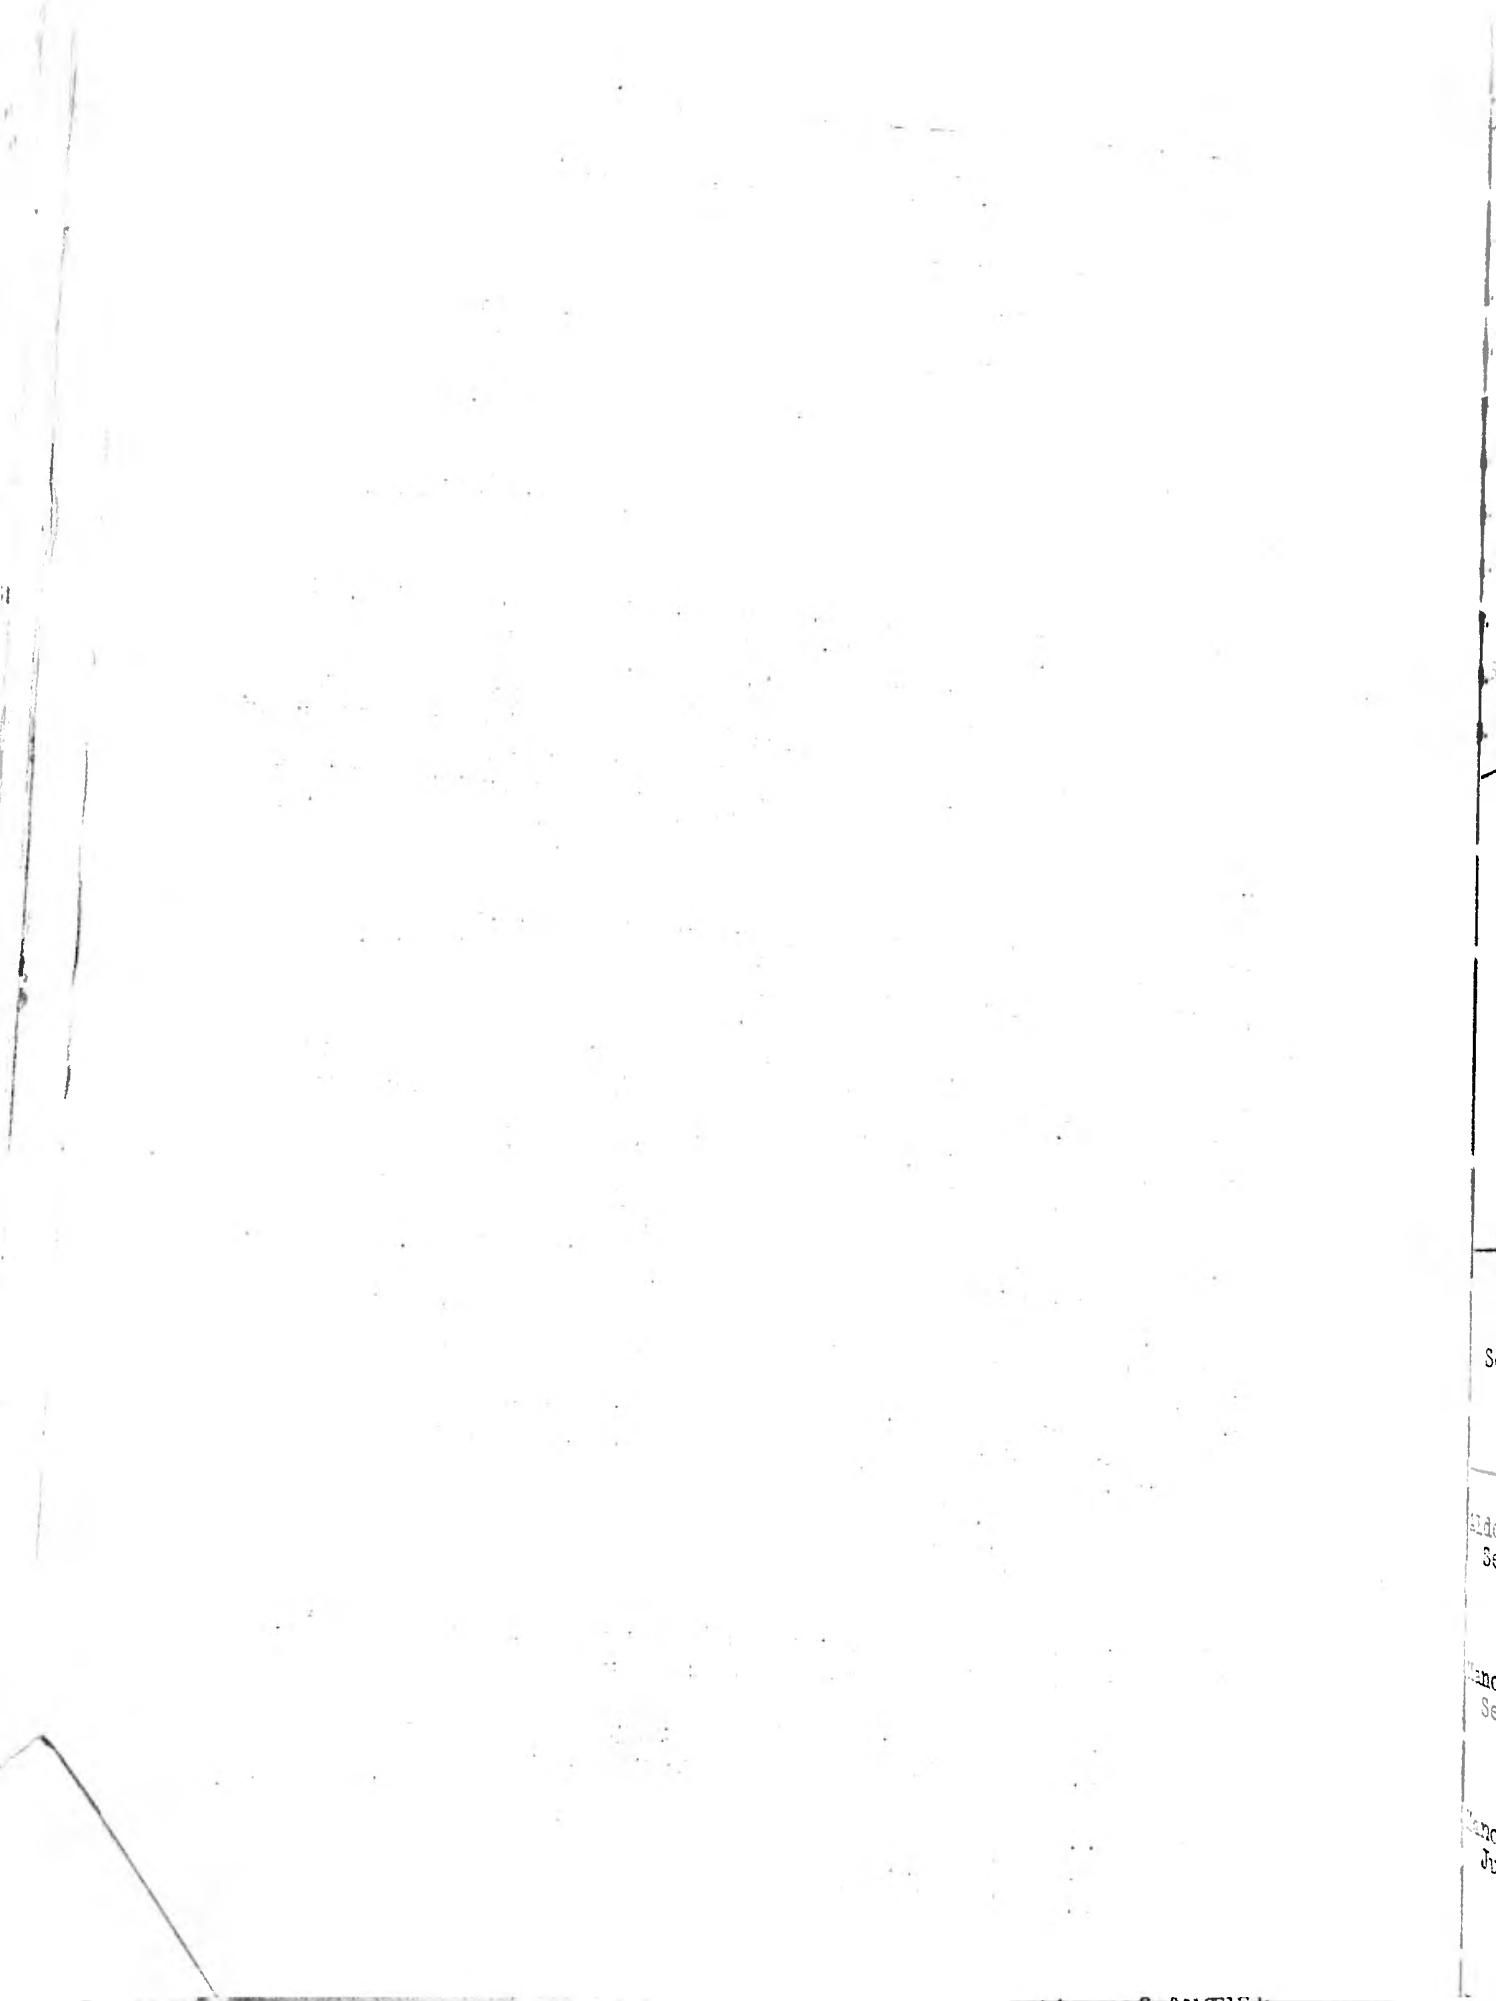

" The grading of each individual school or department should be reviewed by reference to the limits specified in Section 4 (a) of this Report upon the appointment of a new Head Teacher or whenever the school is reorganised."

" In the case of new schools, and considerable enlargements or reorganisation of existing schools such as can for this purpose conveniently be treated as new schools, the grading should be provisionally fixed by reference to the estimated average attendance for the first three financial years, and at the end of that period be determined for the future by reference to the actual average as then ascertained. In some cases of reorganisation such as the amalgamation of departments, definite figures of average attendance for the three financial years preceding the reorganisation are available. In these cases the school or department should be regraded as from the date of the reorganisation on the relevant figures of average attendance for the three preceding financial years."

The various grades are: (Section 4 (a))

" for the purpose of Head Teachers' Salaries, schools shall be graded according to average attendance thus:

Grade	I ..	Not over 100 in average attendance.					
	II ..	Over 100 but not over 200 in average attendance.

Until 1st April 1929 the senior department of the Alder School ranked as Grade IV, but the fall in the number of scholars reduced it to Grade III from that date.

(1) STAFF - ANNUAL REVISION OF SALARIES.

(a) Clerk of the Council - Salary and Emoluments. - It will be remembered that when the Clerk was appointed in June last, the Council agreed to reconsider his salary at the next annual revision of salaries.

We are of opinion that the present practice of allowing an officer to retain emoluments and fees appertaining to his office is undesirable, and Mr. Barter shares that view.

At the present time Mr. Barter is allowed to retain fees in connection with the revision of Electors' Lists, parliamentary, county council and local elections, jury lists, and Old Age Pensions. We have carefully considered the matter and

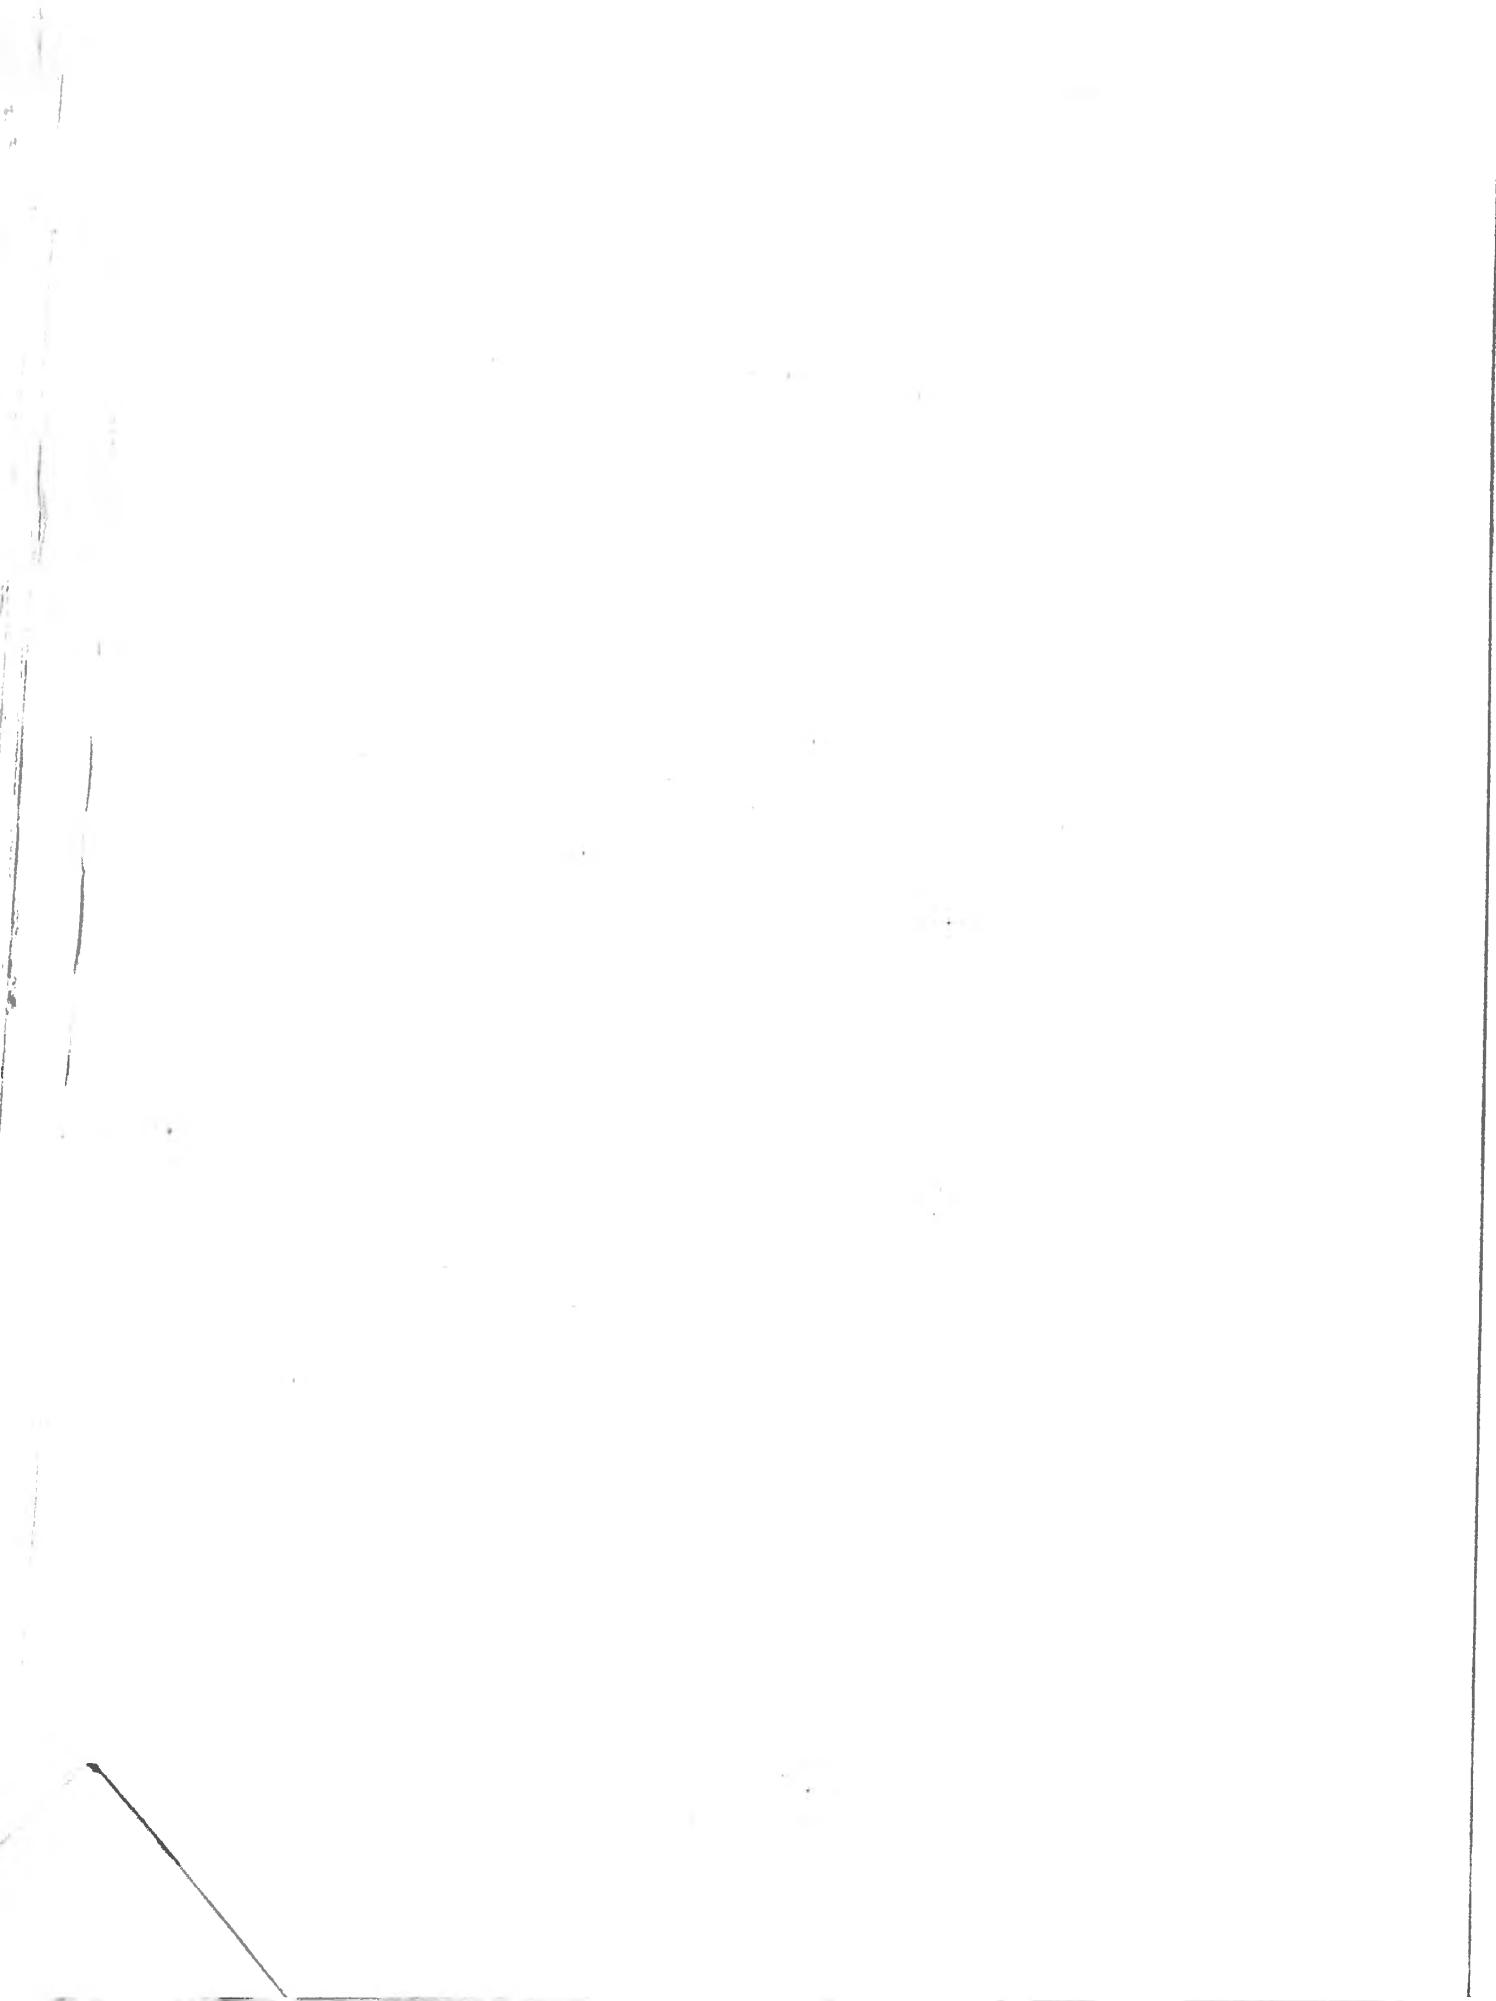

RECOMMEND that as from and including the 1st April, 1932, the salary of the Clerk of the Council be £1,100 per annum, and that all emoluments and fees received by him in respect of services rendered subsequent to the above-mentioned date be paid into the Council's account.

(b) Generally. - The terms of the circular letter dated 11th September, 1931, issued by the Ministry of Health have been considered;

GENERAL PURPOSES COMMITTEE'S REPORT

18th January, 1932.

PART II

Present: Councillor Wells (Chairman), Councillor Sommerfield (Vice-Chairman), Councillors Briant, Pike, C.S. Syrott and H.O. Syrett, and Councillors Pocock, Fugsley, Pulham and Wilmot (non-Members).

GOLF COURSE, NETHER COURT.-

(a) Arrears of Rent.- The Chairman of the Committee reported that the Sub-Committee appointed to consider this matter had that evening held a further meeting and had discussed the question fully with two of the Directors of the Company, but that the Sub-Committee were not in a position to make any recommendation to the full Committee. He intimated, however, that the Sub-Committee were satisfied that the utmost which the Company could pay by way of rent was a sum of £1,500 per annum and he indicated the loss which the Council would sustain if the latest proposals made by the Club as indicated in their letter of the 11th January, 1932, were accepted. He further reported that an informal valuation had been made of the surplus lands and that the figure placed upon them was a sum of approximately £15,000 and that the loan repayments on this sum would amount to approximately £715 per annum.

A general discussion then took place and the matter was viewed from all its aspects and the alternative courses which were open to the Council received careful and mature consideration. It was ultimately agreed that the whole question be referred back to the Sub-Committee who should meet again on Friday, the 22nd instant, at 9 p.m. and, in the meantime, the Clerk was directed to ascertain the views of the Ministry of Health upon certain suggestions put forward at the meeting. It was also decided that, in view of the urgency of the matter, the Sub-Committee be authorised to report direct to the Council at the meeting to be held on the 25th instant in order that, if possible, a definite decision might be come to thereat;

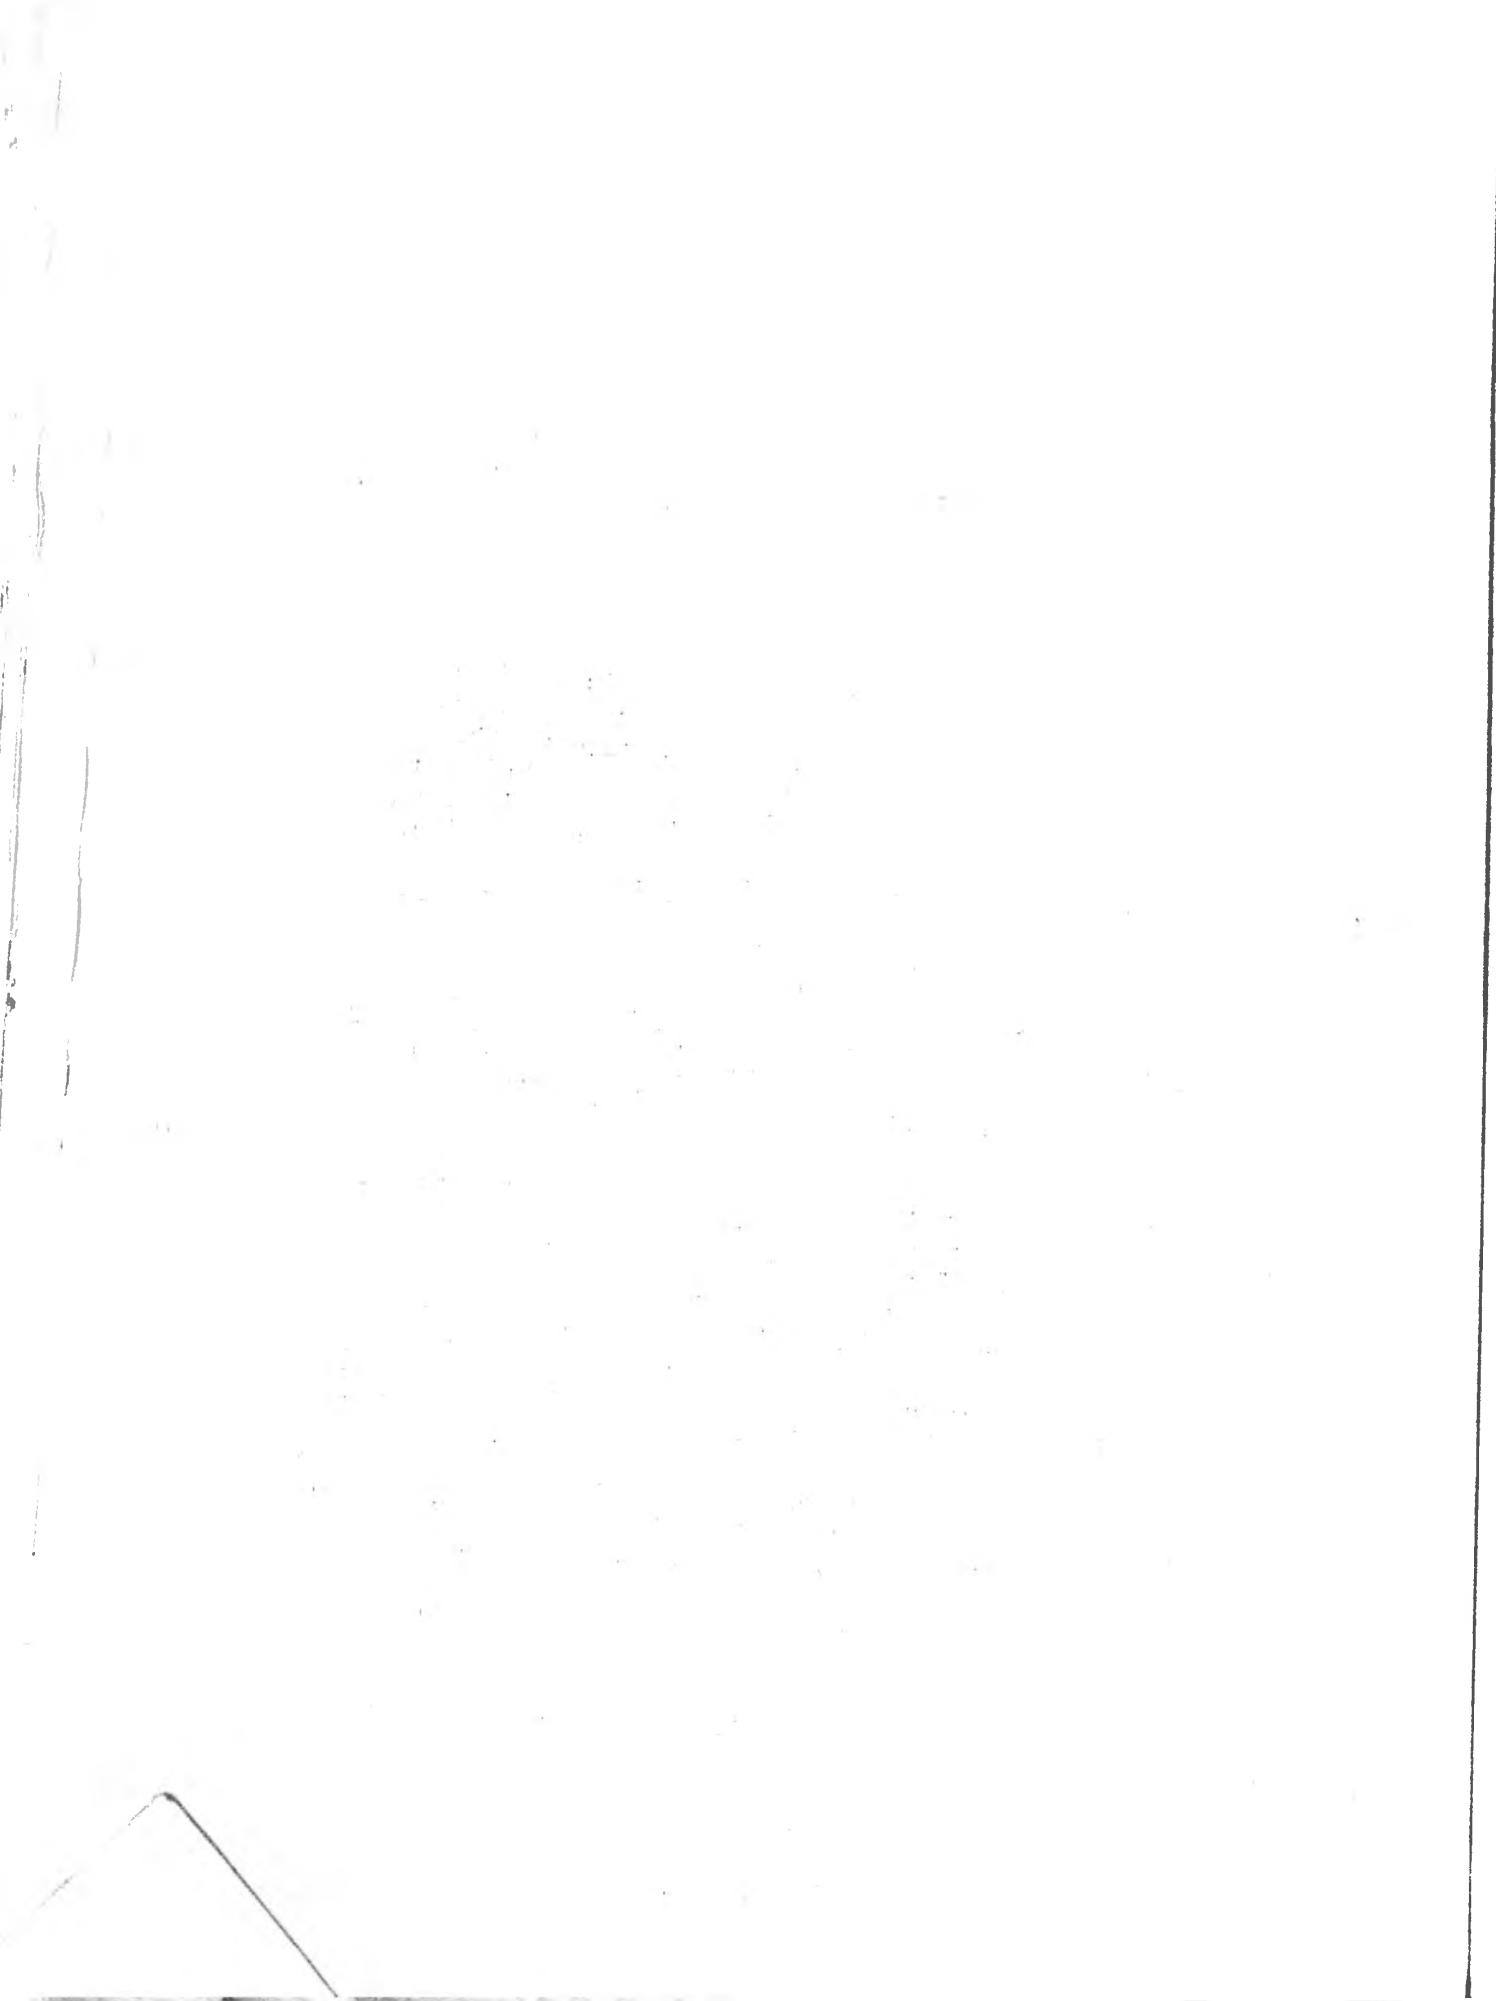

RECOMMENDED that the action taken be approved.

(b) Field - Frith Lane.- The Committee decided to adjourn the further consideration of the letter, dated 6th November, 1931, received from the Company hereon.

MIDDLESEX EDUCATION COMMITTEE,

S.W.1.

15th January, 1932.

H. Wood Butler, Esq.,
Finchley Urban District Council,
Council Offices,
Church End, Finchley, N.3.

Dear Sir,

- (a) PROVISION FOR HIGHER EDUCATION IN FINCHLEY.
- (b) PROPOSED USE OF GREAT NORTH ROAD ELEMENTARY SCHOOL
(part of).

You will remember that on the 11th November I wrote to Mr. Cogdale to the effect that, as at that time the Finchley Urban District Council were not prepared to agree to the proposed exchange of Finchley County School and Great North Road Elementary School, the Middlesex Higher Education Sub-Committee had decided to set up a Special Sub-Committee to enquire into the provision for higher education in the area covered by Finchley, Friern Barnet, Hornsey, Southgate and Wood Green.

