To the Urban District Council of Hendon.

Ladies and Gentlemen,

I have pleasure in submitting the following report on the progress made in the various branches of the Council's administration during my year of office as Chairman, which I hope may be of interest to you :—

1.—HENDON URBAN DISTRICT COUNCIL ACT, 1929 :

This measure not only provides for the ultimate extension of the District to include the Parish of Edgware, but also gives further important administrative powers. The Royal Assent was given on the 26th July, 1929.

The modified procedure for the submission of the Petition to His Majesty in Council has permitted unexpected progress to be made, and I am pleased to report that the Petition of the Council and the Petition of certain Inhabitant Householders was deposited at the Office of the Privy Council on the 26th April.

4.—PUBLIC LIBRARY:

The Central Library was opened by the Rt. Hon. the Earl of Elgin on Saturday, December 7th, 1929. Since that date the use made of it has exceeded all expectations, and without exaggeration we may say that already it is numbered amongst the busiest and most used libraries in the London area. On March 31st—barely four months after the opening day—the number of volumes in stock was 24,718, the total issues to that date were 129,103 volumes, and the number of persons enrolled as borrowers from the lending departments was 10,510. These last figures represent over 10 per cent. of the estimated population, and are gratifying evidence of the success and popularity of the Council's latest enterprise.

5.—HIGHWAYS IMPROVEMENTS:

Highway improvements have been carried out in the following roads:—

Bunns Lane.
Clitterhouse Lane.
Bridge Lane.
Finchley Road.
Hale Lane, and

Woodfield House and adjacent land, West Hendon	26	acres.

The Council have also purchased Ravensfield College and lands in connection therewith during the year.

The general improvement of the Council's Open Spaces has also been proceeded with, the following being the chief items dealt with :—

17.—ISOLATION HOSPITAL:

The New Isolation Hospital was opened on the 29th October, 1929, by H.R.H. Princess Louise.

The accommodation has already been severely taxed and further extensions have been found necessary. Plans for the addition of one Ward Pavilion of 30 beds, and an addition to the Administration Block having been generally approved by the Ministry of Health.

18.—MATERNITY AND CHILD WELFARE, AND SCHOOL MEDICAL SERVICES:

Plans for Maternity and Child Welfare Centres and School Clinics at West Hendon and Child's Hill have been submitted to the Ministry of Health. Sites for permanent Maternity and Child Welfare Centres and School Clinics at Mill Hill have been considered.

A large amount of Sanitary Inspection Work has been carried out, thereby effecting improvements in the sanitary condition of dwellings needing repairs and securing the abatement of nuisances.

Closing Orders were made in respect of eleven dwelling-houses which were found to be unfit for human habitation.

The extended powers contained in the Hendon Urban District Council Act, 1929, for the protection of foods, and for the remedying of insanitary conditions, have been found of great service in dealing with nuisances and other matters of an urgent character and also in bringing under control by registration certain premises where foods are cooked or preserved and where ice-cream is manufactured or sold.

549 animals have been examined at Slaughter-houses during and after slaughter, before being passed for human consumption.

In 63 instances overcrowding was abated by the granting of a Council House to overcrowded families, and on subsequent inspections it was found that no reletting had occurred so as to again cause overcrowding.

REVIEW OF DISTRICTS :

SUBMITTED : Letters from the Middlesex County Council, together with a copy of the report of the General Purposes Committee (dated 19th May) to be submitted to the County Council on the 29th instant. The report deals with the review of the following County Districts :—

Harrow-on-the-Hill Urban District
Hendon Urban District
Kingsbury Urban District
Wealdstone Urban District
Willesden Urban District
Wembley Urban District, and
Hendon Rural District,

and it is stated that the General Purposes Committee have " proceeded first " with this part of the County as the question of the alteration of local govern- " ment areas here is one of considerable urgency, owing to the fact that the " provisions of the Hendon Urban District Council Act, 1929, which transfers " the Parish of Edgware to the Hendon Urban District will come into operation " on the 1st April, next."

The following proposals are made as a basis for discussion at a Conference to be held at the Guildhall, Westminster, on the 12th June.

The amalgamation of the

The amalgamation of the

Urban District of Wembley,
Urban District of Kingsbury, and the
Urban District of Willesden,
together with the small part of the Hendon Urban District West of the Edgware Road.

In connection with the general question of the Review of County Districts the Council by resolution of the 28th October, 1929, informed the County Council that whilst the Urban District Council of Hendon have no desire to make a claim to any area in excess of that fixed by the Hendon Urban District Council Act, 1929, should the County Council or the Ministry of Health consider that it would assist them in the settlement of a comprehensive scheme for the alteration of administrative areas in north-west Middlesex, the Urban District Council would be prepared to give the most careful and prompt consideration to any suggestion which the County Council or the Ministry of Health might care to submit.

On receipt of copies of the applications of the various Authorities to the County Council, involving the possible transfer of parts of the Hendon Urban District, the Council by resolution of the 24th February last, informed the County Council that they were not prepared to agree to the alteration of the boundaries as outlined in such applications.

