“That the Town Clerk be instructed to communicate with the Ministry of Health, pointing out that Housing Schemes had been formulated and financially planned upon the basis of the Government Subsidy as originally prescribed in the Housing Act, 1924, but that although the construction works had proceeded with all possible speed they were not complete at the 30th September, 1927, with the result that under the Revising Order issued by the Ministry a considerable proportion of the dwellings in each Scheme would qualify for Government Subsidy less than was anticipated, and could not therefore be let when completed at rents equal to those arranged for the remainder of the houses. The Ministry to be requested to take note that as the whole of the houses in the Schemes respectively were included in one contract, the cost of the houses would be the same whether completed before or after 30th September, and that in these circumstances the Council desired to ask that the revised and lower rate of Subsidy be not applied to any houses arranged for under building contracts which were entered into by the Council before the Ministry's order for reduction of Subsidy was promulgated.”

MAIN ROADS—FOOTPATH IMPROVEMENTS:

REPORTED: Letter from the Middlesex County Council as to the decision of the Minister of Transport to base the Classification Grants in respect of improvement works on "Claimed" Main Roads, as from 1st April, 1928, upon the contribution made by the County Council for such works.

In order that the full share of the Road Fund may be received by the County the County Council considered it inadvisable in future to call upon Claiming Authorities to make any contribution in respect of approved footpath improvements which come under the classification grant.

The undermentioned footpath improvements will be immediately affected by the decision and the County Council have accordingly decided to increase their contribution as follows:—

8.—ORTHOPÆDIC TREATMENT :

RESOLVED TO RECOMMEND—That the following report be approved and adopted with the exception that Bell Lane School be substituted for West Hendon Child Welfare Centre, subject to the accommodation at the school being satisfactory.

Ladies and Gentlemen,

Dr. Underwood, of the Board of Education, met the Special Sub-Committee consisting of Councillors Messrs. Hearn, Cartwright, and Weeks on 16th January, 1928.

Dr. Underwood, speaking of the work of the School Medical Service generally expressed the opinion that it was well planned and that it was being developed satisfactorily and on sound lines. He considered that the work had been to some extent hampered by restricted clinic accommodation.

He then proceeded to explain what was considered by the Board as an ideal Orthopædic Scheme and the following is a resumé of his remarks.

The central feature of such a scheme is the Orthopædic Hospital to which those cases which require hospital treatment are admitted. But an essential part of the scheme is a clinic in the district where out-patient treatment can be carried on.

There are two very important points about this out-patient treatment at the clinic.

1. The clinic must be visited periodically, say once a month, by a Specialist Orthopædic Surgeon and the treatment must be carried out by a specially trained orthopædic nurse who should attend at least twice a week.
2. The treatment in many cases is very prolonged and it is essential for success that the patients should attend regularly.

This was what made it so essential to have a clinic in the district.

As regards Hospital treatment this could be carried out satisfactorily at the Royal National Orthopædic Hospitals at Great Portland Street and Stanmore.

As regards a local clinic, Dr. Underwood considered that it would be possible to hold this at the West Hendon Child Welfare Centre.

Dr. Underwood also emphasized the importance of the treatment being made available for children below school age. (N.B.—This course had already been recommended by the Joint Medical Services Committee and approved by the Council).

Based on the above remarks of Dr. Underwood and on my report dated 22/6/27 the estimated cost would be as follows :—

	£	s.	d.
Hospital Treatment	180	10	0
Clinic Treatment—12 visits by Surgeon at £2 2s.	25	4	0
Attendance by nurse twice a week	50	0	0
Surgical boots, splints, etc., and bandages, plaster and other materials,			

I previously estimated this at £15, but on consideration I think this estimate is much too low. I now suggest an estimate of £45

45	0	0
----	---	---

Cost of Equipment of the Clinic :—

In an earlier report (28/9/25) I estimated this at £100 after consultation with the National Orthopaedic Hospital experts. Dr. Underwood rather suggested that very little was required in the way of equipment but I think it would be advisable to adopt my previous estimate. This cost would be non-recurring ... 100 0 0