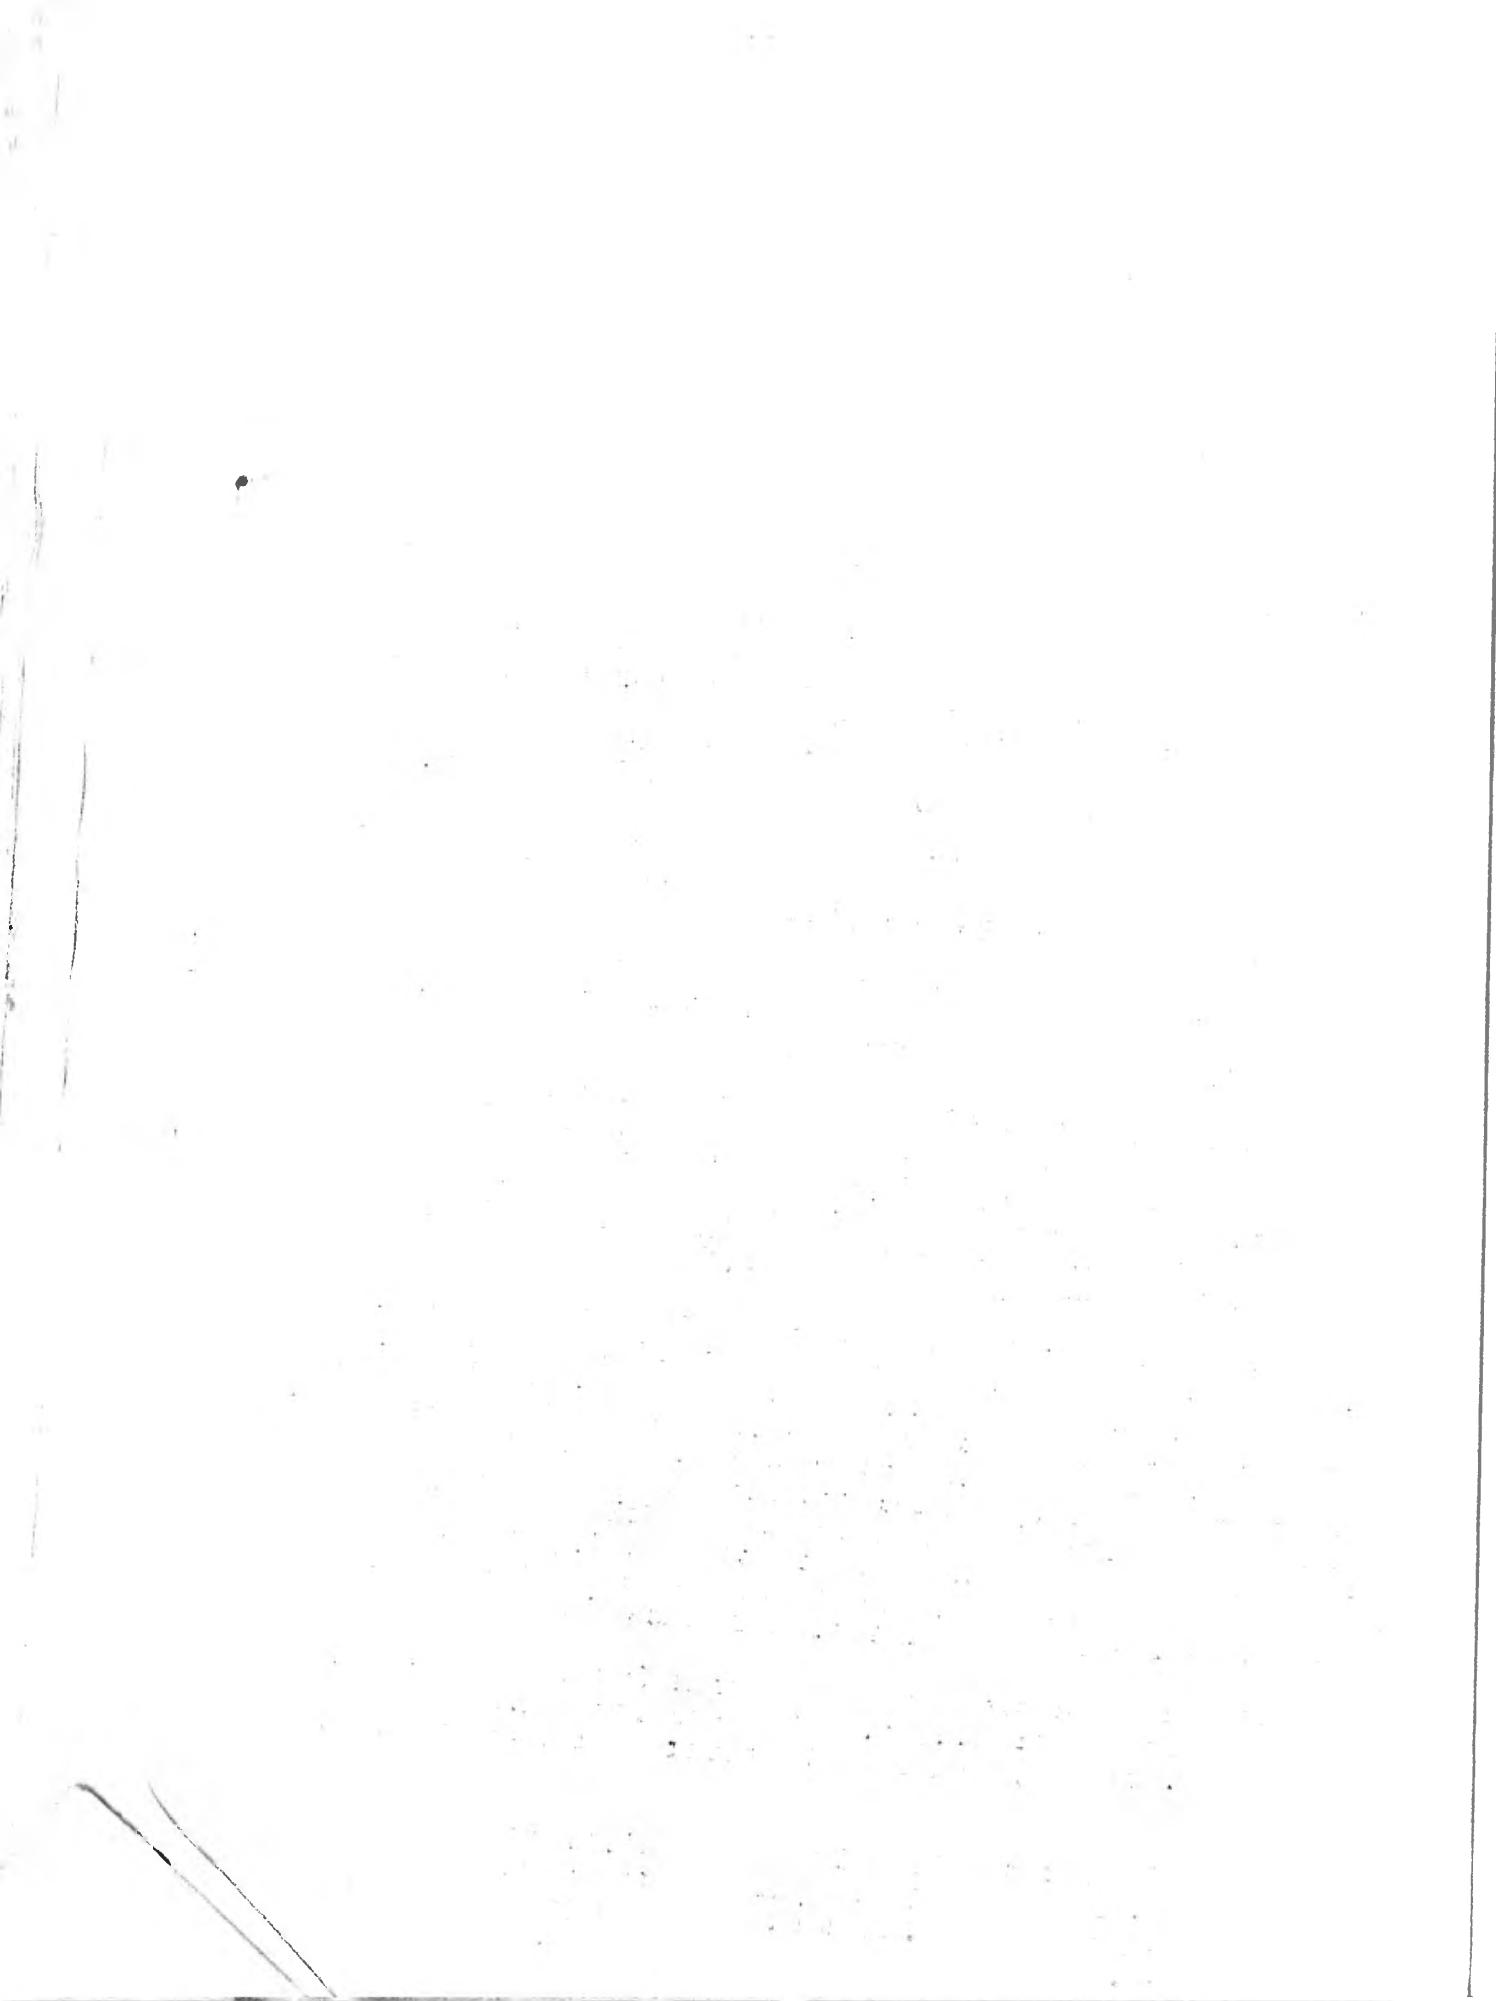

This Special Sub-Committee met on the 14th January, when they had before them the following recommendations from the Finchley Local Higher Education Committee :-

- (i) "that, notwithstanding any previous decision of this Committee, the Finchley County School remain as a two-form entry school for boys and girls.
- (ii) that, in the event of the Middlesex Education Committee desiring to approach the Finchley Urban District Council respecting the use of vacant rooms at the North Road Council School, as temporary secondary school accommodation for girls, this Local Committee would approve thereof."

The Special Sub-Committee decided to recommend to the Education Committee that the best solution of the secondary school difficulty in Finchley would be to retain the Finchley County School in its present premises as a two-form entry mixed school and to use the surplus accommodation at the Great North Road Elementary School (provided the Finchley Urban District Council are agreeable) as an annex to the Tollington High School for Girls so as to accommodate temporarily the qualified girl candidates from Finchley who would not otherwise be able to obtain admission to a local secondary school.

This recommendation of the Special Sub-Committee will be coming before the Higher Education Sub-Committee at their meeting on 3rd February, and I am instructed to ascertain in the meantime -

- (a) Whether the Finchley Urban District Council would be agreeable to part of the Great North Road premises being used for this purpose and, if so,

(b) Under what terms and conditions they would be prepared to loan these premises to the Middlesex Education Committee for a term of, say, three, four, or five years.

If it will be possible for you to let me have some indication of the views of the Urban District Council in time for the Higher Education Sub-Committee's meeting on the 3rd February, I shall be very grateful.

Yours faithfully,

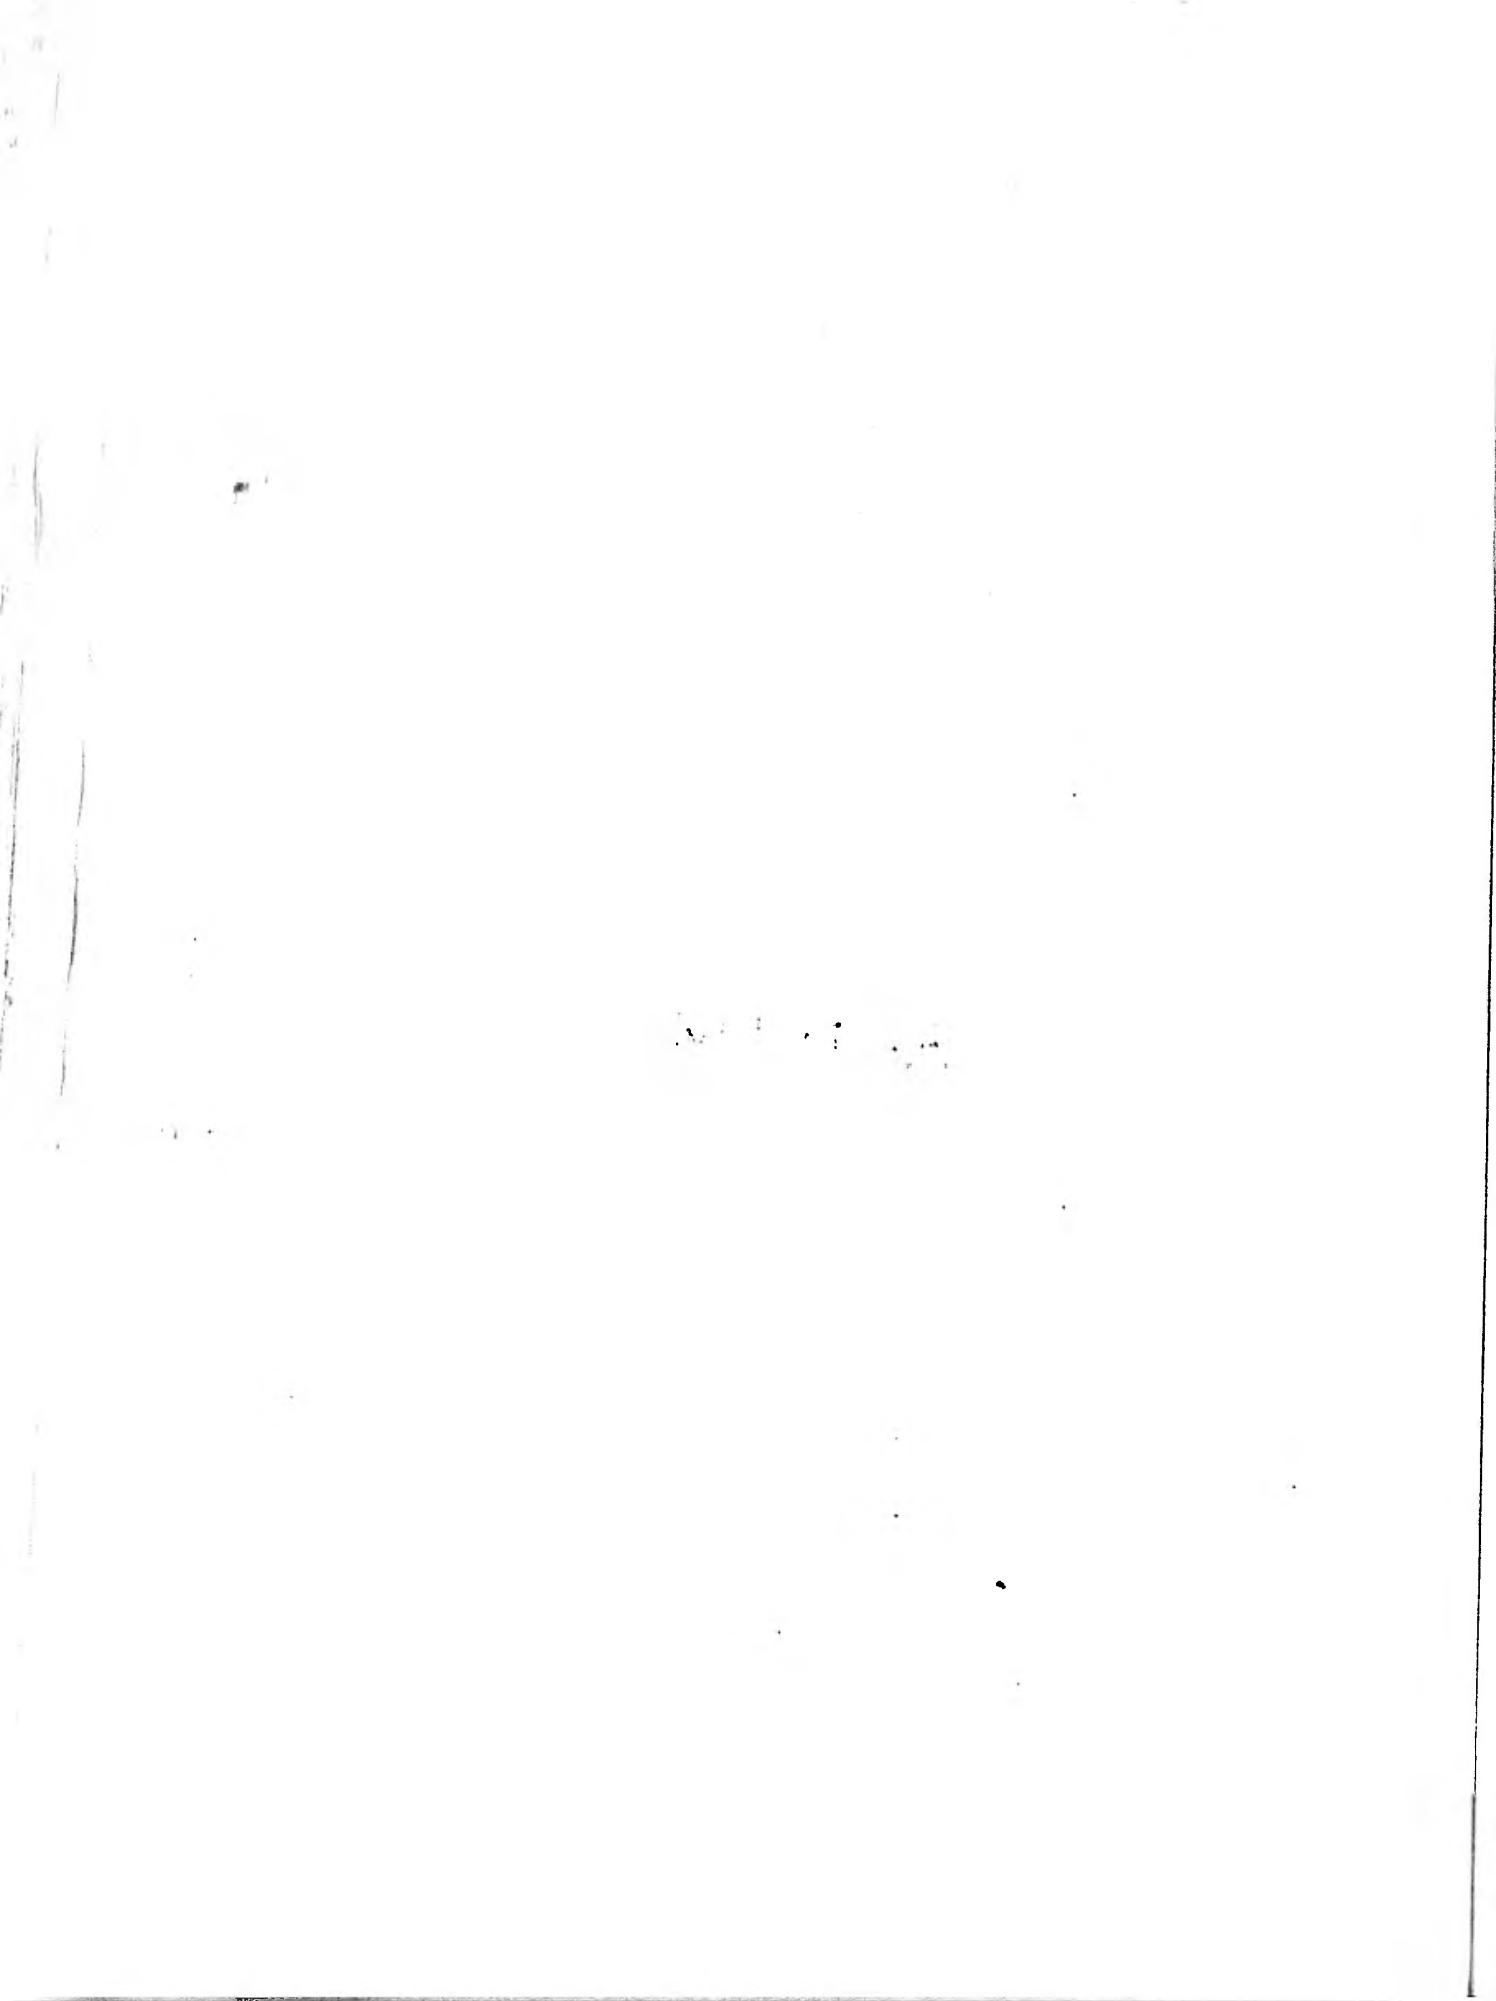

(SGD) H. M. WALTON.

FINCHLEY GOLF, SPORTS & SOCIAL CLUB, LIMITED.

Registered Office and Secretary:

W. J. M. LEVER,

NETHER COURT, N.W. 7.

11th January, 1932.

The Clerk,
Finchley Urban District Council.

Dear Sir,

Arrears of Rent.

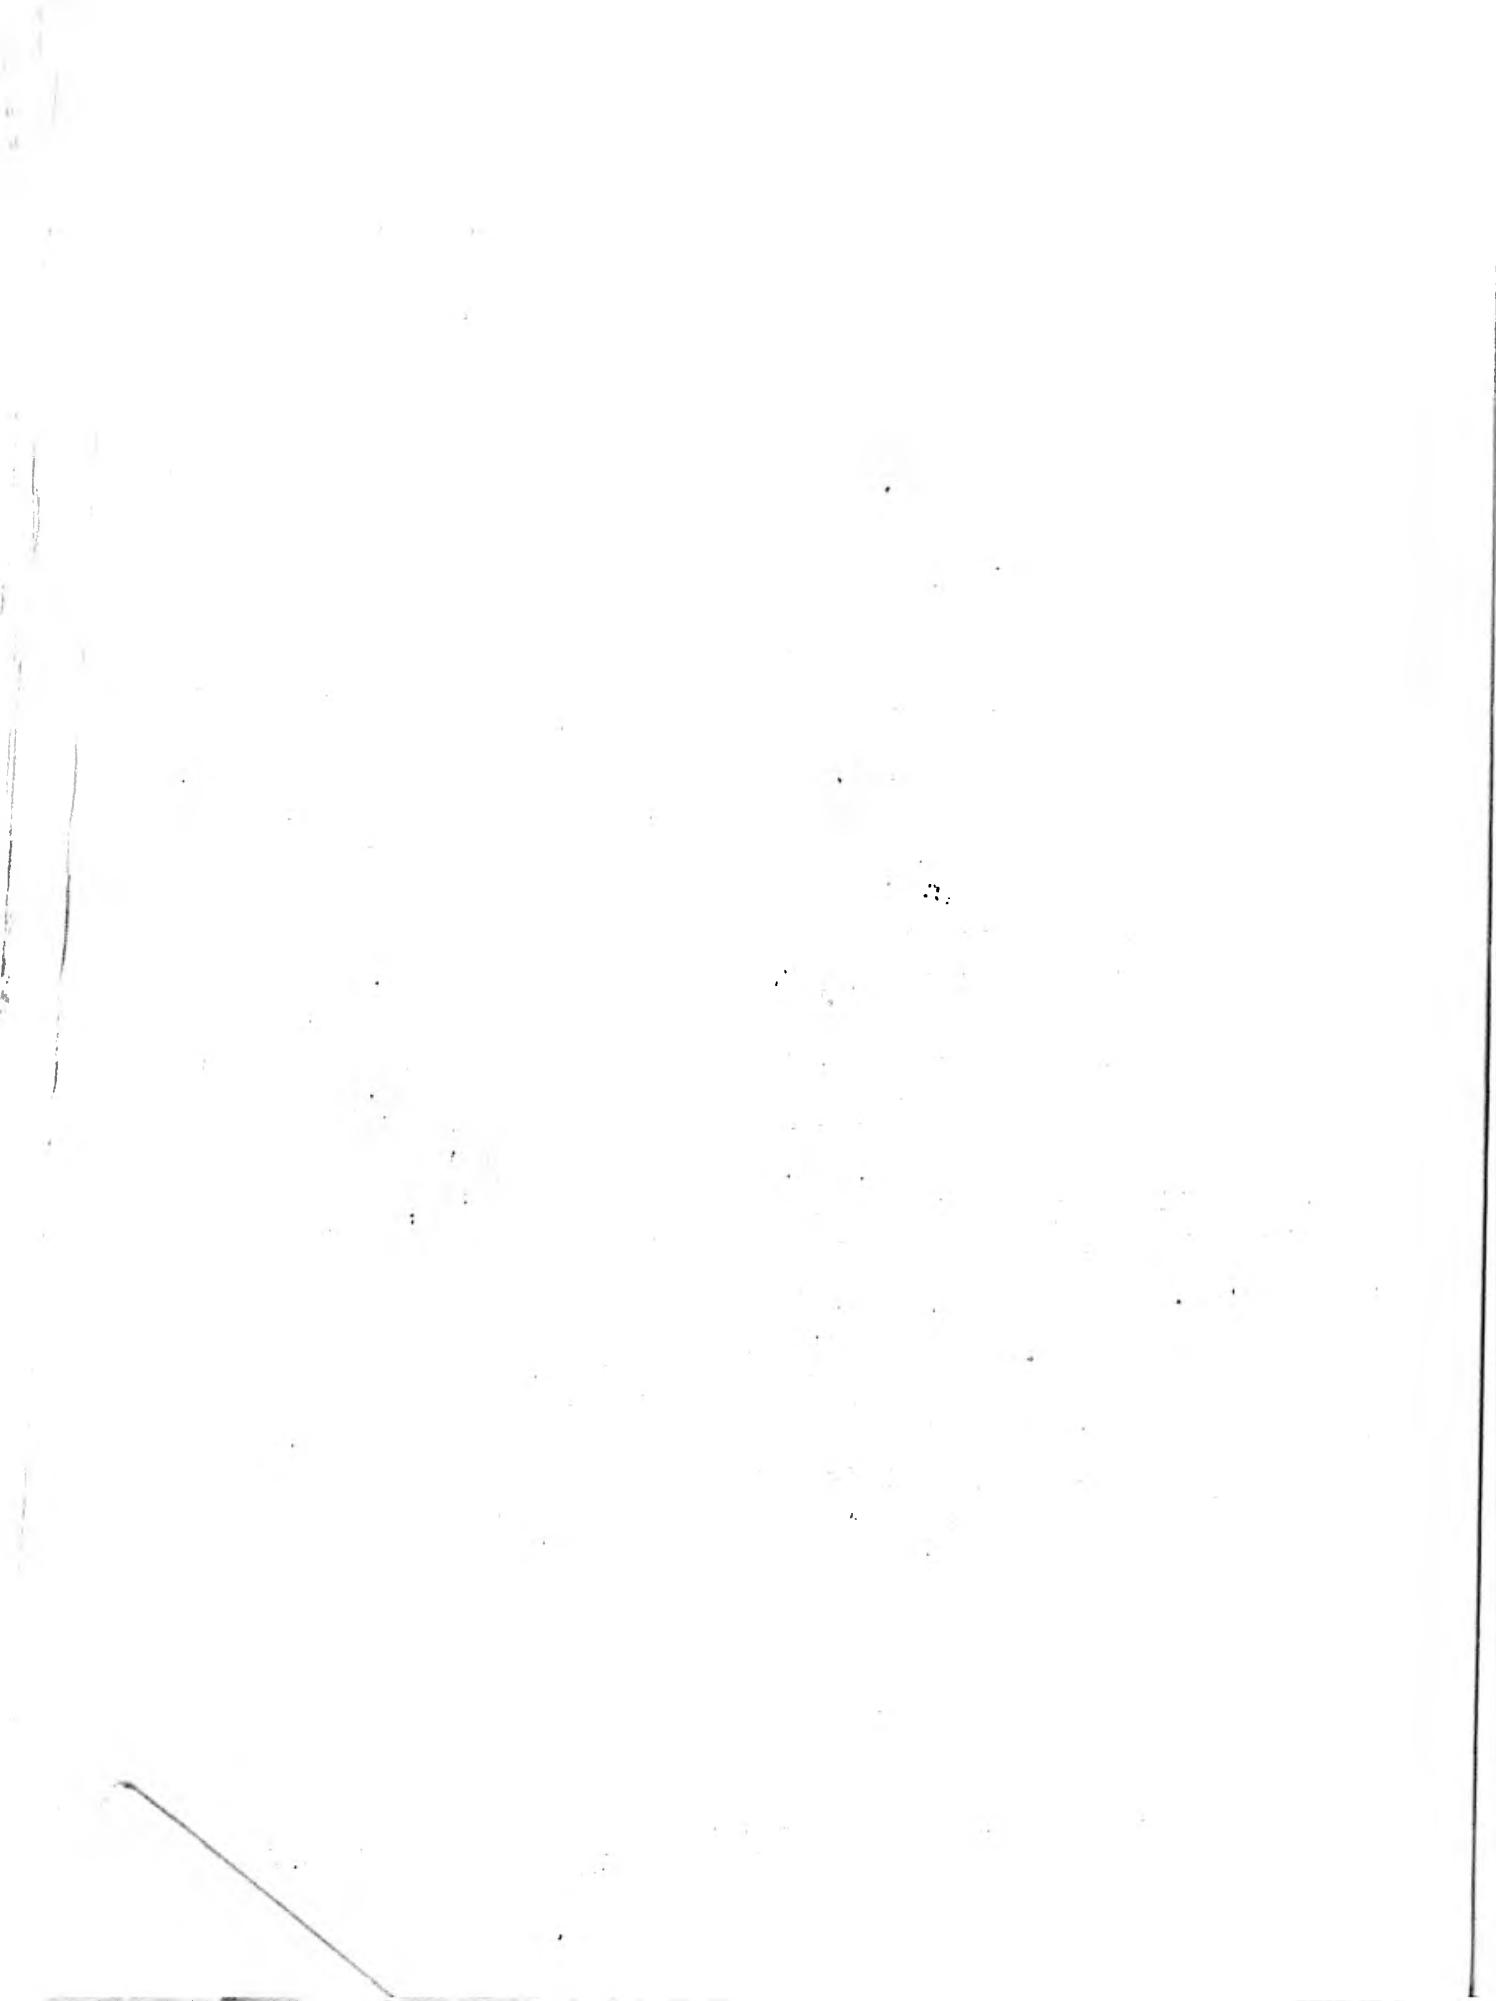

Your letter of the 4th instant has been carefully considered by my Directors and the matters referred to therein have been fully discussed.

I have been instructed to convey the Directors' appreciation of the evident signs of "our Council's wish to assist this Company in the present difficult position and in particular of the consideration given by the Council to the matter of arrears of rent which was first raised in my letter of the 7th October last.

My Directors wish me to point out that this Company's financial year ends on 31st March and that members intending to resign will give notice on or before 29th February. If the position of the Council's claim is merely allowed to stand over until the 30th June it will be impossible for the Company to make any progress. My Directors would not feel justified in accepting subscriptions in advance for the year 1932/33 or in taking fresh members. Even if the Company decided to accept subscriptions in advance for three months only it is certain that many golfing members would prefer to resign and join other Clubs rather than run the risk of having to apply to other Clubs in the middle of a season.

The recent efforts to obtain further financial support from the Shareholders and Members while successful to some extent, have undoubtedly been seriously prejudiced by the fact that my Directors have, as yet, been unable to say definitely that the Council would support the Company through the present difficult times, and my Directors feel that a conditional promise to defer consideration of the matter will not assist these efforts.

The Company has one valuable asset that can be relied upon to improve, namely, the goodwill represented by a revenue producing membership which has been created and built up by the Company, and my Directors feel in duty bound to emphasize

most strongly that this asset must be seriously prejudiced, if not entirely lost, by any break in the continuity of membership.

The preservation of this asset at all costs is, in the opinion of my Directors, a matter of vital importance to the Council as well as to the Company.

If it should become necessary for the Council to resume possession of the Golf Course then, apart from selling the land for building or other purposes, the only reasonable prospect of obtaining revenue would appear to be from a fresh lease to some other tenant for a golf course, but once the members of the present Club have joined other Clubs it would be extremely difficult to obtain a fresh tenant except at a nominal rent.