HENDON EDUCATION COMMITTEE.

REPORT.

The reference of the Town Council to the Standing Committees was to report on the administration and re-organisation of their respective services. The purpose of the following report is to review the present position of the administrative side of the Education Department and to provide some index to its commitments in the near future.

PART I.

The administrative duties of the Department were reviewed and re-organised from 1st January last.

A SCHOOL MANAGEMENT SECTION was organised, to which all the duties connected with the management of Elementary and Higher Education were allocaced. This work includes all those matters which are controlled by the Education Committee (in Committee) and the School Management, Works and Finance Sub-Committees. Amongst other details carried out the following are the main functions of this section, viz:- requisitions (schools and caretakers); maintenance and repair of the fabric of all school buildings; defective children (blind, deaf, dumb, mentally defective and physically defective); contracts for items not otherwise provided for; minutes; correspondence arising out of minutes as well as the routine of daily correspondence; data for estimates; Board of Education Returns (Forms 9 E. etc); Weekly, Monthly and Annual Returns from Schools; scholarships; interviews; etc. In addition to his general oversight of the whole of the routine of the Education Department in his capacity as Deputy, Mr. Barrow is specifically responsible for this branch of the work. In our opinion the duties allocated are too comprehensive and multifarious to be adequately and efficiently administered by the staff at our disposal. Much overtime has been worked cheerfully since the appointment on 1st November last of the Chief Education Officer.

A second section devoted to SALARIES AND ACCOUNTS has been organised, and Mr. Webber has been put in charge. The duties involved are administered by the Staffs & Salaries Sub-Committee. Some of the main functions are the assessments of individual salaries under the Burnham Scale, the certification of the Monthly Salary and Wages Sheets, the checking (not merely of the receipt of the article but also of the prices quoted, contract as well as catalogue) and the consequent complete certification of each account before presentation to the Treasurer's Department. Matters connected with the appointment of teachers and the staffing of schools, the engagement of 'supply' teachers, the correct recording in Service Books in respect of each Teacher on the Staff, the efficient certification of teachers' service who have immigrated from other areas, absences due to sickness or otherwise, school lettings, Institution Childrer Act and the arrangement and invigilation (when necessary) of external examinations (e.g. Royal Society of Arts, London Chamber of Commerce etc.) are other matters which are dealt with in this department.

The third Section consists of a SCHOOL ATTENDANCE DEPARTMENT, which is administered by Mr. Clark. There are six Atterdance Officers, of whom one is temporary. Having regard to the fact

that the area covers 13.1 sq. miles and that this will be further extended by another 3.3 sq. miles when Edgware is absorbed on 1st April 1931, We are of the opinion that the present temporary man should be replaced by a permanent addition to the staff. In the Scheme of Re-organisation it was estimated that the numbers on the roll on 1st August 1930 would be 10,986. For the week ended 6th June the actual numbers on the roll were 11,140. In the Scheme it was pointed out that the estimates of school population were based upon the actual numbers in attendance at that time and that it had been impossible to forecast additional numbers due to future housing developments in the area. The certainty is, therefore, that the numbers on the roll as estimated in the report on Re-organisation will prove to be an underestimate. It was further estimated at the same time that the numbers would rise to approximately 13,000 on the 1st August 1934. There is no census of the school population of the area in existence with the exception of the Watling District. It is essential that a complete schedule should be made at the earliest possible moment and revised annually. There is no information at our disposal as to the numbers of children in Private Schools. In this connection it was discovered quite accidentally a short time ago that there were two children aged 8 and 11, residing in Golders Green, who were receiving no instruction whatsoever. Until there is an accurate census of the school population, it will be impossible to prevent cases of this sort arising. The need for an accurate census is still more evident in the case of admissions of children to schools for the first time on attaining the compulsory age. At present children are being admitted to Infants' Departments any time during the course of a school term. Many do not seek for admission, until they have attained the age of 5½ or even 6. Such a system of admission renders the efficient organisation of the lowest Classes in an Infants' Department quite impossible. If an accurate census of births of children were available, head teachers would be informed at the commencement of each term of the names and addresses of all children within their school area who are required by Law to attend school. Children would be admitted during the first week of the school term only, and all children who attained the age of 5 during the course of the term would be eligible for admission during the first week of that term if their parents so desired. This proposal would prevent children straggling in at any time during the course of a term, a system which renders the first year of school life wasteful. This Department also deals with Hendon children attending schools under neighbouring Authorities as well as with those from outside districts attending Hendon Schools. It also grants employment licences to school children, and supervises their employment out of school hours. This is a very onerous duty in a scattered area like Hendon. The investigation into applications for Theatrical licences and the granting of such licences are other duties assigned.

