November. 21st. 1894.

Sir - I have the honour to report for the information of your Board that I have audited its accounts for the year ended at Lady day last.

I have found them kept to my entire satisfaction.

The collection of the rates had been carried on with systematic regularity and at the close of the year exhibited a comparatively trifling amount of outstanding arrears. The private improvement rates also showed a satisfactory result with regard to the collection of the several amounts due

I noticed, especially, in all the accounts that an unusual amount of supervision had been devoted by the members of the Board, and especially by the members of the Finance Committee, to the most minute details of the accounts of the Board.

It is a matter of satisfaction that the financial interests of the ratepayers have thus received, as they ought to receive, the constant and vigilant supervision of their representatives.

I am Sir. Your obedient Servant