There are several points which have been placed before Committees of the Council verbally and my Directors have now instructed me to reduce these to writing so that these may not be lost sight of:-

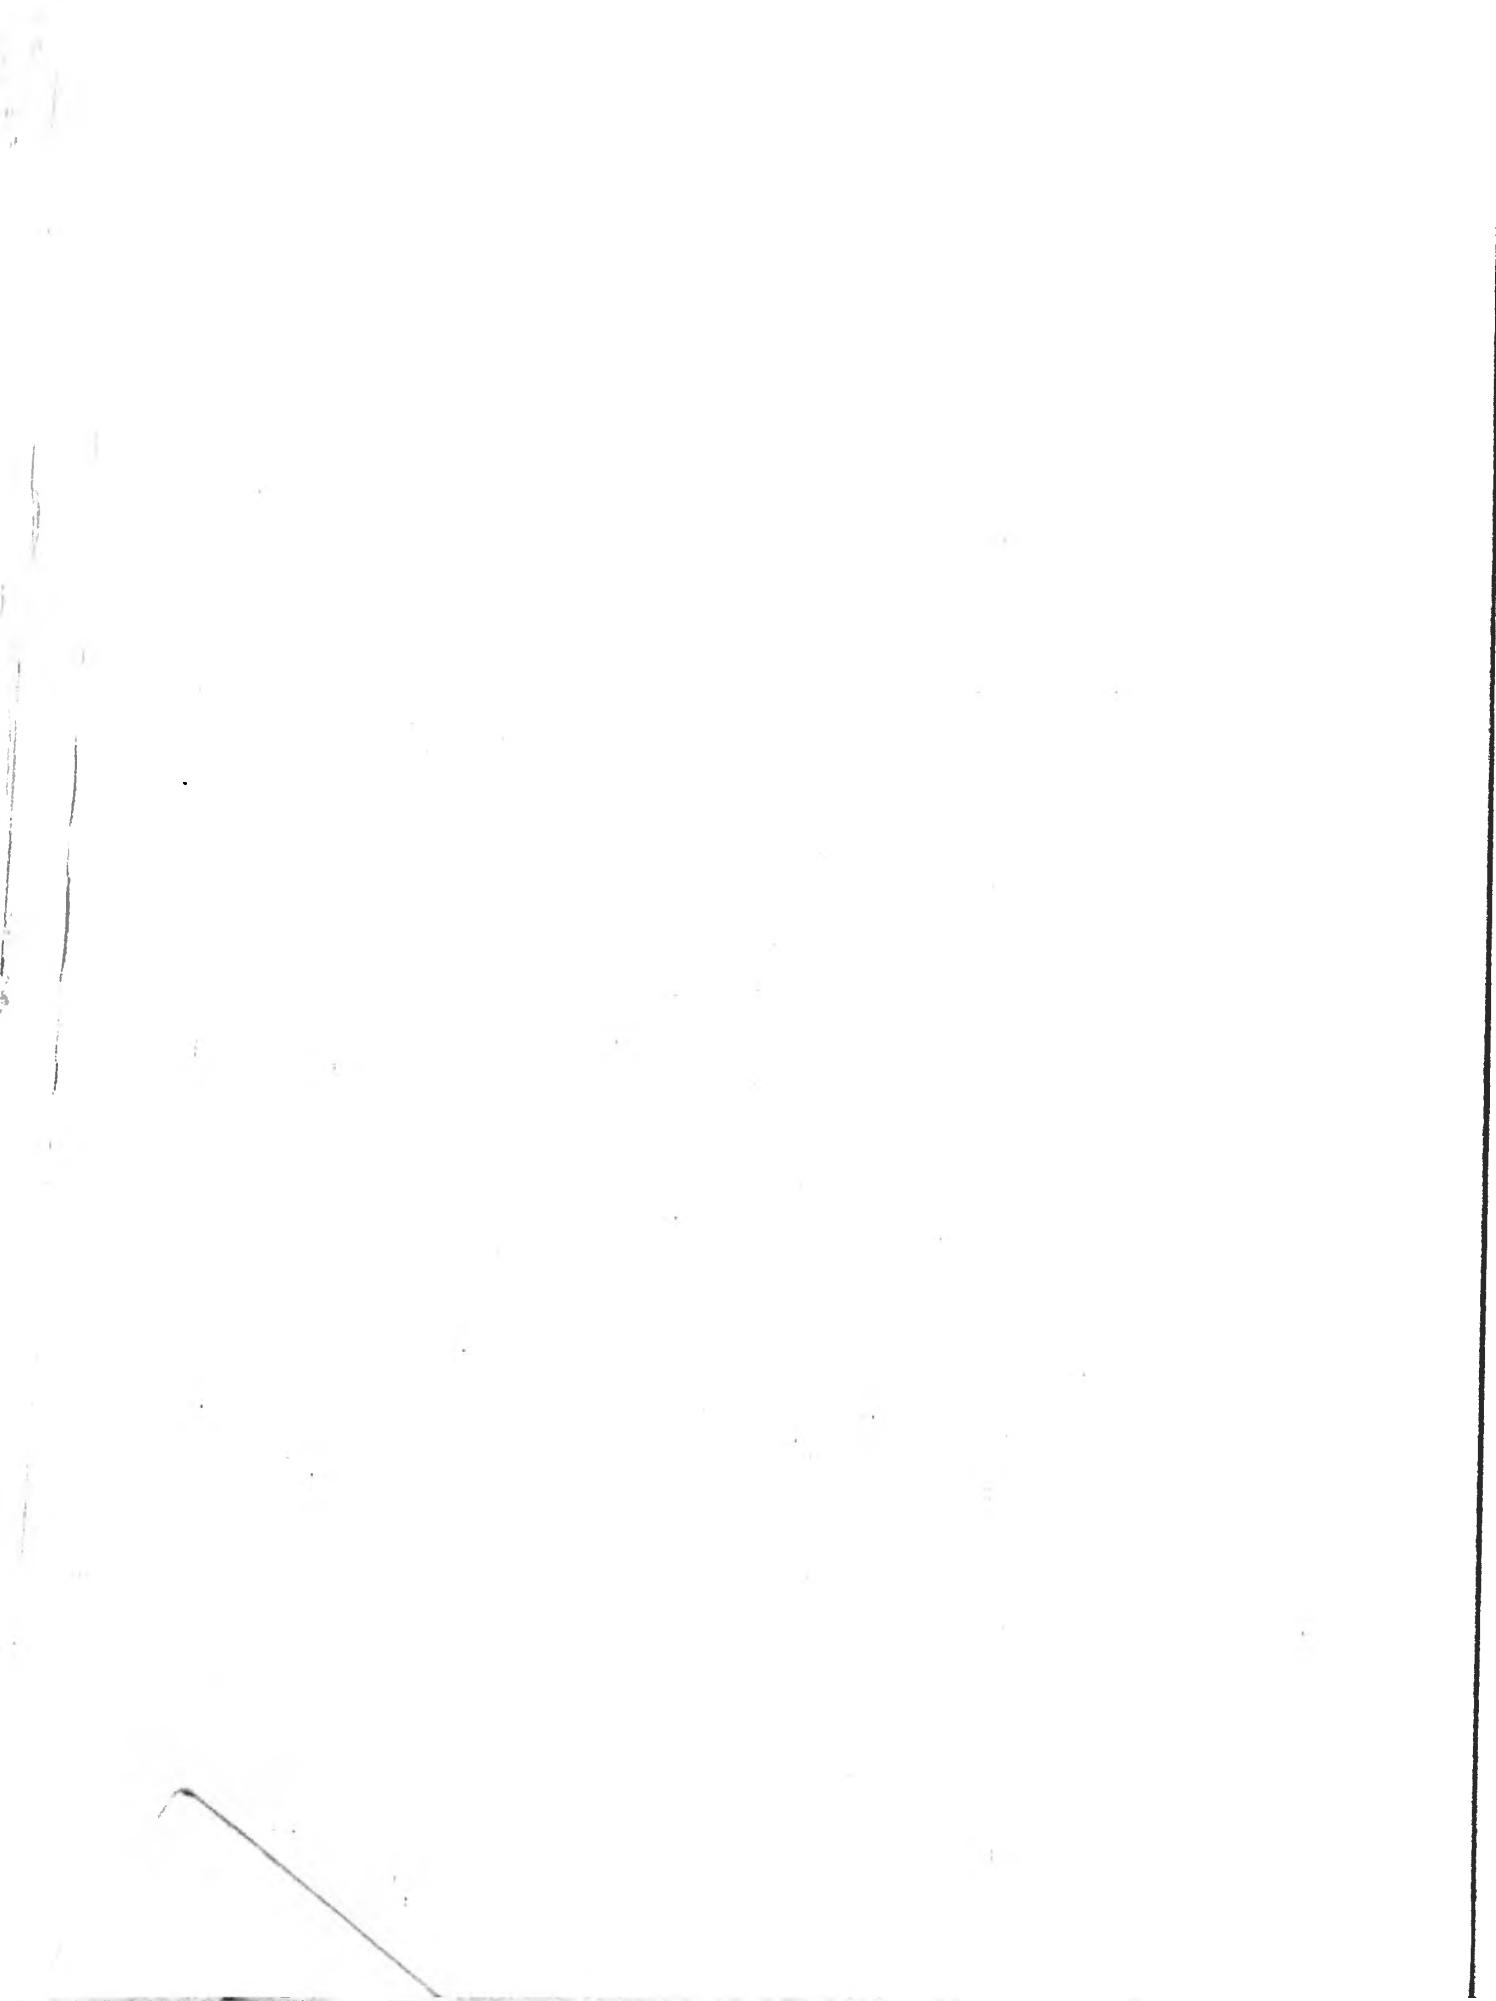

(1) When the lease was in course of negotiation with the Council and the Company it appears from the diary notes of the Company's Solicitor who conducted the negotiations on their behalf, that the difficulty of paying the full rent during the early years was mentioned, and although nothing appears in the lease, assurances were given by the then Clerk that the Council would deal generously with the Company on this point. It is obvious that the Company taking over as they did a derelict estate and house would require a considerable time to clear and construct the Course and repair and re-decorate the house during which period no revenue of any sort would be available.

(2) Owing to the necessity for the construction of the Hendon sewer right across the property the period of construction of the Course was considerably extended, the Company being denied full possession for nearly twelve months from the commencement of the lease for which so far the Company has had no compensation.

(3) That the rent payable under the lease includes the purchase price of a considerable quantity of land which is not used by the Company and for which the Company cannot obtain any benefit.

(4) That the sum of over £12,000 (for the most part contributed by local residents) has been subscribed by members of the Company, and has been expended in turning a derelict private estate into a beauty spot and an open space for Finchley.

To sum up the position my Directors wish me to state that, with the support of the Council as requested in recent interviews and on the lines indicated in this letter, they are satisfied they can create that confidence with

the members that will ensure a successful continuity for the benefit of all.

During the recent negotiations with your Committee, my Directors have refrained from making any definite suggestion as to the concessions they needed, but in placing all facts and figures before your Committee confidently relied on the Committee's full appreciation of the Company's difficulty.

My Directors think, however, that the time has now arrived when it is necessary for them to clearly state their views on the point.

For the reasons set out in this letter my Directors consider that in order to enable them to carry on the Club the rent for the period of the lease should be modified as follows :-

For the first year during the period of construction and re-decoration (nominal) £500 p.a.

For the two following years the period of building up the Club £1,000 p.a.

and

For the remainder of the lease £1,500 p.a.

The Company to forego any rights and/or interest in the Surplus Lands, the lease to be endorsed to cover such alterations, any payments already made to be credited against the above arrangement, no interest to be charged either way.

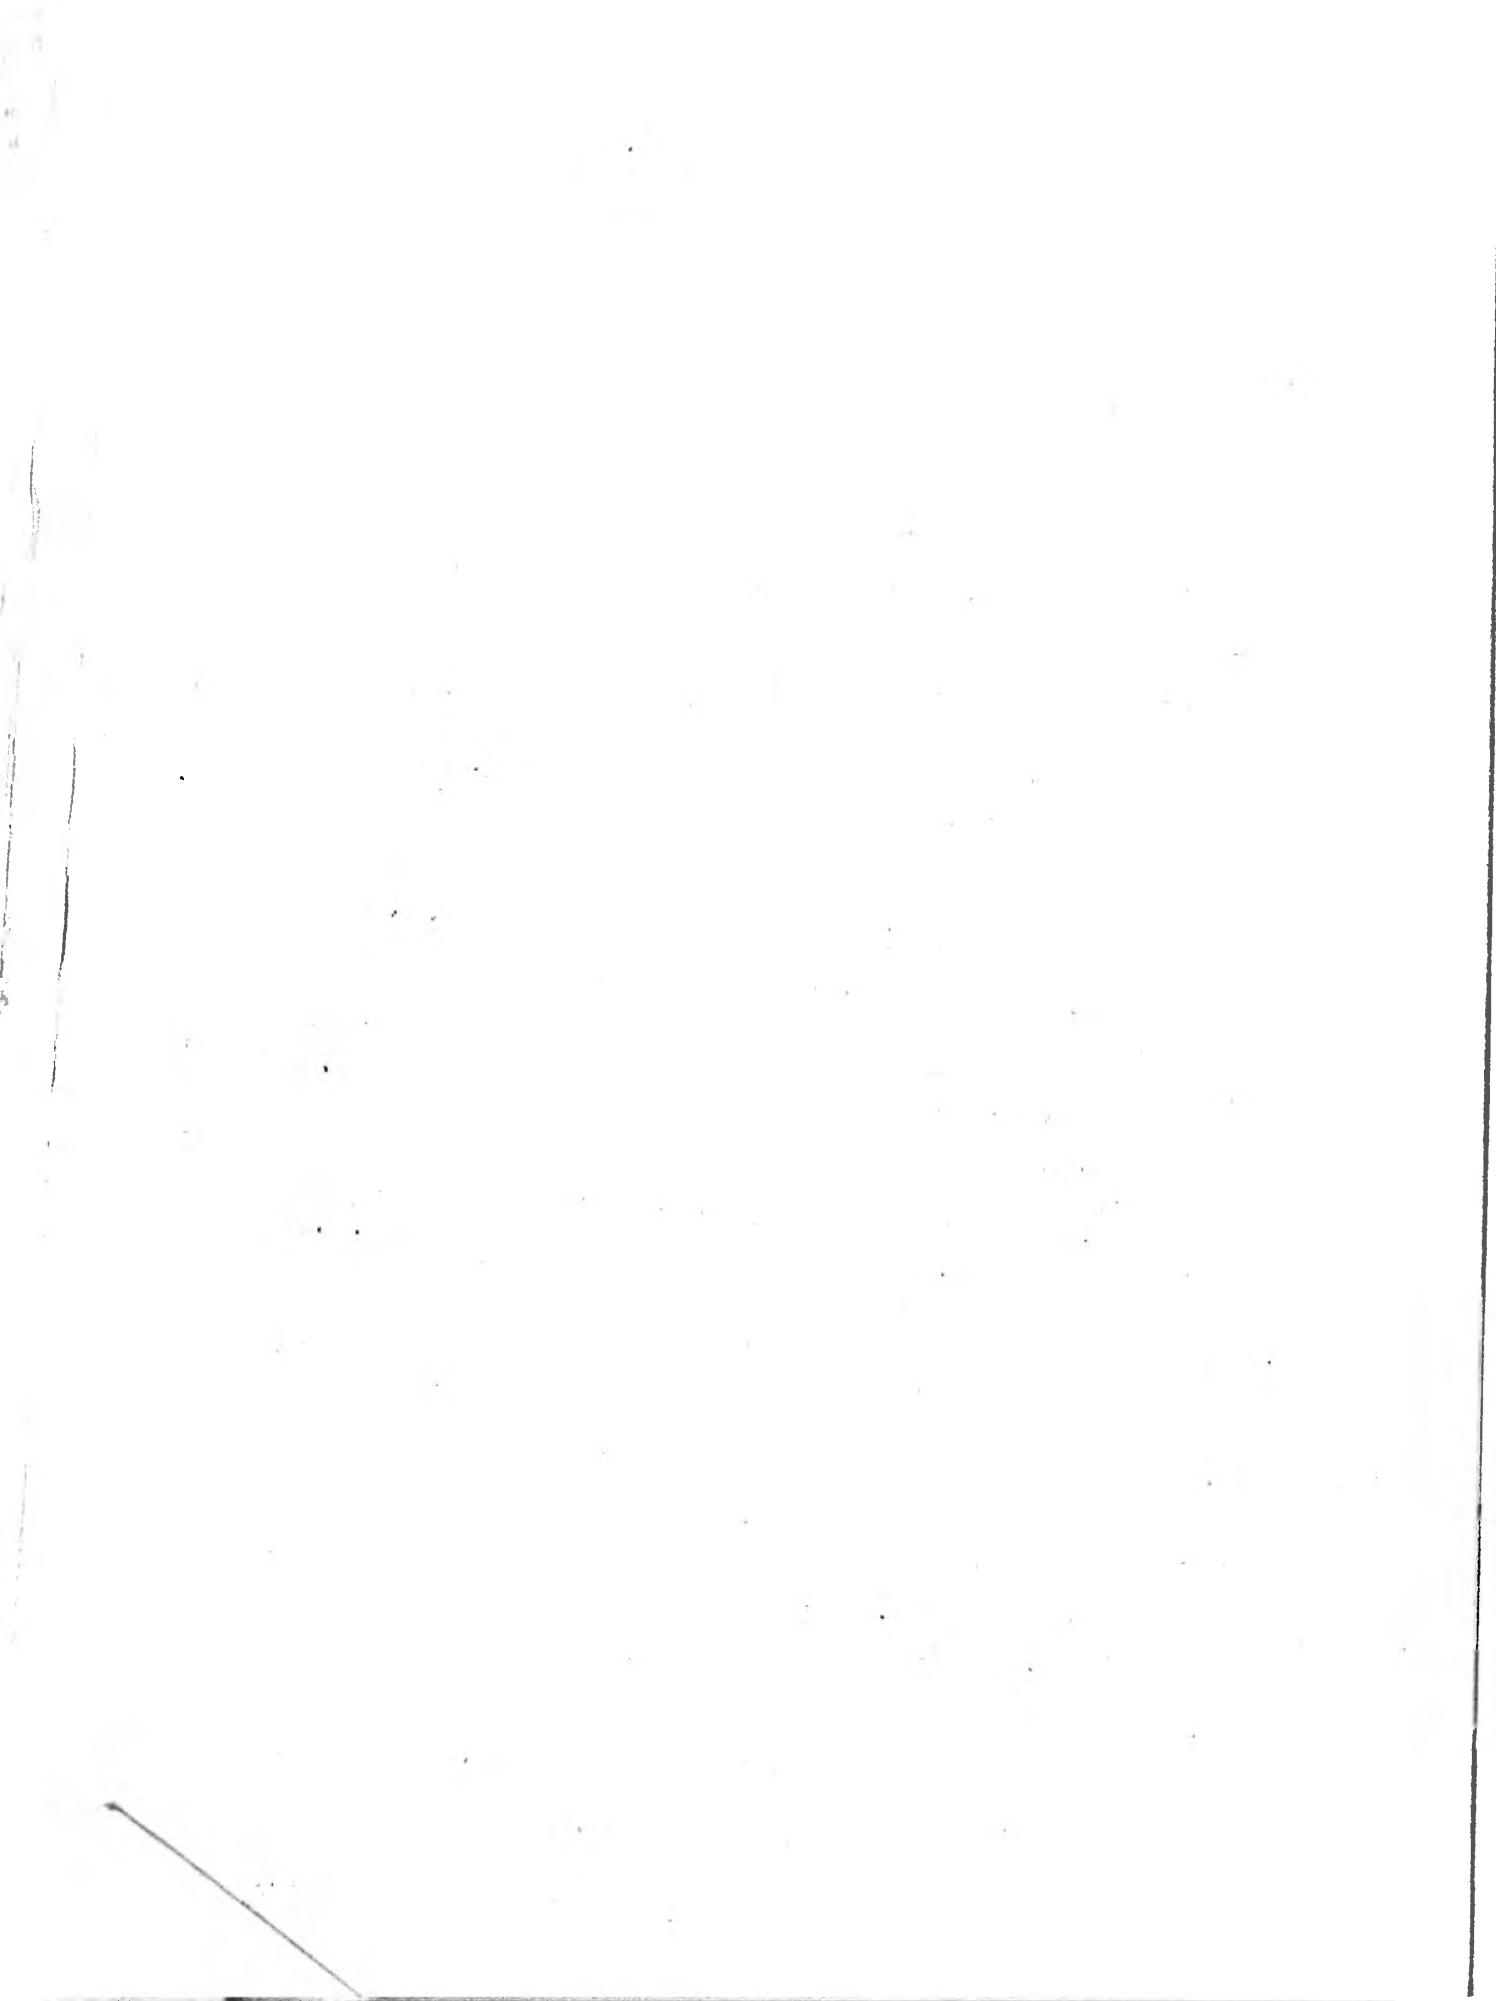

In submitting this suggestion my Directors desire me to say they are mindful of the full legal position but they feel justified in stating that this is not a legal matter, but one of mutual interest, a problem that needs mutual consideration to mutual aims, to this end my Directors have appointed an Executive Committee with power to negotiate with the Council to a final satisfactory conclusion, by the end of January, to enable them to put the result before their members at the earliest possible moment to avoid resignations in February.

My Directors feel confident that if some definite arrangement is made between the Council and the Company on the lines indicated they will have no difficulty in negotiating successfully with the Bank with a view to complying with the Council's conditions. The debentures to the Bank and others are secured on the lease and floating assets of the Company.

Yours faithfully,

(Sgd.) W. J. F. LISTER

Secretary,
Finchley Golf, Sports and
Social Club Ltd.

It was pointed out that the houses in East End Road were erected after the Company had acquired the land and that the owners would therefore be aware that it was intended to use such land for business purposes.
- (b) Widening—Totteridge Lane.—The Surveyor submitted a drawing (No. 8057) showing an amended widening line in Totteridge Lane to coincide with the widening proposals of the Barnet Urban District Council;

1567 Windsor Open Space—Proposed Electricity Sub-Station.—

- (a) Referring to Minute 1258, a communication, dated 8th January, 1932, was submitted from the Secretary of the Poulter Trust, to the effect that the proposed action of the Council in dedicating the playing field and the open space for public use and recreation appeared fully to meet the point raised by the Trustees.
- (b) Referring to Minutes Nos. 1045 and 1149 (2) (e), the Surveyor reported that he had agreed with the County Valuation Officer that the value of the land to be utilised for the erection of the proposed sub-station could be estimated at £40, and that the sum which would thus be repayable to the County Council would be £10, representing 25 per cent. thereof.

The Committee decided to refer the matter to the Electricity Committee.

1568 Victoria Recreation Ground—Bowling Green.—Letters, dated 4th and 30th January, 1932, were submitted from the Hon. Secretary of the Finchley Victoria Bowling Club hereon;

TOWN PLANNING & OPEN SPACES (*continued*).

1569 Land and Cottage Opposite Long Lane School.—The Clerk reported that as a result of an enquiry by the tenant of the above cottage as to when the Council would require vacant possession, the Secretary of the Education Committee had written him, stating that, subject to the approval of the Board of Education being forthcoming, his Committee would wish to take possession of the premises as from the 1st April, 1932, or as soon thereafter as the Council might find it convenient to place them at the Committee's disposal;

RECOMMENDED that the Clerk be directed to serve formal notice upon the tenant, requiring him to vacate the premises by not later than the 31st March next.

PRIVATE STREET WORKS.

On the 21st January, 1952 a Deputation consisting of the Chairman and the Vice Chairman of the Highways and Fire Brigade Committee (Councillors Bennett and C.S. Syrett) waited upon the Ministry of Health for the purpose of discussing generally the question of the making up of Private Streets.

The Deputation was received by Mr. Hawthorn on behalf of the Ministry, and was accompanied by the Clerk of the Council and the Surveyor.

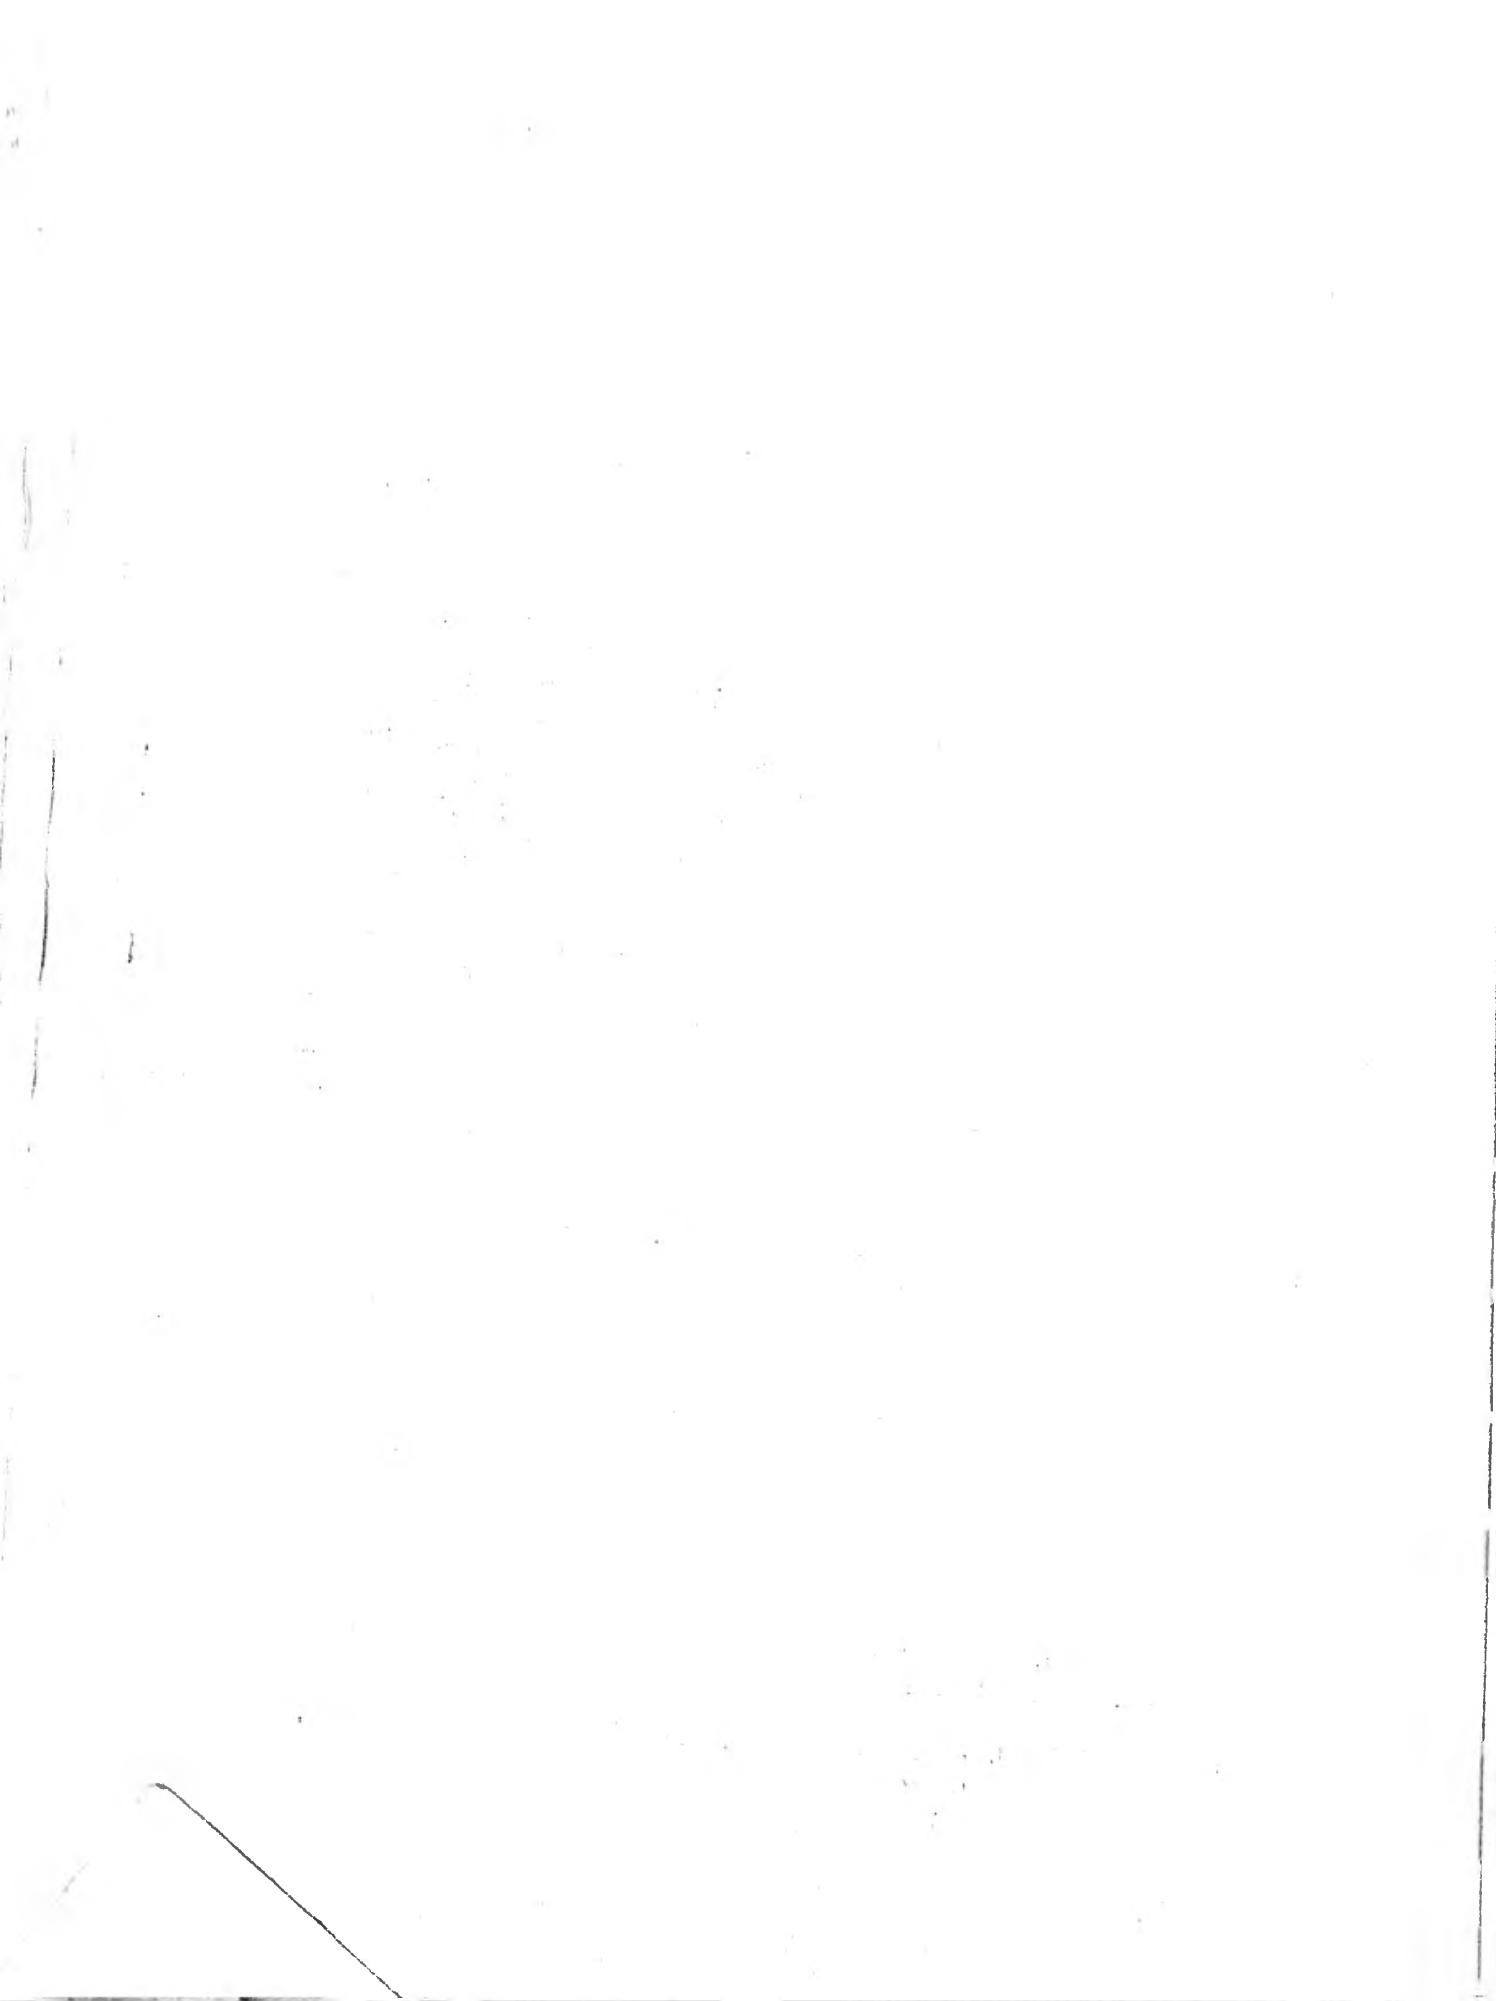

At the outset the Clerk of the Council referred to the interview which he had had with Mr. Hawthorn some time ago on the matter, and stated that the Deputation would like to be informed whether there had been any change in policy on the part of the Ministry.