The fourth Section is a JUVENILE EMPLOYMENT DEPARTMENT. It is true that the work attached to the Juvenile Employment Department in Hendon is considerably less than that in a distressed area. There the difficulty is to find jobs for boys; in Hendon the position is to find boys for the jobs available. It must, however, be pointed out that, when the school leaving age is raised to 15, the age of entry into Unemployment Insurance will be lowered to 15 years. This will mean additional work because about 800 - 900 extra Unemployment Books will need to be recorded. The duties of the Department have been considerably enlarged by the immigration of juvenile labour from distressed areas. Much additional work which must be done after the official office hours is incurred in the after-care of these boys and in the payment of wage subsidies out of the Lord Mayor's Fund. Finally, the work of the Juvenile Organisations Committee is administered by this Department. The activities of the J.O.C. and its affiliated Associations have grown tremendously during the last seven months.

There are certain essential duties connected with an efficient educational administration, which are not at present being completely performed owing to inadequate staffing. The stocks and stores of head teachers and caretakers, consumable as well as non-consumable, should be periodically checked. In our experience it is essential that stocks in all Departments should be verified and checked regularly. When we point out that your present estimates include the amount of £5,355 in respect of the provision of books, stationery, sports material and school libraries, the necessity for correct records need not be emphasised. In addition the sum of £420 is allocated to Caretakers for the provision of cleaning materials. Proper records should be set up and these prepared in collaboration with the Treasurer's Department. These figures will be a constantly increasing quantity year by year as the school roll grows and as the number of school Departments is added to in order to meet the developments of new Housing Estates. We have no means at out disposal of ensuring that minor repairs to school buildings, school equipment and school furniture are efficiently performed and that the Committee are obtaining value for the money which has been expended. Furthermore, the Committee are spending each year large sums of money on the provision of new furniture in the way of desks, blackboards, cupboards, easels, etc., and in our view it is a matter of extreme importance that we should be assured that the goods supplied are in strict accordance with the samples and specifications of the contracts. In addition, we would point out that when the School Attendance Bill becomes law, the application of Maintenance Allowances to children between the ages of 14 and 15 will impose a considerable increase in the administrative work of this Department. If Maintenance Allowances are to be paid, the most careful investigation of the particulars supplied by parents on their application forms must be made, and, in particular, statements with regard to earnings will need to be checked and verified by returns from employers. We are, moreover, convinced that these Maintenance Allowances will need to be very carefully reviewed at least once every quarter.

We are also certain that economy of effort can be applied to the present system of administration of the Cookery Centres. The present practice is that Cookery Teachers are supplied with requisition books, on which they requisition their materials from local tradesmen. In due time the tradesman forwards his account to the office for the necessary checking and certification. The Cookery Teacher collects money from children in respect of the ingredients used for cooking and pays this into the Treasurer's Department. The former practice has been to short circuit this work by granting each Cookery Teacher a petty cash allowance up to £10 at the beginning of each financial year. She keeps an account, in which she records payments and receipts, and balances up at the 31st March each year. Whatever is left out of her £10 allowance is refunded to the Treasurer and she makes a fresh start with another £10 at the beginning of the succeeding financial year. Such a system ensures wise spending, which is the essence of good housekeeping.

The Chief Education Officer has also found in the past that a Stores Department in respect of Caretakers' materials is economical and efficient. Brushes, soaps and cleaning materials of various sorts can be bought in bulk and distributed from the office. By way of illustration it is a very useful thing to require the production of an old brush before a new one is supplied out of store.

PART II.

The most careful attention is paid on all occasions to the necessity for economical and efficient management of this Department.

All accounts before being certified for payment are scrutinised with the greatest care to ensure that correct prices are stated and maximum discounts allowed. Each Head Teacher is informed at the commencement of each school year of the sum of money allocated in the way of requisitions, and a statement is issued each quarter stating the amount expended with the balance remaining. Wherever practicable, competitive prices are obtained. Contracts for goods required in quantities are obtained on all occasions, e.g. cleaning materials, laundering of school towels, window cleaning, etc. The Chief Education Officer states that having had ten years' experience in distressed areas in Lancashire, the necessity for a careful scrutiny of expenditure has obviously become a habit of his administration and the most careful watch is kept on all "outgoings".

This year for the first time the Committee have appointed thirty-five teachers straight from the Training Colleges. A saving in the annual salary bill of approximately £2,500 will result. It should be pointed out in addition that no increments will be due in respect of these thirty-five teachers until 1st April, 1932. We are informed that approximately £200 was spent during the last financial year in advertising vacancies and interviewing candidates for appointment. The expenditure under this head in connection with the most recent appointments will constitute a very considerable saving.

Arrangements have been made in the office, by which the consumption of water, gas, electric light, coke and coal are recorded in parallel columns quarter by quarter, in such a way that comparative consumptions can be obtained. One Caretaker has already been asked to explain why his quarterly water rate was £24. 18. 8d, whereas that of another Caretaker in a similar school amounted to £8. 12. 4d only. We cite this as an illustration of the detailed scrutiny, which is necessary to secure an economical and an efficient administration.

PART III - SUMMARY.

1. The following essential functions in an Education Department are not being discharged at present :-

   (a) The systematic checking of the Stocks and Stores of Head Teachers and Caretakers.

   (b) The compilation of a census of the school population in the whole of the area administered by the Education Committee. The only schedule at present available is that in respect of Watling. All schedules should be revised annually.