Councillor Bennett submitted a number of photographs which had been taken indicating the terribly bad condition of some of the streets which the Council were desirous of making up, and he stated that the Council felt that it would be preferable for them to be allowed to proceed steadily with the making up of streets in batches as had been their practice for many years past rather than that the work should be suspended indefinitely and that in the course of time the Council would be faced with the problem of having to deal with an abnormally large number of streets. He also referred to the fact that, owing to the condition of some of the streets, it would be practically impossible, in the event of a fire occurring at any of the premises therein, for a fire engine to traverse them, and therefore it might be said that some risk to life and property was occasioned thereby; Furthermore the Council were in fact being urged by a number of frontage owners to proceed with the making up of certain streets. He added that in those cases where the frontagers were desirous of spreading the payment of their apportionments over a period of years the Council would be prepared to arrange for this to be done, and that an extended period would be granted in any exceptionally hard cases; therefore the expense would not cast an undue burden on the frontagers, even in the present financial situation.

The Clerk pointed out that the Council wanted to avoid, if possible, incurring expenditure in the preparation of plans, service of notices etc. and then finding that the Ministry would not issue their sanction to the necessary loan for the carrying out of the works.

In reply to a question it was stated by Mr. Hawthorn that sanctions to loans for private streets had recently been issued to some local authorities.

On the subject generally Mr. Hawthorn stated that, so far as the Ministry were concerned, the position remained very much the same as was indicated to the Clerk at the previous interview with him. He enquired of the Deputation as to whether the Council had considered the possibility of modifying their specification to some extent, and the Surveyor informed him that steps had been taken by the Council in this connection, and that the matter would in fact be under consideration further by the Highways Committee at their

next meeting. Mr. Hawthorn observed that provision was made in the Specification for Norwegian Granite kerb and he wondered whether the Council would not be satisfied with a concrete kerb. As to whether the Council proceeded or not with an application for sanction to a loan was, of course, a matter for them to decide, but at the same time the Ministry felt that they could trust authorities not to put forward any such applications unless there were special conditions to warrant that course - e.g. a substantial majority - say two-thirds - of the frontage owners in any particular street being desirous that the making up thereof should be proceeded with.

Reference was made by Mr. Hawthorn to the question of the carrying out of temporary repairs under the Public Health Acts Amendment Act 1907, but the Clerk informed him that the Council did not favour that course.

Summarising the foregoing discussion, it was understood as between Mr. Hawthorn and the Deputation -

- (a) that, generally speaking, the attitude of the Minister in regard to the making up of private streets remained unaltered;
- (b) that primarily, the responsibility rested with the Council;
- (c) that if the Council were fully satisfied that a road should be made up, the Ministry would be prepared to consider a proposal with that object;
- (d) that the Council would not normally take proceedings for making up a street until it was built upon to the extent of 75% at least of the available frontage;
- (e) that the Council were considering what economies could be effected in the Specification;
- (f) that the Ministry would favourably consider an application for the period for repayment of any loan sanctioned being extended to ten years; and that the Council should indicate in their application that they desired such an extension.

The work of the Bureau shows applicants for employment still on the increase, especially those between the ages of 16 and 18 years. Depression in trade, reorganisation of staffs, and other economy measures, are reasons given by employers for discharging boys and girls. There are at present only a few boys and girls seeking work who have not been employed before. School leavers are now at their minimum and the majority of these find work without the assistance of the Bureau. During the week ended 20th January 1932 there were 33 boys and 31 girls registered for employment. Of these, 24 boys and 18 girls were over 16 years of age.

The majority of applicants require clerical or engineering work (boys); shop assistant, dressmaking, or clerical employment (girls). The applicants, generally, are of good type, general education and good appearance. Several boys and girls have regularly attended at the Bureau, but the Bureau has not yet been successful in placing them.

With regard to claimants for Unemployment Insurance Benefit during the period under review, 89 claims have been dealt with. Of these 53 were fresh, or first, claims (26 boys and 27 girls), and 36 were renewal, second or subsequent, (24 boys and 12 girls).

The total amount for Unemployment Insurance Benefit paid out was £75. 10s.2d., made in 251 payments, an average of just over 6s.0d. each payment, in a period of sixteen weeks. Individually 33 boys and 23 girls have received payment; 56 in all.

At the Committee's last meeting it was agreed to recommend that a proposal be sent to the Middlesex Education Committee asking them to approve a scheme under which claimants to unemployment Insurance benefit should attend Evening Classes as one of the conditions for the receipt of such benefit.

Arrangements were accordingly made. The Middlesex Education Committee have notified this Authority that the Ministry of Labour have given approval to the scheme submitted under arrangement 'D', whereby claimants of 16 to 18 years of age are required to attend a course of two hours a night for three nights a week as a condition for the receipt of Unemployment Insurance Benefit.

This compulsory condition came into operation locally on October 29th, 1931, and seventeen claimants attended courses either at the Finchley Evening Institute, the Albert Street Evening Classes, or the North Road Evening Classes, during the week ended 4th November, 1931.

The majority of claimants since have accepted this condition; few have declined to attend the courses. The attendance has been good taking into consideration the fluctuating number of claimants with the odd periods of attendance required at classes while unemployed.

Those who have failed to attend without good excuse have had their cases referred to the Court of Referees who have disqualified them from receiving benefit for the day or days on which they failed to attend Evening Classes.

The rates of Unemployment Insurance Benefit now payable to claimants of 16 to 18 are:-

<u>Age.</u>	<u>Boys.</u>	<u>Girls.</u>
16 - 17	5s.6d.	4s.6d. per week.
17 - 18	8s.0d.	6s.9d. per week.

Subsequent to the last meeting 195 Unemployment Insurance Books have been issued.

b) After-Care Report.

Miss L. Davoy reports that Miss Syer has unfortunately not yet been able to resume her work as Hon. Organiser of After-Care owing to continued ill-health, but it is hoped to welcome her back in the Spring. The following visitors have given valuable help:- Miss Dawson, Mrs. Elkan, Mrs. Isaac, Miss Titcombe, Miss Watts and Mr. Kent. Mrs. Elkan and Miss Dawson have also aided in the clerical work.

It is worthy of note that within a few weeks of leaving school at the age of fourteen years, only a few boys and girls are found to be without employment.

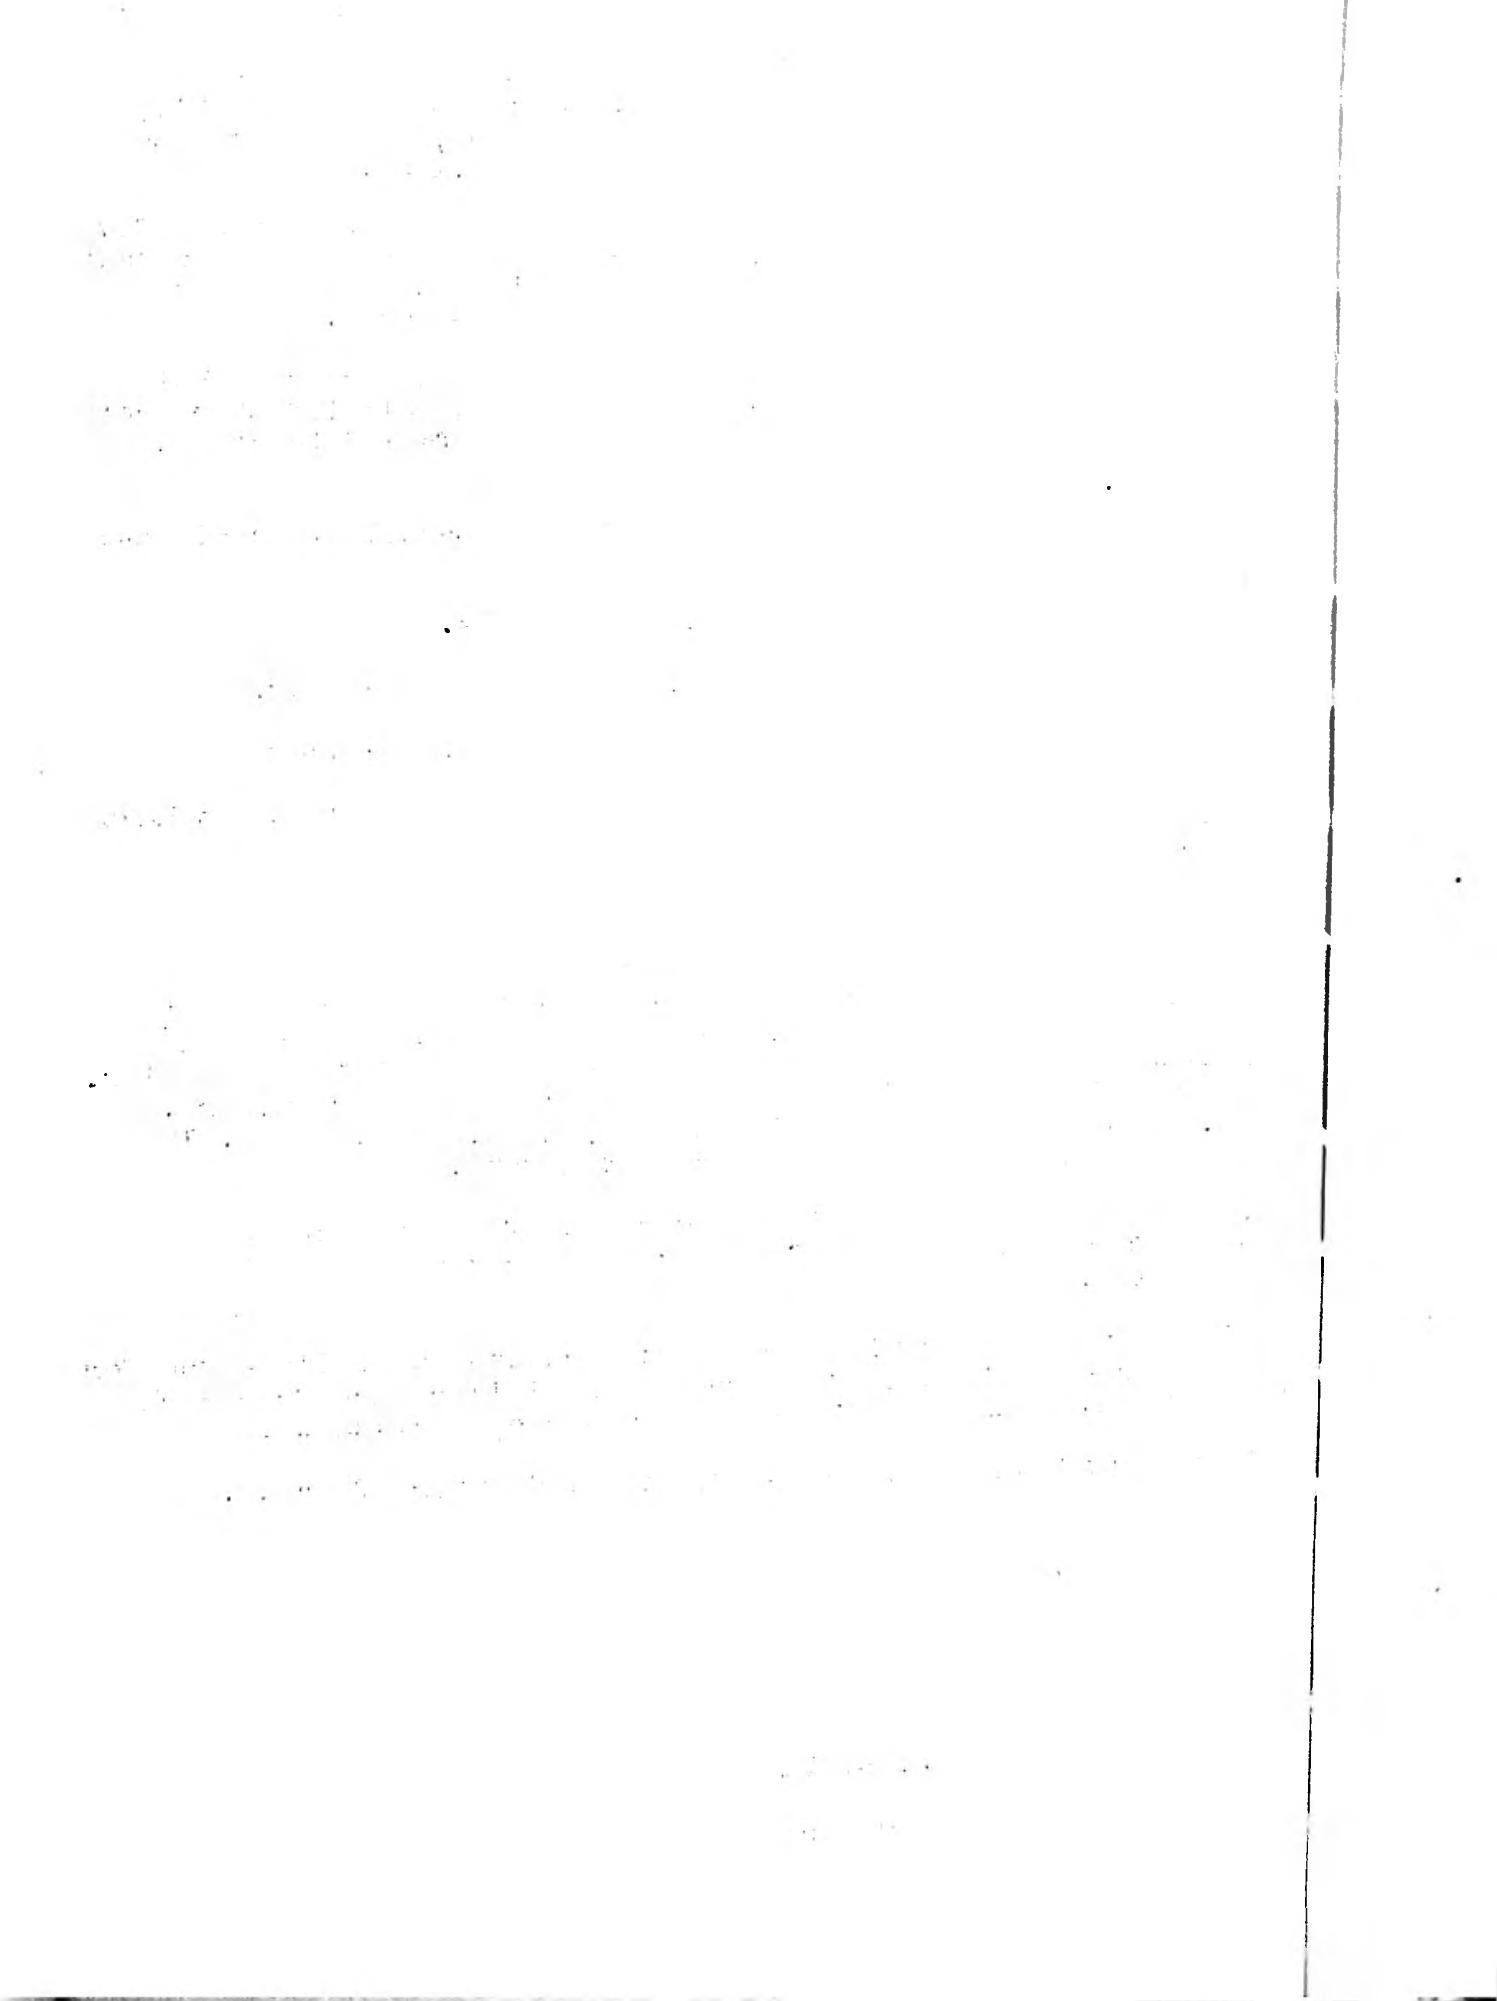

In urging the value of Evening Classes the reason generally given for non-attendance is the lateness of the young people's return from work, particularly in the cases of delivery boys and shop assistants.

A letter hereon has been addressed to the local Chamber of Trade.

J. R. LESLIE,

Chairman.

EDUCATION (*continued.*)

RECOMMENDED that, having regard to the number of children at the Junior Department of the Manor School in relation to the accommodation available, the Head Mistress be instructed not to admit further scholars until the number on the roll falls to 600, and thereafter that figure not to be exceeded until otherwise directed.

1632 School Playing Field—Clebe Land.—A letter has been received from the Clerk of the Council stating that the Town Planning Committee have decided, subject to the approval of the Finance Committee, to make provision in the next estimates for the cost of fencing the Gun Station site, and enquiring whether, in consequence of the expenditure so incurred, the Education Committee will be prepared to pay an increased rental for the use of the ground. The present rent paid by the Education Committee is £50 per annum;

RECOMMENDED that, subject to the approval of the Finance Committee and the Board of Education, the Education Committee are prepared to pay a rent of £55 per annum instead of £50 as hitherto, in consideration of the erection of a fence around the Gun Station playing field.

1633 Finchley Education Service.—At the January Meeting of the Council it was resolved to confer with the Middlesex Education Committee on the subject of their communication of 23rd July, 1931, relating to the future administration of elementary education in Finchley;

RECOMMENDED that the Chairman and Vice-Chairman of the Council and the Chairman and Vice-Chairman of the Education Committee, -with the Officers concerned, be appointed to represent the Finchley Education Authority at the conference referred to above.

1634 1. Use of Un-occupied Portion of North Road School.

2. School Accommodation.—

Your Committee have considered the letter, dated 15th January, 1932, received by the Council from the Secretary to the Middlesex Education Committee enquiring whether the Finchley Edu-

EDUCATION (*continued*).

tion Authority would be prepared to allow the Middlesex Education Committee to occupy, for a limited period, the portion of the North Road School formerly used by senior scholars, at present unused, for secondary school purposes.

If this request be granted it is proposed to use the portion of the North Road School referred to as an annex to the **Tollington Secondary School for Girls**. In that case it is understood that the Governors of the Tollington School for Girls will invite the Finchley Local Higher Education Committee to nominate four of their members to join them.

The elementary schools, other than those at East Finchley, are occupied to the limit of their accommodation; in some cases they are overful, but it does not appear that the relief required can be obtained by using the un-occupied portion of the North Road School for elementary school purposes.

In these circumstances, your Committee

RECOMMEND—

1. (a) that, subject to the consent of the Board of Education, an agreement be entered into between the Middlesex County Council and the Finchley Urban District Council providing that the Finchley Urban District Council grant to the Middlesex County Council the right to occupy that portion of the North Road School at present unused for a period of five years from 1st August, 1932, at a rental of £450 per annum, such sum representing one half of the annual loan interest in respect of the whole building, with approximately £50 for wear and tear;
- (b) that the other terms and conditions connected with the use of the un-occupied premises be those set out on the schedule circulated herewith;
- (c) that the Clerk be authorised to prepare the necessary agreement;

Annexed.

EDUCATION (*continued*).

2. (a) that, having regard to the transfer of the school accommodation referred to in the foregoing recommendation, and the income to be derived therefrom, the Board of Education be asked to sanction steps being taken to proceed forthwith with the erection of the school upon the Summers Lane site;
- (b) that, subject to the receipt of the sanction of the Board of Education to proceed with the erection of the school on the Summers Lane site, the Education Committee be authorised to advertise for new tenders.

Chairman.

URBAN DISTRICT OF FINCHLEY

TOWN PLANNING AND OPEN SPACES COMMITTEE'S SET OUT

1st February, 1932.

Part II.

Present: Councillor Langlands (Chairman), Councillors Pateman, File, Fulham, Mrs. Timberlake and Wells, and Councillors H. S. Syrett and Pugsley (non-members).

1.- GLEBE LAND - ERECTION OF TABLET.-

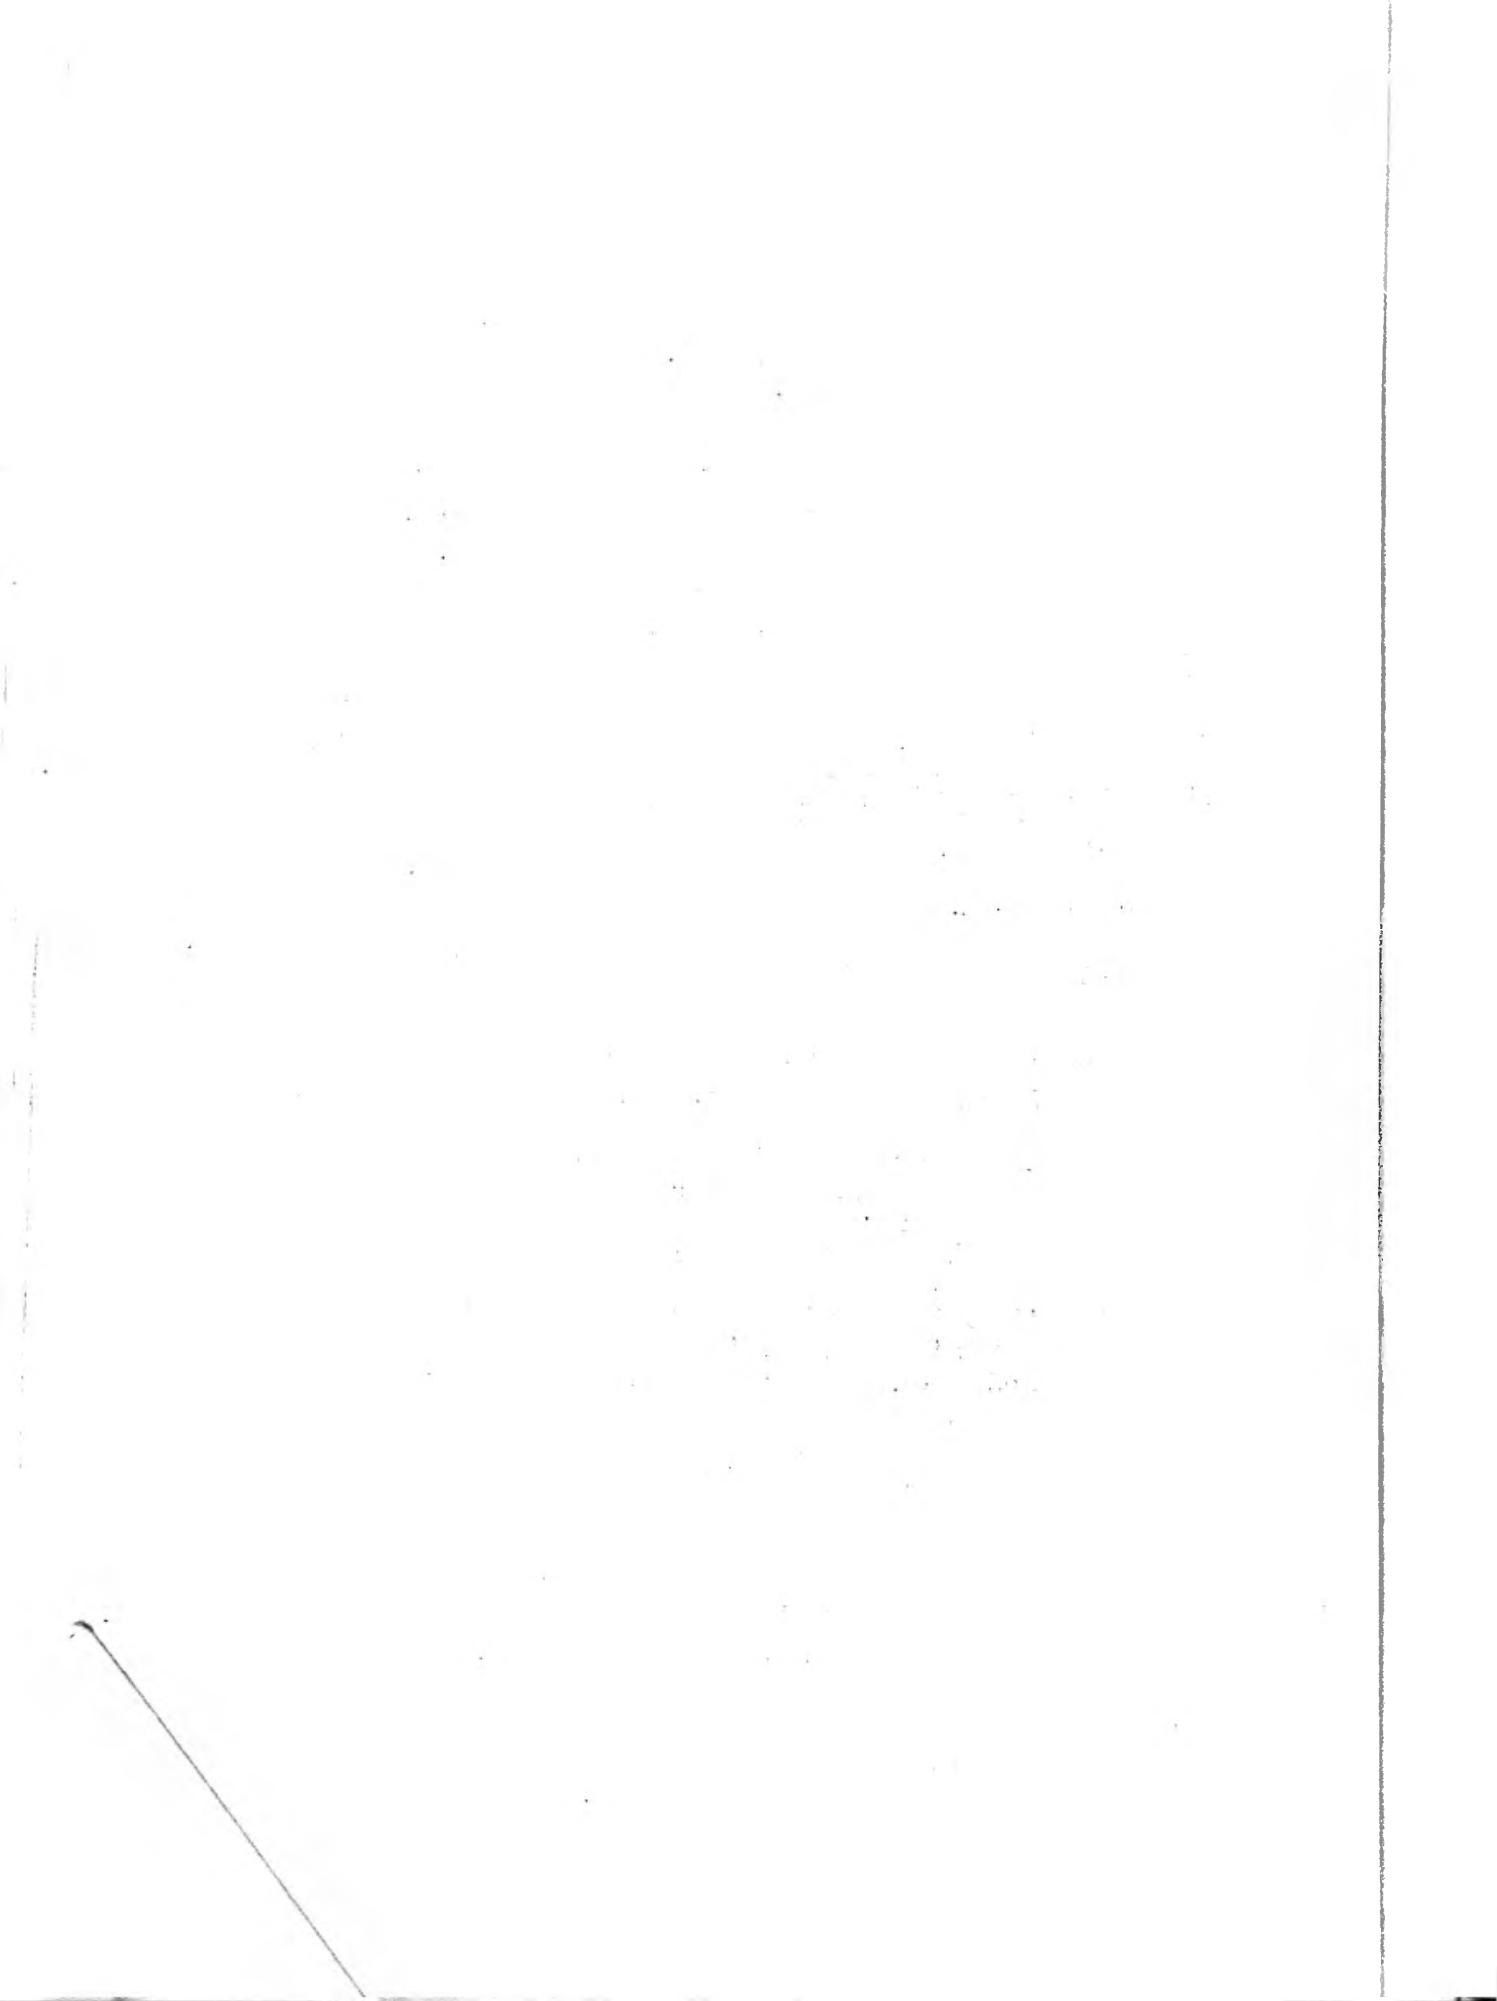

The Chairman of the Council reported that it was with great pleasure he was able to announce that H.R.H. the Duke of York had graciously consented to visit Finchley on Friday, the 22nd April next for the purpose of unveiling a tablet to be erected on the Glebe Land in commemoration of the laying out and permanent use of the land for sports purposes; further, that the Vice-Chairman of the Council and he had made an inspection and had come to the conclusion that the best position for the proposed tablet would be on the east side of the Great North Road at its junction with the North Circular Road;

RECOMMENDED -

- (1) that the erection of the tablet in the position suggested be approved;
- (2) that the sketch plan submitted by the Surveyor to the Council be also approved;
- (3) that provision be made in the estimates of the Committee for the next financial year for the sum of £200 to cover the total cost involved;
- (4) that the Chairman and Vice-Chairman of the Council, the Chairman of the Town Planning and Open Spaces Committee and the Chairman of the General Purposes Committee be appointed a Sub-Committee to make all necessary arrangements in connection with the matter and that they be given power to act.

2.- TOWN PLANNING SCHEME NO. 2 - PROPOSED ROAD NO. 27.-

The Clerk reported that in accordance with the instructions of the Committee, he had addressed a communication to the Ministry of Health hereon and the following was a copy of the reply received :-

"I am directed by the Minister of Health to refer to your letter of the 13th instant and to say he understands that the Inspector's request was for an estimate under paragraph 3(b)(ii) of Form T.P.5, if any streets came within the description therein, and not with special reference to Street No. 27, which the Minister gathers was entered under that paragraph in the form as sent to the Minister under a misunderstanding as to the intention of the paragraph. The Minister understands that this street is included in the Council's Scheme in pursuance of the understanding with the Hendon Urban District Council reached at the conference between the Council on the subject subsequent to the Inquiry into the Hendon Urban District Council Scheme in connection with the Finchley Urban District Council's objection to the original line of the road across the golf course at Nethor Court and Frith Grange in the Hendon Scheme (which is still awaiting approval). The Scheme does not include any provision as to the construction of the road, which (if undertaken otherwise than by the owner of the land) would be a matter for arrangement between the interested Authorities at the appropriate time, but it will be realised that the Minister has no power to exempt the Finchley Urban District Council from primary responsibility for any possible claim for compensation on the making of their Scheme in respect of the road."