2. The following functions are not being administered adequately and efficiently :-

(a) Supervision of Caretakers.

   (i) Establishment of a Central Store - to provide Cleaning Materials, e.g. Brushes: Soaps: Buckets: Polishes: Electric light bulbs: Gas Mantles.

   (ii) Cleanliness of Schools and Sanitary Conveniences.

   (iii) Cleaners' Hours.

(b) Supervision of Minor Repairs in School Buildings and Practical Instruction Centres.

(i) Specifications for minor repairs: certification of work of contractors.

(ii) Boilers and Heating Apparatus.

(iii) Electric light and gas installations.

It should be noted quite definitely that no suggestion is made herein that major matters connected with School Buildings (such as planning of new Schools and extensive alterations to existing fabrics) should be controlled directly by the Education Department.

(c) Inspection and repairs of school furniture and the certification of furniture supplied under contract.

In connection with the control of School Buildings, Sites and Furnishings, the present Capital Value is £395,107 and the annual Loan Charges amount to £26,266.

3. NEW DUTIES.

The future additional commitments of the Education Committee will be brought about by the rapid expansion of the area and the proposed raising of the school leaving age from 1st April next.

(a) The phenomenal growth of the school population will be realised from the following statistics:-

School Roll	8th June 1928	....	7694
" "	7th June 1929	....	9601
" "	6th June 1930	....	11140

This latter figure is rapidly increasing, and it is estimated that it will rise to at least 13,000 by 1st August 1934.
The Staffing Establishment of Teachers will rise 'pari passu' from 279 in 1929 to a minimum of 349 in 1932.

(b) With the raising of the school leaving age, the age of entry into Unemployment Insurance will be lowered to 15 years from 16 as at present. This will mean an increase of 800 - 900 juvenile employment books upon the present commitments.

(c) With the granting of maintenance allowances to children between the ages of 14 and 15, a considerable amount of additional administrative work will be required.

(d) The district of Edgware comes into the educational administration on 1st April 1931.

4. The largest part of the Chief Education Officer's time is necessarily spent in inspectorial work in the schools - stimulus, suggestion and inspiration. A considerable amount of his attention is also devoted to the making of suitable arrangements to handle the problems which arise in such a conspicuous degree in an area which is expanding so rapidly. Most Authorities are finding difficulties associated with the school leaving age a sufficient tax; in Hendon as was pointed out recently by

the Board of Education there is the added complication of a rapidly growing school population irrespective of any lengthening of school life. He is therefore quite unable to give such an amount of his time to purely administrative work as was given by his predecessor.

5. ADDITIONAL STAFFING.

To carry out the proper functions of the Education Department with the maximum of efficiency, it is felt that the present staff should be strengthened by the following new appointments:-

(a) A Buildings Inspector (e.g. as in Hornsey where there is an average attendance of 6318).

(b) A permanent School Attendance Officer in place of the present temporary Officer.

(c) An Office Boy qualified by the possession of a matriculation or matriculation equivalent certificate.

A D D E N D U M.

As instructed by the Education Committee at their last meeting, we have to report that we, together with the Treasurer and the Chief Education Officer, have carefully considered the foregoing report and now submit the same direct to the Council as a matter of urgency with the following recommendations:-

PART III - SUMMARY. Paragraph 5 - "Additional Staffing".

(a) Buildings' Inspector.

THAT consideration of this matter be deferred, as the question of what steps should be taken in regard to minor repairs etc., consequent upon the retirement of the Handyman, has already been referred to a Special Sub-Committee.

(b) Permanent Attendance Officer.

THAT the recommendation regarding the appointment of a Permanent School Attendance Officer in place of the present temporary Officer be APPROVED.

(c) Office Boy.

THAT the recommendation regarding the appointment of an Office Boy be APPROVED.

(d) THAT the remainder of the report as now submitted (in which certain verbal alterations have been made) be APPROVED.

* 15.—ADMINISTRATION AND RE-ORGANIZATION:

Pursuant to the resolution passed by the Council on the 8th April last, the Committee considered a report from the Engineer containing suggestions which are calculated to effect economies in the working of some of the services coming within the purview of this Committee. A brief summary of the report is set out hereunder:—

(1) PUMPING STATION:

The Council at present maintain two pumping stations for lifting the low level sewerage into the high level sewer. When the pumping station which is to be erected in connection with the new Silk Valley Low Level Sewerage Scheme is completed it is anticipated that considerable sums at present spent on wages and maintenance will be saved. Further economies will accrue from the fact that a proportion of the electrical power required for the new pumping station will be supplied from the waste heat generated at the refuse disposal plant, and it will also probably be possible to eliminate the second pumping station.

(2) SEWAGE DISPOSAL WORKS:

The Sludge Pumping Station on the south side of the Brent, which is part of the southern outfall works, is at present operated by a boiler which has been in service 35 years and necessitates a considerable expenditure on maintenance. If this boiler is replaced by a modern electrically driven centrifugal pump which could be operated by the electrical energy which will be generated when the extensions to the refuse disposal plant are completed, the amount at present expended on boiler maintenance and fuel will be saved.