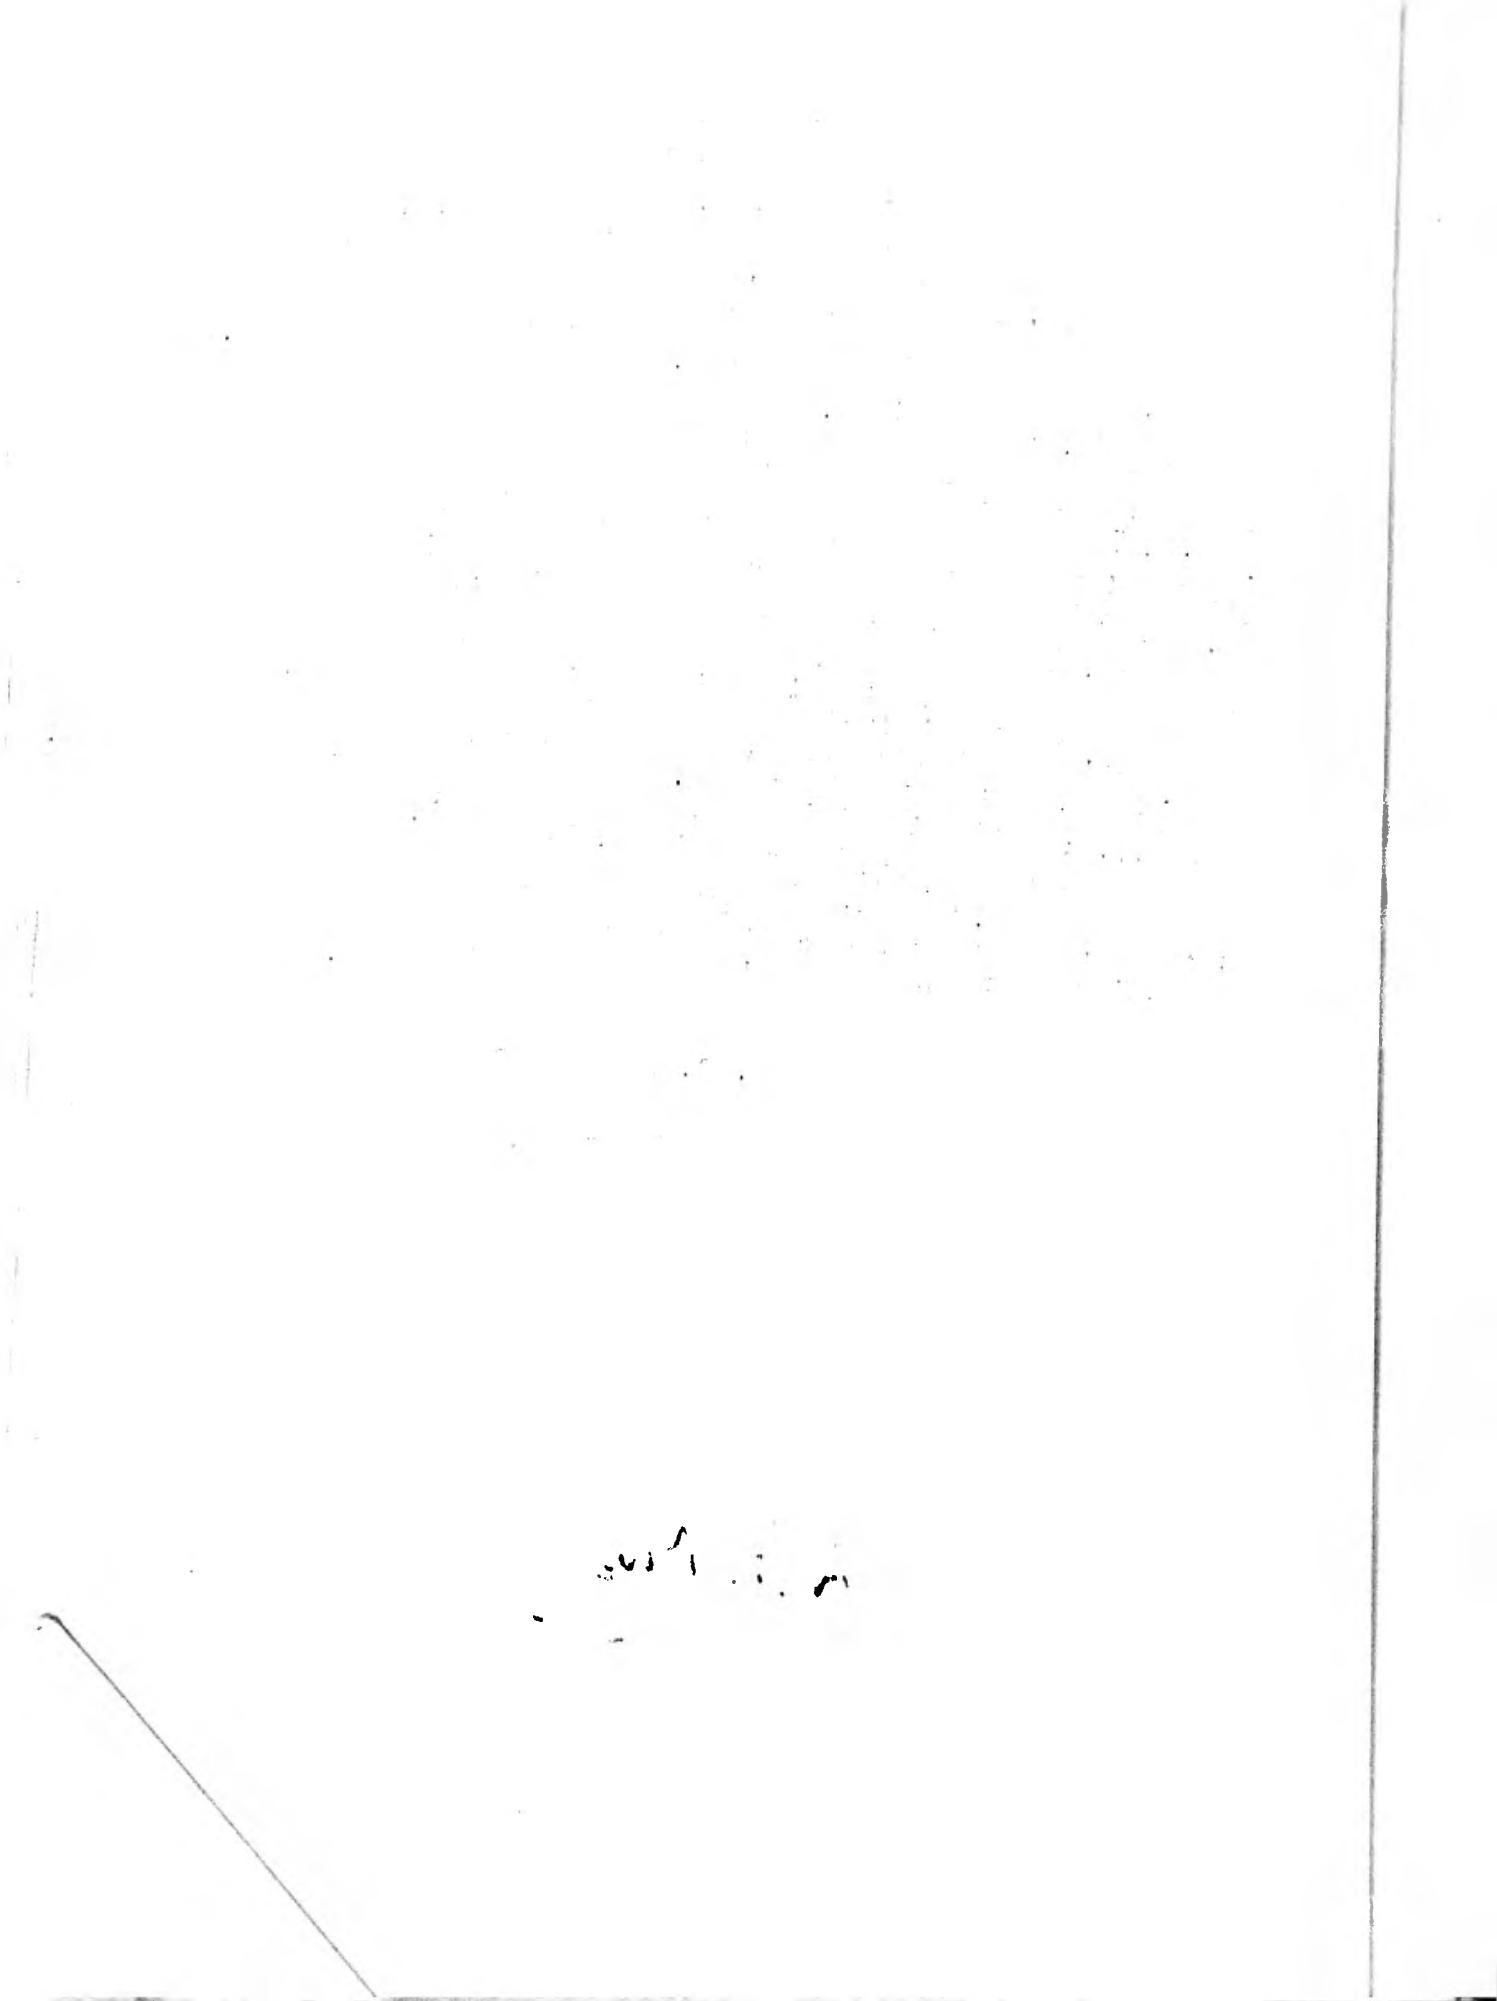

W. C. LANGLANDS

Chairman.

URBAN DISTRICT OF FINCHLEY

PUBLIC HEALTH COMMITTEE'S REPORT.

2nd February, 1932.

Part II.

Present: Councillor Briant (Chairman), Councillor Ryan (Vice-Chairman), Councillors Pike, Pugsley, Pulham, H. O. Syrett and Mrs. Timberlake and Councillors Pateman and Wells (non-members).

(1) PUBLIC HEALTH (MEAT) REGULATIONS, 1924 - NOTICE OF INTENTION TO SLAUGHTER ANIMALS FOR HUMAN CONSUMPTION.

At the meeting of the Committee held on the 8th December, 1931 the Chief Sanitary Inspector reported that on the 12th November, 1931, certain animals had been slaughtered by Mr. J. Semple of Albert Terrace, Ballards Lane, Church End, Finchley without the requisite notice having been given in accordance with the above Regulations.

At the invitation of the Committee Mr. Semple appeared before them on the 2nd February, 1932. He satisfied the Committee that there was no intention on his part to evade inspection and that the failure to give notice of intention to slaughter was due to the negligence of his staff.

Mr. Semple was reminded by the Committee of two previous failures to give notice and was warned that in the event of a similar breach occurring in future they would have no alternative but to recommend the Council to institute legal proceedings.

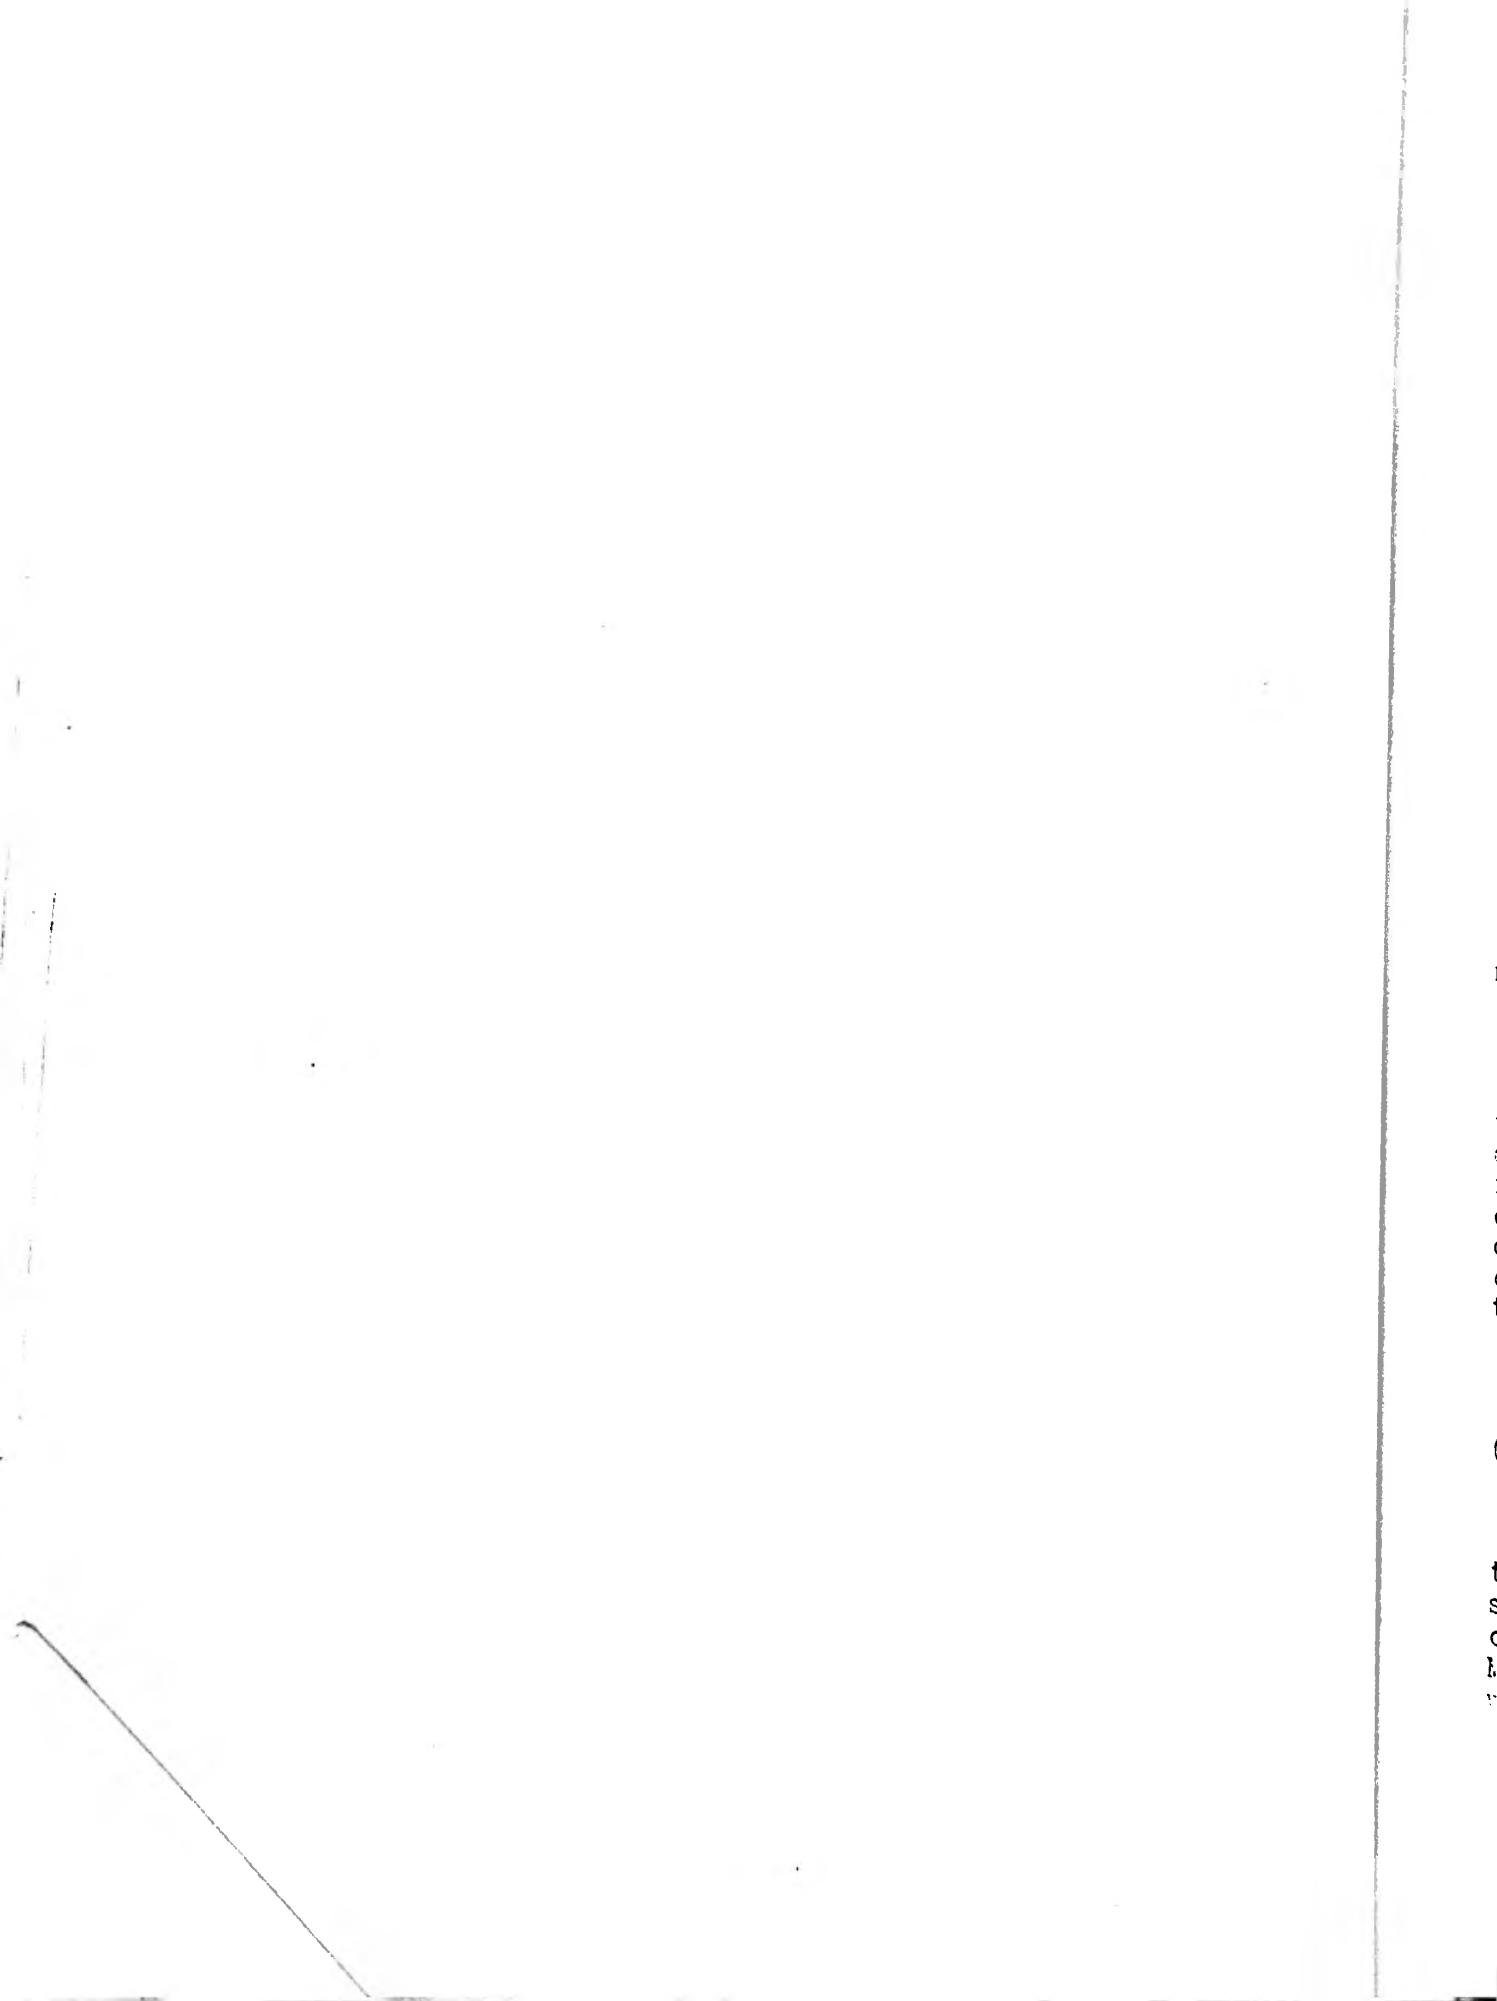

RECOMMENDED that the action taken be approved.

(2) LOCAL GOVERNMENT ACT, 1929 - SECTION 63 - HOSPITAL ACCOMMODATION FOR INFECTIOUS DISEASE.

A letter dated 26th January, 1932, was submitted from the Clerk of the Middlesex County Council hereto, together with a letter dated 30th January, 1932, from the Clerk and Accountant to the Hornsey, Finchley and Wood Green Joint Hospital Committee. Copies of the above communications had, it was reported, been forwarded to each member of the Council.

After discussion, the Committee decided to defer the further consideration of the matter until their next meeting, and in the meantime the Clerk was directed to communicate with the Town Clerk of Hornsey with a view to his Council convening an informal conference between the Borough of Hornsey, the Urban Districts of Finchley, Wood Green, Friern Barnet and Southgate, and possibly South Mimms at an early date.

In the event of such conference taking place, it was agreed that the Chairman and the Vice-Chairman of the Council, Councillor H. O. Syrett, the Clerk of the Council and the Medical Officer of Health should represent this Council thereof;

RECOMMENDED that the action taken be approved.

(3) PETROLEUM SPIRIT LICENCE - No. 139, HIGH ROAD, EAST FINCHLEY - BERTRAM BELL.

At the previous meeting of the Committee the Petroleum Inspector reported as follows :-

"I have to report that on the 21st December, 1931, I visited 139, High Road, N. 2 and examined six manholes above the underground storage tanks used for the storage of petroleum spirit. These manholes give access to the fill and dip pipes connected with the storage tanks. In five of the said manholes I found accumulations of water covered by what appeared to me to be petroleum spirit. I took a sample of the "spirit" from each manhole.

The presence of petroleum spirit in the said manholes appears to constitute an infringement of the conditions of your Council's licence.

The Licencee, Mr. Bertram Bell, was warned in June, 1931, by the Clerk of the Council on the instructions of your Committee in respect of a similar offence."

The Clerk reported that in accordance with the instructions of the Committee, full consideration had been given as to whether the presence of petroleum spirit in the manholes at the above premises constituted a breach of the conditions of the Council's licence to store petroleum spirit, and that the Home Office had been consulted thereon; that it was very doubtful whether the presence of the spirit in the manholes (without additional evidence as to how it got there) was an infringement of the conditions of the licence and as such evidence was not available, it would appear to be inexpedient to institute legal proceedings for the recovery of penalties in this case; that as, however, the matter was one of some importance, it was suggested that in future a condition be inserted in the appropriate licences to cover the point at issue,

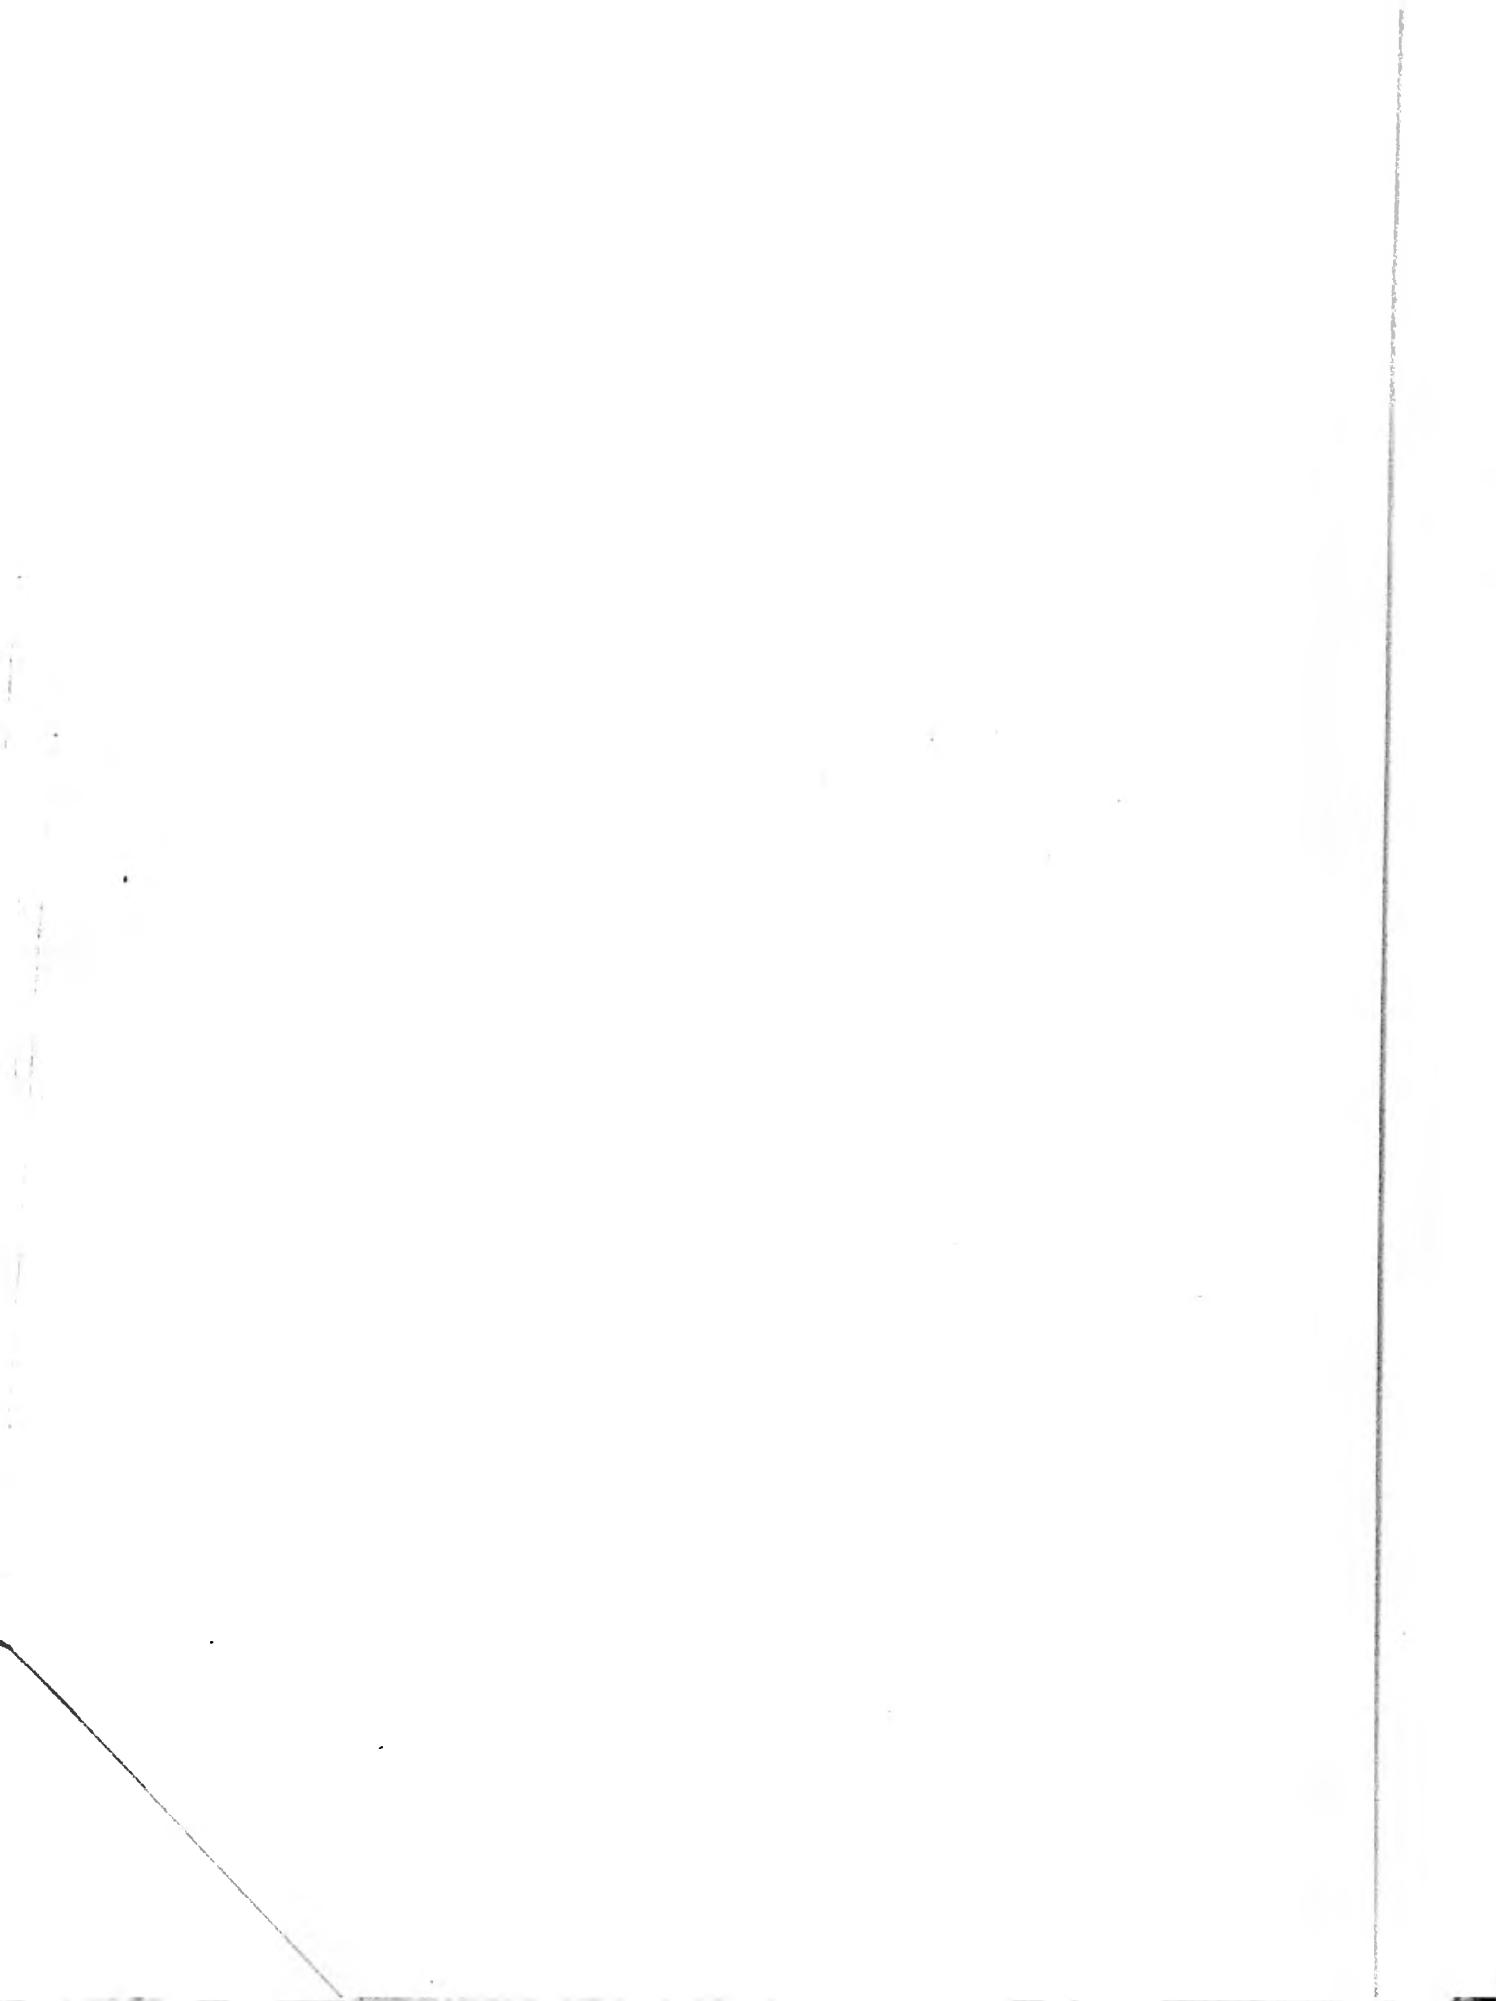

RECOMMENDED that this be agreed.

(4) PUBLIC CONVENIENCE - CHURCH END - SALE OF DOLLIS BRAE NETHER STREET.

The question of the reserve price in connection with the above received further consideration, and the Clerk submitted a letter dated 26th January, 1932 from the Ministry of Health, stating that as no consent on the part of the Minister was required, the services of the District Valuer were not available;

RECOMMENDED that £1,000 be agreed by the Council as the reserve price.

FOOTPATH - BOW LANE TO QUEENS AVENUE. - The Committee considered a report by the Solicitor hereon, from which it appeared very doubtful that the Council could maintain successfully an action requiring the owner to set back the fence to the old line. He also reported that the owner was prepared to convey to the Council the freehold of the footpath at its new width without compensation;

RECOMMENDED -

- (1) that no action be taken with regard to the suggested encroachment;
- (2) that the above-mentioned offer be accepted.

1.- LOCAL GOVERNMENT SUB-COMMITTEE...