(3) COLLECTION OF HOUSE REFUSE:

House refuse is at present collected by three steam wagons, two Pagefield units and a number of horses and vans for use where mechanical vehicles are not suitable.

As a result of test costings which have been made during the past two years it has been ascertained that collection by Pagefield units is less costly than collection by steam wagons and trailers. The three steam wagons collect about 27 per cent. of the total refuse collected whilst the two Pagefield units account for about 43 per cent., and it is estimated that by wholly employing Pagefield units a substantial saving would result.

Two of the steam wagons were purchased as far back as 1920, and one of these vehicles is at present in such bad condition that it has been taken out of service and it is estimated that an expenditure of £150 would be necessary to put it in working order. In view of the saving which would accrue by adopting the Pagefield system of collection it is considered that the expenditure on repairs to the steam wagon is not justified and it is suggested that the three steam wagons should be replaced by two modern Pagefield units.

The Committee have carefully considered the suggestions contained in the report of the Surveyor, and

RESOLVED TO RECOMMEND—

(a) That the report be approved.

(b) That the Council approve in principle the question of replacing the three steam wagons by two Pagefield units and that the Surveyor and Treasurer be instructed to submit a joint report as soon as possible as to the best method of carrying out such replacement.

(c) That the foregoing recommendations be submitted for the consideration of the Finance and General Purposes Committee.

[The Finance and General Purposes Committee concur in the proposal contained in paragraph (b) of the above recommendations.]

The report referred to in item 3 of the report of the Libraries Committee, 8th July 1930; Minutes page 286.

LIBRARIES SUB-COMMITTEE.
(Re-Administration & Re-Organisation).

June 24th, 1930.

Mr. Councillor T.E. Carpenter, B.A., LL.B., (Chairman).

Messrs. Councillors W.M. Maughan, S. Sharpe and T.J. Scott.

ADMINISTRATION AND RE-ORGANISATION.

1. The Sub-Committee have carefully considered a memorandum submitted by the Chief Librarian and are of opinion that owing to the fact that the Libraries Department has so recently been established, and that the Central Library has not yet been working for a full year, it would be extremely difficult to suggest any great economy or proposals for re-organisation, without cutting down the public service.

2. If the various heads of expenditure in the current estimates be examined it will be noted that several are for fixed charges, one of which - Loan Charges - accounts for over 25 per cent. of the total expenditure on the Central Library, and others are for the maintenance, heating, lighting, insurance, etc., of the building and its contents. It is possible, of course, that with a little longer experience of working some saving may be made on certain items, but on the other hand the natural increase in the use made of the library would seem likely to cancel out any economies that might thus be effected.

3. BOOKS AND BINDING. It is probable that no reduction in the expenditure on books and binding will be found possible or even desirable if the library is to function efficiently and satisfy the demands that doubtless will be made upon it more and more by its constantly increasing body of readers. The number of registered borrowers on June 24th was 12,007, an increase of 349 since June 1st.

4. So far from being able to economise on these items, it may be necessary for the Committee next year to ask for an increase in the expenditure on the stock if it is to be kept up to date and in good condition. In a busy library this is no light task, for a large circulation necessarily entails heavy wear and tear on books, which, like machinery, become obsolete or worn out and should be scrapped in the interests of efficiency. As the Central Library grows it will reach the position when at least 2 volumes should be discarded for every 5 added.

5. From the very beginning particular care has been taken not only in selecting books but also in obtaining them as cheaply as possible. For example, the average cost of the initial stock worked out at about 5/9d. per volume. This will be regarded as satisfactory when it is remembered that this low average covered a great number of costly books for the lending as well as the reference department, many of them scarce and out of print items.

6. The following is a selection only of the examples that could be cited in support of this statement : -

Author and Title.	Auction, quoted or pubd. price.	Price paid.
Bancroft: History of the United States.	£ 3.10.0.	12/6
Dowden: Life of Shelley.	£4 - £5	16/-
Green: Town life in 15th Century.	£ 3.10.0.	2/-
Hazlitt: Collected works.	£25 - £28	£18.18.0.
Littré: French Dictionary.	£ 4.10.0.	5/-
Oxford English Dictionary.	£ 68	£ 36
Racinet: Le Costume historique.	£ 30	£ 22

Such results were only made possible by securing and comparing reports on the library booklists from nearly 100 booksellers in various parts of the country.

7. A higher average cost may be expected of present and future purchases, as a greater proportion of the additions from now onwards will be of current publications. Nevertheless, the same practice of combing the market for books at less than published price is being and will be followed, it is hoped with equally good results.

8. PRINTING, STATIONERY, ETC. From the inception of the library strict economy has been observed in the consumption of staticnery and other supplies, and every effort made to avoid waste. All stationery not required for current use is kept in locked cupboards, the key of which is held by one assistant who is responsible for a weekly issue of supplies, and also for fresh requisitions.

9. PERIODICALS. It is suggested that a saving of £21.11.3. per annum would be effected on this item if the supply of periodicals for which there is little or no demand were discontinued.

10. STAFF. The following is the composition of the staff : -

1 Chief Librarian.
1 Sub-Librarian.
1 Children's Librarian.
2 Senior Assistants.
7 Junior Assistants.
1 Typist.

There are also the resident caretaker, his assistant, and two women cleaners who together work the 42 "cleaning hours" per week that he is allowed.

11. It is the Sub-Committee's opinion that the existing staff is the minimum required for present needs - to give adequate public service, to carry out necessary workroom duties, and to ensure the efficient cleaning and patrolling of the building. Each person is fully engaged upon essential duties, all unnecessary work having been eliminated.

12. The library is open 72 hours and the staff nominally work 42 hours a week, but it is not unusual for individual members to return in off duty time, without being instructed, in order to clear up arrears. The time sheet has to allow for a sufficient number to be available for duty in the public departments at all times, with particular attention to what experience has proved to be the busiest periods each day. Provision has also to be made for workroom duty.

13. The caretakers work an average of 48 hours each week, 12 of which, however, are in the early mornings (before the library is open) in order that the public departments may be cleaned before opening time. One or other of the men is on cleaning or hall duty continuously from 7 a.m. to 9 p.m. each day.

14. The public service has priority over all other work, and much of the staff time naturally is taken up by it. Such service includes not only the actual issuing and receiving of books, but also their return to the shelves, and the general tidying of the lending departments, which is an hourly duty.

15. Next in order of importance is the work connected with the supply of books - their selection, purchase, preparation for circulation etc. This occupies a great deal of time, as it includes the examination of many periodicals and bibliographies for titles, the preparation of lists, checking of booksellers' reports, etc. It may be observed that each book from the time of its delivery by the bookseller until it is put on the shelves for issue must go through eleven processes, and may go through fourteen. These include the checking of invoices and order-cards, stamping, labelling, classification, entering in accessions register, writing of shelf register cards, book-cards and book-pockets, and cataloguing.

16. The following are details of some workroom and other duties carried out by the staff since the beginirg of April : -

Repairs to Books	1155
Books reserved	340
Overdue notices sent	1720
* Books labelled	2680
* Books stamped	2335
* Book-cards, book-pockets and shelf register cards written	3885
Entered in accessions register	2556
* Catalogue cards written	3083

* includes school libraries.

Some of these duties progressively increase in volume, and will continue to do so as long as the service expands; others mean more than appears at first sight. For example, the number of books repaired by the staff was 247 in April, and 611 in May. Before overdue notices are posted each book must be searched for on the shelves.

17. The senior staff in particular devote as much time as can be afforded to assisting readers in all departments in their search for books or information. In the lending department alone it is quite usual for 10 queries to be dealt with in one hour. Such advisory work cannot be statistically recorded, and yet its satisfactory performance contributes in no small degree to the well-being of the library, and the esteem with which it is regarded by the general body of readers who directly or indirectly are paying for its upkeep.

18. Finally, there remains to be considered the time devoted to the school library service. The school libraries now number 24 as against 12 in July 1929. Even before the present system was installed they took up the whole time of the children's librarian. They now occupy the time of more than one assistant, though the duties are shared by three or four.

19. The Sub-Committee inspected certain records. They are satisfied that the strictest economy is being observed, and record their appreciation of the organisation of the department generally.

RESOLVED TO RECOMMEND : -

(i) That the periodicals enumerated in the list submitted by the Chief Librarian be discontinued.

(ii) That this report be circulated to the members of the Council.

NOTES—EDUCATION COMMITTEE.

Note of Amendment.	No. in detailed Estimate.	Explanation.	Amount.
		PROPOSED ADDITIONS.	
1	3	**Domestic Subjects.**—The Nett Outlay only was shewn, though credit had been taken in full for Sundry Sales. Addition required to restore gross outlay ...	£300
2	6	**Fuel.**—The estimate was based on prices then current. Tenders received shewed an increase of 3/6 per ton in the price of coke and 1/- per ton in the price of coal. Addition required	£130
3	14	**General Maintenance—School Sites.**—Cost of extra land and tithe redemption, Meads No. 2 Site	£105
4	9	**Cleaning Materials.**—"Dusmo" Powder experiment	£40
5	10	**Goldbeaters School Manual Room.**—Extension of 9 inch S.W. Drain, Landing and part renewal of wood block flooring	£70
		Total Amendments—Additions	£645

Note as to School Libraries.—An addition of £162 has been made to this account (details on page7). Substantive grant will accrue in respect of this outlay, reducing the Nett Cost to the Rates to £81. Sufficient is allowed under heads 14 and 22 (page 16) to cover this nett sum, hence no addition has been made to the totals.