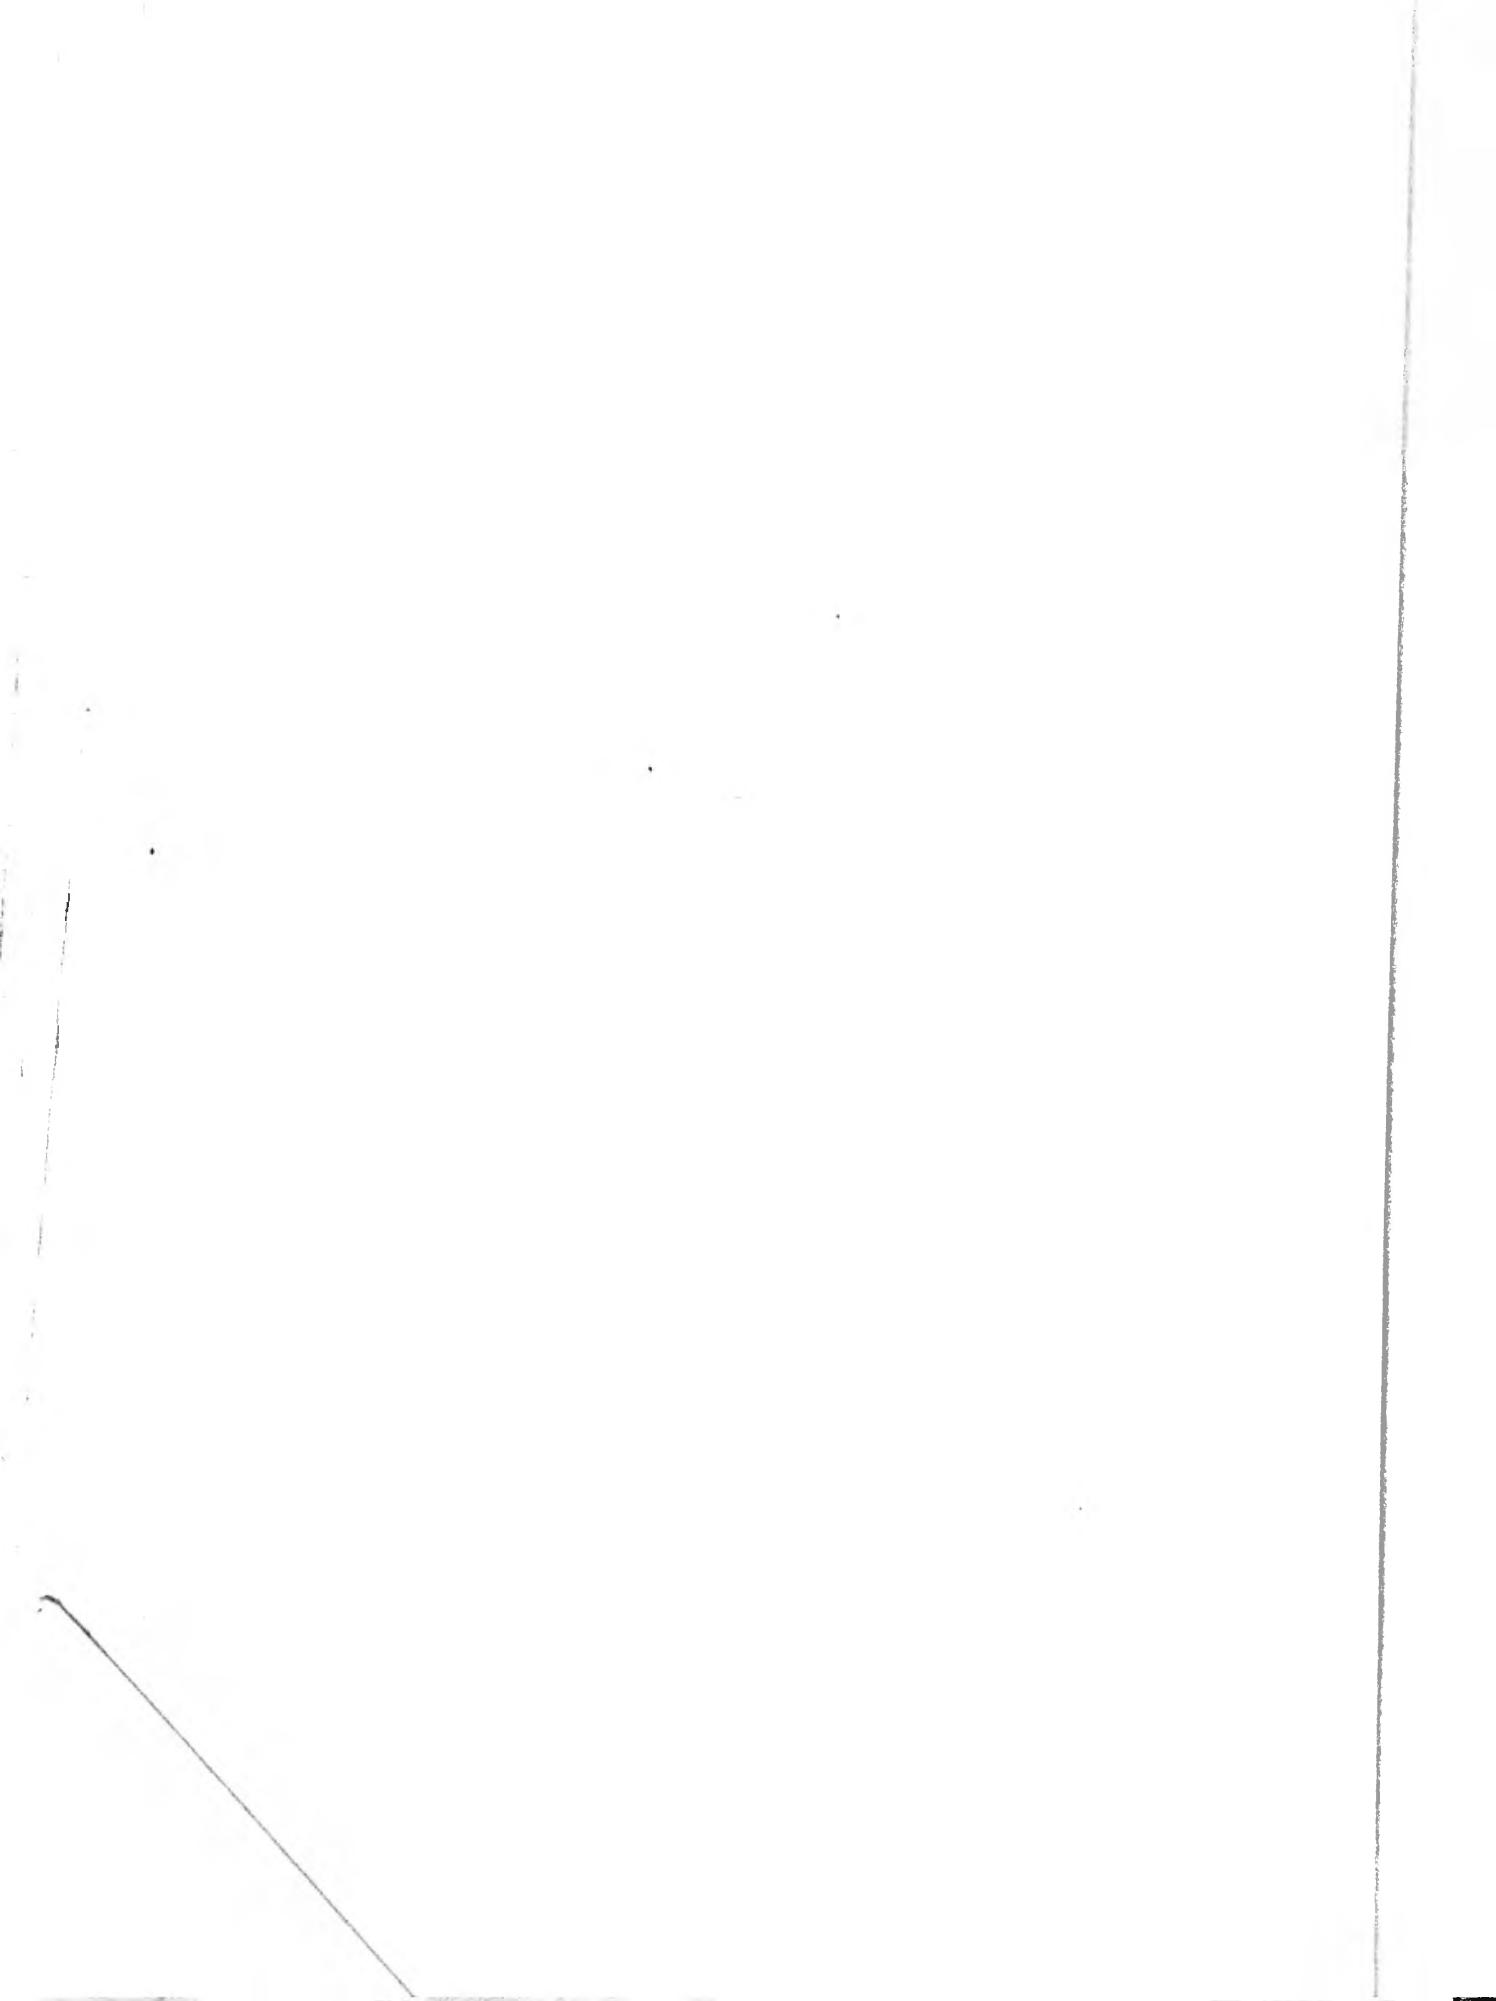

A Report of a Meeting of the above Sub-Committee
held on the 29th January, 1932, as follows was submitted :-

"Present: Councillor H.O. Syrott (Chairman) and
Councillors Briant, Pike and Wells.

1.- LOCAL GOVERNMENT ACT, 1929 - FIRST GENERAL REVIEW
OF DISTRICTS...

A letter, dated 2nd December, 1931, was submitted
from the Clerk of the Middlesex County Council, stating
that the County Council had now decided in connection
with the projected union of the Urban Districts of
Finchley and Friern Barnet that no proposal to this effect
was to be included in their Report to the Minister of
Health under Section 46 of the Local Government Act, 1929;
that apart, therefore, from any necessary rectification
of the boundaries of the District that might be found
necessary in the further stages of the review, the only
proposal affecting Finchley that would be included in
the Report would be that relating to the transfer of
parts of the Urban District of Hendon to the Urban District
of Finchley; that in the circumstances, the way was open
for consideration of the question of the rectification
of the boundaries of the three districts of Finchley,
Hornsey and Friern Barnet; that in view of the above
decision of the County Council it was understood that
the proposed exchange of land as between Hornsey and
Finchley in the neighbourhood of Bishops Avenue would
not proceed, and that the County Council would be glad
to receive confirmation of this view.

A further letter, dated 15th January, 1932, was
submitted from the Clerk of the Middlesex County Council,
stating that as the County Council were required by the
Local Government Act, 1929, to submit their report to the
Minister of Health by April next, it was desired that the
necessary observations and information in connection
with the adjustment of boundaries might be forthcoming
from the Local Authorities as soon as possible and asking
to be supplied with a 6" map illustrating this Council's
proposal in connection with the transfer of part of the
Urban District of Hendon to Finchley.

County Councillors Boggan and Newcome Wright kindly attended the Meeting and the whole matter was discussed with them and it appeared that they were very definitely of the opinion that the Council should proceed with their representations for the transfer to Finchley of the portion of the District of Hendon including the whole of the Hampstead Garden Suburb shown on the plan previously approved by the Council. The Clerk was, therefore, instructed to transmit to the County Council as soon as possible the 6" map indicating this Council's proposals with which the County Council had asked to be supplied;

RECOMMENDED that the action taken be approved.

The Sub-Committee then considered carefully the question of the rectification of the boundary with Friern Barnet and certain Members of that Council attended the Meeting. A plan was presented on behalf of Friern Barnet which it was stated had received the approval of the appropriate Committee. It was ultimately agreed that such plan be approved, subject as regards the area south of Oakleigh Road to any necessary adjustments being agreed between the two Authorities at a later date, either in area or by way of a financial character, it being understood (a) that as regards the area north of Oakleigh Road, the attention of the Middlesex County Council would be drawn to the suggested boundary line in view of the terms of paragraph 13 of Memorandum L.G.A.24 issued some time ago by the Ministry of Health and (b) that the Friern Barnet Council would withdraw the claim made by them originally to the area fronting the Great North Road and that this Council would likewise withdraw their claim to the small tongue of land situate in Hornsey immediately to the north of this Council's Sewage Disposal Works;

RECOMMENDED that the action taken be approved

So far as the adjustment of the boundary with Hornsey was concerned, the Clerk reported that an intimation had been received from the Town Clerk that a Sub-Committee had been appointed to confer with representatives of this Council on the matter, and instructions were given to the Clerk to endeavour to arrange a Conference with the Hornsey Sub-Committee for Friday, the 19th February, 1932, at 8.30 p.m.

2.- INCORPORATION.-

The Clerk submitted a communication, dated 22nd January, 1932, from the Clerk to the Privy Council, stating that the Lords of the Committee of Council had had under consideration this Council's representations with regard to the application for the grant of a Charter of Municipal Incorporation to Finchley, but that their Lordships were not able to depart from the decision to defer the matter until the review of County Districts under the Local Government Act, 1929, had taken place.

3.- OFFICE ACCOMMODATION.-

The question of the erection of a temporary structure for the housing of the Surveyor's Department on the vacant plot of land fronting Herdon Lane, adjoining the Council Offices, was considered further, and the Surveyor reported that he estimated that the cost of a steel-framed two storey building would be approximately £2,000.

The Sub-Committee ultimately decided to hold a Special Meeting so soon as the Surveyor was in a position to submit full details of the suggested Scheme. In the meantime, the Clerk was instructed to proceed with tentative negotiations in connection with the purchase by the Council of the land.

RECOMMENDED that the action taken be approved.

Arising therout, the Clerk reported that he had had an interview with an official of the Middlesex County Council, in company with the Clerk of the Friern Barnet Council, on the question of a main road forming a boundary, and that they were informed that in all probability the County Council would not object if they were satisfied that there was no satisfactory alternative.

He also suggested that the Friern Barnet Council be approached with a view of ascertaining whether they were prepared to make a contribution towards the lighting of the main road in the event of the scheme suggested being accepted by the Ministry of Health;

RECOMMENDED -

- (a) that the report be received and adopted by the Council;
- (b) that the Clerk be instructed to approach the Friern Barnet Council as indicated above.

2.- STAFF.-

(a) Temporary Reduction in Salaries.- It was reported that the terms of the Council's resolution herein had been communicated to the staff and a letter, dated 5th February, 1932 (circulated) was submitted from the Hon. ELECTRICITY COMMITTEE'S REPORT

19th February, 1952.

Part II.

Present: Councillor H. O. Syrett (Chairman), Councillors Brown, Focock and Fugsley, and Councillors Pateman and C.S. Syrett (non-members).

1.- ELECTRICITY WORKS - NEW SWITCH HOUSE FOR GRID SUPPLY -
(JOINT ELECTRICITY AUTHORITY).-

The Chief Electrical Engineer reported as follows :-

"The final details in connection with this matter have not yet been agreed between the various parties but a conference will be held at an early date at which the apportionment of the capital charges will be settled. I will submit the plan and details at your meeting. The total cost of the necessary works, including switch house, control room, lavatory accommodation, extension of high tension busbars, new switchgear, removal and modification of existing switchgear, diversion of high tension cables, other minor matters and contingencies will be about £6,200. reasonably.

The scheme provides ample space for extension switchgear and extension control gear, suitable accommodation for the grid telephone and our own substation telephone switchboard, also a much needed additional drawing office.

I understand that in general principle Finchley will be required to incur the necessary capital outlay but that the loan charges will be apportioned between the Joint Electricity Authority, the Central Electricity Board and Finchley in an equitable manner."

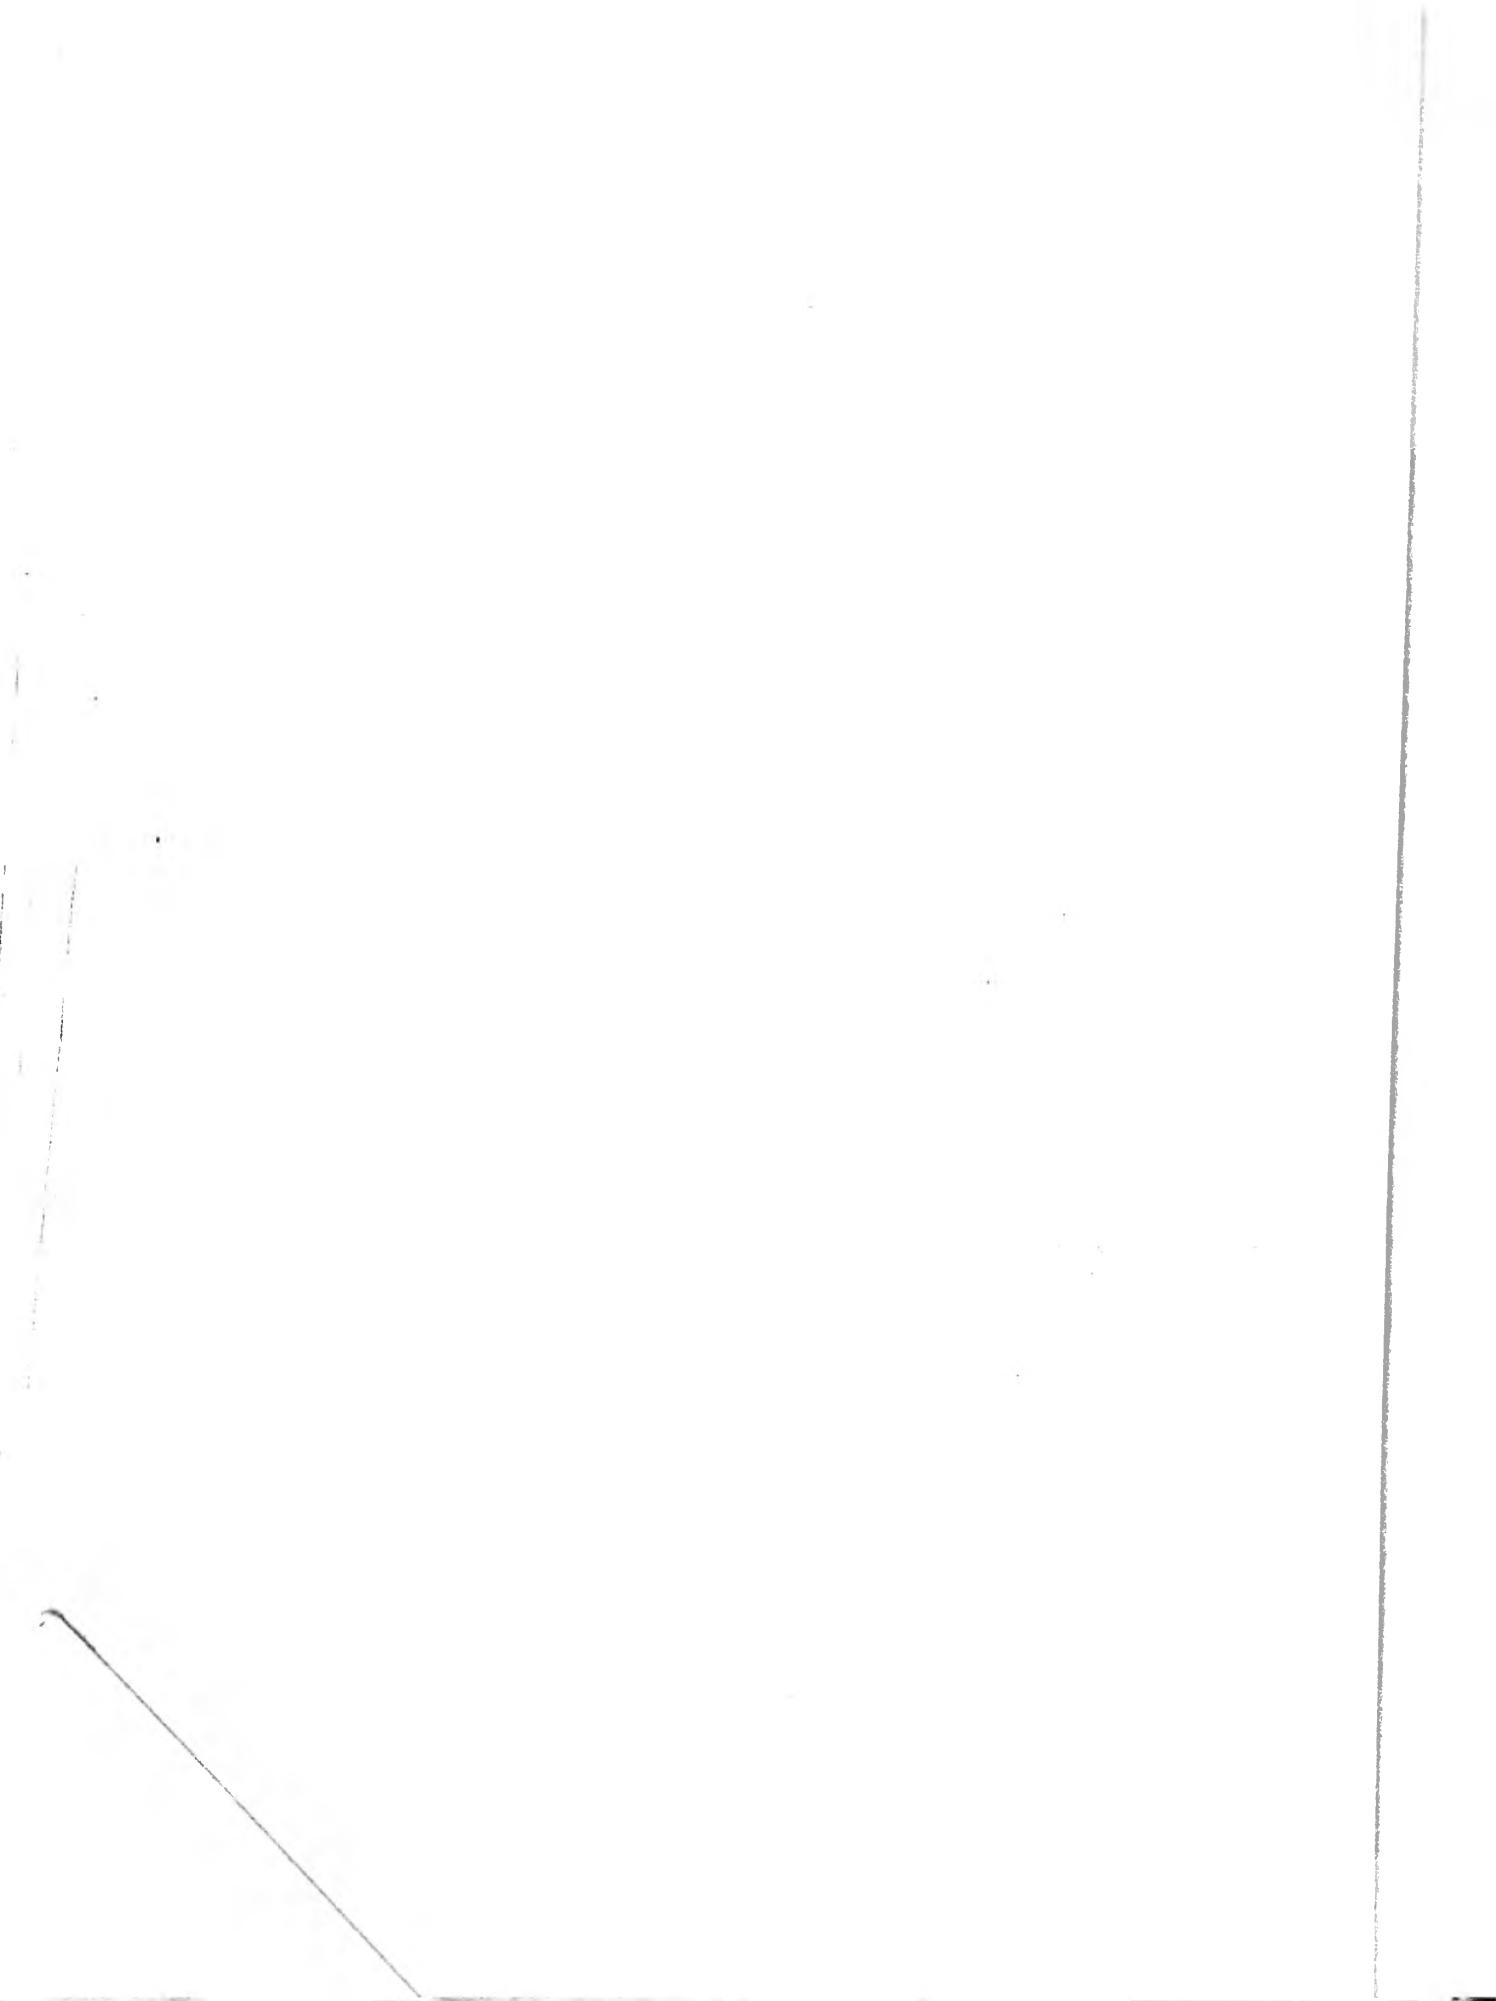

RECOMMENDED -

(a) that the scheme outlined above be approved by the Council;

(b) that application be made to the Electricity Commissioners for sanction to the borrowing by the Council of the sum of £6250 made up as follows :-

Estimated cost of works £6200

Loan charges	<u>50</u>

RECOMMENDED that the action taken be approved.

5.—Housing of the Working Classes.—A circular letter, dated 12th January, 1932, was submitted from the Ministry of Health, stating that Local Authorities should now endeavour to concentrate their efforts on the provision of a type of house which could be built at a low cost and be let at a rental within the means of the more poorly paid workers; that the type of house proposed was the three bedoomed non-parlour type of about 760 square feet which experience had shown to give adequate accommodation for the ordinary family with children; further, that houses of that type could, with due regard to economy in lay-out of land and construction of roads and sewers, be built in most parts of the country at an inclusive cost which would allow the rents to be fixed at 10s. Od. a week (inclusive of rates) or less.

The Surveyor reported as to the results obtained by various Suburban Authorities and expressed the opinion that it would not be practicable to erect houses in Finchley which could be let at the figure mentioned in the Ministry's circular.

Dear Sir,

Re Finchley Town Planning Scheme No. 1
Acquisition of Lyttelton Playing
Fields etc.

We have now had an opportunity of taking our clients' instructions on your letter of the 28th ultimo and there is one point which they think requires to be cleared up at once.

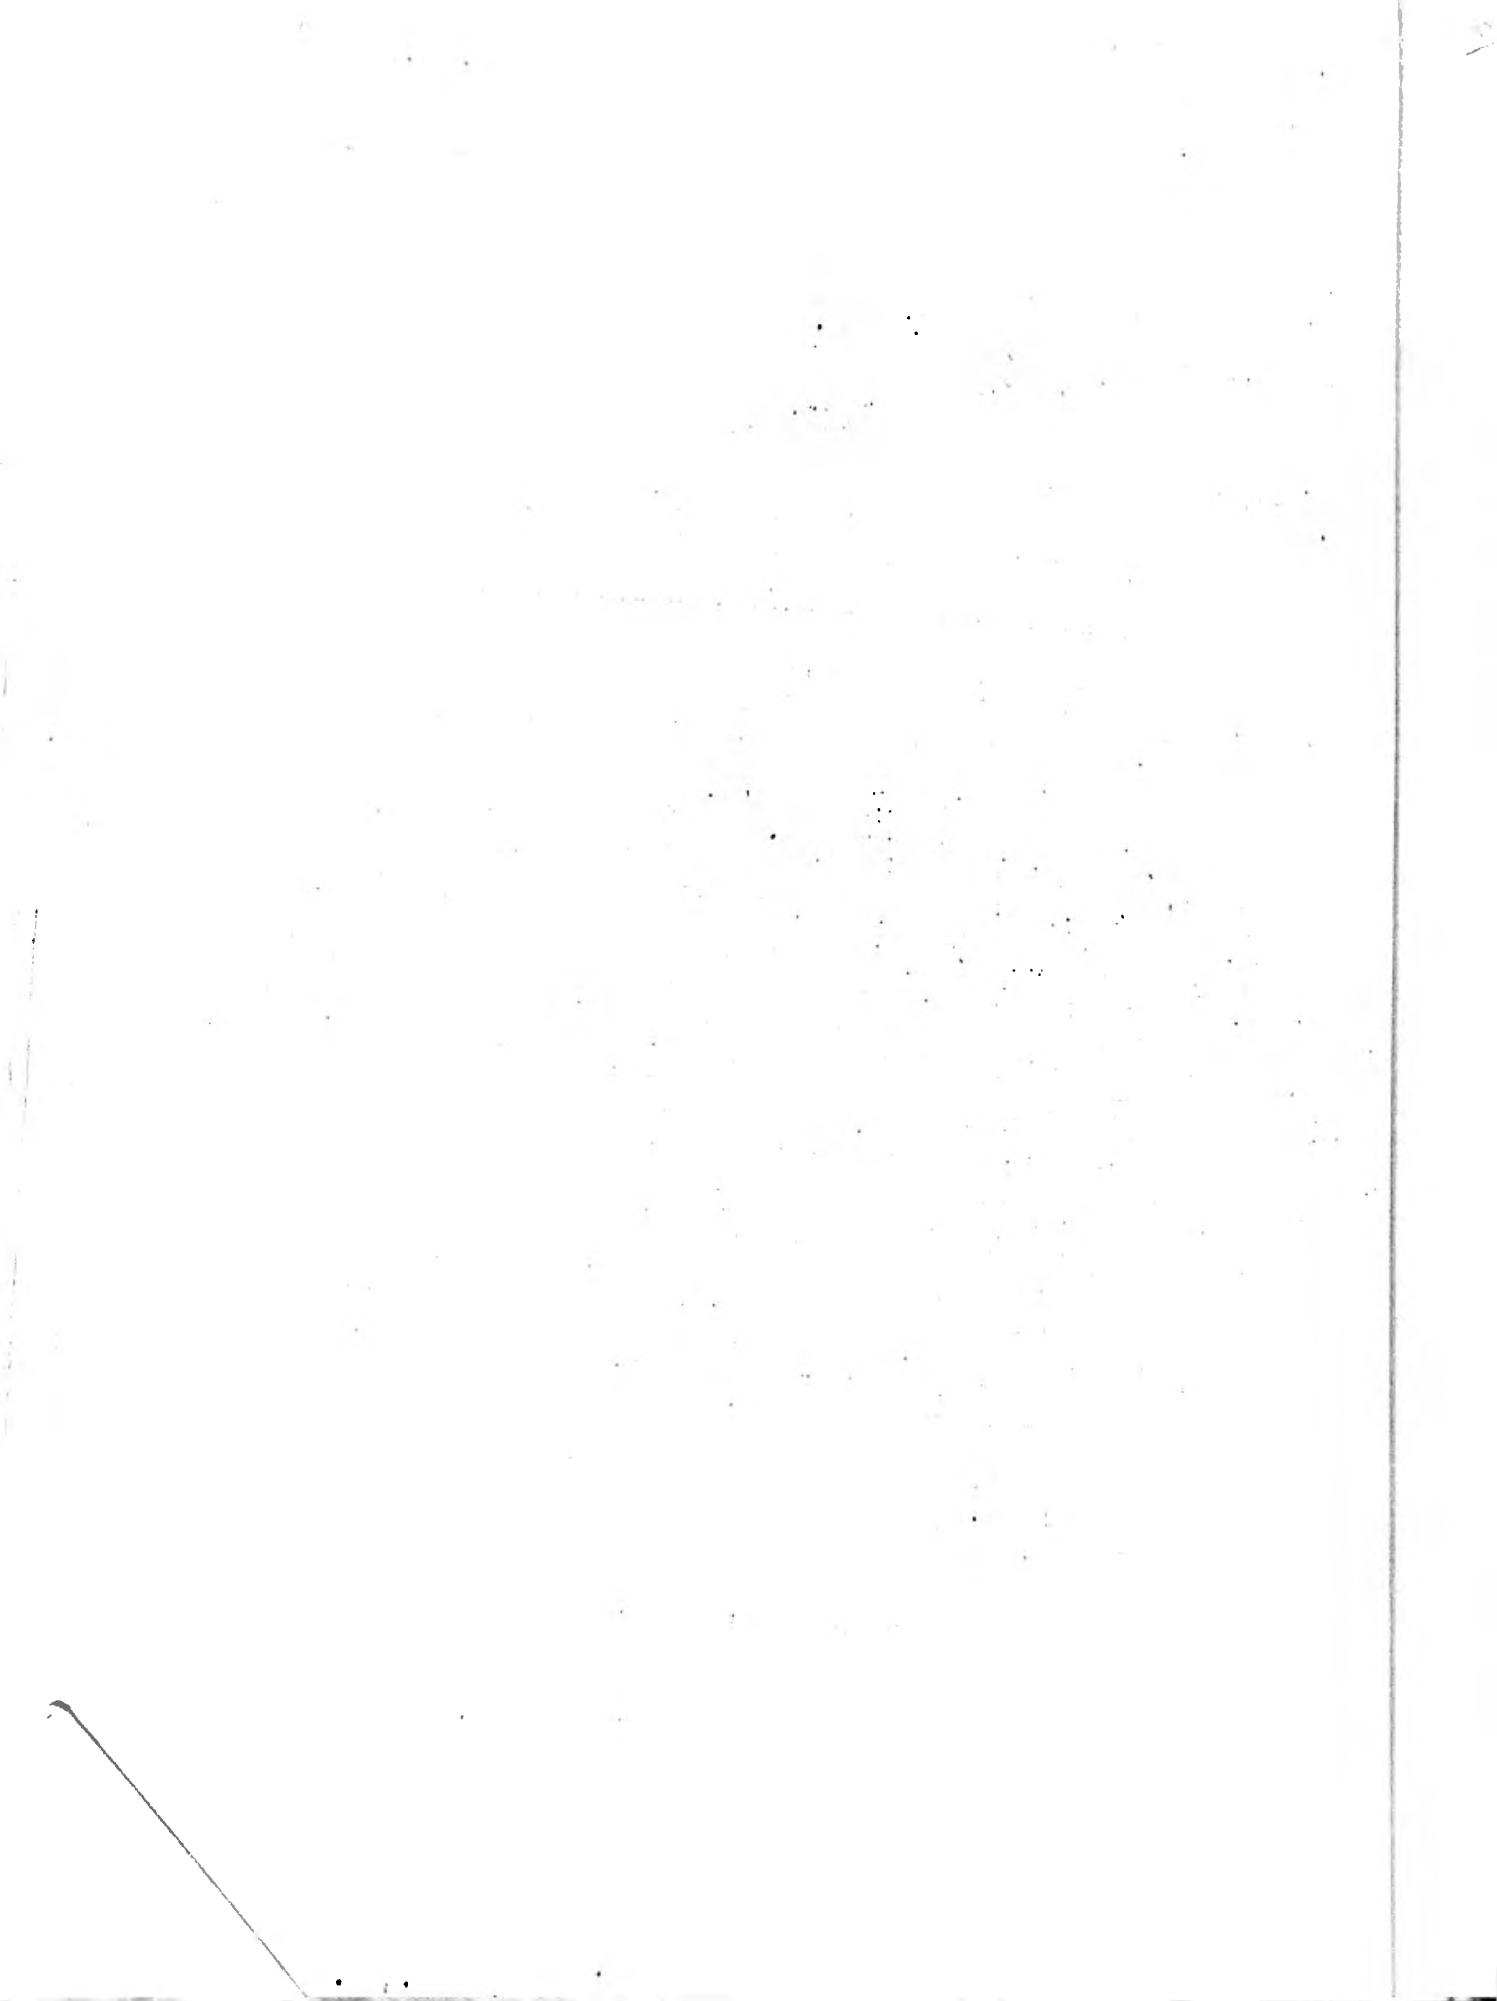

In our letter to you of the 4th December last, we dealt in paragraph 11 with the question of betterment and in your reply you extended the proposal so that no claim whatever can be made by the Ecclesiastical Commissioners and our clients for any compensation under the Town Planning Scheme or Town Planning Acts in respect of their remaining lands scheduled under the above Town Planning Scheme. Our clients think it will not be possible to expect the Ecclesiastical Commissioners to agree to any provision of that kind and they therefore suggest that it should be agreed between the Finchley Council and our clients that the Council should not be entitled to ask for any betterment in respect of the acquisition by the Council of the Lyttelton Playing Fields, the Green Walk, Big Wood and Little Wood or any of them and that the compensation our clients may require should be limited to the £23,000 to be paid for the land. This will leave the question if any, of betterment or compensation in respect of any other matter dealt with by the above Town Planning Scheme to be settled on its own merits.