		PROPOSED REDUCTIONS.	
6	1	**Teachers' Salaries.**—A careful scrutiny of the figures has been made. It was thought that a larger saving would be effected by the early replacement of Supply Teachers, but it has not been possible to make changes until after the Summer Holidays. On the other hand, owing to the fact that new Teachers are being appointed direct from Training Colleges, a saving can be effected	£750
7	10	**Repairs to Schools.**—Only one playground has been specially treated at a cost of £95. The sum provided was £250, but as certain further works may be necessary a reduction is suggested	£100
8	21	**Travelling Expenses, etc.**—The necessity for paying candidates' expenses and a reduction in the cost of advertising has been effected as a result of the policy of interviewing candidates at Training Colleges	£100
9	24	**Medical Services.**—Owing to certain delays in the erection of the New Clinics the amounts estimated to be charged to the Education Account may be reduced. There is also a reduction in the Committee's share of running the Medical Officer's car	£250
10	27	**Loan Charges.**—When the Estimates were prepared in February it was difficult to forecast the progress of new School Buildings. The charges have now been recalculated on the basis of ascertained committments and a reduction can be effected	£1000
		Total Amendments—Deduction	£2200

Reported on page 10 and 11.

RECESS ITEMS:

(*a*) EDNA JONES (17/1/21):

This case was brought to the notice of the Committee by the Middlesex Public Assistance Officer during recess. The child was examined by the Committee's School Medical Officer who reported that she had a corneal ulcer on her right eye with some conjunctivitis, that the left eye was also becoming affected and that the child should be admitted to the White Oak Ophthalmic School, Swanley, Kent, for treatment as soon as possible. This school is unfortunately not recognised by the Board of Education for grant purposes but in view of the urgency of the matter Mr. Councillor S. H. Egan, J.P., F.R.I.B.A., and Mr. Councillor T. E. Carpenter, B.A., LL.B., gave authority for the admission of the child to the above school on the 23rd July, 1930. The cost to the Committee is at the rate of 7/6 per day.

(*b*) MENTALLY DEFECTIVE CHILDREN:

The Committee having agreed to undertake responsibility for the education of two further M.D. children (making four in all) at the Special M.D. Day School, Finchley, the question arose as to the safe transport of these children to and from the school. The Education Act, 1921, gives the Local Education Authority power to appoint a guide for conducting children to and from Special Schools. As three of the children in question live on the Watling Estate, which necessitates a complicated and dangerous journey for a mentally defective child, the matter was discussed with Mr. Councillor Egan, Chairman of the Education Committee, and Mr. Councillor Rice, Chairman of the Council, who gave authority for the appointment of a suitable guide.

In accordance therewith Miss Margaret Ann McIntyre, 16 years of age, of 56, Mostyn Road, Watling Estate, was appointed from the 25th August, 1930, with salary at the rate of £60 per annum, for part-time duty as a guide, and for part-time duty in the Education Department.

[*The Finance and General Purposes Committee confirm the appointment at salary according to scale and have given instructions for the necessary insurance to be effected in respect of her duties as a Guide.*]

(*c*) MARJORIE FIELD (28/5/20); DOUGLAS PULFORD (29/5/17):

Medical certificates have been received advising that these children should be allowed to remain at West Wickham Hospital and Brooklands Home, Worthing, respectively, for treatment for a further period of one month. The Chairman of the Education Committee has given authority accordingly.

The above items were noted and **approved.**

The Chief Education Officer reported that the School Medical Officer had already attended a preliminary conference of Medical Officers on this matter and that a further conference of the authorities concerned would be held towards the end of the present month with a view to fixing some agreed figure for payment for the services asked for by the Middlesex Education Committee.

Application No. A.350.

SUBMITTED: The above application for the construction of new roads on the Woodlands Estate, between Colindeep Lane and Edgware Road. It appears that at the present time no main sewer exists to which the sewage from the proposed roads can be connected, but the Council's new Low Level Relief Sewer when constructed will give the Estate the necessary outlet. In the meantime, however, the applicant proposes to instal a Pumping Station and pump the sewage from the Estate up into the existing sewer in New Way.

RESOLVED TO RECOMMEND—**That the proposal be approved, subject to the following conditions:—**

(*a*) The applicant to enter into an agreement to provide and maintain the Pumping Station to the Council's satisfaction until such time as the main sewer is available, and to indemnify the Council against any action which may be brought against them as a consequence of the erection or failure of the Pumping Station in question.

(*b*) As soon as the main sewer is available the applicant to make the necessary connection between the existing sewers and the new sewer at his own expense, and dismantle and remove the Pumping Station.

(*c*) The applicant to grant the Council a free easement through the roads on his Estate for the new main sewer proposed to be laid.

(*d*) The applicant to enter into a Guarantee Bond with an approved Society in the sum of £500 for the due performance of the above conditions.

[*Having considered the matter in its financial bearing, the Finance and General Purposes Committee concur in the proposal contained in condition* (*d*).]

Bradshaw. (B. & T.P. Committee, 16/6/30—Item 16).

RESOLVED TO RECOMMEND—**That the Council adhere to their previous decision in the matter.**

Boundaries Extension Committee.

17*th September*, 1930.

Present: Mr. Councillor A. J. Reynolds (Chairman), Messrs. Councillors T. E. Carpenter, B.A., LL.B., W. R. Clemens, F.C.A., P. Lightfoot, and F. C. Rice, J.P.

REVIEW OF DISTRICTS:

The Committee have carefully considered the present situation in relation to the applications of neighbouring Authorities to the County Council which might affect the boundaries of the Urban District. At the last meeting of the County Council the General Purposes Committee reported that they had decided to defer consideration of the review of districts until after the recess, when it was hoped more would be known of the Government's proposed Bill relative to education administration, and the following recommendations were adopted.

That representations be made to the President of the Board of Education and to the Minister of Health for the inclusion in the Bill proposed by the Government to be introduced into Parliament to obviate the creation by Orders under the Local Government Act, 1929, of new authorities for elementary education, of provisions whereby arrangements may be made that, in the case of the extension of a County District, the Council of which is the authority for elementary education, by the inclusion therein of the whole or part of another County District the elementary education authority for which is the County Council, the County Council shall continue to be the elementary education authority for the added area pending the passing of legislation reorganizing the whole system of educational administration throughout the country and for the inclusion of similar provisions as regards the creation of new Boroughs.

That, in view of the difficulties with which the County Council are confronted in making proposals to the Minister of Health with respect to the Rural District of Hendon under Section 46 of the Local Government Act, 1929, by reason of the present uncertainty as to the forthcoming amendment of the law relating to the administration of elementary education, the Minister be urged to make an Order deferring the operation of Part II of the Hendon Urban District Council Act, 1929 (relating to the transfer of the Parish of Edgware to the Hendon Urban District), until the 1st April, 1932.

In connection with the resolution regarding the operation of Part II of the Hendon Act, 1929, it is understood that the Minister of Health will not make the suggested order of postponement without first giving the Council an opportunity of being heard.

West Hendon.

The Committee have received a letter from Mr. Councillor G. R. Richardson, Honorary Secretary to the Committee (appointed at a Public Meeting on the 18th June) for the Preservation of the Unity of West Hendon expressing their willingness to co-operate in any measures which the Council may consider advisable.

The Committee will be glad to avail themselves of the offer as and when the occasion arises.

Garden Suburb and Mill Hill.

The petition of the Residents of the Garden Suburb Ward recording their "emphatic protest against the action of the Finchley Urban District in seeking to absorb the Hampstead Garden Suburb," which was presented at the meeting of the Council on the 8th instant, was considered.

The Committee RECOMMEND—

(*a*) **That the Council appoint a Member for the Garden Suburb Ward to serve on the Boundaries Extension Committee.**

(*b*) **That particulars relating to the Petition of the Residents of the Carden Suburb Ward be furnished to the Middlesex County Council.**

(*c*) **That the Hendon Members on the Middlesex County Council be furnished with data in connection with the proposals of the Willesden and Finchley Urban District Councils.**

Encorporation Committee.

22nd September, 1930.

Present: Mr. Councillor F. C. Rice, J.P. (Chairman), Messrs. Councillors T. E. Carpenter, B.A., LL.B., W. R. Clemens, F.C.A., E. Holt, J.P., W. M. Maughan, and S. Sharpe.

RESOLUTIONS OF THE MIDDLESEX COUNTY COUNCIL:

REPORTED: That the Middlesex County Council on an enquiry from the Privy Council passed a resolution (on the recommendation of the General Purposes Committee), on the 29th May to the effect that the first General Review of Districts would not affect the Urban District Council of Hendon to such an extent as to warrant the postponement of the consideration of the petition of the Council praying for the grant of a Charter of Incorporation.

FURTHER REPORTED: That at a meeting of the County Council held on the 31st July, the Parliamentary Committee on reviewing further applications submitted by other Authorities for a Charter, had recommended :—

That the Privy Council be requested to defer the consideration of all applications for grants of Charters of Incorporation until such time as the General Review of the County Districts under Section 46 of the Local Government Act, 1929, be completed.

The recommendation was approved by the County Council.

RESOLVED TO RECOMMEND—**That a communication be addressed to the Privy Council recording the Council's emphatic protest against the suggestion of the Middlesex County Council that the Privy Council should defer consideration of the Council's application for the grant of a Charter Incorporating the Urban District of Hendon as a Municipal Borough.**

* 9.—COUNCIL AGENDA:

SUBMITTED: Application of the Hendon Divisional Labour Party (Burnt Oak and Watling Group) for copies of the Council Minutes and Agenda.

In connection with the consideration of making a charge for copies of the Council Agenda, the Committee have deferred the matter until the next meeting.

* 10.—BYE-LAWS:

SUBMITTED: The following resolution from the Hendon Chamber of Commerce:—

"That this Chamber of Commerce protests against the passing of the byelaw relating to the employment of children, between the ages of 12 and 14 years, on Sundays, without the Council first acquainting the Chamber of Commerce of their intention so to do, and asks that in future when local legislation affecting traders is proposed, the Chamber shall be notified by the Council in time for them to consider the matter and place their views before the Council."

A period of thirty days will be given during which representations may be made to the Secretary of State, Home Office in connection with the proposed amendment to the bye-laws referred to, but the above representation raises the general principle of consulting the Chamber on any future occasion when bye-laws affecting traders are considered.

NOTES.