On hearing from you that you approve the above suggestion we will prepare and submit to you draft Contract for your approval.

Yours faithfully,

(Sgd) CHALTON HUBBARD & CO.

H. Wood Barter, Esq.,
Clerk to the Finchley Urban District Council,

Finchley, N. 3.

Dear Sir ,

re:- Windsor Road. Open Space.
Proposed Electricity Sub-Station
and Shelter.

Referring to the previous correspondence in this matter, I observe that you are about to commence building operations, and now beg to give you notice that this is a distinct contravention of the restrictions which run with the land contained in the Conveyance to your Council, and dated 2nd May, 1923.

I also beg to point out that the building is also in contravention of your own Bye Laws. Under these circumstances I have no alternative but to pursue the matter with a view to making an application for an injunction to restrain you from proceeding with the building.

I very much regret to have to adopt this attitude, but it is purely a question of the protection of the amenities of my property at No. 45, Windsor Road. You will remember that last year you received complaints from inhabitants about the great nuisance created by the children using the swings erected, and youths congregating until a very late hour at night, using obscene language and making a great deal of noise, and other obscene actions being committed, and now that your proposal is to erect an Electricity Sub-Station with a Shelter, this nuisance is likely to be very much worse, and will make life in the immediate vicinity of the building almost unbearable. This is my only reason for endeavouring to obtain protection, and I feel sure you will appreciate that the spirit in which I am broaching the matter is not in any way vindictive.

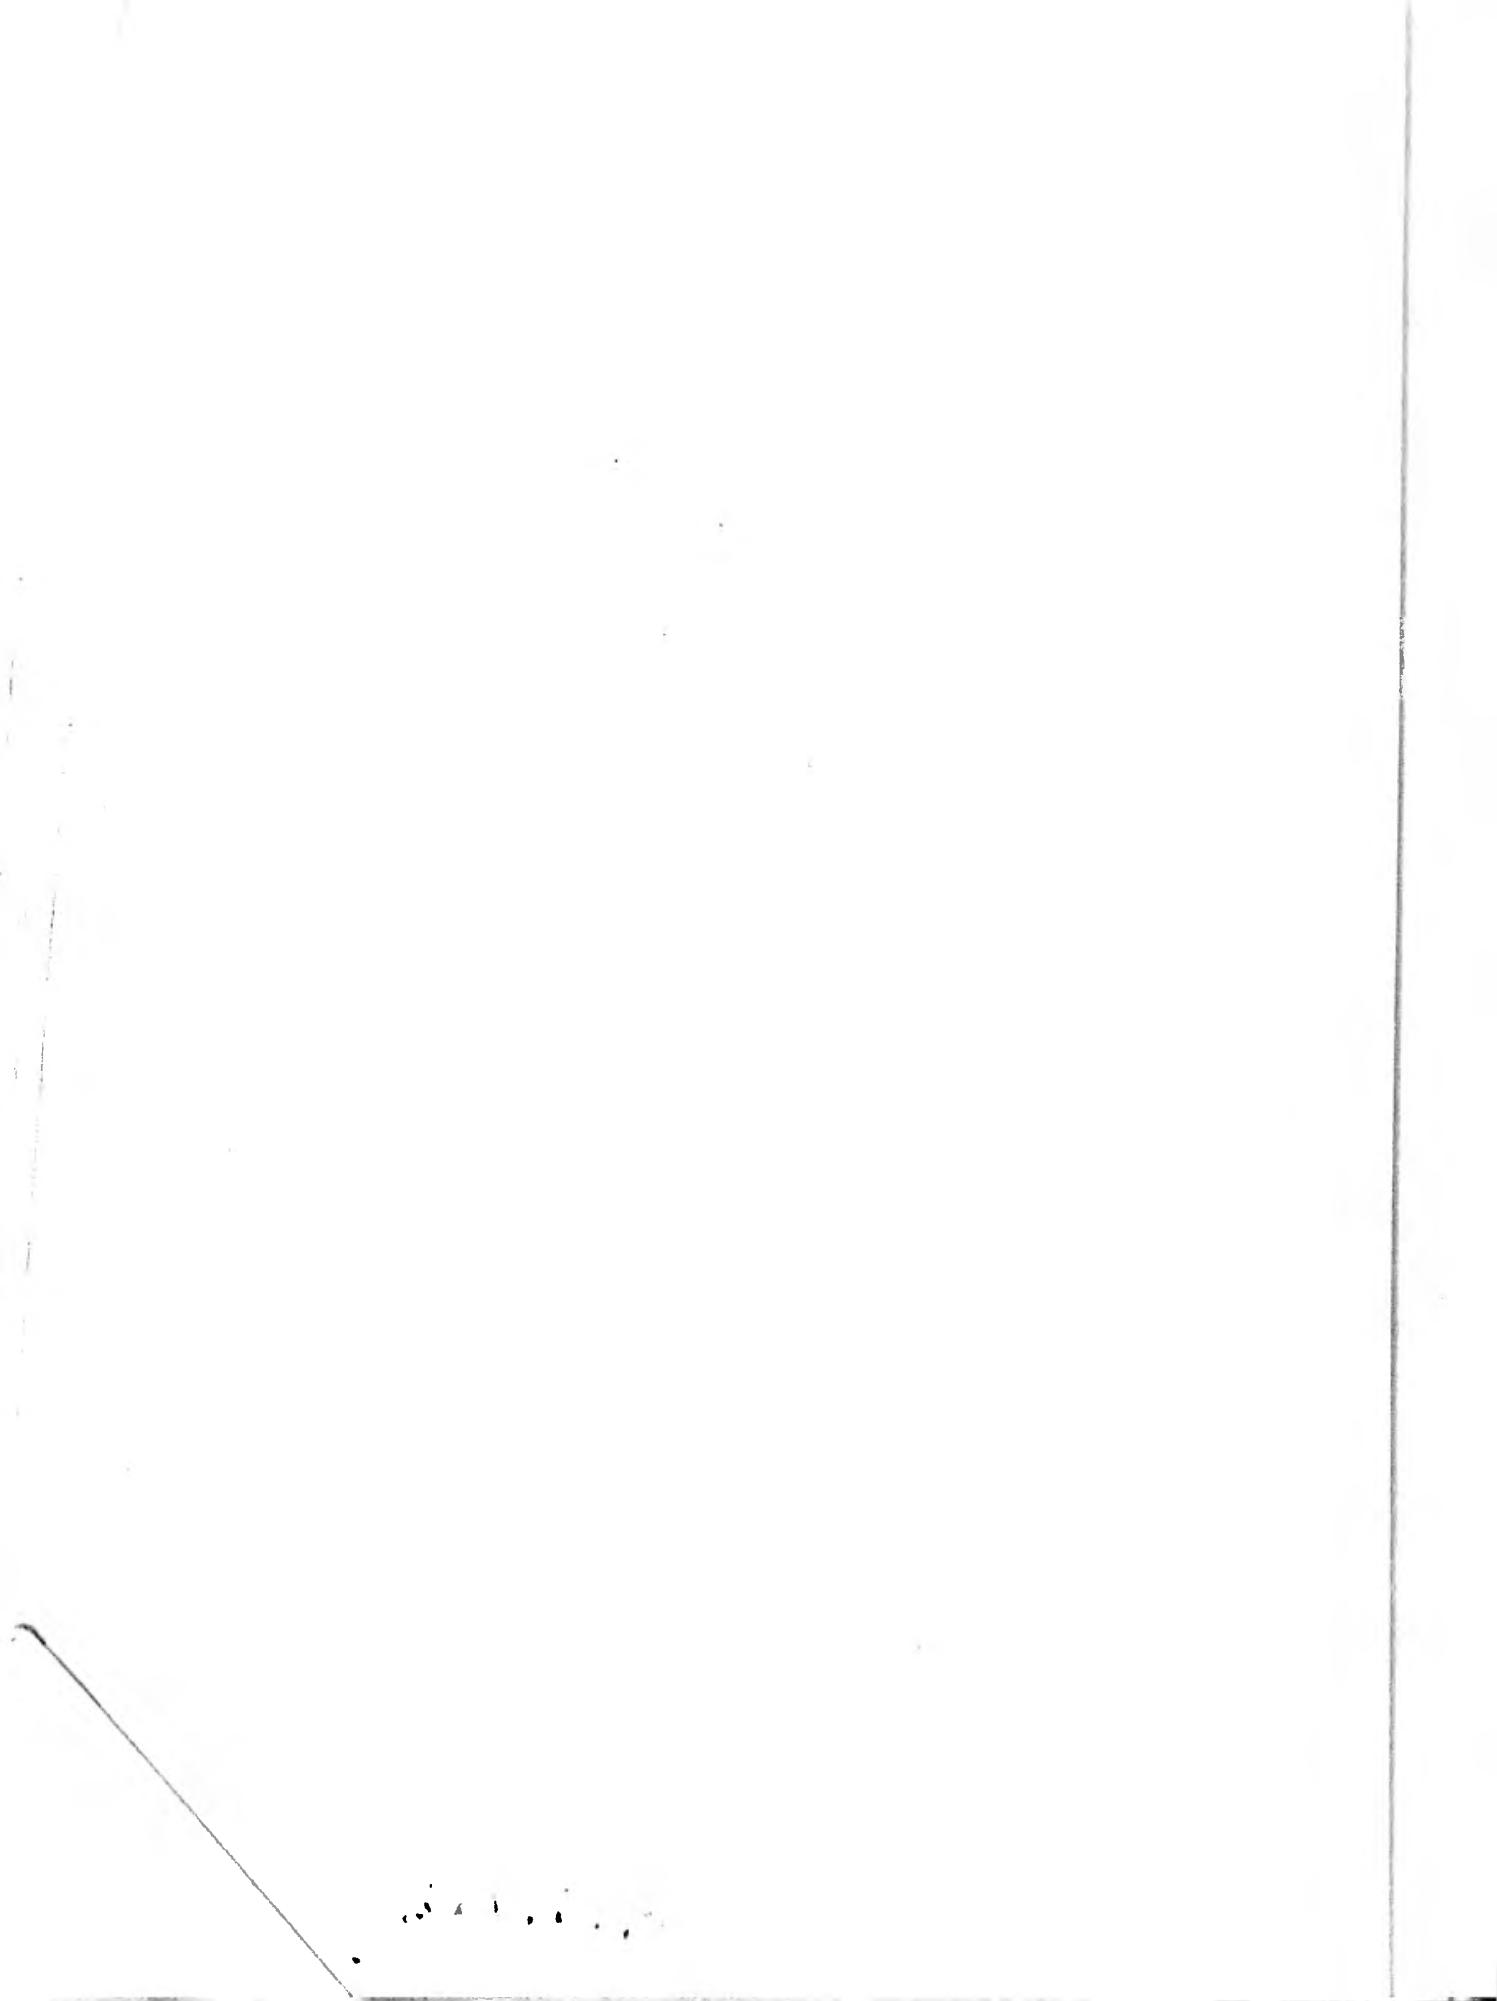

Yours faithfully,

(SGD) CHAS. HANDMAN.

1771 Local Government Act, 1929—Section 63—Hospital Accommodation for Infectious Disease.—The Committee considered a communication, dated 26th January, 1932, received from the Clerk of the Middlesex County Council in regard to the above, together with a report upon a conference convened by the Hornsey Council which had been held on the 25th February, 1932;

RECOMMENDED that the Middlesex County Council be informed that in the opinion of this Council the area suggested in their letter of the 26th January, 1932, is an unsuitable one, and that the Borough of Hornsey and the Urban Districts of Finchley, Wood Green, Friern Barnet and Southgate with the addition of South Mimms if considered desirable, would form a more suitable joint area for hospital purposes, and that such a combination, if finally approved, would be best secured by agreement between the authorities concerned, rather than by the formation of a Hospital Board.

1772 Public Baths—Squires Lane.—

(a) A communication, dated 11th February, 1932, was submitted from the Secretary of the Education Committee, forwarding copy of the Time Table for 1932, relating to the use of the swimming bath by scholars from the elementary schools;

RECOMMENDED that such time table be approved.

(b) A letter, dated 24th February, 1932, was submitted from the British Automatic Co., Ltd., intimating that owing to the low takings of their weighing machine at the Baths they were not justified in continuing the arrangement on the present rental, namely £2 2s. 0d. per annum, and giving six months' notice of their intention to determine the agreement. They stated that they were agreeable to continue the installation of the machine on its present site and under the existing conditions either on the basis of a rental calculated on results or, if preferred, at a rental of £1 1s. 0d. per annum;

RECOMMENDED—

(a) that as from the 29th September, 1932, the rental in question be reduced to £1 1s. 0d. per annum; and

OFFICE OF THE CLERK OF THE COUNTY COUNCIL.

GUILDHALL, WESTMINSTER,

S.W. 1.

26th January, 1932.

Dear Sir,

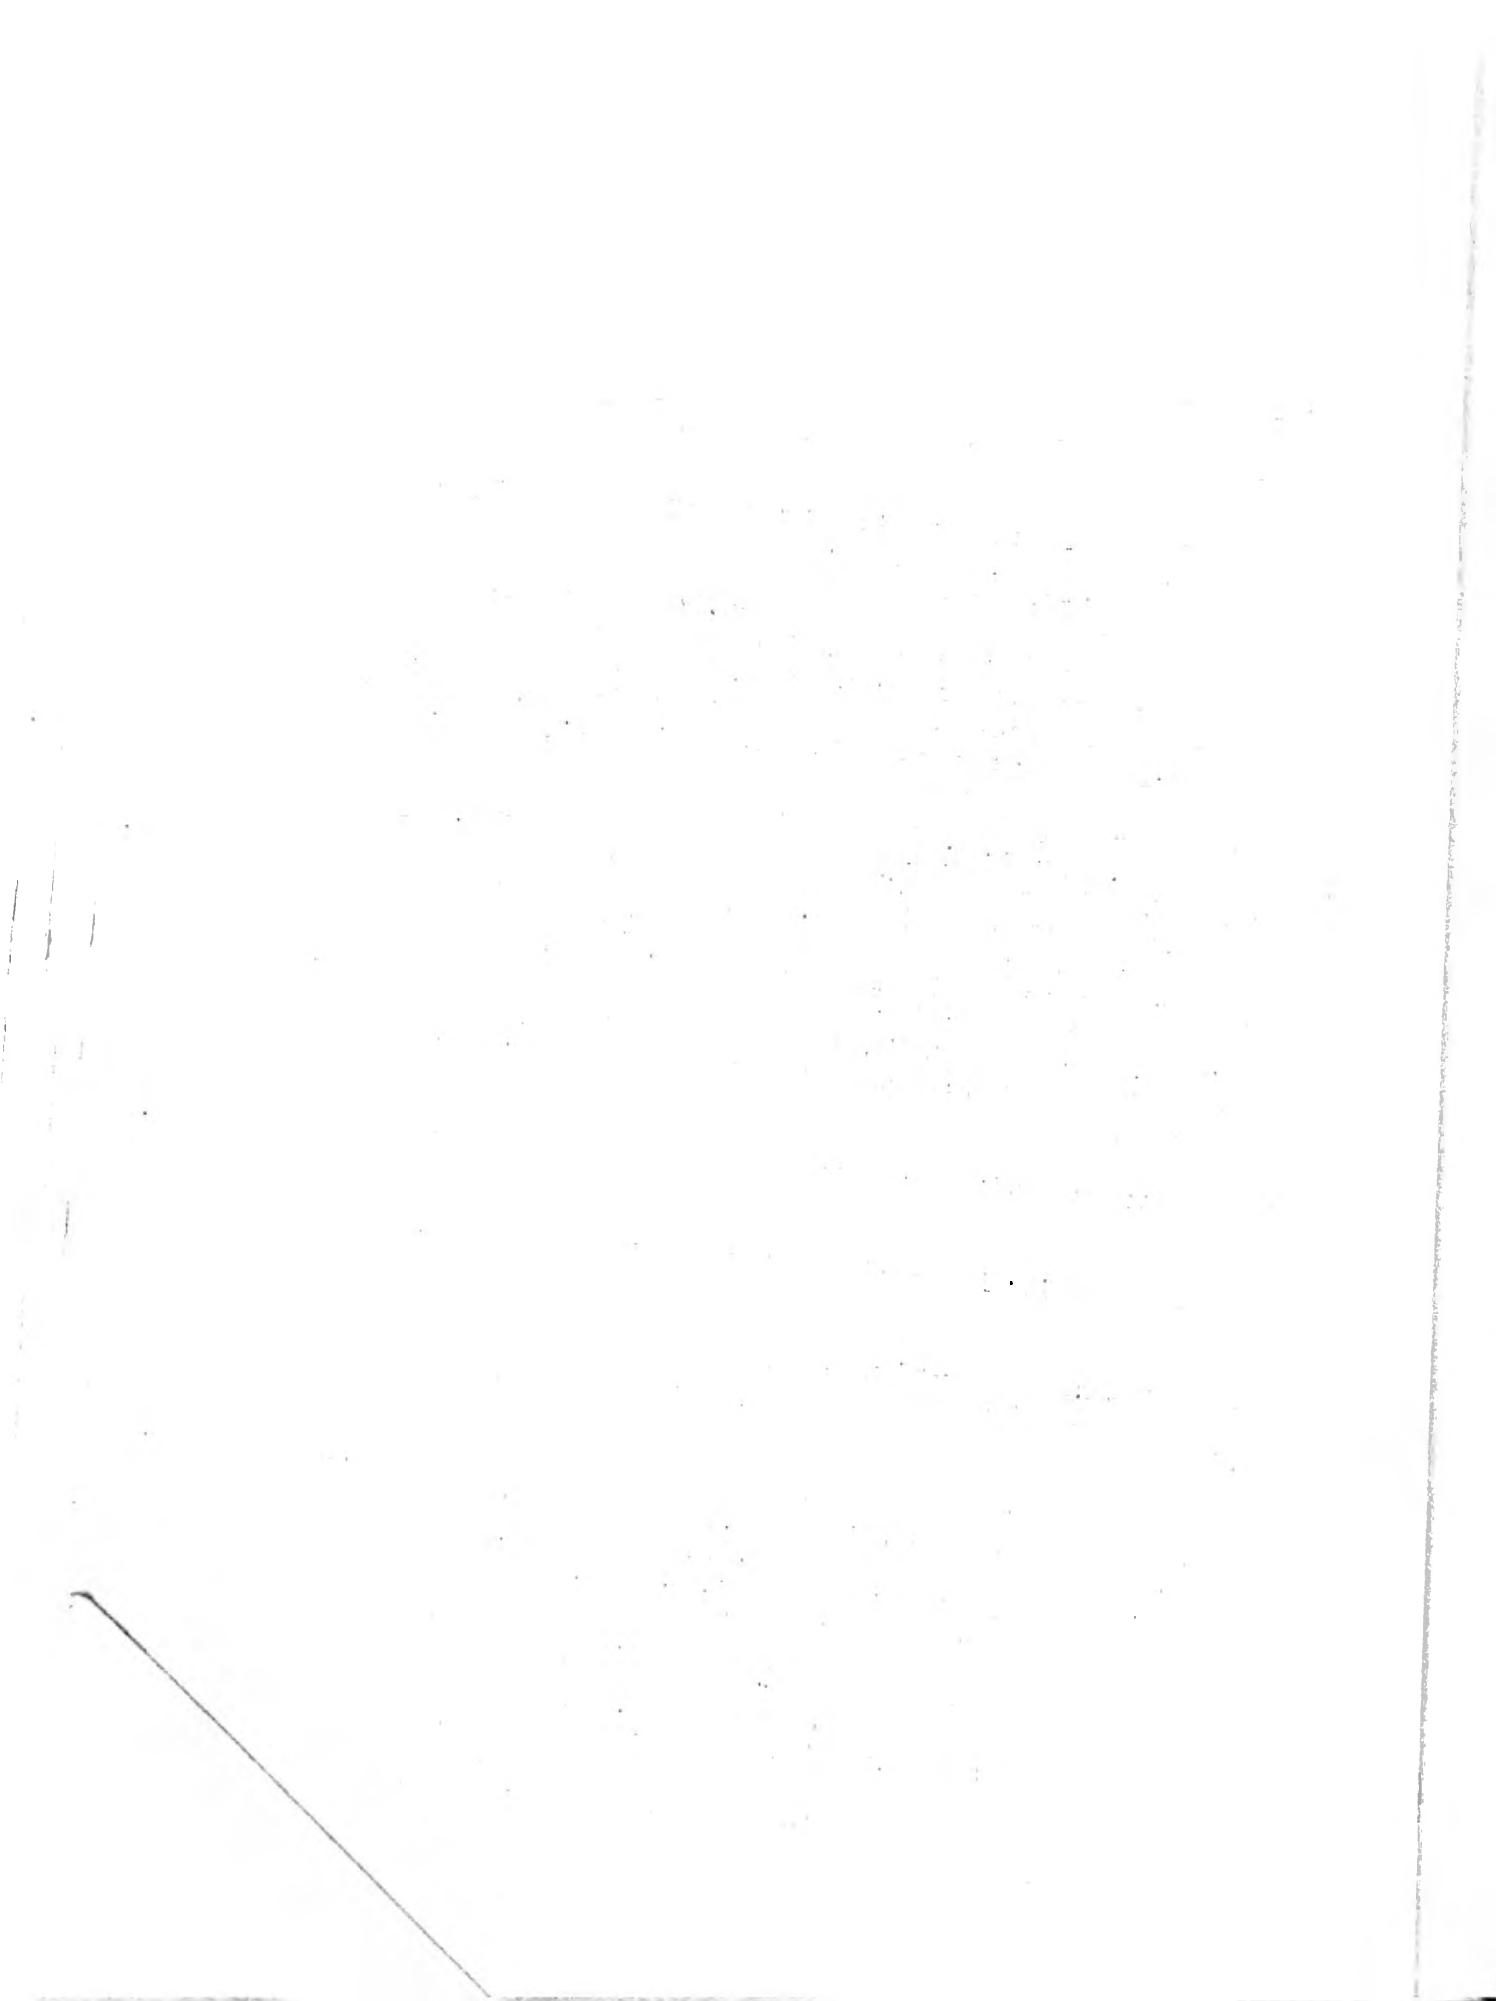

LOCAL GOVERNMENT ACT, 1929 - SECTION 63.

Hospital Accommodation for Infectious Disease.

With reference to my letter of the 21st October last, I have to inform you that replies thereto have been received from all the Local Authorities and Hospital Boards and Committees in the County and the principle of "the creation of a limited number of hospital areas each under unified management, with a view in the future to a gradual reduction in the number of isolation hospitals in the County" has been accepted by the large majority of the Councils, Boards and Committees concerned.

In view of these replies my Committee is desirous of ascertaining to what extent it is possible and practicable to apply the principle to the needs of, and the conditions obtaining in, the County. In Memorandum L.G.A. 40, issued by the Ministry of Health in September, 1930, are set out details of the various ways in which the provision of isolation hospital accommodation may be made and these have been the subject of careful consideration by my Committee. I am now instructed to invite the Authorities concerned to express their opinions upon a scheme on the following basis:-

1. That the County be divided into a number of hospital areas.
2. That a Joint Hospital Board be formed for each such area.
3. That all existing isolation hospitals in each area be valued and acquired by the appropriate Joint Hospital Board.
4. That each Board exercise control over all the isolation hospitals in its area, and decide what place each shall occupy in the provision of isolation accommodation for that area, e.g. a Joint Hospital Board might decide that one or two hospitals in its area in future should be used for the reception of all acute cases of the ordinary notifiable infectious diseases from the whole of its area and that other hospitals should be utilised for the reception of convalescent cases or for the accommodation of some special conditions such as complicated cases of measles, etc.

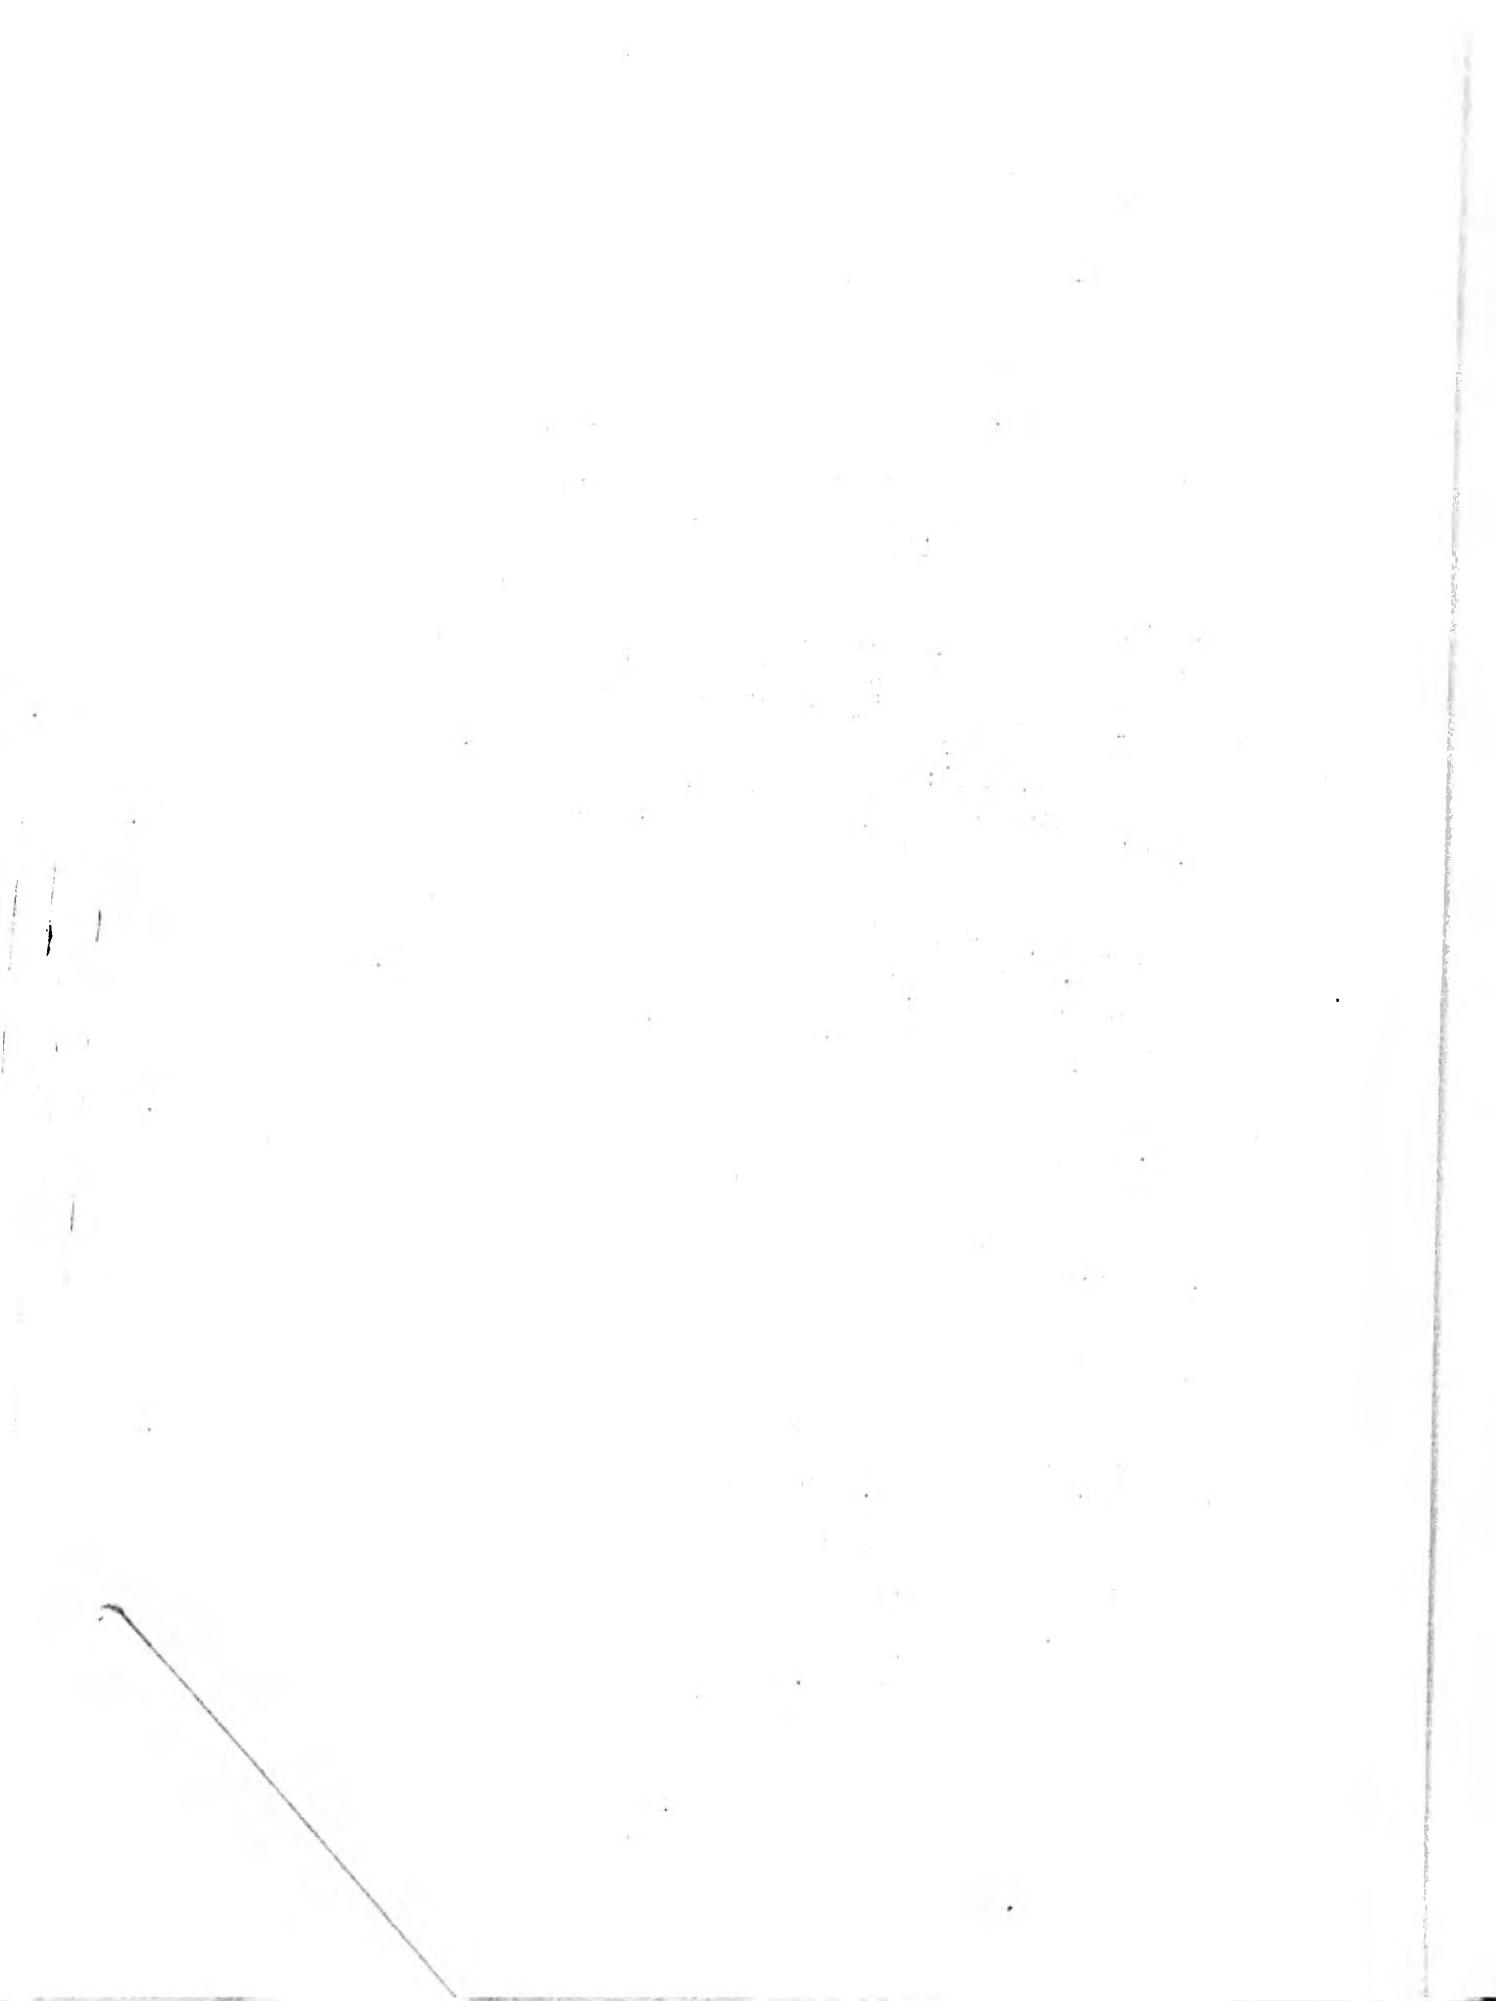

"whilst the present financial conditions obtain, the building of extensive additions to any hospital, involving as it would a large capital expenditure, is hardly practicable and the immediate disuse and closure of any existing hospitals cannot, therefore, be expected. The above proposals, however, would enable the Hospital Authority in any area to vary the staffing of the hospitals under its control to meet the actual use to which any individual hospital is to be put, and thus promote economy and increased efficiency, whilst the result of the creation of enlarged hospital areas, in time would lead to the gradual disuse of the smaller and less suitable institutions.

In order that the above proposals may be thoroughly discussed and considered by the Authorities concerned, my Committee suggest that a series of conferences should be held between these Authorities, and for this purpose invite the bodies to avail themselves of accommodation at the Middlesex Guildhall.

For convenience it is suggested that for conference purposes the authorities in the County be divided into four groups and that each group confer together as a separate unit. It must be understood that the County Council does not attach any significance to the actual composition of the groups but suggests the above course as being most likely to lead to a degree of agreement between adjoining districts. It appears to the County Council that a convenient form of grouping would be as follows:-

1. Northern Area. - The Councils of the Borough of Hornsey, the Urban Districts of Edmonton, Enfield, Finchley, Friern Barnet, Southgate, Tottenham, Wood Green, and the Rural District of South Mimms; the Enfield and Edmonton Joint Hospital Board and the Hornsey, Finchley and Wood Green Isolation Hospital Committee.
2. North Central Area - The Councils of the Urban Districts of Harrow, Hendon, Kingsbury, Wealdstone, Wembley, Willesden and the Rural District of Hendon.
3. South Central Area - The Councils of the Boroughs of Acton and Ealing and the Urban Districts of Brentford and Chiswick, Hayes and Harlington, Ruislip-Northwood, Southall-Norwood, Uxbridge, Yiewsley and West Drayton; the Chiswick and Ealing Hospitals Committee and the Uxbridge Joint Hospital Board.
4. Southern Area - The Councils of the Borough of Twickenham, and the Urban Districts of Feltham, Hampton, Hampton Wick, Heston and Isleworth, Staines, Sunbury, Teddington; the Borough of Richmond and Heston & Isleworth Urban District Joint Isolation Hospital Committee and the Staines Joint Hospital Committee.

It is requested that each group give consideration to the above proposals and, if possible, report to the County Council the composition of the hospital area or areas thought by them to be most desirable. For example, any one of the above groups might

decide that one or two Hospital Boards should be constituted to meet the needs of their districts, and might also decide that one or more of the districts included in the Conference Area could best be dealt with if transferred to one of the other Conference Areas set out above.

The County Council places no restriction upon the suggestions which may be put forward, but is anxious that the details of the scheme finally submitted by the County Council to the Ministry of Health in accordance with the terms of the Local Government Act, so far as is possible, should meet the desires of the majority of the Local Authorities in the County.

Whatever decision as to the composition of hospital areas in the County is reached, the County Council attach the utmost importance to arrangements being included in the County Council's scheme which will ensure accommodation at any hospital being readily available, in case of need, for the use of residents in any district in Middlesex.

If your Authority agree to the conferences at the Guildhall as suggested. I will be prepared to act as convening officer in order to facilitate the matter.

The County Council would of course not take/part in the conferences, beyond the Chairman's welcoming the representatives to the Guildhall.

If you will suggest several dates, preferably within the next four weeks, which would be convenient to your Authority, I will endeavour to arrange a convenient date for each area, and send out the notices for you.

If, however, either of the Groups would prefer to meet at a local centre as being more convenient, perhaps you will consult with the Clerks of the other Authorities with a view to the initiative being taken by one of them.

I shall be glad to hear from you at an early date.

Yours faithfully,

ERNEST S.W. HART,

Clerk of the County Council.

1875 Creighton Avenue Sub-Station.—At the previous meeting of the Committee a discussion took place with regard to the question of the payment of rent in connection with this sub-station site. The Clerk reported that arising thereout, he had, in company with the Chief Electrical Engineer, had a conference with the District Auditor; that the matter had subsequently been taken up with the Board of Education, and that a communication, dated 25th February, 1932, had been received to the effect that the Board had no further requirements in connection with the appropriation of the land, to which they gave their consent by Order of 20th October, 1931, and that they noted that no further terms and conditions had been required beyond the provision of the verandah for the use of school children. In these circumstances, it was

RECOMMENDED that no further action be taken in the matter.

1876 Insurance of Workmen—Accident—H. Howard.—It was reported that the above employee had since last meeting met with an accident, and that the matter had been dealt with.

ELECTRICITY (*continued*).

1877 Electricity Charges—Irrecoverable Arrears.—

2.- TOWN PLANNING SCHEME NO. 2 - MEMORANDUM.-

The Clerk submitted the undermentioned report arising out of the Conference between the Town Planning Sub-Committee and Mr. Phillips of the Ministry of Health on the 2nd February, 1932 :-

Paragraph 3 of Memorandum (Building Lines in Shopping Zones).-

Mr. Phillips was informed that the Council were of opinion that building lines of 20 ft. on roads over 40 ft. in width and 15 ft. on roads 40 ft. or under in width should be retained for dwellinghouses but that a right should be given to owners to build up to 10 ft. where shops, business premises, etc., were erected. Mr. Phillips intimated that he was prepared to recommend the Minister to agree to this.

Paragraph 12 of Memorandum.-

Arising out of objection of London & North Eastern Railway Company relative to scheduling of land at East Finchley Station, Mr. Phillips was strongly of opinion that the whole of the land should be re-scheduled for industrial purposes and the Sub-Committee eventually agreed to recommend that this should be done.

Paragraph 18 of Memorandum.-

As regards the open space nod.3 on the Map, i.e. Holloway County School Playing Fields, Mr. Phillips agreed that this could be shown on the Map by a special notation but only if the Council obtained from the London County Council an option on the land.

Paragraph 19 of Memorandum,-

As regards the open spaces nod. 4 and 5 on the Map, Christ's College Playing Fields and the Finchley County School, it was mentioned to Mr. Phillips that the Middlesex County Council were being approached with a view to their giving the Council the first option of purchasing the same.

Paragraph 20 of Memorandum.-

As respects the open space nod. 7 on the Map, Mr. Phillips suggested that as the reservation had not been agreed between the Islington and St. Pancras Metropolitan Borough Councils it might be considered advisable to delete the land from the Scheme. Sub-Committee intimated that the instructions of the Council would be obtained.

Paragraph 38 of Memorandum (Petrol Filling Station).-

Agreement was reached that the model clause B submitted by the Ministry, relative to petrol filling stations should be included in the Council's schemes. Mr. Phillips stated that the Minister would endeavour to have a provision incorporated therein dealing with costs arising out of delay by the County Council in matters submitted to them.

Paragraph 39 of Memorandum (Mr. Upjohn, Chandos Road).-

In connection with the objection of Mr. Upjohn, it was agreed that the building line should be deleted from the Map but that otherwise the provisions of the scheme should stand. Interim Development Order to be deleted from the fourth Schedule to the Scheme.

Paragraph 40 of Memorandum (Mr. Arden).-

Agreement reached that the building line should be deleted from the Map, and that the Council should rely solely upon the agreements and conveyances; further that where any land was not covered by any such agreements or conveyances, the Council should exercise their powers of prescribing a building line under the Scheme.

1.- ELECTRICITY WORKS - NEW SWITCH HOUSE FOR GRID SUPPLY
(JOINT ELECTRICITY AUTHORITY).-

With further reference to this matter, the Chief Electrical Engineer reported that he had attended a joint conference between the Joint Electricity Authority, the Central Electricity Board and the Board's consulting engineers at which there was general approval of the proposed works; that the apportionment of the capital charges was discussed at considerable length and that a general detailed apportionment was arrived at, subject to final adjustment. He also intimated that he would report further on the matter as soon as the figures had been finally agreed.

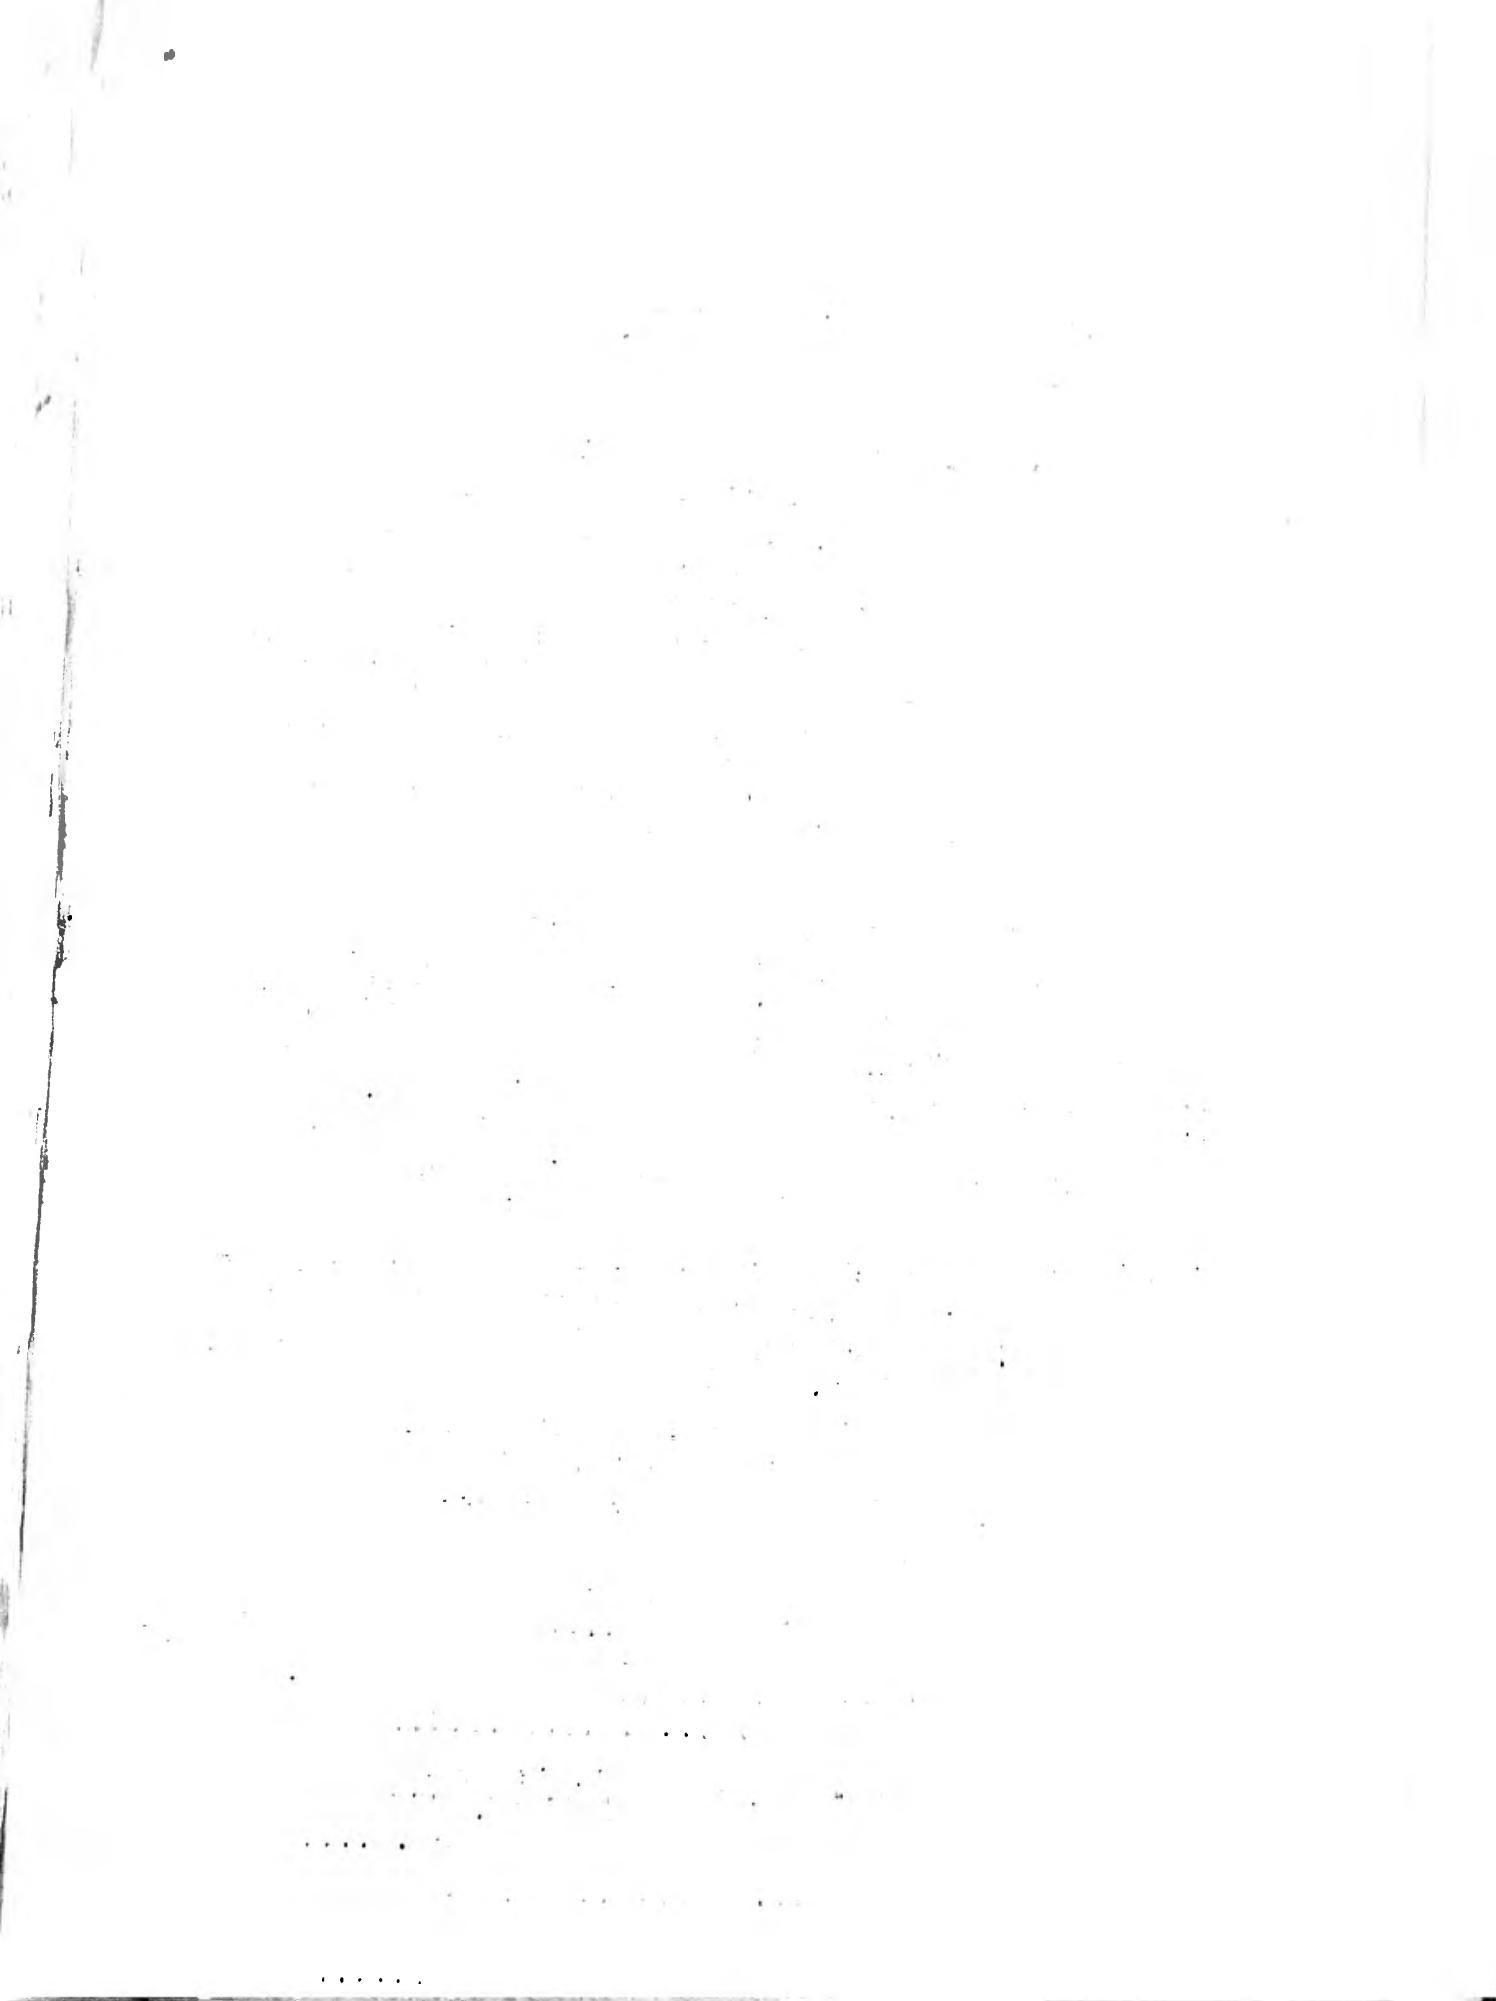

2.- SUB-STATION AND FEEDER EXTENSIONS, 1932.-

(a) The Committee considered a report, dated 16th March, 1932 (circulated) by the Chief Electrical Engineer hereon, and after full discussion it was

RECOMMENDED -

Rectifying plant, transformers, induction regulators, auto- matic control gear, etc	£ 5,360

FINANCE COMMITTEE'S REPORT

16th March, 1932.

Part II.

Present: Councillor Sommerfield (Chairman), Councillor Langlands (Vice-Chairman), Councillors Briant, Patey, C. S. Syrett, H.O. Syrett and Wilmot, and Councillors Brown and Wells (non-members).

1.- SMALL DWELLINGS ACQUISITION ACTS.-

(a) Advances Nos. 73 and 741 - Arrears.- The Accountant reported upon the present position of the above advances;

RECOMMENDED -

- (1) that the further consideration of advance No. 73 be deferred until the meeting of the Council and that the Accountant be instructed to report further thereat;
- (2) that the resolution passed by the Council on the 30th December, 1931 and contained in Minute No. 1386, so far as it relates to advance No. 741, be rescinded.

(b) Advances Nos. 497 and 695.- It was reported that at the auction sale on the 15th March, 1932, the mortgaged premises in connection with advance No. 497 were not sold, but that several enquiries had been made which it was hoped would materialise into definite offers.

It was further reported that the sale in connection with advance No. 695 had been fixed for the 5th April, 1932, and that in both cases the Auctioneers had stipulated that in the event of non-sale a fee of £2.2.0. should be allowed;

RECOMMENDED that this be agreed.

2.- SERVICE OF RATE SUMMONSES.-

The Clerk reported as follows :-

"Owing to the large number of rate defaulters in the last half year considerable difficulty has been experienced in serving all the summonses between the date of application and the date of hearing before the Justices, and in view of possible increases in the number of defaulters I have made enquiries of the Officials at Highgate Court as to whether the Court would consider the appointment by this Council of

al
th

a temporary parish constable. I was informed that the Justices would not look upon such an appointment with favour, and it was suggested that the difficulty could be overcome by taking the rate summonses in two batches, the first batch containing so far as possible those people who had been summoned before, i.e. in earlier years and the second batch the remainder. This practice is, I understand, pursued by one or two other authorities coming under the jurisdiction of the Highgate Court. It will be realised that if this course is adopted, an earlier application for the issue of the summonses will probably have to be made than is done at present."

The matter was carefully considered by the Committee and the opinion was expressed that it was very desirable that the suggestion above set forth should be adopted for the future;

RECOMMENDED that this be agreed and that instructions be given to the Officers concerned to arrange accordingly.

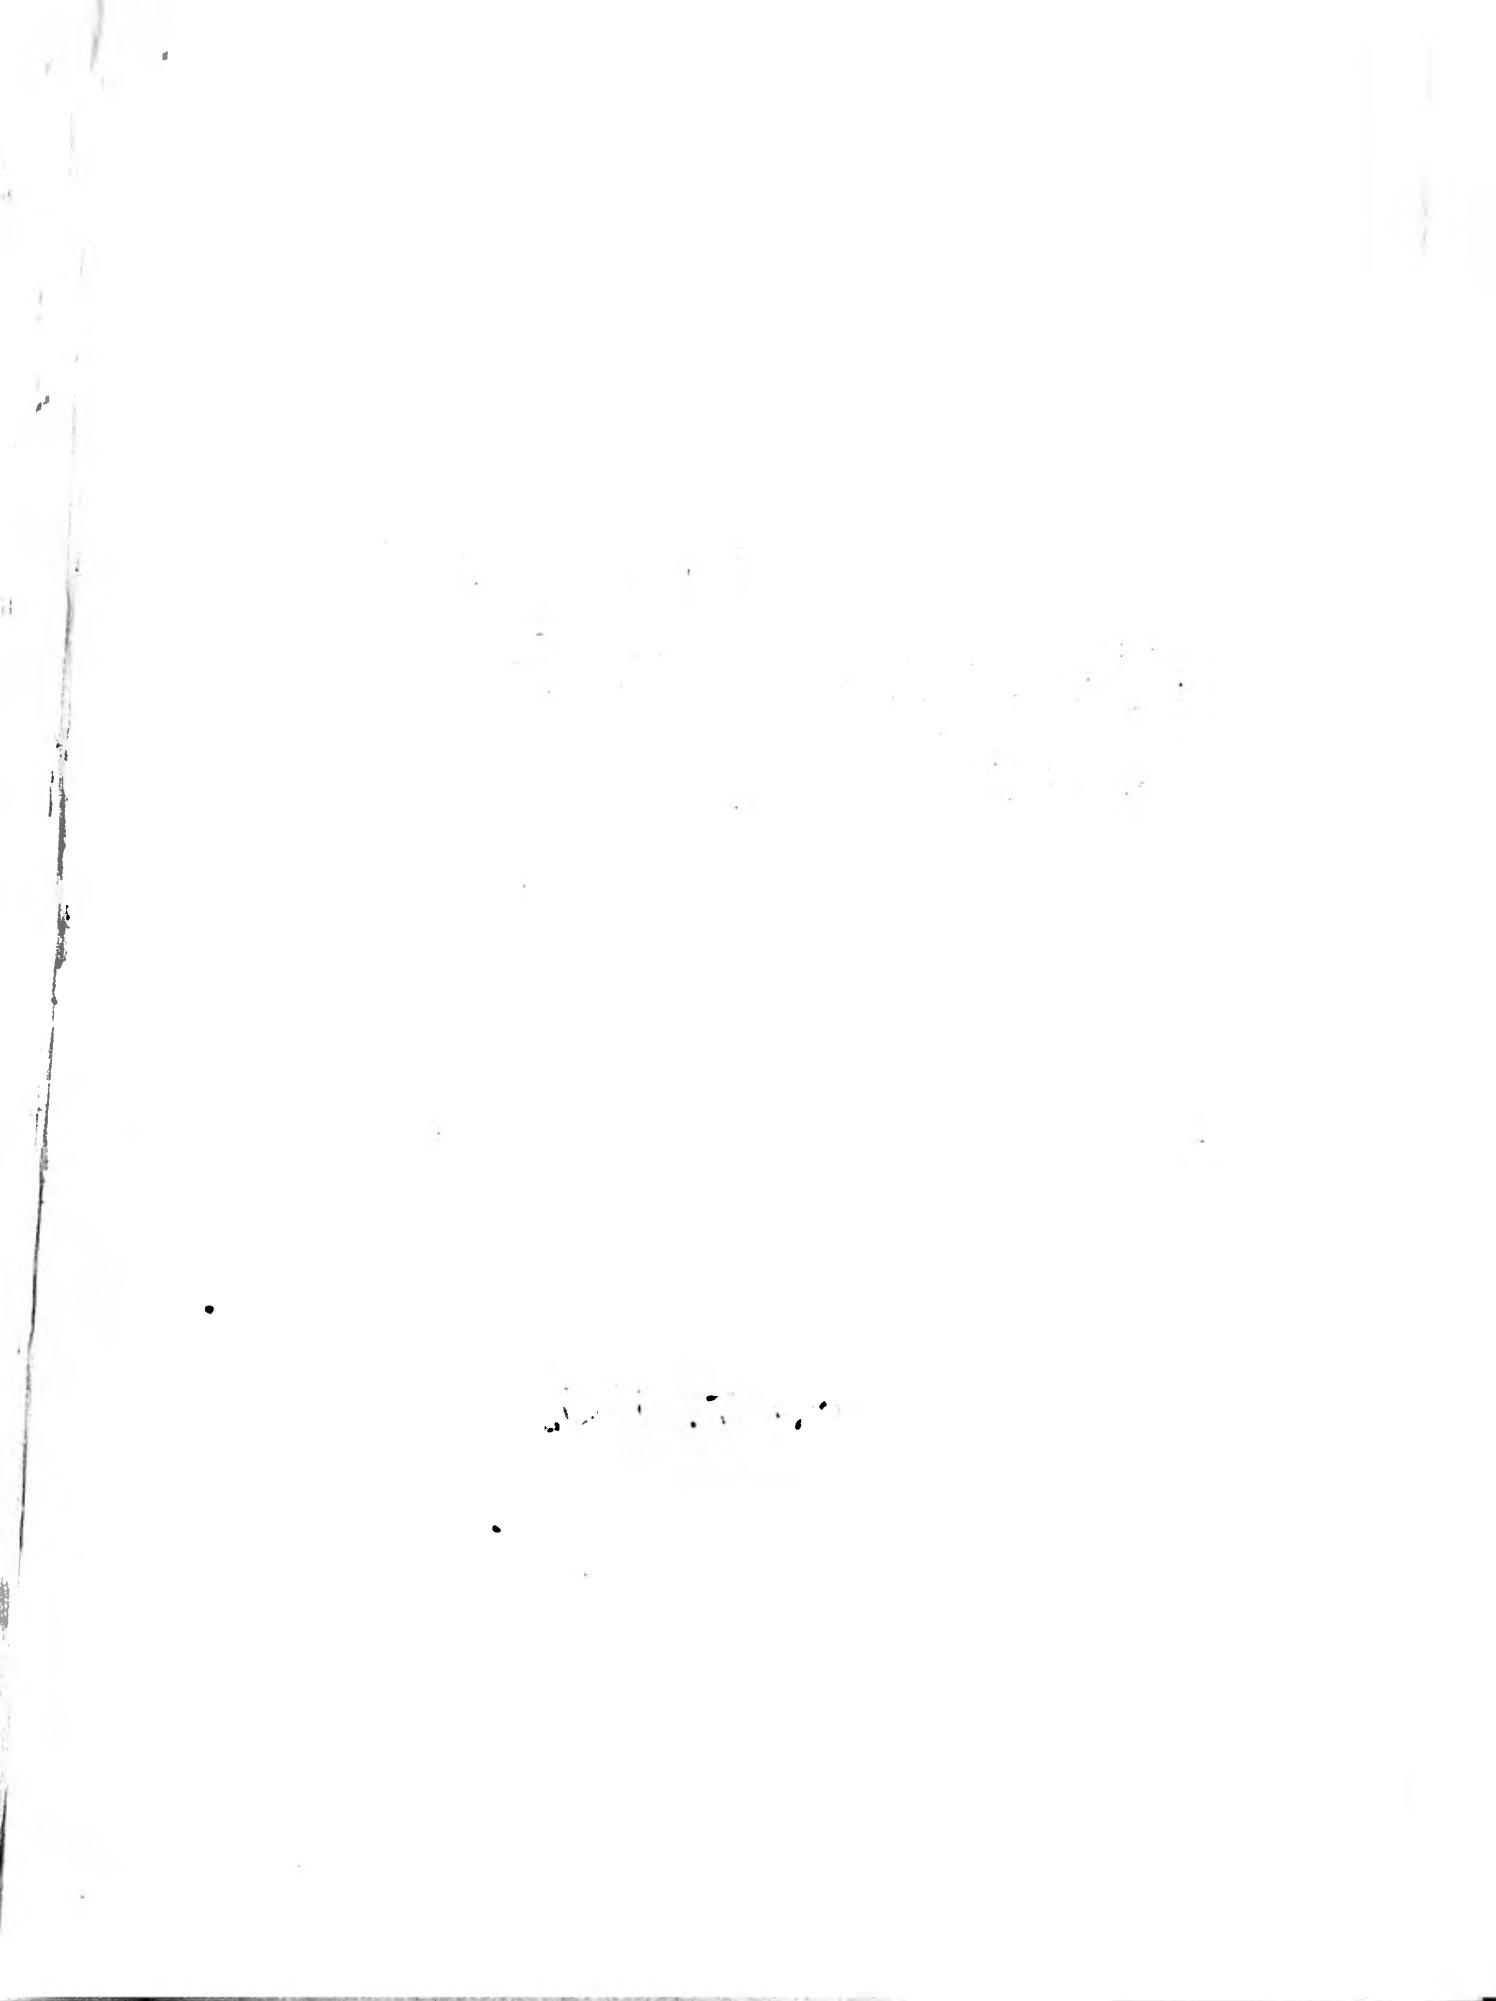

H. G. SOMMERFIELD

Chairman.

This (with the preceding page) is the report
of the Finance Committee referred to in
paragraph 1936 of the Council Minutes of the

RECOMMENDED that the matter be referred to the Housing (Special) Committee for further consideration.

1942 Temporary Staff—Valuation Department.—Councillor H. O. Syrett reported hereon;

The Duke of York, and £100 for general expenses, i.e., for marquees, band, refreshments, etc. on the day of the unveiling, and also the sum of £10 in connection with the ceremonial opening of the open air swimming bath by the Chairman of the Council on the 26th March, 1932, in order to prevent any difficulty at the audit, the Minister sanctioned the proposed expenditure, subject to the production of proper vouchers to the District Auditor.
